Other common service vocations including financial advisers, radio hosts, health personnel, event organizers, apparel stylists, and personal trainers exist in addition to those just mentioned. Despite their point of view, many service occupations are often seen as being low-value, low-skilled labour. This perception might result from the word service's original meaning, which refers to servants and slaves as a type of activity that disappears as it is used or consumed because the consumption or use occurs at the same time as it is provided. An OxfordA client is defined as a person who buys goods or services from a shop or business in the dictionary of English, whereas a service is defined as the action of helping or doing work for someone. According to ISO 41001 (2017), a service is a non-primary activity that supports an organization's main operations or principal activities[4], [5]. In terms of

customers, this chapter leans towards the definition given in ISO 41011, which refers to the client, the customer, and the end user as a demand Organisation. According to EN 15221-1, customers are those who request and order the delivery of a service, clients are those who make the service purchase, and end users are those who actually get the service. All three of these stakeholders are referred to as customers [6]–[8].

It's common to think of a service as a non-physical activity that can't be seen or touched. According to some, services are collections of activities that often include interactions between the client and service personnel as well as resources, items, and/or systems. Others define services as economical activities whose output is not a physical product or construction. Still others refer to services and/or activities as acts, processes, and performances. Here, the term service refers to a procedure involving transient actions that almost certainly require communication between a provider and a customer. Aiming to comprehend the service, operations, and management processes associated with them, service research has expanded as a result of the service industry's global expansion over the last 50 years or more. According to Johnsto, a lot of research has been conducted that is grounded on theories and methodologies from several viewpoints, including those from the fields of marketing, operations, organisational behaviour, and human resource management (HRM). The service management theory, its key concepts, and its relevance to workplace management research and practises are covered in this chapter. It is noteworthy in this context that services play a significant role in the facility management (FM) field, which is closely tied to workplace management study. Services within FM may relate to both hard and soft services, taking pieces, nibbles, and behaviour into account[9]–[11].

### DISCUSSION

Service management addresses several issues that arise in firms and approaches organisational transformation holistically. A brief literature review focusing several disciplinary approaches to service management is shown in Table. 1. Service research, a subfield of operations management, examines the design, planning, regulating, and administration of services while addressing the Organising conundrum. The main claim is that the caliber of internal processes affects the caliber of external services. The client is acknowledged as a value co-creator. Researchers in the field of marketing examine the interactions between a service provider and a client. The fundamental tenet is that improved value and satisfaction are directly related to service quality interactions between employees and customers. Studies in the field of human resource management (HRM) concentrate on the empowerment of service workers as a source of competitive advantage. Employees are seen as internal clients that need service as well. Instead, then focusing on dyadic interactions, the discipline of organisational management studies networks to better understand how linkages between internal and external processes, consumers, workers, and the market operate. The development of a unique service management philosophy was most heavily inspired by the aforementioned four disciplines. The key findings of research in these fields helped people to comprehend. Table. 1 Emerging service management themes studied in multiple disciplines. According to Grönroos (1994), service management is an all-encompassing organisational strategy that emphasises the following four elements:

1. Creating value for the customer.
2. Minimizing silos by collaborating internally and externally.
3. Focusing on quality.
4. Developing personnel.

According to Grönroos and Gummerus, service management places a strong focus on the customer-centric approach to business and makes use of the value-in-use (UT) knowledge. The focus of service management, according to Grönroos, switches from internal efficiency to the customer and/or market, cultivating long-term client connections, and focusing on the

perceived overall quality of goods or services. The general management concepts, in the authors' opinion, place too much emphasis on economies of scale and cost reduction, while service management assesses the cost of quality. Discussions of costs and risks, however, are not covered in this chapter.

### Creating Value for the Customer

Understanding the relationships between the players and the process of producing value has been essential. Although value in service management is seen as a particular customer's desire, it also tackles the idea of customer/service experience in addition to focusing on assessing value via customer satisfaction. For instance, Grönroos et al. claim that when consumers have an impact on the outcome of a service, experienced value for the parties is co-created. Thus, value is produced by combining knowledge, technological, human, and organisational resources.

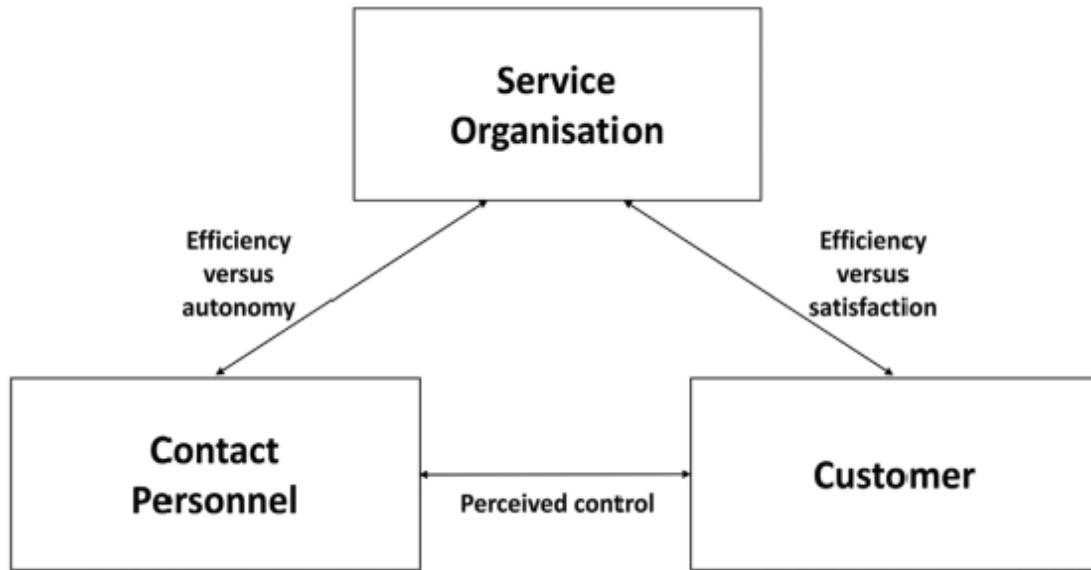

The phrase customer's journey with a firm over time during the purchase cycle across multiple touchpoints may be used to describe the customer/service experience. The encounter itself, the immediate before to the encounter, and the immediate after the encounter are included in it. The focus in this case is on the ongoing nature of the service and the need for network-wide coordination across various actors and diverse processes. According to Voorhees et al., there are three different sorts of service interactions, and they are as follows:

1. The pre-core service encounter, which is the time leading up to the core encounter that encourages consumers to interact with the company.
2. The core service encounter, which is defined as the time period during which the primary service offering is provided to the customer in order to meet the customer's requirement.
3. The post-core service interaction, when the client evaluates his own experience.

These times include several players and are impacted by both physical and intangible service qualities. Service interactions at various touchpoints with staff members, other clients, or other divisions of the business are what shape the entire experience. Therefore, service strategy, organisational design, and procedures must all be in harmony to provide a pleasant experience.

The need for a thorough knowledge of the consumer is a typical problem in building the customer experience. As a result, several techniques for including and involving customers have been created and used in both research and practises, including empathic design, living labs, information acceleration, and free elicitation.

**Figure 1: Representing the Service Encounter Triad[Library Open].**

**Focus on Quality**

To provide value to the consumer, the whole service delivery process from back-office tasks to client interactions must be coordinated. The customer's expectations for the quality of the service must be met during the service engagement. Consequently, one of the key factors influencing customer satisfaction may be regarded to be the quality of a service. The quality component of service management is studied from the viewpoints of internal process quality and external service quality. It outlines the function of operations and the manner in which service is provided and evaluated. So in Figure. 1. In his discussion of the various aspects of service quality, Grönroos distinguished between image factors the way the service process and result are perceived and technical quality the manner in which the service is delivered, such as staff attitudes or staff smoothness.

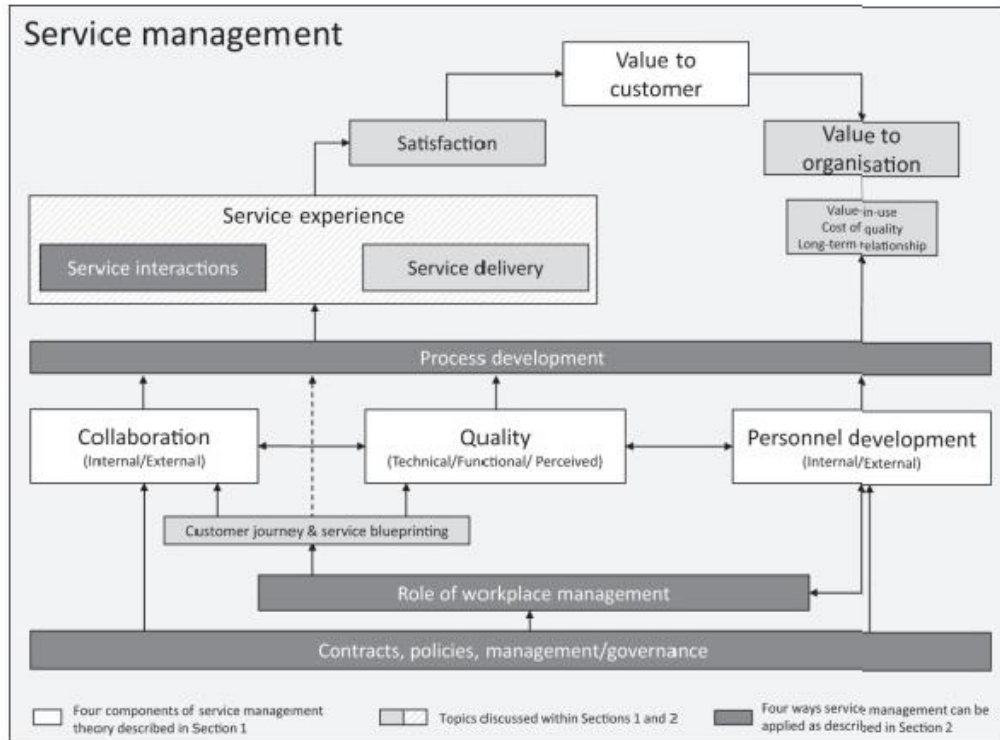

At the same time, Parasuraman et al. created a SERVQUAL framework that outlined the factors influencing service quality. According to their framework, the quality of a service is based on tangibles, dependability, responsiveness, certainty, and empathy. In addition to these variables, outside variables may influence expectations for service quality and alter how it is perceived. The quality of internal processes has a significant impact on the quality of external services. The operations must be focused on serving the demands of the client rather than just being efficient in manufacturing the product or service in order to provide high-quality service. As a result, blueprinting based on consumer needs is used. A service blueprint enables for the process to be broken down into various components for process efficiency and visualises the service system from the perspective of the client.

**Developing Personnel**

Employee treatment of the company's clients is influenced by how employers treat their staff. It is crucial how staff handle customers since they often serve as clients' first impressions of the business. Due to the fact that motivated workers will have a good influence on consumers, Bowers and Martin (2007) contend that it makes sense, especially for service businesses, to treat their own employees as customers and perhaps better than customers. Employees are thus referred to as internal customers who must also be catered to. Organising and empowering people is one of the crucial components of internal coordination in service operations. To facilitate employees' success, it is necessary to define their duties, provide them with the necessary tools, and assist them in developing the necessary abilities, empowerment refers to management strategies that emotionally engage workers. Task, task

allocation, power, commitment, and culture are the five characteristics he outlines for empowerment. His approach may be utilised to identify various empowerment strategies and offer workers with a variety of sources of pleasure. Employees who feel empowered are more inclined to take ownership of the customer experience, which improves the perceived quality of the service. The link between the four elements of service management theory and the subjects covered is summarised in Figure. 2. Bottom up, from the input to the output, is how the figure is displayed. To harmonise internal processes, contracts, policies, and management procedures will soon be established. The alignment is also influenced by the cooperation of the parties concerned, employee growth, and the actual technical, functional, and perceived quality of the service.

**Figure 2: Service management components, topics, and ways of application[Library Open].**

Customer journeys and service blueprinting strategies are used to provide the best possible service experience for the customers. A proper combination of resources, technology, people, expertise, and organisations is needed to generate a positive customer experience across the whole service delivery process, particularly during customer-provider interactions. Customer satisfaction, which has value for the customer themselves, is used to gauge service experience. Consequently, by fostering long-lasting connections and focusing on the cost of quality, this attention to customer value adds value to firms.

#### **Applicability to Workplace Studies**

The use of service management theory in workplace studies has already benefited facilities management and workplace management and may continue to do so. First, people's perspectives shift to see the workplace and particularly the physical location as a service that workers get and use. As a result, from the standpoint of general management, perceived workplace quality and employee happiness are given more weight. Second, it encourages businesses to become more employee- and customer-driven when service management theory is applied to the management and operations of services. In this sense, firms tend to focus on long-term objectives and pursue quality enhancements.

The remainder of this section describes how service management theory may assist the study of facilities management and workplace management. It also outlines the four main ways the

theory has been put into practise in the real world: by better understanding the role of workplace management, increasing the consistency of practises through contracts, policies, and management/governance, creating processes for managing workplaces and facilities, and understanding customer interactions. These features are shown in Figure .2 and further discussed in this section.

### CONCLUSION

For businesses to succeed in today's cutthroat business environment, service management with an emphasis on customer experience is crucial. Organisations may create pleasant and memorable experiences that promote customer satisfaction, loyalty, and advocacy by putting the needs and preferences of their consumers first. Adopting a customer-centric mindset, aligning service design and delivery with customer expectations, and enabling people to provide excellent service are all necessary components of effective service management. Organisations may identify areas for improvement and make data-driven choices to improve the overall customer experience by measuring and tracking customer experience metrics.

There are several advantages to service management that prioritises the client experience. Higher customer satisfaction ratings, enhanced customer loyalty, and a strong brand reputation are enjoyed by businesses that place a high priority on client centricity and service quality. Customers that are happy with the company are more inclined to refer them to others, which promotes organic growth and opens up new business options. A crucial component of service management is continuous improvement.

Organisations need to be flexible and responsive to changing market trends and client requirements. Organisations may remain ahead of the competition and continually provide value-added experiences by asking for consumer input, analysing data, and making changes. Service management with an emphasis on the customer experience is a strategic need for businesses looking for long-term success. Organisations may develop solid customer connections, spur corporate development, and gain a competitive edge in the market by placing the customer at the centre of their operations.

In order to meet and surpass customer expectations in a business environment that is always evolving, service management is a journey that requires continuing dedication, creativity, and adaptability.

**ABSTRACT:**

To maximize productivity, employee happiness, and overall company performance, it is essential to have a deeper grasp of the function that workplace management plays within the Organisation. Workplace management includes a number of facets, including building upkeep, technological integration, and worker wellbeing. looks at the importance of workplace management and how it affects the efficiency of organisations. In order to create a positive work environment, it emphasises the need of effective workplace design, employee involvement, and the use of cutting-edge methods. Organisations may improve cooperation, communication, and worker productivity by using a comprehensive approach to workplace management. The physical design of the workplace must be optimized, ergonomic workplaces must be provided, and technology must be used to increase productivity and expedite procedures. Additionally, effective workplace management is crucial for promoting the happiness and well-being of employees. It comprises fostering a good work environment, encouraging work-life balance, and offering facilities and services that improve the general working environment.

**KEYWORDS:**

Customers, Management, Research, Service, Workplace.

**INTRODUCTION**

Management of the workplace is essential to the overall efficiency and success of an Organisation. It includes a range of tactics, procedures, and methods for establishing the ideal working conditions that foster efficiency, teamwork, and worker wellbeing. Organisations are realizing the significance of efficient workplace management in enhancing organisational success given the changing nature of work and the growing focus on the employee experience. This topic's introduction tries to provide a general overview of the function that workplace management plays inside the company. It emphasises the important factors and matters to be taken into account while managing the workplace, such as facility management, technology integration, and employee engagement. It also emphasises how important it is for businesses to adapt to new workplace trends, such remote work and flexible scheduling, and include them into their workplace management practises. Encouraging a healthy workplace culture, encouraging alignment between the physical workspace and the organization's goals and objectives, and giving workers the skills and resources, they need to succeed are all components of effective workplace management[1]–[3].

A multidisciplinary strategy that incorporates aspects of design, human resources, technology, and organisational psychology is necessary. The introduction also emphasises the potential advantages of good workplace management, including increased worker output, satisfaction, and retention. Additionally, it understands how the physical workplace

environment affects the physical and emotional health of employees. Leaders and managers may adopt strategies that improve the working environment and raise overall organisational performance by having a clear awareness of the function workplace management plays in the Organisation. The introduction prepares the ground for investigating the numerous facets of workplace management and its importance within the company. It sets the scene and emphasises the significance of building a supportive workplace environment that promotes the productivity and well-being of the organization's workers and is in line with its aims[4]–[6].

According to service management philosophy, clients are the main focus of organisational activity. Customers are often understood in various dimensions customer, client, end user in the FM and CREM industries. Due to this complexity, end users those who utilised the building sometimes find themselves in circumstances where their relevance in FM/CREM practises is diminished. However, if end users are considered the primary clients of the workplace management unit, then the procedures for providing services are created with their needs in mind. In order to give the most beneficial results and increase customer satisfaction, workplace managers must first understand the demands and preferences of their consumers. Customer satisfaction is made up of a variety of elements, such as physical and intangible service/product features and an overall assessment of the service quality, as was stated in the preceding portion of this chapter. Physical space may be seen of as having tangible features, such construction quality, interior environment quality, building design, and building look, and intangible attributes, including effective FM processes that support the physical space. The workplace should also be seen as a collection of different features and services that together make up the entire working experience[7]–[9].

For instance, Perillartine et al.'s analysis of office offerings illustrated the evolution of provider knowledge of the office. Office solutions evolved from straightforward square-meter offers to serviced office offers to an integrated working experience. The research demonstrated that coworking spaces provide their customers with an entire experience by hosting a variety of events and community-building activities in addition to the essential services required for company operation.

The attitude, attentiveness, and empathy of the service professionals, in addition to the physical and intangible aspects of service, have a big impact on how customers view their whole experience. For instance, Pijls et al. investigated the skills and personality features of service workers in delivering a hospitality experience based on the notion of the human touch.

The effectiveness of the space utilised, the cost per square meter, and other comparable metrics connected to real estate performance might then be highlighted while evaluating workplace management practises. The effectiveness of workplace management practises may be determined by looking at employee happiness, net promoter score, customer effort score, service tickets, response and resolution times, and other comparable service quality indicators[10], [11].

## DISCUSSION

The service management theory places a strong emphasis on internal and external cooperation and communication as factors that influence the management process and service delivery quality. Processes and several participants must be included into the network for cooperation. Some of the services in facilities and workplace management are often outsourced. As a result, the organisation has a difficult challenge in assuring the quality of offered services, their content, and their consistency. Service level agreements (SLAs) are therefore used to outline the relationship between outsourcing and organisational governance. The connection between the parties involved and the calibre of service delivery, service process, and service objects may be significantly impacted by well-designed SLAs. The

customer's demands should be taken into consideration while defining and developing the service qualities that are part of SLAs. For instance, research by Petrulaitiene et al. highlighted service features for workplace service development, such as the need to construct service packages, level services in accordance with client expectations, and focus on specific services on the employee, the final user. SLAs, however, are not given adequate consideration in academic studies, particularly in the subject of FM/workplace management.

Better analysis and development of workplace and FM service processes. By offering insights into service development processes and guaranteeing the quality of service and customer satisfaction, service management theory may aid in the creation of internal workplace management procedures. Service management research has focused on identifying the variables that affect service quality. One must evaluate the process from the perspective of the customer in order to generate a positive working experience.

The customer journey is used in service management to pinpoint the touchpoints of service interactions. Customer happiness is determined by the quality of service interactions. Service quality is influenced by a variety of external and internal, physical and intangible aspects, as was previously established. Processes and various players must be integrated for this, and their objectives must be in line. Applying service blueprinting approaches may be used to study the efficacy and quality of workplace and FM services. According to Von Felten et al., FM service blueprinting may enhance the interactions between primary processes and FM processes, increasing the transparency of the FM value.

FM service blueprinting aids in identifying interfaces between core activities, support processes, and clients, according to Coenen et al. On this basis, it is possible to address both the efficacy and the efficiency of organizational processes. Additionally, the service blueprinting approach aids in defining the customer's role and the relationships between other players. Service blueprinting enables proactive issue resolution and management by allowing the discovery of failure sites.

he knowledge of the relationship between the function of the customer and organisational processes has been represented in several model advances in CREM and FM. The most recent addition, the Value Adding Management (VAM) model, illustrates how real estate management practises are used to provide value to consumers for more information on the VAM model, A strong alignment between basic organisational objectives, real estate and service development, and activities may also be supported by the service blueprinting process and service management theory.

Issues in achieving organisational objectives and customer satisfaction will emerge if real estate and facilities services are not appropriate and aligned. Developing a deeper understanding of varied service management interactions. Analysis of interactions between different services and players in the workplace environment is aided by the service management theory. Service interactions may be used to investigate how clients see the workplace ecosystem, which consists of services, physical space, and external environment. The distribution of services, including on-demand services and the arguments over daylight vs nighttime service delivery, must also be taken into account when examining the full ecosystem of services. When a service is provided, it interacts with a variety of factors, including the effect it has on society.

### **Service**

Although the majority of service management theory was created to explain extra organizational interactions and service production, it may also be used to analyse relationships inside organisations. Examples of more recent research that integrate the logic of service encounters with the logic of service experiences to explore service-service assessment are Groen and Van Sprang. Customers' perceptions of hospitality at a building's

reception area as well as the overlap between services provided by receptionists and security personnel at building entrances were investigated by Groen and van Sprang.

### **Service-Building**

It is possible to think about structures and physical workplaces as a form of service. It is important to distinguish this sort of service from service-service interactions since it is a more static form of service. Such a perspective on structures and workspaces is quite valuable, especially in terms of facility management. The design of the reception-entrance area was a crucial factor in the research stated earlier by Groen and van Sprang when considering both service delivery. The physical arrangement facilitated communication and engagement between the two departments and with building visitors. Due to its impact on the resources required and the turnaround time, a building's layout may also have an impact on the price of services. Building type may also affect how a service is arranged, for example, whether outsourcing or in-house manufacturing is the primary supply model and/or to what extent it is a supporting supply model. A core supply model may be internal service provision, but the business might also include outsourcing as a supporting service provision to provide the delivery of services additional flexibility. In addition to internal and external supplies, the organisation may connect with society more broadly by enabling volunteer groups like neighbourhood handball teams to provide ad hoc tasks like painting walls or moving furniture after an event.

### **Service-Stakeholder**

The interaction of services with stakeholders has an influence on society at large. Services may engage with a variety of stakeholders, ranging from customers and business partners to the relatives of service staff who visit a company's main location. For instance, regardless of their parents' profession or level of education, children's chances for education and a healthy upbringing are impacted by when their parents work. Consider the contrast between daylight and nighttime cleaning. Norway switched from night to day cleaning in the late 1980s and early 1990s. It was made possible for both parents to be at home after working hours rather than taking turns choosing when to be at home and at work because of two major factors a focus on enabling a good family life for all levels of society and an increase in public creche options that allowed both parents to work during the day.

Norwegian end users are encouraged to co-create a clean atmosphere at work, which has changed the way end users collaborate there as well. Here, it may be helpful to note that these conditions are governed by the service contracts, policies, and management/governance; it is in these documents and on these occasions that the working conditions of the employees are determined, as well as where the wider impact on society is decided and/or created. The ability to relate human conduct to organisation practises is the most important lesson learned from service management theory. The strength of this link has also been shown in workplace management. The workplace followed the same reasoning. In all companies, management may encourage its function to play a far more strategic role.

### **Methodology**

Due to its interdisciplinary character, service management research uses both qualitative and quantitative research approaches. Causal analyses are often employed in analysing linkages and interactions. The Critical Incident Technique (CIT), for instance, is a popular technique for examining customer service interactions. Using CIT, it is possible to directly observe human conduct and pinpoint the times of pleasure and unhappiness in these interactions. Confirmatory Factor Analysis (CFA) or other multi-level analyses are possible additional techniques for causal analysis (Parente et al., 2002; Chand, 2010; Smith et al., 1999). Customer surveys or satisfaction surveys are popular data sources for these kinds of methodologies. Structural Equation Modelling (SEM) research was utilised, for instance, by

Vermeeren et al to demonstrate links between customer happiness and a company's profitability. These approaches use a logical approach and look for general rules.

Another section of the research is more process-focused and deals with organised patterns that have their roots in qualitative methodologies. It often relies on inductive or deductive reasoning as well as action research. In-depth case studies are a frequent foundation for qualitative research. Different techniques, such as the Resource Allocation Model (RAM) or service blueprinting, may be used to analyse the processes inside the company. For instance, many techniques for integrating customers into service development have been developed based on observations or interviews.

Literature reviews, content analysis, and conceptual analysis, which is based on dissecting ideas and analysing them, are other research approaches that are often used. The study on workplace management has shown similar results. Case studies are a popular study tool for dealing with complicated management practise problems. Understanding social systems in the workplace, such as altering behaviour, enhancing health and safety at work, and other related topics, often involves action-based research. Studies by Coenen et al. and Von Felten et al. both employed service blueprinting. To the authors' knowledge, the number of broad quantitative studies in workplace research is still rather small. The most well-known examples of applying causal analysis methods such factor analysis and principal component analysis to relate human behaviour to architectural aspects are probably Haynes and Price and Hayne. Additionally, there is a shortage of longitudinal research in both service management and workplace management studies for tracking system-level changes.

### **Theory Relevance to Practice**

First, organisations might assure employee pleasure and productivity by comprehending the foundational ideas of the service management theory and putting them into practise. This strategy aids organisations and management in shifting their perception of real estate from a financial burden to an asset, one that may provide the company with benefits beyond simple cost-savings on real estate. It is simple to put several service management components into practise. Starting with bettering interactions between contact personnel and clients' employees at the office, moving on to bettering the overall process and experience of service delivery, and finally up to the creation and regulation of contract and governance structures, including the effects they have on larger society. Understanding how customer perception affects their pleasure with and the success of services may be done by using lessons learned from ideas relating to service quality, such as SERVQUAL.

Planning services may be aided by the highlighted importance of behaviour and staff motivation in service interactions and delivery of both in-house and outsourced services. Additionally, service development techniques and tools for service process design, such as service blueprinting, may provide a robust toolset for service innovation and enhanced organisational performance.

Additionally, customer-focused planning and techniques for customer integration would be advantageous for both the delivery of FM services and the overall working environment, fostering greater coordination across HRM, IT, and FM departments. Communication between enterprises and service providers may be enhanced by a shared understanding of value creation, which will enhance the customer experience. Customer satisfaction and the overall working experience are both impacted by the customer experience of any service, combination of services, and the full service ecosystem provided at the workplace. This result holds true for a variety of services, including human-to-human and human-to-machine interactions.

### **CONCLUSION**

Employers may increase staff retention rates, draw in top talent, and improve organisational performance by putting effective workplace management ideas into practise. Additionally, it

helps businesses to match workplace policies with their corporate aims and objectives, enhancing organisational agility and boosting worker morale. Organisations looking to establish the best work environment must have a thorough awareness of the function of workplace management. Organisations may boost productivity, encourage creativity, and achieve sustainable development by placing a high priority on workplace design, employee engagement, and well-being. Organisations will be able to maximise their potential and keep a competitive advantage in today's dynamic business environment by adopting creative strategies and adjusting to changing workplace dynamics on a constant basis.

**CHAPTER 11****THEORY OF ORGANISATIONAL  
SOCIALIZATIONINTEGRATING FM STAFF**

Ms. Pramodahegde, Assistant Professor,  
Master in Business Administration, Presidency University, Bangalore, India,  
Email Id-pramodah@presidencyuniversity.in  
Prof. Sumesh, Regional College of Management, Bangalore, India

**ABSTRACT:**

The integration of external Facility Management (FM) workers into businesses is examined under the Theory of Organisational Socialization. Organisations often struggle to integrate external FM workers and harmonies them with the company's culture, values, and goals as outsourcing becomes more prevalent. The main ideas of this theory are outlined in this abstract. it is acknowledged that outsourcing is common in the FM sector and that it is important to integrate hired contractors well. It emphasises that a thorough approach to socialization is necessary for effective integration, which goes beyond the simple transfer of tasks. The Theory of Organisational Socialization emphasises the need of offering an organized onboarding procedure for FM workers who are hired outside of the company. Their grasp of the company's culture, regulations, and procedures will be facilitated by this process, which also includes orientation meetings, training courses, and mentoring opportunities. These activities might help outsourced employees feel more a part of and committed to the company.

**KEYWORDS:**

Culture, Employers, Facility, Socialization, Worker.

**INTRODUCTION**

Socialization is the process of a person being trained and indoctrinated by an Organisation via a set of beliefs, standards, and actions that are seen to be desirable or acceptable. When a person moves from one group to another within a social structure, it is the active production of a new identity via a personal understanding of a circumstance. This refers to assimilating into the dominant culture of a place. Due to the broad applicability of its premise our need to comprehend and find a place for ourselves within every new environment it has its roots in sociology and is widely used in other fields outside of management, such as health, education, and a host of others. Organisations officially welcome newcomers to a post by using the socialization process. Informally, one might learn about socialization by observing the actions of others who are already used to the environment they seek to comprehend. The process through which newly hired employees socialize with their coworkers and establish a professional identity is known as induction or the Socialization of new employees. The process through which new recruits learn the attitudes, habits, and knowledge necessary to engage and function successfully as a member of an Organisation is known as organisational Socialization. To help new hires integrate into the firm, this organisational Socialization gives them a predetermined pattern of conduct to imitate [1]–[3]. Fundamentally, maintaining a smooth introduction of newly hired workers requires organisational Socialization. Employees are more likely to love their work more, understand it

better, and perform better when they have a fluid Socialization process, which may enhance customer experience. The Ashforth et al. model makes the effects of high performance, organisational identification, and job satisfaction clear, showing that organisations that go through the Newcomer learning process have better performance, strong organisational identification, increased job satisfaction, a decreased intention to quit, and better role satisfaction. innovation Socialization does not take place in isolation. It is a collection of components that firms utilised as machinery to socialize new hires. The gradual integration of new ideas and behaviour process that takes place in an organisational environment that includes the brain as well as several facets of social conduct. The purpose of assimilating the pervasive organisational culture that exists in a workplace. Therefore, its elements are drawn from organisational culture itself, which is Socialization. Figure .1 illustrates how these elements interact with one another, using organisational culture as an anchor. The many means through which a new culture is transmitted to the newest members of the community are together referred to as Socialization components.

The new employee may either learn the procedures, customs, and traditions, tales and symbols, rules, and organisational structure officially via a Socialization process or informally. Punishment and incentives are used by firms to assist eliminate previously ingrained culture that employees have acquired from prior employers or to reinforce the information they want the employee to retain [4]–[6].

The processes people take when they initially join an Organisation are shown in Figure .1. They enter the Organisation with no prior exposure to its norms and procedures, but they start to get socialized via a combination of immersion in its structure and procedures, tales and symbols, conventions, rituals, and routines, as well as knowledge of its punishment and reward systems. Making through to the other side and becoming a team member is an even more crucial step for workers to take.

This allows people to contribute to the organization's culture, both now and in the future. The present corporate culture, which serves as the cornerstone of how most firms are operated, must be preserved via this process. It is often necessary to impart this culture to newcomers since it is what has distinguished them from competing businesses in the past and functioned well. Simple conventions like using a colour code to indicate homogeneity in speech patterns may be used as artefacts to determine an employee's company culture. Far while it's crucial to pay attention to what new hires are taught, how they are taught is far more crucial. Employees may either be guided through a process or let to navigate it independently based on their inherent initiative [7]–[10].

**Figure 1: Representing the main Components of Socialization[Library Open].**

According to Ashforth et al., the process a new hire goes through has a significant influence on the level of fit they ultimately attain inside the firm. The use of investiture, as shown in Figure .1, to reinforce the qualities the Organisation wants, along with a tried-and-true way of integrating new hires into the workforce, will improve the simplicity of their adjustments. Finally, they increase the workers' self-assurance and motivate them to take initiative, which can only be good because any instances of uncertainty and self-doubt may be eliminated. It is possible to feel the effects of excellent performance, organisational identity, and work happiness. Where employees feel at ease in their jobs and the company, there will be a decrease in intentions to leave[11].

## DISCUSSION

Socialization follows a pattern and often starts before the employee reports to his job location, in some instances even before the appointment is announced. With a thorough awareness of the work they would be expected to complete, some workers often look for the glamour or rewards attached to holding a certain position. When this happens, the workplace may either make the sense of inadequacy worse or make it go away. Even when there is a bad side, making someone feel welcome in a new place will allow them time to get used to it. The newly hired personnel also assesses if it was all worthwhile. Their degree of work satisfaction will be able to attest to this. The process of socialization's several phases is described following.

### **Anticipatory Socialization**

As people age, they gain the ability to think, comprehend, and predict. Starting anything new seldom results in complete ignorance, particularly when there has been some kind of warning. According to Feldman, the employee develops ideas about the organisation at this point based on conversations with potential employers and the choice made about employment.

He proposes realism and congruence as two components of anticipatory Socialization. The degree to which the employee was accurate about the new position is known as realism. Congruence is the relationship between an employee's degree of work satisfaction and his or her capacity to perform the duties of the position satisfactorily. When a new employee's expectations are not fulfilled, it often results in poor work satisfaction and a higher likelihood that they will leave.

### **Accommodation**

The encounter stage is when the employee has a broad grasp of what really occurs in the business, how it is managed, and who is in charge. Here is where the real process of joining the Organisation starts. They begin the gradual transformation that makes them an instantly recognized employee of the firm. Even though they have performed such jobs in a prior employment, new employees adopt a new method of doing things. By doing their fair part of the job, they develop into effective team members. Additionally, they get to know their brand-new coworkers and start to develop relationships with them. Subordinates, bosses, and level-colleagues are courted or made aware of their superiority.

The dynamics are established for future contacts, so if a poor impression is produced now, it could be difficult, if not impossible, to reverse.

This may take longer in firms with tight-knit teams, and the employee must carefully abide by the regulations to maintain their nascent trust.

### **Role Management**

The fight for balance that the new employee faces is the third stage of this process. Better management of all the responsibilities we take on at work and at home is necessary. The management of one's family and obligations outside of the home and job is also necessary. Even at work, where demands on one's time may be greater, priorities must be established. originate from several sources at the workplace.

There is a need for flexible timetables, the delegation of tasks, and the settlement of both opposing priorities when obligations outside of the office are added. Demands and disagreements brought on their personal problems. Over time, this process of balancing evens out, but it starts during Socialization, when new hires start to comprehend the demands of their work. The next section reviews several models that corporations might employ to achieve this fit.

### **Applicability to Workplace Studies**

Although many various industries and types of workers may benefit from the Socialization models described in the preceding section, the outsourced facilities management workforce is the focus of this chapter. Employing outsourced personnel is prevalent since it gives the company access to specialised outside expertise and enables it to concentrate on its primary business. The decision to outsource certain functions, particularly non-core ones, to outside service providers may thus be made as a deliberate move to support key organisational objectives. For businesses looking for the most output from the least amount of internal resources, outsourcing is often the best option. Cleaning up the offices and premises was one of the very first non-core tasks that was outsourced. Other divisions including administration, infrastructure, communications, marketing, and IT progressively started to get involved. Today, businesses even outsource parts of their essential operations, such as their strategy for achieving the objectives, and some more audacious ones even outsource disaster recovery. The seven most outsourced services, according to RICS study from 2012, are janitorial and cleaning services, landscaping, food services, architectural design, travel services, building engineering, and construction and renovation.

When all of these services are outsourced, they might make up a significant portion of the organization's offerings, demonstrating the necessity for effective integration of the outsourced staff into the client organisation. This implies that a significant portion of workers at companies may not be employed by them directly. They must go through the Socialization process in order to prevent the internal FM organization's culture and citizenship from being compromised and to promote greater staff integration. When applying for jobs, job seekers take into account factors other than the pay and status that come with the position. Additionally, they want to feel satisfied in their work and that they belong in the company, and this is true even with outsourced workers. Due to the time, effort, and money invested in recruiting and training, organisations often worry about the appropriateness of outsourced employees and how they are adjusting to the workplace. By attempting to choose personnel who are qualified for the position, they hope to lower high turnover rates and poor motivation difficulties.

Due to this, there has been an increase in person profiling to determine if incoming applicants are qualified for the jobs they want. While this may not be achievable for outsourced personnel, a Socialization process will lessen any natural friction and increase compatibility. According to Hesketh and Myers, Socialization and adaption are greatly influenced by both the job seeker and the company they want to work for. Congruence between them results in a greater degree of enjoyment, where congruence is the better the match is between a person and their employment, according to Feldman. It is known as person-organization fit when there is this degree of congruence. Personal and organisational compatibility and organisations happen. When an employee's or jobseeker's behaviour, vision, and personality traits align with those of the company they work for or want to join, the person-organization fit is most likely to be successful. Every service provider and client company should strive to achieve this fit when it comes to the Socialization of outsourced staff. The ease of integrating outsourced workers into their assigned organisations and the hassles related to non-congruence will result from ensuring both the pleasure of the outsourced employee and the business. Additionally, since workers are happier, turnover rates decrease. A good person-

organization fit also results in a rise in customer satisfaction. Employees who successfully fit in and adopt the organization's ideals are also better equipped to represent it.

Understanding the unique characteristics of facility management outsourcing may help one comprehend the particular needs of a Socialization model that can be used to outsourced workers. First, it must be acknowledged that Socialization for outsourced workers requires three separate stages that are not adequately reflected in any of the Socialization models in the preceding section. Pre-socialization, In-socialization, and Post-socialization are these.

The Pre-socialization stage, which happens before an employee starts working, consists of what they expect the workplace and their tasks to include; it is closely related to the Anticipatory stage, which was mentioned previously and in which the employee is unclear of what is in store for them in the position. After Socialization has started and continues during the time the new employee is incorporated into the company, which was covered in the previous stage of accommodations, is known as the In-socialization stage. Here, the company sets up a training programme for the incoming employee, and the induction takes place. When the employee has embraced their place within the organization's culture, the process is complete. The third stage of role management, known as post-socialization, occurs after the employee has been completely assimilated into the company.

To sustain staff happiness and the productivity that goes along with it, a high degree of integration must be maintained. All of the Socialization models previously discussed provide various approaches to carrying out the Socialization process, but they all have a critical flaw: they do not include a stage that maintains and enhances the employee's person-organization fit once the first process is complete.

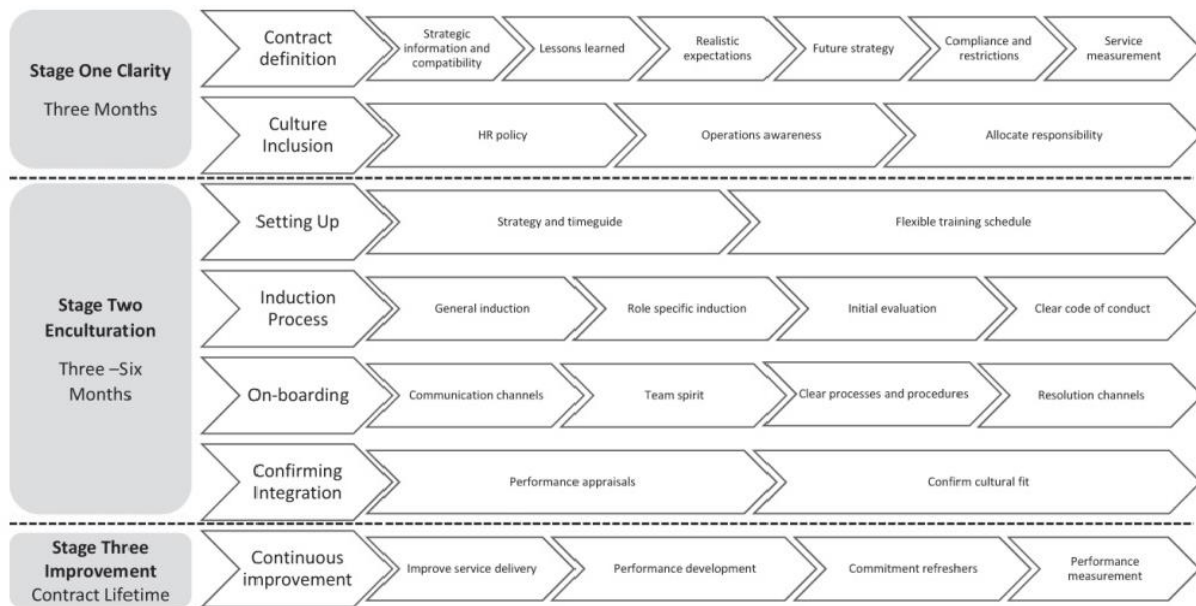

This phase is crucial, particularly for outsourced staff who must preserve the cultures of both their business and the customer. Without continuous training to keep the outsourced employee current on customer expectations and company culture, a decrease over time is likely and may result in a decline in service quality and delivery.

The suggested framework must be adaptive to the FM sector and flexible enough to function for businesses of any size or industry with fluctuating finances. Its primary benefit will be the proper Socialization of outsourced personnel, but it will also include measures to maintain the level of person-organization fit in order to guarantee high standards of service quality and delivery. Additionally, it is essential for enhancing both internal and external personnel' knowledge and comprehension of ongoing professional and industry developments. Whether just one of the organization's non-core operations is leased out or all of them are, the structure should still operate. Outsourced workers may be brought on board and guided via the suggested framework shown in Figure. 2.

Clarity, enculturation, and improvement are the three stages of Socialization that correlate to the pre-socialization, in-socialization, and post-socialization phases. This paradigm, which was created as a result of earlier study, acknowledges the significance of each of the three Socialization phases. Clarity describes the first phase of integration. It relates to what the company ought to accomplish even before hiring staff members. No framework that has been previously evaluated fully captures the preparatory tools managers or Organisations must use when hiring new personnel.

This should be applied to both internal and external workers, but external employees are much more important since they do not work directly for the company. Before a contract or partnership is formalized, this stage represents the information sharing that should take place between the client Organisation and the service provider. Clarity in this sense refers to the information exchange and the agreed-upon norms or judgements that follow. Before entering into a contract, each party should have a clear grasp of their duties from this point.

**Figure 2: Representing the FM cultural fit framework [Library Open].**

Enculturation is the process through which a person absorbs a culture's traditional knowledge as well as its customs and values. This approach makes use of it to help the outsourced employee get familiar with the client organization's culture. It goes through what has to be done and how to execute it effectively. When discussing integration, companies often refer to this stage.

This framework describes how the process is set up, how it begins, how it is completed, and how an Organisation may verify success.

Depending on how much time the parties involved give it, it may be the longest step in the integration process. However, the advantages outweigh the disadvantages since outsourced workers are more likely to grow a strong feeling of responsibility for the company and its clients as they progressively become aware of their role in the process.

This step should result in the outsourced workers completely assimilating into the organisational culture. To maintain integration, the framework's enhancement step should be completed frequently. It is absent from the Socialization models covered in the preceding section and only appears in the framework that is being suggested.

The stage's purpose is to avoid a decline in service quality by periodically informing workers internal and external of the organization's objectives and client needs.

The stage's anticipated result is the outsourced staff's enhancement of the newly ingrained culture. Through the purposeful application of a framework like the one previously described, organisational Socialization may greatly enhance person-organization fit and result in workers that are more suited to the organisational culture. Employers must be mindful of the kind of employee when applying Socialization theory to the workplace since various employee types outsourced, TUPE, zero-contract, full-time, part-time may need different Socialization procedures. It is critical to understand that socializing certain staff types may provide a number of obstacles, and that the framework will need to be adjusted appropriately. A smooth fit between workers and organisations is the main gap that the use of organisational Socialization may close. Employee happiness, productivity, and customer satisfaction all rise in workplaces where people may find a natural match. These outcomes may improve employee wellbeing at a time when employee wellness is becoming more widely recognized and can result in both concrete and intangible favorable emotions towards the company.

## CONCLUSION

For organisations looking to integrate outsourced Facility Management (FM) workers, the Theory of Organisational Socialization provides insightful advice. The process of integrating outsourced personnel entails more than just handing over duties; rather, it requires a thorough Socialization strategy. Companies may guarantee a seamless transition for outsourced FM workers and promote their integration into the organisational culture by adhering to the theory's guiding principles.

Outsourced employees may better comprehend the company's principles, regulations, and procedures with the aid of structured onboarding procedures including orientation meetings, training programmes, and mentoring opportunities.

In addition to improving their knowledge and abilities, this promotes a feeling of loyalty and devotion to the company. Integrating outsourced FM employees requires effective communication and teamwork. Knowledge exchange, collaboration, and the development of connections between internal and external teams are made possible via open and transparent communication channels. Organisations may bridge the gap between internal and external workers by developing good communication, resulting in a united and cohesive workforce. It's crucial to understand, nevertheless, that there can be difficulties with the integration process. The need for continual assistance and advice, cultural differences, and resistance to change are a few of the problems that organisations may encounter. Organisations may reduce possible barriers and guarantee a successful integration by proactively addressing these issues, offering ongoing assistance, and building a positive and inclusive work atmosphere.

The Theory of Organisational Socialization, in general, offers a framework for integrating outsourced FM personnel into businesses. Organisations may maximise the value and potential of their outsourced employees by putting the theory's concepts into practise, which will encourage their effective integration and benefit the organisation as a whole.

**CHAPTER 12****INTERDISCIPLINARY FRAMEWORK: BUILDING FOR  
WORKPLACE MANAGEMENT**

Dr. Yagnamurthy Raja, Assistant Professor,  
Master in Business Administration, Presidency University, Bangalore, India,  
Email Id-narasimharaja@presidencyuniversity.in  
Prof. Dinesh Roy, Regional College of Management, Bangalore, India

**ABSTRACT:**

Examining the numerous components that contribute to successful and efficient management of the workplace is necessary to determine the key components of an interdisciplinary framework for workplace management. The purpose of this abstract is to highlight the salient features of this multidisciplinary framework. The multidisciplinary framework for workplace management acknowledges the need for a multifaceted, comprehensive approach to managing the workplace. It considers a number of disciplines, including sustainability, design, technology, human resources, and facility management. Organisations may develop a complete framework that meets the many demands and difficulties of the workplace by incorporating these various viewpoints. An interdisciplinary approach to workplace management acknowledges the variety of elements that go into successful leadership. Facilities management, human resources, technology, design, sustainability, collaboration, communication, and change management may all be integrated into an organization's strategy to improve the working environment and enhance organisational success.

**KEYWORDS:**

Framework, Organisations, Management, Mapping, Workplace.

**INTRODUCTION**

Various workplace management difficulties have been handled by the 18 ideas described in this book. Some concentrated on elucidating the overall organisational systems, connections among system elements, and role of workplace management within such systems for example, the St. Gallen Management Model, Others have described the essential workplace management procedures and how they affect both the individuals working there and the business as a whole. However, despite the fact that they each have a different focus, all of these theories stress the importance of workplace management and organisational alignment in generating strategic value for the many stakeholders.

Several studies identify the stakeholders that are important to workplace management. Executives, staff members, collaborators, visitors, owners, and those in charge of building operations are the main stakeholder groups, according to Tagliaro. Aligning the workplace with the Organisation is necessary to meet the various interests that each of them has. In the context of organisational management, the subject of alignment is nothing new. For instance, it has been shown in organisational research that strategy, structure, incentives, procedures, and surroundings must all be in sync [1]–[3].

In the context of workplace management, alignment has also been researched from the perspectives of the corporate real estate portfolio and human resource management strategies and activities. Although this has so far seemed to be the main focus of such research, workplace alignment encompasses more than just matching the corporate real estate plan to

the company strategy at the strategic level. According to Becke, Organisations are intricate systems made up of relationships between the social and physical worlds. Steele used the phrase organisational space in 1973 to describe this theory and the idea that the physical surroundings have an impact on individuals within and outside of an Organisation. Organisational space was most recently described by Luhman and Cunliffe as constructed settings, as well as the items and social customs that occupy them. Some even contend that organisational space should be regarded as including more than just physical, mental, and social space. limitations inside Organisations.

The idea of organisational space, however, is seldom the main topic of built environment studies, and organisational space research to date often treats physical space as a supplemental aspect without assessing its consequences[4]–[6].

Similar to this, many corporate real estate and facilities managers still see the workplace in practises as nothing more than a physical location, without often paying enough attention to the social or mental components. Numerous elements that must be considered in workplace alignment are related to organisational systems and their components These topics were covered in the earlier chapters of this book. Workplace management methods Thus, a lot of theoretical information has been explored in order to promote the creation of organisational management procedures that are goal- and stakeholder-oriented and lead to better, more integrated, and aligned workplace management.

Workplaces, or organisational spaces, obviously need a comprehensive approach to all aspects. Therefore, it is necessary to compile scientific data on workplace administration from many ideas and domains. In an effort to bring some of these ideas and insights together, this book has been written. This chapter is the first step in putting those theories and insights together into a larger framework. Hopefully, this framework will serve as the foundation for the eventual development of a comprehensive workplace management theory[7], [8].

### DISCUSSION

A similar definition of theory is given which states that it is a statement of concepts and their interrelationships that shows how/or why a phenomenon occurs. The workplace naturally calls for an interdisciplinary approach to the identification of such notions since the workplace necessitates interdisciplinary knowledge on its own.

This method must be followed by a transdisciplinary strategy to verify interrelationships under various circumstances. By identifying the essential ideas in all of the theories discussed in this book, we are able to take the first step towards the creation of a new, expansive workplace management theory (see Table .1). Since these theories come from many academic fields, an interdisciplinary framework is inherently the outcome.

The book was originally intended to feature a different philosophy on performance-based structures that was more concerned with what a building must do than with how it should be built.

The theory was nevertheless included in the analysis for this framework even if the chapter was subsequently dropped. This is because the theory had previously been tested and is just as applicable to the field as the other theories in the book. To capture the core of each theory, the most significant tacit information from the theories has been made explicit to form the framework.

Following this, communalities between theories were found, and focal constructs were then developed and utilised to link the theories to the framework.

The results, a discussion of the significance of the findings for workplace research and practises, and the next steps required to completely build a comprehensive Workplace Management theory will be covered in the following part, which will also provide a more detailed explanation of the empirical technique[9], [10].

### Concept Mapping Approach

Concept mapping, also known as group concept mapping to separate it from mind mapping approaches like Novakian idea mapping, was used to uncover the hidden pattern underlying the 19 hypotheses. In the first book in this series, a framework for employee-workplace alignment was developed using the idea mapping method. Both the aforementioned framework and the framework discussed in this chapter underwent the same development process. A machine-driven content analysis technique called concept mapping gathers and combines information to produce a framework of ideas, values, or views. After growing from planning and evaluating educational programmes, it is today used globally in a wide range of fields for tasks including text analysis, establishing priorities, and creating theoretical frameworks. A mixed-method technique called group idea mapping may be used to draw forth the collective wisdom of a group of people.

Statistical analysis, data visualization, card sorting, and brainstorming are all technically components of the idea mapping process (Figure .1). Rosas and Kane demonstrated that the technique produces good estimates of sorting reliability and internal representational validity. The data gathering had to be done online since the writers of the book chapters who wrote the queried group knowledge lived all over the globe. The research team, which was composed of the writers of this framework chapter, oversaw the idea mapping procedure. The process of idea mapping began with the establishment of units that might be used to refer to potential commonalities and discrepancies across the theories. According to Kane and Rosas, the goal was a maximum of around 100 units to maintain a balance between the method's dependability and the sorters' workload.

**Figure 1: Representing the applied concept mapping procedure taking five steps, involving human judgement and computer analysis [Library Open].**

Students to distil the core of their chapter's thesis into three to five assertions that satisfy the requirements listed below:

1. Outlining the fundamental assumptions or traits of the theory, encapsulating its fundamental phenomena.
2. Establishing theoretical claims rather than expressing conclusions drawn from the theory or from actual findings.
3. Being no longer than 15 words apiece.
4. Simple for writers from different fields to comprehend.
5. Understandable on its own, especially when sandwiched between assertions regarding other ideas.
6. Omitting the theory's name wherever feasible to lessen the likelihood that the statement sets will be recognized.

The major premises, assumptions, or values associated with the theory, or anything else crucial for the theory, might all be included in the statements, according to the authors' instructions for further clarification of the criteria.

The original assertions for each theory were made by the chapter writers. The claims were then clarified via discussion between the three researchers from the idea mapping research team and the writers of the chapter. Individual members of the study team evaluated the gathered statements for compliance with the aforementioned standards, then shared their findings. If necessary, sentences were rewritten to make them more understandable, and identical phrases within a theory were eliminated. Since one theory can naturally contain more facets than the other, there was no attempt to have an equal number of statements for each theory. The writers of the chapters were asked to approve any modifications to the original remarks. In the end, 88 units were produced and recorded in an Excel file, with each theory having between three and seven (average = 4.6) assertions.

### Grouping the Statements

To provide the capacity to link the statements to their theory after the sorting, the statements were first randomly ordered by being sorted alphabetically. The numbered statements were

placed into UsabiliTEST's remote card sort tool, which is utilised by businesses and academic institutions all around the globe to assess usability and enhance information architecture. UsabiliTEST is a Texas-based corporation. An open-ended card sorting user test was developed using this online software, enabling participants to form their own groups based on their own rationale as opposed to being given categories in advance as in a closed sort. An open sort is the best method for gathering suggestions from users for logical content groups. By sending them an email with a link to the card sort test, which they were not allowed to share with anyone else, the writers were encouraged to take part in sorting the statements. They were told to categories the cards according to what made the most sense to them, and that they could form as many groups as they wanted as long as they avoided creating a miscellaneous group like the category other or mixed. Before uploading their input to the database, they had the option to halt the sorting and resume it later. A reminder was given to anyone who had not yet submitted a contribution two weeks before the test closed. The method distributed the cards at random to each participant. While writers may still identify their own remarks and group them together, the other sorters' grouping lessened this impact. For accurate findings, at least 11 sorters are needed, and although more sorters are better, their additional value starts to decline beyond 20 (Rosas & Kane, 2012). Eight weeks after the invitation was extended, the card sort test was concluded, and 19 writers had taken part, with an average completion percentage of between 90% and 100% of the statements. In order to preserve the discriminant validity of the idea mapping, sorters would not have been included in the data analysis if their completion rate was lower than 20% or if they had made fewer than three groups. A poor completion rate led to the exclusion of one contribution. The included sorters produced 10.5 content groups on average, with an average of 8 statements per group.

### **Statistical Analysis and Concept Map Generation**

First, an Excel file comprising all groups that the included sorters had generated, together with the names they had given them, was exported from the UsabiliTEST system. Three erroneous groups marked, for example, temporary group or cannot place these were removed from these data because they were not sorted according to statements' similarity in substance, and their inclusion would have tainted the study. R-CMap, a piece of open-source software written in the R programming language, was run on this cleaned file. The multidimensional data were transformed into a two-dimensional representation of the relative distances between the assertions in the first phase of the analysis, which required maps. A point map was created as a consequence, with each point standing in for a statement and their distance between them indicating how similar or dissimilar their contents were.

Agglomerative hierarchical clustering was used as the second step (Figure .1 step 4), which was followed by merging the two clusters at their smallest distance, as indicated by the nearest pair of points. The dendrogram was considered as indicating the appropriate range of cluster quantities to take into consideration as there was no target number of clusters to strive for. The length of the stems in this tree-like depiction of the Ward clustering process stood in for the separation between two merged clusters and corresponded to the within-cluster variation. Each member of the study team carefully examined the cluster analysis iterations, which ranged from 4 to 11 clusters, based on the dendrogram to determine whether the next merger was illogical or did not advance the themes' clarity. Nine clusters were preferred as a consequence of this.

### **Closing Words**

The operational management of physical space was the sole aspect of managing office buildings at first. Then, offices were managed as a financial asset, and lastly, offices are now seen as having an impact on user behaviour. As a result, the workplace is now considered a valuable asset of an enterprise rather than just a cost center. However, many organisations are

still unaware of how workplace management should actually be carried out and undervalue the necessity of collaborating with other support functions (FM, HR, IT), of aligning with organisational strategies, and of recognizing the full potential of workplaces for organisations and their stakeholders. More benefits than only cost savings on energy or square meters might result from assisting workers and encouraging proper work practises. Behavioral and psychosocial outcomes are frequently overlooked in workplace management performance ratings, which ignores the fact that people's perceptions of their surroundings and the impressions they form of their workplaces and organisations have a significant impact on how well they perform at work for both 'regular' employees and those in executive positions).the organization's executive team. Therefore, maybe we should shift our conversation away from corporate real estate and facilities management and towards issues that are more human-centered.phrase for workplace management. It is hoped that the Transdisciplinary Workplace Research and Management book series will continue, and that subsequent publications will provide even more ideas that are used to enhance the subject of workplace management.

### CONCLUSION

Organisations seeking to establish successful and efficient work environments must identify the key components of an interdisciplinary framework for workplace management. Organisations may create a comprehensive strategy that covers the different demands and problems of the workplace by acknowledging the multidimensional nature of workplace management and embracing multiple disciplines.The fundamental building blocks include human resources, design and ergonomics, technology and innovation, sustainability and environmental management, cooperation and communication, and change management. Each of these elements is essential to maintaining a smooth workplace operation and productivity.Organisations may develop a comprehensive framework that takes into account the technical, social, and physical components of the workplace by combining these building pieces. Organisations are able to optimise space utilisation, improve employee wellbeing, foster collaboration and creativity, and align workplace policies with organisational objectives thanks to this all-encompassing strategy.Additionally, an interdisciplinary framework promotes a culture of adaptation and ongoing progress. It enables organisations to keep up to date on new trends, technology, and workplace management best practises. Organisations may use the knowledge from diverse sectors to improve workplace results by adopting interdisciplinary cooperation and information sharing.The fundamental components of an interdisciplinary framework for workplace management have been identified, and this has given organisations the ability to design work environments that promote employee productivity, contentment, and overall organisational success. It provides organisations with a road map for navigating the intricacies of workplace management and helping them make choices that lead to successful workplace outcomes.

#### **ABSTRACT:**

The underlying framework for comprehending the intricate process of human communication is provided by communication theory and models. A brief summary of the main ideas and principles of communication theory and models is offered in this abstract. This study examines the essential components of communication, the function of models in comprehending communication processes, and the relevance of communication theory in diverse circumstances by using insights from previous research. This introduction's first section focuses on the fundamental elements of communication. Information, ideas, and emotions are all exchanged through communication between people or organisations. In order to understand the dynamics of communication exchanges, it is essential to have a solid understanding of the sender, message, channel, receiver, and feedback. The significance of communication models is covered in more detail in the second area. Scholars and practitioners may analyse, explain, and forecast communication phenomena using models, which are simplified representations of communication processes. The linear model, interactive model, and transactional model are often brought up as examples of models that capture various aspects of communication complexity. Further research into communication theory and models advances the field's understanding, enhances communication techniques, and promotes deep relationships between people and communities.

#### **KEYWORDS:**

Channel, Communication, Information, Media, Social.

#### **INTRODUCTION**

The importance of communication theory is highlighted in the third component. By presenting insights into the cognitive, social, cultural, and environmental elements impacting communication outcomes, communication theory offers a systematic explanation of how and why communication happens. Frameworks for examining interpersonal, organisational, and mediated communication are provided by theories including the social exchange theory, cognitive dissonance theory, and media impacts theory. The point focuses on the applicability of communication theory and models in various circumstances.

In areas including interpersonal communication, mass communication, organisational communication, health communication, and intercultural communication, communication theory and models have real-world applications. Effective communication methods, conflict resolution, persuasion strategies, and relationship building approaches are all improved by understanding and utilising communication theory and models.

The basis for comprehending the complexities of human communication is provided by this succinct introduction to communication theory and models. People may improve their communication abilities and handle challenging communication circumstances more

skillfully by understanding the fundamentals of communication, appreciating the significance of models, and understanding the function of theory in diverse settings[1], [2].

Humans are social creatures. He needs communication to live. He must live in the society in which he both affects and is impacted by it. Living alone is impossible. The main character of the movie *Cast Away* is a castaway on a deserted island. On the island, he is the lone guy who is stuck. He manages to survive by making certain accommodations for his way of life, but he still feels alone. To make better use of his time, he retrieves a ball from among the wreckage of the crashed aircraft, gives it painted eyes, a nose, and a mouth, and then converses with it. He attempts to communicate and remain positive in this manner. People always want to convey their happiness, mirth, desire, want, thinking, etc. to one another. This cannot be easily suppressed. Expressing oneself is human. In the past, if someone needed to be punished for anything, society would excommunicate them. Excommunication was regarded as one of the worst penalties. The individual would be isolated from society. This demonstrates the value of communication in life[3], [4].

### **Theory of Communication**

As long as there has been humankind, there has been communication. Before language developed, people used gestures, facial expressions, painting, sketching, and mimicking different bird and animal noises to communicate. Since that time, communication has advanced considerably. The means of communication have changed along with the communication techniques. Throughout the course of human history, communication has been transformed by several technologies, including the development of paper, woodblock printing, moveable types, Gutenberg's printing press, steam engine, telegraph, radio, TV, and the internet[5], [6].

Any conveyance of an understandable, meaningful message is referred to as communication. It is impossible to properly comprehend a message that is incomplete and meaningless. The message may not be received if the selected channel is ineffective. The communication is not complete if the message is not received or if the intended recipient cannot understand it. In these situations, there may have been a communication breakdown or none at all. Only when the message is comprehended, recognised, and responded to by the recipient does transmission turn into communication. Both the message sender and the message recipient play vital roles in communication. The Latin word "communis," which meaning to impart, make common, or send a message, is where the word "communication" originates. Effective communication may be achieved by the use of words, gestures, body language, attire, hidden codes, facial expressions, etc[7], [8].

### **Physical Features of Communication**

A transmitter and a receiver are required for communication to take place in both directions. The message is encoded and sent by the sender, and it is received and decoded by the recipient. Both parties may establish contact in this manner[9], [10].

### **Flow of Communication**

It implies that the process is never stagnant. Due to the fact that it is cyclical, the process never ends. Words' meanings change throughout time. They alter according on the situation, sociocultural elements, etc. A word may have more than one meaning depending on the context, which is determined by a variety of sociocultural influences. In many cultures, the same phrase or gesture may indicate something quite different. For instance, kissing someone on the cheek in certain areas of the West is seen as a kind of welcome, but other nations like

India, it may not be. In the Indian subcontinent, it could be seen as an obscenity. Since language is the primary means of communication, we are fully aware of its enormous flexibility. Any message or text's intent would rely on a number of variables. The reader's comprehension of the material is also influenced by a number of variables, including his own comprehension capacity and social-cultural background. To communicate, the language employs symbols. Since words are but symbols, they may have many different meanings. Over time, the terms' meanings may develop or alter. For instance, the term "mobile" had a different meaning 30 to 40 years ago than it has today it meant "able to move." When someone uses the term "mobile," we immediately think of a mobile communication device.

### **A channel is necessary for communication:**

It must be sent through a method that enables the transmission of messages. One may communicate via words, gestures, movements, signs, symbols, etc. The message may be delivered by radio, television, newspapers, books, etc. To communicate, at least one media is necessary.

### **Media for Communication**

Three different forms of communication exist:

1. Interaction with others,
2. Commercial communication and
3. Public relations.

### **Personal Relationships:**

Interpersonal communication is defined as communication between two or more individuals at the intimate level. Ex. a conversation around a dinner table with friends, relatives, etc.

### **Enterprise Communication**

a method of communication when the message's main focus is business. Business communication includes, among other things, reports, memoranda, interviews, meetings, notifications, sales letters, order letters, and emails.

### **Public Relations:**

a method of communication in which a lot of individuals are spoken to. Digital platforms, TV, radio, newspapers, and other mass media are a few examples. In accordance with The Oxford Dictionary, "Mass Communication is the imparting or exchanging of information on a large scale to a wide range of people." Mass communication targets a wider and more diverse audience. Other characteristics of mass communication include quick distribution and delivery and low unit costs to the clients. People used to physically converse with each other before mass communication was invented, but this method was time-consuming and had a limited audience. A professional communicator who speaks with the general public in order to transmit information, enlighten, educate, or amuse is often the sender of the message in mass communication. Numerous diverse audiences are served by mass communication. Apparently, Dennis

### **A Brief Introduction to Communication Theory and Models**

According to McQuail, "Mass communication comprises the institutions and techniques by which press, radio, television, film, and other media disseminate symbolic contents to a large, heterogeneous, and widely dispersed audience."

## Mass Communication's Goals

Following are a few of the goals of mass communication:

1. To explain
2. To instruct
3. To enliven
4. Spreading knowledge
5. Convincing the intended audience
6. To serve as a conduit between the public and the government.

## Mass Communication Theories

The audience is greatly impacted by the mass media. Understanding the ideas of mass communication is essential for researching this impact. The first examples of mass communication theory were people sending messages from a single source to several recipients.

Popular mass communication theories include:

1. Regulatory Theory
2. Press Freedom Theory
3. Theory of Social Responsibility
4. Media Development Theory
5. Different Media Theory

Now, let's take a closer look at some of the popular theories: The Authoritarian Theory was developed in the 16th and 17th centuries. According to this view, the government or powerful bureaucrats directly control all sources of communication. The press and media are supposed to respect the authorities even if it is not directly in their hands. They should not communicate anything that offends them and should see themselves as subordinates to the authorities. There isn't much space for journalists to express their views and ideas. Their reports must be submitted to the appropriate authorities for censoring before to publication. The suppression of speech, public communication, or other information is known as censorship. In an authoritarian system, the government or the ruling class may regard censorship as a way to defend and prevent the populace from external dangers. Under this system, all media must adhere to the authority's rules to the letter. Any infraction might result in the media's licence being revoked.

Free Press Theory: Normative theories are the foundation of Free Press theory. A valid justification for the use of public disclosure to identify concerns is provided by normative theory. It seeks to show how making information public might result in better solutions. Libertarian theory is another name for Free Press theory. It implies that one is free to publish their views and opinions without any restrictions. English poet John Milton, who lived in the 16th century, was a proponent of this philosophy. There is no censorship in this system. Anybody is free to argue for or against the institution. It is founded on the basic right to free speech.

## DISCUSSION

The authoritarian theory and the free press theory are the two extremes, while the social responsibility theory is in the middle. This notion holds that the media is free to express its viewpoints. They are uncensored by the government. However, they must also consider how the news will affect society as a whole when disseminating it. "Freedom of expression under

the social responsibility theory is not an absolute right, as under pure libertarian theory," claim Sibert, Peterson, and Schramm. The right to free speech must be weighed against other people's private rights and important societal interests.

According to alternative media theory, these media outlets are distinct from the mainstream or mass media. Subversive, grassroots, progressive, anarchist, radical, underground, independent, dissident, etc. are terms used to describe these media outlets.

The hypothesis is literally defined by the term "alternate." Alternative media seek to transform society in order to create a more just social, cultural, and economic system in which people are not seen as mere objects. Alternative media emphasises initiatives that are not for profit. It makes an effort to connect with the underrepresented group that is left out of mainstream media.

**Development Media hypothesis:** Dennis Mcquail put out this hypothesis. According to this view, the media in developing countries must assist the efforts of the government to develop the country. As any negative news may impede the country's economic progress, it should be helpful rather than critical of the government. It is anticipated that the media would support government initiatives aimed at advancing the country and improving the socioeconomic and political circumstances of its citizens.

### Mass Communication Models

Models of mass communication offer a deeper comprehension of the ideas. The modes of mass communication are often divided into three major groups: transactional, interactive, and linear. A linear communication model is a one-way communication model. Interactive communication is a kind of communication where the sender and receiver switch roles. According to the transactional model of communication, individuals may send and receive messages at the same time.

The typical forms of mass communication are as follows:

1. Aristotle's Communication Model
2. Shannon-Weaver Communication Model
3. Berlo's SMCR Communication Model
4. Lasswell's Communication Model
5. Wilber Schramm's Communication Model
6. The Gatekeeper Communication Model

### Aristotle's Communication Model

Around 300 B.C., Aristotle created this model. This paradigm primarily focuses on how the speaker's voice affects the listener. This is a one-way exchange between the speaker and the listener. Even today, politicians, army generals, and administrators of organisations utilise this technique to structure their speeches. It serves as a tool for public speaking. Aristotle states that the speaker's discourse should consist of three components under this approach. To produce an effective speech, the speaker must take these factors into account since they are interconnected.

**Ethos:** This is basically the speaker's credibility. It is the justification for the audience's attention. The listener may not be convinced by the speaker's arguments if they lack credibility. Credibility is the capacity to inspire belief and trust.

**For instance:** If a politician has a track record of zealously advocating for citizens, that politician may be taken seriously. When ill, a person visits a doctor because physicians have

the credentials to demonstrate that they are knowledgeable. Similar to this, someone with extensive expertise in financial planning benefits from reputation due to the variety of clients he has worked with over the years.

