MENTORSHIP PROGRAMME OF REGIONAL COLLEGE OF MANAGEMENT BANGALORE.

One of the Best Practices of Regional College of Management Bangalore is its signature programme named as “Mentorship Programme”. The entire student community is assigned to 9 to 10 Mentors in a group of not more than 20 students in each group.

The Mentorship Program at our College is meticulously designed to ensure that students are not only academically proficient but also "corporate ready." This program pairs students with experienced mentors from the industry who guide them through the nuances of corporate culture, expectations, and real-world challenges. Emphasis is placed on corporate readiness through a structured curriculum that includes workshops and several engaging activities on business etiquette, communication skills, and professional behavior.

Students participate in mock interviews, resume building sessions, and case study analyses to develop a practical understanding of what employers seek. This hands-on approach is supplemented by opportunities for networking with industry leaders, internships, and live projects that provide invaluable real-world experience.

In addition to corporate readiness, the program also focuses on holistic professional and soft skill development. Mentors work closely with students to enhance their leadership, teamwork, and problem-solving abilities, which are crucial for thriving in the corporate environment. Regular feedback sessions help students identify their strengths and areas for improvement, focusing in their continuous personal and professional growth. The comprehensive nature of the program ensures that graduates are not just knowledgeable in their respective fields, but also equipped with the interpersonal skills and professional demeanor necessary to navigate and excel in the dynamic corporate world. This dual focus on technical and soft skills prepares students to make a seamless transition from academia to industry, making them highly competitive and effective in their future careers.

Mentorship class helped me a lot in many ways. Before I was introverted and Scopophobia. But now because of mentorship class I'm improving in this area. Special thanks to my mentor and every professor of RCMB for conducting this mentorship class.

Anshad kunnath parambil (MBA)

This Mentorship programme has personally boosted my confidence. By having a "go to" person to ask questions, discuss scenarios and generally learn the case study of the company. Even though I'm stammering and not able to express my words clearly, it has been improving day by day. It is quite efficient to clear out the communication gap. It has improved me a lot and looking forward to improve my communication skills, decision making skills, social and academic skills and to gain encouragement and support.

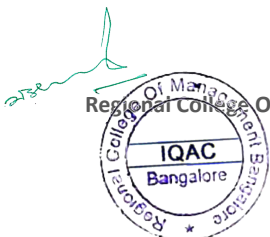

Sheethal Krishnanunni (MBA)

My mentor for the program is Prof. Sudip Kumar Sen. Before the mentoring sessions, I was very shy with the crowd, I've had stage fear, nervousness, and it's only after the mentoring session I've gained confidence to express out in crowd or a bunch of people! I had a good time interacting with new friends!

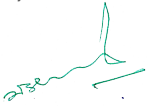

Omkar Sankapal (MBA)

The mentorship session was very inspiring and uplifting. I found it incredibly helpful. It encouraged me to look at things in a different way and helped me to be able to take a more objective perspective on my achievements, career development options and future plans. Special thanks to my mentor.
