REPORT OF VALUE ADDED COURSE CONDUCTED FROM 22/07/2022 TO 08/08/2022 ON

THE COURSE CALLED INNOVATION AND DESIGN.

Resource person: PROF. BALA A

No of students attended : 93

Course Duration : 30 Hrs

Pre-Requisite : None

No of students attended: 93

Innovation and design fuel each other: innovation provides the breakthrough ideas and technologies, while design transforms these innovations into tangible solutions that meet real-world needs. They are essential in sectors ranging from technology and healthcare to fashion and architecture, driving economic growth, societal progress, and improving quality of life.

Course Outcomes

1	Understand the core principles of innovation and design thinking.
2	Apply design thinking methodologies to identify and solve real-world problems.
3	Develop user empathy and conduct user research.
4	Generate creative ideas through brainstorming and ideation techniques.
5	Prototype solutions for rapid iteration and testing.
6	Communicate design concepts effectively.

Module 1	Introduction to Innovation and Design Thinking	Hours
	Defining innovation and its importance in today's world.	2
	Understanding the design thinking process and its core principles (Empathy, Define, Ideate, Prototype, Test).	4
	Case studies of successful innovations driven by design thinking.	2

Module 2	User Research and Empathy	Hours