The first component of Aristotle's paradigm is this. A speaker should make evident the accomplishments he has made in his speech and inspire people to believe in him. By showcasing his or her accomplishments, credentials, expertise, etc., he or she should win the audience's trust.

Establishing an emotional connection with the audience via the use of numerous tactics, such as voice modulation, pauses, rage, grief, etc., is known as pathos. For instance: On the battlefield, the chief would passionately extol the virtues of martyrdom and patriotism. He would act in this way to inspire the warriors to fight bravely.

The two examples above, i.e. Without Logos, Ethos and Pathos are insufficient. The word "logos" refers to the argument being made by the speaker. The speaker will sway an audience based on his or her authority and ability to make them feel something, but in order to strengthen their faith in him or her, the speaker must provide the reasoning for what they have heard. As an example, if a manager is implementing an organizational-wide change, his communication should make it very apparent why this is being done. The argument must be presented clearly, regardless of whether it would save expenses or lessen staff burden. Otherwise, the audience could be forced to consider the change's eventual outcome. A diagram may be used to demonstrate the model: The speaker is the primary component of the model. A speaker makes a speech while taking Ethos, Pathos, and Logos into consideration. The setting can be a business setting, a political gathering, or a battlefield. Finally, the audience is affected by the speech.

### Communication Model of Shannon and Weaver:

This model was created for the first time by Claude Shannon and Warren Weaver in 1948. Because of its simplicity, it is a commonly used model. The model reveals:

**Sender (Information source):** This is where the communication originally came from. It could be a person, something, or any other kind of information source. The message, the recipient, and the medium or media are all decisions made by the sender. Messages may be conveyed orally, in writing, by body language, etc.

**Encoder:** This source transforms the sent message into signals that may be returned to the sender. It could be a tool, like a phone, or a person, like a translator.

**Channel:** Another name for the medium used to transmit the message. The internet is the media if it's an email. RF waves are the medium if it's a mobile device. Sound waves are used if face-to-face communication is taking place. Anything that intrudes into the communication channel and disturbs it is considered noise. Both internal and external noise is possible.

**Internal:** When the sender uses the incorrect spelling or pronunciation of a certain term. Similar to this, a misinterpretation of the sentence's meaning may occur when the recipient decodes the message. External noise is noise that neither the transmitter nor the receiver can control. A few examples are loudspeakers that are always playing music and cars that honk. The opposite of an encoder is a decoder, a source that transforms signals from transmitters to receivers in a language that the transmitter can comprehend.

**Receiver (End Destination):** The receiver gets the message in this last step of the communication process. Feedback is the last step in the communication process when the

recipient confirms that he or she has comprehended the content being sent. The four elements of the communication process are the sender, the message, the channel, and the receiver, according to Berlo's SMCR model. Different variables have an impact on these four components.

**Sender:** The source of the communication is referred to as the Sender. The process of communication has just begun. The sender is impacted by the following, according to the model.

**Skills in Communication:** These are abilities that one uses while communicating to others. It involves things like speaking, listening, reading, and writing.

This term refers to the speaker's attitude towards the listener.

1. **Knowledge:** The familiarity of the speaker with the subject.
2. **Social System:** The sender is also influenced by society's values, precepts, and attitudes.
3. **Culture:** The Sender's message is influenced by their culture as well.
4. **Message:**
5. **Content:** The message's body may be thought of as its content. It has a start and a finish. The message may be efficiently communicated by body language, gestures, and facial emotions.
6. **Treatment:** This describes how the communication is delivered, transmitted, or received.
7. **Structure:** This refers to the message's structure. For instance, the introduction, major point, and conclusion.
8. **Code:** This refers to the message's format. A text, a video, etc.

The channel is the means through which a communication travels from the sender to the recipient. It basically consists of the five senses.

**Receiver:** The recipient of a communication is the person to whom it is directed. The message is decoded by He/She. The recipient is influenced by the same variables that affect the sender. These are the abilities one employs while receiving and transmitting communication. It involves things like speaking, listening, reading, and writing.

This term refers to the speaker's attitude towards the listener.

**Knowledge:** The familiarity of the speaker with the subject.

**Social System:** The receiver is also influenced by society's values, beliefs, and thinking.

**Culture:** The recipient's message is also influenced by their culture.

### Lasswell's Communication Model:

Lasswell was a politician in the United States. He said that the best method to respond to a message or any contact is to provide five answers.

**Who:** Who is the sender of the communication in question. The location from which communication originates.

**What is said:** to comprehend and/or analyse the sender's message.

**Where Channel:** Essentially, this refers to the method via which the sender delivered the message. Consider radio ads, TV advertisements, emails, etc.

**Whom:** The message's intended recipient. It could be one person or a group of individuals.

**For what purpose:** to comprehend the impact on the recipient

### **The communication model of the gatekeeper:**

The American psychologist Kurt Lewin, who was born in Germany and is best recognised for his contributions to the theory of behaviour, created the Gatekeeper Model. The "Gate" in this model serves as a filter. a filter that only let the audience see certain information. The "Gatekeeper" is the person in charge of this filter or "Gate"

The person who receives messages from numerous sources is known as the Gatekeeper. He or she filters the information based on personal values and perspectives before letting only pertinent information through. It may include tossing out any material that might be divisive, any information that might cause societal discontent, or any information that would hurt the feelings of a certain group inside society. For instance: A TV news channel's news editor gathers information and news inputs from a number of sources and on a range of subjects. He could get information on the weather forecast, sports news, political news, etc. The editor may decide to ignore certain submissions because they are unimportant or might cause political upheaval, among other reasons.

### **Wilber Schramm's Model of Communication**

Wilber Schramm created this simple communication paradigm in 1954. The sender, the message, and the destination are the three fundamental components that this paradigm emphasises. The model provides thorough explanations of encoding and decoding. This concept holds that communication cannot occur unless the sender and the recipient have shared areas of expertise. If the sender and the recipient have similar fields of expertise, communication is straightforward and straightforward. Wilber Schramm asserts that a communication is only effective when the recipient comprehends the sender's intended message. The communicator learns the words' denotative and connotative meanings via experience. Due to this learning, the message's intricacy may be readily understood. The communicator is capable of understanding both the surface-level and deeper meaning.

## **CONCLUSION**

There are two sides to every conversation. It is the most important factor in separating us from other animals. The art of communication has changed throughout the course of human history. Different forms of communication exist. Communication theories and models have been established by academics in the field. We can better comprehend the communication system thanks to these ideas and models. In the era of globalisation, good communication is crucial. Through the study of ideas and models, the communication process will be better understood, making it feasible.

## CHAPTER 2

### MEANING, SIGNS, CODES AND SIGNIFICANCE IN COMMUNICATION

---

Mrs. Sreelekha Premjet, Assistant Professor,  
Department of English, Presidency University, Bangalore, India,  
Email Id-sreelekha@presidencyuniversity.in  
Prof. Malati, Regional College of Management, Bangalore, India

#### ABSTRACT:

The study of communication requires an understanding of meaning, signals, codes, and importance. This summary gives a general review of these ideas and explains how important they are for comprehending the dynamics and process of communication. It investigates how meaning is created, the use of signs and codes, and the overall relevance of these components in communication situations, drawing on current literature and communication theories. The idea of meaning is the subject of this abstract's first section. Meaning is the interpretation and comprehension that people give to messages or symbols used in communication. The subjective aspect of communication is highlighted by the fact that it includes both the sender's intended meaning and the recipient's interpretation of it. For efficient communication and to prevent misunderstandings or misinterpretations, it is essential to comprehend how meaning is formed and conveyed. In the second area, codes and signs are explored. Words, gestures, visuals, and sounds are all examples of signs, which are the fundamental building blocks of communication. Messages are conveyed by signs, which also have significance. The usage of signs within a certain context or culture is governed by codes, which are systems of laws and customs. The way that people perceive and comprehend signals is influenced by a variety of codes, including spoken language, body language, and cultural symbols. Additionally, the importance of meaning, signals, and codes goes beyond the simple communication of information. As it reflects and shapes both individual and group identities, norms, and values, communication has social, cultural, and symbolic importance. It is crucial for creating power dynamics, forming social relationships and reinforcing them, affecting attitudes and behaviours, and promoting social change.

#### KEYWORDS:

Communication, Information, People, Signal, System.

#### INTRODUCTION

The definition of communication is the intelligible transmission of a message from a sender to a recipient. The communication is ineffective if the recipient does not comprehend the sender's intended message. Half-cooked broth might be difficult to digest. People connect with one another to exchange views, opinions, joys, sorrows, disappointments, etc. It's stated that people can speak, fish can swim, and birds can fly. The ability to communicate between humans and other species of life is unparalleled. What sets humans apart from other animals is their talent. Animals can only express urgent matters like hunger, threat, or danger. Humans may converse about a variety of subjects, such as poetry, war, philosophy, physics, and arithmetic in addition to the fundamental ones [1], [2].

There are several definitions for the term "communication." Communication is described by the Oxford Dictionary as "the activity or process of expressing ideas and feelings or of providing information to people." According to the Cambridge Dictionary, communication is defined as "to share information with others by speaking, writing, moving your body, or

using other signals." It is obvious from this definition that communication requires at least two persons to interact with one another in order to convey information. The Latin noun or verb *communis*, which meaning "to make common," is the root of the English word "communication." In the course of communication, the sender and the receiver come to share thoughts or messages. All human endeavours and areas, including philosophy, mathematics, history, the arts, science, and commerce, have made considerable use of communication. All of these disciplines may benefit from it. The printing press, telegraph, radio, television, and internet are just a few of the technologies that have contributed to the fast rise of modern technology and altered the way people interact with one another. In the past, there was relatively little communication. We now live in a time period known as the "age of communication." Everybody benefits from communication, including the individual, the family, the community, and the government. The people should be informed on the governments' goals, programmes, etc. The development of mass communication has made communication easier in all fields, including education, agriculture, health, business, and industry[3], [4].

A very difficult topic to answer is how humans first began to communicate. Undoubtedly, we did not begin speaking following a gathering of individuals around a table. We didn't intentionally start talking about any one term. The development of human languages into their current state has taken thousands of years. According to Brian Handwerk, a change in the throat's anatomy throughout evolution gave humans the ability to speak. It is possible that before humans established a spoken language, they communicated using gestures. They may have begun exchanging harsh yells, grunts, hooting, giggles, and other sounds to communicate[5], [6].

Information does not always flow freely in communication. The process of communicating comprises sending, receiving, and interpreting messages. There is a tonne of information coming from many sources. The proliferation of information is nothing new in the big data era. But it only results from efficient communication. Information must be sent such that the recipient fully comprehends the message in order for it to qualify as communication. It might be said that there was either no communication at all, inadequate communication, or misunderstanding if the recipient is unable to understand what was communicated to him[7], [8].

Technology has significantly altered how communication is done nowadays. From personal communication to mass communication and from mass communication to contemporary interactive communication has been the route. We may conduct interactive contact with the aid of video, videotex, teletext, teleshopping, telephones, mobile phones, electronic mail, etc. thanks to new media[9], [10].

## DISCUSSION

The employment of gestures, signs, symbols, tones, and other communication tools is widespread. Semiotics is the study of signs. Something that is used to communicate is a sign. These signs' connotative or denotative meanings are both possible. The study of signs and symbols as a component of communication is explored by semiotics. Ferdinand de Saussure, a Swiss linguist, developed the semiotics theory. Saussure saw language as a system of signs. Charles Sanders Peirce, a different scholar, classified signs into three types and described a sign as "something which stands to somebody for something." Icon, 2. Index and three. Symbol. The fact that a symbol can never have a clear meaning was emphasised by Pierce. Since there isn't any sign that can express an idea as well as this one, it must be used when it is absolutely necessary.

The basis of all communication is signs. It is the most basic kind of meaning. A symbol signifies something distinct from itself. An concept or item and a symbol are connected by their meaning. A symbol, an item, or a concept has a link to its meaning. Signs are used to warn, advise, restrict, and inform. We often discuss danger signals, indicators of love, friendship, etc. On a school route, we can tell it is a quiet area when we see a horn crossed. The listener knows the meaning of the word "table" when it is stated because he associates it with the item. Instead of using the word "table," you might use an image of a table to indicate to the receiver what you want them to understand. Physical gestures may be used as indicators to convey ideas. A smoke in the woods indicates a forest fire.

In a given culture, a symbol is anything that denotes another meaning. Symbols have a distinct significance. They are used to transmit information from one individual to another. Typically, symbols have connotative significance. They are used to arouse certain feelings in the message's addressee. People may communicate their views of the physical world by using symbols. An action, an occasion, a person, a season, an emotion, etc. may all be represented by a symbol. Both receptive and expressive communication may be carried out via symbols. Symbols may be found in things, portions of things, images, text, motions, gestures, signs, and speech. Since ancient times, people have used colours, flags, and signs to denote meaning, such as the white flag to signify surrender and the rose to denote love. Poets use symbols in writing to portray and express certain moods, emotions, ideas, deeds, etc.

The majority of communication is symbolic. Since the words we employ are nothing more than symbols that stand for meanings other than their literal meanings, whatever we try to express is always symbolic. With the exception of onomatopoeic words like hiss, bow-wow, snap, splash, etc., the relationship between "words" and their meanings is arbitrary. Additionally, usual is the metaphorical connotation. There are verbal and non-verbal symbols. An essential technique for enhancing verbal communication is nonverbal cues. Different body language, gestures, and postures all transmit different meanings. The interpretative community is aware of how they have been historically and culturally defined. The symbols are the motions. However, gestures might have diverse meanings depending on the culture. Something that is deemed normal in one culture could be prohibited in another.

### Codes of Communication

Coding, in general, refers to the application of a specific system for object identification. Examples of coding systems include mathematical symbols, punctuation, and musical notation. The primary means of communication are words. The words are only codes that are used to transmit or receive messages. We may utilise code in daily life for a variety of purposes. Army soldiers may use a linguistic system that can only be understood by those who are familiar with it. A pair may choose a different method for their private communication. Similar uses of the term "code" may be found in communication theory. One object stands in for another in a system known as "code." a mechanism that establishes a message's meaning. We shall refer to the latter as communicative codes in order to separate them from codes in the broad sense and codes that have a first-order function in fostering understanding among individuals. A code is a set of communication guidelines that a person or organisation uses.

We may use a traffic light as an example to better comprehend this. Different colours are employed at traffic signals as codes to send messages to oncoming vehicles. People are aware that they may go if a green light is shown, whereas a red light signals that they must stop. The public can understand this system of codes. Understanding codes is crucial to understanding

semiotics. In order to properly transmit a message, both the sender and the recipient utilise these codes. It is related to the concepts of encoding and decoding.

Encoding is the process of placing a message into a code throughout a communication cycle. Information, ideas, views, etc. are encoded using a code that is understood by both the message's sender and recipient. Stanly Fish described it as a "interpretive community." A person who speaks a different language could not get the message. For instance, if you speak Hindi in a village where everyone speaks Telugu and no one understands it, no one would be able to comprehend you at all. Therefore, it's crucial to convey the message in the appropriate code and context.

Decoding: Only speakers of the given language system are capable of deciphering the encoded message. Decoding is the procedure used to understand a message. By analysing the message's meaning, a message is translated into ideas in this process. A message's interpretation and analysis are part of the decoding process. Successful communication requires effective decoding as a necessary component. Miscommunication may result from any message misunderstanding. It will cause misunderstandings and confusion. The receiver's perception, comprehension of the context, and grasp of the coding system all play a role in the message's meaning. In context, the words are given meaning. The communication codes have been divided into two groups by communication experts: verbal codes and nonverbal codes. The following are some communication codes: The most significant means of human communication that sets humans apart from other living things is language. Both spoken and written language exist. The development of humans has relied heavily on the use of language.

### Communication Code Types

All forms of art use aesthetic rules to communicate. Acting, singing, dancing, sculpting, and other kinds of art are excellent illustrations of human brilliance. They convey ideas, feelings, wishes, etc.

Written, aural, and visual codes are further subdivided into aesthetic codes. Audio codes include things like songs, stories, idioms, and more. Visual codes may be seen in things like acting, painting, photography, theatre, and architecture.

Examples of written aesthetic codes include play, poetry, and novels. The Indian Rasa theory encompasses a thorough investigation of the aesthetic codes' significance as a means of communication. In aesthetic codes, the signifier might represent many signifieds. They are hence known as polysemic. In aesthetic codes, the term has connotative significance.

These are the communication protocols that science uses: logical codes. Examples of logical codes include mathematics, Morse code, Braille, and others. The receiver of the communication is given a special meaning by these codes. Logical codes have a specific meaning since each signifier stands for a different signified. Given that the codes are monosemic, the meaning is denotative.

### Voice Code:

In communication, it's not only the words that count; also, how they are said. Pitch, accent, stress, tone, and other features are regarded as paralinguistic. These paralinguistic components help language in communication. The same statement might have distinct meanings when spoken in various tones. For instance, "Did you drink tea?" may be pronounced in several ways to convey various meanings. The message's purpose may likewise be altered by changing the pitch or emphasis. Indicators of vocalic behaviour include commas, semicolons, periods, ellipses, question marks, and exclamation points.

## The Essentiality Theory

The term "sign" was first used by linguist Ferdinand de Saussure in his book *The Course in General Linguistics* (1916), which defines signification as "the act or process of signifying by signs or other symbolic means." He asserts that a sign consists of two parts: a signifier and a signified. The written or spoken word "table" stands for the object "table," for example, as a signifier. The notion or thing that the communicator seeks to conjure is known as the signified. According to Saussure, there is no innate connection between the signifier and the signified. It is a random relationship. The term "table" and the corresponding object "table" have no logical relationship.

The American linguist Charles Sanders Peirce expanded on these concepts by classifying signs into three categories: icon, index, and symbol. Anything that physically resembles the concept or item being expressed is considered an icon.

The image or photograph of a table is inextricably linked to the word "table." A symbol that directly relates to a concept or an item is called an index. An example of an index might be smoke from a fire. There is no intrinsic relationship between signifier and signified in a symbol. It is customary to use the connection that the communicator understands. These ties are products of social and cultural construction. Words, images, colours, gestures, and other forms of expression might all be used as symbols. Between linguistic value and meaning, Saussure draws an important difference. He admits that value is a component of signification but maintains that the two concepts are distinct. A word may have a particular signification or meaning, but this will not be the same as its value since the latter is decided by "the concurrence of everything that exists outside it."

All living things utilise communication, hence it has enormous significance. Even insects, animals, and birds can communicate. The wolves howl to unite, while the dogs bark to converse. The birds twitter. But human communication is more complicated and evolved. Life as we know it grinds to an abrupt halt if communication is broken.

The fundamental necessity is communication. It is essential for all animals to communicate, but social animals especially. To coexist, exchange knowledge, express pleasure and sadness, defend against assault, hunt, and fall in love, communication is necessary. "The desire for communication in humans is just as powerful and fundamental as the needs for food, sleep, and romance. It is a need for both individuals and society, according to Kumar, Keval J.

in Mass Communication in India. Physical, biological, and social needs all compel us to communicate. Each of our five senses touch, taste, hearing, sight, and smell can be used to communicate. Excommunication is used as a kind of punishment when we wish to discipline someone. The worst kind of punishment a person can get is isolation. Even animals engage in this kind of behaviour. If a creature is separated from the pack, it will perish. Lack of communication might result in psychological issues such as emotional trauma.

As previously said, communication is beneficial in every field, including agriculture, education, health, business, and security. To connect with its population, the government employs mass communication techniques. It shares its stance on these and all other domains. The people and the government are brought together via the media.

The introduction of digital platforms has significantly altered how we interact. In the past, people would communicate via runners, horses, and carts, which would take a lot of time. Communication is now moving quickly. One may get in touch with the message's receivers in a split second. In a short amount of time, the government connects with the people through

digital channels. It is helpful while facing difficulties. The ability to communicate quickly saves many lives since timing is of the essence.

As long as there has been humankind, there has been communication. Humans have created a linguistic system that successfully communicates the meaning of the intended message. codes for communication. Humans may communicate with each other by using the assistance signals. Communication theory academics have made an effort to comprehend communication phenomena. There are several communication codes that have been created. The significance of meaning in communication has been investigated by academics including the founder of modern linguistics, Ferdinand de Saussure.

### CONCLUSION

The importance of meaning, signals, and codes in communication. The use of suitable signals and codes that are in line with the intended message and the cultural or social context as well as agreed understandings are essential for effective communication. People may traverse a variety of communication situations and overcome possible hurdles by having a thorough understanding of the cultural, social, and environmental elements that affect meaning and the usage of signs and codes.

In conclusion, essential concepts in the study of communication include importance, meaning, signals, and codes. Effective communication and the development of deep bonds between people and groups are facilitated by the formation and interpretation of meaning, the use of signals and codes, and the comprehension of their importance in varied circumstances. By investigating these ideas, people may improve their communication abilities, master a variety of communication settings, and get a greater understanding of the intricate nature of human connection.

Prof. Anala, Regional College of Management, Bangalore, India

#### ABSTRACT:

Understanding and analyzing numerous fields, such as literature, linguistics, anthropology, and cultural studies, have benefited greatly from structuralism theory and semiotic techniques. An overview of structuralism theory, its fundamental ideas, and its applications in several domains are given in this abstract. It also looks at semiotic techniques, which are closely related to structuralism, and how they may be used to understand signs and symbols in cultural and communicative situations. The structuralism theory is the subject of this abstract's first section. Midway through the 20th century, structuralism evolved as a theoretical framework for examining the underlying systems and structures that underpin human behaviour, language, and culture. Instead of concentrating exclusively on individual components, it emphasises the study of links, patterns, and connections between parts. The idea that connections within a system provide meaning and the notion that people are moulded by wider social and cultural systems are two fundamental tenets of structuralism. The second area explores how structuralism theory is used in different academic fields. Structuralism provides methods for examining narrative frameworks, motifs, and recurrent themes in literature and literary criticism. It offers perceptions into the basic principles and grammatical constructions in linguistics. Structuralism aids in identifying and interpreting common cultural symbols, rituals, and mythology in anthropology and cultural studies.

#### KEYWORDS:

Communication, People, Signal, Structuralism, Semiotic, System.

#### INTRODUCTION

The semiotic techniques, which have strong ties to structuralism. The study of signs and symbols, as well as how they convey meaning in communication and society, is known as semiotics[1], [2]. Decoding signals and comprehending their cultural, social, and contextual relevance are both parts of semiotic study. The interaction between signs, their signified (the meaning or idea attached to the sign), and their signifiers (the actual shape of the sign). The discussion of semiotic approaches' applicability in diverse fields is covered in the fourth component. In advertising and marketing, semiotic analysis is often used to comprehend how signs and symbols affect customer behavior and communicate messages[3], [4]. Semiotics aids in media studies by analyzing the visual and linguistic components of media texts to reveal underlying ideologies and meanings. Semiotics helps in the interpretation of cultural artefacts, rituals, and practises in cultural studies by illuminating their symbolic and social importance.

The main goal of communication is to be understood, or to be able to comprehend the message that has been sent. The language was developed by people. Due to the language's ambiguity, they are not in control of it despite using it often. Both connotative and denotative meanings apply to the terms. The connotative connotation is what gives the communications

their ambiguous nature. We constantly communicate with one another in our everyday lives. How well we communicate with one another affects all of our behaviours and ideas. Due to its increasing significance in daily life, this era is known as the "age of communication." Effective communication is essential to business success. To get their word through, governments require efficient communication techniques. Effective communication is essential to the health industry. Only a teacher who can effectively communicate will be able to instruct. In contemporary culture, communication is a crucial, ubiquitous, and significant behaviour[5], [6].

One must have a deep understanding of the intricacies of communication in order to communicate effectively. The student should be able to explain how the communication process operates, how the various communication components interact, and how communication theory functions. Individuals use symbols to construct and interpret meaning in their surroundings throughout the social process of communication. In *Introducing Communication Theory*, West and Turner state this. To transmit a message, communication uses tools like signs and symbols. It is crucial to learn signals and how they function in a linguistic system in order to communicate effectively. Let's go more deeply into the subject of structuralism and semiotics.

### **Semiotics**

The study of signals that a communicator uses to communicate a message is known as semiotics. In semiotics, communication by signs is studied. It is a method of seeing the world and comprehending the immense effects that the environments and cultures in which we unconsciously live have on all of us. Semiology is the study of signals used in communication. The Greek word "semiosis" which meaning "sign" is where the term semiotics originates. "The study of signs" or "an epistemology about the existence or actuality of sign in social life" is how semiotics is defined. The idea that signs and symbols communicate the message in the process of communication was first introduced by the Greeks during their study of philosophy and medicine. To determine the aetiology of the condition, they looked at the symptoms of the illness. The writings of Aristotle had a significant role in the development of semiotics theory. St. Augustine later divided signals into three groups: holy, conventional, and natural. The relationship between meaning and human understanding was outlined by John Locke in his "Essay Concerning Human Understanding"[7], [8]."

The current semiotics theory was created by the Swiss linguist Ferdinand de Saussure. A sign denotes something different from itself. There are many different kinds of signs used in communicating. There are several systems that use signs to communicate a message in addition to more direct communication methods like language, Morse code, and traffic signals. A symbol is a form of sign that denotes another meaning and carries connotations. Symbols have established meanings. Symbols are used to symbolise things that go beyond their literal meaning. They may take the shape of words, persons, markings, places, or abstract concepts. Symbols are used not just in literature but also in a wide range of other disciplines, including business, arithmetic, technology, sports, and design. In order to direct traffic, symbols are employed at traffic signals. They are also used in factories to train employees operating equipment and to signify safety and security directives. To a member of a given group who adheres to the same set of social norms and conventions, body postures, gestures, social rituals, clothing taste, etc. all transmit a message. Semiotics is the study of the customary, cultural practises that give signals a clear meaning[9], [10].

As was covered in the previous chapter, Charles Sanders Peirce, the founder of American semiotics, classified signs into three categories after Ferdinand de Saussure: icons, indices, and symbols. A symbol's intrinsic commonalities enable it to directly communicate meaning. For instance, a picture of a dog communicates the idea of a four-legged animal that barks. Index and its signified have a natural relationship, such as when smoke indicates a fire. The third component symbol is a legitimate indication. Here, the signifier and signified have a traditional relationship. It is not organic. The signals might be audible, visible, or acoustic.

As the meaning is usually ingrained in the linguistic system that we acquire from infancy, we subconsciously interpret the meaning of the words, gestures, postures, visuals, and so forth. Our grasp of the traditions and culture of the society in which we live affects our capacity to comprehend these meanings. We need to be able to properly grasp the background, culture, and tradition in order to interpret these indications. In various circumstances, the same gesture could have a distinct meaning. In one situation, a guy giving the thumbs up denotes that everything is well. "Saussure suggests that semiology be "recognised as an autonomous discipline with its own object like all the other sciences," with the meaning that if a man makes the identical gesture by a roadside and signals it to the passing automobiles, it implies he is asking for a ride. It is necessary to study language "in itself," as opposed to, as in the past, in relation to other things. To find out what makes language a "special system," linguists must first understand what other semiological systems have in common with language.

Many structuralists are semioticians as well. The semioticians "handle any collection of social phenomena or productions as texts," that is, as self-sufficient, self-ordering, hierarchical structures of differentially determined signs, codes, and rules of combination and transformation that give the texts "meaning" to members of a specific society who are skilled in that signifying system. A Glossary of Literary Criticism. Semiotics was used by Claude Levi-Strauss to study cultural anthropology. Semiotics has been integrated into Freudian psychoanalysis by Lacan. In his semiotic examination of ads, Roland Barthes also used Saussure's semiotics theory. There is no elaborate sign system independent of language. According to Barthes, the four sets of words language, speech, signifier and signified, syntagm and system, and denotation and connotation include the four "elements" of semiology. Both denotative and connotative meanings may be attached to a word.

A denotative meaning is one that is clear-cut and precise. Its meaning is referential. A connotative meaning is one that is suggestive. The term has ambiguity because of its connotative meaning. Humans are capable of expressing their immensely complex thoughts, ideas, and emotions in connotative ways. Therefore, connotative meaning has a larger importance in literature. However, denotative language is required in the fields of law, commerce, and science. No room for misunderstanding exists in it. Barthes agrees with many other theorists in characterising language as "a collective contract which one must accept in its entirety if one wishes to communicate" when discussing Saussure's relationship between language as a structure and speech as a sequence of individual actions. History of Literary Criticism, M. A. R. Habib

**New criticism:** Deconstruction theory and structuralism both criticised a widely held doctrine. Prior to then, philological and historical analyses of the language were conducted. It was a diachronic method of language study. But Saussure adopts a synchronic method for studying language.

#### **Applications of semiotics:**

Non-linguistic sign systems are also studied by semiotics in addition to linguistic sign systems. Every cultural occurrence may be investigated as a kind of communication,

according to Umberto Eco, an Italian author and semiotician. In several disciplines, semiotics theory is put to use. Roland Barthes, a French semiotician, used semiotics theory to marketing in the 1950s. In his 1957 book "Mythologies," he emphasised the significance of employing semiotics to investigate media and its impact on audiences. He looked at the interaction between the media and the audience. Later, several academics used semiotics theory in a variety of domains. In 1976, Holman's dissertation "Clothing as Communication: An Empirical Investigation" examined consumer behaviour and culture while applying the idea of semiotics to the area of marketing. In marketing and advertising, both verbal and nonverbal cues are employed to communicate with the target audience. The customers decipher the message that is encoded by the brands. The consumer filters the message via myths, beliefs, values, symbols, etc. throughout the decoding process. One must examine verbal signals, visual signs, and symbolic messages to comprehend this semiotics. The study of cognition, anthropology, culture, literature, cinema, music, photography, theatre, and translation are a few additional subjects that make use of semiotics theory.

## Building Block Theory

### The Beginning and Growth of Structuralism:

The development of semiotics into structuralist theory. The foundation of this structuralist philosophy is the writings of Ferdinand de Saussure. He is credited with founding modern linguistics as well. Since World War II, structuralism has become a significant school of thought. At the beginning of the twentieth century, the work of the Swiss linguist Ferdinand de Saussure served as the primary inspiration for structuralist theories in linguistics and literary studies. A key text on structuralism is the book *Course in General Linguistics* (1916), which is a compilation of Saussure's lectures put together by his pupils. Roman Jakobson's continuous work in linguistics, semiotics, and literary analysis is where the word "structuralism" was first used. "In its earliest manifestation, as exemplified by Lévi-Strauss and other writers in the 1950s and 1960s, structuralism cuts across the traditional disciplinary boundaries of the humanities and social sciences by attempting to provide an objective account of all social and cultural practises, in a range that includes mythical narratives, literary texts, advertisements, fashions in clothing, and social decorum patterns. Glossary of Literary Terms, M. H. Abrams

Let's use one example to better grasp the word structuralism. If a window is removed from a home or structure, it will no longer function as a window. Only when it is a component of the larger construction known as a building does it make sense to be a window. Only within the unique framework of the structure can windows, doors, etc. take on meaning. When considered in relation to the overall construction, including the wall, the existence of a window makes sense. The example in question has two facets. The individual components of a building are always subservient to the total. The second point is that the component elements have significance when compared to other elements of the same structure. The individual components individually cannot make sense in the same way that they do within the framework. It is arbitrary how the components of a structure are arranged in respect to one another. It isn't sensible, illogical, or natural. The structure's rules are arbitrary, and they have no underlying significance.

According to Saussure, language functions as a structure. Independently meaningful words are combined to form language, which is used for communication. Language is a way of meaning things. We already covered Saussure's sign, signifier, and signified theory in the previous chapter. Sign consists of two parts: signified, which is the idea component of the sign, and signifier, which is the sound component of the sign. The signified is a mental

notion, while the signifier is a verbal picture. Saussure continues by stating that the signifier and signified have no intrinsic or natural connection. The relationship is arbitrary since it is clear that different signifiers exist in various languages for the same signified. For instance, the word "chair" is "Khursi" in Hindi and "Khurchi" in Marathi. Saussure contends that the signifier is not generated from the signified because else there ought to be some innate connection between the two. According to Saussure, a signifier can only represent anything in connection to other signifiers in a linguistic system. It may not convey the concept on its own if taken out of context. In the same way that a building serves as a structure, language too serves this purpose. Language's component pieces receive their meaning from their interrelationships within the linguistic structure. The meaning of each of the language's component pieces relies on how negatively they are linked to one another. Each word is in antithesis to the other. According to structuralism, language is thought of as a self-contained, self-regulating semiotic system whose constituent parts are identified by their interrelationships. The language has its own specific set of guidelines.

The structuralist approach to literature uses linguistics as a model to explain literature, in contrast to stylistics, a linguistic approach to literature that seeks to explain how language is utilised in a specific literary work. While structuralism is not concerned with the meaning of a specific work, it does pose the basic question of how meaning is even conceivable. It is concerned with the circumstances around meaning and the structures that enable meaning. With the growth of linguistics research, semiotics and structuralism have both evolved. The semiotics and structuralism concepts that Ferdinand de Saussure established are fundamental.

The meaning of the phrases is arbitrary, according to Ferdinand de Saussure. The spoken or written "word" that is employed to convey a word's meaning does not inherently, naturally, or logically correspond to that meaning. There is no one, correct interpretation of a text. Conventionally and culturally, the terms have meanings associated with them. The meaning of the words may not be clear if they are used alone or out of context. Depending on the situation, the connotation varies. In several settings, a same word may have a diverse meaning.

Let's look at the following assertion: On their date night, he gave his date a date box. Date is used to indicate something distinct in this statement. The same word might have many meanings in a single statement. "In language there are only differences without positive terms," says Saussure. Whether we pick the signifier or signified, language contains only conceptual and phonic distinctions that have arisen from the system and neither concepts nor sounds that existed prior to the linguistic system.

In his discussion of language and parole in synchronic structural analysis, Ferdinand de Saussure goes on. A framework of communication between many people is the language system. According to him, a person's individual utterances can only be a component of their overall structure, never the structure itself. Saussure contrasts parole, which refers to real oral and written communication by a member or members of a given speech community, with langue, which is a system of internalised, shared norms controlling a national language's vocabulary, syntax, and sound system. He does this using the analogy of a game of chess. Parole is the use of actual words at a certain moment. Everyone who speaks a linguistic system shares a lingua franca. The parole's ability to be understood is a result of the common nature of the languages.

Saussure also discusses the relationship between language and mind. The use of language gives the ideas their correct form and personality. The concepts are little more than a scattering of hip bricks before language even exists. Language's function is to "create a bridge

between thought and sound." Saussure criticised the widely accepted theory of meaning. In France, structuralism theory was widely used. In the 1960s, it was imported to America. Roman Jakobson, Jonathan Culler, Michael Riffaterre, Claudio Guillen, Gerald Prince, C. S. Peirce, Charles Morris, and Noam Chomsky were among the major theorists. The significance of Saussure to structuralism and linguistics may be summed up as follows:

1. Sign, signifier, and signified concepts
2. The random association of signifier and signified, excluding onomatopoeic terms
3. All linguistic components' identities are defined by discrepancies
4. The language and speech notion.

Ferdinand de Saussure left a legacy that was continued and the idea of structuralism was further explored by Roland Barthes. In fact, this change is seen to mark the passage from structuralism to post-structuralism. Roland Barthes introduces the notion of "death of the author" to present the idea of the text as a place of free play or pleasure. Marxist authors like Brecht, Sartre, and Saussure had an impact on Roland Barthes. Writing *Degree Zero* (1953), *Mythologies* (1957), and *The Pleasure of the Text* (1973) are some of his important works. In 1968, his most well-known article, "The Death of the Author," was published. The most important thesis put out by Barthes is that myth is not a thing, a concept, or an idea but rather a language, a mode of communication. It is a kind of signifier, and the manner it expresses its meaning determines what it is. Barthes bases his theory on Saussure's semiology, which he claims has three terms: signifier, signified, and sign. According to him, a sign is made up of a signifier and a signified. Saussure believed that the relationship between signifier and signified was arbitrary, whereas Barthes asserts that there is a link between the two. According to Barthes, social agreement and formal education have resulted in a relationship that is essential between the signifier and signified. According to a collective contract, "the connection, the act of signification, is a process and over time, the connection becomes naturalised." *History of Literary Criticism*, M. A. R. Habib

Roland Barthes recounts a line from Balzac's book *Sarrasine* in his essay "The Death of Author": "This was woman herself, with her sudden fears, her irrational whims, her instinctive worries." He asks a lot of questions at the beginning of the conversation and challenges the authorship of the text. Are they the author's own words or those of the character? Does the author base this statement on conventional knowledge or on his own ideas? According to Barthes, we will never know the solutions to these questions. The author claims that "writing is the destruction of every voice, of every point of origin." Who wrote this? The writer is an outcome of society. He learns every bit of knowledge from the society's norms and customs. Barthes claims that the concept of authorship is contemporary. In the past, authorship did not exist. The works were credited to the society's accumulated knowledge. People really used to think that the author was only a human intermediary between the divine and mankind. The text's creator is unable to provide a single interpretation. The reader response hypothesis that was subsequently established seems to have its roots in this argument. There cannot be only one meaning to the passage. The text is a collage of phrases culled from the many cultural hotspots: The text cannot be given a definitive meaning (signified). It is alive and always changing at the expense of the author's passing. As a result, literature does not provide a clear and conclusive interpretation for the text.

Mimetic criticism (the belief that literature is primarily an imitation of reality), expressive criticism (the belief that literature primarily expresses the feelings, temperament, or creative imagination of its author), and any variation of the belief that literature is a mode of communication between author and readers are all explicitly opposed by structuralism.

Therefore, the emphasis of structuralist criticism is on the impersonal act of reading, which, by putting the necessary norms, protocols, and expectations into action, gives literary meaning to the arrangement of words, phrases, and sentences that make up a book.

### Use of Structuralism

Numerous disciplines, including anthropology, literature, cinema, music, art, sociology, psychology, and architecture, have used structuralism as a theoretical framework. Structuralism is used in anthropology to explore a variety of human rituals, religious ceremonies, food preparation techniques, festivals, games, and other forms of entertainment. Each of these actions has a certain framework that conveys significance. Levi-Strauss researched binary oppositions such as good-bad, man-woman, table-chair, white-black, hot-cold, etc.

This research was used by Levi-Strauss to conceptualise the basic mental structures. Structuralism is a literary theory that is used to analyse a text and contends that every writing has a certain structure. In mass communication, structuralism is used to analyse the underlying patterns that shape societal knowledge and reality perceptions.

The structuralist view of society places communication at its core. Finding systems that provide meaning is what structuralists are interested in. Structuralists place less emphasis on aesthetic value and place more emphasis on the rules and customs that establish the meaning. Structuralism is also used in cinema criticism to examine films as constructed media that are shaped by an underlying system of norms and conventions. As an example, Rick Altman applies structuralism to the 1935 film *Top Hat* and emphasises the need of comprehending Hollywood conventions in order to analyse the work. He emphasises that binary oppositions serve as the framework for the meanings of the movie. To analyse and decipher the message the movie is trying to express, structuralists look at binary oppositions such as hero-villain, hero-heroine, good-bad, culture-nature, and individual-society.

### CONCLUSION

In conclusion, the theories of structuralism and semiotics provide useful frameworks for comprehending the systems, structures, and meanings that underlie linguistic and cultural expressions of human behaviour. By using these methods, academics and researchers are better able to understand how various components of a system interact with one another as well as the depths of meaning that are layered within signs and symbols. A better knowledge of human communication, culture, and society is made possible by the applications of structuralism theory and semiotic techniques across a variety of fields, opening the door for nuanced interpretations and critical assessments. The theories that examine the sign system in communication include semiotics and structuralism. Communicators use both verbal and non-verbal cues to communicate a message. Understanding the meaning of communication, which is the most crucial aspect of the communication process, is made possible via the study of semiotics and structuralism.

## CHAPTER 4

### IDEOLOGY, EMPIRICAL METHODS AND MEANINGS

---

Dr. Shibilynuaman Zainudheen, Assistant Professor,  
Department of English, Presidency University, Bangalore, India,  
Email Id-shibilynuaman@presidencyuniversity.in  
Prof. Anand Singh, Regional College of Management,  
Bangalore, India

#### ABSTRACT:

In the social sciences, ideology, empirical techniques, and meanings are interrelated ideas that are crucial for comprehending the complexity of human behaviour, beliefs, and social systems. An overview of ideology as a theoretical framework, empirical methodologies as a research methodology, and their connection to the investigation of meanings in social situations are given in this abstract. Ideology is the subject of this abstract's first section. A system of beliefs, values, and concepts collectively referred to as ideology influence both individual and group perceptions of the world, society, and interpersonal relationships. Ideologies often operate at both the conscious and unconscious levels, influencing perceptions, behaviours, and decision-making processes. In order to understand social occurrences, power relationships, and societal transformations, it is essential to understand the underlying ideologies. The second area explores empirical techniques. Empirical techniques include the methodical gathering and examination of data in order to answer research questions or validate theories. To shed light on social phenomena, they depend on visible and quantifiable facts. Interviews, surveys, experiments, and observations are examples of common empirical procedures. These techniques enable researchers to compile data, spot trends, and make judgements based on empirical facts.

#### KEYWORDS:

Data, Empirical, Ideology, Stage, Technique.

#### INTRODUCTION

The Latin term empiricus, from the Greek empeirikós, is where the word empiric first appeared. It means "based on observation and experience." The root of the Greek suffix (-peiros) is peîra, which means "attempt, try, or test." The conclusions of an empirical investigation are based on actual empirical data. This kind of proof is sometimes referred to as "verifiable" proof. To get this information, quantitative or qualitative approaches are applied. An example of empirical analysis would be if a researcher wants to discover whether listening to jovial music encourages prosocial behaviour. One set of audience members might be exposed to upbeat music while the other group is not in an experiment. The results are then examined to see if upbeat music affects practical behavior [1], [2].

Empirical analysis is a technique for analysing data that is supported by evidence. The empirical method is based on facts, figures, and results rather than beliefs and concepts. A crucial aspect of the scientific method is empirical analysis, which is also the most popular technique for doing topic research and identifying a plausible solution from quantitative observations of empirical data. Conversely, empirical analysis only ever offers a most probable conclusion based on probability, never a conclusive one [3], [4].

The idea that knowledge is primarily acquired via experience and the five senses is known as empiricism. Empiricism, in contrast to rationalism, holds that idea discovery, deduction, intuition, and revelation are the primary ways in which knowledge is attained. The first question in empirical study is frequently: Does talking on the phone while driving impair one's ability to drive? Based on the premise that talking on a mobile phone while driving is risky, a study hypothesis might be developed. The researcher's main data or previously compiled secondary data that were acquired by others might then be used to test that hypothesis. For instance, primary research methods, such as tying together police records or conducting an interview with a police department employee, or secondary research methods, such as reading previously published studies, might be used to gather empirical data. Using the information obtained, it is possible to decide whether or not the hypothesis is supported before proceeding to a conclusion[5], [6].

### Empirical Analysis Cycle Steps

Every scholar's research goes through stages and procedures that they adhere to in order to achieve an accurate evaluation. The current five-stage empirical analysis cycle was developed by A.D. de Groot in 1969. He explained that each stage is equally important while performing a research. Using this analytical framework, researchers may create hypotheses and provide replies that can help us understand how the world is changing[7], [8]. This makes it easier for researchers to conduct experiments according to a set of rules, leading to more accurate findings. The empirical analysis cycle consists of the following five steps:

### Statistical Techniques, Philosophy, and Meanings

**Step 1:** observation Researchers gather as much factual data as they can using their five senses during the observation phase. For instance, scientists could discover that the placement of a particular bloom affects its colour. The data gathered at this stage is used to develop the study hypothesis[9], [10].

**Step 2:** Induction Based on their observations in the previous stage, they design likely research results using inductive reasoning. They explain their first findings using well accepted theories or data. For instance, a researcher may ponder the question, "Does the soil acidity cause the flower to change colour?" in the context of a flower. Then, another researcher does an experiment, selecting a set of flowers, modifying the soil's acidity, and keeping an eye out for any colour changes to confirm or deny their results.

**Step 3:** Subtraction in the deduction step, researchers create hypotheses to test using their deductive reasoning abilities. Researcher's must depend on logic and reasoning to get objective findings. Using the aforementioned illustration, researchers may draw the conclusion that soil acidity impacts flower colour if the colour of the flowers varies as the soil acidity changes.

**Step 4:** Testing at this step, researchers put their theories to the test using both qualitative and quantitative methods. The interpretation of data gathered during testing is made easier by statistical techniques. The outcomes of the tests may support the researcher's theories, but they do not establish their veracity. Testing may sometimes turn up new data that refutes the earlier conclusions, prompting researchers to start anew with a different hypothesis. In the context of the aforementioned example, researchers will have evidence to support their original claim that soil acidity affects flower colour if they discover that fluctuations in acidity cause colour changes in flowers.

**Step 5:** Evaluation at this point, researchers share their results, any issues they ran into, their supporting evidence, and their conclusions. This stage also contains a description of the restrictions the researcher faced while conducting the analysis. At this stage, the researchers typically provide suggestions to those who want to carry out more study in the future.

### Types and Approaches

Empirical methods are utilised in communication studies in an effort to obtain findings that are impartial and consistent. This method is positivistic in that it assumes that the social world is regulated by rules that are similar to laws and that make it predictable. At first, primary data collection and analysis, together with the use of quantitative measures such as content analyses and surveys, were considered to be empirical methodologies. These days, empirical research is also thought to include secondary analyses and qualitative research. Qualitative research might be categorised as empirical if the researchers provide sufficient details to permit replication of their results (e.g., sample design, data collecting, and analysis). However, this categorisation can come under scrutiny. It is possible to conduct and analyse empirical research using both qualitative and quantitative techniques:

**Qualitative Techniques:** Methodologies for collecting qualitative non-numerical data are used. Its purpose is to extract from its subjects meanings, concepts, or underlying reasons. These techniques are unstructured or somewhat organised. This sort of research often has a small sample size and uses discussion to provide more insight or in-depth knowledge about the subject. The most common methods are focus groups, experiments, interviews, and other forms of methodology. Descriptive findings are necessary because researchers often need to examine the behaviour of a target audience. Qualitative research produces descriptive rather than prescriptive results. In order to prepare for a future quantitative investigation, it enables the researcher to develop or support hypotheses. In this situation, qualitative research techniques are used to provide a conclusion that is consistent with the theory or hypothesis being examined.

**Case Study:** The case study approach entails closely investigating current situations in order to learn more. It is widely used in company research or to gather factual data for an analysis. It's a method for looking at a subject in the context of real-world instances. To make sure that the factors and variables in the current case are the same as those in the case under inquiry, the researcher must conduct a comprehensive analysis. On the basis of the facts from the case study, conclusions may be drawn on the subject under investigation. a report outlining a company's client-facing solution, for instance. the challenges they ran across throughout planning and implementation, as well as the case's conclusions and answers. The majority of firms use case studies like this one since it gives them empirical support to promote in an effort to increase sales.

**Observational Technique:** The observational approach is a way of keeping an eye on and gathering information from a target. It is a qualitative process, therefore it takes time and is highly personal. One branch of ethnographic research can be the observational method, which is also used to gather empirical data. This form of research is primarily qualitative, yet depending on the subject, it sometimes takes a quantitative approach. Organising a research to observe a certain animal in the Amazonian jungle, for instance. Since the subject must be watched for a certain period of time in order to look for patterns of behaviour, such studies often take a lengthy time. Today's typical example is studying shoppers in a mall to ascertain their purchase patterns.

**In-Person Interview:** This is one of the qualitative techniques that is most often used. This is justified by the fact that if the right questions are asked, precise and helpful data may be

obtained. It's a method of conversational information collecting that depends on the direction the discussion takes. Consider having a private conversation with the finance minister to learn more about the nation's financial policies and how they affect the general public.

Focus groups are utilised by researchers to find answers to why, what, and how questions. It is not required to engage with the group in person while using this method, which is often employed with a small group. A moderator is often needed to acquire useful information while speaking to the group in person. Product companies use this to get data on their brands and goods. For example, a mobile phone manufacturer could request feedback on the size of one of its next models. These studies support the company's efforts to satisfy customer demand and effectively position its model in the market.

**Content Evaluation:** Text analysis is rather new compared to other techniques. By observing the language or images a person employs, one might utilise this technique to investigate their social life. With social media playing such a significant role in everyone's lives nowadays, such an approach enables the researcher to track a trend that is pertinent to his study. For instance, a lot of businesses ask for thorough client feedback, which often includes the degree of satisfaction with the customer care team. The researcher may use this knowledge to make educated decisions on how to enhance their support group.

## DISCUSSION

To get information, quantitative approaches depend on numerical data. It is used to measure things like beliefs, actions, and other clearly specified variables. These have already been decided and are presented in a more structured way. Numerous approaches, including polls, surveys, and long-term research, are used. This approach aids in the analysis of the gathered empirical data. These may be used by a researcher to determine whether or not his hypothesis is supported.

**Survey Technique:** A survey technique often includes a broad audience in order to acquire a huge quantity of data. This quantitative approach makes use of a series of closed questions with somewhat straightforward solutions. Because of this approach's simplicity, high replies are obtained. It is one of the strategies for studying that is most often used in the modern world. Prior to this, only in-person surveys with a recorder were carried out. However, as a consequence of ease and technical improvements, new platforms like emails and social media have evolved. For instance, the concern about the depletion of energy supplies has grown, calling for a greater understanding of renewable energy sources. Research of the general public's opinions on green energy and the factors influencing their desire to convert to renewable energy may be done to determine why. This kind of survey may help organisations or governing authorities spread appropriate knowledge and incentive programmes to promote the use of greener energy.

**Experimental Method:** In an experimental method, a hypothesis is tested by modifying one of the variables while an experiment is set up. This is also used to establish the causal connection. The independent variable is put to the test to see what occurs when the dependent variable is removed or altered. The typical procedure for such an approach include formulating a hypothesis, testing it, evaluating the outcomes, and reporting them to determine whether or not they support the theory. For instance, a product business is trying to figure out what is keeping them from gaining market share. As a consequence, the business makes changes to all of its activities, including production, marketing, and sales. They discovered from the test that sales training directly affects how widely their product is sold. If the worker is well-trained, the product will have greater coverage.

**Correlation Approach:** The correlation approach seeks to establish a connection between two sets of data. Regression is often used to predict the outcomes of such an approach. A correlation might be neutral, negative, or favourable. For instance, higher-paying jobs will be presented to those with superior education. Accordingly, a higher education results in a better-paying job, while a lesser education results in a lower-paying one.

**Longitudinal Approach:** A longitudinal approach is utilised to comprehend the traits or behaviour of the subject being observed after repeatedly seeing them throughout time. This approach may provide either qualitative or quantitative information.

**Think about the following example:**

an investigation of the benefits of exercise for health. The target is expected to work out each day for a certain amount of time, with results showing improved endurance, stamina, and muscle development. This demonstrates the health benefits of exercising.

**Cross-sectional Method:** This observational technique involves keeping tabs on a group of people at a particular moment. In this kind, a group of individuals is selected such that every variable aside from the one being studied is the same.

This kind prevents the researcher from establishing a cause-and-effect link since it is not seen over a lengthy period of time. The healthcare and retail sectors are where it is most often employed.

An example would be a medical study on the prevalence of malnutrition problems in children in a particular group. This requires looking at a range of elements, including age, ethnicity, region, wealth, and social backgrounds. The researcher may go further if a significant fraction of kids from low-income homes exhibit indicators of malnutrition. After a cross-sectional examination, a longitudinal technique is often used to ascertain the precise cause.

**Casual-comparison Approach:**

This approach is based on comparison. Comparative analysis is the foundation of the causal-comparative technique. The main purpose of it is to establish the causal connection between two or more variables.

For instance, a researcher compared the output of staff at a firm that offered breaks throughout the workday to that of staff at a company that offered no breaks at all.

**Imperative of an Empirical Approach**

Empirical research is essential in today's culture since most people only accept what they can see, hear, or experience. It is utilised to advance several fields, test a variety of theories, and increase human understanding.

Pharmaceutical companies, for instance, conduct empirical research to test a particular medicine on predetermined or randomly selected groups to ascertain its impact and cause. This proves the accuracy of some of their assumptions for a certain drug. Such research is important because it sometimes results in the identification of a treatment for an ailment that has existed for a long period. Such study is useful not just in science but also in a wide range of other fields, including business, social sciences, and history.

As the world has developed, empirical research has become essential and commonplace in many professions in order to support their theory and learn more. The procedures mentioned above are quite useful for carrying out this kind of study, but new approaches will develop when new investigational difficulties become more distinct or alter.

## Values and Implications of an Empirical Approach

Reasons why the empirical approach is one of the most popular approaches: merits. There are a few advantages associated with it. There are a few of them mentioned below.

1. It is used to validate conventional research via various tests and observations.
2. The study being conducted is more genuine and credible thanks to this technique.
3. It enables a researcher to understand the possibility of dynamic changes and modify his methodology as necessary.
4. Because there is a great degree of control in such a study, the researcher may manipulate a variety of variables.
5. It contributes significantly to increasing internal validity.

Despite the fact that it makes research more competent and genuine, empirical research has several limitations. There are a few of them mentioned below.

1. Because this kind of study might take a while, patience is needed. It takes a long time to conduct an inquiry since the researcher has to gather information from many different sources and from many factors.
2. A researcher would often need to do study in a variety of unique settings or circumstances, which might be expensive.
3. Since there are a few guidelines that must be followed while conducting research, permissions are necessary. It may sometimes be difficult to get the proper permissions to conduct this study in numerous ways.
4. Data collecting may be difficult at times since it has to come from many sources and be done in a variety of methods.

The empirical approach is a kind of research methodology that bases findings on verifiable data. In other words, the only source of proof for this kind of study is data gathered by scientific data collection techniques or observation. Either qualitative or quantitative observation techniques may be used in empirical research, depending on the data sample, such as quantifiable or non-numerical data. Empirical research use a scientific method to establish the experimental probability of the variables being studied, as opposed to theoretical research, which is founded on preconceived notions about the research variables.

Every scholar's research goes through stages and procedures that they adhere to in order to achieve an accurate evaluation. The current five-stage empirical analysis cycle was developed by A.D. de Groot in 1969. He explained that each stage is equally important while performing a research. Using this analytical framework, researchers may create hypotheses and provide replies that can help us understand how the world is changing. This makes it easier for researchers to conduct experiments according to a set of rules, leading to more accurate findings. The empirical analysis cycle consists of the following five steps:

- 1. Observation:** In the observation phase, researchers gather as much empirical information as they can using their five senses.
- 2. Induction:** Based on their observations in the previous stage, inductive reasoning is utilised to generate likely study results. They explain their first findings using well accepted theories or data.
- 3. Deduction:** In the deduction stage, researchers create hypotheses to test using their deductive reasoning abilities. Researcher's must depend on logic and reasoning to get objective findings.

4. **Testing:** At this step, researchers test their ideas using qualitative and quantitative instruments. The interpretation of data gathered during testing is made easier by statistical techniques. The outcomes of the tests may support the researcher's theories, but they do not establish their veracity. Testing may sometimes turn up new data that refutes the earlier conclusions, prompting researchers to start anew with a different hypothesis.

5. **Evaluation:** At this last step, researchers talk about their results, any issues they had, their justifications, and their conclusions. This stage also contains a description of the restrictions the researcher faced while conducting the analysis. At this stage, the researchers typically provide suggestions to those who want to carry out more study in the future.

Empirical methods are utilised in communication studies in an effort to obtain findings that are impartial and consistent. This method is positivistic in that it assumes that the social world is regulated by rules that are similar to laws and that make it predictable. At first, primary data collection and analysis, together with the use of quantitative measures (such as content analyses and surveys), were considered to be empirical methodologies. These days, empirical research is also thought to include secondary analyses and qualitative research. Qualitative research might be categorised as empirical if the researchers provide sufficient details to permit replication of their results (e.g., sample design, data collecting, and analysis).

Empirical research is essential in today's culture since most people only accept what they can see, hear, or experience. It is utilised to advance several fields, test a variety of theories, and increase human understanding. Pharmaceutical companies, for instance, conduct empirical research to test a particular medicine on predetermined or randomly selected groups to ascertain its impact and cause. This proves the accuracy of some of their assumptions for a certain drug. Such research is important because it sometimes results in the identification of a treatment for an ailment that has existed for a long period. Such study is useful not just in science but also in a wide range of other fields, including business, social sciences, and history.

To validate the findings of earlier experiments and empirical observations, empirical research is utilised. The validity and correctness of the study are improved by this research approach. An empirical approach is necessary to comprehend dynamic changes. Due to the intensive process of literature evaluation, empirical analysis is utilised to assist researchers in understanding dynamic changes in the domain. It also enables them to develop effective plans of action. The empirical technique enables researchers to exhibit a degree of control by enabling them to control numerous elements that are being looked at. Empirical research techniques increase Internal consistency. There is a high level of internal validity with an empirical technique that has a high degree of control over the study process.

## CONCLUSION

The link between ideology and empirical approaches for meaning research is examined in the third component. Meanings may differ amongst people, communities, and civilizations since they are social constructions. By influencing societal interpretations, symbols, and discourses, ideologies shape meanings. Using data that reflects people's opinions, linguistic usage, and social interactions, empirical approaches allow academics to investigate how ideologies appear and have an impact on meanings. Ideology, empirical techniques, and meanings are all interconnected elements of social scientific research. While empirical approaches give instruments for gathering and analysing data to analyse meanings in social situations, the study of ideology offers a framework for comprehending the underlying ideas and values that drive social phenomena. The combination of these ideas aids in comprehending the intricate

dynamics of social systems, cultural processes, and human behaviour. Researchers may shed light on the many viewpoints, interpretations, and social realities that exist within cultures by investigating the interaction between ideology, empirical techniques, and meanings.

## CHAPTER 5

### COMMUNICATION THEORY INCLUDES NEW MEDIA AND THEORY OF MEDIA SOCIETY

Ms. Mini Pushkar, Assistant Professor,

#### ABSTRACT:

A variety of viewpoints and methodologies are included in communication theory, which aims to comprehend the dynamics of human communication. The incorporation of new media theory and the theory of media and society within the more general framework of communication theory is explored in this abstract. This abstract emphasises the importance of these theories in understanding the function of new media and the interaction between media and society by studying its fundamental ideas and guiding principles. This abstract's first section focuses on new media theory. The influence of digital technology and the internet on communication practises and processes is covered by new media theory. It examines the traits of new media, including user-generated content, interactivity, and networked communication. This theory investigates how new media affect power dynamics, identity formation, and social relationships in modern society. Furthermore, the difficulties and possibilities presented by the digital era are covered by new media theory and the theory of media and society. They look at topics including algorithmic bias, false news, the digital divide, internet privacy, and the democratisation of knowledge. These theories contribute to a thorough knowledge of the modern media environment by exploring the social, cultural, and political ramifications of new media technologies.

#### KEYWORDS:

Culture, Information, Media, Society, Television.

#### INTRODUCTION

A society is made up of the rules, ethics, and behaviours that each of us individually practise. Mass media has an impact on culture and society. Different media systems exist in many civilizations, and how they are governed by the law affects how those communities function. Society is shaped and organised through many types of communication, including messages in the media. Today's media plays a significant role in everyone's life and has the power to either build or damage society[1], [2]. The main function of the media is to inform the public about current events, rumours, fashion, and cutting-edge technology. The media's function must be one-sided product promotion, trade, and bias. It provides information on how individuals are separated geographically. According to the media, justice and fairness for both the poor and the affluent were its guiding principles. The media has a huge impact on society. The mass media is what enables the general public to learn a great deal, develop views, and pass judgement on a range of topics. The media is what keeps people informed about what is occurring in the world and around them, and everyone learns something from it[3], [4].

The media is seen as a "mirror of contemporary society," yet it is the media that moulds our life. Not letting social media steal your time requires discipline. A generation has been

negatively impacted by media, mostly because kids are heavily affected by it. Children and teens are encouraged to imitate well-known individuals and do what they do in order to get attention. On occasion, they direct negative media attention and exert influence. Because social media is altering how we communicate and how we are regarded, both favourably and badly, media has become a narcotic to this generation. You add to your digital footprint and personal brand every time you share a picture or change your status. The media is the most powerful force in the world right now. They have the authority to convict the innocent and exonerate the wicked, and that is power. because they have sway over the public's thoughts. Therefore, it is up to the people to regain control of their brains. Afterward, determine what is right. Social media is the ultimate leveller in this case. Anyone who wants to participate has a voice and a platform thanks to it[5], [6].

### Media and Society Theory

There are several modes of communication, which plays a part in the mass media's social impact. In its widest sense, communication is the use of symbols by individuals to communicate meaning. Verbal and written words are the most frequent symbols humans use, but there are numerous more nonverbal communication methods, including American Sign Language. Abstract symbols are used to communicate meaning in sign language, spoken communication, and written communication. The message is the same whether you utilise nonverbal indicators, face-to-face contact, a card with the words "thank you," or vocal communication when you say "thank you"[7], [8]."

In general, interpersonal communication refers to the intimate, often one-on-one exchange of meaning between two or more individuals. Verbal or nonverbal interaction may be communicated. It occurs more often in face-to-face situations. It is distinct from mass communication, which entails conveying symbolic meaning to a large audience from a single source to many recipients. It can be challenging to distinguish between interpersonal communication and mass communication sometimes, especially in computer-mediated communication, since people can send messages meant only for other people that could quickly reach large numbers of people. Social media platforms are often designed in a manner that makes it possible for personal messages to "go viral" and spread to a large audience, whether or not the original sender meant to do so[9], [10].

Interpersonal and mass communication are not determined by the kind of message. It has to do with how the communication is delivered and the connections between the sender and the recipient(s). In order to better understand how interpersonal communication and mass communication structures interact on networked communication platforms, it is important to first present another kind of communication that is often researched in academic contexts. The symbolic exchange of messages that have a particular significance for the participants in formal organisations is referred to as organisational communication. In actuality, internal communication is what makes corporations, organisations, schools, and hospitals function.

When people are working together in an organisation, they often communicate directly with one another or in small groups to get things done. Without communication, organisations cannot operate. The efficacy of organisational communication may determine whether firms and other social organisations succeed or fail. As a result, communication is a crucial aspect of how organisations are set up and does not only occur inside them. This YouTube video does a good job of introducing the distinct topic of study known as organisational communication. Successful communication may facilitate understanding between individuals and the completion of tasks, whether it is meant for personal, organisational, or general audiences.

Mass communication is crucial for societies to operate, just as effective organisational communication is required for organisations to work together towards a specific goal. Formal organisations of all sizes make up societies. Typically, a group's communication mechanisms get more complicated as it grows in size. Information and communication technologies (ICTs) are one component of the term "communication structure," along with "guidelines for using those technologies" and "professional workers dedicated to managing information and messages." Communication structures go beyond computers and transmission networks in the sphere of mass communication. Corporate policy in addition to legal requirements govern how to generate and disseminate communications intended for broad consumption via networks.

## DISCUSSION

A society is said to be composed of tiny groups, large communities, and extensive institutions. The discipline of sociology offers a more comprehensive description of the phrase. A society is a very large collection of individuals arranged into institutions and kept together through time by formally defined connections. For instance, established organisations governed by law make up nations. A society is made up of numerous types of governments, as well as economic, educational, and other organisations. Culture, in contrast, is the knowledge, beliefs, and practises of communities of all sizes and is not always formalised. Culture is important for appreciating and understanding human experience, yet it has few established laws.

Mass media has an impact on culture and society. Different media systems exist in many civilizations, and how they are governed by the law affects how those communities function. Society is shaped and organised through many types of communication, including messages in the media. Mass media sources may also disseminate information about cultures and creative creations around the world. When it comes to media consumption, people have cultural preferences, but media corporations frequently choose which stories to tell and which to promote, especially when it comes to forms of mass media that are expensive to produce, like major motion pictures, significant video game releases, and global news products.

The medium of mass communication conveys culture more than any other. It also aids institutional society in attempting to comprehend itself and determine if its organisational systems are effective. There are several ideas that link media and society; they illustrate the connection between how societies respond to and adapt to the changes that media brings about. The media today sets trends in society and influences many people's behaviours, particularly teens. These theories include ideas like: The theory of hypodermic needles, Theorem of agenda setting, The theory of uses and pleasure, Silence spiral, Theory of cultivation.

### a) Theorem of the hypodermic needle

We must recognise that one of the most powerful forces in contemporary society is the media, which shapes everything we do on a daily basis. The media affects our lives in some manner, whether it is via the films we watch, the news that is broadcast, or the apps we use. Even while there are valid reasons for people's reactions and behaviours nowadays, they aren't always justified in the best manner. People often respond irrationally in response to what the media portrays or shows. A large portion of the population formerly listened to radios even when they weren't necessary since it fueled the habit of individuals who would listen to radios for hours on end.

in the global war's tactics. By inserting a news bulletin into a radio broadcast of "The War of the Worlds," a well-known comedic programme, Lazarsfeld and Herta Herzog supported the hypodermic needle idea in 1938. This caused a significant response and terror among the American mass audience. He discovered via this study that audiences may or may not be affected by media messages. According to the hypodermic needle theory, the media has the ability to inject a highly persuasive message into a receptive audience. Because the audience has no other sources of information, confirmation, or even the ability to compare what the media is providing, they are forced to act on the advice given by the media. The "Magic bullet theory" is another moniker for this hypothesis.

### Theories of the "Transmission Belt" and "Hypodermic Syringe model"

There are many alternative theories of communication, but the hypodermic needle hypothesis was developed based on the notion that individuals are governed by their biological nature and would respond intuitively to stimuli in a certain or similar manner. Since then, empirical research has refuted the idea, leading to its replacement by a more complex theory such the "Agenda setting theory."

### Theory of Agenda Setting

The hypodermic needle idea has been developed into the agenda setting theory by Maxwell McCombs and Donal Shaw. In the current day, one thing is for certain: the presentation of news stories and the subjects that are covered in the media have an impact on how people think. In a simplified version, any news that is portrayed by the media as being important is automatically considered important by the audience. The media sets the priorities for which news is presented first and which comes next, not based on what the public will likely think or how much influence it will have on the audience.

According to the agenda setting hypothesis, the media as an institution will choose an event for the public to see and discuss, and then the people will only speak about it. Sometimes, these issues even have no bearing on our daily lives, but they become the most popular conversational themes. For instance, even if Salman Khan's followers may not find the media's discussion of his impending nuptials to be meaningful, the whole society will still discuss it since the media sets an agenda for what it wants its viewers to discuss. The media will establish and start a trend (an agenda), and people will speak about it and follow the trends too, even though trend in media and agenda setting theory are two things to debate but are closely connected. This has grown even more prevalent with the new media and naming them trends.

### Different Degrees of Agenda Setting Exist:

**Level One:** This is where the researchers examine how the media are used, the goals it fosters in the audience, and how the audience responds to the information the media provide.

**Level Two:** Here, the media concentrates on how viewers should perceive the nature of the problem that is presented to them. By seeing how viewers respond, the media may then sensationalise a news item or report or arrange for it to become viral.

### The Theory of Uses and Gratification:

According to the uses and satisfaction hypothesis, consumers utilise the media to meet their own wants or desires. A typical uses and pleasure research examines the purpose behind media usage and the results of that use. If you want to understand this with an example, imagine that you enjoy going for morning runs and using your media to listen to songs on an

application or on the radio. There will be people who prefer to walk quietly or talk while they run, but there will also be people who enjoy listening to songs while running. This creates a social standing in the society.

Media theories of uses and gratifications are often used to analyse current media problems. This is shown by the examination of the connection between media and violence that you read about in the sections before this one. As people with aggressive tendencies were driven to violent media, researchers used the uses and gratifications hypothesis in this example to demonstrate a complicated set of variables surrounding violent media use.

Researchers have uncovered a number of typical reasons why people consume media. These include a variety of interpersonal and social requirements, as well as opportunities for social engagement and leisure. Researchers may better understand the causes of a medium's appeal as well as the functions that the medium plays in society by looking at the motivations behind people's media consumption. For instance, a study of the motivations behind a certain user's involvement with Facebook might provide light on Facebook's place in society and its attraction.

**Spiral of Silence:** The spiral of silence hypothesis unites many social psychology, interpersonal communication, and media processes. It is a comprehensive explanation of public opinion. In plain English, the hypothesis describes people's propensity to keep quiet when they believe their viewpoints or beliefs on a certain issue run counter to those of the majority.

Elisabeth Noelle-Neumann, a political scientist from Germany, first put out this thesis in 1947. The theory clarified two key justifications for the subject's silence: Fear of isolation arises when a person realises that their group or individuals have a different perspective from them.

**Fear of retaliation:** This is the concern that speaking out can result in more severe punishments or total exclusion from the group.

The spiral impact is seen in that this sets off a downward cycle where the minority viewpoint holder's anxieties keep growing, preventing them from speaking out. If you think that the notion holds that the mass media has an impact on this process since it is appearing on this site, you are correct. The media is crucial to this process, particularly when it comes to influencing or perceiving the consensus view.

### **Agricultural Theory:**

Cultivation theory differs from agenda setting theory and spiral of silence theory in two ways: first, it is primarily based on one particular medium, namely television, and second, it has an impact on how we view the world overall rather than just one particular issue or its characteristics. A few presumptions about television and how we see it form the foundation of the idea.

**The nature of television:** A number of factors contribute to television's influence. The first is that television is widely used, with practically all American families having more than one television. Regardless of literacy or other abilities, television is likewise very accessible. The fact that television is cohesive and conveys the same fundamental social messages across all of its programming and in all of its time is possibly the most significant claim made by cultivation theories about it.

**The Nature of Viewing:** Cultivation theorists have also come up with theories on how we watch television. They specifically stated that spectators should watch by the clock. In other words, the majority of individuals do not choose to watch programmes or even a certain genre of programming. Instead, they watch at certain times throughout the day, depending on what is shown.

The implications of this cultivation on individuals and society are significant. Gerbner and his colleagues then suggest that, given the distinctive features of television and the significance of television watching in our lives, television will help to shape our worldviews. The word "cultivation" refers to the gradual and cumulative effects of television on our perceptions of reality. According to cultivation theorists, television may cultivate and retain extremely fundamental worldviews, and these impacts are cumulative and long-lasting.

Before we go into the specifics of how media is altering or influencing culture, let's define culture. Media has a variety of cultural affects, some beneficial and some bad. Culture is an intangible part of social life that includes shared values, beliefs, communication, linguistic systems, and practises. It also includes of the tangible possessions that are shared by the community or group. A constructive society has many traditions and similarities among its members throughout the years, but it is media that has changed or, as we can say today, updated these cultures. This is where media enters the picture.

Depending on how people react to the influence, the mass media has a significant impact on the cultural patterns of society. The media has had a significant influence in defining the social roles of men and women, which has a negative impact on communication between cultures and internationally. People from all around the globe have been attempting to comprehend what culture is and how it affects how people act. The media has played a significant role in attempting to explain to the public what culture is and ultimately helping individuals develop a sense of cultural identity.

Because the mass media disseminates information about a specific aspect or region of a culture to the entire world, it is crucial that the information be accurate. Because people who watch and adopt new cultures do so because it gives them a sense of cultural identity, it is imperative that the media explain all cultural aspects clearly because, if it does, the people and the culture will be more easily influenced. Different communities may exchange languages, traditions, customs, roles, and values via socialisation. In recent years, the media has grown significantly as a social force, particularly among young people. Most young people perceive the media as the ideal platform for socialisation, in contrast to older generations who see it as a source of knowledge and amusement.

We have entered a period where media is influencing every little aspect of our lives. For example, online shopping has become a culture in youth that was not even a concept for a very long time and is now a culture believed and followed by a huge population across the globe. The mass media played a significant role in the creation of many societies throughout the world, making them very important agents of socialisation. An ideal forum for discussing thoughts and perspectives on a range of matters that have an impact on daily life is provided by the mass media agents, such as television, the internet, cinema, and radio. Additionally, networks have the power to influence many civilizations all over the globe.

### **Meaning and Societal Impact**

Over the last ten years, media has seen a significant transformation. During the Covid epidemic, in particular, we quickly transitioned from conventional to new media and embraced reality without hesitation. Traditional media, like television and radio, distributed

material in a one-way fashion, allowing consumers to passively absorb content produced by a firm or organisation. The media is full of examples for this, as each photo you share on Instagram is communication, every comment you make on YouTube is communication (as you provide your feedback to the creator), and not just commenting with an emoji reply on Facebook. This is because new media, also known as "the social media," has introduced a whole new method of communication that allows passive viewers to communicate with the content provider, give immediate feedback, and get a response quickly. Digital, interactive, manipulable, networkable, dense, and compressible are often characteristics of new media. According to Shapiro (1999), the development of new digital technologies "signals a potentially radical shift in who is in control of information, experience, and resources." This chapter will look at social media and health behaviour theory at a time of great change and quick growth.

We can better understand why individuals communicate online while losing control over their private and personal boundaries by using the media ecology theory in this case. According to McLuhan in 1964, society has become used to change and dependent on digital media and its qualities. The bulk of today's job is reliant on technology, and not only in business-related ways regardless matter how tiny the activity, we are dependent on media and technology as it has evolved through time and pushed people to adapt. You have Uber if you need a car, Zomato if you need food, and several more apps if you need apparel. Amazon offers everything with just one click, too. Instead of employing technology for efficient, rapid work, its progress has made us reliant on it and, in some circumstances, wasted time. Traditional communication theories have been adapted to various new technologies, including video games and internet usage. The theories for the new media are simply an extension of the ideas for the old media. According to one research, individuals still use the internet to get news for the same reasons they did previously the need for orientation even though newspapers were the main written news source prior to the internet. UGT was used in another research examining early cell phone usage to comprehend how customers used mobile phones and landlines differently. Although these early mobile phones were used in different contexts than landlines, they had a lot of the same use intents.

### Let's Combine

In contemporary culture, the media often shapes our perspectives. It is crucial to understand that moral standards vary among cultures and that certain behaviours need to be universally despised and prevented, even if they are partly or totally allowed in other civilizations. Since the advent of globalisation and the development of technology, media has played a significant role in our daily lives. The three basic functions of media for society are to inform, educate, and amuse. Media has been performing an incredible job at all times when we look at the media system. One-way communication was first introduced by radio and television conventional media, but as humans developed, so did the media.

Theorists who developed diverse media theories examine how individuals behave and how their conduct changes as a result of media coverage of a particular subject. In conclusion, we learned that the media is crucial in determining what information is supplied to the public, how the public should think about the topic, and even how long the public should discuss about it. However, this situation has changed since then.

The growth of "citizen journalism" may be attributed to new media. Our new media consists of all contemporary platforms like Instagram, You Tube, Facebook, Reddit, and others where the media is still informing, educating, and entertaining the audience but with a higher percentage of transparency and a tremendous increase in audience response rate, which also

led to an understanding of how much media consumption has increased since everything got so convenient via smartphones. In a nutshell, the media has always played a significant role in determining how society thinks, but today's society also understands how much to use the media and how much to trust the information it provides. This is important because with the rise of new media, the spread of fake news has also increased, leaving audiences struggling to decide whether to believe it or not. Therefore, the next time you get information, strive to fix the credibility problem.

## CONCLUSION

The study of new communication technologies and its social repercussions is now included in the purview of communication theory thanks to the incorporation of new media theory and the theory of media and society. These theories provide analytical frameworks for deciphering the intricate interactions of media, technology, and social dynamics.

They aid in understanding how social interactions, political processes, and cultural practises are affected by new media platforms and digital communication technologies that modify communication practises. Finally, by including new media theory and the theory of media and society into communication theory, we are better able to comprehend the intricate relationships that exist between media, technology, and society.

These theories provide analytical frameworks for examining how new media affect communication practises and give insight on how media and society dynamics are symbiotic. These theories improve our understanding of the changing communication environment in the digital era by investigating the transformational impact of new media and the role of media in influencing social realities.

## CHAPTER 6

### PRINCIPLES, ACCOUNTABILITY, MEDIA ECONOMICS AND GOVERNANCE, GLOBAL MASS COMMUNICATION: MEDIA STRUCTURE AND PERFORMANCE

India

#### ABSTRACT:

The principles and accountability, media economics and governance, and global mass communication are covered in this abstract as three interrelated aspects in the subject of mass communication. These topics are crucial for comprehending the composition, effectiveness, and social implications of media. The first area is concerned with ethics and responsibility in public media. The ethical norms and professional standards that direct the behaviour of media professionals are referred to as principles. Accountability entails keeping media outlets accountable for their deeds and ensuring that reporting is transparent, accurate, and impartial. Maintaining public trust, defending democracy, and fostering responsible journalism all depend on an understanding of and adherence to the rules and accountability in mass media. The second area examines the economics and administration of the media. Examining the financial elements of media organisations, such as revenue models, advertising, subscriptions, and the effects of digital disruption, is what is known as media economics. Regulations, laws, and institutions that influence the media sector are referred to as media governance. It examines topics including media ownership, power concentration, media plurality, and the function of governing and regulating organisations in striking a balance between freedom of speech and the needs of the general public. The third part examines international mass communication, concentrating on the organisation and operation of international media. It looks at the international movement of information, cultural goods, and media ownership.

#### KEYWORDS:

Culture, Information, Media, Society, Television.

#### INTRODUCTION

The effects of globalisation, technical improvements, and digital platforms on media systems throughout the globe are highlighted by global mass communication. Additionally, it looks at how media shape's public opinion and influences international concerns including human rights, social justice, and environmental sustainability. A thorough grasp of the media landscape is provided through the combination of ethics and responsibility, media economics and governance, and international mass communication. It emphasizes how moral concerns, economic factors, and global dynamics interact to shape media structures and performances[1], [2].

Additionally, it highlights the significance of ethical media behaviour, media diversity, and media literacy in an age of quickly advancing communication technology and increased interconnection on a worldwide scale. In conclusion, the study of mass communication must take into consideration ethics and responsibility, media economics and governance, and

international mass communication. Researchers and practitioners obtain insights into the operation, effect, and issues encountered by media organisations in modern society by looking at ethical norms, financial considerations, regulatory frameworks, and global dynamics. In an increasingly linked and complicated media landscape, understanding these interrelated sectors helps to advance ethical journalism, ensure media plurality, and create informed public conversation[3], [4].

The creation of media content is not random; it is influenced by, among other things, the organisational structure of media businesses, ownership patterns, and media system features. On the other side, our attention is on how media regulation and policy influence media structures. Media structures are crafted politically rather than developing spontaneously. Such policy-making processes include a number of individuals, each of whom is working to further their own interests and ideals. We often use worldwide comparisons to assess the governance and regulation of traditional media and new intermediaries[5], [6].

For maximum productivity, every professional organisation uses the division of work principle. A print media organisation structure outlines how work is divided up and demonstrates the connections between various tasks. It also refers to the hierarchy, power, structure, and relationships inside the media organisation as well as the division of job tasks based on specialisation. Any organization's effectiveness may be determined by how it is set up and who makes the key decisions. Who is devoted to finding mistakes? In an emergency, who has the power to make choices and reject things? All of these elements significantly affect each other, particularly when it comes to media organisations. Because the job of the media is to be quick, precise, and informative, any poor decision, print, or post on any social media platform can seriously harm the organisation, so having a clear organisational structure is crucial[7], [8].

## A Hierarchy of Media Structure and Working

### Organisation and Ownership:

The media industry is one that is enormous, significant, and expanding daily. As a matter of fact, it is difficult to describe the structure since there are so many different aspects of the business, including FILM, TELEVISION, GAMES, and RADIO. Not to add that there are advertisements as well as print and internet-based media. It would be difficult to condense this chapter to just a few basic industry components since there are so many different sectors and firms that encompass so many different areas of the industry[9], [10]. Today, media corporations are among the most well-known and active businesses in the sector. A media corporation may choose to focus on a single industry or engage in a number of others. There are many different types of media organisations, including:

**Production:** This is really the most important component of the Media Company because without it, the advertising that the copywriter and art director generated would just be words and images on paper. The following job positions are included in the department of "Creatives," and they are also organised with the highest job position at the top and then moving down the list:

**Creative Director:** In order to strengthen the company's brand, these experts are needed to create conceptual designs that satisfy the client's expectations. These are necessary to determine the most effective methods of displaying a company's identity visually.

**Principles and Accountability, Media Economics and Governance, and Global Mass Communication:** Media Structure and Performance Designing materials for customers and

skillfully representing their business are required of art directors. Copywriters' primary responsibilities include convincing clients to buy a new product or proving that a company needs a certain service. Production artists are employed as entry-level employees who are newer.

**Accounts:** Media firms often engage specialists for all accounting needs. These professionals handle with all finances and even legal client issues when money is involved. Let's first examine the media organization's structure in order to comprehend ownership. Given that the media industry is so diverse, the hierarchy within it is very important. In order to keep things simple, the hierarchy of media companies has been divided into three main levels:

**Senior Level:** These individuals hold the highest position that can be found in the hierarchy of a media company, and they are also the ones that make the decisions that will determine the organization's course in the future.

## DISCUSSION

In order to preserve a feeling of class inside an organisation, hierarchy is crucial. This is true even more so in media organisations when positions are obtained by experience rather than merely by reference. An experienced person may recognise the need or veracity of any news or report that the organisation is required to release. The pecking order in the chain of command is what is meant by the word hierarchy in a business context. Every job is described here, along with all of the relevant guidelines from top to bottom. There is no ambiguity about the individual to whom an employee will be reporting, and this is true for every job type and position within the organisation.

### Economics and Governance in The Media:

The social and cultural demands of people and cultures have influenced how the media has developed. The economic and political actions of media institutions are impacted by evolving technology. Mass media have a significant role in public life basically in the public sphere and as such, they are subject to the rules of market economies. Three forces economics, politics, and of course technology are centred on media. The historical expansion and development of technology may be seen in the majority of media systems. It is possible to categorise certain media goods into different genres. Portals or gateways with the capabilities of selection and control include Google, AOL, and BBC.

The dual nature of the media both are for-profit businesses that are essential to the political, cultural, and social life of the society is the key to separating economics from government. Governments can only control mass media in sporadic or indirect ways; they cannot be tightly regulated. There are many different types of governance, including official, informal, and internal methods. The most significant are the internal and informal. Governmental structures have their roots in the political traditions and histories of each national community. The newspaper was the first casualty of internet advertising. Consumer markets, advertising markets, sporadic goods, and ongoing media services are divided according to distribution. The more autonomous a media outlet is from advertising as an income source (TV, radio, newspaper, magazine), the less independent the content is from the interests of marketers. According to the quantity and variety of customers, advertising is evaluated.

One of the reasons the free newspaper may survive is because homogenous audiences are often more cost-effective for advertisers than diverse ones. Diversity may be encouraged by the competition amongst media for the same advertising revenue. According to the copy cost, the initial original product will have a higher production cost, but if we manufacture more

copies, they will be less costly than the first copy. Example: Movies on film. Altschull's second rule of journalism, which is also discussed in this chapter, is that media material reflects the interests of those who fund it. Owners sometimes pay for the right to control content. There are three types of ownership: for-profit businesses, nonprofit organisations, and government entities. Making choices is a common part of the commercial media's survival and quest for profit. (Reducing expenses, shutting, and concealing workers). When power is consolidated or utilised arbitrarily to restrict or refuse access, it becomes bad ownership. Content is influenced and decided by ownership.

The reality that governance and ownership/power in the society determine what material is transferred into the society is continuous, despite the fact that issues like these have been a mocking subject in our culture. There are certain media outlets that continue to be pro-government and won't publish or upload anything critical about the government, which benefits the outlets' economies. An economy's productive operations are taxed by corruption, which causes resources to flow to less productive activities. Numerous studies have proven that an independent media that keeps tabs on people in authority and provides citizens with factual information is an efficient check on corruption.

Indirectly, the media may lessen corruption. High levels of education may not have the expectedly good effect on corruption, according to a 2000 research, even though highly educated bureaucrats should provide better public services in nations with limited civic monitoring capacities (including a strong, independent media). Without oversight, politicians may utilise their education to more effectively commit corruption. The findings support the study's hypothesis that "in countries with low levels of civic monitoring of those in power, education may actually increase corruption." The study "examine(s) the impact of higher education on corruption..., while controlling progressively for other variables that have been identified to influence corruption (e.g. press freedom)."

Simply put, mass communication is a technique for communicating with a big audience at one particular time or place. As a culture, we have evolved and studied human nature throughout time, particularly how we respond to various situations. James Cary used the phrase "how communication made certain things ritual in our lives" to describe how we read the newspaper because we have to discuss the news with our friends or neighbours or, alternatively, because we want to stay current. We assume that watching a game together shows that many of us have a same interest, which we were able to discern via conversation. Media rituals encompass the actions taken by media organisations and their employees as well as those aspects of media material that convey a feeling of the significance of being in the media or draw viewers to these viewpoints. A consideration of the fundamental ideas at play will help identify the situation of global mass communication today. These ideas include consumerism, electronic colonialism, media conglomerate, and globalisation. Many of these words, like globalisation, fail to have a single, generally recognised definition.

To completely ensure identification with metropolitan values and to shape the globe in its own economic and cultural image, consumerism and consumer values are expanded and pushed onto the oppressed as part of globalisation (Christmas, 2008). Many of these words, like globalisation, fail to have a single, generally recognised definition. Many of the difficulties that a standard has in defining terminology used in worldwide mass media are simply a question of perspective. We'll talk about the consequences of globalisation in the current condition of worldwide mass communication later. Globalisation as it was understood back then is closely linked to the flow of resources (raw products, knowledge, technology, money, culture, etc.) across boundaries.

The hyper-concentration of corporate assets, including media outlets (print, broadcast, and internet), under powerful corporate parents is known as media concentration or conglomeration. In other words, the transition from widely-owned to narrowly-owned and corporate-driven media. A term with theoretical origins, electronic colonialism "focuses on how global media (particularly digital and electronic) influence how people look, think, and act" (McPhail, 2010). It also connotes the dominance of one ideology over another. These four concepts all have economics as a common stakeholder. Information flow is crucial to the political, social, and cultural influence that ultimately grants a dominant ideology a plethora of economic power.

### **Today's Global Mass Communication:**

Western-ideology-dominated corporations ate up massive media and communication capacity in the early 2000s, which frightened international organisations a decade earlier. The exchange of information became a hot subject in international politics during the Cold War era. The influence of global mass communication power and information took centre stage as Western, especially American interests contended for the hearts and minds of nations at danger of ceding to Soviet rule. In many respects, the status of worldwide mass communications now is similar to that of then, but with greater technical advancements. Conglomeration, globalisation, electronic colonialism, and consumerism all help to perpetuate the economic, political, and cultural domination of those who hold information and its flow. Media companies have always had the ability to influence politics. It is not a brand-new concept. However, the five largest corporations Time Warner, Disney, News Corporation, Viacom, and Bertelsmann—have influence that media in the past lacked because to modern technology and the very similar political objectives of these firms.

### **Increased Global Communication and New Media**

#### **Benefits of Media for International Communication**

Vertical integration in multinational media firms becomes a vital part of understanding globalised media since globalisation has as much to do with corporate structure of a media company as it does with the goods that a media company creates. Vertical integration is a strategy used by many sizable media companies. For example, newspaper chains handle their own reporting, printing, and distribution; television networks manage their own production and broadcasting; and even small film studios frequently have parent companies that handle international distribution. A vertically integrated corporation can achieve all of this in a globalised rather than a localised marketplace; various branches of the company are easily equipped to handle diverse markets. Media relies on the quick capacity to respond to current events and trends. Vertical integration, for instance, enables a single film studio to produce more expensive films than it might otherwise be able to without the help of a distribution company with a truly global reach because production costs for single-country distribution are essentially the same as those for distribution across multiple countries.

Although the term "globalisation" as a term for a global economic movement often refers to the reduction of trade barriers, it also has a lot to do with culture. The transfer of culture opens up these same markets, just as the transfer of industry and technology often promotes external influence via the inflow of foreign capital into the economy. In many aspects, the media sector is ideal for globalisation, or the expansion of commerce beyond conventional political boundaries. As was already said, the low marginal costs of media translate into substantially higher profit margins for media enterprises when they reach a broader market. Shipping charges for information are often negligible since it is not a tangible item. Finally, media's international reach enables it to be pertinent in several nations. Some have countered

that media is not merely another globalised business but rather a contributing factor to globalisation. The transmission of a media product is likely to have an impact on the recipient's culture since media is essentially a cultural product. Technology is increasingly driving globalisation as well. Fast communication, coordinated transportation, and effective mass marketing are all made possible by technology, which has facilitated the emergence of globalisation, particularly in the field of globalised media.

Through worldwide news broadcasts, television, programming, new technology, cinema, and music, mass media facilitate cultural exchanges and various flows of information and image across nations, hence advancing globalisation. The majority of communication channels are becoming more international and transcend national borders. The viewpoint of the mainstream media in the 1990s was mostly local or national. Cultural imperialism might come from globalisation, both inside and between nations. Foreign news stories, cultural practises, television genre forms, and other capitalist consumerism and individualism-related ideals are imported by the media in emerging nations. Unfortunately, the outcome resulted in a situation where the emerging nations were subordinated to the First World nations. The latter had a pre-existing connection to the colonial history of Europe, which culminated in a core-periphery relationship.

Although mass media is a crucial component of globalisation, there are certain areas where it has succeeded. For example, sting operations would not have been as common without technological development, and current citizen journalism would not have been possible without the tools that were made available. In the section above, we looked at how governance affects media content, but because of citizen journalism, many powerful people are constrained in how they use their influence out of concern that they will be exposed on social media by a local citizen journalist. While globalisation has its benefits, it also has drawbacks.

## CONCLUSION

The media is an important part of our society since it provides the bulk of the news and information we get. In other words, we learn about what is going on in the world via the media. Like any other organisation, the media must have a specific organisational structure that outlines the goals and operations of the organisation. In corporate speak, this organisational structure is referred to as the hierarchy of the organisation, which establishes the position of each person inside it from the top (most important) to lower levels of working employees. The highest level of management is responsible for making the bulk of decisions and setting the guiding principles that the organisation will follow. It is on them to keep the business afloat through trying times. Any organization's economics relies on its productivity, but for media organisations, the situation is extremely different since they have to comprehend the governance that governs society if they want to survive there.

To do this, they must allow the powerful to steer the ship. Even though this statement is very Bollywoodish, it is true that there are times when it's necessary to look over certain things in order to sustain and survive in society because sometimes your hands are tied by the power (organisation) and other times by pity. However, globalisation has brought about a drastic change in our society and in media as with globalisation and technological advancement. A globalised market is immensely aided by technology's speedy mass marketing, mass transportation, and communication capabilities. Media economies of scale use digital technology to instantaneously offer information across a worldwide market at considerably higher profit margins. Due to the economies of scale that they provide to media enterprises,

foreign markets have tremendous profit potential. the inclusion of new consumer markets and audiences, which might eventually assist a business in gaining a large following worldwide.

## CHAPTER 7

### ORGANIZATION OF MEDIA: THE CREATION OF MEDIA CULTURE, PRESSURE AND DEMANDS

Mr. Koustav Nandi, Assistant Professor,  
Department of Soft Skills, Presidency University, Bangalore, India,  
Email Id-koustavnandi@presidencyuniversity.in  
Prof. Sourish Banrjee, Regional College of Management, Bangalore,  
India

#### ABSTRACT:

The structure of the media, which is impacted by a variety of pressures and demands, is essential to the development of media culture. An overview of the organisational facets of the media business and their influence on media culture is given in this abstract. The dynamics of media organisations, the impact of outside forces, and the expectations made on media outlets are all explored. The organisation of the media is the subject of this abstract's first section. News agencies, television firms, print magazines, and internet platforms are just a few examples of the many entities that make up media organisations. Understanding how media material is created, distributed, and consumed requires an understanding of the internal structures, hierarchies, and decision-making processes inside these organisations. Media culture is strongly shaped by elements including ownership arrangements, editorial principles, and budget allocation. The second part explores the challenges that media organisations confront. External influences may originate from a variety of places, such as audience demands, advertising, regulatory organisations, and governmental agencies. These forces have an impact on how decisions are made, what is covered in the media, and how agendas are created. Media organisations often traverse a difficult environment of conflicting interests, attempting to strike a balance between their financial success, journalistic integrity, and social obligations.

#### KEYWORDS:

Business, Culture, Demands, Media, Organization.

#### INTRODUCTION

The expectations made on media organisations. Media companies are required to adapt to the changing demands and tastes of their viewers. Information that is true and trustworthy may be demanded, as well as material that is entertaining and compelling [1], [2]. Media organisations must adjust to new technology, audience behaviours, and cultural fads while preserving their unique perspectives and goals. Media culture is shaped by the way the media is set up as well as outside forces, audience needs, and audience expectations. The concepts of ideas, values, conventions, and practises that result from interactions between media producers, content, and viewers are referred to as media culture. It covers media representations, discourses, and the wider social effects of the media.

Analysing the creation, transmission, and reception of media culture requires a thorough understanding of organisational variables as well as the dynamics of pressures and demands. In media culture is significantly shaped by how the media is organised as well as the demands and pressures it must contend with. Media companies balance competing internal and external forces as they work to satisfy audience needs. The ensuing media culture has an impact on individual viewpoints, societal conventions, and public dialogue. Researchers and

practitioners learn more about the intricacies of media production, consumption, and the wider social effect by looking at the organizational elements of the media business[3], [4].

The large society that we are all a part of has fundamentally expanded, and everyone's needs have led to the media reaching a point where there is such a vast variety of material that is offered by the media. Even though one aspect of media content is that we, as consumers, take what the media gives us, there are times when the situation is somewhat reversed and the media is compelled to offer the public the material they demand. The most recent instance of this is the new "lock-up" programme on Alt Balaji, which is presented by renowned actress Kangana Ranaut. People in the society are interested in such material, particularly in light of programmes like Big Boss, which have driven these platforms to produce such content in order to exist in society. While incomplete, the research on media organisations used to develop the idea has generally been consistent. It supports the idea that organisational routines, practises, and objectives have a more consistent impact on content than do individual or ideological elements. It is more probable that work routines than covert ideologies are to blame for the prejudice that has been seen in media material[5], [6].

Any theoretical analysis of media organisations and occupation must include a variety of linkages that exist both within and outside the organisations. These connections often include ongoing discussions and exchanges, as well as sometimes latent or real confrontations. Sometimes the material that the media produces is impacted by what the society needs, but more often than not, as the agenda setting theory has shown, the content that the media produces influences the society[7], [8]. Here, we get an understanding of the methods used by media organisations, particularly in respect to the many kinds of interactions and factors that affect media creation. This covers external factors like the general populace and the media industry, as well as the impact of media owners, advertising, and media viewers. The communicator's own viewpoint will be the primary lens through which these scholars examine it. Additionally, we comprehend the internal dynamics of media organisations as well as the pressures, tensions, and issues that they encounter[9], [10].

The primary stress on a media organisation comes from the conundrum of a potential conflict over whether the organisation is focused on art and social use or profit. This is because the organization's focus or motive will determine the type of content it is obligated to produce, which will have an impact on society. If the goal is profit, the corporate sector of society will exert greater control over the material; but, if the goal is art and societal benefit, readers will be given the truth in its purest form.

## **The Media, Our Society and Content**

### **Alterations in Media Consumption:**

The media is a continual presence in our society, which is also known as the contemporary world, and it has developed into an essential part of it. They have become so ingrained in our everyday lives that it is impossible for us to envisage living without them. The development of social media platforms like Facebook, which enabled users to connect with friends and ultimately post their statuses to let others know where they are and what they are doing, marked the beginning of a rise in media consumption.

It is a sad truth of our society and of the whole world that much of the material we see on social media is influenced by multinational corporations and their advertising, not by viewers. Our media consumption has made us incredibly predictable, and as a result, every company now knows what you are searching for. This is because we consume so much specialised stuff. Is it a coincidence when, after searching up the pricing of a new iPhone on Google, you

see that Amazon has an excellent deal on the very same model of iPhone you were looking at? Actually, no. The opportunity for media and entertainment organisations to understand their customers' digital consuming behaviours now is bigger than it has ever been because of the never-ending cycle of upheaval. Mobile smartphones have replaced other digital devices as the most popular way to access internet information. Unprecedented growth has been noticed in the smartphone sector.

## DISCUSSION

The shift in consumption occurred. In the past, when people watched television or listened to radio, the content was sentimental and family-oriented; if a shocking scene had to be shown, two flowers would appear on the screen, and the audience would instantly comprehend. Today, TRP for television programmes is determined by the strength of the plot, the degree to which the audience can relate to the given type of content, and other factors. The audience began to watch more entertainment that was contentious and included fights, arguments, drama, and controversies. As a result, the media outlets also acquired a thirst for novelty in their content creation. There is a reason why KBC is less well-liked than programmes like Big Boss. You may now call it modernization or evolution of a shift in attitude and content requirements, but this is occurring. New media (such as mobile phones) and the advent of OTT (over the top) platforms have caused the consumption of material to develop more. Sensational content is no longer genuinely controlled.

Compared to conventional media like TV, print media, and radio, consumers are changing their preferences towards digital media consumption. Compared to conventional media, people are spending more time on digital media. This growth mostly results from the cannibalization of conventional advertising channels. Global advertising expenditures have undergone a paradigm change as a result of the rising popularity of digital media. Following the shifting trend, marketers are increasingly directing their money to digital platforms in an effort to monetize content and drive growth. With an energizingly different mindset, the Gen Z generation, also known as the millennials, has shown that they consume media material more than any other generation has ever done. Gen Z has a significant impact on how people see the world and how much digital media is consumed. Since they grew up using search engines, they exhibit more entrepreneurial spirit and prefer to find material on their own. Additionally, they like contributing to the process and being more immersed in events. The Gen Z generation consumes a broad variety of digital content and gathers information from several sources. The leaders of today and tomorrow will be clearly defined by the translation of these resources into workable goods, services, and business models.

Over the last fifty years, the media has become exponentially more dominant and has a greater impact on the general public. The telegraph was the only news and media outlet available at first. A variety of media, including radio, newspapers, magazines, television, internet, and now mobile apps, were developed as a result of technical advancements. It is crucial to comprehend how the media affects individuals since it has integrated itself seamlessly into society and everyday life. Today, the media has an impact on every aspect of life, including the economics, entertainment, politics, and even beauty. Mass media influence is the term used to describe how the media has an impact on audiences' and individuals' behaviours, attitudes, and thoughts. This effect may be harmful or beneficial. People may experience poverty, crime, nudity, violence, poor mental and physical health issues, and other catastrophic results as a result of the harmful impacts of the media on society. For instance, it's very uncommon for a crowd to attack innocent people after being enraged by rumours that have circulated online. The greatest illustration of how the mainstream media has a harmful influence on society is these unreported news headlines. Additionally, since children often get

engrossed in upsetting news items, action films, and video games, incidents of kids shooting unarmed civilians are seen as one of the most detrimental consequences of mass media on kids.

There are instances when media influence leads to positive outcomes, therefore this does not imply that all media effects or impacts are harmful. For instance, helping one another in times of natural catastrophes fosters compassion and empathy in both children and adults, which increases the number of volunteers who offer their services to those in need. Additionally, quiz-based games, instructional news broadcasts, and similar programmes highlight the benefits of mass media, which raise viewers' levels of literacy. Additionally, the right to knowledge is one of the benefits of mass media for society. The younger generation is considerably more educated and aware of their rights, which allows them to benefit personally and professionally in a variety of ways.

Whether via direct or indirect sources, people often learn diverse facts about the world, but the impact of the media on society is undeniable. This wave includes both educated and uneducated individuals, which increases the media's and the regulating authorities' obligations. They need to be more cautious when it comes to the method and timing of news dissemination. In certain circumstances, the influence of mass media whether good or bad can be quite important. This is one of the main reasons why during some delicate events in the city or state, residents may experience situations when news broadcasts and internet access are prohibited. As a responsible citizen, you should always double check any news you hear before sharing it with others since it might have a negative effect on society. Whatsapp forwards are the greatest if you can think of an example; instead of just sharing one news item or message, take the time to determine if it is authentic or phoney and get others to do the same.

There are other aspects of media impact, such as embracing one's actual self. As a result of media influence, many trans persons have had the possibility and opportunity to speak up about their interests and be themselves. People of all ages have been exposed through the media to many facets of the world that earlier generations were not familiar with. The kids have been schooled by this immense revelation, which has profoundly altered their perspective on many topics and increased their knowledge of the modern world and their capacity for resourcefulness. In a couple of minutes, media may send a message across the world, informing us of the most recent global occurrences. Even if we believe that the current media has a greater impact on society, media has had a long-standing impact, as shown in how the bell bottoms worn by movie stars became a popular trend for all the young men in society. Overall, the media has benefited our society and given rise to a brand-new generation and way of life, but it has also corrupted children's minds and played a significant part in getting them to completely reject their native cultures in favour of western ones.

### **User-Generated Content (UGC):**

User-generated content, as the phrase is known, is simply material that has been created by a brand's audience or customers and shared by them on their social media profiles to aid in the promotion of the business. User-generated content, commonly referred to as UGC or consumer-generated content, is unique material made by consumers specifically for a business and shared on social media or via other means. UGC may take many different forms, such as pictures, movies, reviews, a recommendation, or even a podcast.

There are several factors that contribute to user-generated content, such as customers who record an unboxing video of a product and publish it on their social media accounts while naming the manufacturer, giving them an immediate advertising opportunity. The second

audience category is brand aficionados; these are the individuals who are so devoted to worshipping at the alter of a certain brand that the time is right to contact them and request particular UGC material.

Brands now face strong competition to get the attention of consumers online. Because of this, customers are increasingly picky about the companies they connect with and buy from, particularly the famously fickle Gen-Z. However, consumers aren't the only ones that care deeply about real content. 60% of marketers agree that effective content must have both quality and authenticity. UGC from your consumers is the only sort of material that is more real. Refrain from making up your user-generated postings or campaign. The fake emotion will be immediately detected by audiences, which might drastically harm the reputation of your business. Instead, make sure that your user-generated content (UGC) originates from one of three groups: your consumers, brand advocates, or workers.

## Organisational and Media Relations

### Using Media in Business Relations:

The simplest way to determine what is meant and described by the term "media" in a mainstream organisational structure is to understand how the term is used in the same context. Through this analysis, we show what the term "media" currently reveals, makes visible, emphasises, renders understandable, and discloses in organisational studies. We discovered three common uses of the word "media" in current organisational research by looking at publications published in prestigious organisational journals.

In a typical organisation, the media at the moment primarily aids in the creation of brand image and propaganda in society. Businesses merge and collaborate and merely announce the news on their "media handle," and the public is immediately aware of it for example, how Elon Musk used Twitter to challenge Putin. Although it is not directly related to the organisation, in this case the person posting represents multiple organisations, so it becomes the responsibility of those organisations. The definition of "media" in its original use refers to mass media. This idea of media is used in research that examines, for instance, how media sources cover certain events that are important to businesses, such mergers and acquisitions and initial public offerings.

The second meaning of the word "media" refers to certain communication routes with measurable impacts. However, academics are often interested in "mediated" communication, which makes use of technologies like the phone, fax, voicemail, video telephony, video, electronic data exchange, and email. Media investigated include "direct" communication, such as face-to-face or meetings. Since media are most successful when they match the degree of ambiguity of tasks, academics are more lately interested in examining the fit between media and task. Computer-mediated communication (CMC) is what the word "media" refers to in its third use. Some research focus on the group level, looking at social engagement and exchange patterns in online communities or communication patterns in virtual teams and groups. Others examine the positive effects of CMC, such as the growth of trust in virtual teams or behaviours of help-seeking.

## Media Representations

Early in the 20th century, media circulation began to garner interest in subjects like economic history or culture and society. A new generation of academics broadened the perspective on automation and bureaucracy, electronic media, television, "technical media," and media networks, computer technology, cybernetics, utility and industrial film, consulting and

management algorithms, digital infrastructure, and similar topics by drawing on these early approaches in media theory. For characterising media and mediation phenomena, there are now a large variety of diverse theories and techniques. Using analytical and historical methods, they explore media from the perspectives of culture, technology, and process.

For easier comprehension, the media was separated into three branches: process and change, technology and infrastructure, and culture and power. A critical analysis of the connections between media, culture, and power is the primary objective of the first branch of media theories. Within society, media are seen and positioned as cultural phenomena. According to this viewpoint, media both shape society and social relationships in general, and particularly power relationships. The perspective that views and characterises media as technology fundamentally reshaping society is included in the second branch of media theories that we attempt to illustrate here. They stress how societal communication and cultural heritage are transmitted and preserved via technology. Technology creates the infrastructure and formats for storing, transferring, and processing information, therefore it dictates how and what sort of knowledge may be created and conveyed.

At the same time, media technology is seen as a component of and impacted by cultural surroundings rather than as a configuration resembling a rational instrument. The development of media is always a play-off between social necessity and suppression, which relates existing and novel technological and cultural concepts. Theories falling under the third branch of media theory question the possibility of differentiating between media and content and introduce a historical lens into the research of contemporary media. The social sphere is "a field the social sphere in which two elements science and technology intersect," according to historical patterns of change and growth in communication. This branch recognises that media are always defined in terms of their technical progress by a discourse that refers to them as "new media," but that these "new media" are nevertheless governed by well-established technologies, hierarchies, and aesthetic ideals. The growth and development of technical features are then examined in study while taking aesthetic principles into account. This makes it possible to analyse the "rapid development of new digital media" while considering the discourse defining evolving media configurations.

### **Relationships Between the Media, Interest And Pressure Groups:**

The media's connection with society is unofficial yet structured. Pressure organisations strive to have a direct impact on what the media does, particularly by limiting the topics that are covered, such as morals, politics, work, and religion. People may legally compel the media in various nations to highlight ethnic minorities, women, homosexuals and lesbians, children, the underprivileged, the handicapped, the homeless, and the mentally ill. The media is cautious in how it responds to demands and objections and abides by the law; nonetheless, this success is sometimes also a result of other agencies' influence. This occurs when commercial media poses a danger to other media or when it propagates unfavourable ideas that are seen to be capable of causing a variety of issues. The extent of public and defence group support is another factor in success. While it is feasible to avoid offending minorities and supporting anti-social activists, it is hard to separate the impropriety of a media outlet's approach from a general trend and strive to appease its audience and advertisers. The media is leery of acts of retaliation and is prone to steer clear of ambiguous situations that fall within the purview of the public sphere.

### **Owner and Client Relations with the Media:**

The primary challenge in this connection is how to give media organisations more autonomy in the relationship. The first demand should be made to the owner directly, and the second

should be made to other economic actors in the area, particularly those who contribute operational funding (investors, advertising, and sponsors). The communicator's autonomy is often reviewed.

### **Owner's Influence:**

Media owners are permitted to utilise their outlets for propaganda, but doing so runs the risk of alienating readers and undermining the credibility of the publication. Although there is no question that consumer choice and freedom of speech put a cap on media ownership monopolies, it is proving challenging to lessen their overall influence.

### **Advertising's Impact**

Since media demand often aligns with other consumer segments, the structure of the majority of the mass media sectors in capitalist nations follows the objectives of marketers and is not a coincidence. Interest is often reflected in the layout, planning, and scheduling of media. The most straightforward example is when advertising may directly affect editors' publishing choices greatly according to their own preferences, beyond what is already fully implemented in the system.

### **Audience and Media Interactions:**

The most significant component of the customer is the audience, which has a bearing on every media company. According to research, audiences tend to protrude slowly for many presenters. After all, management usually pays attention to sales and rating data.

### **Adversaries of the Audience**

Rating is the most important factor that media organisations use. With considerable reason, the majority of media organisations do not see ratings as a very accurate measure for assessing quality internally. Because there is evidence that certain media groups behave positively towards their viewers, even on an abstract level, it is plausible that media exaggerates the antagonism towards audiences. tension between audience desires and the media's professionalism. The primary requirement for organisational media is ratings. But for media professionals, ratings are not the most crucial factor.

### **Uncertainty and Alienation:**

The majority of communicators in mainstream media do not focus on audience reaction since they are capable of making mature judgements regarding media material based on any response. Based on the guidelines, audience behaviour is guided and distinguished.

### **Audience Picture**

The producers are well aware that audience engagement in filmmaking is predicated on the audience's perception. According to Shoemaker and Reese, journalists primarily write for their own advantage, the benefit of their editors, and the benefit of other journalists. It is important to keep in mind that interacting with a large audience might lead to difficulties with cross-messaging. The audience is just that the audience. It watches, enjoys, but does not engage with the message's presenter or the viewer. Even after a television programme has been produced, ratings feedback cannot provide advice on how to improve it.

## **CONCLUSION**

The media has historically been seen as a weak institution when compared to other institutions like the legal system and the medical community, although this perspective has

evolved over time. The heart of media accomplishment is difficult to pin down outside of performing abilities. This is shown by the capacity to garner interest and attention from the public, the capacity to ascertain the tastes of the public, and the capacity to provide content that the public can comprehend and appreciate. Or, "have a nose for news" or "know the media business". These characteristics cannot be compared to those of other professions. The key distinction that sets it apart from conventional standards of professionalism, probably because the media places a high priority on independence, creativity, and a critical mindset. Finding the historical prototypes of the communication profession is exceedingly challenging.

The primary conflict is probably between freedom and the institution's regulations, which organizationally have binding control yet philosophically encourage creativity and freedom. If we talk about organisational relationships and media, one thing we need to understand is that there is huge potential for organisational research to engage more deeply with media and by looking at organisational media over longer timeframes, investigate both successful and failed media.

This is because as times have changed, even media must understand the needs of the people and provide content related to them. In order to better grasp the inherent logic that underlies and develops organisational media, we have developed three ideal-typical branches. Although this method was useful for introducing a variety of media theories and situating them in relation to one another, it hindered our ability to engage deeply with individual theories.

As a result, future research should more thoroughly explore the insights provided by individual media theories for organisational research in the context of particular empirical settings. This in turn could provide a way for organisational research findings to influence media theories that interact with businesses, markets, and economies.

#### ABSTRACT:

This abstract gives a general overview of the problems related to media content, investigates theories and methods for media analysis, addresses the notion of media genres, and highlights the importance of media texts in modern society. For critical media engagement and an understanding of how media affects people and society as a whole, it is crucial to know these factors. Concerns about media content are the primary emphasis of the first component. News stories, TV broadcasts, movies, commercials, and social media postings are just a few examples of the different formats that media material may take. Accuracy, credibility, bias, and information manipulation are issues that have been brought up by the democratisation of content generation and the proliferation of media outlets. The necessity for media literacy and critical analysis is highlighted by problems like disinformation, false news, stereotyping, and representation gaps. In the second area, methods and resources for media analysis are covered. When analysing media, one must consider the underlying messages, ideologies, power relationships, and cultural allusions. Media texts may be dissected and understood using frameworks provided by tools like semiotics, discourse analysis, framing analysis, and reception analysis. These analytical techniques aid in exposing covert messages, ideological influences, and the ways the media creates and impacts public discourse.

#### KEYWORDS:

Business, Culture, Media, Social Media, Social.

#### INTRODUCTION

Social media is not an exception; in order for any kind of media to be interactive, it must coexist alongside some type of communication methods. One of Satmass Media's most effective uses of social media is to convert communication into an interactive discourse. There isn't a single accepted definition of social media as of now. Out of all the definitions that exist, social media may be defined as a collection of web-based broadcast technologies that enable the democratisation of information and allow users to transition from being content consumers to providers. The social media technologies enable individuals to interact with one other to make or re-produce value via online communication and cooperation thanks to their potential to attain large scale in real time [1], [2].

Social media evolved over time into a behemoth that is altering how people interact and communicate with businesses, governments, conventional media, and one another. Due to social media's dominating advantages over conventional media, the traditional media's monopoly on the message was broken with the rise of social media. Social media evolved over time into a behemoth that is altering how people interact and communicate with businesses, governments, conventional media, and one another. Due to social media's dominating advantages over conventional media, the traditional media's monopoly on the

message was broken with the rise of social media. More significantly, during the current epidemic, the whole globe saw a change in media consumption. As if there were no other options, Indians specifically resorted to internet channels[3], [4].

Social media has quickly evolved through time to become the primary means by which people connect with one another nowadays. It has changed how individuals and organisations interact during the last ten years. With the widespread use of broadband internet in all facets of society, this has come to pass. The social media's ability to support several media formats, such as the simple posting of text, photographs, and audio-visual information, has introduced another level of rapid worldwide access and poses a serious challenge to the dominant traditional and conventional media. Social media has made it possible for anybody to express their thoughts and opinions. With the introduction of social media came both benefits and risks in equal measure[5], [6].

Inadequately explored areas of written content still exist, but there are none for visual content. If not any channel, an OTT platform will provide content to a degree that we could not have even imagined five years ago. This is because the modern media has consumed us to the point where it has sadly become our reality. If we had to focus on specific content, you would see that there are still unexplored areas[7], [8].

## **A Guide to Understanding Modern Media**

### **Media's Attitude to Its Challenges and Material**

Content produced for social networks like Facebook, Instagram, or Twitter is referred to as social media content. These platforms appeal to businesses in particular because they enable far more direct user connection than conventional marketing strategies. Any content efforts used, however, must also be properly focused towards the target audience and not merely turn into another advertising strategy in order to realise their full impact. In certain cases, social media and the information it contains have even supplanted conventional media like newspapers and television. As a result, social media content may be crucial to a business's entire content marketing strategy. Due to its near closeness to the user and wide audience, content on social media platforms may often be more successful than traditional advertising. Positive social media comments may sometimes even improve Google ranks. But social media material also has its own set of guidelines, necessitating a unique approach[9], [10].

Media content does not always play a part in advertising, but it also aids in informing the audience or the broader community. The key works associated with this perspective came from engineering, and the technological issues that drove the theorising concerned the modernization of the telephone system and the development of high-speed computers that could process a great deal of information in a short amount of time. Communication theories under the heading "Communication as information transmission" were able to explain that communication is about reaching information from point A to point B.

A unique aspect of social media is the high level of involvement. By clicking on a Like button or a button akin, users may directly remark or provide input on a piece of particular material. Users may also actively contribute to the distribution of material on social media by sharing content. Content has to be of the highest quality and carefully tailored to the specified target audience in order to be effective on social media and benefit from user word-of-mouth marketing.

If we look into the problems that our society faces and how the media organisations operate, we will not only be able to comprehend the contemporary media as a means of

communication but also have a thorough awareness of the world as it is. The main challenge for an organisation is adapting the content that is produced by the media to the society. There have been many instances where this has happened, including the Gillette advertisement where they brought up the issue of boys being boys, the AXE deo advertisement, and even news agencies misspelling names of well-known people even though they are capable of doing so.

## DISCUSSION

Speaking of problems from the bottom of society, the first and biggest problem is gatekeeping. There is no specific gatekeeping when it comes to content being released on platforms like Instagram and Facebook, and people in the community post offensive content; the only way that content is brought to attention is if the majority reports it; otherwise, it will remain visible until it violates any specific rules. Another problem has been with freedom of expression. This does not imply that our society has erred in granting this privilege, but rather that individuals need to realise how these issues effect other people. Like it is wrong to post offensive comments on someone's photographs or videos, but since there is no gatekeeping and other users are loving and responding to such comments, it encourages the commentators to keep doing so.

There may be answers to that, but who will really act on them is the real question. It is our duty as a community to discourage such behaviour and to put an end to any infringements on our rights and resources. With the advent of citizen journalism, we have more duty than ever to expose the truth, defend the right, and speak out for the vulnerable, yet nobody is speaking up or doing the necessary investigations. The second problem with content is that, as media has developed and internet access has become more affordable, the quality of material has declined at a faster pace. Trends, once established by one person, are simply copied by others, adding nothing to society and just serving to divert young people from reality. If used properly, social media platform features are beneficial.

### Theory of the Media Effect

The use of mass media in propaganda and persuasion was the primary emphasis of early media studies. To better understand how communications and mass media affect society, journalists and scholars rapidly turned to behavioural sciences. To address this, academics have created a wide range of methodologies and ideas. As you do research and think about how the media affects culture, you may make use of these ideas.

### The Impact of Marshall McLuhan on the Media

Marshall McLuhan, an English professor, published two publications in the early 1960s that had a significant impact on the development of media studies. The Gutenberg Galaxy and Understanding Media, books that were published in 1962 and 1964, respectively, chronicled the development of media technology and showed how it had influenced both popular culture and individual conduct. The idea that the media itself have a significant role in influencing human and cultural experience was a fresh perspective on media attitudes that McLuhan proposed in Understanding Media with the statement "The medium is the message."

As both his admirers and detractors reacted to his utopian ideas about how media may change 20th-century existence, McLuhan's outspoken pronouncements about media attracted a lot of attention. At a time when Cold War fear was at its height and the Vietnam War was a fiercely discussed topic, McLuhan talked of a media-inspired "global village." These views were well embraced by utopians of the 1960s, while social realists scorned them. These conflicts may

have contributed to McLuhan's rise to fame as a pop culture hero, as seen by his repeated mentions on the television sketch comedy show *Laugh-In* and his portrayal of himself in Woody Allen's movie *Annie Hall*.

The Internet and the ensuing cultural upheaval have given McLuhan's audacious utopian ideals a foreboding air. His art has, in fact, attracted a lot of notice lately. It's fascinating to note that analysis of McLuhan's works hasn't evolved much since his publications. His followers cite the potential and successes of digital technology as well as the ideal future that these advancements offer. However, the present criticism of McLuhan is a little more telling about the status of contemporary media studies. The number of media academics has increased significantly since the 1960s, and many of them have criticised McLuhan's lack of a methodology and theoretical framework. His work helped popularise the concept of media impacts and gave people a fresh perspective on how media affects culture.

### **Interactive Symbolism:**

Symbolic interactionism, another popular media theory, contends that human interaction is where the self emerges and evolves. This implies that your behaviour towards someone or something depends on the significance you assign to that person or object. People employ symbols with common cultural meanings to communicate efficiently. Almost anything may be used to create symbols, including tangible objects, knowledge, and even verbal communication. Therefore, these symbols play a crucial role in the development of the self.

Because of the significant role that the media plays in the creation and spread of shared symbols, this theory aids media academics in better understanding the area. The media has the ability to create symbols on its own because of its influence. Researchers may examine how media influences a society's shared symbols and, in turn, the impact of those symbols on the person by employing symbolic interactionist theory.

Advertising is one of the ways that the media constructs and makes use of cultural symbols to influence a person's sense of self. To make particular things appealing, marketers attempt to associate them with a common cultural meaning. What do you think of someone, for instance, when you see them driving a BMW? Because of the vehicle a person is driving, you can conclude they are strong or prosperous.

Luxury car ownership denotes belonging to a certain social status. In a similar vein, Apple, a technological business, has aimed to represent innovation and nonconformity via public relations and advertising. Therefore, using an Apple product might be symbolic and convey a certain message about the product's owner. Additionally, media spreads other non-commercial symbols. Celebrities, religious symbols, and national and state flags all acquire common symbolic connotations as a result of media exposure.

### **Video Logic**

According to the media logic theory, popular media forms and styles are used to shape how people see the outside world. Today, viewers just need to spend a little amount of time with a specific television programme to recognise it as a news programme, a comedy, or a reality show. This is due to the media's deep cultural roots. Due to their widespread usage, our society interprets reality using the tone and subject matter of these programmes. Consider a TV news programme that regularly features tense arguments between opposing viewpoints on political matters. For individuals who regularly watch this kind of programme, this kind of debating has come to be seen as the standard for how to handle disagreement. Institutions are impacted by media logic just like people. The contemporary televangelist emerged as a result

of religious leaders adopting television-style marketing, and political candidates today see their physical appearance as a crucial component of a campaign thanks to the use of television in elections.

### **Media Challenges:**

With the introduction of new technologies, the public's expectations of the media sector have significantly changed. More people now have access to both live and on-demand coverage because to the advancement of technology. Media and news are today consumed by audiences across all platforms and devices, not just their TVs. Additionally, they are absorbing material in a range of forms. Different types of material must be produced by the media. Depending on the viewer's device, media material has to be deliberately designed to be received differently.

When it comes to mobile or social media, where people anticipate more snackable material, content that works well in one format such as long-form for television or Netflix may not always perform well in another. To remain competitive and maintain a large audience, it is increasingly essential to become mobile and social media friendly.

To outperform the competition, media companies and news sources must be responsive and provide simple user interfaces. When it comes to news, viewers desire current coverage and will switch to another media channel if news breaks more quickly. When it comes to entertainment, people choose user-friendly interfaces with a wide selection of on-demand material. Because of how simple it is to use and the variety of original material it offers, Netflix is the market leader. As fake news and fake media become more prevalent and make headlines, media providers must work to build audience trust.

A reporter's career may be gone after making factual errors or distorting what was said, and the network's reputation as a whole may suffer. Networks must exercise extra caution in this polarising political climate and take every precaution to earn and maintain the public's confidence.

Every person has a unique social news stream. Based on their interests and previous read articles and watched videos, all of the presented information, including stories and videos, is tailored to them. Media experiences are becoming more personalised thanks to artificial intelligence. Every network social and online tracks what users consume and then suggests the next item or video to see based on that use. They are doing this by using algorithms designed particularly to accomplish this and forecast what a person will do next and how to keep them interested in their material.

### **Key Difficulties for the Media:**

#### **Privacy:**

The privacy issue with social media is its main drawback. Many individuals hold back from participating in a conversation out of concern for their privacy.

#### **Using Social Media for Commercial Purposes:**

Advertising on social media should adhere to censorship guidelines, and pornographic material in adverts should be avoided on websites made specifically for social networking. If these limitations are not rigorously enforced, they may destroy the brains of young people, indirectly raising the crime rate. This is one of the most significant problems that social media in the modern digital world has to deal with.

### Agreement Terms:

The majority of social networking platforms let users establish accounts after agreeing to frequently ambiguous terms of agreement. There are several ways to interpret the provisions of the agreement. They indirectly represent a danger. Users of the majority of social networking sites voluntarily agree to allow the proprietors of such platforms to utilise their personal information. It results in a privacy violation that is indirect. One of the major challenges that social media presents is one like this.

### Security Issues

Social networking platforms are just as dangerous to the security of sensitive data and personal information. The most frequent occurrence is website hacking, which poses an immediate danger to social media users. This ends up being yet another significant problem that social media presents.

### Deception:

The person's identity when they sign up for social networking sites might be real or fraudulent. The other user has no way of knowing if his or her identity is genuine. There have been several reported examples of fraud in the recent past. Social networking has emerged as a simple technological method for misleading people.

### Categories of Media

#### Recognizing Media Types

Media genres may be specifically defined within a media, such as the "horror" film or the "situation comedy" on television. Each genre has a unique set of characteristics. These elements of a genre's style and substance might include, for instance, a specific locale, character kinds, or technical elements. The way a piece of material is put together, rather than what is in it, ultimately determines its genre. A media text is said to belong to a particular genre if it adopts the rules and norms of other texts in that genre, acts and appears in a remarkably similar way, and has a general layout that is similar to other texts that have been assigned that label. For instance, a programme about premier league football can be compared to the layout of the match magazine because they both fall under the category of sport.

Writing may be divided into six categories: explanatory, persuasive, narrative, technical, and poetic. When you compare and contrast two people, locations, ideas, or objects, you look at their similarities and differences. Genre's purpose is to enable the classification of texts according to their form, substance, and style. For instance, this enables readers to determine if the events being described in an article are fictional or true.

A movie or film has a definite look and feel to it, similar to how a magazine will often have a contents page at the beginning before any of the articles and how a romantic comedy would typically have a wedding or other joyful event at the conclusion. This ensures that the viewer knows what kind of film they are watching and gives them a clear idea of what they expect from that particular film. The audiences have a certain set of expectations as to what a genre text will contain in terms of the characters used, the costumes, and the actors who are in the film. Differentiating features of various media products, for instance, if a scene featured blood and gore, it would be classified as a horror or thriller; likewise, if two people were seated at a desk and text was scrolling across the screen, it would be a news report of some sort.

### Different Media Types Fall Under Different Genres:

Newspapers may be printed or published online. There are several national newspapers in India, and some of them may have a certain political or social viewpoint. Newspapers that only cover one religion often amuse and educate their readers on political, social, and theological matters from that faith's point of view. As a result, a news paper's genre is determined by the kind of specification it requires. For instance, DNA's after hours was centred on Bollywood rumours.

- a. Magazines are often printed or online periodicals that cover a range of subjects based on reader preferences and interests. Magazines that focus on a particular faith often provide news from that perspective.
- b. Digital TV is available in every household in the globe. Despite several digital channels, secular television programming predominates. Digital sources are often cross-genre, meaning they are multiplatform, but the consumer has a choice in the specification.
- c. Local and national radio stations have various audiences they cater to. The majority are secular, while some may include religious elements. Some stations, like Red FM, have a distinct concentration on religious news, discussion, instruction, and music.
- d. The internet may be utilised for information, education, entertainment, and research. websites that are just for religion. They may be meant to enlighten the general public or their own religious group. Online fundraising appeals are made by charities like Christian Aid and Muslim Aid.
- e. Different storylines, subjects, themes, and genres are covered by movies. They often debut in theatres before being made accessible for individual home watching.

In order to understand the best genre for oneself, whether it be an organisation or a single person in a large society, it is crucial to understand the genre that seems trustworthy and interesting. This applies to any kind of media that one wants to direct their attention towards. For viewers, genre is crucial since it informs them about the kind of movie they will be seeing and what to anticipate. Additionally, various audiences like certain genres. The audience may choose the kinds of films they like to see based on the genre.

### CONCLUSION

The media really operates and how its information affects society today. As was discussed in the preceding chapters, media sets agendas for what we should think and discuss, but with the advent of contemporary media, things have changed and media content is now also consumer-driven. The media now provides the conflicts and hot topics that audiences seek for. The most crucial aspect of media organisation in traditional media was content because it was what the audience was given to consume. However, in the last two decades, digital consumption has greatly increased as traditional media has completely transformed into new media, which includes computerised, digital, and networked information and communication. The respondents are split between two extremes: on the one hand, they say they can't possibly envision a world without new media, and on the other, they say new media provide numerous difficulties. The only alternative left at this point is to approach these new media difficulties in a desirable manner, allowing for the most efficient use of social media. In order to give the audience a better new media environment, both service providers and the relevant competitive authorities at the appropriate level should look into this issue. Media also has its own limitations and issues, which will change with time and technology, but we as a society

have to understand and find a way to overcome them and keep on creating a new, better society in terms of media consumption. Technology has opened up a new phase for us; let's see how far and how far we can take this. The media was primarily intended to give viewers quick and easy access to important news information and analysis about the world as well as the best entertainment content, posing media professionals with a variety of challenges.

#### ABSTRACT:

This abstract covers the idea of audience creation, gives a brief history of audience theory and research, and highlights the value of audience experience in the study of media. Understanding the impact audiences have on media consumption trends, media impacts, and the creation of meaning in mediated communication requires an understanding of these factors. Traditions in audience theory and research are the primary emphasis of the first component. The goal of audience theory is to comprehend the function of audiences in the receipt and interpretation of media. It includes a variety of methodologies and viewpoints. These practises include, among others, the reception theory, cultivation theory, and active audience theory. Every tradition provides different perspectives on audience behaviour, motives, and how people interact with media. The audience formation is covered in the second aspect. According to similar interests, identities, or consumption habits, people create audiences. This process is known as audience formation. Audiences are formed by a variety of factors, including social influences, media choices, and demographic and psychographic characteristics. Understanding audience formation enables media researchers and practitioners to target certain demographics, customise material, and examine how media consumption is influenced by societal identities.

#### KEYWORDS:

Business, Culture, Media, Social Media, Social.

#### INTRODUCTION

The audience is the last consumer of media, as you may know. Feedback from the audience is essential throughout the communication process. The recipient's response is required for the message to be considered successful. The term "ideal audience" refers to a communicator's envisioned, intended audience. When producing a rhetorical text, the communicator or speaker envisions a target audience a group of individuals who will be addressed, persuaded, or otherwise impacted by the speech or rhetorical text. The audience might consist of a single person or a variety of different sized and sorts of groups of individuals. The audience theories are based on how an audience behaves or is affected. In this section, we'll look at many aspects of the audience, theories, and interactions between the audience, communicators, channels, and material [1], [2]. The target audience and its interactions with the message or content are the main concerns. One of the main subjects discussed in this course is the effect of media laws and content on the audience [3], [4].

#### Audience Concept

As you may know, an audience is a group of people who go to a performance of art, literature, drama, music, or video games in any media (players or viewers). One individual

reading a newspaper or magazine to billions of people watching international events on television might be considered a member of the media's audience. Historically, the term "audience" might have signified a variety of people reading newspapers, books, or magazines. A large crowd gathered at the theatres to see the movie when they arrived. However, the emergence of radio and then television changed how audiences were conceived. A divided audience of groups or people was established by the individuals or groups. The radio might be listened to by a group of individuals from any location in the globe. The internet video games split the audience. There is another aspect to it, though: watching television series that are seen globally brings people together[5], [6].

### The Origin of Audience

The beginnings of the audience may be traced to a gathering of individuals watching any kind of act while seated together behind an imagined queue. When theatres originally started as a ritual with tribal dances and festivals that needed a communal assembly, the first audience showed up. Peasants would join the performers in this participatory form of theatre. These people are still prevalent across Asia and India[7], [8].

The earliest recorded audience was in Greece, when locals celebrated the harvest by praying to the gods. In this style of audience, seats were assigned according to social status; the affluent were given front row, ornate seats, while peasants and other lower-class persons were seated in the rear. The word "spectator" was used by the Romans to refer to an active audience. A consequence of agricultural celebrations, theatre emerged throughout Asia[9], [10].

Clarification is provided by the definition of audience, which is a group of listeners or observers. It could have originated at a performance when attendees were compelled to observe singers while simultaneously listening to music. A collection of ardent fans make up the audience, and they let the performers in the theatre.

Over the years, it has been observed that audiences might be kind, apathetic, ignorant, or hostile. Each of these audiences requires a different approach from the communicator. If they're friendly, you should support their views; if they're indifferent, you should convince them that it matters to them; if they're uninformed, you should educate them before recommending a plan of action; and if they're hostile, you should respect them and their viewpoint.

One must first define "mass" before defining "mass audience." Blumer's Mass Communication Theory contends that mass is diverse, enormous, and anonymous. The term "heterogeneity of mass" refers to several groups of people; these people may vary in terms of their ages, genders, incomes, faiths, occupations, or geographical regions. It is possible to find a depiction of the masses in either India or the United States; it is a large group of individuals who are probably nameless, faceless, and unknowable.

We may infer from the mass audience hypothesis that when individuals watch a movie or read a magazine at home, they join a "Mass audience"; everyone who comes into contact with a media text joins the mass audience of that text. This is comparable to a crowd at a FIFA World Cup game when everyone is watching the same game, but the media audience is split by time and location. Since the majority of the population is extremely large and physically distinct, the individuals are not known to one another. They have no idea who the other is. Because most individuals are nameless, the majority are disorganised. The multitudes do not have a common goal to achieve, unlike in a public gathering.

### There are Four Methods for Understanding Large Audiences:

1. **Media Impact** It refers to the reach of all media, including readers of newspapers and magazines, listeners of radio, viewers of television, and, in the case of new media, internet users.
2. **Mass media** may be accessible, but one's capacity or desire to utilise it will decide whether they have access to it. Despite being accessible, newspapers may not be read by the general people.
3. **Media Exposure:** It's possible that a large portion of the general populace is ignorant of mainstream media or other types of new media technologies. In addition, no one gets exposed to all of the content of any media. But not every person who consumes media information is exposed in the same manner.
4. **Media Effects:** If media viewers have altered their knowledge, attitudes, or behaviours as a consequence of their exposure to the media, this is something to take into account.

Traditions in audience theory and research, audience formation, and audience experience The Fourth Estate of Democracy and a social institution throughout the early years of modern media, especially print media, was journalism. The growth and technical development of the mass media changed everything; now, the media is a multibillion-dollar enterprise with profit as its main priority. The audience has become a market as a result of the commercialization of the media. The audience/consumer receives the media material as a commodity that has all the required components. Producer competitiveness has increased as profit has become the main objective. A target audience, as defined by market theory, is a collection of prospective consumers with a certain socioeconomic profile who are exposed to a medium or message.

As a consumer idea, audience is significant for both content and advertising. Advertising is the primary source of funding for the media. Advertising generates revenues directly, therefore the more ads there are in publications like newspapers, television commercials, and radio jingles, the more money there is to be made. Media that is driven by competition aims to boost ad revenue. As a consequence, advertising often determines the media's content since the allure of money affects the media's policies. In this dreadful nexus, the audience assumes the function of a market.

Only an abstraction generated from the institution's point of view and for the institution's advantage, audiences really exist. In addition to demographic factors like gender, age, and socioeconomic status, psychographic factors like interests, habits, and pastimes also play a role in defining the audience. In this context, the central idea of audience theory is the interaction of genre, narrative, representation, audience, and media language.

### Key Consumer Theories

#### Theory of The Hypodermic Needle

The Hypodermic Needle Theory, also known as the Effects Theory, describes media material as quickly reaching the audience and having an affect, like a needle pricking the body. This is analogous to the psychological "Stimulus-Response" theory.

The consumption of media texts affects the audience. The text's message has the greatest influence since audiences lack the ability to oppose it because they are passive. like a consequence, the media functions like a drug, causing the people to become dependent, drugged, or even duped. Indeed, in the 1920s and 1930s, the Frankfurt School postulated that the media influenced audiences in order to support businessmen and the government. Albert

Bandura's Bobo Doll, which said that children who see violence on television grow aggressive, was a significant research that contributed to the Hypodermic Needle Model's acceptance in 1963.

### **Gratification Choose audience:**

In contrast to the Hypodermic Needle Model, the audience as a whole set choose what to do with the media rather than having it directly influence them. The media is used by the audience to fulfil desires. To understand the message (what they desire), people turn to the media. This is an individualised and selective audience. This audience wants information to stay educated (on the kind of information needed), to define themselves (personal identity), to relax and unwind (escapism), and to identify with fictional characters in television programmes. Gratification might eventually turn into a media habit. The more a person or audience relies on media to fulfil their wants, the more independent they become and the more power the media has over them.

**Theory of Reception:** The Effects model contends that, among other things, media encourages inactivity, makes us "couch potatoes," prevents students from studying and landing jobs, contributes to violence because viewers are influenced by violent programming, encourages "copycat behaviour," and promotes mindless and unnecessary consumption of goods through its advertisements. Three methods exist for the audience to react to content:

**Preferred/Dominant readings:** Because the producer provides the material the audience needs depending on the audience's sociocultural background, there isn't much for the audience to question.

**Negotiate Readings:** Although the audience may not fully concur with the context in this instance, they attempt to adapt to what is written or seen in order to maximise their understanding of what they read or saw.

**Opposition/Resistant Readings:** The audience objects to the context read or watched since the material may not be consistent with their socio-cultural beliefs.

### **Different Audiences:**

Based on their demographics and mental make-up, the various audiences may be classified:

**Elite Audience:** Members of elite audiences are those who decide on social trends and set them. They have an excellent education and are financially well. They are well-regarded in society. Despite being small in number, they make a big influence. They could also run media enterprises as their owners or controllers. The elite audiences are those who use communication technology early on. They don't generally consume a lot of media.

**General Audiences:** These are enormous, diverse audiences that include a wide swath of the populace. This group includes the overwhelming majority of individuals. Media material mostly aims towards them. Their involvement determines whether a material or channel is successful or not.

**Special Interest Audiences:** These groups of individuals all have a common interest. They consist of a few individuals. The media produces unique material specifically for these consumers. Examples of programming include those aimed for tribals, housewives, college students, and other audiences with specific interests. On the other hand, publications like Mainstream, Economic and Political Weekly, and Media Asia have a modest but well-known following.

**Community or Public:** A social community may be built around a family. A family gathering during a party or event, such as an engagement, leads to the formation of a broader social group. As a consequence, social gatherings often place during important occasions like weddings, celebrations, and even when a select number of individuals assemble for a charitable event. Additionally, the objectives of all of these groups are the same. In a small group, everyone is acquainted with one another. They have a clear relationship structure, are aware of their shared membership, and have similar ideas. They cooperate to accomplish a shared objective. The more people there are, the harder it is to communicate.

Social groups' intended audience is often easy to manage. because it is possible to understand and research a social group's needs and motivations. Such programmes may be made by producers who see their audience as a single, uniform entity. The populace is scattered. They come in a variety of sizes, from little to huge. Typically, the word "public" refers to a purpose, objective, or action. Members of the public can be dispersed and unfamiliar with one another. Political parties approach members of social groupings as the general public when it comes to communicating information about their policies and objectives. Publics as intended consumers are difficult to influence and inspire due to their variety.

### **Average Audience:**

The mass media's audience is varied, and each medium has its own demographic. Mass communication via media reaches a huge audience. Information is conveyed to readers via newspapers. The broadcast media educates the audience electronically. A media for listeners is radio, a means for viewers is television, and a medium for viewers is film. New Communication Technology includes all three of those activities.

The audiences of mainstream media, which were formerly immensely popular, have been redefined as a result of digital technology. Additionally, today's media audiences are dispersed. The audience for each media has decreased as a consequence of the fragmentation. The majority of the media audience is driven by the broadcast media. Among this group, sitcoms and soap operas are popular.

The second media audience is the "Niche Audience," which selects personalised broadcasts or consumes only bespoke information. This is a very tiny group of individuals. There are several divisions and groups for audiences of medial mediums. This division might be made in accordance with occupations, social classes, and other elements.

### **Theories of Audience Structure**

It is more focused on what ought to be done than on what actually happens. It differs from positive science. While ethics is concerned with morality, positive science is concerned with facts and their causes. It evaluates the norms or guidelines by which we may judge whether human conduct is right or wrong. The normative sciences also include logic and aesthetics.

The fundamental structure of audience theories is the impact produced on the audience. The fundamental basis for understanding audience theories is the SMCR model. The listener is impacted by every aspect of communication, whether it is direct or indirect. The Berlo Communication Model illustrates how each stage of communication is interrelated and has an impact on both the speaker and the listener.

### **Design Model for Media Use**

In 1969, when the United Kingdom was holding the election for the year 1964, Jay Blumer and McQuail looked at the reasons people watched different political broadcasts on

television. According to McQuail's Structural Model, the audience's or viewers' reasons for watching the broadcast are categorised. In other words, according to McQuail's Structural Model of Media Usage, audience media consumption has a "Structure" that can be broken down into several "needs."

Four categories for the uses of different media were offered by Denis McQuail, Jay Blumer, and Joseph Brown in 1972: distraction, personal connection, personal identity, and monitoring. According to Blumer, McQuail, and other theorists, people's use of media and the pleasure they get from it are inextricably related to the environments in which they live. They stated in 1974 that there are five ways in which people's "social situations" might "engage in the development of media related wants":

Social tensions and conflicts may cause media audiences to be interested in similar issues. The media may be used to bring topics that need attention to the public's notice via social events. Due to societal constraints, real-life choices to satisfy particular demands could be few, and the media might fill the void. Media may help with affirmation since certain ideals are regularly triggered in social circumstances. Media structure is the selection of information that is accessible at a certain location and time and is defined as the generally continuous array of channels that the media may provide in social contexts.

### **Value Model of Media Gratification Expectancy**

Uses and Gratification Theory are indissolubly linked to Expectancy Value Theory, therefore using this approach is essential to understanding audience theory. Martin Fishbein put out this notion in 1970. According to this concept, behaviour is a consequence of one's "expectancies" and the "value" of the object they are aiming towards. Such an approach suggests that the behaviour selected will have the greatest combination of anticipated success value when more than one activity is viable.

Particularly, the social influence of the audience has an effect on attitude and attitude change. Media pleasure is a result of audience social influence. Because of the attitudes that have developed as a consequence of societal influence, audiences look for certain media material. This idea has also been developed into a tool in many other fields, including education and advertising. For instance, the cultural influence on a certain clothing brand could lead viewers to seek out television advertisements for that brand and develop a desire to buy the goods.

According to Fishbein (EVT/ Mode), people react to information about an item or conduct by forming a belief about it. This knowledge is almost always acquired from the media. Additional information (organic food traits, for instance) may refute an existing opinion (that, for instance, eating organic foods is beneficial for your health). Then, people place a value on each characteristic that a belief is "based" (organic foods help you stay healthy). Finally, an expectation is developed or adjusted (to purchase the recently introduced organic food marketed) based on the circulation of ideas and values.

### **Integrated Audience Choice Model:**

Dennis McQuail claims that Webster and Wakshlag had an impact on the development of this concept. In order to present both audience and media viewpoints, this strategy blends audience and media elements. The following elements describe the two sides:

#### **The Audience's Influence:**

The choice of media is influenced by socioeconomic background, notably social class, education, religion, culture, political environment, family, and place of living. Media

consumption is influenced by personal traits including age, gender, family status, education, profession, money, and lifestyle. Genres, formats, and unique content all affect how people like to consume media. Media use patterns during free time and other times are crucial. Awareness in choosing the amount and kind of information is one area where it is possible to anticipate that interested audiences would plan their own media consumption as you see fit.

### **The Audience:**

The media system including its participants, scope, and types of media as well as the particular qualities of individual media channels national, local, linguistic, and format have an impact on audience attention. The fundamental pattern of whether the media provide the people with the information they want is referred to as media structure. Content accessibility affects the genres and forms that are accessible to a prospective audience. Media publicity or promotional programmes are the terms used to describe advertising and image development carried out by the media for their own purposes.

Time and attendance are specific strategies for timing, scheduling, and content creation in line with the competition's plan to influence audience choice and usage of media. For instance, the majority of regional language TV networks simultaneously air the same formats and shows in order to compete with one another. These factors suggest an integrated approach where media and audience are mutually dependent.

### **Audience and Media**

Both the media and the audience play significant roles in communication. The content providers are the media for the audience, who act as receivers. A media audience might consist of only one person (one person watching TV or reading a newspaper) or it can consist of billions or an infinite number of individuals viewing events or programmes simultaneously throughout the globe. Since there wouldn't be any media if there was no audience, the audience is vitally important to media producers. Since the media is what keeps them profitable, competitive, and in business, it is essential for the media. Although the audiences are engaged, they might be small or vast, main or secondary. They may be big or little, and owing to developments in technology, they can be interactive.

### **Divvying Up the Audience:**

Thanks to developments in media technology, there are now three times as many media channels than there were before. Audience fragmentation refers to the separation of audiences into several segments small or big as a result of the wide variety of media outlets. Audience fragmentation is the process of dividing a population into homogenous groups based on predetermined factors including demographics, communication styles, media consumption, and other factors. For instance, there may be disparities between the age groups of children and seniors. Depending on how they consume media, the audience may be classified into several categories, such as TV viewers, Internet users, and FM listeners. It is possible to further divide newspaper readers into those who read print newspapers and those who read electronic newspapers online.

The cause of audience fragmentation is media convergence. The same material is accessible across every mediums. When you read a news article in the newspaper, it is also accessible as an e-paper and shows up briefly on social media platforms even before the next morning's edition. Because businesses must simultaneously serve consumers from various groups and geographical areas, advertisers must contend with audience fragmentation. Digital technology

has created audience uncertainty since a large number of individuals are reading/viewing the same information at the same time or at different periods. The fragmentation of the audience is essential in the technological era. In contrast to broadcasting, narrowcasting uses specialised Cable TV to target smaller audiences. Zone casting uses technology to target specific neighbourhoods with different commercials, and location-based mobile advertising uses technology to follow you around and promote products around-the-clock.

### Participant Audience:

Ethics just serves to guide us towards a certain goal; it is not a science of application. It follows a different route than applied science, which is a tool for achieving a goal or set of ideals. For instance, medical science is a method for eliminating the root causes of sickness. Ethics thus aims to ascertain the ultimate goal of life and how it could be fulfilled. You may already be aware of the term "interactive media," which describes goods and services provided by digital computer-based platforms that react to user activities by presenting content including text, moving pictures, animation, video, audio, and video games in response to the user's actions. Systems for large-scale audience engagement provide a plethora of opportunities for information, education, and entertainment. For a range of media platforms as well as technological products including mobile phone applications, web-based video games, and interactive television, interactive media creates images and animations.

An interactive audience is distinguished primarily by its ability to react to digital input. There is no method for a reader or viewer of conventional media, like print or broadcast, to navigate. Interactive audiences replaced one-way communication as the Internet became commercialised in the 1990s. These are a few instances of interactive audiences:

### Software for Applications:

1. Software designed for a knowledge management system; for instance, if you're looking for information on "How to keep pests away," this application may help.
2. The most common kind of interactive media audience is via apps, like Zomato and Swiggy, which allow users to communicate and plan.
3. Games: Both groups and individuals (s) may benefit greatly from interactive games and activities. On the digital platform, you may play interactive games like Little Thief and Family Tree.
4. Interactive video: Interactive aspects in video and television include video/TV streaming, which enables live streaming and interactive viewing of shows.
5. Social Media: The bulk of the interactive audience is comprised of the social networking sites (SNS) or online communities that enable the navigation, sharing, and creation of media.
6. Advertising: Interactive elements used in outdoor, in-store, and digital advertising. An example would be a digital poster that engages passersby.

The following categories of interactive media are all well-liked and have sizable global interactive audiences.

### Audience Analysis

A particular audience segment's attitudes, knowledge, interest, conduct, and preferences in regard to a certain topic or event are gathered, analysed, and interpreted through audience research. Usually, it's done to identify the media's intended audience. Advertisers strive to understand the audience's desires, reactions to products, how to motivate and convince them, and how they may use this information to better their products.

Several demographic categories, such as income, gender, career, marital status, and religion, are used to segment the audience. Examples of audience research include questionnaire-based surveys, focus groups, interviews, and online discussion boards for market research. Because it may disclose the audience's preferences and important details about the channel's programming, audience research is useful. By enabling you to create an audience profile, it will aid in defining your target audience. But doing research requires resources, and it may be expensive if the questions are flawed. As a consequence, if responses are vague or lacking, the outcomes might be off.

Surveys are conducted to find out how many people read newspapers and magazines, listen to radio, and watch television and go to the movies. Research on TV viewing serves as the basis for ratings (TV Rating Points, or TRP). In the case of the Internet and social media, research has gained pace, and both the requirement and the outcomes have been established to understand the New Media's increase in popularity. In audience research methods, the use of digital media, in particular smartphones, has become more widespread.

### CONCLUSION

The audience still plays a crucial and essential role in the communication process. Recognising audience viewpoints and researching the variables influencing the audience-media connection are crucial. Since the development of media has led to dynamic interactions, audience-centric research will continue to be of the highest relevance in the coming years. In conclusion, historical perspectives on audience theory and research provide important understandings of audience behaviour and media consumption trends. Analysis of audience formation enables understanding of how audiences are formed from people with similar identities and interests. The investigation of audience experience offers a fuller comprehension of the individualised and subjective processes that take place during media viewing. These factors may help scholars and practitioners better understand how audiences shape media impacts, meaning production, and the general dynamics of mediated communication.

## CHAPTER 10

### ANALYSIS OF PROCESSES AND MEDIA EFFECTS

---

Mrs. Sreelekha Premjet, Assistant Professor,  
Department of English, Presidency University, Bangalore, India,  
Email Id-sreelekha@presidencyuniversity.in  
Prof. Ujjwani Banrejee, Regional College of Management, Bangalore, India

#### ABSTRACT:

By highlighting the intricate interactions between media content, people, and society, this abstract examines the mechanisms behind media impacts. To understand how media affects people's attitudes, behaviours, and perceptions, it studies the many theoretical stances and empirical study carried out. The processes of media impacts are the primary emphasis of the first component. The reactions to media information that are part of these processes include cognitive, emotional, and behavioural ones. They entail the attention to, perception of, interpretation of, identification with, and internalisation of media messages. Along with this, societal and cultural variables affect how people interact with media and the results that follow. Gaining knowledge of these procedures may help you better understand the ways in which media influences people's attitudes and behaviour. The theoretical frameworks that direct the investigation of media impacts are covered in more detail in the second area. These viewpoints include, among others, the spiral of silence theory, the agenda-setting theory, the social learning theory, the cultivation theory, and the uses and gratifications theory. Every theory provides distinct insights into how media content affects people's worldviews, behaviours, and social interactions. In-depth knowledge of the underlying processes and circumstances that contribute to media impacts is gained by researchers via the examination of various theoretical frameworks.

#### KEYWORDS:

Communication, Media, People, Public, Social.

#### INTRODUCTION

Although there is no agreement on the form and extent of these predicted effects, the whole discipline of mass communication studies is founded on the idea that the media has significant effects[1], [2]. Given how numerous, if tiny, instances of influence may be seen in ordinary life, this uncertainty is all the more startling. We respond in many ways to media content, such as news stories, films, radio music, and so on. For example, we dress for the weather, make purchases based on advertisements, attend films that were discussed in the news, and so on. Unquestionably, positive or bad economic news affects business and consumer confidence[3], [4].

Numerous instances of poor media coverage of food adulteration or contamination have led to substantial shifts in consumer behaviour, sometimes with serious economic repercussions. Acts of violence or suicide seem to have been inspired by or replicated by media depictions. Many laws and rules are designed to stop the media from hurting individuals, and some people even want the media to benefit society[5], [6].

Our minds are overflowing with information and perceptions from the media. Politics, government, and business all operate on the premise that we are aware of major world events in our media-saturated world. Few of us can think of a specific instance in which the media

helped us develop an opinion or absorb crucial facts. It also takes a lot of time and money to influence the media to achieve these outcomes, especially via public relations and advertising, and it is unlikely that this would occur unless there is a firm perception that it functions, essentially, as intended. One group that seems convinced they can get the desired effects is the media [7], [8]. However, there is a great deal of doubt. The contrast between the general and the particular may help to partially explain the conflict. Without being able to see or predict the overall consequence or knowing how much of it can be traced to the media after the fact, we can be assured that certain impacts are happening constantly. Numerous effects may occur with no obvious organisation or direction [9], [10].

Determining the media's relative contribution to an impact is challenging since they are seldom the only important or adequate source of that influence. There are many compelling theoretical reasons for this ambiguity, and even common sense and "practical knowledge" fall short when it comes to worries about the impact of the media on the divisive topics of morality, opinion, and deviant conduct that have drawn the most attention from the general public. In many of these situations, the media is without a doubt the major or sufficient cause, and it is hard to take into consideration all other psychological, social, and cultural factors. Furthermore, it makes little sense to refer to "the media" as a singular thing rather than as the carriers of a huge variety of messages, images, and ideas. The bulk of this material "comes from society" and is "sent back" to society through the media, rather than being created by the media.

People outside of the media, such as social critics, politicians, and interest groups, have started the bulk of impact studies. The underlying assumption has been that society as a whole has a "problem" with the media. Although negative media impacts still influence public discourse on the media, particularly more contemporary forms like the Internet, this is no longer entirely true. There will never be a bridge across the gap between those who affirm or fear the media's supremacy and those who raise doubts about it. The 'media power' belief system has far too many vested interests, and the evidence requirements of opponents are far too high to be readily met. Even yet, it may be advantageous to have these divergent viewpoints. It serves as a cautionary tale to be sceptical of accepting 'persuaders' or critics' statements at face value, to avoid equating particular messages with the medium as a whole, and to carefully distinguish between various types of impact and various situations. Most essential, we must acknowledge that the receiver affects the consequences at least as much as the transmitter does.

Although there is no agreement on the form and extent of these predicted effects, the whole discipline of mass communication studies is founded on the idea that the media has significant effects. The bulk of this material "comes from society" and is "sent back" to society through the media, rather than being created by the media.

## DISCUSSION

People outside of the media, such as social critics, politicians, and interest groups, have started the bulk of impact studies. The underlying assumption has been that society as a whole has a "problem" with the media. Although negative media impacts still influence public discourse on the media, particularly more contemporary forms like the Internet, this is no longer entirely true. There will never be a bridge across the gap between those who affirm or fear the media's supremacy and those who raise doubts about it.

The 'media power' belief system has far too many vested interests, and the evidence requirements of opponents are far too high to be readily met. Even yet, it may be advantageous to have these divergent viewpoints. It serves as a cautionary tale to be sceptical of accepting 'persuaders' or critics' statements at face value, to avoid equating particular messages with the medium as a whole, and to carefully distinguish between various types of impact and various situations. Most essential, we must acknowledge that the receiver affects the consequences at least as much as the transmitter does. Direct effects, conditional effects, cumulative effects, process and models of media impacts, socio-cultural effects, and cognitive-transactional effects, are all examples of effects.

### The Power of the Media Can Vary with the Times

Prior to moving on from the historical component of media effects study, it is important to take into account Carey's hypothesis that shifts in public perception of the influence of mass media may have historical roots. It might be argued that the main cause of the shift in the discussion of the implications from a strong to a weak to a strong model is that the social reality was changing at the time, he continues. Strong repercussions were definitely warned during the two world wars' tumultuous aftermath, but the more tranquil 1950s and 1960s

seemed more stable until the tranquilly was once again disturbed by social upheaval. The mass media seem to share part of the responsibility when the stability of society is challenged by crime, war, economic downturn, or any other kind of "moral panic."

We can only speculate as to the origins of these temporal connections, but it is possible that at times of crisis or when awareness is at its highest, the media may have a greater impact in certain respects. The period after the collapse of communism in Europe, the Gulf and Balkan Wars of the 1990s, the Afghanistan and Iraq Wars that followed 9/11, as well as other international conflicts, may all bear this out. Numerous factors make this feasible. Media is often the only way that people hear about important historical occurrences, and this may cause them to associate the message with the medium. In times of change and uncertainty, people are more inclined to turn to the media for information and guidance.

Additionally, it has been shown that the media has a stronger impact on subjects that are not directly tied to personal experience. Government, industry, and other elites and interests regularly attempt to shape and manipulate public opinion via the media during times of stress and ambiguity. According to Rosengren and Windahl, discrepancies in the findings about the impact of television may be due to how different television was in terms of content and social experience in the 1980s compared to the 1950s, when the original study was performed. Additionally, it changes according to the culture. If this is true, it has implications for the way we watch television now, which has changed considerably. The most important yet obvious point is that media impact, whether real or prospective, fluctuates throughout time and across different places.

### Communicative Power Types

The definition of power has proved challenging, not only in relation to the media but also generally. When it has been defined, two separate routes have been pursued. With stimulus-response thinking, one adopts a behavioural and causal line of reasoning where power is equated with the likelihood of achieving a particular result, whether intended or not. Using Max Weber's concept of power as the "chance of a man or group of men to actualize their will in a community activity even in the face of resistance from other participants" as its foundation, the sociological alternative model is founded on this definition. According to this theory of power, there must be a connection between the parties to an action in order for coercion to be effective. Additionally, there are winners and losers.

The second model has better explanatory power, even when impacts are unintentional, since most effects need the target of influence's participation or compliance. Both models are relevant to the topic of media effects. However, there may not be obvious collaborators when it comes to mass communication, and actual compulsion is improbable. Communication or symbolic power is distinct from other forms of power since it is founded on non-material standards.

Here, it's important to underline that symbolic power may be used in a number of contexts. The main forms include: providing information, serving as a catalyst, drawing attention in various ways, persuading, framing "reality," and defining situations. Even if each of these channels shows some signs of having an impact on the media, they do not all have the same capacity, at least not for a standalone communication effect.

For a variety of reasons, more effects from media result from defining situations and framing reality, providing information, or the differential direction of attention. Aid that is appropriate for the aforementioned phase of "negotiated influence" fundamentally shows these criteria.

## Impact Levels and Kinds

The 'effects' of the media are just the outcomes of what the media does, whether purposefully or accidentally. 'Media power,' on the other hand, describes the media's entire capacity to cause effects, especially those that are intended. The term "media efficacy" refers to how well a certain medium performs in reaching a particular goal, which is always a communication objective. Although it might be challenging to maintain consistency, such variations are required for accuracy.

Even more crucial for study and theory is the difference between 'levels' of occurrence, notably the levels of person, group or organisation, social institution, national society, and culture. Any or all of them may be impacted by mass communication, and impacts at one level especially a "higher" level often signal consequences at other levels.

Although the bulk of study on media impact has been done at the individual level, findings concerning collective or higher levels are intended. The most confusing aspect of impact research is probably the variety and complexity of the phenomena involved. Effects on cognition, affect, and behaviour are often broken down into these three areas. An early study's interpretation of this three-part difference was that it made sense logically from first to third, with relevance increasing.

In reality, it is becoming harder to preserve the distinction between the three ideas and to accept the special logic of that specific sequence of occurrence. Neither is conduct necessarily more significant than other forms of impacts. There are many techniques to distinguish between the various types of media effects. According to Klapper, there are three types of communication: conversion, minor change, and reinforcement, which are respectively defined as a receiver's confirmation of an existing belief, opinion, or behaviour pattern and a change in the form or intensity of cognition, belief, or behaviour.

It is important to widen this three-way division to account for all potential outcomes, especially at levels above the individual. The two effect categories that suggest that there is no impact entail various definitions of media operations. In the case of an individual, reinforcement is likely to take place as a consequence of the receiver's deliberate and persistent focus on information that is compatible with his or her preexisting views.

## Types of Main Media-Induced Changes

The media has the power to:

- a. Achieve the desired transformation;
- b. Unintentionally modify the situation;
- c. Make a little modification;
- d. Make change easier;
- e. Compile existing information
- f. Change prevention is crucial.

Individual, social, institutional, or cultural changes may all take place. Contrarily, "preventing change" refers to the deliberate dissemination of biased or ideologically shaped material in an effort to prevent a conforming audience from changing. Often, this simply means that agreed-upon ideas are repeated without any opposition. We have so much proof of the media's "no change" impact, and it warrants our undivided attention due to its long-term effects. It is a somewhat deceptive statement since anything that alters the likelihood that future opinion or belief distributions will occur qualifies as a social process intervention and, thus, as an impact.

Lang and Lang state that 'reciprocal,' 'boomerang,' and 'third-party' effects have also been seen. The first is about what it means for a person or even an organisation to get media attention. For instance, being broadcast may significantly change a planned event. The media often interacts with the subjects of its reports. For instance, Gitlin showed how the American student movement of the 1960s was influenced by its own publicity. The 'boomerang' effect, which generates change in the opposite direction than expected, is a well-known phenomenon in campaigns. The 'third-party' effect is the idea that one is likely to impact other people but not oneself. The phrase " sleeper effect " has also been used to describe effects that take a while to become apparent.

In their discussion of impacts dimensions, McLeod et al. make a distinction between effects that are content specific and effects that are diffuse or universal. In the latter case, a predisposed structure or tendency is seen as a potential transformational force.

### A Typology of Media Effects Processes

We will begin by bridging two of the previously stated distinctions: deliberate and unexpected consequences, as well as short- and long-term impacts, in order to provide an overview of current breakthroughs in theory and research. This method was put out by Golding to aid in differentiating between various news ideas and their effects. He contends that in the case of news, intentional short-term effects are referred to as "bias," while unintended short-term effects are referred to as "unwitting bias," intended long-term repercussions are referred to as "policy" , and unintended long-term effects of news are referred to as "ideology."

We may map out the major categories of media influence processes that have been researched in the research literature in terms of these two coordinates by adopting a similar way of thinking.

### Upcoming and Planned:

1. **Propaganda:** Propaganda is described by Jowett and O'Donnell as "the deliberate and systematic attempt to shape perceptions, alter cognitions, and direct behaviour to obtain a response that furthers the propagandist's desired intent." It's also feasible to use long-term propaganda.
2. **There are other potential responses:** As a consequence of being exposed to messages meant to modify their attitude, knowledge, or conduct, people either accept change or oppose it.
3. **The media campaign:** a situation when a multitude of media are used in coordination with one another to reach a particular audience with a compelling or informative message.
4. News exposure's short-term cognitive effects on learning are evaluated using assessments of audience understanding, recognition, and memory.
5. **Framing:** A media effect is the audience adopting the same interpretive frameworks and "spin" that are employed to contextualise news items and event descriptions. A similar activity is "priming," in which the media accentuates the standards for judging public events or people.
6. **Agenda-setting:** The method by which the public's awareness of problems and their assessment of significance is influenced by the relative prominence assigned to various topics or subjects in news coverage.

**Unplanned and Short-Term:**

One person's response: Individual media stimuli exposure results in undesired or unanticipated effects. Particularly in the context of aggressive or aberrant conduct, this has largely been seen as imitation and learning. Another word that has been used is "triggering." Similar consequences include intense emotional reactivity, sexual arousal, and responses to fear or anxiety.

**Collective Response:** Many people are exposed to some of the same effects in the same setting or situation at the same time, which might result in unrestrained and non-institutional collaborative activity. The three strongest emotions fear, anxiety, and rage can cause panic or civil upheaval because they are so strong.

Impacts of the policy the unintended effects of crisis, abuse, or danger news coverage on public policy and action. A such example is the alleged CNN influence on foreign policy.

**Planned and Long-Term:**

Spread of development the intentional use of communication for long-term advancement, campaigns, and other types of influence, especially within the social network and power structure of the community or society. News distribution is the pace at which a certain population learns about specific events over time, paying close attention to the degree of penetration and the sources used to get the information. The phrase "innovation diffusion" is used to describe how fresh ideas spread. the process through which a certain group of people adopts technology advancements, typically as a consequence of advertising or widespread public knowledge. It could have both planned and unforeseen effects.

**Information is dispersed:** the effect of media news and information on how quickly knowledge is transmitted throughout social groupings. The main emphasis is on narrowing or widening "knowledge gaps." A similar issue is the "digital divide."

**Unexpected and Long-Term:****Social Environment Management:**

Here, systematic inclinations that encourage adherence to a set sequence or behavioural pattern are mentioned. Depending on one's social philosophy, this may be seen as an intentional or unintentional extension of socialisation.

**Socialisation:** The unofficial contribution of the media to the understanding and acceptance of the norms, values, and expectations of conduct associated with social roles and circumstances. The result of the circumstance: referring to how the media works with institutional forces to cover and resolve significant "critical" events. instances of probable instances include revolutions, significant internal political upheavals, and war and peace challenges. Elections and other events may also have an impact. How meaning is created and what constitutes reality: effects on societal interpretations and public perceptions. This kind of influence requires the recipients to participate more or less actively in the process of constructing their own meaning.

**Institutional adjustments:** Current institutions' responses to media developments, especially those that affect their own communication capabilities. The multiple effects of spending time with media at the cost of other activities, such social interaction, should be considered. Shifts in the general pattern of beliefs, actions, and symbols that define a whole civilization, a group of societies, or a particular section of a society. Another example of effects is the potential strengthening or weakening of cultural identity.

**Participation in society:** The presence of integration may be seen on many levels, but particularly at the local and national levels, which correspond to the geographic regions where the media is distributed. Short-term consequences may also happen, for example, in the wake of a significant public emergency or tragedy.

### Conditions of Effect Mediators

The refinement of the stimulus-response paradigm included identifying the conditions that mediate effects. According to McGuire, the main categories of variables are source, content, channel, receivers, and destination. There are reasons to believe that authoritative and trustworthy sources, as well as sources that are alluring to or comparable to the recipient, will provide messages that are more persuasive. In terms of substance, effectiveness is correlated with repetition, consistency, and a dearth of alternatives. Additionally, it is more probable when the subject is well-defined and precise.

In general, things that are far away or less important to the receiver will have the intended impact more strongly. It has been discovered that style, appeal types, argument balance, and argument sequencing all play a part, but the findings are too different to draw any general conclusions. The channel aspects have been widely researched, with mixed findings, since content and receiver factors impact learning outcomes. It may be challenging to distinguish between underlying channel differences and variations in media in which channels are embedded. While tests of memory or comprehension suggest that written or spoken verbal messages take precedence over graphical visuals, generally speaking research has failed to clearly demonstrate the relative worth of different modes in any consistent manner.

As we've seen, there are several apparent receiver qualities that may have a big impact, but motivation, interest, and previous knowledge might need special consideration. The degree of motivation or participation has repeatedly been emphasised as being especially crucial to the influence process and to determining the sequence in which different sorts of effects take place. According to Ray, the typical 'effect hierarchy,' as shown, for instance, in the work of Hovland et al., is a process that progresses from cognitive learning through emotional response, to 'conative' impact. With some supporting data, Ray argues that this paradigm only naturally arises in circumstances involving high participation. The process may move from cognition to conduct immediately when there is minimal engagement, with emotional adjustment taking place afterwards to bring attitude and behaviour closer to one another.

The rationale and design of many persuasive communication campaigns, which assume attitude to be a direct correlation and predictor of conduct, are called into doubt by this idea. Additionally, assessments of campaigns that just include measurements of attitude change are not without suspicion. The three characteristics' consistency with one another is also a problem. According to Chaffee and Roser, high involvement is also seen as a necessary condition for effect consistency, and hence for a consistent and durable impact. Their preferred media impact model takes into account a recurring pattern of low engagement, dissonance perception, and learning, with cumulative effects. According to this perspective, information that is surface-level and prone to forgetting may transform into a well-considered plan of action when presented frequently.

In every natural media context, individual receivers will pick which stimulus to pay attention to or ignore, will interpret it differently, and will react or not respond behaviorally based on their decision. Because the parameters governing selectivity are inextricably tied to the characteristics of the stimulus, which either encourage or dissuade the development of an effect, this calls into question the validity of the conditioning paradigm.

As a consequence, we should shift our focus away from the straightforward truth of stimulus perception and towards the mediating factors mentioned above, especially in their wholeness and interaction with one another.

As a "phenomenistic" solution to the impact issue, which holds that "media are influences acting among other influences in a complete environment," it is often recommended and referred to as such.

### CONCLUSION

Empirical analysis of media impacts is included in the third component. The influence of media on people and society is studied using a variety of techniques, such as surveys, experiments, content analysis, and qualitative interviews. These studies investigate a wide range of topics, including intergroup interactions, political beliefs, violence, and issues related to body image and violence.

The results demonstrate both short- and long-term media impacts, as well as the moderating variables that affect the magnitude and direction of these effects. In summary, attitudes, behaviours, and perceptions of people are greatly influenced by the processes and consequences of the media.

Media has an effect on people and society via cognitive, emotional, and behavioural reactions to the content of the media, which are impacted by social and cultural variables. People and groups may successfully negotiate the complex web of media impacts and maximise the beneficial benefits of media while minimising hazards by researching theoretical viewpoints, undertaking empirical research, and encouraging media literacy.

## CHAPTER 11

### IMPACTS ON SOCIO-CULTURE

---

Ms. Anupama Gupta, Assistant Professor,  
Department of Soft Skills, Presidency University, Bangalore, India,  
Email Id-anupamagupta@presidencyuniversity.in  
Prof. Purandaran G, Regional College of Management, Bangalore,  
India

#### ABSTRACT:

The study of media's effects on socioculture in this abstract focuses on how media has a significant impact on the development of social norms, cultural practises, and group identities. It investigates the interactions between media platforms, content, and technology and how they influence sociocultural dynamics and the way societies change in the modern digital era. The media's influence on society values and beliefs is the subject of the first consideration. The transmission of ideas, moral principles, and cultural standards is greatly aided by the media, which functions as a potent socialisation agent. It impacts people's attitudes, affects how they see social situations, and helps establish societal ideals. Gender roles, cultural diversity, political beliefs, and social justice movements are just a few examples of the areas where the media has an impact.

The influence of media on cultural customs and practises is covered in more detail in the second element. Cultural practises may be preserved or changed through media platforms and content. They help spread cultural expressions, creative genres, and traditional knowledge. Media also makes it easier for people to interchange ideas and combine different cultures, which helps hybrid cultural identities to evolve. The media's ability to commodify and commercialise culture, nevertheless, may also give rise to issues with cultural appropriation and authenticity.

#### KEYWORDS:

Content, Media, Identifies, Television, Violence.

#### INTRODUCTION

The function of media in creating communal identities is examined in the third component. The use of media platforms gives people a place to express their identities. They provide a feeling of community by enabling marginalised groups to speak out, question prevailing narratives, and express their opinions.

However, the media may also serve to legitimise prejudices, maintain injustices, and contribute to the dispersion of identities. The development of online communities and subcultures, which have shaped new types of identity and sociocultural dynamics, has been made easier by the digital age [1], [2].

#### A Behavioural Effect Model

The theoretical developments contribute to moving beyond the straightforward conditioning model and explain some of the difficulties encountered in research. It goes without saying that in circumstances with unpredictable outcomes, some persons would react or respond to stimuli more readily than others, placing them "at risk." Comstock et al. developed an extension of the fundamental stimulus-response model using television watching as an

example in order to systematise the findings of research on this topic, especially with regard to violence. Its foundation is the idea that media exposure is fundamentally no different from any other experience, deed, or observation that could have an impact on learning or behavior [3], [4].

The process is represented by the model as a sequence of actions that follow the first "exposure" to a certain sort of television behaviour. This is the very first and crucial "input" that must be received in order to learn or duplicate the intended behaviour. Arousal and the amount to which alternative behaviours are displayed are two other crucial inputs. The likelihood that learning will take place increases with increasing arousal and decreasing the number of behaviours .

Two additional conditions relate to the portrayal of consequences and the level of reality: the likelihood that learning takes place increases as positive consequences appear to outweigh negative ones and as television behaviour appears to be more realistic.

When the conditions for effect are not satisfied , the person is returned to the start of the procedure; when there is a likelihood of effect , the issue of action is pertinent[5], [6].

The possibility of learning the action is influenced by all of the aforementioned variables, but any future conduct depends on the capacity to put the action into exercise. Arousal, which also refers to interest and attention, is the most crucial prerequisite after opportunity since it is necessary for learning. This concept is an enhancement over the straightforward conditioning model and is useful for focusing attention on the most important aspects of any given circumstance, even if research has not yet confirmed it[7], [8].

### **Crime, Violence, And The Media**

It has received a lot of attention that the media may promote, if not really be the root of, crime, violence, and aggressive, antisocial, and even illegal conduct. The main cause for worry is the persistently high level of crime and violent depiction in popular media of all kinds. A further factor is the widely held assumption which may or may not be true that the development of the aforementioned societal evils paralleled the development of mass media in the twentieth century[9], [10].

Every new widely used media has spurred fresh worries about possible negative effects. Recent studies have linked youth-committed random acts of violence, particularly among young people, to the Internet and popular music. In addition to the 'problem' that new media have created that is uncontrollable by society or parents, there has been a general change in media that has allowed for a fresh take on an age-old problem.

As a result of the increase in television channels, the relaxation of regulations, and the lowering of acceptable thresholds, it is now more probable than ever that children will be exposed to more televised violence.

Although there is disagreement about the exact extent of media effect, thousands of studies have been undertaken on the premise that violence on screens, especially, is a cause of real violence and hostility. However, a study project carried out for the US Surgeon General towards the end of the 1960s, according to Lowery and DeFleur, produced three main findings: Television shows often include violent content. More and more violent stuff is being shown to kids. Overall, the data is consistent with the idea that viewing violent entertainment increases aggressive behaviour. These results seem to be accurate more than thirty years later.

## Theory

The fundamental elements of violent impact theories have remained mostly constant. Three major theoretical frameworks are presented by Wartella et al. for understanding how individuals pick up and mimic media violence. One is the "social learning theory" of Albert Bandura, which contends that children learn through media representations which behaviour will be rewarded and which will be penalised.

**Second, there are "priming" effects:** individuals are more likely to use violence in interpersonal situations when they see violence because it activates or "primes" other relevant ideas and judgements. Third, Huesmann's script theory holds that social conduct is controlled by "scripts" that outline how to respond to events. Violence on television is codified in such a manner that it causes violence as a consequence of aggressive writing.

In addition to the impacts of modelling and learning, it is generally accepted that exposure to violent images results in a general "desensitisation" that lowers inhibitions against and raises tolerance for violent activity. As with all such ideas, there are several factors affecting a person's temperament, many of which have to do with how violence is portrayed. The primary contextual elements affecting audience responses have previously been established. Aside from your own attitude and content, it's also important to consider your viewing environment, especially if you're watching with family, friends, or others at home.

## Content

The Surgeon General's study's key conclusions, which were previously highlighted, have repeatedly been reaffirmed. Young people continue to be drawn to the violence that is often shown on television. The 1998 US National Television and Violence Study revealed that children's television had more violence than other forms of programming.

It is impossible to assess if global exposure has risen or decreased over time, but most regions of the globe now have access to violent video content and the means to watch it. In a worldwide study of television violence including 5000 youngsters in 23 countries, Groebel, writing for Unesco, noted on the universality of media violence and the ubiquitous affinity with violent media hero characters, especially among boys.

## Evidence of The Impact

Due to potential implications for business and regulations, the third finding relating to behavioural consequences is substantially less widely accepted and has always been controversial. It's challenging to make this point clearly, because every statement made by a large authority assumes a political connotation.

According to the American Psychological Association, "there is almost no doubt that people who are heavy viewers of this [television] violence display higher acceptance of violent attitudes and more aggressive behaviour." . However, this isn't a clear statement of causality because it leaves out the potential of other influences, including the environment.

According to Groebel, children from high-aggression environments and those in a "problematic emotional state" were far more likely than others to see and be drawn to aggressive violence.

Linne asked about the connection between media violence and social violence in a survey of European academic researchers on media and violence. For 22% of respondents, there was a "obvious causal link," for 33% there was a "vague causal link for some children," and for 4% there was "no causal link." The remainder of the group believed the issue was too

complicated to be resolved by such a simple fix. Linne found that research have generally moved away from the issue of causality and towards a comprehension of the inescapable allure of violence.

## DISCUSSION

Children's violent behaviour patterns and viewpoints, according to Groebel's study, "are a mirror of what they encounter in their real environment: frustration; hostility; challenging conditions". According to him, "media violence... is primarily presented in a rewarding context... [and] serves multiple demands." It "compensates" for flaws and deficiencies in critical areas and personal disappointments. It offers "kid-friendly thrills in a less dangerous environment."

In terms of "attractive role models" for guys, it offers a framework. The "reward qualities" of aggression are reinforced more systematically than non-aggressive coping mechanisms. These results confirm what has already been discovered in much earlier studies and are not brand-new. We are aware that viewing violent content on television may have harmful effects, but these effects are often mitigated by other variables that may or may not be the "real" or underlying cause.

Media representations of violence and hostility have been hypothesised to have some good effects by allowing for the virtual and safe discharge of emotion and animosity. The term "catharsis," which derives from Aristotle's idea of play, has been used to this process. There is no empirical evidence to support the idea that being exposed to violence has any advantages, even if it is evident that the bulk of the aggression evoked by media depictions is discharged vicariously without hurting others.

### Terminational Techniques

Other typical impacts of violent and "horror" material include stimulation of fear and emotional distress. Both adults and kids look for thrills and entertainment in scary material, yet some individuals have unintended and negative outcomes. The fear that the media instills may be strong and enduring. It's not always simple to identify what will make you uncomfortable. When determining the potential extent and damage from terrifying content, we must make a distinction between the types of material, the degree of realism, the reason for "exposure," and receiver qualities like age, personality, and emotional stability. Girls seem to be more susceptible than boys to fear brought on by the media. The exposure context may also have an impact on the results. According to Valkenburg 31% of children questioned in Holland said that television frightened them, although nearly often it was movies or adult programmes.

### The Media and Crime

Although the media is commonly suggested as a potential factor in actual crime, research has not shown such a connection. Most of the justifications for labelling the media as suspects are conjectural. Theoretical explanations include the possibility that the media glorifies crime, highlights its advantages, and teaches strategies. However, the dominant narrative in the media has always been that crime does not pay and that criminals are unpleasant people. There are concerns about how real or misleading representations of crime in the media affect conduct, but there is little doubt that they have an impact on how the public views crime and the likelihood of being a victim.

The 1999 Columbine School massacre and a similar occurrence in Erfurt, Germany in 2002 both emphasised the potential connection between media depiction and real violence. These

cases of homicides that seemed to have no apparent cause and in which a relationship between the murderers and certain media could be shown. A number of legal proceedings have been brought in the United States asserting that media stimulation causes violence, but none of them have been successful. Negligence, which is established by whether the media took excessive risks, was the primary factor in determining guilt. It is difficult to build a case against the media without generating widespread repression and censorship since such purported impact occurrences are so uncommon.

A similar issue arises when discussing the effects of sexually explicit material. Data analysis conducted by Perse indicates that pornographic content desensitises individuals who are exposed to it and promotes women to tolerate violence against them: "exposure to pornography appears to be related with detrimental repercussions". In spite of this, the issue has not been fixed. In his analysis of the findings of three public commissions, Einseidel came to the conclusion that the issue had not been resolved by social scientific research. The assessment of the facts must take political and ideological considerations into account.

Legal theory, which often employs a direct model of consequences, may differ from content and media theory, which has challenged this paradigm. Violence committed at the media's behest against particular minorities, outgroups, or hate figures falls under a type of media impact not discussed in the discussion that came before it. The media may purposefully disparage identifiable people or groups in such a manner that there is a genuine danger of violence via individual or group action, even if it is unlawful for them to openly promote violence.

A credible relationship to hate campaigns in certain media has been made between acts of violence against groups including child sex offenders, other sexual offenders, different ethnic minorities, conscientious objectors, supposed terrorists, gypsies, migrants, and others. There may be other elements involved, but there is little doubt that the media contributed to some of the many examples that have been made public. The problem of media incitement of civil or national conflicts is another. There are reasons to believe that the media contributed to the escalation of ethnic conflict in Yugoslavia in the early 1990s.

### Young People and Children in the Media

The general and research literature on the impact of media on children is replete with expectations and worries, in addition to the subject of violence and crime. Numerous studies have examined how children use and respond to media, especially television, from the beginning to the present. Among the theories presented and tested about adverse impacts are the following expectations from the media: Parental authority is being undermined; understanding and experience of sexual activity at a young age; obesity and improper eating; a rise in passivity; a decrease in leisure and exercise time; a displacement of reading time; a rise in social isolation; a reduction in assignment time and attentiveness; A growing self-consciousness about one's appearance is the root cause of anorexia. depression susceptibility

Some of the beneficial effects ascribed to media include the ones listed below: laying the groundwork for social participation, learning about the world in general, developing prosocial attitudes and behaviours, achieving educational goals, assisting with identity building, and enhancing one's creativity. Several of the following hypotheses are plausible and some have been investigated, according to social learning theory. There can be no generalisation, and none of these can be regarded as fully established nor entirely disproven. According to research experience, there are several more factors that each of these 'effects' contribute to. Despite this, experts seem to agree that limiting children's exposure to television generally

benefits them. However, Seiter found that adult opinions of the dangers of television vary by socioeconomic class, gender, and other factors.

### Effects of Collective Reaction

The logic of the stimulus-response paradigm may be applied to the collective reaction to mass media even while additional factors are present. The main focus of the new components is on how responses spread to others, which often occurs quickly and amplifies total effects significantly. Self-generating and self-fulfilling processes are common in work. The word "contagion" has been used under certain circumstances, especially when physical crowds assemble, but it has also been employed when people are scattered and reached via mass media and interpersonal encounters. One important sort of consequence in reaction to scary, inadequate, or incorrect information is widespread panic. An example of this is the often quoted panic response to Orson Welles' radio broadcast of *The War of the Worlds* in 1938, when false news reports claimed a Martian invasion. The purported involvement of the media in igniting civil upheaval in many US cities in the late 1960s served as more evidence.

Personal connections and distrust of official explanations of the catastrophe as shown in the media were thought to help the community's reaction to the terrorist explosion in Madrid in 2004, which happened soon before a general election. The media's function in each of these instances is a bit ambiguous. Even while industrial catastrophes like power outages and nuclear accidents as well as natural disasters like earthquakes provide a wealth of potential stimuli, the likelihood of unforeseen terrorist strikes has enhanced the relevance of such events. There is no doubting that some circumstances may lead to a panicked response to news. We're discussing a special kind of rumour, one where there is a critical need for knowledge and a finite supply.

The media provides the feature of delivering the same news to many people at once, which may either increase or decrease anxiety. A panic attack may occur as a result of anxiety, concern, or uncertainty. Additionally, it seems that partial or inaccurate information is a panic-inducing factor that prompts a hasty search for information, often via personal channels, giving the original message greater validity. Many terrorist attacks are planned, threatened, or carried out for political reasons by those who intentionally or unintentionally try to use the media for their own purposes. The connection between the two is hence intricate. By causing fear and worry in the public, terrorists want to draw attention to their cause. Another possibility is that there is blackmail going on. Schmid and de Graaf assert that violence serves as both a means of accessing media platforms and a message unto itself.

The media is conflicted between two strong pressures: the first is to report spectacular events according to traditional news standards, and the second is to refrain from acting as a weapon of mass destruction and a hindrance to counterterrorism operations. Despite substantial research, the widely held belief that the media actively encourages the spread of terrorism has not been definitively proven. The influence of the media might be quite diverse. Studies of the response to the 9/11 terror attacks in New York demonstrate that there was no widespread public fear despite the level of shock and grief and the utter absence of preparation for such events. We may presume that widespread media attention, well beyond the local location, contributed to the situation's de-escalation. The 1995 Great Hanshin Earthquake taught us numerous things about the value of the media during emergencies and the repercussions of media failure.

Another example of potential contagion effects is the succession of aeroplane hijacking operations in 1971–1972, which showed obvious signs of being inspired by news coverage. Similar correlational data that seems to support the impact of media coverage was uncovered

by Holden. The idea that news items can 'spark' deviant conduct in people has been supported by more scientific data. According to Phillips, the number of suicides, car accidents, and fatalities on commercial and private planes all rose following newspaper coverage of suicides or murder-suicides.

In addition, he was able to statistically correlate the prevalence of suicide in television fiction with that in real life, although his results have been disputed because of methodological problems. There is, at the very least, some data that points to a contagious or imitation effect. Since *The Sorrows of Young Werther* by Goethe was published in 1774, there have been many instances of suicides that were prompted by fiction and news. Jamieson et al. assess the results and provide suggestions for how reporting could be handled to lessen risks to those who are more susceptible.

### **Human Disorder**

Due to the potential challenge to the status quo, non-institutionalized and violent collective activity has been closely scrutinised, and the media has been involved in the hunt for explanations of such behaviour. It has been suggested that the media might, among other things, incite riots, encourage rioting as a culture, instruct individuals on how to riot, and spread riots from one place to another.

Even while it seems like everyone agrees that in any riot scenario, human contact plays a bigger part than the media, the data supporting or refuting these claims is patchy at best. Even yet, there is some evidence that the media may assist by simply reporting the occurrence and location of a riot, publicising circumstances that lead to riot behaviour, or announcing the potential for rioting in advance. In general, it seems that the media may shape how events turn out, and even if they are ultimately "on the side" of the status quo, they can unwittingly intensify division. While it hasn't been shown that the media is a major or primary contributor to rioting, they may have an influence on the time and kind of rioting. Spilerman provides some support for this and other hypotheses on the basis of very weak data. He conducted a lot of study, but he was unable to provide a solid structural explanation for many US urban riots.

He came to the conclusion that television, namely network news, was mostly to blame, especially for fostering a feeling of "black solidarity that would transcend the bounds of community." Mobilisation for collective action now seems to be more likely to be conducted through mobile phone or the internet rather than as an unintentional effect of mass media. Examples include the Madrid case and the coordinated protests against international economic conferences that started in Seattle in 1998. When addressing panic and rioting together, it's important to note that the most common solution to the risks previously discussed, the restriction or suppression of news, might increase local dread since an explanation for obvious neighbourhood disturbances would be lacking.

### **Diffusion of Innovation and Development**

The bulk of the information comes from a number of initiatives made in developing countries after World War II to employ mass media to promote technological development, good health, and education, typically adopting models created in rural America. Early theories on media and development portrayed the media's effect as 'modernizing' by just spreading western ideas and preferences. The conventional view of media influence has been as a mass educator working in partnership with authorities, experts, and local leaders to accomplish certain change objectives.

An important player in this school was Everett Rogers, who developed a four-stage model of information diffusion: information, persuasion, choice or adoption, and confirmation. This progression resembles the persuasive stages described by McGuire. However, the media's role in the adoption process is only relevant during the first phase, after which it is replaced by interpersonal connections, formalised information and advice, and actual experience. Early diffusionists placed a strong focus on planning and organisation, linearity of influence, hierarchy, social structure, reinforcement, and feedback. Rogers foresaw the "passing" of this "dominant paradigm," pointing out its shortcomings in terms of these related characteristics as well as its excessive dependence on "manipulation" from above.

An alternative "convergence model" of communication was put out by Rogers and Kincaid, focusing on the need of a continual process of interpretation and response, leading to better mutual understanding between sender and receiver. Critical thinking in the 1970s connected efforts at external growth with the maintenance of dependency. The success of mass media is dependent on its capacity to maintain ties to the society's core and its original culture, according to more recent theories of development. Participatory communication is gaining popularity and has been advocated. It's important to note that before it can take part in diffusion processes like those observed in contemporary or developed civilizations, mass communication must first become a novelty in and of itself. For media to be successful, other modernity needs may be needed, including individuation, faith in bureaucracy and technology, and understanding of the sources of media authority, legitimacy, and objectivity.

While donor nations continue to support communication initiatives and the construction of mass media infrastructure with development money, there is now a much reduced expectation for large-scale development results.

The drawbacks of information-technology solutions are well understood, as is the uneven distribution of any potential advantages. There is also more focus on the need of enhancing public communication for the general public and communication freedom as a human right as a prerequisite for success.

## CONCLUSION

Media has a large and varied effect on socioculture overall. It affects cultural practises, determines social ideals, and helps to forge group identities. To assess media material critically, promote media literacy, and create inclusive and varied sociocultural contexts, it is crucial to comprehend these effects. As a result of influencing social values, altering cultural norms, and assisting in the emergence of group identities, the media is crucial in developing socioculture. The effects of media also include the promotion of values and ideas as well as identity development, cultural interchange, and cultural preservation. It is possible for people and societies to interact with media material in a critical and educated way by being aware of the nuances of the media's impact on socioculture. This promotes a more diverse and dynamic global culture.

## CHAPTER 12

### DEVELOPMENT AND MASS MEDIA

---

Dr. Shibilynuaman Zainudheen, Assistant Professor,  
Department of English, Presidency University, Bangalore, India,  
Email Id-shibilynuaman@presidencyuniversity.in  
Prof. K N Swamy, Regional College of Management,  
Bangalore, India

#### ABSTRACT:

This abstract investigates the connection between mass media and development, emphasizing the essential part the media has in influencing and determining society development. It examines the difficulties and moral issues related to the use of mass media, as well as how it might help to the growth of the economy, society, culture, and politics.

The first part focuses on how the media affects economic growth. The distribution of information, market trends, and investment possibilities may be facilitated by mass media, including print, broadcast, and internet channels. It may support the expansion of businesses, entrepreneurship, and information and idea sharing. Additionally, media platforms provide outlets for marketing and advertising, which may boost economic activity and help to generate cash.

The second topic explores how the media has affected societal advancement. Social communication is facilitated by mass media, which also connects people and communities and offers a stage for debate. It may advocate for human rights, advance social justice, and increase public understanding of social concerns. By reaching a variety of audiences and overcoming information gaps, the media also plays a significant role in education and knowledge diffusion. The development of inclusive societies is also aided by media representation and diversity in media content.

#### KEYWORDS:

Content, Knowledge, Media, Political, Television.

#### INTRODUCTION

The cultural component of emerging mass media. Local languages, customs, and cultural legacy may all be preserved and promoted via the media. Additionally, it may help in cross-cultural communication, cultural preservation, and cultural exchange. Concerns about cultural imperialism, cultural homogeneity, and the deterioration of traditional values and practises are raised by the impact of mass media on culture[1], [2].

#### The media has an impact on development by:

Technical knowledge is spread, and mobility and individual transformation are fostered. Elections, rising consumer demand, and assistance with population control are just a few of the ways that democracies are advancing[3], [4].

#### Distribution of Knowledge in Society

Here, we examine one of the media's most often predicted and important effects: their capacity to educate and maintain the informed mass of a big population in a manner that is compatible with the demands of a modern economy and a participatory democratic process.

While the average and minimum levels of 'knowledge' in a society are significantly raised by mass media, as is the rate at which information is disseminated, there is much discussion about the persistence of inequality and the varying abilities of different media to produce these effects[5], [6].

The problem has gained new life and urgency with the advent of the Internet, which has enormous informatics potential but a diverse distribution and real usage. As a consequence, the phrase "knowledge gap" has been replaced with the new term "digital divide". Long anticipated to have contributed to the bridging of knowledge gaps brought on by socioeconomic and educational inequality, the press and broadcasting have significantly boosted the flow of public information. According to political campaign research, this 'knowledge gap-closing' across social groups may occur swiftly[7], [8]. However, evidence of the reverse effect has also been discovered, showing that a small attentive minority gains for more information than the rest, widening the gap between certain population groups.

According to Tichenor et al., the "knowledge gap hypothesis" "does not hold that lower status population segments remain wholly unaware". Instead, it is thought that those in better socioeconomic positions experience knowledge development that is disproportionately bigger. There is unquestionably a class bias in attention to 'information-rich' sources, with strong correlations between social class, attention to these sources, and the capacity to respond to information queries on political, social, and economic concerns[9], [10].

The knowledge gap hypothesis is made up of two main parts: one deals with how information is distributed across socioeconomic groups in society generally, and the other is focused on particular topics or themes that some individuals are more educated about than others. The first "gap" is probably caused by basic socioeconomic inequalities that the media alone cannot address. Regarding the second, there are many methods to widen and narrow gaps, and it is probable that the media will do both. The media effect's trajectory is influenced by a number of factors. In order to improve attention and learning, Donohue et al. stressed the role of media in bridging gaps on issues that are of wide concern to small communities, especially during times of conflict.

Information seeking and learning are often driven by motivation and perceived usefulness, and these elements are more impacted by social environment than by media. However, it has been said that various media may have varying effects and that print media, as opposed to television, are more likely to widen inequities. This is because these media are the favoured sources for the privileged classes. Based on the fact that television covers a broader portion of a society with comparable news and information and is generally seen as reputable, the theory that it may have the reverse effect is supported. But a lot depends on the institutional structures a society employs. Public broadcasting networks in Western Europe and, to a lesser degree, the national network system in the United States, previously provided a common and consistent source of shared knowledge on domestic and international issues. As a consequence of current trends towards channel diversification, heightened competition, and audience fragmentation, this enormous audience for information is diminishing.

Similar to print media, television is becoming into a more unique information source. However, it lacks the advantages of captive mass audiences. Robinson and Levy's study on news learning from television does not provide much hope for television's capacity to fill knowledge gaps, even in the days before mainstream viewership. The influence of the media on narrowing or closing gaps is uncertain, although gaps still exist, according to Gaziano, who analysed 39 research on the knowledge gap hypothesis.

The divide between those with access to information and those without it is expanding as a result of the unequal adoption of new computer-based information technologies. The knowledge gap hypothesis predicts that as a consequence, as individuals with better informational abilities and resources move even farther ahead of those with less information, the disparities will widen. The idea of a "knowledge gap" may or may not still be true. It makes the basic assumptions that we all need to have in order to operate in society. In light of the quantity and specialisation of information, this assumption loses credibility but may still be important to the democratic political process of choosing leaders.

### **Social Learning Theory**

Especially with regard to children and young adults, Bandura's social learning hypothesis is a frequently used theory of media impacts. The fundamental tenet of the theory is that we cannot acquire what we need to control our own growth and conduct by direct personal observation and experience. We have to learn a lot from unreliable sources, like the media. According to Bandura's approach, the four crucial stages of social learning are attention, retention, production, and motivation. We concentrate on media information that may be relevant to our daily life, particular requirements, and interests. The information we have gained may then stick in our minds and be added to our body of prior knowledge. The third step, known as production, is the actual application of the behavioural lessons learnt. This action may be rewarded or penalised, with the resultant increase or reduction in desire to choose a certain course of action.

## **DISCUSSION**

The theory is applicable to both the adoption of different action models and the socialising effects of media. Only a few examples include personal consumption, interaction patterns, eating and drinking habits, and clothing, appearance, and style. Long-term patterns are also viable. According to Bandura, the concept only applies to conduct that is explicitly expressed in symbolic form. The theory also makes the assumption that learners are capable of self-reflection and active involvement. It differs from imitation or mimicry. Media is seldom the only source of social learning, and other influences like parents, friends, and instructors all have an impact. There are enormous collective impacts on social learning. However, social learning theory asserts that media may have direct effects on individuals and that these effects need not be filtered via social networks or personal relationships.

### **Socialization**

It is commonly believed that the media has a role in the early socialisation of children and the long-term socialisation of individuals, despite the fact that the nature of the situation makes this impossible to prove. This is partly because it takes so much time, and partially because any media impact interacts with other social background factors and various family socialisation methods. Prima facie evidence of media-mediated socialisation has sometimes been found in sporadic longitudinal studies of development. However, certain fundamental presumptions about the possible socialisation effects of media are regularly included into media control policies, media choices, and the standards and expectations that parents apply or hold for their children's media usage. The media may assist and reinforce other socialisation agencies, according to the media socialisation thesis, but they can also pose a threat to the standards established by parents, schools, and other social control agents.

The underlying assumption of the thesis is that by symbolically rewarding and punishing particular behaviours as they are portrayed in the media, norms and values may be taught. Another point of view is that it is a process of education wherein we all learn how to act in

certain situations and the expectations that go along with a given position or social status. Because of this, the media often prioritises patterns of conduct and representations of life above genuine experiences.

Children have a tendency to look for life lessons and relate them to their own experiences, according to early studies of children's media usage . Content studies have also drawn attention to the systematic presentation of social life representations, which may have a significant influence on children's expectations and ambitions. Socialisation theory often emphasises the conformist function of media. This viewpoint contends that the media is neither "prosocial" nor "antisocial," but rather supports the ideals that are already widely accepted and established. Even though there is only sporadic direct support for the idea that media has a socialising influence, it is universally accepted.

### Formation of Consciousness and Social Control

There are many different theoretical perspectives on the extent and intent of the mass media as a social control agency. According to a widely held theory, the media unintentionally supports the prevailing ideologies in a community or country due to a mix of institutional and individual decisions, operational limitations, outside pressure, and foreseeing the expectations and wishes of a varied and large audience. A stronger and more critical version of this perspective views the media as essentially conservative due to a mix of market considerations and deference to national and governmental goals. Similar data supports these opposing theories, most of which speak to systematic content patterns and very little to impacts directly. Herman and Chomsky developed a hybrid critical theory of systematic long-term influence in the form of a "propaganda model." According to this, news in capitalist nations must pass through a variety of "filters," such as reliance on official sources of information, advertising, the financial integration of the media with the rest of the economy, and news management efforts. Numerous circumstantial indications of the operation of the last-named filter have been found in other research, including Reese et al., Manheim , and Herman and Chomsky .

The weakness of the Herman and Chomsky positions is that they give so little consideration to later research and evidence. Manufacturing Consent is the title of Herman and Chomsky's book, which is based on Walter Lippmann's assertion that "the manufacturing of consent is capable of vast refinements... and the prospects for manipulation open to anyone who understands the process are apparent enough." In the development of beliefs about the power of the media, Lippmann's theories embody what was previously referred to as the first phase.

The most widely consumed media tends to generally reinforce accepted social norms and behaviours . The national state or its well established institutions face few fundamental threats in the mainstream media. Thus, evidence of both what is present and what is absent in media content serves as the foundation for the claim that mass media tend to promote the status quo. In the former, "conformist" or patriotic action is praised, established elites and points of view are given considerable attention and preferential access, while non-institutional or deviant behaviour is regarded unfavourably or unfairly.

One of the conclusions of "cultivation" research shows a correlation between television dependence and the acceptance of consensus or moderate political views. The mass media is frequently portrayed as encouraging national or communal agreement and as tending to portray problems as solvable within society's and culture's established "rules." In a similar spirit, the media regularly paints certain behavioural patterns and social groupings as both abnormal and dangerous. These include juvenile gangs, drug addicts, "football hooligans," and certain sexual misfits, in addition to the blatantly criminal. The media has been accused

of inciting "moral panics" and misrepresenting the genuine danger and importance of these organisations and their actions. People who depend on government assistance may be referred to as "welfare scroungers", and the same is true of immigrants, refugees, and travellers, as well as the poor. The tactic is referred to as "blaming the victim," and it is a typical component of the development of public opinion to which the media may make a substantial contribution. The result is to provide scapegoats and targets for societal rage, to deflect attention from real problems having root causes in societal structures, and to build support for law enforcement.

It may be challenging to find evidence of media omission, but comparative content analyses of news from many nations have contributed to the body of data showing systematic neglect of some topics and regions of the globe. The Glasgow Media Group carried out in-depth analyses of news content and identified a number of significant patterns of omission. When evaluating the often eloquent and powerful theoretical arguments for the ideological impacts of the media, we should bear in mind the equally reasonable theories of the limited potential for media influence. Particularly relevant is the evidence of audience preference and "differential decoding". Although they originate from the same critical school, the teachings of "reception" study give a counterpoint since the bulk of theories about ideological or hegemonic impacts are focused on media and content observation rather than audience or "effects."

The degree to which the effects suggested by this body of theory and research really take place is difficult to gauge. The media are, however, mostly owned and controlled by commercial interests or by the government, and as a result by the interests with the greatest amount of political and economic clout. Having such media ownership is prized for reasons other than immediate financial benefit, notably for political and social power and prestige, according to a substantial amount of prima facie evidence.

The outcomes aren't always favourable or in favour of the status quo. Undoubtedly, Gans' assessment that "news is not so much conservative or liberal as it is reformist" is still accurate today. According to their own self-described role and philosophy, the media are dedicated to acting as a conduit for messages that may also serve as a catalyst for change. They most likely generate a lot of activity, agitation, and stress within the constraints of systems with some capability for creating change, upsetting the established order.

### **Cultivation**

The long-term media influence theories have perhaps been studied and documented the most by Gerbner; see Signorielli and Morgan. It asserts that among contemporary media, television has become so pervasive in everyday life that it now controls our "symbolic environment," substituting personal experience and other methods of learning about the outside world for its message about reality.

Television is sometimes referred to as the "culture arm of the established industrial order," "serving mostly to maintain, sustain, and reinforce customary beliefs and behaviours rather than to alter, disrupt, or undermine them".

This claim brings the cultivation effect very close to what the Frankfurt School critical thinkers and subsequent Marxist theory argued. Cultivation analysis, according to Signorielli and Morgan, is the third element of the "Cultural Indicators" research paradigm, which also examines audience beliefs and behaviours in relation to exposure to television's message and institutional processes underlying media content production.

**Test the theory's validity:**

It is predicted that those who watch more television would have perceptions of reality that veer more away from the accepted representation of the social world and more in the direction of the "television" representation of the world. The study of violence and crime has long been a major subject of research, with cultivation studies concentrating on how it is portrayed in the media, how common it is, and the numerous hazards it poses, on the one hand, and how the general public perceives crime and their attitudes towards it, on the other. Early results from the cultivation research showed that individuals were more inclined to exaggerate the likelihood of crime in the actual world and the personal dangers they faced the more television they watched.

This link seems to still be present, at least in the United States. Investigated topics in politics and society include the influence of the media on political consensus. In a thorough examination of several research on how television constructs reality, Hawkins and Pingree found numerous sporadic indications of the anticipated relationships, but no unambiguous evidence pointing in the direction of the association between watching television and ideas about social reality. They contend that television may impart knowledge about social reality and that viewing and social reality may be mutually reinforcing: watching television shapes social reality in a certain manner, but this social reality formation may also influence viewing behaviour. In a recent thorough assessment of the research on culture, Morgan and Shanahan draw the conclusion that while cultivation effects do occur, they are often insignificant.

As productivity and supply increase, the television experience is likely to be more varied and non-cumulative than the theory predicts. For instance, a study on the cultivation effects of television on marriage expectations found that watching genre-specific 'romantic' material, but not general TV viewing, was associated with irrational expectations. In contrast to earlier sources, Sotirovic found that viewers of cable TV news and entertainment programmes had unfavourable perceptions of welfare recipients. Rossler and Brosius found that some talk show topics had minor cultivation effects in Germany, but not from all television or the genre as a whole. Active audience theory further refutes the idea that strong "message systems" have a long-term cumulative impact. The supposed causal link between television watching statistics and survey data on values and attitudes has been contested by a number of academics. The 'cultivation' effect seems to be more common in the United States, where television content is more commercial and less diversified.

Despite the extensive research, there is still conflicting information from various countries. Wober found little evidence in British data to support the idea of a violent society, and Doob and McDonald found the same thing in Canadian data. Rosengren and Windahl provide a variety of data about long-term changes in young people's television viewing habits that might be used to support the cultivation hypothesis, but according to Hedinsson, evidence amounted to "if not a direct support, at least a non-refutation of Gerbner's theory."

One example is the way in which people's "mental maps" of the world change significantly based on how much television they watch. Outside of North America, there isn't much in the globe for high-viewing teenage guys. No matter how plausible the theory, it is practically hard to cope with the complexity of purported relationships between symbolic structures, audience conduct, and audience attitudes due to the multiple intervening factors. It's also difficult to tell any "cultivation" process apart from customary socialisation. Despite this, it seems that the field of study covered by cultural indicators and cultivation research has not yet reached its full potential and may yet support further specialist and in-depth research on certain topics.

## The Media and Long-Term Social and Cultural Change

In one way or another, the theories of mass communication put forward a variety of significant social and cultural ramifications. However, any such impacts are probably going to be minor, persistent, and difficult to measure. There are several more alternatives, some of which are conflicting. For instance, mass communication has been connected to society fragmentation, individuation, variety, and even personal isolation. Putnam ties the decline in 'social capital' as well as a decline in civic and social involvement in America to television consumption. This position has some evidence.

Other theories have credited the media for sometimes harmful levels of social cohesion and uniformity. The media has received praise for more widely distributing both traditional and modern culture as well as criticism for lowering cultural standards. There isn't much concrete evidence to support the sweeping claims made about the effects of mass media on culture and society, despite the validity of these and other theories in this area. The process by which the media contribute to social and cultural change is largely dependent on their capacity to explain situations, provide frames of reference, and disseminate representations of social groups. They also act as a nation's "collective memory" in the absence of major historical information.

The media do not originate any of these, but they do include them into narratives that are more or less consistent and recurrent, which act as secondary sources for people's ideas of their own society and their position within it. By keeping up with every new trend, concern, or notable piece of information that may be included in a bigger tale, whether in news or fiction, the media, which has an insatiable need for both novelty and continuity, contributes to change. For the vast majority of people, the media effectively serves as the gatekeepers of change, particularly when they seem to share the same selection of information and viewpoints.

In answering these and other questions, a lot relies on the assessor's viewpoint and early presumptions on the topic at hand. Additionally, it's critical to keep in mind the ongoing dialogue between the media and society. The media, whether as technology or as cultural content, does not just have a one-way causal connection with cultural and social development. Depending on the circumstances, the results of these interactions might vary greatly, are unexpected, and have varied effects.

Without a doubt, the media have changed the way information and ideas are spread, they have taken time and attention away from other activities, and they have become a way to reach more people with more information than was previously possible.

Any social body seeking public attention and connecting with the broader public must consider the implications of these results. Other institutions are under pressure to use media channels themselves, adapt in some manner to the media, or react in some other way to the media. They will probably change their own practises as a consequence.

It's more probable that the media will have an indirect impact. They try to change what the public expects, what resources are available, and most significantly, how other social groups operate. For their public communication, they have grown more and more dependent on the media, and communication has changed to reflect this so-called "media logic" , which has a significant impact on how they behave. All social institutions exist now as media institutions, according to Altheide and Snow. Political institutions are the focus of Chapter 19's analysis, although cultural and social institutions might also derive analogous conclusions.

## Effects of Amusement

Entertainment is undoubtedly the most popular category of media content and is the main driver of media's appeal. Zillmann and Bryant remind us that, in addition to the many unintentional negative impacts that have been extensively investigated, entertainment also has effects on its own, purposeful effects, which are effects in and of themselves. Although distraction and being swept up in a tale or spectacle seem to be the fundamental concepts, entertainment has been difficult to define. It may also be seen in terms of more specific sorts of effects, such as being amused, having one's emotions stimulated, resulting in emotions like joy, pleasure, relief, fury, excitement, terror, and so on, or having one's anxieties diverted, among others. Particularly, music has been connected to a number of impacts, such as arousal, emotions, and dispositions.

According to Zillmann, the pleasure and anger caused by the changing fortunes of accurately or inaccurately represented persons is the basis of drama's attraction. Zillmann and Bryant raise more questions regarding the allure of suspense than they can address, especially the seeming allure of news accounts of awful occurrences, which tend to enthrall even when there is little reason to dislike the main victims, unlike in many fictions. The research tradition of "uses and gratifications" sought for by viewers, as well as some significant results, but there is still a lack of unified conceptualization in this understudied field of media impacts. The word "escapism" falls short of describing the effects of entertainment, and the many theories of enjoyment put out are not well suited to being precisely formulated and put to the test.

## CONCLUSION

The role of the media in politics and development. The promotion of political engagement, democratic procedures, and accountability depends heavily on the mass media. It acts as a watchdog, keeping an eye on government, and exposing corruption. The democratic operation of societies is jeopardised by the concentration of media ownership, censorship, and political media manipulation. Policymakers, media professionals, and scholars must comprehend how mass media and development interact. It enables the investigation of methods to maximise the beneficial effects of mass media on development while resolving the related difficulties. Media independence, media literacy, and responsible journalism are only a few ethical factors that help to ensure the positive involvement of mass media in development processes. In conclusion, mass media has a variety of effects on development, impacting political participation, social advancement, economic growth, and cultural preservation. Harnessing the power of mass media to advance inclusive, sustainable, and democratic communities requires an understanding of its potential as a vehicle for good development while tackling its difficulties and ethical issues.

## CHAPTER 13

### PUBLIC OPINION, POLITICAL COMMUNICATION AND THE NEWS

Ms. Mini Pushkar, Assistant Professor,

Prof. Vandana, Regional College of Management, Bangalore, India

#### ABSTRACT:

This abstract examines the connection between news media, political communication, and public opinion. It highlights how important the news media is in influencing democratic processes, fostering political conversation, and forming public opinion. The abstract emphasizes the dynamic relationship between the media, political figures, and the general public as well as the ramifications for informed civic participation and democratic governance. The first consideration focuses on how the news media affects public opinion. The public's main source of knowledge on political concerns, regulations, and occurrences is the news media. The media assists people in forming ideas, forming political attitudes, and making informed judgements via news reporting, analysis, and commentary. The media's ability to create agendas affects the topics that are brought to the public's notice and how they are framed, which shapes public opinion and affects political results. This explores how political communication affects public opinion. Different communication tactics are used by political players, such as politicians, political parties, and interest groups, to sway public opinion. This includes developing persuading messaging, participating in open campaigns, and using media outlets to forward their political goals. In the process of political communication, the media functions as a crucial middleman, distributing these signals to the populace and influencing how they are received and interpreted.

#### KEYWORDS:

Communication, Knowledge, News, Public, Political.

#### INTRODUCTION

Media organisations respond to public needs and interests while also influencing public opinion via their editorial, framing, and news selection choices. Public opinion and media involvement are crucial in influencing media coverage and the political conversation as a whole. This chapter addresses yet another set of possible media effects, namely those connected to news and other kinds of informative media, as well as political communication in general. Concerned are the 'consequences' for public 'knowledge,' 'beliefs,' and attitudes, especially those that are short- or medium-term in nature. The line between intentional and accidental strikes might be difficult to draw [1], [2].

Inadvertent communication may have systematic and predictable effects whereas intentional communication might have unforeseen consequences. Furthermore, it has become commonplace to observe that purposeful communicators in the news, public opinion, and politics usually attempt to conceal their advocacy inside the "news" or just strive to attract attention and free exposure [3], [4]. The two sectors of mass communication where conventional media confront the greatest competition and danger from new online media, notably the Internet, are news and political communication. More news sources and news

genres are available on the Internet than on any newspaper or television station, and users may choose the news they want to read or watch based on their own interests. It also provides the opportunity for communication with and response to news sources. Additionally, there are limitations and obstacles that prevent the audience from using the increased potential, which limits the impact[5], [6].

News often doesn't have instructional goals, but instead offers a service where a range of information is Learning from news that audience members may choose from according to their interests. In terms of attention voluntariness, the frequent absence of specific motivation, and the high degree of inattention that follows broadcast news usage non-specific, the conditions of mass media news consumption are often noticeably different from other informational contexts. Content in the news is typically ephemeral and accidental. However, the main objective is to inform, and news material is often assessed using a set of criteria for information value[7], [8]. Additionally, people do gain knowledge from the news, increasing their level of knowledge. Whether or whether news is delivered to a group of people who pay attention, understand it, and can remember or identify some of it after the event has happened determines how much of an effect it will have[8], [9].

Like other sorts of impacts, comprehension and recall are impacted by the message, the sender, the audience, and other factors. There are several degrees to which news broadcasts may be relevant, attention-getting, interesting, and understandable. Depending on their audience's degree of trust and reliability, news sources are likely to vary. On the audience side, general interest in news, previous familiarity with the topics, and general educational level are perhaps the most crucial factors. It's clear that a lot of information is "received" with little active "processing" and without much thinking.

Studies on how to learn from published news are few and far between. The results so far have tended to support those of decades of fundamental communication research. As a result, in addition to having a good educational foundation, news items that are interesting, relevant, and tangible help with understanding. However, previous knowledge and the practise of talking about news with others are also crucial. Although the public commonly cites television as the main news source, Robinson and Levy discovered that it is underestimated as a source of public-policy information.

Additionally, they found that a number of common news production and presentation techniques often hindered listeners' capacity to understand the news. Graber, on the other hand, indicates that visual cues do help viewers remember television news content. According to a recent survey, the average student learns relatively little and retains just a small portion of what they have studied. Findahl claims that under normal circumstances, people only recall around 5% of the news. Even yet, the choice and organisation of the already-present information impacts what is acquired.

### **For News and News Processing Schemata**

According to news content analysis, a lot of news is provided inside meaning frameworks that result from the manner in which news is acquired and processed. It seems sense to believe that audiences receive incoming news using some of the same 'frames' since news is 'framed' topically and thematically to make it simpler to understand. Graber used this line of reasoning while analysing news. The previously described interpretive frameworks or schemata are collaboratively developed and widely used manuals for cognition, selection, and relevance.

According to Graber, a schema is a "cognitive framework made up of organised knowledge about situations and people that has been abstracted from prior experiences." It is used to process new data and retrieve data that has already been saved. Schemata help in evaluating fresh data and filling in the blanks when there are gaps in the data or when the data is unclear. They may also aid in your memory of crucial facts.

Others may be more regional and localised, while the broadest and longest-lasting frameworks could use a worldwide currency. Graber found that people's "schemata" were very varied, fractured, and disorganised. In reaction to news content, schema were used in a number of ways using a wide range of methodologies.

## DISCUSSION

This paradigm defines news learning as the incorporation of new information into pre-existing schemata. This clarifies the relationship between prior knowledge and increased capacity for learning. Despite the fact that information is often provided in the form of pre-existing schemata that recipients simply adopt without critically analysing, recipients are assumed to be actively engaged in the process.

Exemplification: One frequent aspect of news that has been studied in terms of affects is the use of "exemplification," or the citation of particular concrete instances to illustrate more general themes and support broad conclusions. This is one kind of framing. But if the situation is not typical, the approach can result in misinformation or prejudice. Zillmann claims that there are four potential possibilities.

There will be a greater impact on how people see problems when tangible examples are used rather than abstract arguments, when examples are emotionally engaging, when several instances of the same sort are provided, and when the presentation is compelling. Research has generally supported these assertions.

### Differential Reactions:

In the tradition of "reception analysis," further research has supported the idea that real news interpretations are significantly impacted by the circumstances, viewpoint, and biases of the particular audience member at the time of receipt. Gurevitch and Levy refer to the 'meta-messages' that these viewers bring to television news as 'latent meanings that are included in audience decodings,' which aid in connecting personal sense-making to bigger stories. They presumptively believe that viewers, like journalists, have "tacit ideas" that shape how they interpret and absorb information.

Jensen supported this assertion with evidence from a study of how news is received in various nations. He found that less educated and interested news audience members use different themes from the "super-themes" used by journalists to organise news narratives. The viewpoints that surface usually ignore important news stories, especially international news. Jensen outlined four criteria via which viewers interpret news:

- a. **Space:** Depending on how far away the activities are, audiences may or may not be affected.
- b. **Power:** Audiences are more likely to think that news affects both the powerful and them.
- c. **Time:** Audiences interpret events in light of their own previous and future personal histories.
- d. **Identity:** Viewers identify or disassociate with people, places, and events in the news.

The first studies on how people process news were based on Stuart Hall's encoding/decoding paradigm, which argued that, depending on the perspective of the reader, news might be understood in 'hegemonic,' 'negotiated,' or 'oppositional' ways. Although there isn't much evidence for it, a study of Jewish and Palestinian attitudes to Intifada news seems to support it. Extremists tended to react to the news in a 'hegemonic' or 'oppositional' way on both sides, whilst moderates adopted a 'negotiated' strategy.

### Factors Influencing News Learning

- a. Prior knowledge and interest of the audience
- b. Perceived significance of the issue
- c. a trustworthy and reputable news outlet
- d. The subject is specific and has a "hard news" vibe to it. There are also illustrations in the form of images.
- e. Information repetition

### Newsworthiness

According to Box 19.1, news must be believed to be credible in order for learning effects to be achieved. There is enough proof that individuals pay attention to media sources they don't believe, despite the fact that a news source has to be trusted in order to be successful. Perceived fairness, absence of prejudice, and good faith were deemed to be more significant than perceived accuracy or reliability of information, according to Gaziano and McGrath. The quality of the source, not the information, is crucial.

A key element was the perception that a medium had the interests of the people at heart. In the United States and the United Kingdom, television soon eclipsed newspapers as the most dependable news source after the 1960s. Public confidence in television is affected by a number of things, including the legislated neutrality of television and the perception that images are more reliable than words. In certain countries, there is a definite difference between reliable public television and unreliable private television. The results of the poll also show that the general public is aware of the differences between quality and 'tabloid' newspapers in terms of credibility.

Additional variations exist around the nation. The press in the United Kingdom is far less reliable than the press in almost any other Western European nation. Credibility perceptions are dynamic and seem to reflect real differences across sources. The question of what is being measured accurately is still a concern. The issue of legitimacy has come up again with the introduction of the Internet as a news source. Although it is inherently difficult for users to judge the reliability of content on the Internet unless it comes from reputable media sources, there is a widespread perception that the Internet may provide solutions to issues.

It's still too early to identify a distinct public opinion trend, and study results have varied. Research comparing the Internet to television and newspapers as news sources in Germany and the United States found that the Internet trails behind in terms of perceived trust. Users under 30 seem to trust online sources more than older users do. In keeping with the idea that there is greater variety, many who are cynical about politics in general prefer to acquire their information from non-mainstream sources, such as the Internet.

### Diffusion of News

It takes place over a short- or medium-term period of time when news is adopted and assimilated into people's "knowledge." Early studies on the impact of news tended to focus on "diffusion," or the dissemination of information as measured by memory for particular

occurrences. Four main aspects have drawn a lot of attention in this situation. They are the degree to which individuals are aware of a certain event, its perceived relevance or salience, the amount of information that is distributed about it, and the degree to which awareness of an event is acquired via personal contact or news media. The interactions between these four people take many different forms, but one is shown by the J-shaped connection between those who are aware of an event and those who learned about it from a personal source. The J-shape displays the following conclusions a very high percentage of people are likely to have heard about an occurrence via a personal contact when almost everyone is aware of it. When fewer people are aware of events, fewer people first learn about them via personal contacts, while more people learn about them through media sources.

However, there is a group of events that only a tiny portion of the general population is aware of. Because personal contact networks are reactivated under these circumstances, the percentage of information obtained via personal contact increases in compared to media sources. These are minority for whom the event or issue is particularly significant. The distribution of news information may take on a variety of forms other than the "standard" S-curve. The J-curve, which has just been defined, is a crucial kind of variation. Chaffee presents three alternative patterns: incomplete diffusion, very fast early acceleration, and excessively sluggish acceleration. In terms of 'content-specific' factors, source variables, and receiver variables which are commonly combined different solutions should be found.

The theory around news dispersion is still being held back by the bias of research towards a certain sort of occurrences, notably "hard news," which has a high degree of unexpectedness. To get a fuller picture of news dissemination mechanisms, additional data on "soft news" and typical or predictable occurrences would be required. We are also limited by the difficulty of evaluating an event's importance without taking into account how much media attention it received and keeping in mind the varying interests of various societal groups.

Information distribution has become more challenging as a result of the proliferation of channels and the relative decline of centralised mass media sources. Despite the alleged decline of interpersonal relationships in contemporary culture, word-of-mouth still plays a significant role in the spread of certain startling news. Interviews conducted a day later on people's initial news sources on the September 11, 2001 terrorist incident in New York found that 50% of respondents learned about it through someone else, 33% from television, and 15% from radio. In order to get complete dispersion, it required two hours.

### Frame Impacts

The idea of framing is interesting because it makes the argument that journalistic frameworks will affect what an audience learns. The frames will likewise be picked up by it. It is not yet obvious how framing will work as an impact, however. According to Cappella and Jamieson, "the way the news is framed by journalists and how the audience frames it may be same or different."

Based on the assumption that certain inferences, ideas, judgements, and contrasts concerning subjects, policies, and politicians are triggered by news frames, the same authors proposed a model of framing effects. Their major objective was to determine if framing political news as "strategic" or "conflict oriented" would lead to a rise in public mistrust about politics. Their results support the theory that a cumulative media influence has led to an increase in scepticism. Scheufele presented a process model of framing effects, which acknowledges that they are the product of interactions between three sorts of actors: journalists, viewers, and interested sources and media companies. He notes that there are two sorts of frames: media frames and individual frames. Both frame types have the potential to be independent or

dependent. These actors participate in four interconnected framing processes, according to the paradigm. The first is the development and application of media frames by journalists and other employees of news organisations who are constantly engaging with sources and applying "news values" and "news angles" to event reporting while under time constraints. Second, the audience watches "framed" news broadcasts. The adoption of certain frames by audience members has ramifications for their attitudes, worldviews, and behaviours.

Entman laid the groundwork for a great deal of framing research, but his attempt to create a single, overarching paradigm for the framing process has come under fire. The research, according to D'Angelo, indicates that there are at least three primary framing paradigms. The first is a cognitivist viewpoint, which contends that the words and ideas of those who have been affected take on the texts of journalistic stories. Additionally, there is a constructionist form of the process where journalists provide 'interpretive packages' of the viewpoints of news sponsors. A critical viewpoint, which believes frames to be the outcome of news collecting practises and elite ideologies, is the last one. In this sense, framing is considered to exert hegemonic power.

Despite the challenges, there is enough data, especially from political communication research, to demonstrate that viewers that identify with news framing do experience impacts. Iyengar discovered that how social crisis news was conveyed affected whether or not individuals were more likely to place the blame for their troubles on the victim. According to study, the way the news was presented during the Gulf War in 1991 led many individuals to choose military actions over diplomatic ones[10].

In the news coverage of the two air disasters discussed Entman found convincing evidence of public opinion shaping in line with the built-in news frames: the Soviets were harshly criticised for the loss of the Korean plane, while the Americans were largely absolved of responsibility for the Iranian loss. varied framings of the same demonstrations reportedly had varied impacts on viewers, according to McLeod and Detenber. Al Gore's defeat in his challenge to George W. Bush over the contentious results of the US presidential election, according to Jamieson and Waldman, may be attributed to the manner the issue was presented.

### **Setting The Agenda**

In order to describe a behaviour that had long been seen and researched in the context of political campaigns, McCombs and Shaw coined the phrase "agenda-setting." The fundamental tenet is that the news media educate the public on the most pressing issues of the day, which is reflected in how such issues are seen by the general public. According to Trenaman and McQuail, "the evidence strongly suggests that people think about what they are told, but at no level do they think what they are told."

During that period and significantly afterwards, data showing a link between the order of significance assigned to "problems" in the media and the order of relevance ascribed to the same subjects by politicians and the public have been gathered. The process was referred to as the "power to structure issues" by Lazarsfeld et al., and is described by Dearing and Rogers as "an ongoing fight among issue protagonists for the attention of media professionals, the public, and policy elites." Politicians attempt to convince people that the issues they are most acquainted with are also the most pressing. This is a crucial component of advocacy and efforts to influence public opinion. Setting the agenda may have prevented the widely held belief that persuasive strategies have little to no effect.

The agenda-setting hypothesis is based on this, but there isn't enough evidence to demonstrate a causal relationship between the various topic "agendas." Instead, we'll need to know the content of party programmes, evidence of opinion changes over time in a particular segment of the public, and a content analysis of media attention to different issues during the relevant period. We also need some proof of how the general populace uses pertinent media.

Such facts have seldom, if ever, been presented simultaneously, supporting the agenda-setting argument. The less certain one is that such an influence occurs, the more one moves away from the general notion that media direct attention and create cognitions and towards analysing concrete instances.

According to Davis and Robinson, prior agenda-setting studies neglected potential effects on people's views of who is important, where important things occur, and why things are important.

Media priorities, public priorities, and policy objectives are three separate agendas that need to be distinguished, according to Rogers and Dearing. These are intricately intertwined and have a range of potential consequences.

The same writers also highlight how the public and the media can not have the same values in regards to news events, how personal experience and how events are portrayed in the media can differ, and how the media's trustworthiness can vary. Additionally, 'real-world events' could interfere in unexpected ways, leading prior goals to be derailed.

Reese asserts that a lot relies on the relative power dynamics between media and sources, which vary greatly from situation to situation. Each of these comments brings a different kind of variety to the conversation. Despite these difficulties, agenda-setting has caught the attention of mass communication specialists as a practical substitute for the search for directed media impacts on individual attitudes and behaviour change.

Dearing and Rogers claim that a variety of additional elements, such as the bandwagon effect, the spiral of silence, news dissemination, and media gatekeeping, are related to agenda-setting. The bulk of the data is conflicting, and assessments often see agenda-setting as a workable but untested idea.

There are uncertainties due to theoretical difficulties as well as the strict methodological requirements for showing a causal relationship. The theory presupposes a chain of influence that extends from the priorities of governments or other interest groups to media agendas, where news values and audience interests are key considerations, and ultimately to public opinion.

There may be additional explanations for this link, the most popular of which would claim that underlying public concerns will influence how political elites and the media define problems.

Such a procedure is crucial to the logic of free media as well as political philosophy. The three 'agendas' mentioned above may be brought together in part by the media, but choosing which one to follow is not the same thing. Dearing and Rogers propose a number of generalisations about agenda-setting.

One is that a variety of media sources often agree on the relative significance of a range of issues. Second, media goals don't always line up with "real-world" signs. It is not an issue's absolute significance that matters, but rather the relative power of the forces and individuals

striving to define and advance it. Finally, the media's coverage of an issue has a significant impact on how important it is to the general population.

Despite the relevance of agenda-setting in political communication research, the impact is likely to be categorised as a 'peripheral' effect under the ELM model since it originates from unintentional signals of significance offered by presentation. This does not diminish the significance of these factors, which contribute to mould how the general public views political and social reality. The same set of news priorities are often shared by many mass media outlets, which is a common need for agenda-setting.

This issue is becoming more challenging due to the availability of several new online news sources and the growing likelihood that a "news user" may seek for news in accordance with a certain agenda.

### CONCLUSION

For a democracy to work, it is essential to comprehend how public opinion, political discourse, and the news media interact. A diversified and trustworthy media environment that stimulates critical thinking, encourages public discussion, and supports openness in political communication is essential for a well-informed and active citizenry.

It emphasises the value of media literacy, the need for a diversity of viewpoints and voices in the media, and the function of journalists in maintaining moral standards and delivering truthful and objective information. The news media is crucial in influencing public opinion and enabling political communication, to sum up.

The media's ability to frame issues, establish the agenda, and serve as a forum for political debate have a big impact on how people develop opinions, become involved in politics, and practise democracy. An educated and engaged populace, a thriving public sphere, and the maintaining of participatory democracy's tenets all depend on understanding the dynamic interplay between the media, political players, and the public

## CHAPTER 1

### DESIGN COORDINATION: EFFECT PROJECT MANAGEMENT STRATEGIES

---

Dr. Lakshmi Prasanna Pagadala, Associate Professor,  
Master in Business Administration (General Management), Presidency University, Bangalore, India,  
Email Id-lakshmi.prasanna@presidencyuniversity.in  
Prof. Ashwat Reddy, Regional College of Management, Bangalore, India

#### ABSTRACT:

The design team leader must create a work plan in order to efficiently organize the design process. When preparing the design proposal, the design work plan should be created. Any work plan must contain the scope, budget, and timeframe for completing the task. The work that has to be done by the different design disciplines is integrated and interfaced based on the design work plan. The plan also serves as the foundation for tracking the design effort's scope, costs, and timeframes. The design deliverables the drawings and specifications for each discipline involved in the design endeavor are specified in the scope of work for design. In most cases, the design cost is expressed in labor hours rather than monetary terms. The design work packages are often scheduled using a milestone bar chart. However, a CPM timeline is advised for significant projects.

#### KEYWORDS:

Construction, Coordination, Design, Projects, Scope.

#### INTRODUCTION

In engineering and construction projects, design coordination is a critical component of project management. It entails the methodical management and integration of design processes to guarantee that all project elements are in line with the project's goals, needs, and specifications. The importance of design collaboration and its contribution to project success are briefly discussed in this introduction. To obtain a cogent and well-integrated design, design coordination is crucial in engineering and construction projects. To make ensuring that all design components function in unison with one another, it entails coordinating the activities of architects, engineers, contractors, and other parties engaged in the design process. Design coordination is to avoid confrontations, disagreements, and mistakes in design that might result in expensive rework and delays during the building process. Project managers may detect and address any conflicts or concerns early on by coordinating design tasks, which reduces schedule interruptions and saves time and money [1]–[4].

Coordination of the design also makes ensuring that it adheres to the project's criteria and objectives. It entails checking the design against the project requirements, building codes, rules, and industry standards. This aids in upholding compliance, reducing hazards, and guaranteeing the project's use, safety, and quality. Collaboration and communication are key components of design coordination. It encourages efficient communication between all parties involved in the project, including the architects, engineers, builders, and subcontractors. Design coordination improves cooperation, stimulates creativity, and aids in attaining design excellence by facilitating collaboration and information exchange. Coordination of the design process is also essential for cost control. Early detection of design conflicts or inefficiencies allows project managers to optimize design solutions, save costs,

and guarantee resource utilization. As a result, there are fewer design modifications made during the building stage, which lowers the risk of cost overruns and project delays.

For engineering and construction projects, design coordination is a crucial step in the project management process. It guarantees that design aspects are integrated, compatible, and compliant, reduces disputes and mistakes, and increases project effectiveness. Project managers may reduce risks, enhance project results, and raise the possibility of project success by efficiently managing design processes. The process of design coordination is dynamic and requires ongoing monitoring, assessment, and adjusting as the project develops. To handle design-related issues and guarantee efficient project execution, project stakeholders must effectively communicate, collaborate, and make decisions. The right tools, technology, and processes must be used to enable efficient teamwork and communication in order for design coordination to be successful[5]–[7].

These might include collaborative project management tools, virtual design and construction (VDC) platforms, and building information modelling (BIM) software. Additionally, design coordination spans the whole project lifespan, not just the pre-construction stage. To guarantee that design adjustments, alterations, and updates are properly communicated and executed, it entails continual coordination between design teams, construction teams, and other stakeholders. In the end, effective design coordination is necessary to produce a project that is coordinated, practical, and aesthetically beautiful. It helps to reduce risks, improve project quality, and provide work that meets or exceeds customer expectations. Project managers may create a solid basis for a project's success and encourage seamless cooperation among all stakeholders engaged in the design process by highlighting the significance of design coordination[8], [9][10].

## DISCUSSION

The scope of work for design establishes the deliverables for each discipline involved in the design endeavor, including the drawings and specifications. Work hours rather than money are often used to calculate the design cost. Normally, the design work packages are scheduled using a milestone bar chart. A CPM timetable is suggested for big projects, nevertheless. The design team leader creates a work breakdown structure after going through all the backup material to identify the different task packages necessary to produce the design deliverables, the drawings, and the specifications. Then, for each work package for each discipline, such as architectural, civil, structural, electrical, and mechanical, a certain number of design hours is allocated. Next, a milestone bar chart for the design work packages is created. Assigned labor hours to each job in the milestone bar chart indicates that the bar chart is cost loaded. For monitoring and organizing the project throughout design, output from the cost-loaded bar chart is often supplied on a weekly basis. Then, for each week throughout the design phase, a simple earned-value analysis similar may be carried out. The earned value of each work may be calculated by dividing the percent complete by the planned design hours. To assess how well the design process is working, the gained value may be compared to the actual design hours charged to the task and the expected design hours.

### Producing Contract Documents

It is now possible to evaluate a wide range of design possibilities that were previously unfeasible using manual techniques thanks to the development of computers for designing and creating contract papers. However, overusing computers may result in excessive overdesigning, overwriting, and over drafting. Examples include process engineers, hydraulics engineers, and structural engineers who wish to conduct one more computer simulation or load check. The specification writer may continue to cut and paste a new

section into the contract paperwork, or the CADD operator may wish to see how a design would appear if another modification is made. Occasionally, excessive simulating, designing, or writing might result in mistakes in the contract papers. The lead designers must create a system for keeping track of the design effort to make sure it is moving forward without racking up too many billable hours while yet delivering sufficiently detailed drawings and specifications for the contractors to follow throughout construction. This will lessen complaints from building contractors about attractive designs that are flawed and impossible to build.

### **Managing Scope Growth during Design**

Some designers have a propensity to make adjustments throughout the design process in order to appease the customer, regardless of the effect on the project's budget and timeline. Changes may be categorized as project development or scope expansion. Project development deals with adjustments required to fit the scope as it is now specified. Changes that expand the project's initial scope that was accepted before the design process began are referred to as scope growth. Any design endeavor must have a procedure in place to manage scope expansion. Scope and change control must be a priority for both the owner and the engineer. After the conceptual design phase, the project owner must be committed to freezing the project's scope. Every proposed modification must go through a thorough assessment and approval procedure that takes into account the potential cost and schedule impacts as well as any knock-on consequences on other operations. The power to approve modifications made during design must be restricted.

A change management philosophy and strategy should be agreed upon by the engineer and owner. For instance, under what circumstances would modifications be taken into account: If it won't function? Does this have any legal repercussions? Whether any environmental effects exist? Questions like Does the change add value? and is the change necessary? must be addressed when modifications are presented.

The owner and the engineer should come to an agreement on a no-later-than date for freezing scope. Although the recommended practice for effective project management is to freeze project scope after the conceptual design stage, it should be acknowledged that on certain projects the owner must compete in a highly competitive market to develop a product. In a market with intense competition, the owner may want the freedom to make changes. The project scope both throughout design and construction to ensure that it will function as intended after finished.

The design team's task is more complicated in this kind of circumstance, and more care must be taken to inform the owner of the entire effects of scope adjustments. The price of engineering and building for the scope adjustment must be weighed against the owner's potential financial rewards in the form of revenues, operations, and facility upkeep. A management reserve for scope expansion and a contingency for scope modifications should both be included in the project budget. Any proposed change must be communicated to all discipline supervisors and anybody else whose job might be impacted. Then, if the modification is adopted, these managers should ascertain and report the cost and schedule implications.

The owner's representative, the engineering manager, and the project manager must all examine and accept the aforementioned implications before work can start on the modification. After a change has been accepted, it's critical to let individuals who may be impacted know why the change was made.

## Managing Small Projects

It is typical for a project manager of small projects to oversee many projects at once. The management of any one project is not the issue. The inability of the project manager to give each project the necessary attention makes scheduling and resource management more difficult. Because there aren't much personnel available for small projects, the project manager must pool resources with other project managers. The few people who have been allocated to the project must thus assume responsibility for a variety of tasks. Planning ahead is essential. The project manager often finds themselves waiting for information or juggling the urgent demands of numerous projects at once. Small projects often have a very short lifespan, which leaves little time for thorough planning or problem-solving while the job is being done. By the time the project is over, workers are often still on their learning curve. The project manager must create a single master schedule including all the projects under his or her control in order to handle several little tasks. This will help to lessen circumstances when two or more support staff are required simultaneously. Instead of arranging the work on only one project, the issue is scheduling the project manager's many duties. Small projects are managed by more managers than big ones. Numerous engineering firms establish organizational divisions specifically for the project management of minor projects. Upper management must pay particular attention to and focus on the issues posed by managing small projects. The characteristics of project team members that excel at managing small project.

### Attributes of Small Projects Team Personnel

1. Have a can-do attitude.
2. Prefer a hands-on approach to work.
3. Dislike bureaucracy.
4. Are decision makers.
5. Need little or no supervision.
6. Have a value system to make the customer satisfied.
7. Are good communicators
8. Prefer to talk out problems
9. Know when to stop an activity when things are going wrong
10. Has the personality and people skills to coerce people to be responsive to his or her needs
11. Has the ability to navigate through the various departments of his or her company to get things done

### Project Team Meeting

Design is a creative process that includes a range of specialties and countless choices that have a significant influence on a project. Each designer's work often has an impact on the work of one or more other designers.

The integration of related tasks to guarantee project compatibility is a challenging challenge in design coordination. In most cases, the challenge is integrating the work of all designers rather than finding design experts who know how to execute the job. Effective communication during regularly scheduled team meetings is the only way to achieve this. Weekly team meetings are necessary for the length of a project. These sessions are required to maintain the team's cohesiveness and to guarantee a constant flow of information. Conflicts abound in a regular project. The participation of all people who are impacted is the greatest method to swiftly settle these disputes. Only open dialogue and compromise will

allow for this. The project manager is in charge of all team meetings, but they shouldn't be dominated by him or her. Often, a team member may be tasked with facilitating talks to address issues pertaining to his or her specific field of expertise.

Project managers must use their own discretion and have the talent of recognizing when to take the initiative and when to delegate that responsibility to others. To guarantee that important topics are covered and the meeting is over as quickly as possible, an agenda should be created to guide project team meetings. The agenda should contain a list of the topics to be covered, including work that has been finished, work that is still being done, work that is planned, and unique issues. Team meetings should include all participants.

The project manager should write up and distribute meeting minutes to all attendees. The project manager is responsible for making sure meetings are fruitful. Meetings are necessary and necessary, but if they are not well organized and executed, they may cause annoyance and waste time. There are instructions for running team meetings

### Guidelines for Productive Meetings

1. Develop and publish an agenda in advance to permit better participation by attendees.
2. List unfinished items from previous meetings on the agenda, including the names of individuals who are responsible for reporting on status.
3. Restrict attendance only to individuals who need to attend.
4. Don't waste time by discussing events that do not pertain to the purpose of the meeting.
5. Pick a meeting leader who is a leader and facilitator, not a dictator, to ensure the meeting is conducted in an informative environment.
6. Maintain strict agenda control; follow the items in order with set time limits for discussions.
7. Avoid interruptions, such as phone calls, as much as possible.

### Weekly Monthly Reports

The process of creating reports is ongoing in project management. Reports must be delivered often and include information that is useful to the recipient in order to be meaningful. The propensity to include everything in a report leads to documents that are so large that crucial information may be missed. Generally speaking, the project manager should create two regular reports for each project, a weekly highlight report and a monthly report.

The minutes of the weekly team meetings include a lot of information that is used in the weekly highlight report. Work accomplished, work in progress, work planned, and unique issues should all be included in the report. The project manager and his or her team often utilise the weekly report to organise the ongoing work. Project milestones that have been reached, a comparison of actual costs to anticipated expenses, and an overlay of the planned and actual time schedules should all be included in the monthly report.

The estimated project completion date and a projection of the final cost should be included in trend reports as well. Upper management and the owner's representative often utilise the monthly report, which serves as a permanent record for the project file. The weekly and monthly reports should both have a uniform structure so that comparisons of the project status, the progress of the work, and the team's performance can be assessed. The reports serve as a measure of individual responsibility and appreciation of excellent performance in addition to providing project progress updates.

### Constructability

Engineering and construction are often divided early on in the project. The use of cutting-edge technology, including three-dimensional computer-aided drawing, construction automation, robots, and computer-aided design (CADD) have all raised awareness of a project's constructability. These new developments make it possible to modify designs to facilitate effective building, which emphasises the need to combine engineering and construction to include constructability's input into the design process (Figure. 1). The objective is to make it easier for construction and design to communicate ideas before, during, and after design. The CII has produced studies and financed research on constructability. A solid explanation of constructability concepts for conceptual planning, design and procurement, and field operations may be found in CII Publication No. 3-3, titled Constructability Concepts File. The passages from the following paragraphs are the report's contents by providing examples.

Simplicity, flexibility, sequencing, substitution, and labour skill/availability are at least five elements that should be taken into account while deciding on design configurations for efficient construction. Any constructible design should have simplicity as a desired feature. Unjustified carnality serves no one's best interests and significantly raises the likelihood of a poorly finished project. Particularly for refit or rebuild projects, special drawings and instructions may be needed to increase the constructability procedures. It would be ideal if construction workers on the ground had the freedom to choose different techniques or fresh ideas.

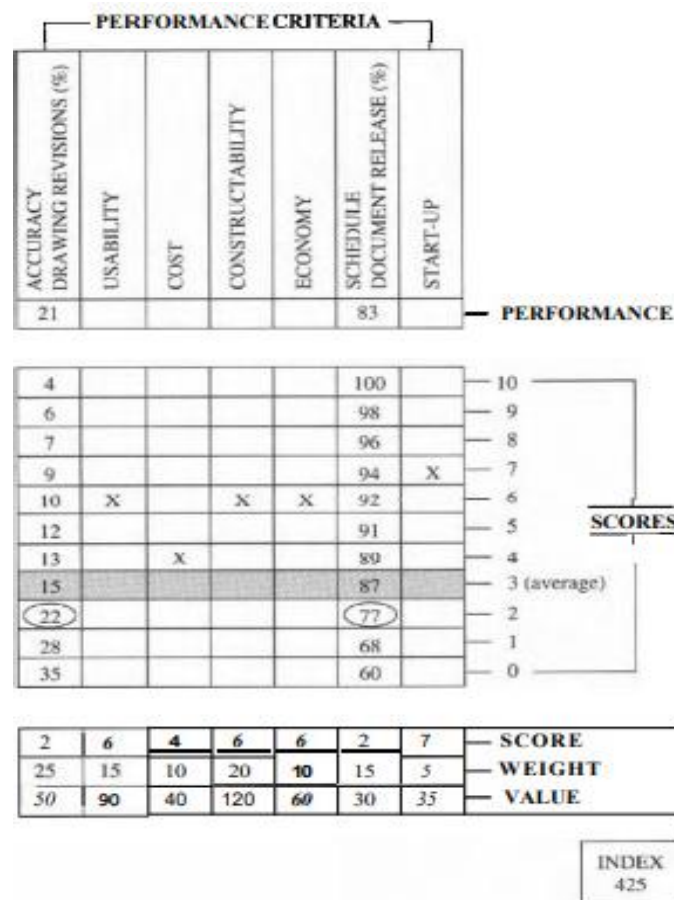

Figure 1: Representing the Design Matrix Using Quantitative Evaluation [AccessEngineeringLibrary].

Designs should outline the intended outcomes without placing restrictions on how they will be attained. It is also desired to provide designs that do not restrict the building techniques or approaches in the completely open and competitive market. Installation sequencing is a design issue as much as it is a procurement and construction one. Designs have been developed that unnecessarily limit how installations are performed during construction. Layout and facility spacing should be carefully considered during design to allow for many construction operations to take place simultaneously. Although substitutions and alternatives merit consideration, they are often disregarded due to the pervasive belief that a certain method has always been used. Constructability will be impacted by improperly considered material applications, necessitating expensive adjustments. When constructability programmes are used throughout the design process, these effects may be reduced and even avoided. The availability of labour is often not taken into account early enough in the life cycle of a project. It is important to investigate both the skill level of the employees and the labour availability. Lack of either skill levels or labour availability may have an expensive effect on a project and must be taken into account during the design process. According to CII research, project or firm size is not a hindrance to constructability or the execution of a constructability programme. Improved projects, cheaper costs, improved productivity, and faster project completion are all benefits of include construction in the design process. The idea that construction simply reviews designs to choose the one that is simplest to build is a significant barrier to the adoption of successful constructability programmes. The constructability programme implementation recommendations are provided in CII Publication No. 3-2.

### Post Design Review

Project management must be improved, and evaluation is a constant process. The project manager's organization's work management system must be adaptable enough to take into account the variances in each project. The project manager must decide at the start of each project what system changes and enhancements are necessary and suitable for the project. Each project's design is finished, and the project manager and his or her team needs to perform an in-depth assessment of the management of the design process as well as the design effort. Each member of the project team and any significant participants who were engaged in this assessment should be design. To evaluate every aspect of the project, including scope expansion, quality and scope alignment, owner expectations and satisfaction, conflicts among team members or with other parties, excessive schedule changes, comparison of final costs to the original budget, and a list of precautions for managing future projects, a check list should be created. The project manager should put out a quick summary report after a comprehensive discussion of the design process that includes suggestions for how to make the system better for next projects.

### CONCLUSION

Project management for engineering and construction projects requires careful consideration of design coordination. It makes ensuring that design components are integrated, compatible, and compliant, reducing disputes, mistakes, and delays during project execution. Proactive communication, cooperation, and decision-making among project stakeholders are necessary for effective design coordination. Project managers may save time, money, and avoid scheduling problems by coordinating design efforts to detect and address possible issues early on. It aids in preserving conformity with project requirements, building codes, rules, and industry standards, assuring the project's operation, safety, and quality. Through the optimization of design solutions and a decreased possibility of expensive design revisions during the construction phase, design coordination also plays a vital role in cost control. It

fosters creativity and achieves design excellence by facilitating good communication, collaboration, and information exchange among team members. Utilizing the right tools, technology, and processes to promote collaboration and communication is essential for effective design coordination. It is a continuous process that involves coordination between design teams, construction teams, and other stakeholders. It lasts the duration of the full project lifetime. Effective design coordination is necessary to provide a project that is coordinated, practical, and aesthetically beautiful. It helps to reduce risks, improve project quality, and provide work that meets or exceeds customer expectations. Project managers may successfully handle design-related difficulties and guarantee the success of engineering and construction projects by giving design coordination top priority.

## CHAPTER 2

### A BRIEF INTRODUCTION ABOUT CONSTRUCTION PHASE

---

Ms. Anandasrinivasandeviprabha, Assistant Professor,  
Masters in Business Administration, Presidency University, Bangalore, India,  
Email Id:eviprabha@presidencyuniversity.in  
Prof. Karthik, Regional College of Management, Bangalore, India

#### ABSTRACT:

Because of how closely the quality of the finished product depends on the craftsmanship and management of building, the construction phase is crucial. The completeness and quality of the contract documents that the designer prepares, as well as three additional factors laborers with the necessary skills to produce the work, field supervisors with the ability to coordinate the numerous activities needed to complete the project on the ground, and the quality of the materials used in project construction have an impact on how well the project is built. To complete a project of high quality, professional laborers are needed as well as efficient administration of the trained laborers.

#### KEYWORDS:

Bid, Contract, Construction, Designs, Owner.

#### INTRODUCTION

The fact that the building phase consumes the bulk of the project's money and schedule makes it crucial. As mentioned in earlier chapters, a project's design expenses typically fall between 7% and 12%. 90% of a project's cost, assuming a median value of 10%, is spent on construction. Therefore, a 15% variance in design costs may only have a 1.5% effect on the project, but a 15% variation in construction costs may have a 13.5% impact. Similar to prices, a project's construction time is always disproportionately longer than its design time. Most owners need to utilize their projects as soon as possible, thus any delay from the anticipated completion date might result in serious problems for both the owner and the contractor. The construction contractor must carefully plan, organize, and manage the project in the most effective way possible due to the dangers that are inherent in building and the many activities that must be completed[1]–[4].

#### Assumptions for Construction Phase

The goal of the construction phase is to complete the project on time, within budget, and in compliance with the plans and specifications. There are three presumptions necessary to accomplish this goal, as stated. Due to the nature of building work, there are sometimes variances even when the assumptions are plausible. A project is a unique, one-time business venture. Each project is different; thus, its conclusion can never be anticipated with complete certainty. In order to build a project, the owner often contracts with a contractor that supplies all labor, tools, materials, and construction services in accordance with the designs and requirements. This necessitates managing a variety of activities and duties at once, while also interpreting blueprints and coping with inclement weather. Some people find it challenging to admit that plans and specifications do include flaws. A lot of people are needed to prepare a design because they must organize supporting tasks, execute design calculations, and create several sheets of elevations, sections, details, and dimension drawings. Although perfection in

a set of designs and specifications is something that every designer aspires to, it is seldom attained. Before beginning construction, the owner typically accepts and approves the contract paperwork. However, the owner's desires aren't always reflected in the designs and specifications. Members of a board of trustees, board of directors, or commission may represent the interests of certain owners, notably non-profit Organisations or government bodies. These people often come from backgrounds in professional or corporate jobs, with little to no experience in project work or drawing interpretation. Since they won't see the final product until it is placed during construction, they may endorse the choice of a material or project arrangement. If the contractor submits a bid price that is less than what is necessary to construct the project and make an acceptable profit, serious issues might result for both the owner and the contractor[5]–[8]. A contractor that underbids a project may potentially pose serious issues for the design firm. A construction firm is a business that has to generate a profit in order to stay in business. Before awarding a construction contract, each contractor's proposal must be carefully considered. If a construction contractor underbids a project, project management will be challenging no matter how competent the people involved are.

### Assumptions for Construction Phase

1. **Scope:** The design plans and specifications contain no errors and meet the owner's requirements and appropriate codes and standards.
2. **Budget:** The budget is acceptable that is, it is what the owner can afford and what the contractor can build it for, with a reasonable profit.
3. **Schedule:** The schedule is reasonable; that is, short enough to finish when the owner needs it and long enough for the contractor to do the work

Circumstances like owner-requested adjustments during construction, changes to the design, or different site circumstances might occur and affect the project price and timeline. There should be a suitable contingency to account for these sorts of deviations that might negatively influence the project budget and schedule in order to lessen the effect of these circumstances. Contractors must be given enough time to complete their tasks.

The quality of the project and worker productivity will suffer if a reasonable amount of time is not given. During construction, there are many variables that might prevent work from moving forward as planned, including the weather, material deliveries, answers to concerns about the design, and inspection. The contractor is required to provide a schedule that accounts for the acceptable fluctuation in time that is inherent in the building process, as well as to plan ahead for all project needs. The aforementioned issues must be dealt with by the project manager. He or she must continuously make plans and be on the lookout for these circumstances. To respond to new circumstances, the project will need to be adjusted and coordinated[9], [10].

### DISCUSSION

The method used to pay the construction contractor may have a significant influence on the project's budget, timeline, and amount of owner and designer engagement. Fixed price and cost reimbursable are the two broad categories into which contract pricing may be separated. For fixed-price agreements, the contractor may get payment in the form of a flat amount or a per-unit charge. Cost-reimbursable contracts may contain payment mechanisms by all of the following, individually or in combination: cost plus a predetermined percentage of the total cost, guaranteed maximum price, or incentive. The benefits, drawbacks, and circumstances that favour the usage of the aforementioned payment methods for building services have all been covered in a number of publications and articles. A summary of what has previously been written is provided in the following paragraphs to help the project manager in their

managerial duties. By delivering a full set of plans and specifications that have been developed by the designer prior to construction, lump-sum contracts aim to fix the project's cost. For any alterations that could be required during construction, the contractor is nonetheless entitled to additional remuneration.

Changes made during construction are a significant cause of cost overruns for lump-sum contracts. For these kinds of initiatives, it's crucial to guarantee a thorough design that's as error-free as feasible and to limit any owner alterations. Before inviting bids, the contract documentation must be sufficiently reviewed to find any inconsistencies and ensure that the project can be built. Because a change in one area of the project often impacts other parts of the project, the project manager should collaborate with the owner throughout construction to assess the complete impact of a project modification, including the influence on the project's cost and schedule. Before the construction contract is finalised, a pricing schedule for labour and equipment for additional work linked to project amendments should be established. Unit-price contracts are chosen since it's possible that the amount of work can't be estimated precisely enough for a contractor to submit a lump-sum quote. Errors in the expected compensation are a significant cause of cost overruns for unit-price contracts.

Quantities. Unbalanced bids from contractors might result in considerable increases in the anticipated cost of the project and costly legal issues if errors in projected pay amounts are present. All predicted remuneration should be carefully reviewed. Prior to the invitation for contractor bids, the number of unit-price contracts. After receiving all of the bids, each unit-cost bid item should be carefully examined to look for any bid unbalancing. Reviewing big quantity pay items and any abnormally large unit-cost bid items in particular may help find any inconsistencies. For some projects, it is preferable to begin construction before the design is finished. These projects might be complex or urgently needed to be completed, in which case it would not be feasible to produce a complete detailed design of the entire project before beginning construction. Cost-reimbursable projects need intensive material delivery tracking and labour assessment. To assess and approve the project's material, labour, equipment, and other charges, the owner's organisation must set up a field office. For owner organisations that need the freedom to alter the project as necessary during construction to obtain the best results and fulfil their goals, this style of contracting may be effective. However, the proprietor must have a lot of project management expertise.

### **Build Method of Project Delivery**

Design-bid-build (DIBIB) is sometimes referred to as the conventional project delivery approach. Before commencing the bid and construction phase, all design work is finished. When cost is the project's top priority, timeline is its second consideration, and the scope is well specified, this delivery approach is often chosen. The owner, designer, and contractor are all involved in the DBB project delivery technique. A contract for design services is signed by the owner with the designer, while a separate contract for construction services is signed with the contractor. The owner employs both the designer and the contractor. Although the owner often appoints the designer as their representative throughout construction, the designer does not employ the contractor. The designee is often compensated on the basis of a pre-set fee or a portion of the construction contract.

The contractor receives payment in the form of a lump sum: The owner gets the chance to see how the project will appear before moving forward with construction, which is when the highest expenditures will be expended, since design is finished before bidding. The contractor can accurately predict the cost of construction since they have a thorough grasp of the project's needs. As a result, the owner is able to estimate project costs prior to signing

construction contracts. All parties' responsibilities, risks, and engagement in DIBB are clearly stated. Due to the fact that the contract agreements clearly outline what the contractor must perform, the owner has a reasonably high degree of engagement and control throughout the design phase but less involvement during the building phase. The D/B/B project delivery method's major drawback is the extra time that may be needed to finish the design and put the project out for bid. Real construction to begin. The owner may incur costs as a result of changes made after construction contracts have been awarded.

### **Build Method of Project Delivery**

The design build (Dm) project delivery approach is often used to speed up project completion. Construction may begin before all the design work is finished, which often reduces the completion time. The owner has a high degree of engagement and control over the whole project. This gives the owner freedom to change the design while work is being done. The D/B project delivery technique is often used for projects when the time, cost, and scope are all important factors. The owner and the DIB business are both parties to the D/B method of project delivery. The owner and the D/B company enter into a contract for the performance of both design and construction services. The DB contractor is responsible for all design work, including the construction drawings. Although the D/B contractor may use one or more subcontractors, they do all of the work themselves.

The DB business often employs both skilled construction workers and in-house designers. Conflicts between the designer and contractor, which often arise in the D/BB delivery process, may be lessened by this arrangement. To perform D/B work for the owner, a construction contractor may sometimes link up with a design firm or a design firm would team up with a design business. Qualifications-based selection (QBS) is a standard method for selecting the D/B Company. The business owner requests offer from companies on a preselected or prequalified list. Each potential D/B business is put through an assessment procedure to evaluate their quality, safety history, schedule, cost performance on previous works, and other aspects. Selection is thus based more on qualification than on cost.

Typically, the price of the D/B services is determined by some kind of cost-reimbursable agreement, such as cost plus a predetermined sum or cost plus a percentage. The D/B Company may be chosen for projects with a well-defined scope depending on pricing. The contract for incentives may be based on a predetermined maximum sum, with bonuses for costs that are less than the promised sum and penalties for costs that are more than the stipulated sum. Despite being a crucial factor, the entire project cost is not clearly known at the start of a D/B project since the design has not yet been produced. Because the designer is also the builder, handling inspection is a problem that has to be addressed early in the project. The owner may conduct inspection if competent persons are present inside the owner's organisation. In certain circumstances, inspection services are provided by a neutral third party.

### **Prospective Bidders and Bidding**

The choice of the contractor is crucial because the contractor is crucial to the project's successful completion. In order to construct the project in accordance with the plans and requirements, the owner and designer must rely on the contractor to provide the necessary labour, tools, materials, and expertise. Everyone has issues if the contractor does. Before a bid is approved, the owner often needs potential contractors to provide a bid bond. Most owners demand that the contractor produce a performance bond in addition to a material and labour payment bond before a contract is awarded. Before beginning fieldwork, the contractor provides the owner with copies of all bonds. Bonds do provide the owner some

degree of security, but they cannot ensure that the work will go well. A prequalification procedure that assesses a potential bidder's record of experience, financial competence, safety record, as well as overall character and reputation in the sector, should be used in addition to bond requirements. In order to give a representative cost comparison for projects with a competitive bid process, at least three bids should be obtained. A bigger number of bidders will often result in more competition and cheaper bids. The quality of the bidders, however, matters more than the sheer number of bids. It is feasible to regulate which businesses are permitted to make a bid for private projects. It is preferable in this sort of circumstance to not let firms to submit bids if their qualifications are in doubt or if they are the project was just not desired to be built.

The amount of time permitted should be carefully taken into account. Contractors to provide prices. The recommended deadline date must provide enough time for bidders to complete a complete bid. A respected contractor may be approached to help establish a reasonable time for bid preparation if it is unclear what period of time would be suitable. Some bidders may decline if the time limit is too short, or worse, the offer may not be well prepared. Construction is hampered unnecessarily if the bid period is too protracted. An addendum is a modification made to the bid package during the bidding process to fix mistakes, clarify project specifications, or make adjustments before the contractor is given the go-ahead. Numerous addenda might drive off respectable bidders or put them in a risky beware position about the quality of the designs and specifications or the likelihood of future revisions the owner could make during construction. These circumstances may result in pricey change orders that have a negative impact on the project's overall cost.

To define any unique elements of a project and aid bidders in creating a strong proposal, a prebid meeting should be organised. This is a good moment to define the project's scope, describe any unique working circumstances, and respond to contractor inquiries. All parties shall get written confirmation of any item that was discussed during the meeting but was not included in the bid papers. Using the same set of bid papers that the contractors are using to submit bids, the party who will manage the contract should provide a thorough cost estimate for every project. This will help with the assessment of contractor bids since creating an estimate requires a thorough examination of every facet of the project. By carefully reading the bid papers and going through the process of creating a precise cost estimate, many project-related issues may be found. If the organisation of the party that will handle the contract has the necessary expertise, there are several professional estimating firms that may do this job.

### **Qualification-Based Selection (QBS)**

Construction contractors are often chosen based on the lowest and best-qualified bidder for lump-sum, fixed-price projects. Since each contractor is obliged to submit a bid price, finding the lowest price is rather straightforward. The contractors are often asked to submit a prequalification form prior to bidding in order to guarantee qualification. Typically, the form asks for details on the contractor's standing, stability, and ability to complete the job. Most bid papers also call for a bid bond to be presented with the bid when it is delivered to the owner. When a contractor is eligible for bid bonds, the owner is often assured that they will also be eligible for payment and performance bonds after the contract is signed. Contractors are often hired based on QBS for cost-reimbursable projects or negotiated contracts as the project's cost isn't known at the time the contractor is picked. Usually, the owner compiles a short list of potential contractors, each of whom would probably be chosen for the job. Gatherings are conducted to offer each the chance for the potential contractor to inquire about the details of the proposed contract and the owner's ideal project conclusion and obtain

explanations. The gatherings are educational in character and may include a trip to the project location. After then, contractors are requested to submit official requests for bids (RFPs).

The was typically asks for details on the technical and managerial capabilities of the project as a whole, the method to be adopted in conducting the project, as well as a cost estimate. To enable the owner to assess offers uniformly, each contractor receives an RFP with a predetermined format. The owner evaluates all ms after receiving them. The merits of each cost suggestion are evaluated. The owner must assess the viability of each contractor's cost estimate since the true cost is unknown. A fee schedule for all labour, supplies, and indirect costs that would be associated with the project may be included in the cost proposal. The owner often seeks a competitive pricing range rather than the lowest price. Costs are taken into account, but the best and last offer is chosen in the end. A weighted assessment technique is utilised to provide a quantitative evaluation of each RFP in order to choose the best and final bid. For instance, the RFP is broken down into categories, and each area is assigned a weight according on how important it is. While some categories could have equal weighting, others might receive differing weights. An example of assessment categories is shown below.

1. Management information system.
2. Project schedule.
3. Personnel Contractor quality control.
4. Management of subcontractors.
5. Resource utilization.
6. Health and safety approach.
7. Financial capacity.
8. Experience and references.

Software for CADD, scheduling, cost estimation, accounting, submittal reporting systems, and other pertinent data may be included in the management information system. The degree to which a company has developed an efficient management information system is an indicator of its capacity to keep a project's budget steady throughout both the design and construction phases. A suitable project timeline, either a bar chart or a network, should be presented. It should highlight the key milestones needed to finish the project. Since cost is a factor in choosing contractors, a cost estimate ought to be necessary.

The cost estimate does provide a general idea of the ultimate cost even if it is unknown at the moment a contractor is selected. The quality of the workforce is crucial when QBS selects contractors. Resumes of key individuals should show a team that is capable of completing the project's job requirements. Key team members' formal education, project experience, and professional registration are all signs of their competence.

A list of the persons, materials, and significant subcontractors to be used for the project should be included in each bid. Multiple subcontractors must be managed for engineering and construction projects. A strategy for procuring supplies, tools, services, and subcontractors should be included in the RFPs that QBS requests from potential contractors. The proprietor must Prior to receiving RFPs from potential contractors, the company must give a list of its preferred providers. Any QBS process should also include information on resource utilisation, including a thorough explanation of the staffing strategy to manage the project's naturally varying workload and guarantee the presence of an experienced workforce throughout times of work build up and drop. For the purpose of selecting contractors via the QBS method, a quality assurance and quality control (QA/QC) programme should be completely documented in the RFP. The system should include quality control throughout the construction process, including testing, inspection, and safety, as well as during the creation

of design drawings and specifications. Each project should have its own specific set of evaluation criteria for contractor offers for QBS. Final decisions are often made based on a combination of time, budget, technical merits, and quality.

Technical excellence, managerial skill, staff credentials, previous experience, past performance, and timetable compliance are all examples of how quality may be conveyed. Although choosing a contractor based on pricing is fair, the ultimate decision may be made based on the proposal that provides the owner with the most in terms of performance value. The cost proposal shouldn't be the deciding factor for cost-reimbursable contracts since preliminary cost estimates could not be a reliable predictor of final real costs. The lowest proposed cost or lowest total proposed cost plus a charge is often not used to determine which contract would be cost-reimbursable. The chance of cost overruns may rise if cost-reimbursable contracts are awarded solely on the basis of predicted costs, since this may promote the submission of overly low estimates. The business with the plan to carry out the contract in a way that benefits the owner the most should be the main factor, as decided by assessment of proposals in accordance with defined evaluation criteria. The owner assigns numerical weights to each factor that is taken into account. The weights' value is often kept a secret from the businesses making bids. The RFP, however, may provide potential contractors with information on the minimal standards that apply to certain assessment criteria or sub factors. Based on the weight of each aspect, the owner gives each one a score throughout the evaluation process. Whichever RFP earns the highest rating will be used to choose the contractor. After that, the contractor is informed, and a contract in advance is created. A contract is signed after everything is finalised.

## CONCLUSION

For engineering and building projects, the construction phase is a crucial step in the project management process. It entails putting the project strategy into practice and turning design ideas into tangible buildings. The major points addressing the importance and results of the building phase are outlined. Project managers supervise the execution of construction tasks throughout the construction phase to guarantee that they are completed in accordance with plans, timelines, and quality standards. To efficiently and successfully perform construction activities, it entails managing a variety of resources, including labor, supplies, equipment, and subcontractors. The efficient management and monitoring of the project is essential to the successful conclusion of the building phase. Project managers need to keep a careful eye on the work being done, monitor expenses, and deal with any problems that may come up. The necessary requirements and specifications are met by routine inspections and quality control procedures. Strong communication and cooperation amongst project stakeholders are also essential throughout the building phase. The construction team, subcontractors, and other stakeholders participating in the project must be adequately informed about the project's objectives, plans, and expectations. Collaboration encourages teamwork, encourages problem-solving, and boosts productivity. Additionally, throughout the building phase, safety monitoring is crucial. To safeguard employees, reduce hazards, and guarantee adherence to safety standards, project managers must adopt and enforce the necessary safety procedures. The success of the project as a whole and the welfare of the construction crew depend on maintaining a safe working environment. The project's physical realization results from the building phase's successful conclusion. It signifies the accomplishment of project deliverables, milestones, and goals. It prepares the groundwork for later stages including commissioning, testing, and project handover. For engineering and building projects, the construction phase is a crucial step in the project management process. It entails carrying out the project strategy, organizing resources, managing the project, and monitoring it.

Construction success depends on effective coordination, coordination, quality control, and safety management. Project managers can complete the project, fulfil customer expectations, and provide a high-quality completed product by efficiently managing the construction process.

## CHAPTER 3

### PROJECT CONSTRUCTION: SIGNIFICANT IN PROJECT MANAGEMENT

---

Dr. Akhila Udupa, Associate Professor,  
Master in Business Administration (General Management), Presidency University, Bangalore, India,  
Email Id-akhila.udupa@presidencyuniversity.in  
Prof. Shivaraman, Regional College of Management, Bangalore, India

#### ABSTRACT:

Construction schedules specify the order of activities and their length, acting as road maps for project implementation. By outlining a precise timeframe for each activity and highlighting crucial dependencies, they assist project managers with resource allocation, procurement planning, and risk management. Project managers may maximize resource utilization, reduce delays, and guarantee on-time project completion by using effective construction scheduling. It aids in early conflict or bottleneck detection, enabling proactive mitigation measures and timetable modifications. Construction timetables also encourage cooperation and communication among project participants. All parties involved may use them as a shared point of reference, ensuring that everyone is aware of the project's timeframe, deadlines, and expectations. This encourages collaboration, cooperation, and wise decision-making. Construction schedules facilitate budget planning and control, which further aids in cost management. Project managers may track project expenses, monitor spending, and prevent cost overruns by matching project activities with the project's financial restrictions. Schedules make it possible to estimate costs accurately, assisting with resource allocation and helping to spot areas where money may be saved. The efficiency of building schedules has increased because to the usage of technologies such as scheduling software and Building Information Modelling (BIM). Project managers may use these technologies to develop dynamic timetables, integrate real-time data, and track project progress. They provide improved construction schedule management in terms of transparency, accuracy, and flexibility. The management of engineering and construction projects relies heavily on construction timelines. They provide a project execution road plan, maximize resource allocation, improve communication, and aid in cost control. Project managers may improve project efficiency, reduce delays, and guarantee successful project delivery by using construction schedules properly.

#### KEYWORDS:

Construction, Contractor, Equipment, Project, Work.

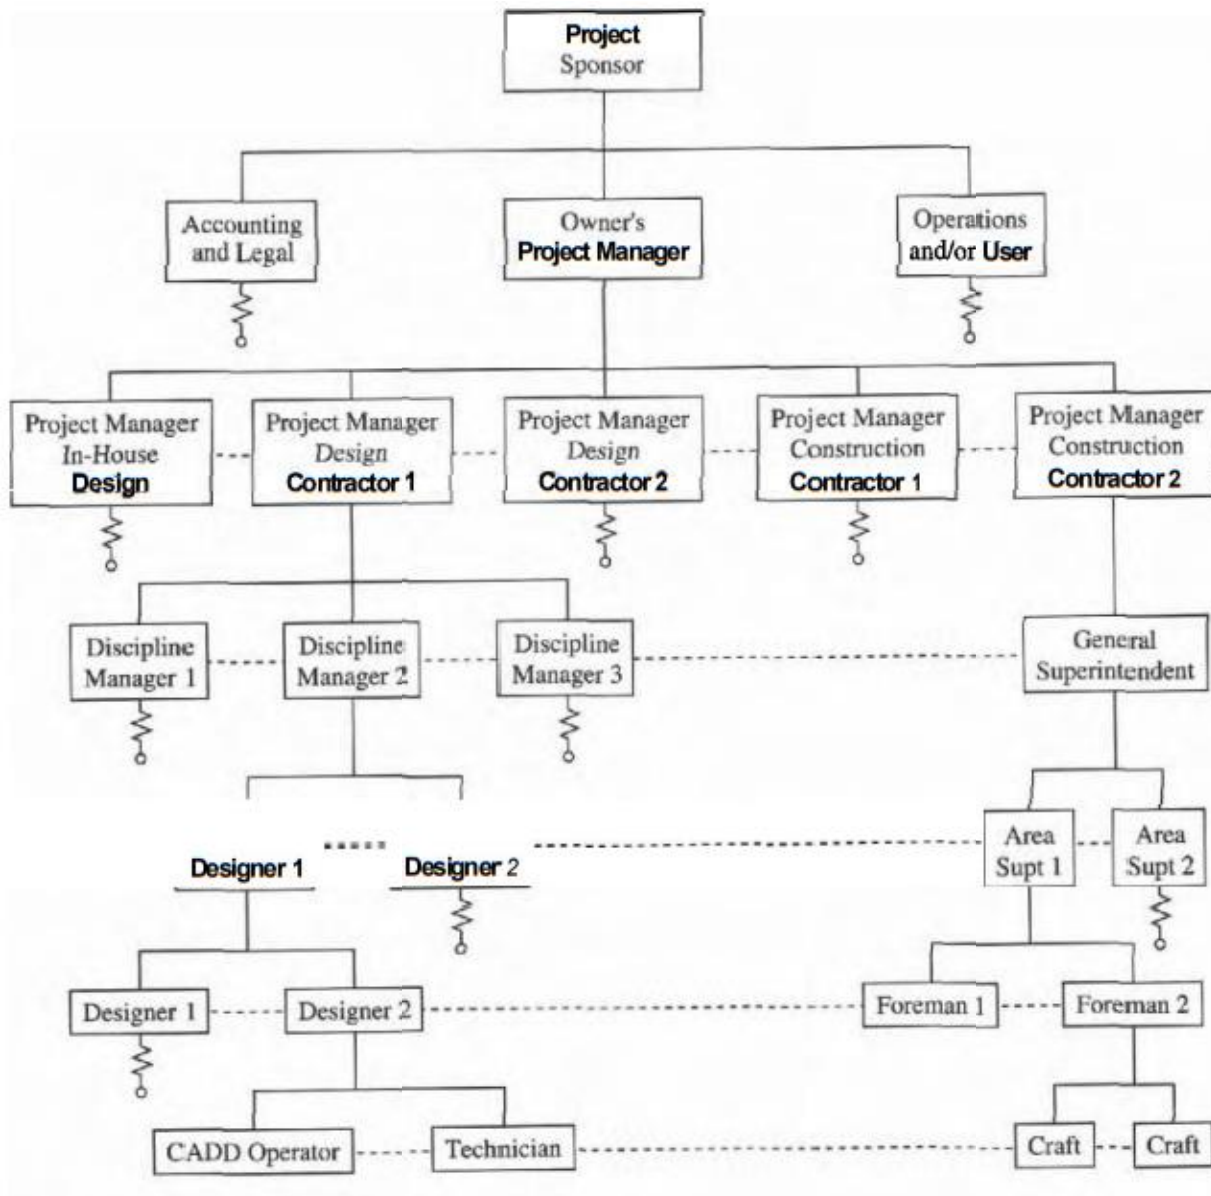

#### INTRODUCTION

The goal of scheduling a construction project is to make sure that the work is adequately planned so that it may be handled successfully and efficiently. A timetable must include all the tasks necessary to accomplish the activity, be arranged logically, and often be displayed as a time scale for simple comprehension. The goal is to make sure that all tasks required to finish the job are well planned and coordinated. As things change, the timetable has to be modified. The building contractor is responsible for both planning and carrying out the job. The timetable must be created with the job-site superintendent's involvement. The superintendent will participate in the daily management of these so that he or she has a better

understanding of how the task will be implemented. The timetable will be utilized to manage the work if the superintendent participated in its creation since he or she will have bought into it. Without the superintendent's input, schedules are seldom effective. Both the individual who prepared the estimate and the contractor's project manager are excellent sources of information and support for the site supervisor (Figure 1).

**Figure 1: Effective Horizontal Communication Channels Necessary during Construction[AccessEngineeringLibrary].**

Creating schedules is important, but the superintendent is the one who must organize the tasks in the order in which the project will be completed. The interests of the owner, the designer, and the contractors are all served by a successful building timetable. The construction timetable must, first and foremost, be readable and simple enough for the workers in the field to understand. Too often, superfluous details that are of little use to the field workers are included in the development of construction schedules. The schedule simply has to be detailed enough for the field supervisors to understand what is expected of them.

Area foremen in the field may then create a daily or weekly work plan for their specific tasks. For instance, if the schedule lists second floor painting as an activity, the paint crew's supervisor may create a daily work plan listing the precise rooms that must be painted during the week indicated in the construction calendar. Dates for the arrival of materials and equipment are crucial during construction since they often result in delays. To guarantee that supplies and equipment arrive at the project site when required, delivery dates for crucial activities must be continuously monitored[1]–[3].

## DISCUSSION

In certain circumstances, a contractor could refuse to provide the owner with any timetable on the grounds that the owner won't be able to prove that the contractor didn't properly plan or coordinate the work in the absence of a schedule. An alternative argument contends that the lack of a timetable throughout construction enables the contractor to construct an as-planned rather than an actual schedule at the conclusion of the project to protect his interests in the event of disagreements or claims. Include the construction timetable as a particular pay item in the contract agreements as one way to encourage the contractor to create a suitable construction schedule. When the baseline schedule and each monthly schedule update have been submitted, the contractor would then be allowed to charge for this pay item. For instance, the mobilisation payment may be linked to the submission of the construction schedule. As a result, mobilisation expenses would not be reimbursed to the contractor until the construction schedule was provided. Due to the fact that the majority of contracts include payments to the contractor for mobilisation, this is simple to include in the construction contract. Unfortunately, there has been an increase in recent years in the use of construction schedules to support claims against the owner for extra time and expense. Some contractors will only create a timetable if the contract demands it. Construction contracts often relate costs to schedules, which has an influence on the contractor's monthly payment.

Some contractors create a plan with the idea that doing so would increase their chances of getting the owner to pay for extra time and/or money in change orders and claims. As a result, the schedule may sometimes be used to request more time or money rather than just as a planning tool to manage the project. Demanding, scrutinising, and accepting contractor timetables come with hazards. Schedules that have been approved or accepted may have legal repercussions for the owner. When an owner accepts a timetable, for instance, there is a chance that claims may be made against them using the schedule as evidence. Owner. The danger of not mandating building timetables is there, nevertheless. When there is no timeline, the contractor may not adequately design the project, and the owner has no means of monitoring cooperation or progress. The majority of seasoned construction managers agree that risks are reduced when building schedules are necessary. There are a variety of potential issues with construction scheduling, thus whomever is tasked with examining or approving construction schedules should proceed with care. The next paragraph lists a few of these safety measures.

### Precautions for Construction Submittals

A submittal is a document that the contractor sends to the owner or designer for examination and approval. In order to avoid holding up the construction, the contract agreements may sometimes include that the engineer must assess contractor submittals in a reasonable amount of time. Typically, contractors include three or five days for submitting and review timeframes in the schedule. In the event that the timetable is approved, the duration indicated therein specifies what constitutes a reasonable period of time. Any review that takes longer is thus automatically deemed to be reasonable, creating a basis for delay or impact claims.

Other times, the timetable could not include any submitting dates at all. Instead, it is assumed that the submittals will begin the next day or on the same day as the construction activity. The contractor may then file a claim for delays every time a construction activity's commencement is postponed while the engineer analyses a submission for that activity. A clause stating the allocable time for submission review might be inserted into the contract terms to prevent issues related to submittal review timeframes.

For instance, a clause stating that the engineer must examine and reply to a contractor's Horntail within twenty calendar days of receiving a submission might be inserted. Additionally, the contract papers may provide that the contractor's resubmissions must be given the same amount of time for review as the original submission.

The debate over whether the owner and engineer should have a single time period in which to study the submittal and any resubmissions or if the beginning time for submittal review should start afresh with each resubmission has been resolved totally as a result of this. This is a fair distribution of the risk of submitting unacceptable materials. Many issues with submission reviews and the effects of review delays may be avoided with a contract that includes submittal reviews in the construction schedule.

The contract may include a clause requiring the contractor to provide a construction schedule of all submittals needed for the project, including when each submittal will be made available for review. The contractor will be more likely to have a strategy for all submittals if this is done. Additionally, it enables the owner and engineer to properly plan their personnel and workload for the review procedure. It will be easier to include submittals if the designer provides a comprehensive list of all necessary submittals. In the timetable.

### **Delivery Dates of Owner-Furnished Equipment or Materials**

In the construction sector, it is typical for owners to acquire and provide equipment or supplies with lengthy lead times. For the owner's benefit, this saves time and money.

The construction schedule normally includes the delivery dates for any equipment or supplies given by the owner. If the delivery dates for any materials or equipment provided by the owner are included on the schedule and the owner accepts the schedule, an implicit guarantee that the goods will be delivered by the date indicated on the schedule is created.

The contractor may submit a claim for additional expenses owing to work delay and impact claims if the owner is unable to fulfil the previously planned and agreed-upon delivery dates.

When the delivery dates for all owner-furnished products are indicated on the construction schedule relatively early, this might cause another issue. This gives the owner more chances to be held liable for delays if the owner-furnished goods are delivered later than expected.

The earliest delivery dates for all owner-furnished equipment might be included in the contract terms to assist prevent this kind of issue.

These dates may be based on the manufacturers stated delivery dates, plus a suitable time contingency. Making provisions in the contract terms that specify owner-furnished products will be supplied not sooner than one date and not later than another is another way to deal with the problem of claims relating to such things is one way to solve the issue.

The contractor is given some confidence that the products will arrive on the project site when expected in this way. Risk associated with owner-furnished products is decreased by giving a range of anticipated delivery dates.

## Scheduling Contractor Procured and Installed Equipment

The construction schedule, which only lists equipment installation as one activity, does not adequately describe the labour required to acquire and install the equipment. The fabrication, delivery, and installation of large pieces of equipment purchased and installed by the construction contractor should be shown as independent operations. This guarantees that the contractor has made enough plans and eliminates uncertainty about the manufacturing and delivery schedules. The pay request from the contractor for the equipment is also made clearer since it is anticipated that the pay request for equipment purchase will come much sooner than the pay request for equipment installation. Which pieces of equipment are regarded as significant should be specified in the bid papers by the designer. Another way to aid in the correct planning and scheduling of contractor-provided equipment is to add a clause in the contract requiring the contractor to give a separate schedule outlining the expected order and delivery dates of each piece of equipment used on the project. To avoid any misconceptions, it is important to clarify in the contract terms which equipment components are significant.

## Contract Schedule Constraints

The contract contracts may be created to include specific timetable requirements that demand construction activities be finished before other activities can begin, or sequences that must be followed to avoid disrupting other operations, during the design phase of a project. This kind of circumstance is more common during renovation projects than during the building of new facilities. These rules may not be followed in the contractor's first schedule submission. The contractor may claim that the owner waived the contract requirements by accepting the schedule and that, as a result, the owner now owes an equitable adjustment in order to re-establish these constraints. This could happen if the owner accepts the schedule without the constraints and then later tries to enforce the contract requirements. All restrictions should be thoroughly examined by the owner and designer to see how they will affect the contractor's operations. To guarantee that a comprehensive list of restrictions is included in the contract terms, this must be done during the design process. Constraints on the contractor often result in more money spent and more time needed to do the job.

## Sequestering Float

Sequestering float is a method of creating a construction schedule where most tasks have little or no float. Because the non-critical pathways have very little float, such as less than five or ten days, the outcome is a timetable with many critical paths or one critical path with numerous additional paths that are near critical. Schedules for construction with a lot of sequestering float are susceptible to delays. Any owner intervention with the contractor's activities raises the possibility that the contractor may file claims against the owner for extra expenditures.

The construction schedule may also include preference sequencing, in which tasks that may be completed simultaneously are shown as sequential rather than concurrent. Reducing float in the network by showing operations sequentially rather than concurrently results in more essential activity. To assess fake activity durations, the construction timetable should be carefully examined. For instance, an activity that is advertised as having a twenty-day length may only need 10 days, which would decrease network float. A non-sequestering float language may be included in the contract terms to reduce issues with sequestering float. A clause of this type might say something like, Pursuant to the float sharing requirement of the contract documents, the use of float suppression techniques such as preferential sequencing or logic, special lead lag logic restraints, and extended activity times are prohibited and the

use of float time disclosed or implied by the use of alternative float suppression techniques shall be shared to the proportionate benefit of the owner and contractor.

### **Schedule Updates**

A project's initial timetable, which was usually sound, sometimes deviates into one that is impossible to maintain because of sloppy modifications. There is a propensity to apply restrictions to represent the real work when adjustments are made throughout construction. Activity limits like start-to-start and finish-to-finish virtually always result in illogical reasoning, which often causes misunderstanding and mistrust of the timetable. It may be beneficial to evaluate the update process with the owner, designer, contractor, and any significant subcontractors. The communication between all stakeholders will be improved, and there will be less surprises when the schedule modifications are given. The limitations on the activities are often removed by the conversations. It is advisable to avoid using activity limits while creating the first schedule or when creating schedule modifications.

### **Relations with Contractors**

During the building phase, construction contractors take the main position; nevertheless, the owner and designer also play a crucial role. For the project to be completed, a collaborative atmosphere conducive to cooperation has to be created. Compared to other industries, the construction business is distinctive. Because every construction project is unique, there are many different trades involved, projects are planned and completed quickly, and there is a wide range of materials and equipment that has to be installed. Additionally, a lot of the labour is done outside and construction employees often lose their jobs due to self-employment. Due of these circumstances, managing the building is difficult, and participant collaboration is crucial. All interactions with contractors must be respectful, consistent, fair, and firm. To earn the respect of others and persuade them to accomplish what has to be done, one must behave oneself professionally. It is sometimes necessary to be aggressive without being unpleasant, and other times to be quiet without being a pushover. To operate in a construction setting, one must learn how to interact with people and know how to respond in any circumstance. Due to the nature of building projects, disputes and confrontations between people do sometimes occur. One must understand that fights and disagreements are not always negative since many brilliant ideas have come about as a consequence of confrontations. The mind-set that ought to rule is that diplomacy may turn conflicts into accords. There are instances when adopting a neutral stance could be preferable. Contractors are autonomous commercial entities that are solely needed to provide the contract's final product or service. There are instances when an owner and a contractor may not agree, but getting the job done should always come first. The contractor's skills, labour, and equipment are used to their fullest potential when there is a good owner-contractor partnership.

### **Dispute Resolutions**

Contractors, owners, and designers will virtually certainly be engaged in conflicts given the nature of building projects. A conflict may be settled by discussion, mediation, arbitration, or litigation, among other options. Direct talks between the disputing parties might be arranged to address the issue honestly and find a solution that will satisfy everyone. There are often no additional parties involved. Through mediation, disagreeing parties are given the option of working with an impartial third party to help them reach a resolution. A final decision cannot be made by the mediator. The main difference between mediation and arbitration is that the arbitrator has the power to provide a final, binding judgement that cannot be challenged by any party. A panel of arbitrators may be used in certain cases to settle disputes. Litigation is the process of resolving conflicts via lawsuits that follow the official procedures of the

judicial system. Generally speaking, compared to the other techniques, this one takes a lot longer and has much greater legal fees. Negotiations are often the fastest and most cost-effective method for resolving disputes since factual issues may be handled without adhering to formal legal procedures. ~The parties participating in the lect have voluntary informal lect talks at mutually convenient times and locations. Each party's representative must be able to speak for their organisation on the negotiating table. The intricacy of the topic determines the size of the negotiation teams; nonetheless, efficiency is often greater with fewer people participating. The degree to which the contract decisively resolves the problems at issue in the disagreement, the level of preparation made before to the negotiation, and the desire of both parties to engage in good faith negotiations all affect how well the negotiations proceed. Direct discussions between the parties may improve their successful business relationships. Mediation is often the next best course of action when direct discussions fail to produce a resolution. Similar to negotiation, mediation is voluntary, so both parties must agree to have the mediator act as a catalyst to explore potential solutions, to gather information and resolve misunderstandings, and to influence the parties to adopt flexibility in their positions in order to reach a final settlement.

The disputing parties and the mediator may meet in public or in secret throughout the procedure. Both parties to the dispute mutually agree on the mediator. A public-service, non-profit organisation called the American Arbitration Association (AAA) has set standards and regulations for mediation. Arbitration is the process of submitting a disagreement to a mutually chosen, neutral a third person whose judgement is enforceable and legally binding. An arbitration provision is often placed in a contract's general terms in order to employ this approach, therefore the parties acknowledge and agree that any disputes will be resolved by arbitration upon the execution of this Agreement. The articles that make up the Construction sector Arbitration Rules, developed by the AAA, are now the most well-known arbitration procedures in the construction sector. The steps are as follows: agreement to arbitrate; choice of arbitrator; hearing preparation; hearing of the dispute and award. Within 30 days after the hearing's conclusion, the arbitrator typically renders his or her ruling. As a result, judgements are reached far more quickly than via litigation.

Since litigation is the most expensive, time-consuming, and difficult means for resolving disputes, most parties attempt to settle disagreements before taking them to court. The interests of the parties are represented by legal counsels who adhere to the rules of the legal and judicial systems. A legal tribunal decides the dispute's ultimate conclusion. Frequently, an agreement to resolve the conflict is struck shortly before going to court. Avoiding and Resolving Disputes during Construction is a brochure published by the American Society of Civil Engineers that outlines a way for fostering cooperative, problem-solving attitudes on projects via a fundamental risk-sharing concept between the owner and contractor. It outlines unique contract clauses and procedures that have been successfully used to hundreds of projects to prevent or settle conflicts without going to court. These three clauses Dispute Review Boards (DRB), Escrow Bid Documents (EBD), and Geotechnical Design Summary Reports (GDSR) are thoroughly explained and advised on all projects with a high risk of significant conflicts. A three-member DRB that is established at the start of construction helps to prevent disagreements and, in the event that they do arise, offers prompt and fair suggestions for non-binding remedies.

The contractor's bid papers may be reviewed to create a trustworthy database that can be used to negotiate price modifications and settle disagreements. The contractor's entitlement to compensate for significantly different site conditions is acknowledged by the inclusion of the Federal Differing Site Conditions provision and a GDSR in the contract. This also creates a

clear geotechnical baseline to detect different site conditions. Along with implementation guidelines, these requirements are included in the brochure[4]–[6].

### Job-Site Safety

Like planning, scheduling, estimating, cost management, and other aspects of project work, safety is a crucial component of project management. Safety must be prioritised at all levels and throughout the whole project. Accidents have an impact on both workers and their families. The financial expenses, liability repercussions, legal obligations, and corporate reputation all highlight how crucial project safety is. There are many fundamental ideas and methods that may be applied to safety that were previously discussed in relation to project management. Every stage of a project's design and construction should take the aspect of safety into account. Safety is not something that is added to a project by mistake; it has to be planned for and managed just like scope, budget, and schedule. Due to the nature of the activity, construction entails several potential risks for both equipment and personnel, including heat, noise, wind, dust, vibrations, and poisonous chemicals. The federal government established the Occupational Safety and Health Administration (OSHA) as a regulatory body to guarantee worker safety. It is applicable to everyone participating in a project, including the designers, owners, employees, and contractors.

Despite the fact that OSHA and other laws have been passed for safety, management is still in charge. The project manager must collaborate closely with the other members of his or her team to include safety into all project phases, including planning, design, budgeting, and construction. Starting at the top of the organisation, safety should be ingrained at every level of management down to the crews and employees on the job site via words and deeds. Despite the fact that the contractor is now given ultimate responsibility for construction safety, there should be a coordinated team effort to comprehend and put into practise a safety mind-set that enhances job-site safety[7]–[10]. Medical expenses, premiums for compensation benefits, liability, and property damage are all included in accident costs. In recent years, these expenses have increased. Accidents often result in other substantial expenditures, however. These expenses include missed wages for the wounded worker, lost wages for other workers who had to miss work due to an accident, and lost supervision time.

The focus of everyone must be on safety. According to research, managers of safer work sites deliver higher results. They do a better job of keeping labour costs down and projects on time. These facts run counter to two justifications managers sometimes cite for a poor safety record: accidents are unavoidable in a hazardous business-like construction, and finishing the project must come first. These managers are duped by urban legends that may be quite expensive for the project and the business. Productivity and safety on the work site should be managed as two interrelated components of great job performance. It has been said that a successful work site manager once said, you don't have to trade production for safety. The staff will work more quickly the safer they are. You may be more productive the safer you are. Prequalification of contractors is often determined by their bonding capacity and prior work history. The building company is often chosen based on the prequalified contractors' lowest bid price. Perhaps a contractor's safety record should be taken into account as a mandatory component of construction bids, and a bid might be rejected on the basis of an unsatisfactory safety record.

### Management of Changes

In order to finish a project, certain adjustments must be made while it is being built. The owner, designer, or contractor may be the cause of the alterations. After construction is finished, an owner could want to make a modification to more effectively employ the project

for their intended purposes. Because it is not always feasible to forecast all the events that will emerge throughout the construction process, a designer or contractor may desire to make changes to the original plans or specifications. Changes thus occur throughout construction virtually often. The change-order, a form that is used to make modifications during building a documented account of the changes made to the work. The initial bid paperwork, together with any authorised modification orders, serve as the legally enforceable contract documentation for the project. Despite the fact that a change-order may raise or Most change orders affect a project's cost and/or schedule by adding to the cost and/or delaying the project's completion. Therefore, every project manager must exercise caution when handling modifications during construction since a change in the work nearly always has a negative impact on the project's budget and schedule. If changes can be foreseen in advance, management of such changes is substantially improved. Before construction starts, there are several variables that may be identified that serve as early indicators of project alterations in the future. According to research, lump-sum projects with a big cost differential between the lowest and next highest bid amount often see significant cost rises. The phrase money left on the table is often used in the construction business to refer to the gap between the lowest bidder's offer and the bid of the next highest bidder. Because high money-left-on-the-table is a sign of potential cost escalation, a project manager should put more effort into monitoring and regulating the project. A monthly request for a list of expected change orders is one method for managing modifications during construction. In order to assess the necessity for and/or usefulness of the change, the project manager or his or her assistant first consults with the party expecting the change. When the complete impact of a change is contrasted to its genuine worth, an honest examination of its merits might sometimes lead to the conclusion that the change is not actually essential. Because changes to one component of a project often have an impact on other sections of the project, every facet of a modification must be carefully considered. Sometimes the entire effect on other project components is unknown until a later time, which might have a negative impact on the cost in the project's later stages. A change that happens later in the project as a consequence of a change made earlier in the project is sometimes referred to as having a ripple-effect. Changes during construction should be avoided unless they are absolutely essential. If a change is required, it must be carefully considered, precisely specified, accepted by all involved parties, and executed in the most effective and cost-effective way possible.

### Resource Management

For a project to be completed, a lot of resources are required. Resources include people, tools, supplies, and independent contractors. To save expenses during construction, each resource must be controlled as effectively as possible. The most crucial resource on the project are the tradespeople who run and install machinery. These people learn their expertise via education and practical practise. As long as the necessary training, equipment, and resources are accessible when required, they are capable of completing the task. The skilled personnel are often criticised for the project's poor-quality work. Though itPeople don't often produce subpar job on purpose. Poor work is often the result of inadequate instructions, delayed delivery of supplies, unavailability of equipment, or a lack of direction and supervision. These issue-causing factors are the fault of administration of the project. As a result, the project must have a well-defined work plan that outlines both the work that must be done right now and the work that is scheduled for the future. The project's craft teams must be made aware of this strategy. The kind and quantity of equipment employed on a project relies on the project's specific requirements. For instance, a sizable spread of scrapers, dozers, water waggons, compactors, and motor patrol graders may be needed to build a sizable earthen dam. However, simply a modest front-end loader, truck, and portable crane may be required

for the building of a strip mall. Just as there has to be a plan for the employees on the project, the choice and use of equipment on a project must be an intrinsic element of the overall construction plan and timeline. The task of creating an equipment plan for the project falls on the construction project manager and his or her field supervisor. The maintenance of equipment and its downtime should be given enough attention since its unavailability may have a substantial influence on a project's timetable. The purchase and installation of materials is a significant expense for many building projects. The primary duties of a materials management system are the identification, acquisition, storage, distribution, and disposal of materials required for a construction project. By making sure that high-quality supplies are accessible when and where they are needed, the efficient use of people may be significantly improved.

The size, location, cash flow needs, and methods for purchase and inspection will all affect a material strategy. The timeliness of material deliveries to the project site is crucial since these deliveries whether they are partial, late, or of the incorrect kind are often the root of construction delays. The building project timetable must take lengthy lead time materials into account. The contractor is in charge of making sure that the project has a well-defined materials management system and materials management strategy. For the majority of projects, the owner gives a prime contractor often referred to as the general contractor one contract to complete the project's construction phase. The general contractor then engages a large number of speciality contractors, sometimes known as subcontractors, to do the building work that needs specialised knowledge or tools. Therefore, multiple subcontractors that work for the general contractor do a large portion of the needed work on many construction projects. In order to integrate the work of all subcontractors on the project, this multiple-contract model requires meticulous planning, scheduling, and coordination by the general contractor. This is required since each subcontractor's work often has an impact on one or more other subcontractors working on the project. For a big project that takes a long time, the owner could hire many prime contractors. The same management ideas discussed throughout this book should be applied to the management of subcontractors. Each subcontractor on the project must have a clearly defined scope of work, pricing, and timetable. Additionally, there has to be a clear interface between all of the project's subcontractors' work. The general contractor is accountable for efficiently managing his or her subcontractors.

## CONCLUSION

Engineering and construction project management cannot be done without construction schedules. They are essential to the efficient management of resources, the timely completion of projects, and the success of construction operations. Construction schedules provide project managers a thorough timetable of the events, tasks, and milestones involved in the project, enabling effective planning and coordination of the building process. Schedules aid in optimizing resource allocation, reducing delays, and ensuring that project goals are achieved within the allotted time period by describing the order of tasks and their length. Project managers may see possible problems or bottlenecks early on and take steps to alleviate them with the help of effective construction scheduling. Project managers may proactively handle difficulties, make required schedule modifications, and keep the project on track by analyzing essential dependencies and possible hazards. Construction timetables also encourage cooperation and communication among project participants. All stakeholders are aware of the project timeframe, deadlines, and expectations thanks to its use as a single reference point. The building process benefits from excellent cooperation, coordination, and decision-making as a result. Another important factor backed by building schedules is cost

control. Project managers can efficiently track project expenses, monitor expenditures, and control the budget by matching project activities with budgetary restrictions. Schedules make it possible to allocate resources efficiently and find cost-cutting possibilities. The efficiency of building schedules has significantly increased because of technological advancements like scheduling software and Building Information Modelling (BIM). Real-time data, visualization options, and more flexibility in controlling and changing schedules are all provided by these technologies, which improves project results. In engineering and building projects, construction timetables are essential to the project's success. They provide a project execution road plan, maximize resource allocation, improve communication, and aid in cost control. Project managers may create effective construction processes, satisfy project goals, and deliver successful projects on time and within budget by efficiently using construction schedules.

## CHAPTER 4

### A BRIEF OVERVIEW ABOUT BIDDING, TENDERS AND CONTRACTS

---

Dr. Nalin Chirakkara, Associate Professor,  
Master in Business Administration (General Management), Presidency University, Bangalore, India,  
Email Id-nalinkumar@presidencyuniversity.in  
Prof. Shalini, Regional College of Management, Bangalore, India

#### ABSTRACT:

Contracts, bids, and tenders are essential parts of project procurement and are very important in managing engineering and construction projects. The relevance of bids, tenders, and contracts are briefly discussed in this abstract, with special attention paid to how these factors affect project success and their significance in the project procurement process. The practice of requesting competitive bids from possible contractors or suppliers to carry out particular work or deliver products and services is known as bidding. Contrarily, tenders are official proposals or bids made by suppliers or contractors in response to a client's request for bids. Contracts are written agreements that formally establish the client's connection with the chosen supplier or provider.

#### KEYWORDS:

Bids, Contracts, Cost, Management, Tender.

#### INTRODUCTION

A contract with all parties involved provides the crucial and vital backbone to any project, regardless of its potential effects on the behavior of a project's service providers and/or on the ability of the project management team to overcome any gaps or limitations in its provisions. The various forms of contracts and bids that are used often are covered in this chapter along with their benefits and drawbacks. It often occurs for a project manager to work for a firm with a well-established market presence for a significant amount of time. This alone may help to promote a certain complacency regarding tendering and contract processes that are already known from prior projects. It appears reasonable to anticipate reaching the same conclusion as they did at a different period and under a different set of circumstances while following in the footsteps of one's predecessors in writing another contract. However, it is prudent for the current project manager to examine how earlier contracts were really carried out and how their faults and flaws were resolved in order to prevent unpleasant surprises. This may be easily discovered by looking at the contractors. Engaged on the present project, evaluating their output, and taking into account how their output may be improved by the introduction of specific adjustments to tendering and/or other contract processes[1]–[4].

If close-out reports from earlier projects are sufficiently transparent and clear, a study of them may swiftly inform a project manager on the relative strengths and flaws of those projects. This makes it easier to revise the tactics to use while interacting with the different service providers. This may help the business achieve better success than it could have with those counterparties in the past. There have recently been unheard-of developments in the growth of industry due to the ease of communications and accelerating of movement between nations and continents as a consequence of cheap transportation and communications at the global level. This has encouraged the freer, or less constrained, flow of commodities and services

internationally across different countries. At the same time, this ostensibly freer trade across countries and continents has increased rivalry between businesses and international Organisations, with each trying to hold onto and grow their portion of the global market. As a result, competition has increased as each player strives to establish or seize market share with novel or distinctive products and services that outperform competitors[5]–[7].

These circumstances have opened up a whole new sector of management consulting in the domain of market strategies that take into consideration this escalating global competitiveness.

The owner of a project could get proposals from several nations. Decision-making in such a setting must be guided by thorough and unbiased information, including the most recent developments on international norms that are widely recognized. It is especially important to manage project arrangements in a way that ensures the customer's trust in a product or service since there may be a significant physical distance between the client and the engineering office or factory of a contractor. One such system will be covered in chapter eight and is that of the ISO (International standardized Organisations, a division of the United Nations). Along with these factors, the completion of a contract that was thoughtfully constructed offers an additional assurance of product-quality assurance, at the proper price, delivered on schedule. Using a tool like a FIDIC contract, which is a standard contract created by the International Federation of Consulting Engineers, helps the project achieve the intended outcome even more[8]–[11].

## DISCUSSION

Project management comes into touch with the reality of the contemporary construction industry when it comes to projects that include the construction of one or more physical facilities, such as factories, offices, workshops, warehouses, oil and gas fields, or other energy generating or energy supply projects, etc. Construction contracts are typically, at least initially, a three-way arrangement. Between the owner and the principal contractor on the one hand, and between the owner and the supplier of engineering services on the other, there are two major contracts (Figure 1). Of course, the engineering company and/or the contractors also have agreements with subcontractors to deliver goods or render services.

The overall project will be impacted by all of these contracts. In order to achieve a quick response, speed performance, or ensure quality-of-service in the maintenance of the engineering firm's computer systems, for instance, the services for an engineering firm might be provided by a company that maintains their computers but with whom there is no legally binding contract.

This would cause the overall design time to exceed what would be anticipated if such a third-party service provider were not involved in the process. In other words, a contract between an owner and a contractor may seem good on the surface and be apparent to both parties as to all of its implications. However, additional arrangements between the owner or contractors and individuals who are not directly party to their contractual connection, or for others whose relationship with them is not tightly governed by contract, might prove to be quite troublesome. The skilled and vigilant project manager takes sure to look out for and avoid such potential minefields that are concealed. Every contract is crucial to the project, and everyone should be aware of its purpose.

However, the riskiest contracts are sometimes the most crucial since they typically include the biggest financial investments in the project, notably the building contract between the owner and the primary contractor. The sort of contract, how each contract differs based on the

project's nature, and its goal must all be determined by the owner. Formal owner-contractor agreements may take many different forms and sizes. The following are the most often observed:

1. Measured contract.
2. Lump-sum.
3. Cost-plus contract.

**Figure 1: Representing the Contracts inside the project[AccessEngineeringLibrary].**

### The Measured Contract

This kind, one of the most popular in the building industry, has developed a solid reputation through many years of usage in a variety of situations, including both stable and unstable social and economic conditions. Quantities of each item are included in the contract paperwork, along with precise descriptions and detailed specifications. When calculating the item's overall cost, the contractor multiplies the price of each item by the amount.

The sum of all these costs is the overall project cost. The benefit of this strategy is that any effects on the price of this item, which was predetermined on a basis specified in the contract, can be easily ascertained, as can any shortages or increases in quantity. The inclusion of a fixed price throughout the project time has recently come to be considered as a possible source of harm to the interests of the contractor, who receives little to no specific protection under this form of contract, in light of increasing pricing and other continuous market developments. A widely-used international commercial practice has emerged whereby, in the case of a project whose execution exceeds twelve months, a clause in the contract provides for allowing increased prices for labour, materials, or tools. This is because contractors have become reluctant, or have even refused, to tender for contracts that have not provided some safeguard against rising costs. In European nations, the Department of Environment and other governmental agencies produce a bulletin each month to explain pricing increases.

## The Lump-Sum Contract

Historically, low-cost projects have employed this kind of contract. In this agreement, the contractor will carry out the job for a set fee. Because there is no quantity computation in this contract, the drawings and specifications must be unambiguous. Therefore, it may be challenging to estimate the amount of variation cost when the location changes. Due to this situation, talks between the contractor and owner may drag on and damage the project as a whole. Modern versions of this kind of contract describe the engineering, procurement, and construction (also known as EPC) at one location at the same time as a turnkey solution. It fosters intense rivalry among contractors, especially in a project's design area. One is due to the fact that one aspect alone may considerably lower a project's overall cost. The advantages the owner, who may anticipate beginning to realize profit from the project's entry into actual operation that much sooner and at the lowest cost. Of such a development are unavoidably to return to the owner.

The ability to divide big expenditures or milestones, such as the purchase, delivery, and/or installation of equipment on-site, is another crucial feature of the lump-sum contract. In this situation, a contractor might be interested in dividing this cost into separate amounts to represent the costs of providing the machinery's concrete base, performing mechanical work on the equipment, supplying and installing the machine, and finally attaching the machine to an external source of electricity.

The contractor and project owner may be able to allow themselves leeway to negotiate their way around the impact of any unforeseen price rise in any one of these things by thus breaking out the price of each component item of activity separately in this manner. Some contracts additionally include an appendix that lists the cost of goods or labour per day that is likely to cause this activity to grow or decrease.

## The Cost-Plus Contract

For the course of the project's construction, the contractor will provide construction at its real cost plus a predetermined ratio. This latter sum comprises profit and supervisory expenses. This is set throughout the length of the project, provided price increases do not cause an issue.

The primary drawback of this sort of contract is the amount of supervision necessary, which includes daily inspections of the facility, staff, and supplies. Cost-plus agreements are often utilized for projects that need to be completed quickly, urgently, on a very small scale, or that are of great significance. For urgent objectives, they often need materials delivered in distant locations. These contracts are often used in oil and gas projects since they frequently call for quick action to address some unforeseen issue or other. The bills from the suppliers reveal the cost of the materials, and the contractor receives the predetermined set proportion.

## Contracts between an Owner and an Engineering Consultancy Office

The Engineering Office provides a thorough description of the services to be supplied, and this contract is based on several defined criteria. The anticipated value is often within 7% of the project's overall expenses for smaller consultancies and within 5% of the project's total costs for bigger corporate entities in companies of European and Arab nations. Based on project size, the Engineers Association has determined these percentages. There can be extra charges for facility usage, travel, and other supervisory costs whether the contract is for design services alone or design services with some on-site supervision activities. In certain projects, supervision costs could be fixed rather being calculated as a percentage.

This kind of contract is often based on the price of man-hours used in large projects. The lead engineer, senior, junior, and drawing hourly rates are all specified in the contract. The total cost of the project is calculated by counting the hours that each group spent working on it. Any administrative, insurance, tax, or other costs are included into the pricing, which is based on an hourly rate. The advantage of contracting on this basis of man-hours for the engineering office arises when the owner asks revising any aspect of the study design or adding another component that was not initially included in the scope of work supplied to the engineering office. The extra cost may be simply computed since the office gives a certain number of hours for each member and the rate is already a known figure.

### The Importance of Contracts for Project Quality Assurance (QA)

There are various types of contracts between the owner and the contractor as well as between the owner and the engineering office, and bugs in the contracts can result in issues that may be challenging to resolve, taking up valuable time and affecting the project's final cost. Periodic particular reviews provide a crucial way to keep a successful contract that completely fulfils all requirements so that you may prepare for this possibility in advance. And knowingly. Including amount in addition to the drawings and requirements. There are some other fundamental items that are frequently overlooked when contracts are being written, such as the specifications of the onsite working conditions, the cost of the materials, labour, and tools, the price for the materials, labour, and tools, and the price. as well as the definitions of the working relationships to be maintained between the owner, the contractor, supervisory personnel, and the engineering facility. Other administrative matters, such as the health, safety, and environmental (HSE) standards that must be adhered to, the precautions to be taken to ensure employee security, the methods to be used to manage potential costs associated with accidents or illnesses that may occur on the job site, the sums to be set aside to pay for taxes and other government fees, the legal and/or judicial processes to be used in the event that a dispute between contracting parties cannot be resolved through mutual consent, and other matters, are no less significant.

The FIDIC instrument, which includes precise forms covering these and other similar issues, serves as an illustration of a stable regime for international contracts. Major multinational projects employ FIDIC as the de facto reference norm for contracts between nations.

**Table 1: Cost, time, and resource estimate sheet.**

<b>Client</b>		<b>Project number</b>	
<b>Project title</b>		<b>CTR number</b>	
<b>CTR title</b>		<b>Start date</b>	
<b>Revision</b>		<b>End date</b>	
<b>Scope:</b>			
<i>In this section the scope of work will be written in summary but should be precise.</i>			
<b>Assumption:</b>			
<i>The assumption that the designer will take into consideration that according to these paper the client will accept and review that.</i>			
<b>Inputs:</b>			
<i>In this item will be the input data which will be the SOR from the client, soil data, survey maps, and other data that the client should deliver to the engineering firm.</i>			

## Contracts in ISO

In ISO 9001, procedures regarded as best practises for contract reviews are outlined. The following elements are covered by the ISO requirements for creating and evaluating contracts:

1. Contracts document.
2. Review contracts.
3. Procedures.
4. Requirements.
5. Capability of contractors or service provider.

The contract papers itself may make reference to or include portions of the ISO standard. The contract agreement must include plans to assess the deliverables' quality as well as a quality plan from the contractor or supplier. It is highly advised that the parties carefully check the contract before signing to make sure that all obligations are spelt out in it. The vendor or contractor must be able to show they have the skills necessary to complete the if there are any additional requirements that go beyond the main scope, the contract. This added scope has to be agreed upon and included in the final agreement.

## Bids and Tenders

The next stage of the intricate administrative work begins once the project and its scope have been established, all drawings and requirements have been gathered, the kind of contract has been chosen, and the contract's final form has been decided. The project manager learns about the legal framework for contracts and project bids in each nation during this phase. Different approaches may be used in this area to lessen unfair or unauthorized manipulation of the project and/or its contractual arrangements. This is also the area where potential or real corruption may be contested, disclosed, or prevented, ensuring continued and assured fair competition amongst contractors. Most nations have rules that encourage local construction enterprises while simultaneously allowing multinational construction companies access to their markets. Understanding the legislation regulating tendering and bidding processes is crucial to understanding this area of a project manager's duties.

This has an impact on the project's principal goal of hiring a service provider that can achieve its goals while providing the requisite quality at the lowest cost. Although many nations share many of the same core concepts and practices of business law, each one has its own unique characteristics and applications. Because of this, it is not unexpected to see multinational corporations doing business in several nations depend on a contracts department that can handle contracts and bids in accordance with the unique legal requirements of each nation's contract law and tendering processes. The overall structure of the many tender types, the requirements to be met, and the features of each form of bid are all well-established. Among the primary categories of tender, there are some distinctions in the budgetary constraints and operational specifications. The following four primary kinds are covered:

1. Public (open) tender.
2. Limited tender.
3. Negotiated tender.
4. Direct order.

## Public (Open) Tender

The owner creates lists of the works and accessories, as well as the service terms and conditions handbook. These papers need extra attention during preparation. The contract's

terms, as well as its administrative, tax, insurance, and succession obligations, must all be preserved in writing. English is the language that contracts are written in and are standardized on. The basic terms and conditions of the contract are included in translated brochures, and in the case of foreign bids, they specify if Arabic, French, Chinese, or other texts are applicable in the event of a dispute or ambiguity over the content. Newspapers publish advertisements for open bidding. The declaration submitted to tender, the deadline for submission, the work needed, the amount of the primary and final bond, the cost of a copy of the tender terms, whether external tenders must be advertised in the owner country and abroad, and any other information the administration deems necessary for the work should all be included in this timely advertisement.

Typically, a period of at least thirty days from the date of the initial notice of the auction is available for public tender for bid submission. A licensed competent authority may decide to cut the time in half if required, but only by a maximum of fifteen days. Public tenders for the supply of yearly supplies do not have to meet these standards unless in extraordinary circumstances necessitated by the topic of the tender and with the authorized supreme authority's approval. The duration of a tender's validity typically runs from the date fixed for the opening of the envelopes at auction until notification of acceptance prior to the expiry of the tendering submission deadline, unless the body administering the tender's auction promptly requests that bidders accept some extension.

The chain of custody of a company's tendering documents is tracked by a designated employee from the time they receive final approval from the relevant department to proceed until the documents are delivered to the location where the tendering auction will take place. Though this crucial duty may also require notifying a designated responsible person from the auction-managing authority of impending delivery, this delivery is often arranged for the afternoon or morning before the bids are set to be opened. Fairly near to the time formally scheduled for opening the envelopes, of his company's offer. The chairman of the committee in charge of handling the auction's formalities is charged with the following on the day set aside for opening submitted bids:

1. Verify the integrity of the seals on the bidding documents received.
2. Establish in the minutes of the meeting the number of envelopes received.
3. Open the bids sequentially, assigning each opened envelope its uniquely-identifying serial number.
4. Enumerate the components of the tender.
5. Read aloud the name of each bidder and title of their tendering document to the audience of bidders or their representatives. and
6. Announce the amounts of each bid

An initial bond equal to at least 1% of the tender value for the construction work is submitted by bidders. A winning bidder must post a bond equivalent to 5% of the project's construction expenses as soon as they accept the tender award. Usually, these procedures need to be completed within a 10-day window beginning the day after the auction. The period allotted for presenting this bond is often no more than twenty days for winning bidders who are located outside of the nation. The time for submitting the final deposit may be extended by the relevant authorities by a maximum of 10 days.) Government authorities notably promote public bids as a tool for enhancing the overall business environment. The goal of public policy is to promote the growth of new contractors while upholding an orderly, rules-based system with globally recognized standards so that domestic contractors can improve their overall performance and competitiveness in both domestic and international markets.

## Limited Tender

The restricted tender is often employed in most unique industrial projects where there may be a limited number of suppliers or contractors due to their increased specialization. An ISO-compliant pre-qualification evaluation and audit for these firms should be conducted before adding the contractors to the company's bidding list. The owner already has a list of possible suppliers and contractors, unlike the case of the public tender. The restricted bid is addressed to a certain registered group of contractors that are known to have prior relevant expertise. Most commercial Organisations, as well as certain government agencies, utilised this tendering procedure to restrict participation in the bidding to a relatively limited number of suppliers and contractors with a reputation for quality work from inside and/or outside the nation. Saving time and money while starting the project is the goal. The procedures used for announcing a tender, creating a bid, and choosing a winner adhere to the approaches previously covered for public tenders. However, one key new twist in limited-tendering has developed with the widespread use of secure corporate websites via the Internet, which electronically allow the secret filing of bids.

The processes of creating, filing, and amending limited tenders have been made less expensive and, in most cases, just as dependable as the work that previously required many more human agents. This is thanks to sophisticated software that handles online many of the background functions of securing the provenance and chain of custody of tendering documents. On the Internet, an owner would often set up a website where bidders may enter and propose or modify their rates.

The bidders' ability to see the pricing of their rivals ensures that the data is very transparent. Without rumor and enthusiasm, all parties understand why a company wins the offer. All of this obviously depends on detailed descriptions of each project component and what the actual effort required to fulfil it entails. Specifically for chemical bids, oil and gas industries often employ this tender. Only a few numbers of renowned suppliers on the global market are able to fulfil the exacting and well-defined standards, making it easier for the owner to negotiate the best price.

## CONCLUSION

For a project to be successful, effective tendering, bidding, and contract management are essential. They aid in project delivery on schedule, quality control, and cost management. The achievement of project goals is guaranteed by properly signed contracts, which helps to prevent misunderstandings and disputes along the road. Furthermore, well-managed contracts encourage cooperation between the project owner and the supplier or contractor. Project execution goes more smoothly and produces good results when there are open lines of communication, clearly defined roles and responsibilities, and appropriate risk distribution. Contracts, bids, and tenders are essential elements of project management and procurement in the engineering and building sector.

They provide the groundwork for accountability, justice, and openness. Project managers may choose qualified partners, provide precise project requirements, and build a strong foundation for project success by managing these procedures successfully.

## CHAPTER 5

### QUALITY FROM THEORY TO REALITY AND ITS SIGNIFICANT

---

Dr. Pramod Pandey, Associate Professor,  
Master in Business Administration (General Management), Presidency University, Bangalore, India,  
Email Id-pramodkumar@presidencyuniversity.in  
Prof. Akshay, Regional College of Management, Bangalore, India

#### ABSTRACT:

The procedures involved in monitoring and ensuring product quality have elevated to crucial issues for the survival of businesses looking to establish a privileged position at the local and worldwide levels. This is the driving force behind the rising interest in and demand for the most effective techniques for implementing Total Quality Management (TQM). The emphasis of this chapter is on quality management systems in construction projects and the roles and responsibilities of different stakeholders in maintaining project-wide TQM. Any company that wants to expand in the open marketplaces of today, competing and working together to share the local and global markets, has a stake in implementing TQM at all times.

#### KEYWORDS:

Control, Quality, Project, Project, Standards.

#### INTRODUCTION

Any project, product, or service must have quality as a core component if it is to satisfy customers and be successful. The idea of quality changes from theoretical frameworks to practical application in real-world initiatives, going from theory to reality. Understanding the idea of quality and its numerous aspects is the first step on the path from theory to practice. In addition to fulfilling specified standards, quality also refers to providing value, dependability, performance, and satisfying consumer expectations. It entails upholding standards, using best practices, and improving continuously. Theoretical frameworks that give direction and fundamentals for attaining and maintaining quality include Total Quality Management (TQM), Six Sigma, Lean concepts, and ISO standards. These frameworks place a strong emphasis on the value of a methodical approach, continual process improvement, and a quality-oriented organizational culture[1]–[4].

The ultimate measure of quality, however, is how well it performs in actual projects and operations. The process of turning theory into practice is fraught with difficulties. The availability of resources, time limits, budget restrictions, and changeable project settings are examples of practical constraints that might make it difficult to achieve the necessary degree of quality. A thorough awareness of project needs, stakeholder expectations, and the capacity to strike a balance between quality, money, and time are all necessary for putting quality into practice. To guarantee that quality requirements are fulfilled, it includes competent project planning, implementation, monitoring, and control. Quality is also an ongoing endeavor rather than a one-time success. It requires a dedication to constant observation, assessment, and development. To find areas for improvement and implement corrective measures, Organisations must set up feedback loops, carry out routine audits, and participate in continuous learning. The cooperation and coordination of several stakeholders, including project managers, team members, suppliers, and customers, is necessary to execute quality in

real-world projects. Successful quality implementation depends on effective communication, teamwork, and a common knowledge of quality requirements[5]–[7].

The transition of quality from theory to practice is a dynamic and difficult process. To produce the appropriate degree of quality, it necessitates the application of theoretical frameworks, the adaptation of concepts to actual circumstances, and the dedication of all project stakeholders. Organisations may close the gap between theory and practice and produce effective project results by comprehending the obstacles, putting best practices into practice, and promoting a culture of quality. The integration of quality management practices into the project lifecycle is essential for the effective use of quality in real-world projects. This entails including quality planning into the project's initial planning stages, carrying out quality assurance tasks while the project is being carried out, and performing quality control to ensure that the deliverables satisfy the necessary requirements. In the process of moving from theory to practice, the importance of organizational culture and leadership cannot be understated. By promoting a culture of responsibility, continuous improvement, and unrelenting pursuit of perfection, leaders must promote quality as a fundamental value. Organisations may foster a culture where quality permeates every facet of project execution by setting the example at the top and allowing staff to own quality.

When it comes to excellent implementation, the use of efficient tools and methods also helps to close the knowledge gap between theory and practice. Checklists for quality, inspections, statistical analysis, benchmarking, and customer feedback methods are a few examples of these resources. The capacity to detect and monitor quality metrics in real-time may be further improved by using technology and digital solutions, allowing for prompt interventions and assuring adherence to quality standards. In the end, a comprehensive and multifaceted approach is what will enable great implementation to successfully translate theory into practice. Combining knowledge, skills, procedures, tools, and a dedication to ongoing development are necessary. Organisations may offer goods and services that meet or exceed consumer expectations, improve their reputation, and promote long-term success by adopting quality as a core component of project management[8]–[11].

## DISCUSSION

Any equipment may now be acquired from anyplace thanks to globalization. How can the buyer be certain that the product has the necessary quality and is able to provide the customer with anything they need within the time frame specified in the conditions of a contract that both parties have agreed to? A quality management system that may inspire trust from the customer Risks associated with the project should be reasonably reduced. In today's commercial climate, engineering, vendor, and owner-contractor Organisations are transnational. The Middle East, Asia, or Europe may have branch offices that report to the main office in the United States. Quality management difficulties must be resolved if present or potential customers are to feel confident in the services, they are receiving from a location that may be thousands of miles away from a project site. This will help the business preserve its good name. Given these conditions, there has developed a growing dependence on and emphasis on internationally recognized standards as the main objective criterion supporting a provider's commitment to offer the level of quality that a customer expects. This is reflected in the standards created and maintained today by the International Standards Organization (ISO), a division of the UN.

However, there was no generally acknowledged third party creating or supporting objective but publicly supported engineering quality standards criteria until a decade after the conclusion of World War II. Today, this trend has progressed to the point where widely-

accepted specifications have been created for the construction and installation of manufacturing equipment and facilities of every variety, incorporating the highest levels of quality assurance compatible with generally manageable levels of capital investment.

The British Standards Institute, which had been releasing a variety of instructions on how to attain the BS4891 quality assurance, was the Organisations that started work on these standards in the United Kingdom. After some time, a variety of acceptable papers that suited the requirements of the manufacturer or supplier were produced. Thus, the BS5750 standard started to take shape and was eventually published in a series in 1979. Both internal quality management in a supplier Organisations and quality assurance of the product for customers of a manufacturer were given direction by it.

The manufacturers, suppliers, and consumers of the United Kingdom quickly began to embrace this norm as the industry benchmark. The British requirements are regarded as the starting point for any European specifications at the same time as the American National Standards Institute started working on a standard called "ANSI 90" for enterprises in the United States.

### **The ISO 9000 Standard**

The International Organization for Standardization (ISO), a United Nations agency founded in 1947, entered the picture as the only body that could be relied upon to publish others' standards and maintain thorough translations of them across the major UN languages. With time, the ISO's operations expand, and it publishes a large number of standards. Due to the interest from manufacturers, their foreign agents, and consumers, the standards have spread globally. In order to satisfy the consumer, the producer offers a product, which boosts production and sales. Representatives from 163 nations make up the ISO, the majority of which already employ BSI and ANSI standards. The operations of the ISO have grown throughout time, and numerous specialized requirements have also come to be published under their umbrella, relieving other nations of the burden of translation. British standards BS5750, parts 1, 2, and 3 were quickly followed by the 1987-released ISO 9000 definition. To show the fundamental ideas and various applications that may be utilized in a series of ISO 9000, the same general Organisations of the components and the ISO increased were used as a general reference.

The European Committee for Standardization's board decided to align its work on standard specifications with the guidelines outlined in ISO 9000 on December 10 of that year. It was released under the heading EN29000 1987 after being approved as a standards specification for European nations without any further changes or adjustments.

These European standards have English, French, and German as their official languages. Following that, this Organisation decided to publish and translate these specs according to each country's language.

The next significant advancement for this standard occurred in 1994, when roughly 250 items were changed. These revised articles are simpler to read than the originals and provide clarification of the standards. ISO 9000 is broken down into sections 9001, 9002, and 9003 in order to clearly define quality assurance details involving the design, the production, and the approval of a finished product. According to market demand for the major product lines already on the market, factory circumstances, and current conditions most likely to be faced with current technology, ISO 9004 comprises the fundamental guidelines for the creation of the Total Quality Management system. Technological options.

## Quality Management Requirements

The quality management regime described in ISO 9000 is a system of interconnected resources, tasks, and responsibilities that offers procedures and means for fostering or maintaining trust in any provider who complies with its demands to provide products and services that meet marketable quality standards.

## Quality Manual

The official documentation of a company's quality management system is found in its quality handbook. It could include the following:

1. A rule book by which an organization function.
2. A source of information from which the client derives confidence.
3. A vehicle for auditing, reviewing, and evaluating the company's Quality Management System (QMS).
4. A firm statement of the company policy towards quality control (QC).
5. A quality assurance (QA) section and description of responsibilities.

In my capacity as the process, review, and quality system commander. Models of documents as well as models for the registration of the test results. The necessary documents to determine how to follow up on quality.

## Quality Plan

The quality plan outlines the actual procedures that must be followed in a certain sequence in order to achieve the desired level of quality for the project. The quality plan differs from project to project depending on the specific conditions of the agreement with the owner or the customer. It should include the materials to be used, the kinds of workers, and the tools needed to carry out the contract's quality objectives. Everything is described in great depth, including a plan for testing and evaluating how far the contract has come in achieving these objectives. The quality plan is rigid and cannot be changed until the project is completed.

The quality plan must specify the specific measures to be followed to achieve the objective in cases when contracts demand that a buyer, customer, or owner include unique criteria necessary for producing the intended result. The purpose of presenting this plan to the customer is to increase confidence in the supplier's capacity to provide the necessary product at the desired standard. The quality Programme consists of: all controls, processes, inspection equipment, manpower sources, and skills that a company must have to achieve the required quality

1. QC inspection and testing techniques that have been updated.
2. any new measurement technique required to inspect the product.
3. measures that remove potential sources of conflict between inspection and operation.
4. standards of acceptability for all features and requirement that have been clearly recorded.
5. Compatibility of the design, manufacturing process, installation, inspection procedures, including all applicable documentation readied before production begins.

## Quality Control

According to ISO, a set of procedures, tasks, or evaluations must be carried out in a certain order to produce goods that meet the standards for quality. The end result of construction projects is a building or structures that are functionally sound. Setting the degree of supervision for each project phase is the first stage in quality control, which ensures that

every component of the project is carried out correctly and in accordance with the necessary requirements. Building and structure design, construction, and usage must all be as consistent as feasible with the project's requirements. Keep in mind that the project-delivery Organisations, from the manager on down, is responsible for quality control. In actuality, the department head and the construction managers have been assigned the duty of quality control.

### Why Is Quality Control Important?

There are several advantages to quality enhancement. Making sure that work is done properly decreases errors, which reduces the need to repeat jobs, saves waste, and keeps project expenses in check. An environment like this may help the business become more competitive by boosting productivity and worker morale. Take into account two crews with comparable size, expertise, and job activity.

The first crew benefits from having someone in charge of quality control, but not the second. Before continuing with the project, any errors may be fixed. On the other hand, any flaw in the second crew's work will likely not be found until after it has been finished. This work's flaw will either be removed or fixed, or it will be overlooked and kept in place.

The owner will feel some level of unhappiness as a result of all these issues as building moves forward. Customer discontent may potentially result in the Organisations losing out on future building contracts or necessitating expensive remedial measures. Defects come with a price: the person who committed the error received payment, and the person who repairs it will also accept payment, and extra material and equipment costs will be necessary.

Take the well-known instance of the New York City parking garage that partially collapsed. This disaster was brought on by the lack of reinforcing steel in three of the six cast-in-place column haunches that supported the major precast girders. Reinforcing steel was supposed to be put at these points, according to the project plans and the rebar shop drawings, however it was unintentionally overlooked. As a consequence, additional work that was required to remedy the job and fix the damaged post had to be done at the contractor's cost. When a commercial complex was being built in Qatar, another significant quality error was made. They discovered that around 40% of the columns had a strength that was less than the permitted strength after pouring the concrete for the columns and the slab. Therefore, since there was no concrete quality control on site and the workers lacked expertise, the project was delayed and the cost of the repairs was high. To save expenses and save time, quality is often compromised. Quality does, however, result in time and financial savings. Nothing reduces time or saving money by avoiding expensive procedures of correction from the start and doing the task correctly the first time.

### Submittal Data

One of the first phases in the quality control process is to analyse the project's submittal information, including shop drawings, work samples, test results and other performance information concerning the materials to be used, Letters of Certification, etc. It is necessary to confirm that the details obtained from suppliers and subcontractors on the components that will be placed into the project adhere to the requirements stated in the contract agreements. A number of factors should be examined and confirmed, including dimensions (thickness, length, and shape), ASTM (American Society for Testing Materials) standards, test results, performance specifications, color, and collaboration with other trades. Checking shop drawings is especially important since they fill in information on the specifications for concrete reinforcement, structural steel, cabinets/millwork and lifts that may be lacking from

contract drawings. The information supplied on the authorized shop drawings is what the fabricators use to "custom make" their products, therefore this warning is particularly relevant for projects involving things that were initially made off-site. The contract plans and requirements must be compared to each item on the shop drawings. The project's compliance with the necessary quality control standard is decided after a thorough examination of the submission data.

The general contractor reviews submissions, and the consulting engineer then reviews them. The submission data's original submitter is required to resubmit updated or extra information if the data is disapproved or lacking. The template from which further-required materials will be manufactured is a submission that concludes the review procedure. Any errors that are missed throughout the submission review procedure might possibly result in issues requiring more money and time for repair. A subpar shop drawing assessment may have devastating results, as seen by the 1981 walkway collapse at the Kansas City Hyatt Regency. The load on the fourth-floor walkway connections was doubled as a result of an uncontrolled alteration in the structural connections' specifications. Due to this, the second-floor walkway was damaged when the suspended walkway from the fourth level collapsed. And then down to the lower level. 114 people lost their lives in this catastrophe, while 200 more were injured.

### **How to Check Incoming Materials**

Information submitted is verified against the terms of the contract and approved before being filed for future use. Many businesses provide a reference number in their submissions. Incoming items may easily be checked against contract criteria and off-loaded at the storage location after everything checks out by comparing information contained on the delivery tickets, or manufacturer's information included in the shipment, with data from the submission. At the same time, care must be taken to prevent any "unapproved" material kept on-site from being used in the building process. If this happens, work may need to be redone or other remedial measures may need to be taken.

### **Methods of Laying Out and Checking Work**

Maintaining the quality of the project output depends on the way the work is laid out as well as the verification of the proper placement, orientation, and elevation of the work. Incorrect placement of work, such as misplacing anchor bolts for the foundation, may result in additional costs for repairs and delays. In addition to inspecting the work, it also has to be laid out properly. For instance, a tape measure, plumb bob, carpenter's level, and chalk box are necessary equipment for installing anchor bolts in a foundation. Inspection elevations during the installation of concrete footings and completing the grade and floor are among the topics to be covered for the correct designing and inspection of the job. Windows, overhead doors, and air-handling systems are examples of ways to verify that work is being done in the field according to the manufacturer's instructions for the arrangement of certain objects. Since quality control is everyone's job throughout the building process, the majority of engineers working in construction roles will assist in managing QC responsibilities. Engineers should be encouraged to look for "key items" during inspections since it isn't always evident what has to be discovered to achieve a thorough examination.

### **Material/Equipment Compliance Tests**

Prior to placement and after installation, testing of materials and equipment is required by every project owner. Whether or whether they will be doing the tests themselves, engineers should be conversant with testing techniques. A list of each test that will be necessary should be laid out prior to starting building activities. This will be utilized by QC professionals as a

checklist. The kind and frequency of testing necessary for each component of the task should be included on this testing checklist. After tests are completed, a test report including the test's findings should be maintained on file or placed in a folder marked "test report" for future use. The following tests are typical ones that will be carried out on the worksite to verify the caliber of the work that is installed or finished.

### Soils Testing

The loads from a structure are dispersed into the earth below by the foundation of the building. The soil in this area has to be sturdy enough to support the impending loads. In order to prevent differential settling in the structure, which can lead to structural and weatherproofing issues, the strength of the soil must also be uniform. Verifying the soil's compaction is necessary to guarantee that the building structure settles as little as possible. It is necessary to verify that each excavation or soil backfill operation complies with the project specifications' compaction criteria. Prior to doing any more work, such as placing rebar, these tests are conducted.

### Concrete Tests

The slump test and the concrete cylinder, or cube test, are the two kinds of concrete tests that are performed to assess concrete on the worksite. According to ASTM C 143, the slump test checks if the concrete has reached the appropriate workability without becoming too wet. The project requirements for mortar state that mortar either an ASTM C270 or ASTM C780 standard must be followed. The appropriate mortar ingredient ratios are specified by ASTM C270 as 1 part Type S masonry cement to 3 parts masonry sand. The mortar's necessary strength and the procedure for acquiring samples for compressive testing are both outlined in ASTM C780. It is necessary to get copies of these ASTM standards to guarantee complete compliance with the project requirements and industry standards.

### Plumbing Tests

Leaks must be examined in the building's pipes throughout. All pressurized (supply/return/fire sprinkler) pipes must undergo hydrostatic pressure testing, which is determined by a water pressure gauge, in order to check for leaks. The pipes must typically withstand 150% of their regular operating pressure for two hours in order to pass the test. Any decrease in pressure suggests that there is a line leak. The test is rerun for two hours once this leak has been located and fixed. It should be noted that loose joints must be tightened, or they must be disassembled and fixed. An authorized rectification procedure does not include applying pipe sealant to the pipes outside.

### Performance Tests

Many of the intricate systems that are placed in the building need to undergo performance checks. The fire alarm system, lifts and water chillers/air handlers are a few of these systems. Only QC staff members observe and verify these kinds of tests, which are carried out by the system installation. Once again, it's critical that QC staff members understand what goes into testing these systems. Industry standards will be included in the project requirements and must be adhered to for appropriate testing.

### Quality Control Plans

Both field staff and business officials should be involved in quality control. The written reference document for the execution of the quality control Programme is provided by quality control plans. The responsibilities and operations of the quality control staff must be

described in this plan as succinctly and clearly as feasible. Due to the need to write such a plan, the following writing recommendations should be employed. The many departments engaged in the quality control process should contribute to the strategy. The employees of the field offices, the owner, the engineer, the subcontractors, and the suppliers are all included. The QC plan's creation and execution must go beyond a cosmetic correction. Even if the quality control Programme may seem effective on paper, it can only accomplish its goals if the specified quality control processes are followed every day. The individual implementing the technique outlined in the handbook must have no trouble understanding the strategy. Organizational charts displaying the line of command, descriptions of roles, guides to following processes, and samples of appropriate documentation should all be provided. All adjustments necessary to maintain efficient quality control on the project site must be included in the plan in order to keep it current. This can include making use of recommendations from the personnel in charge of QC tasks.

### CONCLUSION

The process of taking quality from theory to practice is difficult yet crucial in project management. Meeting regulations, providing value, and surpassing customer expectations are all parts of the notion of quality. Theoretical frameworks provide direction, guiding ideals, and recommended methods for obtaining and sustaining excellence. The ultimate measure of quality, however, is in how well it works in actual projects. Achieving the appropriate degree of quality may be difficult due to a variety of variables, including budgetary restrictions, resource shortages, and unpredictable project contexts. Delivering effective project outputs requires balancing trade-offs between quality, money, and time. A thorough comprehension of the project requirements, as well as efficient planning, execution, monitoring, and control, are necessary for the realization of quality in practice. It entails the cooperation and coordination of the project's stakeholders, the promotion of a culture of quality, and the maintenance of good communication and a common understanding of the standards for quality. Quality is also a continuous process rather than a final product. Organisations must promote a culture of learning and innovation, embrace continuous improvement, set up feedback loops, and carry out frequent audits. In order to establish quality as a fundamental value, organizational culture and leadership commitment are crucial. The capacity to measure, monitor, and guarantee adherence to quality standards is improved by integrating quality management practices into the project lifecycle and using the relevant tools and methodologies. Real-time quality monitoring and effective interventions are further made possible by technology and digital solutions. A multifaceted strategy is necessary for the effective translation of quality from theory to practice. Organisations may close the gap between theory and practice by fusing theoretical knowledge with real-world application, leadership commitment, organizational culture, and continual development. Delivering projects, goods, and services that meet or exceed client expectations, improve the standing of the company, and promote long-term success are the outcomes.

## CHAPTER 6

### ASSURANCE OF QUALITY IN CONSTRUCTION

---

Mr. Ram Srinivas, Assistant Professor,  
Master in Business Administration (General Management), Presidency University, Bangalore, India,  
Email Id-ramsrinivas@presidencyuniversity.in  
Prof. B S Patil, Regional College of Management, Bangalore, India

#### ABSTRACT:

In the construction sector, quality assurance is essential for ensuring that projects adhere to the necessary standards, requirements, and client expectations. The significance of quality assurance in construction and its essential elements, such as quality planning, quality control, and quality improvement, thorough quality planning, which includes identifying quality goals, setting quality standards, and creating a quality management system, is the first step in ensuring quality in construction. Key quality metrics are identified during the planning phase, together with performance standards and the processes to be used for quality control throughout project execution. To monitor and confirm that construction activities and deliverables adhere to the agreed quality standards, quality control activities are put into place throughout project execution.

This includes routine testing, inspections, and recording of quality-related operations. Corrective measures are taken to resolve non-conformances or deviations from the quality standards once they have been found, recorded, and remedied. Another crucial component of quality assurance in construction is continuous quality improvement. To improve construction processes and results, it entails analyzing quality data, spotting patterns, and putting corrective and preventative measures in place. Continuous improvement initiatives are aided by stakeholder feedback, lessons learnt from prior projects, and best practices. All project parties, including clients, contractors, suppliers, and regulatory agencies, must work together and be committed to effective quality assurance in construction. Everyone is in agreement with the project's quality goals because to clear communication, frequent meetings, and shared responsibility for quality. Additionally, using technology and digital tools may considerably improve the speed and efficacy of quality assurance procedures in the building industry. Real-time quality data collecting, analysis, and decision-making are made possible by mobile apps, data analytics, and real-time monitoring systems, permitting prompt interventions and raising overall quality performance.

#### KEYWORDS:

Assurance, Communication, Construction, Project, Quality.

#### INTRODUCTION

An illustration of the significance of quality assurance is shown below. You make the choice to work on a sewage system. You had the identical system constructed by a contracting business in great quality, according to schedule, seven years before. Without any other influence, it is your choice and you are accountable for it. Is it wise to contact this business directly or not? Why? Before reading the next paragraphs, please think about the answers to these questions. There are currently several global corporations operating in a variety of sectors, including the construction business. Therefore, every business and every one of us occasionally serves as both a manufacturer and a service provider. For instance, the

contractor firm offers the customer services, and at the same the manufacturer supplies ceramic tiles, HVAC equipment, plumbing equipment, and other materials and equipment to the contracting business in order to execute the project. Additionally, the factory that sells ceramic tiles is a customer of the business that provides mechanical spare parts to keep their machinery operational[1]–[4].

Therefore, a flaw in any one of the systems will have an impact on them all. If everyone in the firm has a solid quality system, it should go without saying that the quality system should apply to all enterprises and Organisations. To make sure that the product and service are based on needs, standards, and customer satisfaction, each Organisation should develop its own system. If the quality assurance system is effective, it will continue to function as intended even if some employees leave the company or retire. In response to the first question, if this firm is a family business run by a father and a son, and the son becomes careless and sluggish, the project may be in danger if his company participates in any project activity. In contrast, if he has a genuine quality system, you may engage with him, but you should also do an audit. For a global corporation, on the other hand, the chairman often works from a location remote from the project, therefore quality assurance will be documented for external or internal audit review. The system should keep track of and address any issues the owner has about the business. The following is the goal of quality assurance:

1. To make sure that the final product is in conformity with the specifications, and the employment is highly qualified and able to achieve a high quality of the product through the administrative system
2. To ensure the application of the company's established characteristics among all sectors in the factory, regardless of personnel
3. The benefits of the application of quality assurance systems can be summed up in that it gives the ability to produce a product identical with the required requirements, as well as to save production costs by reducing waste and faulty goods. Projects in particular have a significant influence since they are time-sensitive and may be the project's primary motivator.

For instance, whatever transpires on any given day of the project's overall duration will result in a sizable profit for the owner. For oil developments, the same holds true. As a result, while decreasing or not rejecting any product, time is saved by not having to undo or fix what has already been done, or by not having to engage in negotiations between the contractor's team and the owner's and supervisory staff. By lowering the quantity of customer complaints, a high-quality product helps to establish a strong and positive relationship between the seller and the client. However, a procedure that consistently results in complaints from the contractor is likely to have issues with QA maintenance, and a subpar QA system may limit access to many domestic and international markets [5]–[8].

## DISCUSSION

Construction projects must adhere to the necessary standards, requirements, and client expectations, hence quality assurance is essential to the sector. The term quality assurance refers to a variety of procedures and practices used to monitor, manage, and enhance the caliber of building projects. With multiple players, elaborate designs, and complex building procedures, the construction sector is renowned for its complexity and interdisciplinary nature. Therefore, ensuring the quality of building projects is crucial to ensuring the built environment's safety, functionality, and longevity. A rigorous quality planning process is the first step in implementing quality assurance in construction. This entails creating a thorough quality management system, establishing quality standards, and setting quality targets. To

provide the foundation for reaching the intended level of quality, quality planning takes into account elements including project needs, relevant laws, and industry best practices[9]–[12].

Following the start of the construction project, quality control measures are put in place to monitor and confirm that the deliverables and construction activities adhere to the set quality standards. In order to make sure that the materials, workmanship, and procedures adhere to the necessary requirements, quality control requires routine inspections, testing, and documentation. Any deviations or non-conformances are found, recorded, and dealt with using the proper remedial measures. Continuous quality improvement, in addition to quality control, is a crucial component of quality assurance in construction. To improve construction processes and results, this entails analyzing quality data, spotting patterns, and putting corrective and preventative measures in place. Continuous improvement initiatives are aided by the implementation of best practices, stakeholder input, and lessons learnt from past projects. The cooperation and dedication of all project participants, including customers, contractors, subcontractors, suppliers, and regulatory agencies, are necessary to achieve quality assurance in construction.

Everyone is in alignment with the project's quality goals and actively contributes to maintaining and enhancing quality throughout the project lifecycle thanks to clear communication, shared accountability, and frequent meetings. Additionally, the method quality assurance is carried out in construction has changed as a result of the use of technology and digital tools. More efficient and effective quality data collecting, analysis, and decision-making are made possible by cutting-edge software, mobile apps, data analytics, and real-time monitoring systems. This enables prompt interventions, greater communication, and higher-quality performance all around. In order to guarantee that construction projects satisfy the necessary standards and client expectations, quality assurance is of the highest significance in the construction business. Construction companies may offer projects that are secure, long-lasting, and of a high caliber by using efficient quality planning, control, and continual improvement. Collaboration between stakeholders and the use of technology both help building projects produce high-quality results.

### Quality Assurance in the ISO

When there is a contract between the parties and the manufacturer, ISO 9001 outlines the specifications for quality management systems and lays out a framework for quality assurance throughout the product's development, design, manufacturing, and usage.

### The Responsibility of the Manufacturer

A manufacturer is defined as a person who manufactures or supplies a product, as well as a person who provides any necessary service, and under a TQM regime, the manufacturer bears primary responsibility for upholding quality requirements. A reputation for respecting and satisfying the requirements of a TQM system has itself evolved as a significant competitive advantage in the globalized marketplace of modern international trade. This may be observed in the abundance of offices, global consulting firms, or multinational contracting firms vying for various types of building contracts throughout the Arab world, mostly based on how comprehensive and dependable their quality assurance systems are. Serious competitors at this level should follow two essential stages. The upper management level must first exhibit it's When it comes to taking the initiative in projects, QC and QA have a sincere enthusiasm in doing so. Second, the management level maintains a climate that makes it simple to deal with QA regulations and guarantees that all workers follow the necessary guidelines and QA procedures. At the administrative level, such a promise is typically seen negatively as a restriction on the freedom of action seen required to fulfil contract duties as quickly and

effectively as possible. Senior management should pay special attention to the training process to prevent this, planning training sessions on quality assurance practises and technical labour in particular for all company personnel.

### Responsibility of the Owner

Where should the ultimate blame for a project's failure be assigned? The owner who started the project and put together the funding for its completion must bear responsibility for this. The owner or owner's representative must ultimately bear responsibility for any issues with a project's quality goals not being met, including issues such as subpar final products or the project's failure to comply with various required specifications, as they were not adequately or effectively communicated to those responsible for carrying out the project. Therefore, the TQM strategy requires that the contractor collect and preserve all data necessary for the project's execution, and that the owner's consultants' office is responsible for making sure the contractor is so outfitted. The interaction between the owner, the contractor, and the consultant or engineer is shown in Figure. 1. Its lines of information exchange traffic highlight the key complexities of such a triangle interaction while also demonstrating how any QA/QC failure on the part of one party has an impact on the other parties.

The contractor or manufacturer decides the price and timeline depending on the requirements and the quality of the finished product. But in order for them to be successful on this front, the owner must first determine what the project's essential requirements are. One of the owner's most significant and vital obligations is choosing the contractor sometimes known as the manufacturer. or the owner's agents. The owner chooses the engineering office first. When execution begins, the owner must choose the builder. As a result, it is the owner's or the owner's representatives' duty to learn enough about the contractor's and engineering office's prior professional experience to determine if they have handled projects comparable to the one at hand. The owner is uniquely situated in this triangular relationship to keep an eye on the full and actual financial situation of the project and ensure that the other two partner-groups are able to fulfil their obligations to the delivery of the project, which serves to reinforce this responsibility.

**Figure 1: Relation between owner, contractor, and engineering company [Access Engineering Library].**

### Project Quality Control in Various Stages

A project is defined as a set of activities with a beginning and an end in the broadest sense that this book has been written around. The complexity and scale of industrial construction

projects are frequently used in this book as the basis for the majority of its key examples because they stand in direct proportion to one another. This situation also serves to simplify the author's educational task while simultaneously easing the reader's learning burden. There are social or cultural initiatives, such as constructing an opera house, theatre, library, or another structure. Buildings for homes or businesses are being constructed as part of the housing project. Roads, bridges, and other civil building projects, among others, Railway. Although irrigation projects exist, this book focuses on industrial building projects, especially for oil and gas operations. This is true once again given that the current chapter's emphasis is on QA, QC, and TQM.

The specifics of how these concepts might apply to software design projects or literacy training projects, for example, may not be as well-defined as ISO standards for large capital projects with some type of construction component, but the justifications for taking the most deliberate approach to establishing quality expectations for such projects and observing how they are to be fulfilled would involve the same issues of fundamental principle.

According to the size and cost of the project, building industrial projects will differ from one to the next. However, it's important to remember that the amount of quality control must inevitably vary depending on the scope of the project. Today, this is glaringly obvious in the case of building projects carried out in many developing nations. Small businesses may have adequate quality control measures in place, but contracting firms or independent engineering firms that compete internationally are also raising the bar on their projects' quality. Of course, this inevitably drives up the overall cost of these projects. The answer to solving this problem lies in what and where? The key is to identify quality concerns at the phase or stage level of a project's life cycle and to maintain project management throughout each of those phases. The conversation will now concentrate on the quality control concerns that emerge throughout the different project lifecycle phases.

### Feasibility Study Stage

Each stage has its own significance and an influence on the project as a whole depending on the type, conditions, value, and goal of the project. The feasibility study phase, which is followed by preliminary investigations, establishes the aim and allows for the choice of the guiding principles and future engineering.

The feasibility stage establishes the objective as well as the economic viability of any chosen movement. Full discussions and analysis are hallmarks of a complete feasibility study carried out by an experienced and qualified company. Consideration of all relevant economic facts with the goal of thoroughly recognising and excluding all potential outcomes potential surprises.

The goal of hiring a competent consultant to conduct a feasibility study is to allow the formation of a more complete and grounded understanding of what the owner or ownership group may realistically anticipate. Following this, a strategic choice must be made on whether to go forward with the project and, if so, when and how.

The choice of the organisation that will perform the feasibility study by the owner or ownership group is crucial in the case of relatively large-scale projects, and within this the most important element is the consultancy's track record and experience with such projects. In today's global economy, it often turns out that the finest skill set will be located abroad, someplace other than the owner's or ownership group's nation of origin.

## Quality Considerations during FEED (Front-End Engineering and Design) Preliminaries

Front-end engineering and design (FEED)'s second phase starts once the project's feasibility research is finished, along with goal-setting and strategic decision-making. This stage of technical studies provides the most probable geometry of how the project may really progress, which is no less significant than the feasibility-study stage. The success of the project moving forward will rely on both the details of the engineering how-to generated during this stage of technical research as well as the project's overall conceptual viability. The owner should make a significant effort to pick and choose the consulting firm's skills and experience with this specific kind and scope of project. The experience of engineering projects varies based on the kind of industrial project, whether it belongs to the petrochemical industries, oil and gas plants, power stations, or other industrial projects. This is one of the most crucial factors.

For instance, the construction gender of the building needed in minor projects like constructing flats, offices, or a small factory will be more completely established in this phase. Beginning engineering research. Will precast, pre-stressed, or reinforced concrete be needed? The response to this query specifies the necessary building materials, such as the kinds of columns, beams, frames, shear walls, solid slabs, flat slabs, hollow blocks, etc. The choice and quantity of each of these options will depend on the size of the structure itself and the owner's needs.

The difficulty of this phase rises when large-scale projects like stadiums or oil and gas projects are involved since these studies connect with spatial concepts. This might include important issues like a land surface's ability to sustain different types of load-bearing buildings based on the soil type. This will then dictate the kind of foundation that has to be developed and the depth at which it should be buried. These kinds of factors are taken into account when planning oil and gas projects, and they have an impact on how pipes are installed and/or other types of surface transportation are carried out onsite.

The interaction between the many civil, mechanical, electrical, and chemical engineering disciplines throughout the project's development is yet another factor that these studies must establish.

In order to clearly specify the project's needs in the Statement of Requirement (SOR), engineering studies are a crucial input in the process. That document is essential for the quality assurance system since it includes all of the owner's information.

The SOR should be employed when making certain structural alterations in addition to being necessary for new or large-scale projects. In the case of a residential structure, the owner should decide on the necessary number of storeys, the number of apartments to be located on each level, the number of stores to be included, and any other necessary needs. The engineering office delivers their engineering analysis in a Basis of Design document (BOD), guided by the requirements in the SOR.

The Engineering Consulting office explains the important regulations and requirements for the design, the mathematical formulae to be utilised, any computer software that will be used, the necessary number of copies of the drawings, and the sizes of the drawings. Other data, such as land or marine meteorological data and physical survey data, may also be included in the BOD when appropriate. The owner and the engineering office evaluate the BOD together, and each updated and revised version of the BOD that results from additional examination is documented.

Regarding the procedures followed in handling drawings and updating them, care must be taken. Any created designs should be provided to the FEED team so they may be examined and implemented. The designs are returned to the owner's engineering office when the predetermined amount of time has passed, as agreed upon in advance. Until the engineering studies are finished, comments are returned to the owner. Large projects may take months to complete this phase, which puts a premium on cost management and increases the burden on the engineers in charge of keeping a running but increasingly precise estimate of project costs moving forward. Given that exploratory investigations are being finished and the project schedule is being finalised to meet what the engineering studies have found, the aim in cost management at this stage is the refining of the project cost estimate to as precise a level as feasible. Another significant area of future expenses on which to start getting a hold is the continuous cost of project maintenance. At this same stage, before actual building starts, and given what the engineering study helps to reveal about the methods and means presently accessible to continue, this is an essential area of future costs.

The first step in doing this is establishing the project lifespan, taking note of the building guidelines followed, the kind of structure, and the maintenance strategy. In order to lower the long-term maintenance costs, the project site and the surroundings around it must be weatherproofed. There are several different types of protection systems, and each one affects the project outlay curve differently. For instance, using stainless steel involves significant upfront expenses, followed by routine maintenance that adds just a little amount more. As an alternative, there are defence systems with modest initial capital costs whose upkeep over time will raise the sum that must be budgeted each year for inspections and any maintenance that is necessary as a consequence of those inspections.

The engineering studies should consider a number of the structure's characteristics related to its location and the ease or complexity of maintenance work that results from that. Similar considerations must be made when choosing mechanical equipment at first: whether to choose project units with the highest reliability and consequently low maintenance costs but a high initial capital outlay, or whether to choose equipment with lower reliability ratings and potentially higher future maintenance costs but a lower initial cost. Engineering studies are required to provide the same option in each rubric: high initial expenses followed by predicted low continuing maintenance costs, or less expensive expedients with uncertain and perhaps rising maintenance costs in the future. For instance, a water tank in the building of a power plant is showing signs of dependability problems. During the course of the plant's operation, would it need maintenance or cleaning? Choosing whether or not a second tank is required is the solution to this issue. Alternative design concepts may be used if this one is not required. These kind of judgement calls place a specific burden on the expertise of the engineers and contractors engaged. Any mistake might lead to complications down the road that would seriously harm the project's chances of success, as opposed to starting again with a simpler solution that costs less and works just as well.

## CONCLUSION

Construction projects must fulfil all necessary standards, requirements, and client expectations, hence quality assurance is a crucial component of the sector. Construction companies may offer projects that are secure, long-lasting, and of a high caliber by using efficient quality planning, control, and continual improvement. An extensive quality management system is created as part of detailed quality planning, which also establishes goals and criteria for quality assurance throughout construction. Through the project lifetime, this lays the groundwork for reaching the target level of quality.

The next step is to adopt quality control measures to ensure that all construction-related activities and outputs adhere to the predetermined standards. The necessary standards are met by materials, craftsmanship, and procedures thanks to routine inspections, testing, and documentation. Any discrepancies are handled by taking the necessary remedial measures. An additional essential component of quality assurance in construction is continuous quality improvement. Construction Organisations may improve their processes and results by doing quality data analysis, spotting patterns, and putting corrective and preventative actions in place. The use of best practices, lessons gained, and input from stakeholders all contribute to continual improvement initiatives.

To successfully implement quality assurance, all project stakeholders must work together and be committed. Everyone is in alignment with the project's quality goals and actively contributes to maintaining and enhancing quality thanks to clear communication, shared accountability, and frequent meetings. Construction's quality assurance methods are now much more effective and efficient thanks to the usage of technology and digital technologies. Real-time quality data collecting, analysis, and decision-making are made possible by cutting-edge software, mobile apps, data analytics, and real-time monitoring systems. This enables prompt interventions, greater communication, and higher-quality performance all around. Quality control in construction is essential to guaranteeing the functioning, longevity, and safety of building projects. Construction Organisations may produce projects that satisfy the needed standards and customer expectations by employing efficient quality planning, control, and continuous improvement procedures. Technology use and stakeholder collaboration are other factors that help construction projects provide high-quality results.

## CHAPTER 7

### IMPACT OF THE PROJECT RISK MANAGEMENT

---

Dr. Srinivasan Palamalai, Associate Professor,  
Master in Business Administration (General Management), Presidency University, Bangalore, India,

Prof. Sumesh, Regional College of Management, Bangalore, India

#### ABSTRACT:

A key component of project management is the identification, evaluation, and control of risks that might affect the project's goals. An overview of project risk management, its significance to project success, and important steps in the risk management process. The goal of project risk management is to proactively handle any risks and uncertainties that might have an impact on project results. It entails taking a methodical approach to risk identification, evaluating the probability and effect of such risks, and creating the best possible strategy to address or mitigate them. The importance of project risk management in achieving project success is highlighted in the chapter. Project managers may make wise judgements, efficiently allocate resources, and reduce the possibility and impact of undesirable occurrences by recognizing and managing risks early on. The description describes the main steps in the risk management process, such as risk identification, risk assessment, planning for risk responses, and risk monitoring and control. Through the course of the project lifecycle, these processes allow project teams to methodically assess and deal with risks. The value of stakeholder involvement in project risk management. It is possible to have a thorough awareness of risks, agreement on risk response plans, and shared responsibility for risk management via effective communication and cooperation among project stakeholders. The relevance of technology and tools in project risk management is also highlighted in the chapter. The accuracy and effectiveness of risk assessment and decision-making processes may be improved through the use of risk management software, data analytics, and simulation approaches.

#### KEYWORDS:

Assessment, Monitoring, Management, Project, Risks.

#### INTRODUCTION

A key component of project management, project risk management is concerned with locating, evaluating, and controlling possible risks that can affect the project's goals. Every project has some level of risk, and good risk management enables managers to anticipate problems before they arise and lessen their effects.

The first step in introducing project risk management is to comprehend the idea of risk. Any unknown situation or occurrence, such as one involving cost, scheduling, quality, or scope, that might have an impact on the project's goals is referred to as a risk. These hazards may result from a number of things, such as technological difficulties, environmental considerations, organizational limitations, or outside pressures. The main objective of project risk management is to increase possibilities for successful outcomes while minimizing the possibility and severity of possible hazards. Project teams may identify, analyze, assess, and react to risks in an organized way thanks to this methodical and iterative procedure. The significance of project risk management for attaining project success is also emphasized in

the introduction. Project managers may make wise judgements, distribute resources wisely, and guarantee that projects are completed within the established parameters by proactively managing risks. It aids in preventing or lessening expensive delays, budget overruns, quality problems, and other unfavorable outcomes[1]–[3].

Risk identification, risk assessment, risk response planning, and risk monitoring and control are only a few of the essential elements of project risk management that are highlighted in the introduction. These elements provide a structure for methodically controlling risks over the course of a project. Risk assessment analyses the possibility and effect of recognized hazards whereas risk identification identifies prospective risks and their characteristics. Creating solutions to manage risks, such as avoiding, minimizing, transferring, or accepting them, is the main goal of risk response planning. Last but not least, risk monitoring and control include ongoing risk monitoring, the implementation of risk response strategies, and necessary change adaptation. The need of stakeholder participation in project risk management is also emphasized in the introduction. By including them, you may get new insights, benefit from their knowledge, and better match risk management tactics with project goals. Additionally, it encourages openness, dialogue, and shared accountability for successfully managing risks. Project teams can proactively handle possible risks and uncertainties thanks to the crucial process of project risk management[4]–[7].

Project managers may successfully manage risks, maximize project outputs, and raise the likelihood of project success by using a methodical approach and incorporating stakeholders. The many elements of project risk management will be covered in further depth in the following sections. Project risk management includes not just detecting and resolving risks, but also prioritizing risks based on their potential effect and propensity to occur. This enables project teams to concentrate their time and resources on controlling the most important risks that might materially influence project goals. The systematic evaluation of and reaction to recognized risks is aided by risk management approaches and tools including risk registers, probability-impact matrices, and risk mitigation strategies. These methods provide an organized method for identifying risks, evaluating their possible effects, and creating effective mitigation or control solutions.

Furthermore, during the course of the project lifecycle, project risk management should be regularly evaluated and analyzed since it is an iterative process. As the project moves on, new risks can appear, current risks might change, and it might be necessary to reevaluate and revise the efficacy of risk response techniques appropriately. Project team members, stakeholders, and other relevant parties must work effectively together to communicate and collaborate if project risk management is to be successful. Sharing risk information is facilitated by open, transparent lines of communication, which also ensure that everyone is aware of possible risks and their individual roles and responsibilities in managing them. Project resilience is raised, project performance is improved, and project risk management practices are ultimately implemented. Project managers may traverse uncertainties, adjust to changing conditions, and maximize the chance of project success by successfully recognizing, analyzing, and managing risks[3], [8]–[10].

## DISCUSSION

The perspective of a project proposal's total economic possibilities, both favorable and unfavorable. The definition, management, and mitigation of risks that arise during project execution are covered in this chapter. The probability studies and Monte-Carlo simulation methods are crucial in this evaluation, which is known as quantitative risk assessment, when looking at risk assessment for a project from an economic perspective. However, this

approach to research and evaluation needs specialized tools and knowledge. Using qualitative risk assessment techniques, as we shall outline in this chapter, to apply risk assessment in the execution phase. No specialized knowledge or software is needed for this testing approach. A team participating in the project's execution, normally under the direction of someone with expertise in qualitative risk assessment methodologies from prior comparable projects, will typically use a mix of experience and qualitative skills to manage risk throughout the project's execution. Poor, sloppy, or otherwise insufficient execution of a programmed task(s) whose remedy would increase project costs, time, or overall output quality, is one of the biggest sources of risk to be controlled. The project's potential for risk is lower now than it was at the beginning. The dangers may be divided into two groups.

1. Project risks are the risks that can happen during a project due to technical mistakes that can occur during construction.
2. Process risks are the risks that can occur during the project due to procedural mistakes, poor communication between the project team, and poor team performance.

**Figure 1: Representing the Sources of uncertainty [Access Engineering Library].**

In general, there are several sources of uncertainty, particularly in the key project components of cost, time, quality, and HSE, as shown in Figure 1. Our goal is to reduce these uncertainties, make educated guesses about what could occur, and take reasonable steps to prevent it. Figure 1 illustrates how the level of uncertainty is comparable to a black box, where no one can predict what will happen. Uncertainties are things that may happen, while objectives are things that must occur.

### The Risk Management Process

The systems approach to risk management described in the Guide to the PMBOK is used by the Project Management Institute (PMI). There are six main steps that make up the risk process.

1. Risk management planning.
2. Risk identification.
3. Risk assessment.
4. Risk quantification.
5. Risk response planning.
6. Risk monitoring and control.

### Project Risks

The possible danger will become clearer after the timetable is finished. The project manager's understanding of potential risks is crucial since he is responsible for recognizing the activities that will have a greater risk of negatively impacting the overall project execution and lengthening its duration or both. Costs will rise. In light of the following information, the project manager should analyze the planning schedule and identify areas of planning that have significant risks.

1. Tasks on the critical path.
2. Tasks that need a long time period in which to be executed.
3. Tasks that have a little overtime.
4. Activities that start with the beginning of other activities.
5. Tasks that need many individuals for their execution
6. Complex tasks.
7. Activities and tasks that need condensed training.
8. Tasks that need new advanced technology.

**Figure 2: Representing the Point of project success[AccessEngineeringLibrary].**

The steps required to implement those tasks, how to monitor implementation on a daily basis, and who should be responsible for follow-up at that stage of the project must be identified and planned after choosing the tasks that would pose risk to the project and determining their position relative to other risks and tasks. The example of pouring concrete is informative in better illuminating what kinds of things might be regarded as high-risk operations during project execution. Excavation work is one of the project's riskiest activities. It is on the project's critical path and requires a lengthy amount of time to complete. As a result, there is a great likelihood that it will be delayed, which might have a significant effect on the whole project. The riskiest activity in each project is the one that is longest and placed on the critical route. On the other hand, there is a known and hence more manageable danger of experiencing delays with the delivery of machinery and other mechanical equipment bought from overseas.

By scheduling jobs that can be completed without the equipment to begin or conclude prior to arrival of the equipment, the effects of such a delay may be partially reduced. Depending on how many other operations rely on the arrival of the anticipated equipment, the difficulty of such job rescheduling will vary. Excavation and waiting for the arrival of required equipment are two instances that both have high risk ratings since they are beyond the scope of project management. The accomplishment of the project's goals within the allocated spending limit and time frame constitutes its success. However, over the course of the project's execution, some expenses, the length of time, and the project's goals may change. According to Figure. 2, the success of the project is truly determined by how well these three components interact with one another. The likelihood of success is low, according to the preceding discussion of probability. The project will be put in the area of mutual junction. The project has a lot of non-specific regions that might introduce problems. Any of the following may be one of these.

1. Activities of a long period of time and on the critical path.
2. A lack of identification of the project objectives.
3. A non-competent project manager.
4. An inaccurate cost estimates.
5. A bad atmosphere, in general, in the project.
6. Achieving customer satisfaction.
7. A rapid change in resources during time periods.

The allocation of personnel and other resources onsite throughout a building phase is shown in Figure. 3. The project's initial resources and operations are scarce. There is a transitional area when resources rise as a result of rising activity. In this change

**Figure 3: Representing the Change in staff volume during a project[AccessEngineeringLibrary].**

Zone will be high risk since it will quickly expand the number of workers on the project within a short period of time. Therefore, there will be a very high probability of poor quality, misinterpretation of the goal, and errors in safety practice. Since the amount of resources will be stable in the middle of the project, the risk will be lower. After that, begin the second transition zone by cutting back on resources. This stage carries a high risk because there is a chance that you'll run out of staff quickly and may forget to hand over or transfer equipment that you might need in the future. At the same time, as staff is being cut back, everyone working on the project will be busy looking for other opportunities on other projects. You may use the list below as a checklist to help you identify the risks associated with uncertainty in your project. The following list summaries the typical causes of uncertainty in projects:

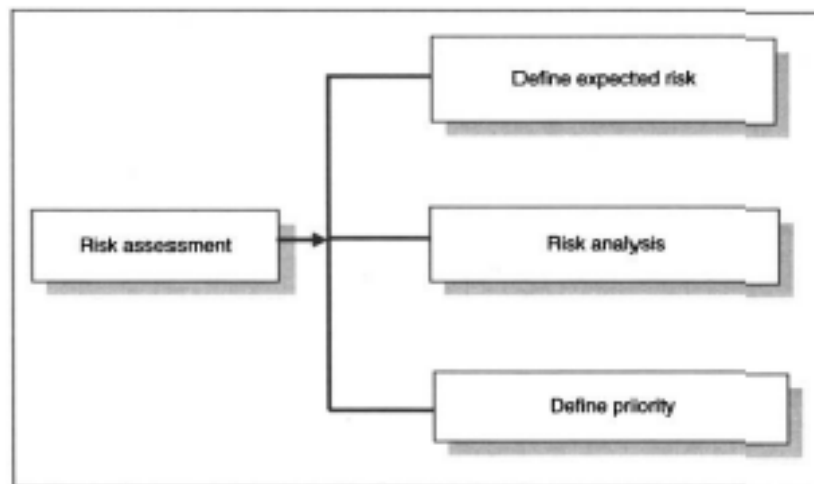

1. Scope of work.
2. Quality of estimates.
3. False assumptions.
4. Technological novelty.
5. Changes in technical specs.

### Risk Assessment

In Figure. 4, the risk assessment process is shown. The first phase is to specify the anticipated risks associated with project execution, followed by an analysis of those risks. Setting a priority for these risks is the last stage. No matter what the endeavor is, there is always a risk involved. Priorities for developing solutions and mitigating risks may be established by concentrating on the risks impacting the management of the project. The following inquiries must be answered truthfully and objectively in order to evaluate these risks:

1. What is the risk exactly?
2. How do these risks affect the project?
3. What can be done to reduce the impact of the risks?

At this point, the risks will be evaluated based on how they will affect the goals, timeline, and cost. We now need a simple technique for evaluating the hazards realistically, and this approach is known as qualitative risk assessment.

**Figure 4: Representing the Risk assessment tools [AccessEngineeringLibrary].**

### Grouping of Risks

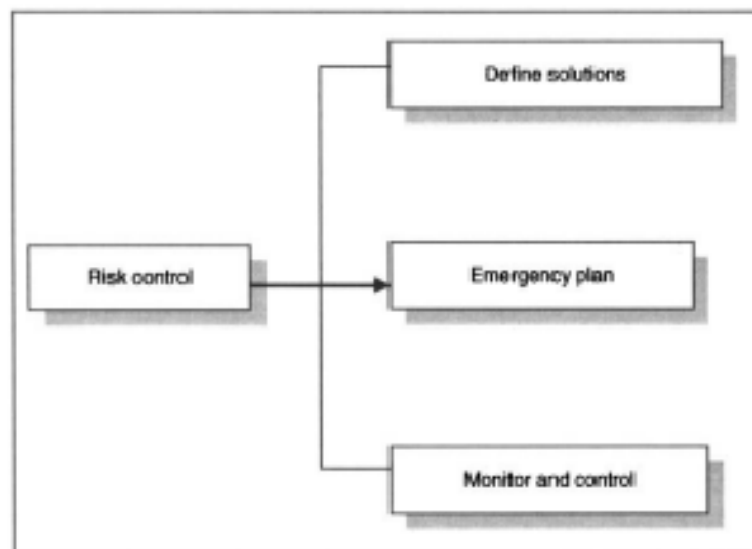

The risks need to be categorized after describing the whole range of events that might happen during project execution, impact the project aim, or extend the project's duration or cost. Utilizing quantitative methodologies, risk-related regions are ranked, and the project's crucial stage is determined using fairly objective standards. Then, all project participants are gathered for a brainstorming session with the goal of reaching an agreement on which risks are most likely to occur within particular time frames and their potential impact on the project's cost and completion deadlines. It will be more crucial for big initiatives than for small ones to group risks. In the business world, it is often believed that a meeting to discuss a group of risks requires more than 10 participants, it is definitely too big and will not be effective. A succession of risk management meetings is required as projects get bigger, although one meeting may suffice for a small project. Techniques like to those used in the

creation of the work breakdown structure may be utilized to make this easier. Indeed, meetings for risk management may be planned using the WBS itself.

The person who is most directly connected to the area where the risk will have the most effect, or the person who is most knowledgeable with the risk's technology, should be given the responsibility of looking for risk. The person in charge of a job should be concerned about any risks that arise while it is being completed and that only directly impact that activity. The assignment of responsibility, however, travels up the organizational ladder to the person above the person directly or immediately accountable for the work since no task in a project is completely independent of all the others. The project manager often establishes the job of risk manager in projects where risk is a major issue. This individual is in charge of keeping track of all hazards and updating the risk management strategy. This strategy becomes increasingly important when projects grow in size or as risk tolerance decreases.

### Risk Monitoring and Control

The process of risk monitoring and control include keeping track of all the risks that have been recognised, as well as recognising new risks as they emerge and residual hazards that arise from the application of risk management strategies to specific risks. Throughout the project, the effectiveness of the risk management strategy is continually assessed. The processes for risk monitoring and management are shown in Figure. 5. After determining the importance of each risk, you should work with the project team to find a solution. Next, decide on an emergency plan, and then specify the monitoring system that you will use as the project manager for each risk.

**Figure 5: Representing the Steps in controlling the risks[AccessEngineeringLibrary].**

A backup plan is implemented when a danger seems likely to materialize. In the absence of a contingency plan, the risk is managed haphazardly via the use of a workaround. An impromptu reaction to a bad risk occurrence is a workaround.

The implementation of the workaround or contingency plan constitutes a remedial action. The project manager and the project team are worried about whether risk responses have been applied to the risk as intended and if they have been successful. Additional risks might arise or further actions could be required after they have seen how well the risk response has worked. From the beginning to the finish of a project, risk management is a continual activity. The identified risks are monitored as the project moves forward and are updated when the

window of opportunity closes. Monitoring early warning signs allows us to reevaluate the risk's effect and likelihood. The risk tactics are evaluated for suitability as the danger draws near, and new responses are developed. Risk evaluations, reviews, and audits might be carried out to examine the likelihood and potential effects of risks that have been identified and are getting closer to becoming likely occurrences on a regular basis. Once risks have already occurred, they may be examined and audited to see if the risk response is working. These modifications must be recorded when each danger manifests itself and is addressed or avoided.

This sort of risk will be managed more effectively going forward thanks to good documentation, and the next project manager will benefit from these lessons learnt.

## CONCLUSION

By proactively detecting, evaluating, and managing possible risks, the discipline of project risk management is essential for ensuring the effective completion of projects. It is essential for reducing the chance and effect of uncertainties that could obstruct project goals and results. Project managers may efficiently negotiate the complexity of project settings and make wise judgements by using a systematic and iterative approach to risk management. Project teams may reduce possible risks, take advantage of opportunities, and maximize project performance via risk identification, assessment, reaction planning, and monitoring. It is impossible to emphasize the value of stakeholder participation and involvement in project risk management. A shared feeling of responsibility is fostered, effective risk response plans are made possible, and the identification and understanding of risks are improved by including stakeholders from different levels and disciplines.

Project risk management also includes a considerable contribution from technology and tools. More accurate risk assessments, scenario planning, and decision-making are made possible by risk management software, data analytics, and simulation approaches. These developments increase the speed and precision of risk management procedures. Continuous monitoring and assessment are necessary for effective project risk management. As the project moves forward, risks might change or new ones could emerge.

The project is kept robust and flexible to changing conditions by regular analyses and revisions of risk response measures. Project management must include the management of project risks. Project teams may improve project results, reduce possible interruptions, and raise the chance of project success by proactively identifying, analyzing, and managing risks. Project risk management becomes an inherent component of project execution via effective stakeholder participation, the use of technology, and ongoing monitoring, allowing projects to accomplish their targeted goals.

## CHAPTER 8

### PROJECT CLOSE OUT: LAST STEP OF PROJECT CYCLE

---

Dr. Ranganathan Kumar, Associate Professor,  
Master in Business Administration (General Management), Presidency University, Bangalore, India,  
Email Id-drsenthilkumar@presidencyuniversity.in  
Prof. Dinesh Roy, Regional College of Management, Bangalore, India

#### ABSTRACT:

Project closeout, the last stage of the project lifecycle, is concluding all project-related tasks, assessing the success of the project, and handing over deliverables to the client or end-user. An overview of project closeout, including its significance and important steps, is provided. Critically important, project closeout marks the end of the project's goals and the start of the operational phase. It includes a range of tasks including wrapping up paperwork, doing project reviews, getting project approvals, and making sure deliverables are handed off without a hitch. It emphasizes how crucial project closeout is to project success. It enables project teams to evaluate a project's effectiveness, note any lessons discovered, and record best practices for subsequent initiatives. Additionally, it offers a chance to assess project results in relation to the established goals and confirm that all contractual and legal requirements have been met. A final project review to assess project performance, resolving any outstanding issues or defects, archiving project documentation for future use, and facilitating the delivery of project deliverables to the client or end-user are key activities in the project closeout process. Stakeholder participation and effective communication are essential throughout project closeout. It makes ensuring that all stakeholders are aware of the project's end, that any unresolved issues are taken care of, and that the relevant handover procedures are successfully accomplished.

#### KEYWORDS:

Closeout, Contractor, Life cycle, Phase, Work.

#### INTRODUCTION

The project lifecycle's last phase, project closeout, signals the conclusion of project execution and the start of the operational phase. It includes a number of procedures and activities meant to complete project deliverables, assess project effectiveness, and guarantee a seamless handover to the operational team or end-users. For the project to be officially finished, all contractual responsibilities to be met, and lessons learnt to be applied to future projects, it is essential to complete the closeout phase. Project teams concentrate on finishing all outstanding tasks, resolving any difficulties, and completing all required paperwork and documentation during project closeout. This stage offers the chance to consider the project's accomplishments, evaluate how well it accomplished its goals, and pinpoint opportunities for development. Effective communication with stakeholders, such as customers, sponsors, team members, and the appropriate authorities, is another aspect of closeout. The closeout procedure varies according to the project's scope and complexity as well as any particular contractual obligations. However, it often entails responsibilities like performing evaluations of completed projects, resolving concerns, finishing off administrative and financial work, preserving project records, and promoting knowledge sharing [1]–[3].

The significance of this phase will be highlighted, and this article will provide insights into best practices for a successful and thorough project closure. It will examine the important actions and factors involved in project closeout. Organisations may guarantee a seamless transition to the operational phase, record important lessons learned, and improve future project performance by adhering to efficient project closeout practices. In big industrial plant projects, construction is inspected continuously; nevertheless, the owner's representative often demands vessel inspection before closure and significant equipment testing after installation. The stage of project development when these operations are carried out is sometimes referred to as mechanical completion. Because it might be difficult to define mechanical completeness, the project manager should create a standard for plant completion with the owner's representative to make sure everyone is on the same page[4]–[6].

This has to be included in the construction contract so that everyone participating in the project is aware of who is responsible for what throughout each stage of the project. The contact between the owner's representative, the principal designers, and the contractor must be coordinated by the project manager in collaboration with the construction contractor. Each party's obligations must be spelt out in detail. Additionally, in line with the contract papers, it is necessary to specify the testing process and test kinds in detail. For establishing when a vessel may be closed, the lead time notice needed for inspection, what is to be monitored, and a sign-off sheet for the owner's representative, a written plan should be created. This is vital to prevent pointless vessel opening and shutting, which may take a long time to complete. The process for handing over equipment to the owner must be confirmed in writing by the project manager from the owner's representative[7]–[9].

Due of the high expenditures involved, care and custody are crucial. Each side has to be aware of who is accountable and when they are accountable. When a piece of equipment is finished, tested, and ready for use, the project manager must inform the plant. Able to be turned over to the owner. Any further changes after acceptance need the owner's work authorization. The way this process is handled should be official. With the appropriate representatives' signatures being necessary. To define the start-up process, the project manager must work in tandem with the contractor and designer. Although formal, the procedure must be adaptable. The project manager should get a written statement from the owner's representative outlining the assistance that each member of the project team will need during startup. The owner must be involved in the project, and the project manager must avoid assuming they have certain demands[10], [11].

## DISCUSSION

Throughout the course of a project, construction activity is inspected. Numerous pieces of machinery, electrical systems, and mechanical systems could be finished before the whole project is finished and prepared for testing and approval in accordance with the contract requirements. The owner's representative and the designers who are in charge of inspection, testing, and final acceptance must collaborate closely with the project manager. The building contractor should get a formal notification that provides a definition of mechanical completion and provide enough advance time for the process. This is essential to avoid losing a significant amount of time that might harm the project's deadline. The owner must have a clear concept of the tests they want to watch, the things they want to check throughout the tests, and the kinds of testing that are necessary. The owner, designer, and contractor are the three main contractual parties, and their roles must all be specified. The project manager has a responsibility to efficiently organize this activity. When the contractor asks a last examination of the work towards the conclusion of a project, project close out officially starts.

A punch list with all tasks still needing completion or correction is created prior to the request. The field inspection staff must carefully go over their daily inspector's record to identify any work items that have been submitted that need to be corrected before creating this punch list. Before the work is sufficient for acceptance, the punch list procedure may need to be repeated numerous times. Representatives of the owner, contractor, and the principal designers the architect, as well as the civil, electrical, and mechanical engineers, etc. who worked on the project, should attend the final walk-through inspection. The acceptance of the work and the final payment to the contractor shall be made in accordance with the provisions of the contract agreements, and the project manager shall plan and perform the final walk-through inspection. When construction is sufficiently finished in line with the contract agreements so that the project may be utilised for its intended objectives, it has reached its substantial completion.

This indicates that there are just a few minor tasks left to accomplish and that the project is ready for usage. A list of all the tasks still needed to be done to finish the project may be added to the contractor's Certificate of Substantial Completion. The work has been accepted as complete when the Certificate of Substantial Completion and the related defect list are approved. Since the contractor has no further obligations under the contract once the owner signs the certificate, it is crucial to make sure the list is exhaustive. Following the satisfaction of all defects, ultimate payment, together with the release of all retainage, is often delayed for thirty to forty days. The contractor must provide all necessary papers, including warranties, lien releases, and other contract requirements, before receiving final payment.

### **Guarantee and Warranties**

Typically, the contract calls for the contractor to provide a one-year warranty once construction is finished that all materials, tools, and labor will be of high quality and faultless in line with the contract conditions. The total project's guarantee may be extended beyond the customary one-year time frame, although this is uncommon. Depending on the equipment, warranties may last anywhere between one- and five-years following installation. The owner must be given operating instructions, manuals, replacement parts, and warranty certificates. Before final payment to the contractor, the project manager must make sure that all warranties are collated and given to the owner.

### **Lien Releases**

The property may be subject to liens filed by material suppliers, subcontractors, or employees who provided supplies, equipment, or labor on a project but have not yet received payment. Even when the owner has given the general contractor the entire amount of the contract, the underpaid party has the right to claim a lien. Consequently, if the general contractor doesn't pay its subcontractors, suppliers of materials, or personnel, the owner could have to pay for portion of the contract twice. The owner has the right to withhold payments known as retainage from the general contractor during construction in order to pay for outstanding invoices and lender liens. Most contracts contain a language in the general conditions that requires the general contractor and all levels of subcontractors to provide a lien release for all labor and materials for which a lien might be filed, or a bond that is acceptable to the owner and protects the owner against any liens. Before approving final payment to the contractor, the project manager must confirm receipt of all lien releases or the bond.

### **Record and As-Built Drawings**

For every project, revisions and adjustments to the initial designs are nearly a given. The original contract materials that were distributed for bid purposes must be preserved in

reproducible form, at least one set. This is required for the settlement of claims and disagreements since it is certain that the question What did the contractor bid on? will come up. Additionally, there must be thorough records of everything changes in building orders. A typical clause in a contract is that the contractor must create an as-built a copy of all the shop drawings, addenda, change orders, and specifications. The size and features of the work that were not completed precisely as they were initially indicated are represented in the as-built drawings. Examples include relocating doors, moving electrical or air conditioning ducts, or locating subsurface utilities, pipes, and other concealed work. These papers, which are sent to the owner once the project is finished, detail all the modifications made to the original contract bid paperwork.

### Disposition of Project Files

The project manager typically keeps two files during a project: a record file and a working file. Original copies of crucial documents pertaining to agreements, contracts, and other legal issues are included in the record file. The working file, which is the project manager's file used for day-to-day project management, often includes copies of papers from the record file in addition to correspondence, meeting minutes, phone logs, reports, etc. A project's records and files, as well as a substantial quantity of information related to the project, amass after completion. The majority of Organisations have a set process on how to deal with files (Table.1). The record file's information has to be organized and indexed for quick access and retrieval for future use. The record file often contains duplicate information that should not be deleted, some of which may include handwritten annotations. Although a large portion of the file's contents may be deleted, enough details need to be kept so the project manager can go back and review their work.

**Table 1: Check List of Duties for Project Close Out.**

Project close out	Owner	CM	Designer*	Contractor
1. Certificate of substantial completion	Approve	Review, approve, file	Review, approve	Originate
2. Clean-up	Observe & comment	Coordinate, enforce	Observe	Responsible
3. Punch list	Approve as required	Expedite & coordinate work	Prepare, evaluate work	Respond
4. Cali backs (after construction)	Request	Arrange & coordinate	Review & approve work	Respond

### Post Project Critique

Every project should have a post-project review because there are lessons to be learnt from each project that can be used to increase the success of subsequent initiatives. Owner and important project players like lead designers and construction representatives should be present. All team members benefit from the input obtained via a constructive discussion of the issues and solutions discovered during a project when planning and carrying out subsequent ones. It is crucial that the whole conversation be conducted in a good and professional way for the meeting to produce the intended outcomes. The project's positive and negative features must both be addressed. Instead of focusing on who was at blame or caused the issue on this project, the emphasis should be on how to prevent or mitigate

difficulties on future tasks based on problems discovered on this work. Others who did not attend the post-project review should still get the minutes of the meeting so they may learn from the lessons. A project peer review, which is an impartial assessment of the design principles or management practises of a specific project, may be helpful. The requirements of the owner, designer, or any interested party may be addressed in project peer reviews. A report named has been created by the American Consulting Engineers Council (ACEC) and the American Society of Civil Engineers (ASCE).

### Owner Feed-Back

After a project is finished and being used by the owner, a formal meeting with representatives from the owner's Organisations should be conducted to get feedback on how the project is doing. This is a crucial activity for assessing the quality of a finished project and the owner's happiness since the actual success of a project can only be gauged by how well the owner's Organisations uses it.

### Impact on Project Partners and Stakeholders

One of the main tenets of Interred is that project outputs should be durable or leave a legacy. Many programmes contain selection criteria designed to make sure that outcomes and resultsand maybe even partnershipscontinue to matter after the initiative is over. This must be assured, at the very least, among project partner organisations and among the stakeholder groups who have been most closely involved with the project: It is doubtful that any permanent advantage would have been attained if a project's outcomes are abandoned right away and no desire in continuing to work on the topic.The process of integrating fresh concepts and methods into the standard operating procedures of the target organisations is known as mainstreamin or capitalization. Depending on the sort of result and solution, target audiences, and larger project stakeholders engaged, the activities might take several forms. It is often one of the primary goals of publicity and distribution efforts, but it goes a step farther than simple promotion by attempting to guarantee the use and implementation of the project's output.

The application procedure will undoubtedly favour projects with a solid mainstreaming approach. A lot of the success factors have been covered in earlier chapters in relation to communication, needs analysis, and stakeholder participation. A crucial aspect of project creation and management is planning for what will happen with the actual outputs when the project is over, and early actions should be taken to achieve these goals. There are four crucial inquiries to make: What outputs will the project produce that should be made available to a wider audience? · Which target groups should be informed about which outputs? What is the best way of reaching these target groups? How do we expect them to make use of these outputs?Early on in the project's existence, these concerns need to be addressed. Considering how each project partner should be affected by the project as a whole, who in each Organisations will need to support project outcomes for this to happen, and how they may be engaged most effectively, should be the beginning point. It's crucial to constantly keep in mind that individuals are more likely to embrace opinions they have had a hand in shaping.

The direct target audiences for the project should go through the same procedure. Exists a local company or interest group that can take over the results, for instance if it's a SME? Can SMEs be convinced to continue with their own finance when work is successful? This already begs the following final query: Is it sufficient for the target audience to be aware of the project output and to get some knowledge from it, or has the project created a tool that should ideally be utilised entirely by new stakeholders in the future? Instead of depending on

chance with an open final conference and a publication for wide distribution, this sort of question should guide the communication strategy in the project's final phase. It will help create a series of activities that will convey the required information to the appropriate individuals. The project's potential goods and services should also be given some consideration. There are just a few restrictions if a project partner has been taking part in a State Aid Programme that has been approved: Commercially viable products and services may be created, with the project partner using the money made from sales to carry out further development. It is not feasible to simply sell or charge for access to project outcomes, albeit there are tight restrictions for the majority of project partners. Planning will thus often be predicated on the free transfer of project outcomes to public entities who are prepared to pay for future operation and development expenditures.

This transfer of responsibility must be made public and include all background information and other documents required for a different entity to carry out the project's work. Programmes often stipulate that project developers cannot maintain any intellectual property rights over their work other than the ability to be credited as the creator.

Where there has been an investment in equipment or infrastructure, this sort of transfer is not feasible. In these circumstances, the project partner will need to set aside money for running and maintenance expenses after the project. Any income amounts paid to project partners for services or goods created during the project produced within five years of its conclusion must be recorded and the money reimbursed to the Programme.

### **Making an Impact**

The second stage should be to go after policy makers and legislators if the first step is to target the immediate consumers of the project outcomes in order to make sure that they also take up and grasp the project's main challenges. In most cases, it is no longer possible to complete the project with the creation of a research report or the conclusion of a pilot; instead, it is expected that the partnership will identify other Programme participants who could benefit from what has been accomplished and make sure that information is effectively shared with them. It takes time and effort to do this. In order to allay worries about whether the project has solid solutions and can eliminate obstacles, increase performance, etc., it requires that policy goals and needs be understood and that trusted connections can be formed. Like other stakeholders, policymakers are hesitant to adopt final products if they were not directly engaged in their creation or if they cannot, at the very least, understand how clearly their own policies are represented in project proposals.

At project completion, this strategy of establishing positive relationships with key stakeholders early on should truly pay off. If responsible authorities do not take proposals into consideration, there is no sense in producing them. Finding excellent practices is useless if Organisations are not prepared to put them into practice. If no one outside the partnership ever reads the reports, there is no value in having them written.

It is necessary to come to agreements for how outputs will be delivered to stakeholders, when they will get them, and what they will do with them. If project findings are to be mainstreamed and accepted components of regional, national, and/or European policies or processes, stakeholder support is crucial. If stakeholders are approached early in the project and shown the finished products, this is very unlikely to happen. The project must give opportunities for feedback and will be expected to do so. Also keep in mind that the Programme and the national and regional representatives serving on the various Programme committees may be quite helpful in this situation and may have access to various connections.

## Planning the Next Steps

Every undertaking requires a defined goal. There must be a time when it is possible to say with certainty if the project's goals have been met or will be attained. In many schemes, there is one area where standards are tightening up: The production of sustained stand-alone outputs via endless repetition of previous operations or reliance on more funds is extremely likely to be denied. If project activities are really valuable to the Programme area, they should eventually be able to secure their own financing. On the other hand, it is widely acknowledged that money from Interred and other programmers plays a significant role for many public entities. A lot of activity is organized around intricate portfolios of initiatives funded by various funds, with Interred offering fresh perspectives, information, and inspiration from across the world. This often fuels further investments or research in other, more significant initiatives, which may in turn spark a fresh set of problems that need investigation in an interred project. These synergies are advantageous because they allow for knowledge and expertise to be shared across sectors and levels of government, maximizing the use of various financing vehicles. Exploring how your results might contribute to these larger processes, what will be adopted by other efforts, and what remains as prospective new topics for Interred financing at project's conclusion is beneficial.

## CONCLUSION

Project closeout, which marks the end of project activities and the start of the operational phase, is an important stage in the project lifecycle. Finalizing deliverables, assessing project performance, resolving pending problems, and providing a seamless handover to the operational team or end-users are all included in this extensive process.

The capacity to evaluate project performance, record lessons learned, execute contractual responsibilities, and allow knowledge transfer are all important aspects of project closeout. Organisations may discover strengths and flaws in a project's success via a comprehensive review, allowing ongoing improvement in subsequent initiatives. During the closeout phase, open communication with stakeholders is essential to assuring their comprehension of the project results, resolving any issues, and supporting a seamless transfer. Organisations may develop trust and long-lasting relationships with customers and stakeholders by clearly discussing project successes, problems, and lessons learnt. Administrative responsibilities including financial closeout, documenting and archiving, and concluding contractual obligations are all part of the closeout process. By completing these duties, you can make sure that all project-related financial issues are taken care of, crucial papers are safely maintained and readily available, and legal obligations are met. The conclusion of a project is a time to take stock of its progress, recognize its achievements, and pinpoint opportunities for development. Organisations may improve their project management techniques, streamline procedures, and avoid making the same errors again by collecting and recording lessons learnt. Project closeout is crucial for successfully completing projects, in general. It summarizes project accomplishments, takes care of unresolved problems, and prepares the way for a seamless transfer to the operational phase. Organisations may maximize project results, maintain customer happiness, and constantly develop their project management skills by adhering to best practices and carrying out a thorough closeout process.

## CHAPTER 9

### PERSONAL MANAGEMENT SKILLS: KEY OF SUCCESSFUL PROJECT

---

Dr. Muralidhar Sunil, Assistant Professor,  
Master in Business Administration (General Management), Presidency University, Bangalore, India,  
Email Id-sunilrashinkar@presidencyuniversity.in  
Prof. Zabiulla, Regional College of Management, Bangalore, India

#### ABSTRACT:

A person's ability to successfully manage oneself and their job is referred to as having personal management skills. These abilities help people overcome obstacles, make wise choices, establish objectives, order chores, and maintain a good work-life balance. They are essential for both personal and professional success. An overview of personal management abilities, their significance, and the main topics they cover are provided in this abstract. Time management, planning, discipline, goal-setting, communication, and stress management are just a few examples of the many facets that make up personal management abilities. These abilities support people in increasing productivity, improving performance, and achieving their goals. Possessing effective personal management abilities is also essential for professional growth, work happiness, and general well-being. The capacity to prioritize work, use time wisely, and prevent procrastination are all part of time management. Maintaining an organized and clutter-free workstation, managing electronic and physical files, and using efficient processes to keep organized are all examples of organizational abilities. Self-discipline allows people to retain their drive, attention, and adherence to commitments and deadlines.

#### KEYWORDS:

Managers, Management, Project, Team, Time.

#### INTRODUCTION

The ideas, methodologies, tools, and strategies that have been utilized effectively to manage engineering and construction projects were covered in the book's earlier chapters. Engineers who are actively engaged in the present project management practice created and utilize the approaches. The project manager must, however, be aware of emerging technologies that may enhance the ideas in this book if they are to be effective. People sometimes oppose new technologies until they are validated. Despite the availability of technology, it is often not used due of human resistance. Change. A competent project manager will evaluate new technologies and come up with creative ways to integrate it into the project management process. An excellent illustration of the adoption of new technology is the usage of computers. When the computer was initially developed, some people solely saw it as a tool for technical or scientific purposes. Progressive project managers, however, saw the potential advantages of using computers in project management[1]–[3].

Nowadays, almost every step of a project's execution involves a computer. More than any other technological advancement, the computer has undoubtedly altered the way we work today. Similar to the influence of computers, the Internet is a technology that is now in use and has the potential to change how project managers do their business. There are several benefits to managing projects online, but the main ones are time savings and increased

productivity. Information may be sent more quickly to owners, designers, contractors, and suppliers who are spread out geographically. On project-specific websites, correspondence, drawings, and photos may be shared and catalogued for simple access. Important team members may keep an eye on data sharing, which drastically cuts down on the time it takes to make decisions. A request for information (RFI) may take an hour to complete using conventional techniques, and it might take days or weeks to get a response. RFIs may now be sent electronically, recorded virtually immediately, and often answered the same day or within a few days. With web-enabled project management, designers, suppliers, and contractors are aware of their obligations. Many businesses now use electronic media like the Internet to conduct their business in a paperless atmosphere. Project managers are taking notice of the improved efficiency as they struggle to do more work in less time. Project staff are expected to give outcomes more rapidly as projects get more complicated[4]–[6].

In addition, team members are dispersed across a larger geographic area than in previous projects. Today, design work completed anywhere in the world can be transferred to anyone else in the globe through the Internet very instantly. Transferring papers from one design office to another in different nations allows design work to advance constantly, 24 hours a day. Websites enhance communication both internally and outside. It may serve as an important source of public knowledge. For a project, a corporation may set up both public and private websites. While team members use one website to share specific design and construction information, the general public may visit another to get the most recent updates on traffic conditions and construction timelines.

The private site may significantly reduce the amount of time required for data interchange between the many offices and sub consultants involved in a project. The most popular and often used component of the Internet is e-mail. It permits users to use a computer to send written messages with optional attachments to anybody in the globe for the price of a local call. Drawing files, word processing documents, spreadsheets, images, multimedia clips, and web sites may all be attached. In addition, faxes may be sent through the Internet rather than traditional phone lines.

Systems for managing projects that are web-enabled handle project data more quickly and effectively. For owners, designers, and contractors attempting to complete work as fast and effectively as possible, the methods help decrease confusion and duplication. These systems may be organized with distinguishing tabs to resemble conventional file folder structures. For instance, a company's web system may utilize the Internet to capture delivery records, status updates, and other data in the field and upload it to the database there.

The use of project schedules utilizing an Internet-enabled technology that enables team members to see their assignments across many projects using a web browser is another example. The creation, upkeep, and dissemination of the project schedule are essential to the project management procedure. One may list current and upcoming events on a website using CPM scheduling or straightforward calendar schedules.

A web server may be utilized as the central repository for project materials instead of a local area network. Word processing files, spreadsheets, pictures, and drawings may all be included in the papers. Existing papers may be checked in and out by users of addandlor. Although they may be utilized in the design or construction phases, documents and file systems are most often employed in the design phase. The web may also considerably improve project management. Systems that are web-enabled may control work flow. The programme can produce, log, track, and index project documents in addition to managing them. Other features include task lists, event notifications for project participants, or necessary follow-up

tasks. It has never been simpler to shoot photos and videos and upload them to websites together with papers thanks to digital technology. Complete picture histories may be kept in a database and made accessible online. This may be used to give documentation as the project is being completed and to settle disagreements[7]–[10].

Reports on job costs may also be made public for examination. Without allowing access to an accounting system, restricted access to cost information might be granted for security reasons. Online status reports may include links to further information like timetables, cost reports, RFIs, or accident reports. This offers a method of offering people access to a document-based database that is simple to manage. Another use of project management over the Internet is voice and multimedia. Voice communication may be facilitated through the Internet. Audio and video recordings captured with a digital, still, or video camera may now be attached to emails. A live video stream from an online camera may be accessed by users, and inexpensive gear and software also enables two or more people to teleconference online. This is a useful tool for fixing issues in the field by a group of specialists who may be based in a home office and avoid having to go to the project site. Using intranets and extranets may help with information security. An intranet is a website created specifically for a company's internal usage, sometimes including sensitive information like timetables, bulletins, financial data, and information on the company's human resources. By reducing the number of printed and manually or mail-distributed hard copy notifications and documents, intranets may help businesses save money. An extranet is a website created by a business for shared usage online.

It may include a range of information with restricted or open access for its staff, business associates including suppliers and subcontractors, and the general public. Websites that are tailored to a project fall under this category. The success of project management via the internet offers a huge potential for productivity gains and time savings, but education and training are crucial. To implement new technology, the project manager must be knowledgeable about it and creative. Precautions need to be made while using any new technology. For instance, sending blueprints and data through the Internet might provide additional opportunities for mistakes, omissions, and unauthorized changes. Information may sometimes need to be confirmed as having been received in order to be sure.

The use of the internet is only one example of how technology is being incorporated into the workplace. The project manager must be aware of possible uses when new technologies are created and come up with ways to utilize the technology to boost project management effectiveness[7], [8], [11].

## DISCUSSION

When a project is finished and in use, it fills one with a tremendous sense of pride and happiness. Due to the dynamic nature of projects, coordinating engineering and construction presents several difficulties. The project manager and other team members feel satisfied when issues are resolved as they emerge.

The majority of project managers agree that working with individuals on projects results in the formation of lifelong friendships. Years after a project is over, talks between individuals who worked together on prior projects sometimes veer towards humorous recollections of the issues that sprang up and the solutions utilized to address them. In general, the issues seem to be considerably less significant once the project is over than they were while it was being carried out. Successful individuals turn obstacles into opportunities. No matter how challenging a situation may seem, there is always a solution. Most project managers are eager to begin a new project as soon as one is finished. They anticipate the next project and the

chance to put the lessons they've gained from other initiatives into practice. The majority of project managers agree that they like their profession.

### Human Aspects

The information that must be obtained and handled to properly complete a project was described in the chapters that came before it. Even if a structure for project management and control must be created, individuals are ultimately responsible for making things happen. The general coordination of a project is guided by a project management system; however the system may sometimes need to be improved or modified for a specific project. People are the sole resource that can identify issues and make the required corrections to properly manage a project. Therefore, a project manager shouldn't only rely on the project management system and undervalue the significance of the stakeholders in the project. To sum up, excellent communication between the individuals doing the tasks required to finish the project is the best way to define successful project management. Any project's management includes coordinating the efforts of people who each have a niche area of expertise. A competent project manager is a good delegate, communicator, and planner.

Some project managers have a propensity to gripe that things outside their control are preventing them from finishing the assignment. For instance, a project manager could think that the team members are too inexperienced, that explaining what needs to be done takes longer than it does to actually accomplish it, or that a team member's error would be too expensive. Other frequent instances include the belief that others avoid taking responsibility or that they are overworked and don't have time for more tasks. Even while these issues are concerning, working with people entails a number of other issues that may be managed well. Prior to being assigned the task of overseeing the job, project managers often had years of experience doing the activity. They could prefer performing the task themselves since they are acquainted with what is needed rather than having it done by someone else. Others. As a consequence of trying to do and manage the work at the same time, they get exhausted, dedicate evenings and weekends to their work, and then whine that the task is not completed because others are too inexperienced. Realizing that people can only get experience by completing the labor themselves;

Moreover, more often than not, employees can do tasks equally as well as or even better than supervisors. Accepting the possibility that others may not do the task precisely as the manager would is the issue. Who can do the task adequately should be the determining criteria rather than who can perform the task well. The project manager must strike a balance between the project's overall accuracy and work quality. By maintaining open lines of communication and receiving instruction, one may get past the perception that one is too unskilled. Project managers often do the work themselves at night or on the weekends because they believe it takes longer to explain the task than to complete it themselves. A person can often do the task more quickly than they can describe what is required to others. However, it is often more effective to teach it to others one time so they are familiar with performing it in the future if the job has to be done on a certain project or on subsequent projects. Project managers must understand that they must first comprehend what has to be done for themselves before instructing others. As was covered in earlier chapters, a clear work plan lays out the course of action for informing team members of their job responsibilities.

The completion of a project often entails large expenses over a long time with many dangers. Every project manager is concerned about the possibility that a human error may be too expensive. Due to this anxiety, a project manager could be hesitant to delegate the task to

others and wind up performing it themselves. The issue is the lack of trust in other people and the worry that, in the event of a crisis, they won't have the necessary judgement to manage it. The common defense is that If you want it done right, you must do it yourself. However, a sound control system will assist guarantee that job is completed correctly. Finding latent talent might be hindered by a fear of taking a gamble. A management could be hesitant to allocate work because they think others won't have time for it since everyone seems to be busy. This seat... "auction often occurs when the task at hand requires specialized knowledge that only a few people possess. To guarantee that all participating in the project are making effective use of their time, a system must be created. The easiest way to do this is to create a clear project schedule from the outset of the project, with involvement and feedback from every participant. There is always time to do the necessary tasks. The refusal of certain personnel to take accountability is another issue that some project managers have. People won't take responsibility if they anticipate unfair criticism if they make a mistake or believe their efforts will go unappreciated. A manager must create a project control system that guards against huge errors that are disastrous while tolerating small errors that are unavoidable. Because some managers want to make all the choices, some individuals just find it simpler to ask the boss than to make the decision themselves. Managing a project requires People prefer to do the job that is expected of them, therefore clearly state the task that is necessary.

### Assignment of Work

Since project management entails coordinating work rather than doing it, the project manager assigns tasks to other team members. When you assign someone work, you give them the power and duty to complete the task and to make any choices that may be required. However, the project manager should not give up control while delegating power, responsibility, and decision-making. Different degrees of delegation may be established by a project manager, including completion of the work and delivery of the results, proposal of the work to be done and notification prior to beginning, and performance of just a portion of the work and submission for review and approval. Work must be delegated to the appropriate person with a clear explanation of what is anticipated and when it must be finished. This is management. One must make sure the other person is aware of the assignment since miscommunication is a regular issue in project management. A project manager must offer each team member the chance to do the task in the manner in which they see fit. Simply said, their method of doing a task is frequently as good as mine.

A project manager's expectations should be realistic. The individual assigned to do a work will typically be aware of this reality and reject pressure and responsibility if the assignment is not one that can be fairly accomplished. The best method to determine if it will be possible to complete a job is to collaborate with the individual to define the work that will be needed to produce the intended outcome. A lot of challenges come up when work is being done. A project manager must be available to answer questions, provide clarification, and make any required revisions. In other words, the project manager must be accessible when required. To keep the job moving in a clearly defined way so that everyone involved can work as a team, regular team meetings are required. A competent project manager must guide the team and boost individual confidence.

It is necessary to have faith in their talent, wisdom, and judgements. Any group's leader must sometimes check in with its members to see how things are going and how they are doing. As a result, the team members gain trust and respect from one another and are more likely to work hard to provide high-quality results. A project manager has to acknowledge and celebrate successful and exceptional performance. People are entitled to and enjoy this

acknowledgment. Similar to this, a manager should hold an employee accountable for subpar work and explain why the work is subpar, where errors were made, how to improve the job, and how to avoid difficulties in the future. Many project managers have a propensity to hurry in and take control and are forceful. Each individual has to find their own management style, but they must be careful not to overreact to things. It is possible to turn issues into solutions in due course with the proper mindset and working relationship.

## Motivation

Experienced managers easily acknowledge that there are several categories of individuals, including those who cause events to occur, those who observe them, those who are unaware of them, and sometimes those who don't want to know.

The project manager must come up with strategies to inspire each of these groups of individuals. Every team member contributes a skill that is necessary to complete a project. Individual team members are often allocated to the project by their respective supervisors from distinct disciplinary areas. Despite the fact that everyone contributes to the project, each employee may have a separate supervisor. As a result, the project manager, who serves as the team's leader, must inspire people who, in reality, report to someone other than the project manager. Therefore, the project manager must create efficient strategies for team member motivation that go beyond the conventional ways of income or title advancement.

Many managers think that the biggest motivation for people is money. It goes without saying that few individuals would work if they were not compensated. There are other things that affect people's motivation outside money, which may be a motivator to some extent. There are more aspects that need to be taken into account, unless the salary is significantly different. The project manager would struggle with motivation if money were the primary factor in determining each team member's compensation since this is often not the case. Due to the fact that most project managers have little influence over pay rates, they must inspire team members by recognizing them individually and, more crucially, by giving them opportunities to develop and take on new challenges. The topic of inspiring individuals has been the subject of countless publications and philosophies.

The majority of individuals are needs-driven. According to Maslow's hierarchy of requirements, there are five levels of wants that humans attempt to satisfy: basic survival, safety, social, ego, and self-fulfillment. According to the principle, a person tries to meet their fundamental wants for food, clothes, and shelter.

After these requirements are met, a person works towards the next level of need, safety, which may involve maintaining a job, having financial security, etc. The next higher degree of need is sought as each level of need is met. In order to properly encourage the project's participants, a project manager must work to understand their requirements. Since daily tasks make it difficult to do this, it might sometimes be advantageous to connect with people outside of the workplace. Understanding a person's interests and desires is often a beneficial step in comprehending why they behave the way they do and may result in constructive motivation. Each team member's motivating requirements should be taken into consideration when good management devises strategies to boost employee performance. Professionals look for career passion, accomplishment, and recognition. Everyone want both a sense of accomplishment and importance. A project manager should encourage individuals to feel good about themselves because they achieve excellent outcomes. Realizing that everyone has the chance to succeed and living up to their full potential. Team members' attitudes like these may inspire everyone on the team.

## CONCLUSION

Personal management abilities are essential for people to properly manage their lives and their job, to sum up. These abilities include a wide range of topics, including goal-setting, communication, time management, organisations, self-discipline, and stress management. People may increase their productivity, accomplish their objectives, maintain a good work-life balance, and boost their general well-being by learning and practicing these skills. The ability to manage one's time well, priorities duties, and refrain from procrastinating is known as personal management. They support people in maintaining their organisations, a well-organized workstation, and efficient file management. Maintaining motivation, remaining focused, and keeping one's word, all depend on one's ability to exercise self-control. Setting goals enables people to specify specific objectives, establish action plans, and monitor their progress towards reaching those objectives. Building good connections, fostering productive work environments, and effectively communicating thoughts and ideas are all made possible by effective communication skills.

The ability to regulate stress enables people to deal with the demands of the workplace, lower their stress levels, and take care of themselves in order to preserve their general wellbeing. A dedication to progress, self-awareness, and continual improvement are necessary for developing personal management abilities. It entails identifying one's strengths and flaws, establishing reasonable objectives, asking for criticism, and actively looking for learning and growth opportunities.

People may maximize their productivity, lower their stress levels, and create a better work-life balance by developing their personal management abilities. These abilities support professional growth, work happiness, and personal achievement. Strong personal management abilities are highly valued by employers since they enhance the organization's overall effectiveness and efficiency. Personal management abilities are more crucial than ever in the hectic and demanding workplace of today. The long-term rewards of mastering these abilities may help people succeed in both their personal and professional lives.

## CHAPTER 10

### COMPONENTS OF DECISION-MAKING MANAGEMENT

---

Mr. Ashok Bhat, Assistant Professor,  
Masters in Business Administration, Presidency University, Bangalore, India,  
Email Id-ashokbhat@presidencyuniversity.in  
Prof. Anala, Regional College of Management, Bangalore, India

#### ABSTRACT:

A crucial component of management is decision-making, which is picking the optimal course of action from a range of options. Achieving organizational objectives, resolving issues, allocating resources, and adapting to changes in the corporate environment all depend on effective decision-making. This chapter gives a general overview of decision-making in management, emphasizing its significance, fundamental tenets, and the part managers play in the process. Making decisions is a complicated process that calls for acquiring pertinent information, analyzing data, taking into account a variety of possibilities, weighing risks and rewards, and selecting an option using good judgement and logic. Due to their responsibility for selecting choices that are consistent with the goals and strategies of the Organisations, managers play a crucial part in decision-making. Clarity of aims, logic, extensive analysis, taking into account diverse viewpoints, and taking into account both short-term and long-term ramifications are essential components of good decision making. When making judgements, decision-makers should also take ethical issues, cultural considerations, and stakeholder interests into account. Different models and methods of decision-making exist, such as collective decision-making, intuitive decision-making, and logical decision-making. Making judgements logically means using a methodical approach and basing them on logical analysis and objective standards. Making decisions intuitively depends on gut instincts, prior knowledge, and subjective judgement. In order to benefit from a variety of viewpoints and skills, group decision-making includes incorporating several people in the decision-making process

#### KEYWORDS:

Decision- Making, Information, Manger, Management, Presentation.

#### INTRODUCTION

The decision-making process involved in project management involves a great deal of time and effort on the side of the project manager. The quality, cost, or timeline of a project may be significantly affected by certain choices, even if many are routine and can be made quickly. Without knowledge of and comprehension of the fundamental objectives and goals that must be achieved, good judgements cannot be made. Making decisions entails selecting a path of action from a range of options. It is the responsibility of the project manager to make sure that all participants are aware of and understand the project's goals so that they may concentrate their efforts on solutions that will provide the intended outcomes. This is crucial since it might take a lot of time and money to evaluate options that could work to tackle a specific issue but have nothing to do with the main goal at hand. To guarantee a concentrated effort, the project manager must coordinate the project team's work[1]–[3].

Making decisions quickly is necessary to avoid work delays that might affect a project's budget and schedule. The majority of project choices are made internally inside the

Organisations of the project manager, which makes them manageable. However, certain choices, especially during the review and approval process, are made externally beyond the project manager's Organisations. Early on in the project, the project manager must identify the tasks that call for outside judgement so that the right information can be given and the decision-maker can be recognized. This has to be included in the project schedule to notify the accountable parties and prevent any delays or interruptions in work due to improper timing of decisions. When managing a project, a project manager may resort to the established rules concerning the decision-making power of many Organisations. However, there are several occasions where speaking with individuals who have experienced similar circumstances may be helpful. Whatever the circumstance, there is nearly always someone else who has had a comparable issue. Even though many judgements are made under duress, the project manager should avoid making them[4]–[7].

To make the optimal choice, one must collect all relevant data, predict probable outcomes, reflect, and then utilize their best judgement. Although it is impossible to foresee every conceivable consequence, one may rule out the implausible ones through diligent consideration and evaluation. Every action has some risk, and even skilled managers sometimes make poor judgements. However, fresh information may become available or new circumstances may occur that will necessitate changing the initial decision. To earn the respect of the team, a project manager must be decisive. Procrastination and hesitancy must be avoided by a project manager, and team members should be encouraged to make decisions. Uncertainty makes most people anxious individuals, which increases anxiety and ambivalence. Many things might go wrong due to a lack of decisiveness, including: no one understands what to do, work is not completed because due to a lack of focus, which wastes talent, money, and time. The project manager must make sure that the right choices are taken by the right people, at the right time, and on the basis of accurate information.

All project participants should be informed of a choice after it has been reached so that everyone engaged is aware of what has to be done. Distributing the meeting minutes or transcript of the discussion with a highlight or flag to indicate the decision may be a simple way to do this. Improved organizational performance, more innovation, better problem-solving, and more employee happiness may all result from effective decision-making. On the other side, making bad decisions may result in resource wastage, lost opportunities, and negative effects for the Organisations. Managers may improve their decision-making abilities by being lifelong learners, asking for feedback, following industry trends, and adopting a growth mindset. It is crucial for managers to provide a decision-making environment that values open communication, fosters innovation, and gives staff members the freedom to share their opinions. Decision-making is a vital component of management and is essential to the success of an Organisations. Clear goals, logical analysis, taking into account diverse viewpoints, and ethical concerns are all necessary for effective decision-making. Making choices that are in line with the objectives and strategies of the company is a big responsibility for managers. Managers may enhance organizational performance and promote an innovative and growing culture by polishing their decision-making abilities and developing a supportive decision-making culture[6], [8]–[10].

## DISCUSSION

Several essential elements are involved in effective decision making. First, managers must be clear about the aims and goals they wish to accomplish. This clarity helps them to connect their choices with the organization's overarching strategic direction. Second, decision making requires logic. It entails logical reasoning, weighing risks and rewards, taking into account available facts, and applying objective criteria to guide the decision-making process. Another

critical part of decision making is thorough analysis. Gathering and analyzing relevant information, doing research, and using analytical tools and procedures to analyse the prospective results of each option are all part of this process. Managers must also take into account diverse viewpoints and include stakeholders who may be impacted by the decision. This provides a more thorough and balanced approach.

### Time Management

Time is valuable and essential in everyone's personal and professional lives. A project manager spends a significant amount of time speaking and connecting with other project participants. As a result, it is critical that time be utilised productively and effectively. A project manager must exercise caution since there are always more fascinating and valuable things to undertake than time allows. To assess how effective time is utilised, an examination of how time is spent is required. A time diary of how substantial sections of one's time are spent should be kept on a regular basis. Over the course of two or three weeks, a daily record should be kept that indicates how much time is spent on each activity, who was engaged, and what was achieved. Telephone calls, meetings, unplanned guests, and special requests may all be classified as activities. An analysis of the distribution of time by categories will allow the project manager to determine where his or her time is spent the most, allowing for changes. It is typically simpler to decrease a category with a high time expenditure by a modest amount than it is to reduce a category with a low time expenditure.

Unproductive phone calls and meetings are common time wasters for project managers. Although the telephone is required for a manager to do his or her job, it may be quite disruptive. There are times when calls should not be answered so that other activities may be completed. A secretary, assistant, or answering machine may intercept calls to help with telephone management. Meetings are required for project management. Preparing an agenda and distributing it to all participants before to the meeting is the most effective approach to run a fruitful meeting. An agenda is used to concentrate talks and to follow an organised coverage of information that should be given. A brief list of frequent time wasters is provided. The project manager must establish priorities and create a time management system. The least fascinating tasks may be planned while one's energy is at its greatest. A complete evaluation should be conducted to examine job duties that may be delegated to others, as well as an analysis of work to identify how and what can be delegated.

### Common Time Wasters

1. Unproductive telephone calls.
2. Unproductive meetings.
3. Unscheduled visitors.
4. Special requests.
5. Attempting too much at once.
6. Lack of goals and objectives.
7. Procrastination on decisions.
8. Involvement in routine items that others can handle.
9. Inability to set and keep priorities.
10. Inability to say no.

Combined or deleted. Long-term goals should be prioritized above short-term goals, which may easily be assigned to others. Most individuals are more motivated by planned labor than by work that just happens at the time. Priorities must be established and maintained in order to properly manage time.

**Communications**

Miscommunication is one of the most common causes of mistakes and misunderstandings in project management and working with people. Too frequently, the other person does not hear or comprehend the information correctly. Communication may be either oral both speaking and listening or written both writing and speaking. As well as reading. In each case, clear, coherent, and efficient communication skills are required to guarantee that all project participants operate well. The project manager must understand that not everyone interprets the same item the same way, and that communication is useless unless it is both heard and comprehended.

The project manager's function is equivalent to the central server in a computer system's local area network. He or she is in charge of the constant and comprehensive flow of information to and from team members, with a focus on disseminating information and choices that may have an impact on the project team's work. Conversations, meetings, minutes, correspondence, reports, and presentations are examples of these communications. Informal information exchanges among team members accomplish most of the day-to-day work on a project. Telephone conversations and casual gatherings between two or more people are examples. Although the majority of these conversations are routine, some may have an influence on the work of others or project choices about scope, money, or schedule. Informal information exchanges that alter the scope, budget, or schedule must be reported in writing at the next regularly scheduled team meeting. The project manager should keep a record of phone calls, including the names of the people involved, the date, time, and location of the discussion, as well as the subjects discussed.

 Devanahalli, Bangalore

examples. Many presentations have the fault of trying to give the audience too much, delivering a step-by-step breakdown of everything on the topic. A presentation often has a time constraint, and the audience is generally a busy bunch. As a result, the presentation should be more of a summary of key points of immediate relevance, with detailed material left in a report that may be reviewed later. Because only a limited number of graphs, tables, or computer printouts may be shown, they must be carefully selected. A presentation should begin with a title, which is a short summary of the topic, and should be followed by a quick overview of the content to be delivered. During a presentation, the person delivering the topic must be aware that the audience will not recall every word stated. The important points may be repeated to boost clarity and emphasize crucial points by picking various words and phrases to bring forth the same significant concepts. This is required for successful speaking, but it cannot and should not be done in writing since a reader may reread content to clarify or comprehend what is stated.

The speaker should clarify any terminology or acronyms that he or she believes the audience may not be familiar with or comprehend. This should be done when the words are utilized, rather than at the start or conclusion of the presentation. A term that is defined or clarified guarantees that the audience hears and understands what is being spoken. It also guarantees that the audience is thinking about the presentation and focuses on the essential points of the speaker. Visual aids, especially tables of figures, equations, and technical data, considerably improve any presentation. The significance of visual aids is that the audience simultaneously hears and sees the presentation, which considerably helps their comprehension and retention of the material. Visual aids can assist the speaker in keeping the presentation running smoothly. Computers utilized across the business are capable of making slides for presentation purposes using graphically produced data. Current copy machines with enlarging and shrinking capabilities may also be used to create overhead transparencies of printed content, such as laser printer-generated reports.

Few individuals are impressed by elaborate language or the speaker's effort to impress the listener. The degree of information that should be offered is determined by the audience's knowledge of the topic. As a result, knowing your audience is essential. Simple and straightforward language that provides the content in an understandable manner should be utilized.

The speaker should not make the audience feel uneasy in order to capture their attention. Apologies and critical remarks should be avoided. Even while discussing contentious issues, a pleasant attitude should prevail. The presentation should be summarized at the conclusion, just as the audience was informed what the presentation was about at the start. In addition, appropriate time should be set out at the end of the presentation for questions and answers.

## Meeting

Throughout the course of a project, several meetings are conducted to share information and make decisions. The timetable for frequent team meetings should be specified as part of the project work plan at the start of the project. The project manager should preside over team meetings, which should be conducted once a week, ideally on the same day and time. Meeting minutes should include things discussed, decisions made, and actions to be done together with the responsible person and the due date. Special meetings may be called on occasion to tackle unusual challenges or circumstances. Minutes from these meetings should be preserved in the project files as well. Other meetings with the owner are conducted to report progress or seek clearances.

Special meetings with additional interested parties, such as regulatory agencies or the general public, may be convened. The project manager may not chair these meetings and is often joined by lead project team members to help in addressing project challenges.

Meetings should be conducted in an efficient way since individuals in attendance are typically busy people with other things to do. An agenda is an efficient way of organizing a meeting since it defines and sequences the issues to be addressed, preventing conversations from straying. When an agenda is utilised to lead the talks, the time required to hold a meeting is also greatly decreased. An agenda may also prevent one person from dominating the debate and allow everyone to participate.

Meetings must begin and conclude on schedule. Those who come on time are penalized, while those who arrive late are rewarded. On the agenda, it is ideal to provide the start and finish times. Sessions with limited time will typically cover as much, if not more, content than sessions with unlimited time. Every formal meeting should have minutes taken. As previously stated, meeting minutes should include issues discussed, choices made, and actions to be done together with the responsible person and the due date. All participants should be given a copy of the minutes, and a record copy should be kept in the project file. Minutes allow each person to double-check the issues addressed and choices taken. Minutes also help the project manager plan the agenda for the following meeting.

## CONCLUSION

Management of decision-making is an important component of organizational success. Decision-making is a complicated process that includes gathering information, weighing alternatives, and deciding on the best course of action. Organisations may improve their capacity to make informed and effective choices by employing strong decision-making management practices. Several critical factors are required for effective decision-making management. Defining clear decision-making roles and responsibilities, establishing decision-making processes and frameworks, fostering a culture of data-driven decision-making, promoting collaboration and diverse perspectives, and ensuring transparency and accountability in the decision-making process are all examples of these. Organisations that priorities excellent decision-making management may reap a variety of benefits. They are better prepared to react to challenges and opportunities because choices are taken quickly and with all relevant aspects considered. Effective decision-making also results in improved resource allocation, efficiency, and organizational performance. Additionally, effective decision-making management fosters employee engagement and empowerment. Employees feel appreciated and have a feeling of ownership over the results when they are participating in decision-making. As a result, job satisfaction, motivation, and a more favorable work atmosphere rise. Organisations should give training and assistance to their staff to build decision-making abilities in order to achieve effective decision-making management. Leaders also play an important role in fostering a supportive atmosphere that supports open communication, risk-taking, and learning from errors. Effective decision-making management is more crucial than ever in today's quickly changing and complicated corporate scene. Organisations that priorities and foster an effective decision-making culture are better positioned to handle uncertainty, capitalize on opportunities, and generate long-term success. Efficient decision-making management is a strategic need for businesses. Organisations may make informed choices that lead to good results and advance their development and competitiveness in the marketplace by developing strong decision-making procedures, creating a culture of collaboration and data-driven decision-making, and empowering workers.

## CHAPTER 11

### A BRIEF OVERVIEW ABOUT TOTAL QUALITY MANAGEMENT

---

Ms. Anandasrinivasan Deviprabha, Assistant Professor,  
Master in Business Administration, Presidency University, Bangalore, India,  
Email Id-deviprabha@presidencyuniversity.in  
Prof. Smitha, Regional College of Management, Bangalore, India

#### ABSTRACT:

Total Quality Management (TQM) is a management philosophy that emphasizes continual improvement, customer happiness, and the participation of all workers in the pursuit of quality. This summary gives an overview of Total Quality Management, including its core concepts and importance in attaining organizational excellence. TQM emphasizes the necessity of surpassing customer expectations by providing high-quality goods and services. It entails a comprehensive strategy that incorporates quality into all areas of an organization, including its processes, systems, and culture. Customer focus, continuous improvement, staff participation, process orientation, and data-driven decision making are essential TQM concepts. Customer focus requires recognizing and addressing the requirements and expectations of customers in order to increase satisfaction and loyalty. Continuous improvement refers to continual attempts to improve processes, goods, and services in order to attain better levels of quality and efficiency.

#### KEYWORDS:

Customer, Construction, Improvement, Processes, Quality.

#### INTRODUCTION

The Total Quality Management (TQM) concept, which emphasizes cooperation at all levels of an organization to enhance project quality and achieve maximum customer satisfaction, has received considerable attention. Much of this interest stems from the successful use of TQM in the manufacturing and electronics sectors, notably in Japan, where the TQM idea was first introduced in the early 1950s. To achieve customer satisfaction, cost efficiency, and defect-free quality work, the TQM concept focuses on process improvement, customer and supplier interaction, cooperation, and training. Rather than aiming to examine or test the product to attain quality, the TQM management concept focuses on continually improving the process that creates the product. The strategy uses statistics to govern the process: management's purpose is not to fix all system issues, but to empower employees with the tools they need to successfully handle system problems [1]–[4].

Much of the TQM idea may be traced back to the teachings of Drs. W. Edward Deming and Joseph M. Juran, who, together with other US specialists, helped the Japanese improve the quality of their goods starting in the early 1950s. At the time, Japanese goods were plagued with flaws and were seen as inferior to those produced by other nations. Deming travelled to Japan many times to give lectures on statistical process control and incorporating quality into the production process. He emphasized that the bulk of industrial issues are caused by the process, and that statistics may be utilized to govern that process. Juran described a management strategy to quality control that emphasized attaining customer satisfaction via a project team approach and project-by-project improvement. He emphasized the need of training at all levels, from employees to executives. In all cases, the focus is on continuous

progress. The Construction Industry Institute (CII) is a national research Organisation created as a consequence of the Business Roundtable's Construction Industry Cost Effectiveness task force report. CII's mission is to enhance the construction industry's cost efficiency by identifying research requirements, conducting research, and aiding in the implementation of the findings. The CII established a Quality Management Task Force to undertake research in the construction industry to identify characteristics of quality management organizations and methodologies seen to be successful in the construction sector.

The task force's goals were to determine the reasons behind the qualities' performance, how they were established and executed, and to offer general principles for adopting enhanced quality management throughout the construction sector. The conclusions of the task force's study are recorded in CII Source Document No. 5 1. The CII task force determined that an integrated strategy of TQM and quality assurance quality control is essential to enhance the quality of the construction industry's goods and services. Construction businesses have taken, with modest adjustments, the TQM techniques and principles employed in the US manufacturing sector and applied them to their operations. The creation and execution of a TQM methodology must be adapted to an organization's particular demands. A program cannot be easily accepted and implemented by a consultant. There must be action behind the words and ceremony, and this can only be done with top management's awareness and engagement. If TQM is to be successful, management must engage in the implementation process and be totally committed to it[5]–[8].

A modest, well-placed pilot project is an excellent way to acquire acceptance of TQM among a company's workers and management. It takes roughly three years for the TQM process to be adopted across an organizations and substantial outcomes to be produced. TQM training will not be successful unless both the technical and humanistic aspects are addressed. The more technical the procedures, the more emphasis should be put on interpersonal and communication skills training. The topics and examples utilized in the training endeavor should be interwoven with the persons being trainer's real work processes. Employees should begin applying newly acquired abilities to their employment as soon as feasible. Statistical approaches are being utilized successfully in engineering and construction processes to detect and address issues and enhance procedures. Employees and management must first comprehend the underlying ideas of TQM and the objective of regulating and continually improving their processes in order for tracking to be used successfully.

Owners and contractors want better connections with each other, as well as with suppliers and subcontractors. Owners and contractors are entering into partnership partnerships. Both owners and contractors want to limit the number of qualified suppliers they work with. The sections that follow are excerpts from Appendix A of CII Source Document No. 5 1 that describe the basic principles and essential elements of TQM in construction terms, demonstrate their applicability to the construction industry, and outline the TQM process implementation. TQM's fundamental principles are customer satisfaction and continual improvement.

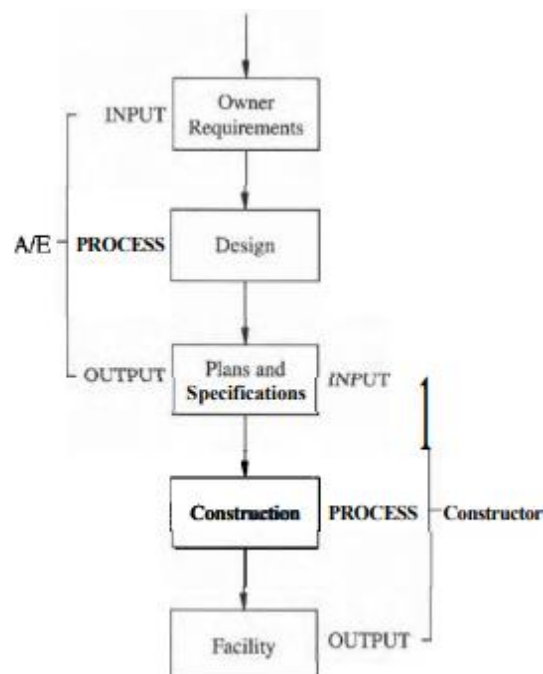

TQM components constitute the framework that supports the customer satisfaction and continuous improvement ideals. Management commitment and leadership, training, collaboration, statistical methodologies, cost of quality, supplier engagement, and customer service are the seven aspects listed in the CII study. Although there is no industry standard for implementing TQM, the CII research identified four steps that have been used to successfully implement TQM preparation and planning, plan implementation, measuring and verifying plan implementation, evaluating results, and moving on to the next preparation and planning stage[9]–[12].

## DISCUSSION

TQM's core aims are customer happiness and continual improvement, and hence the ideas upon which it is founded. All efforts in TQM are geared towards the goal of delighting the client by continuously improving on the current techniques and procedures that control the job. The two concepts are interrelated and are realized via TQM elements. The construction industry's role is to supply customers with facilities or structures that fulfil their demands. This service must be offered at a competitive price for a firm to continue in business. TQM is a management concept that effectively assesses the client's requirements and offers the structure, environment, and culture to satisfy those goals at the lowest feasible cost. The quality of the final product will be satisfied by assuring quality at each step of the building process, from conception to completion. Customers might be internal or external. External clients are not employees of the firm that makes the product or service, yet they are affected by it.

The goods in engineering are the plans and specifications, and the clients are the owner and the construction organizations in charge of the construction. In construction, the finished facility is the product, while the client is the building's eventual user. These goods are designed to meet the demands of a high-end consumer. Customers may also be found inside the design company and the construction organizations. Other organizations or persons inside their organizations provide items and information to these internal clients. Satisfying the demands of these internal customers is an important element of the process of providing a quality product to the external consumer. Each partner in the process serves three functions: supplier, processor, and customer. This is known as the triple role notion, according to Juran. These three functions supply, processor, and customer are performed at all levels of the construction process, including corporate, division, department, work group, and individual. This idea is shown in

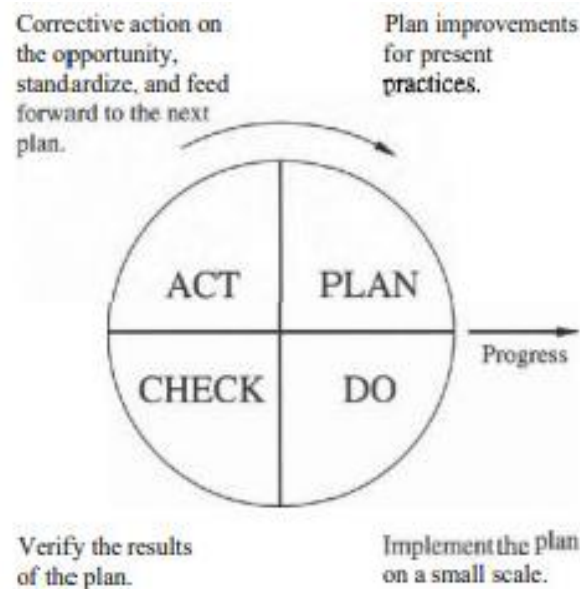

**Figure 1: Representing the Juran's Triple Role Applied to Construction [Access Engineering Library].**

Figure. 1 depicts an architect engineer (A/E) who is a customer of the owner, a design processor, and a supplier of plans and specifications to the contractor. The contractor is a

client of the A/E's designs and requirements, a builder, and a provider of the finished structure to the owner. The efficacy of the design provided by the A/E business is critical to the overall success of this procedure. As the project advances, the capacity to affect the degree of quality in the completed product decreases. This notion emphasizes the need of obtaining customer feedback, both internal and external, throughout the project planning phases.

### Continual Improvement

**Figure 2: Representing the CII Source Document No. 51[AccessEngineeringLibrary].**

Every process may be broken down into phases using flow diagrams, where work flows in, changes state, and continues on to the next step. Within each stage, input changes to output, and the processes and procedures controlling the change of state may be constantly modified to better satisfy the client at the next stage via continuous improvement. Those at each step collaborate closely with their supplier and client following stage to optimise the work process. All phases work together as a team to produce a quality level that will please the consumer. Deming's Plan-Do-Check-Act (PDCA) cycle, seen in Figure. 2, is a problem-solving approach for closing the gap between customer demands and current performance. It is a methodical approach to steadily improve processes and procedures by concentrating on fault rectification and prevention. This is accomplished by addressing the underlying causes of issues and constantly developing and upgrading standards.

The PDCA cycle is made up of four stages that occur throughout time and are continuously cycled. This cycle may be used to all processes, and individual organisations' and functions' PDCA systems can be interconnected and rotated together. Figure. 3 depicts the particular actions that are followed during each phase. The eight phases in Figure. 3 are carried out in a continuous fashion, with two anticipated outcomes. First, to guarantee that processes and procedures are continually improved incrementally, and second, to ensure that previous advancements are preserved. Figure. 4 depicts the dual-purpose notion of the PDCA cycle. The second key duty of management under TQM is to assist the progress of engineering and construction technology and management processes via research and development. Significant improvements in engineering and construction performance may be obtained via innovation. Once established, the PDCA cycle must sustain these high levels of performance.

In order to keep them from deteriorating. Without any attempt to stabilize and upgrade the newly constructed system, its demise is certain. Figure. 5 depicts the relationship between incremental gains, innovation, and maintenance. There is a significant correlation between an industry's vitality and its research and development activities. To stay competitive, the construction sector must invest heavily in research and development. The federal government, as well as materials and equipment manufacturers, fund the majority of research and development. Equipment makers. In general, private engineering and design businesses devote almost minimal money to research and development.

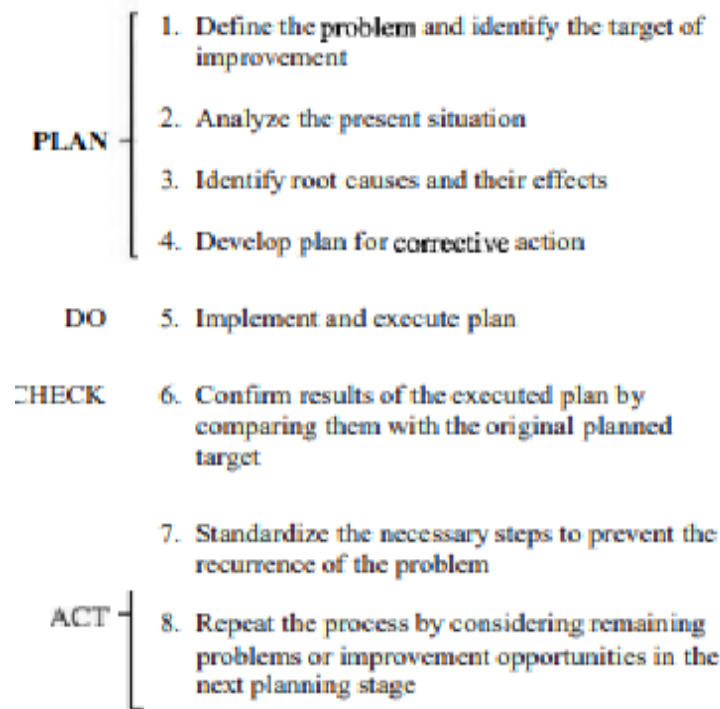

Figure 3: Representing the Specific Steps in the PDCA Process[AccessEngineeringLibrary].

Figure 4: The Dual Purpose of the PDCA Cycle[AccessEngineeringLibrary].

### Management Commitment

TQM can only be effective in the presence of a senior management structure that is really concerned about the company's long-term well-being. It is a corporate concept that creates attitudes and improvements that pervade an organisation. Top management must adopt these attitudes and implement them into the company's daily operations. This dedication must be accompanied by a deep grasp of TQM, allowing members of senior management to lead their organisation through a quality revolution. With this passion and understanding, top management can directly develop new corporate objectives and directions and then lead management teams to achieve those goals and directions. The first step for management is to recognise that an issue exists. According to Deming and Juran's 85-15 rule, 85% of today's company issues are generated by the system in which people operate. Management by control, rather than management by participation, is the dominant management technique today. For example, senior management may establish objectives for the next year and then delegate responsibility for achieving these goals to subordinates by putting controls on each of their subordinates.

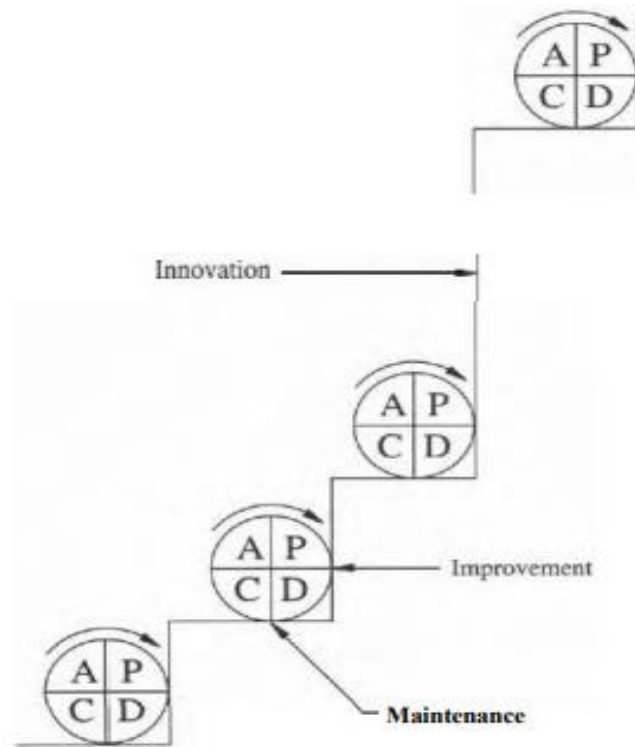

Figure 5: The Two-Sided Effect of Continual Improvement [AccessEngineeringLibrary].

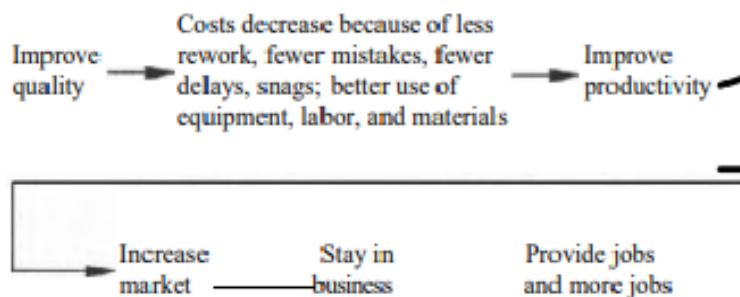

Figure 6: Representing the Deming Chain Reaction [Access Engineering Library].

Each project's cost, timing, and quality targets are specified in construction terms. Project managers in both design and construction are paid for meeting these objectives. Although this strategy has frequently been effective, there are issues when the job is moved by the controls themselves. Individuals and Organisations tend to create compliance when quantitative controls are unachievable or unfeasible. In other cases, there may be inconsistencies in the controls of various departments, which may lead to allegations and hostile relationships. Control management encourages an Organisation to look inside at its own structures rather than outside at the environment in which the customer works. Once management recognizes the bad characteristics of its existing management style, it may begin to grasp how TQM might improve the Organisations. Deming uses a chain reaction process to demonstrate the advantages of TQM (see Figure. 6). Following management's recognition of a problem, the following stage is for management to acquire a comprehensive grasp of the fundamental concepts and elements that comprise TQM. Management may then show their commitment to quality via action.

### CONCLUSION

To summarize, Total Quality Management (TQM) is an effective management strategy that emphasizes continual improvement, customer happiness, and staff participation. Organisations may improve their overall performance, competitiveness, and long-term success by using TQM concepts and practices. TQM implementation requires a comprehensive and methodical strategy, beginning with strong leadership commitment and a clear vision of quality excellence. It entails fostering a quality culture across the organizations, in which every person is empowered and encouraged to contribute to the enhancement of processes, products, and services. TQM is based on the concept of surpassing customer expectations by providing high-quality goods and services. Organisations may improve customer happiness, increase customer loyalty, and form strong connections with their target market by concentrating on their requirements and preferences. TQM is based on continuous improvement, as organizations try to continually improve their processes, remove waste, and increase efficiency.

Data and statistical analysis are used to identify areas for development, create quantifiable targets, and measure progress over time. Organisations may improve quality, cut costs, and boost productivity by continually upgrading processes. Another important feature of TQM is employee engagement, which recognizes the value of employee contributions and promotes active participation in quality projects. Organisations may tap into workers' knowledge, talents, and creativity by engaging them at all levels, resulting in inventive solutions, increased job satisfaction, and a feeling of ownership. TQM implementation requires a commitment to data-driven decision making, with choices based on objective facts and analysis. This helps organizations to make educated decisions, uncover underlying causes of problems, and track performance against quality benchmarks. Overall, Total Quality Management offers organizations with a complete framework for achieving excellence in quality and customer happiness. Organisations that embrace TQM ideas and practices may build a culture of continuous improvement, increase employee engagement, and provide better goods and services to their consumers. TQM is a continuous path towards perfection that demands dedication, effort, and an unwavering emphasis on quality.

FUTURE SCOPE OF EOR TECHNIQUES	<a href="https://ciir.in/doc/publication/Polymer%20in%20Petroleum%20Engineering_978-81-962237-5-5.pdf">https://ciir.in/doc/publication/Polymer%20in%20Petroleum%20Engineering_978-81-962237-5-5.pdf</a>
NON-DAMAGING DRILLING FLUID (NDDF)	<a href="https://ciir.in/doc/publication/Application%20of%20Drilling%20Fluid_978-81-962237-6-2.pdf">https://ciir.in/doc/publication/Application%20of%20Drilling%20Fluid_978-81-962237-6-2.pdf</a>
DRILLING FLUID AND ADVANTAGES OF NDDF	<a href="https://ciir.in/doc/publication/Application%20of%20Drilling%20Fluid_978-81-962237-6-2.pdf">https://ciir.in/doc/publication/Application%20of%20Drilling%20Fluid_978-81-962237-6-2.pdf</a>
FUNCTIONS OF DRILLING FLUID	<a href="https://ciir.in/doc/publication/Application%20of%20Drilling%20Fluid_978-81-962237-6-2.pdf">https://ciir.in/doc/publication/Application%20of%20Drilling%20Fluid_978-81-962237-6-2.pdf</a>
PROPERTIES OF DRILLING FLUID	<a href="https://ciir.in/doc/publication/Application%20of%20Drilling%20Fluid_978-81-962237-6-2.pdf">https://ciir.in/doc/publication/Application%20of%20Drilling%20Fluid_978-81-962237-6-2.pdf</a>
PRINCIPAL PROCESSES OF FORMATION DAMAGE CAUSED BY DRILLING FLUID	<a href="https://ciir.in/doc/publication/Application%20of%20Drilling%20Fluid_978-81-962237-6-2.pdf">https://ciir.in/doc/publication/Application%20of%20Drilling%20Fluid_978-81-962237-6-2.pdf</a>
Future of Non Damaging Drilling Fluids	<a href="https://ciir.in/doc/publication/Application%20of%20Drilling%20Fluid_978-81-962237-6-2.pdf">https://ciir.in/doc/publication/Application%20of%20Drilling%20Fluid_978-81-962237-6-2.pdf</a>
INTRODUCTION TO ENHANCED OIL RECOVERY	<a href="https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf">https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf</a>
CLASSIFICATIONS FOR THERMALLY ENHANCED OIL RECOVERY	<a href="https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf">https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf</a>

MISCIBLE ENHANCED OIL RECOVERY	<a href="https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf">https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf</a>
MICROBIAL FLOODING PROCESSES	<a href="https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf">https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf</a>
SURFACTANT FLOODING MECHANISM	<a href="https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf">https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf</a>
THE IMPACT OF ANIONIC SURFACTANTS	<a href="https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf">https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf</a>
INTRODUCTION TO Chemical ENHANCED OIL RECOVERY (ALKALI-SURFACTANT)	<a href="https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf">https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf</a>
CLASSIFICATION OF EOR TECHNOLOGIES	<a href="https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf">https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf</a>
TRADITIONAL CHEMICAL EOR TECHNIQUES	<a href="https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf">https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf</a>
EOE POLYMER TYPES	<a href="https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf">https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf</a>
CHEMICAL EOR TECHNIQUES	<a href="https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf">https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf</a>
CHALLENGES WITH CHEMICAL EOR	<a href="https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf">https://ciir.in/doc/publication/Oil%20Recovery%20Principles%20and%20Practices_978-81-962237-1-7.pdf</a>
INTRODUCTION TO DIATOMACEOUS EARTH IN DRILLING FLUID	<a href="https://ciir.in/doc/publication/Application%20of%20ODrilling%20Fluid_978-81-962237-6-2.pdf">https://ciir.in/doc/publication/Application%20of%20ODrilling%20Fluid_978-81-962237-6-2.pdf</a>
EDX MAPPING AND SEM ANALYSIS	<a href="https://ciir.in/doc/publication/Application%20of%20ODrilling%20Fluid_978-81-962237-6-2.pdf">https://ciir.in/doc/publication/Application%20of%20ODrilling%20Fluid_978-81-962237-6-2.pdf</a>
BENTONITE AND DIATOMITE EFFECTS	<a href="https://ciir.in/doc/publication/Application%20of%20ODrilling%20Fluid_978-81-962237-6-2.pdf">https://ciir.in/doc/publication/Application%20of%20ODrilling%20Fluid_978-81-962237-6-2.pdf</a>
OIL AND GAS WELL COMPLETION FLUID FILTRATION	<a href="https://ciir.in/doc/publication/Application%20of%20ODrilling%20Fluid_978-81-962237-6-2.pdf">https://ciir.in/doc/publication/Application%20of%20ODrilling%20Fluid_978-81-962237-6-2.pdf</a>
FILTRATION REQUIREMENTS FOR COMPLETION FLUIDS	<a href="https://ciir.in/doc/publication/Application%20of%20ODrilling%20Fluid_978-81-962237-6-2.pdf">https://ciir.in/doc/publication/Application%20of%20ODrilling%20Fluid_978-81-962237-6-2.pdf</a>

FILTRATION REQUIREMENTS FOR COMPLETION FLUIDS USING A FILTER PRESS	<a href="https://ciir.in/doc/publication/Application%20of%20ODrilling%20Fluid_978-81-962237-6-2.pdf">https://ciir.in/doc/publication/Application%20of%20ODrilling%20Fluid_978-81-962237-6-2.pdf</a>
INTRODUCTION TO DRILLING FLUID	<a href="https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf">https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf</a>
OIL-BASED DRILLING FLUID COMPOSITION	<a href="https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf">https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf</a>
RELEASE AND SUSPEND CLIPPINGS	<a href="https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf">https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf</a>
SUPPORT, COOL, AND LUBRICATE THE BIT AND DRILLING ASSEMBLY	<a href="https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf">https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf</a>
MINIMISE ENVIRONMENTAL EFFECT	<a href="https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf">https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf</a>
CONTROLLING DRILLING FLUID	<a href="https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf">https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf</a>
THE EFFECT OF DRILLING FLUIDS ON THE ENVIRONMENT	<a href="https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf">https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf</a>
SYSTEMS FOR DRILLING FLUIDS	<a href="https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf">https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf</a>
DRILLING FLUIDS' FUNCTIONS	<a href="https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf">https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf</a>
DRILLING FLUIDS' FUNCTIONS MUD FOR DRILLING: RHEOLOGY	<a href="https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf">https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf</a>
FILTRATE LOSSES	<a href="https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf">https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf</a>
BASICS OF CONTAMINANTS	<a href="https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf">https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf</a>
VISCOMETER AND HAND CRANK	<a href="https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf">https://ciir.in/doc/publication/Theory%20of%20Drilling%20Fluid_978-81-962237-9-3.pdf</a>
INTRODUCTION TO GEOPOLYMER CEMENT PERFORMANCE IN PRESENCE OF DRILLING FLUID AS CONTAMINANT	<a href="https://ciir.in/doc/publication/Polymer%20in%20Petroleum%20Engineering_978-81-962237-5-5.pdf">https://ciir.in/doc/publication/Polymer%20in%20Petroleum%20Engineering_978-81-962237-5-5.pdf</a>
CRYSTALLINITY PARTICLE SIZE	<a href="https://ciir.in/doc/publication/Polymer%20in%20Petroleum%20Engineering_978-81-962237-5-5.pdf">https://ciir.in/doc/publication/Polymer%20in%20Petroleum%20Engineering_978-81-962237-5-5.pdf</a>
MACHINE FOR COMPRESSION TESTING	<a href="https://ciir.in/doc/publication/Polymer%20in%20Petroleum%20Engineering_978-81-962237-5-5.pdf">https://ciir.in/doc/publication/Polymer%20in%20Petroleum%20Engineering_978-81-962237-5-5.pdf</a>
TESTING AT MODERATE SHEAR RATES	<a href="https://ciir.in/doc/publication/Polymer%20in%20Petroleum%20Engineering_978-81-962237-5-5.pdf">https://ciir.in/doc/publication/Polymer%20in%20Petroleum%20Engineering_978-81-962237-5-5.pdf</a>
THE STIRRUP AND THE MOBILE	<a href="https://ciir.in/doc/publication/Polymer%20in%20Petroleum%20Engineering_978-81-962237-5-5.pdf">https://ciir.in/doc/publication/Polymer%20in%20Petroleum%20Engineering_978-81-962237-5-5.pdf</a>

CHECK THE VISCOSITY	<a href="https://ciir.in/doc/publication/Polymer%20in%20Petroleum%20Engineering_978-81-962237-5-5.pdf">https://ciir.in/doc/publication/Polymer%20in%20Petroleum%20Engineering_978-81-962237-5-5.pdf</a>
INTRODUCTION TO BLENDED FUELS	<a href="https://ciir.in/doc/publication/Fluid%20Mechanics%20and%20Applications_978-81-962237-8-6.pdf">https://ciir.in/doc/publication/Fluid%20Mechanics%20and%20Applications_978-81-962237-8-6.pdf</a>
CRUDE OIL	<a href="https://ciir.in/doc/publication/Fluid%20Mechanics%20and%20Applications_978-81-962237-8-6.pdf">https://ciir.in/doc/publication/Fluid%20Mechanics%20and%20Applications_978-81-962237-8-6.pdf</a>
OIL INDUSTRY INFORMATION	<a href="https://ciir.in/doc/publication/Fluid%20Mechanics%20and%20Applications_978-81-962237-8-6.pdf">https://ciir.in/doc/publication/Fluid%20Mechanics%20and%20Applications_978-81-962237-8-6.pdf</a>
BASICS OF LUBRICITY	<a href="https://ciir.in/doc/publication/Fluid%20Mechanics%20and%20Applications_978-81-962237-8-6.pdf">https://ciir.in/doc/publication/Fluid%20Mechanics%20and%20Applications_978-81-962237-8-6.pdf</a>
ENERGY DENSITY	<a href="https://ciir.in/doc/publication/Fluid%20Mechanics%20and%20Applications_978-81-962237-8-6.pdf">https://ciir.in/doc/publication/Fluid%20Mechanics%20and%20Applications_978-81-962237-8-6.pdf</a>

Blockchain-Based Farmer's Credit Programme for the Agricultural Supply Chain in Agriculture	<a href="http://www.booksarcade.co.in/sdm_downloads/modern-technological-advances/">http://www.booksarcade.co.in/sdm_downloads/modern-technological-advances/</a>
Designing a Smart Honey Supply Chain for Sustainable Development	<a href="http://www.booksarcade.co.in/sdm_downloads/modern-technological-advances/">http://www.booksarcade.co.in/sdm_downloads/modern-technological-advances/</a>
Car Damage Detection Technique	<a href="http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/">http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/</a>
Functional Requirements for Car Damage Detection	<a href="http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/">http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/</a>
Different Types of Image Processing Systems	<a href="http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/">http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/</a>

Classification of Damage Detection	<a href="http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/">http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/</a>
Image Classification of Damage Detection	<a href="http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/">http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/</a>
Classification for System Design for Damage Detection	<a href="http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/">http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/</a>
Internet of Transportation Systems	<a href="http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/">http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/</a>
Classification of Software Development life cycle (SDLC) Model	<a href="http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/">http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/</a>
Classification of Functional and Non-functional Requirement	<a href="http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/">http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/</a>
Unified Modeling Language (UML)	<a href="http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/">http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/</a>
Sequence Diagram of Unified Modeling Language	<a href="http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/">http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/</a>
Introduction to Use of Scripting Language	<a href="http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/">http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/</a>
Finger Vein Recognition Using Deep Learning	<a href="http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/">http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/</a>
Different types of Image Processing	<a href="http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/">http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/</a>
Incorporate Prior Knowledge into Neural Network Design	<a href="http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/">http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/</a>
Classification of Existing Methods and Drawbacks	<a href="http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/">http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/</a>
Color Extraction in Finger Vein	<a href="http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/">http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/</a>
Image Acquisition and Preprocessing	<a href="http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/">http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/</a>
Storing Public Transactional Records Using Blockchain Technology	<a href="http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/">http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/</a>
Various Modules and their Integration	<a href="http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/">http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/</a>
Blockchain Technology Used for Manage the Transaction Record	<a href="http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/">http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/</a>
Traditional Fundraising Problem and Solution	<a href="http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/">http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/</a>

Crowd Funding Application	<a href="http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/">http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/</a>
Technical Background of Blockchain Based Fundraising Protocol	<a href="http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/">http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/</a>
Introduction to Technical Background for Fundraising Protocol	<a href="http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/">http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/</a>
Introduction to Bluetooth and Zigbee Protocol	<a href="http://www.booksarcade.co.in/sdm_downloads/modern-technological-advances/">http://www.booksarcade.co.in/sdm_downloads/modern-technological-advances/</a>
Functions of the Core Protocol	<a href="http://www.booksarcade.co.in/sdm_downloads/modern-technological-advances/">http://www.booksarcade.co.in/sdm_downloads/modern-technological-advances/</a>
Error Control in the Protocol to Find Errors in Data Processing	<a href="http://www.booksarcade.co.in/sdm_downloads/modern-technological-advances/">http://www.booksarcade.co.in/sdm_downloads/modern-technological-advances/</a>
Capabilities of Intrusion Detection Systems	<a href="http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/">http://www.booksarcade.co.in/sdm_downloads/damage-detection-with-image-processing/</a>
Threshold Monitoring	<a href="http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/">http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/</a>
Wireless Anomaly Detection	<a href="http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/">http://www.booksarcade.co.in/sdm_downloads/software-systems-and-contemporary-applications/</a>
Introduction to Conveyer Belt	<a href="http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/">http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/</a>
Components of Faulty Product Detection and Separation System	<a href="http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/">http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/</a>
Components of Faulty Product Detection	<a href="http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/">http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/</a>
Models of Fault Detection System	<a href="http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/">http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/</a>
Model Based Reasoning for Fault Detection and Fault Diagnosis	<a href="http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/">http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/</a>
Issues in Evaluating Techniques	<a href="http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/">http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/</a>
Project Implementation for Fault Detection and Diagnosis	<a href="http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/">http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/</a>
AUTONOMOUS VEHICLES	<a href="http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/">http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/</a>

LEVEL OF AUTONOMY	<a href="http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/">http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/</a>
Sensors: Key Components in Autonomous Vehicles	<a href="http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/">http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/</a>
Computer-Aided Design (CAD) Modelling	<a href="http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/">http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/</a>
ADVANTAGES AND CHALLENGES OF AUTONOMOUS VEHICLES	<a href="http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/">http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/</a>
ETHICAL ISSUES AND DEBATES	<a href="http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/">http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/</a>
Introduction to Supply Chain	<a href="http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/">http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/</a>
Supply-Chain Sustainability	<a href="http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/">http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/</a>
Supply Chain Variables that Impact Sustainability	<a href="http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/">http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/</a>
Gas-Turbine Engines	<a href="http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/">http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/</a>
Vendor/Supplier Selection	<a href="http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/">http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/</a>
Advancements in Supply Chain Management	<a href="http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/">http://www.booksarcade.co.in/sdm_downloads/supply-chain-management-and-fault-detection/</a>
Introduction to Surface Integrity (SI)	<a href="http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/">http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/</a>
History of Surface Engineering	<a href="http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/">http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/</a>
Surface Finish and Methods	<a href="http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/">http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/</a>
Basics of Shot-blasting	<a href="http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/">http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/</a>
Application and Uses of Shot-blasting	<a href="http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/">http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/</a>

Six Essential Elements of Shot-blasting	<a href="http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/">http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/</a>
Introduction to Composite Materials	<a href="http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/">http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/</a>
Classification of Matrix	<a href="http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/">http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/</a>
Application of Fabrication	<a href="http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/">http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/</a>
Introduction to CFRP and GFRP	<a href="http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/">http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/</a>
Characterization of Hybrid Composites	<a href="http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/">http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/</a>
Hand lay-up process	<a href="http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/">http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/</a>
Introduction to Lathe Machine	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/">http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/</a>
Classification of Lathe Machine	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/">http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/</a>
Operations on Lathe Machine	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/">http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/</a>
Engine Lathe Machine	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/">http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/</a>
CNC Lathe Machine	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/">http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/</a>
Capstan and Turret Lathe	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/">http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/</a>
Quadra Index Tool Post	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/">http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/</a>
Solar Panel	<a href="http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/">http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/</a>
Components of Solar Cell	<a href="http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/">http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/</a>
Solar Trackers	<a href="http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/">http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/</a>
Mono-crystalline solar panels	<a href="http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/">http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/</a>
Polycrystalline Solar Panels	<a href="http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/">http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/</a>
Thin film solar panels	<a href="http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/">http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/</a>

LDR's and Arduino	<a href="http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/">http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/</a>
Introduction to Lateral Undulation	<a href="http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/">http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/</a>
Hyper- Redundant Robots	<a href="http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/">http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/</a>
ACM III Snake Robot	<a href="http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/">http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/</a>
Control System for the Snake like Robot	<a href="http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/">http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/</a>
Slim Slime Robot	<a href="http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/">http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/</a>
Robot KAIRO 3	<a href="http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/">http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/</a>
AmphiBot II	<a href="http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/">http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/</a>
Composite Material	<a href="http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/">http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/</a>
Basics of Fibers	<a href="http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/">http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/</a>
Banana Fiber	<a href="http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/">http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/</a>
Glass Fiber	<a href="http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/">http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/</a>
Epoxy Resin	<a href="http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/">http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/</a>
Concept of Charcoal	<a href="http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/">http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/</a>
Fabrication Process	<a href="http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/">http://www.booksarcade.co.in/sdm_downloads/composite-materials-and-applications/</a>
Control Traffic Accidents Using RFID Technology	<a href="http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/">http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/</a>
RFID TECHNOLOGY FOR SMART VEHICLE CONTROL	<a href="http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/">http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/</a>
DEVELOPMENT OF RFID-BASED SPEED CONTROLLERS IN AUTOMOBILES	<a href="http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/">http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/</a>

AUTOMOBILE THEORY	<a href="http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/">http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/</a>
Components Used in RFID Technology	<a href="http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/">http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/</a>
Basics of Ignition System	<a href="http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/">http://www.booksarcade.co.in/sdm_downloads/autonomous-vehicle-design-and-modelling/</a>
Introduction Sensor-Based Robotics Arm	<a href="http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/">http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/</a>
Microprocessor and Light Emitting Diodes	<a href="http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/">http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/</a>
Servo Motors	<a href="http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/">http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/</a>
Push Buttons Switch Mechanism	<a href="http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/">http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/</a>
Introduction to Semiconductor Diode	<a href="http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/">http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/</a>
Resistor and Capacitor	<a href="http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/">http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/</a>
Introduction to Welding	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/">http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/</a>
Welding Forms	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/">http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/</a>
Components Used in Welding Process	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/">http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/</a>
Fabrication Process	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/">http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/</a>
Design Model	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/">http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/</a>
Advantages and Limitations of Welding	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/">http://www.booksarcade.co.in/sdm_downloads/concept-of-lathe-machine-and-welding-techniques/</a>
Biodiesel: A Nonconventional Energy Resources	<a href="http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/">http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/</a>

Classification of Biofuels	<a href="http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/">http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/</a>
Basics of Biochemical	<a href="http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/">http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/</a>
Thermochemical and Need of Biodiesel	<a href="http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/">http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/</a>
Properties of Biofuel	<a href="http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/">http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/</a>
Toxicity and Exposure	<a href="http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/">http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/</a>
Health Effects During Production of Biodiesel	<a href="http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/">http://www.booksarcade.co.in/sdm_downloads/recent-development-in-robotics-and-non-conventional-energy-resources/</a>
Composite Materials and Their Classification	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/</a>
Characteristics of Composites	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/</a>
Need for Developing Composite Materials	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/</a>
Fibrous Composites	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/</a>
Effects of various Alloying Elements Used for Alloying Aluminium	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/</a>
Aluminium and Aluminium Alloys Casting Problems	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/</a>
Introduction to Wire Cutting Machine	<a href="http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/">http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/</a>
Advantages of Wire Cutting Improve Production Efficiency	<a href="http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/">http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/</a>
EDM Wire Technique	<a href="http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/">http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/</a>
Coating of EDM Wires	<a href="http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/">http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/</a>
Economic Performance of EDM	<a href="http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/">http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/</a>
Microstructure of EDM	<a href="http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/">http://www.booksarcade.co.in/sdm_downloads/surface-engineering-methods-and-processes/</a>

Introduction to Thermal Runaway	<a href="http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/">http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/</a>
Battery Thermal Management System (BTMS)	<a href="http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/">http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/</a>
Batteries Thermal Management System	<a href="http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/">http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/</a>
Phase Change Material	<a href="http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/">http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/</a>
Existing Battery Thermal Management System	<a href="http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/">http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/</a>
Computational Fluid Dynamics	<a href="http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/">http://www.booksarcade.co.in/sdm_downloads/archive-of-solar-panel-management/</a>
Introduction to Hydraulic Jack	<a href="http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/">http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/</a>
Lifting Jacks Information	<a href="http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/">http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/</a>
Jacking System	<a href="http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/">http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/</a>
Floor jacks	<a href="http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/">http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/</a>
Principle of a Hydraulic Drive	<a href="http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/">http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/</a>
Pressure Control Valves	<a href="http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/">http://www.booksarcade.co.in/sdm_downloads/electro-mechanical-systems-and-components/</a>
Bronze-Alloy	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/</a>
Bronze Properties	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/</a>
Copper-Nickel	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/</a>
Erosion Wear	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/</a>
Fatigue Wear	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/</a>
Diffusive wear	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-composite-materials/</a>
INTRODUCTION TO RED MUD BASED GEO POLYMER BRICKS	<a href="http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/">http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/</a>
RAW MATERIALS RED MUD	<a href="http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/">http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/</a>

GROUND GRANULATED BLAST-FURNACE SLAG	<a href="http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/">http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/</a>
BASICS OF METAKAOLIN	<a href="http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/">http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/</a>
ABSORPTION OF WATER	<a href="http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/">http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/</a>
COMPRESSION TEST	<a href="http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/">http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/</a>
FINE AND COARSE AGGREGATE IN CONCRETE WITH RUBBER	<a href="http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/">http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/</a>
AGGREGATE IN CONCRETE	<a href="http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/">http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/</a>
RUBBER FROM USED TYRES HAS AN IMPACT ON THE DURABILITY AND MECHANICAL QUALITIES OF CONCRETE	<a href="http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/">http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/</a>
IMPACT OF ADDING WASTE RUBBER TO COMPOSITE PORTLAND I CONCRETE	<a href="http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/">http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/</a>
ORDINARY PORTLAND CEMENT	<a href="http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/">http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/</a>
FUTURE PROSPECT OF REPLACEMENT OF FINE AND COARSE AGGREGATE IN CONCRETE WITH RUBBER	<a href="http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/">http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/</a>
Introduction to Red Mud Geopolymer Paver Blocks	<a href="http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/">http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/</a>
APPLICATION OF RED MUD	<a href="http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/">http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/</a>
BASICS OF FLY ASH	<a href="http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/">http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/</a>
Ground Granulated Blast Furnace Slag	<a href="http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/">http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/</a>
Fly Ash Based Geopolymer Concrete Paver Blocks	<a href="http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/">http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/</a>
Production of Geopolymer Paver Blocks	<a href="http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/">http://www.booksarcade.co.in/sdm_downloads/red-mud-geopolymer-applications/</a>
INTRODUCTION TO RECYCLED AGGREGATES	<a href="http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/">http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/</a>
CLASSIFICATION OF AGGREGATES	<a href="http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/">http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/</a>
Natural Aggregate	<a href="http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/">http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/</a>
Coal Ash	<a href="http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/">http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/</a>
Recycled Aggregate	<a href="http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/">http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/</a>
Crushed Rock and Sand	<a href="http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/">http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/</a>

INTRODUCTION TO GEO POLYMER BRICKS	<a href="http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/">http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/</a>
Burned Clay Bricks	<a href="http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/">http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/</a>
Ordinary Portland Cement (OPC) bricks	<a href="http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/">http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/</a>
Geopolymers and Other Geosynthetics	<a href="http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/">http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/</a>
Geopolymer Cements	<a href="http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/">http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/</a>
Material Characterisation	<a href="http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/">http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/</a>
INTRODUCTION TO INCORPORATION OF PLASTIC WASTE IN BRICKS	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/">http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/</a>
Bricks	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/">http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/</a>
CLASSIFICATION OF CLAY	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/">http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/</a>
SPECIFICATIONS OF M SAND	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/">http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/</a>
CLASSIFICATION OF PLASTIC	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/">http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/</a>
ROLE OF CEMENT IN CONSTRUCTION	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/">http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/</a>
INTRODUCTION TO GEO POLYMER MORTAR	<a href="http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/">http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/</a>
Geopolymer Concept	<a href="http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/">http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/</a>
INTRODUCTION TO RED MUD	<a href="http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/">http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/</a>
Metakaolin	<a href="http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/">http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/</a>
GGBS (Ground Granulated Blast-furnace Slag)	<a href="http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/">http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/</a>
CLASSIFICATION OF MORTAR	<a href="http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/">http://www.booksarcade.co.in/sdm_downloads/alternative-concrete-geopolymer-concrete/</a>

Introduction to Concrete	<a href="http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/">http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/</a>
History of Concrete Material	<a href="http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/">http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/</a>
Composition of Concrete	<a href="http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/">http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/</a>
Admixtures	<a href="http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/">http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/</a>
Glass Powder	<a href="http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/">http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/</a>
Types of Admixtures	<a href="http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/">http://www.booksarcade.co.in/sdm_downloads/working-with-concrete-mixtures/</a>
INTRODUCTION TO BUILDING AND CONSTRUCTION MATERIALS	<a href="http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/">http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/</a>
Engineering materials	<a href="http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/">http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/</a>
Concrete as Building Material	<a href="http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/">http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/</a>
Structures and Design granted for building	<a href="http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/">http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/</a>
Structural Performances of the building	<a href="http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/">http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/</a>
Structural performance levels	<a href="http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/">http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/</a>
Scrap Value Estimation	<a href="http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/">http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/</a>
Introduction to Recycled plastic Materials	<a href="http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/">http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/</a>
History of Plastic materials	<a href="http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/">http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/</a>
Solid waste management	<a href="http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/">http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/</a>
History of Solid Waste Management	<a href="http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/">http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/</a>
Granulated polypropylene waste	<a href="http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/">http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/</a>
Hardened concrete	<a href="http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/">http://www.booksarcade.co.in/sdm_downloads/recycled-aggregate-in-concrete/</a>
INTRODUCTION TO GEOPOLYMER MASONRY BRICK PRODUCTION	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/">http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/</a>
Industrial Solid Waste	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/">http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/</a>
GEOPOLYMER MASONRY BRICK PRODUCTION	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/">http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/</a>
THE RED MUD PROBLEM IN ALUMINIUM PRODUCTION	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/">http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/</a>
Advantages of GGBFS in concrete	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/">http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/</a>

Color of concrete incorporating slag	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/">http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/</a>
Chemical Reaction of GGBFS	<a href="http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/">http://www.booksarcade.co.in/sdm_downloads/concept-of-waste-plastic-brick/</a>
CONSTRUCTION PROJECT MANAGEMENT USING PRIMAVERA	<a href="http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/">http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/</a>
History of Primavera	<a href="http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/">http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/</a>
Construction Project Management of Residential Building	<a href="http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/">http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/</a>
Compensable Vs Non Compensable Delays	<a href="http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/">http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/</a>
Organizational breakdown structure (OBS)	<a href="http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/">http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/</a>
Work Breakdown Structure (WBS)	<a href="http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/">http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/</a>
INTRODUCTION TO G+5 STORY BUILDING	<a href="http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/">http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/</a>
BASIC PRINCIPLES OF STOREY BUILDINGS	<a href="http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/">http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/</a>
Portal Frame Structure	<a href="http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/">http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/</a>
Considerations in Design	<a href="http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/">http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/</a>
Component of Stores building	<a href="http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/">http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/</a>
Porosity of Building Materials	<a href="http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/">http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/</a>
INTRODUCTION TO UNDERPASS ROAD BRIDGE	<a href="http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/">http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/</a>
History of Bridge Development	<a href="http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/">http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/</a>
Elements of Bridge Design	<a href="http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/">http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/</a>
Suspension Bridge	<a href="http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/">http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/</a>
Cable-Stayed Bridge	<a href="http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/">http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/</a>
Bridge Design	<a href="http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/">http://www.booksarcade.co.in/sdm_downloads/planning-scheduling-and-controlling/</a>

CONVENTIONAL AND MODERN METHODOLOGIES CONSTRUCTION METHODS	<a href="http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/">http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/</a>
DRASTIC model	<a href="http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/">http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/</a>
Conventional Construction Methods	<a href="http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/">http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/</a>
Modern construction Methodologies	<a href="http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/">http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/</a>
Causes of Ground water pollution	<a href="http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/">http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/</a>
Assessment of Ground water Vulnerability	<a href="http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/">http://www.booksarcade.co.in/sdm_downloads/modern-construction-project-management/</a>
INTRODUCTION TO CONSTRUCTION AND DEMOLITION WASTE	<a href="http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/">http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/</a>
APPLICATION OF C&D MATERIALS	<a href="http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/">http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/</a>
Construction and Demolition Waste	<a href="http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/">http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/</a>
C&D waste management	<a href="http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/">http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/</a>
C&D waste impacts on Economy	<a href="http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/">http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/</a>
C&D Waste Impacts on Environment	<a href="http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/">http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/</a>
INTRODUCTION TO ALCCOFINE MODIFIED EXPANSIVE SOIL	<a href="http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/">http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/</a>
Soil Stabilization	<a href="http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/">http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/</a>
DIFFERENT CATEGORIES OF SOIL	<a href="http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/">http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/</a>
Black Cotton Soil	<a href="http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/">http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/</a>

BASICS OF ALCCOFINE	<a href="http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/">http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/</a>
Waste Plastic Strips	<a href="http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/">http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/</a>
Introduction to Alccofine Expansive Soil	<a href="http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/">http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/</a>
Soil deposits	<a href="http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/">http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/</a>
Damage caused by the Expansive Soil	<a href="http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/">http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/</a>
Canal Linings	<a href="http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/">http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/</a>
Properties of soil	<a href="http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/">http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/</a>
CLASSIFICATION OF FLY ASH	<a href="http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/">http://www.booksarcade.co.in/sdm_downloads/microstructural-behavior-of-expansive-soil/</a>
EFFECT OF COPPER SLAG ON STRENGTH PROPERTIES OF EXPANSIVE SOIL	<a href="http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/">http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/</a>
TYPES OF SOIL STABILIZATION	<a href="http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/">http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/</a>
COMPONENTS OF STABILIZATION	<a href="http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/">http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/</a>
CLAYEY SOIL ELECTRICAL STABILIZATION	<a href="http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/">http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/</a>
EXPANSIVE SOIL STABILIZATION METHODS	<a href="http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/">http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/</a>
BLACK COTTON SOIL USING COPPER SLAG IN THE BUILDING OF PAVEMENT	<a href="http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/">http://www.booksarcade.co.in/sdm_downloads/sustainability-of-construction-materials/</a>
INTRODUCTION TO WASTEWATER	<a href="http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/">http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/</a>
BASICS OF TREATABILITY	<a href="http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/">http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/</a>
TYPES OF TREATABILITY STUDIES	<a href="http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/">http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/</a>
WASTEWATER TREATABILITY STUDIES COST	<a href="http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/">http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/</a>
PRELIMINARY TREATMENT	<a href="http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/">http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/</a>
FUTURE WATER TREATMENT TECHNOLOGY'S POTENTIAL	<a href="http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/">http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/</a>

BASICS OF WASTEWATER	<a href="http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/">http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/</a>
DIFFERENT TYPES SEWAGE	<a href="http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/">http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/</a>
TREATMENT OF DOMESTIC WASTEWATER	<a href="http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/">http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/</a>
INDUSTRIAL WASTE	<a href="http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/">http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/</a>
STORM WASTEWATER	<a href="http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/">http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/</a>
TREATABILITY STUDIES	<a href="http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/">http://www.booksarcade.co.in/sdm_downloads/treatability-studies-on-wastewater/</a>
INTRODUCTION TO BOREWELL RECHARGE TECHNOLOGY	<a href="http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/">http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/</a>
BOREWELL RECHARGE	<a href="http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/">http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/</a>
GROUNDWATER STORAGE TANKS	<a href="http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/">http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/</a>
ISSUES RELATED TO EXCESSIVE GROUNDWATER USE	<a href="http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/">http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/</a>
SYSTEMS FOR HARVESTING RAINWATER AND THEIR FEATURES	<a href="http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/">http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/</a>
BOREWELL RECHARGING TECHNIQUES	<a href="http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/">http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/</a>
INTRODUCTION TO TYPES AND SOURCES OF WASTEWATER	<a href="http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/">http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/</a>
TYPES AND SOURCES OF WASTEWATER	<a href="http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/">http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/</a>
TYPES OF WASTEWATER TREATMENT	<a href="http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/">http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/</a>
WASTE WATER TREATMENT PLANT (WWTP)	<a href="http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/">http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/</a>
PROCESSES USED BY WASTEWATER TREATMENT PLANTS	<a href="http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/">http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/</a>
BENEFITS OF MODERN WASTEWATER TREATMENT	<a href="http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/">http://www.booksarcade.co.in/sdm_downloads/wastewater-and-waste-solid-treatment-technologies/</a>

INTRODUCTION TO PORTABLE WATER	<a href="http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/">http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/</a>
PORTABLE WATER AND WHOLESOME WATER	<a href="http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/">http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/</a>
SOURCE OF WATER	<a href="http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/">http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/</a>
WATER DEMAND	<a href="http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/">http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/</a>
WATER POLLUTION	<a href="http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/">http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/</a>
PARAMETERS OF PHYSICAL WATER QUALITY	<a href="http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/">http://www.booksarcade.co.in/sdm_downloads/water-harvesting-and-purification-mechanism/</a>
INTRODUCTION TO GROUNDWATER	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/</a>
BASICS OF ARTIFICIAL GROUNDWATER RECHARGE	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/</a>
GROUNDWATER CONTROL AND WATER QUALITY	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/</a>
WATER-QUALITY FACTORS AFFECTING GROUNDWATER SUSTAINABILITY	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/</a>
DIFFERENCE BETWEEN SURFACE AND GROUNDWATER	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/</a>
FUTURE OF GROUNDWATER AND CHALLENGES	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/</a>
ARTIFICIAL RECHARGE	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/</a>
SOURCES GROUNDWATER	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/</a>
STRATEGIES FOR RECHARGING GROUNDWATER	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/</a>
Artificial Recharge Structures	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/</a>
MONITORING MECHANISM FOR ARTIFICIAL RECHARGE PROJECTS	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/</a>
ARTIFICIAL GROUNDWATER RECHARGE IN INDIA	<a href="http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/">http://www.booksarcade.co.in/sdm_downloads/introduction-to-groundwater-hydrology/</a>
A Study on Non-Performing Assets Management at Primary Co-operative Agriculture and Rural Development Bank	<a href="https://www.scripown.com/docs/EBOOK_20230411_115423.pdf">https://www.scripown.com/docs/EBOOK_20230411_115423.pdf</a>
A Study on Acceptance of Artificial Intelligence in Banking Sector	<a href="https://www.scripown.com/docs/EBOOK_20230411_115423.pdf">https://www.scripown.com/docs/EBOOK_20230411_115423.pdf</a>

A Study on Credit Management and Issues of Bad Debts in Commercial Banks in India	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_115423.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_115423.pdf</a>
A Study on Mobile Banking with Specific Reference to Ujjivan Small Finance Bank	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_115423.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_115423.pdf</a>
Title of the Case Study: Strategies to Promote Consumer Loyalty in Internet Banking	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_115423.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_115423.pdf</a>
The Impact of Unified Payment Interface (UPI) on Small Business: A Study With Reference to Bangalore City	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_115423.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_115423.pdf</a>
A Study on Electronic Payments in the Present Scenario and Its Future Prospects in India, With Special Reference to Google Pay, Phonepe and Paytm Services	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_115423.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_115423.pdf</a>
A Study on India Driving Towards Cashless Transaction	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_115423.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_115423.pdf</a>
A Study on the Effect of NPAS on the Profitability of Selected Banks in India	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_115423.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_115423.pdf</a>
Impact of Monetary Policy on Banking Sector	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_115423.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_115423.pdf</a>
A Study on the Impact of Demonetization on the Banking Sectors	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_115220.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_115220.pdf</a>
Effect of NPAS on the Profitability of Selected Banks in India	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_115220.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_115220.pdf</a>
A Study on Covid-19 and the Rise in Npa's in Banks	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_115220.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_115220.pdf</a>
A Study of Green Banking Practices in Domestic and International Banking Sectors	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_115220.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_115220.pdf</a>
Digital Payment: Present Scenario and Scope for Improvement	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_115220.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_115220.pdf</a>
A Study on the Effect of NPA on Bank Profitability	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_115220.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_115220.pdf</a>
Impact of Foreign Direct Investment on the Economic Growth of India	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_014102.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_014102.pdf</a>
Comparison of Marketing Strategies between LIC & Bajaj Allianz Life Insurance	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_014102.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_014102.pdf</a>
The Impact of CSR on Financial Performance of Indian Companies	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_014102.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_014102.pdf</a>
Dynamic Causality among Gold, Silver and Aluminum Price in India	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_014102.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_014102.pdf</a>
Impact of FDI on Asian Economies	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_014102.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_014102.pdf</a>
A Study on Financial Performance Analysis at Hindustan Insecticides Limited, Udyogamandal	<a href="https://www.scripown.com/docs/EBOOK_2023041_1_014102.pdf">https://www.scripown.com/docs/EBOOK_2023041_1_014102.pdf</a>

A study on Impact of COVID-19 on Global Economy Growth with Special Reference to G-20 Countries	<a href="https://www.scripown.com/docs/EBOOK_20230411_014102.pdf">https://www.scripown.com/docs/EBOOK_20230411_014102.pdf</a>
Cryptocurrency - An Overview	<a href="https://www.scripown.com/docs/EBOOK_20230411_014102.pdf">https://www.scripown.com/docs/EBOOK_20230411_014102.pdf</a>
Impact on Money Market Instruments in Indian Economy	<a href="https://www.scripown.com/docs/EBOOK_20230411_014102.pdf">https://www.scripown.com/docs/EBOOK_20230411_014102.pdf</a>
A Study on Risk Management in Banking Sector	<a href="https://www.scripown.com/docs/EBOOK_20230411_014102.pdf">https://www.scripown.com/docs/EBOOK_20230411_014102.pdf</a>
A Study on Financial Statement Analysis of Orientbell Pvt Ltd	<a href="https://www.scripown.com/docs/EBOOK_20230411_014102.pdf">https://www.scripown.com/docs/EBOOK_20230411_014102.pdf</a>
A study on "Whether Taxation is a Selling Tool for Life Insurance Company"	<a href="https://www.scripown.com/docs/EBOOK_20230411_014102.pdf">https://www.scripown.com/docs/EBOOK_20230411_014102.pdf</a>
A Study on Women Entrepreneurship and Economic Development in India	<a href="https://www.scripown.com/docs/EBOOK_20230411_014102.pdf">https://www.scripown.com/docs/EBOOK_20230411_014102.pdf</a>
A Study on World Seaborne Trade Terminologies and Incoterms	<a href="https://www.scripown.com/docs/EBOOK_20230411_014102.pdf">https://www.scripown.com/docs/EBOOK_20230411_014102.pdf</a>
Impact of Macroeconomic Factors on Indian stock Market	<a href="https://www.scripown.com/docs/EBOOK_20230411_050536.pdf">https://www.scripown.com/docs/EBOOK_20230411_050536.pdf</a>
Volatility Spill over between Russia and European Stock Markets	<a href="https://www.scripown.com/docs/EBOOK_20230411_050536.pdf">https://www.scripown.com/docs/EBOOK_20230411_050536.pdf</a>
Stock Price and Exchange Rate Nexus: A Case Study of Indian Stock Market	<a href="https://www.scripown.com/docs/EBOOK_20230411_050536.pdf">https://www.scripown.com/docs/EBOOK_20230411_050536.pdf</a>
Impact of Financial Crisis on Sectorial Indices: An Empirical Study on Indian Stock Market	<a href="https://www.scripown.com/docs/EBOOK_20230411_050536.pdf">https://www.scripown.com/docs/EBOOK_20230411_050536.pdf</a>
Performance of Selected Mutual fund: Evidence from India	<a href="https://www.scripown.com/docs/EBOOK_20230411_050536.pdf">https://www.scripown.com/docs/EBOOK_20230411_050536.pdf</a>
A Study on Risk and Return Analysis of Selected FMCG Company	<a href="https://www.scripown.com/docs/EBOOK_20230411_050536.pdf">https://www.scripown.com/docs/EBOOK_20230411_050536.pdf</a>
Pricing Efficiency of the Equity Exchange Traded Fund in Indian Market	<a href="https://www.scripown.com/docs/EBOOK_20230411_050536.pdf">https://www.scripown.com/docs/EBOOK_20230411_050536.pdf</a>
Evaluation of Debt Mutual Fund's Objective & Portfolio Element on Investor Decisions	<a href="https://www.scripown.com/docs/EBOOK_20230411_050536.pdf">https://www.scripown.com/docs/EBOOK_20230411_050536.pdf</a>
The Influence of Debt Mutual Funds' Liquidity Characteristics on Investor Choices	<a href="https://www.scripown.com/docs/EBOOK_20230411_050536.pdf">https://www.scripown.com/docs/EBOOK_20230411_050536.pdf</a>
A Study on Diversity, Equity and Inclusion Policies at Godrej Group	<a href="https://www.scripown.com/docs/EBOOK_20230411_050536.pdf">https://www.scripown.com/docs/EBOOK_20230411_050536.pdf</a>
A Study on Equity Analysis on FMCG Sector	<a href="https://www.scripown.com/docs/EBOOK_20230411_050536.pdf">https://www.scripown.com/docs/EBOOK_20230411_050536.pdf</a>
A Study on Analysis of Risk and Return With Respect to FMCG Companies	<a href="https://www.scripown.com/docs/EBOOK_20230411_050536.pdf">https://www.scripown.com/docs/EBOOK_20230411_050536.pdf</a>
A Study on Investment Pattern and Perception Towards Mutual Fund with Special Reference to Kodagu	<a href="https://www.scripown.com/docs/EBOOK_20230412_095510.pdf">https://www.scripown.com/docs/EBOOK_20230412_095510.pdf</a>

A Study on Impact of Covid-19 on Investing Behaviour of Retail Investors Towards Mutual Fund Investment with Respect to Malappuram District Kerala	<a href="https://www.scripown.com/docs/EBOOK_20230412_095510.pdf">https://www.scripown.com/docs/EBOOK_20230412_095510.pdf</a>
A Study to Analyse the Preferences and Behaviour of Retail Investors in Indian Stock Market and Its Impact of Market Growth	<a href="https://www.scripown.com/docs/EBOOK_20230412_095510.pdf">https://www.scripown.com/docs/EBOOK_20230412_095510.pdf</a>
Impact of Past Performance Attributes of Debt Mutual Funds on Investor Decisions	<a href="https://www.scripown.com/docs/EBOOK_20230412_095510.pdf">https://www.scripown.com/docs/EBOOK_20230412_095510.pdf</a>
An Analysis of Performance of Mutual Funds in Indian	<a href="https://www.scripown.com/docs/EBOOK_20230412_095510.pdf">https://www.scripown.com/docs/EBOOK_20230412_095510.pdf</a>

Retail and Logistics and Supply Chain: A Study with Reference to Walmart	<a href="https://www.scripown.com/docs/EBOOK_20230413_104938.pdf">https://www.scripown.com/docs/EBOOK_20230413_104938.pdf</a>
Supply Chain Dynamics of Agriculture Products with Special Focus on Warehousing	<a href="https://www.scripown.com/docs/EBOOK_20230413_104938.pdf">https://www.scripown.com/docs/EBOOK_20230413_104938.pdf</a>
Importance of Customer Feedback for New Product Development of Samsung Mobile phones	<a href="https://www.scripown.com/docs/EBOOK_20230413_013013.pdf">https://www.scripown.com/docs/EBOOK_20230413_013013.pdf</a>
A Study on Enhancement of Supply Chain Visibility in FMCG Industry	<a href="https://www.scripown.com/docs/EBOOK_20230413_013013.pdf">https://www.scripown.com/docs/EBOOK_20230413_013013.pdf</a>

The Impact of Social Media on Consumer Decision on FMCG Products	<a href="https://www.scripown.com/docs/EBOOK_20230413_013013.pdf">https://www.scripown.com/docs/EBOOK_20230413_013013.pdf</a>
Policies to Strengthen Agri Food Supply Chain in Karnataka	<a href="https://www.scripown.com/docs/EBOOK_20230413_013013.pdf">https://www.scripown.com/docs/EBOOK_20230413_013013.pdf</a>
A Study on Factors Affecting the Customer Preferences of Amul Ice Cream Products	<a href="https://www.scripown.com/docs/EBOOK_20230413_013013.pdf">https://www.scripown.com/docs/EBOOK_20230413_013013.pdf</a>
The Impact of Relevant Costing for Decision-making in Ready- Made Garments (RMGs) Industry of India	<a href="https://www.scripown.com/docs/EBOOK_20230413_013013.pdf">https://www.scripown.com/docs/EBOOK_20230413_013013.pdf</a>
A Study on Exporter's Opinion on Documentation with Special Reference to Mangalore	<a href="https://www.scripown.com/docs/EBOOK_20230413_013013.pdf">https://www.scripown.com/docs/EBOOK_20230413_013013.pdf</a>
A Study on Supply Chain Efficiency of Big Basket India with Special Reference to Bengaluru	<a href="https://www.scripown.com/docs/EBOOK_20230413_013013.pdf">https://www.scripown.com/docs/EBOOK_20230413_013013.pdf</a>
Analysis of Supply Chain Management in E-Commerce of Amazon India	<a href="https://www.scripown.com/docs/EBOOK_20230413_013013.pdf">https://www.scripown.com/docs/EBOOK_20230413_013013.pdf</a>
A Case Study on Material Handling System at Bosch Ltd	<a href="https://www.scripown.com/docs/EBOOK_20230413_013013.pdf">https://www.scripown.com/docs/EBOOK_20230413_013013.pdf</a>
Export Performance of Marine Products from India: A Study with Special reference to Kerala	<a href="https://www.scripown.com/docs/EBOOK_20230413_013013.pdf">https://www.scripown.com/docs/EBOOK_20230413_013013.pdf</a>
Cluster Units in Export Garment Industry: SWOT Analysis	<a href="https://www.scripown.com/docs/EBOOK_20230413_013013.pdf">https://www.scripown.com/docs/EBOOK_20230413_013013.pdf</a>
The Influence of Culture on Cosmetics Consumer Behavior	<a href="https://www.scripown.com/docs/EBOOK_20230413_013013.pdf">https://www.scripown.com/docs/EBOOK_20230413_013013.pdf</a>
INTRODUCTION TO ELECTRICAL ENERGY	<a href="https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf">https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf</a>
TECHNOLOGY FOR ENERGY PREDICTION	<a href="https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf">https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf</a>
MACHINE LEARNING FOR ENERGY PREDICTION	<a href="https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf">https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf</a>
NEURAL NETWORK IN ENERGY PREDICTION	<a href="https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf">https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf</a>
COMPARISON OF DIFFERENT APPROACHES	<a href="https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf">https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf</a>
FUTURE OF AI IN ENERGY PREDICTION	<a href="https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf">https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf</a>
CONCEPT OF ELECTRIC VEHICLE	<a href="https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf">https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf</a>
HISTORY OF ELECTRIC VEHICLE	<a href="https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf">https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf</a>

BATTERIES FOR ELECTRIC VEHICLES	<a href="https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf">https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf</a>
WIRELESS CHARGING TECHNOLOGY	<a href="https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf">https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf</a>
TYPES OF WIRELESS CHARGING SYSTEM	<a href="https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf">https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf</a>
FUTURE OF WIRELESS CHARGING SYSTEM FOR ELECTRIC VEHICLES (EVS)	<a href="https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf">https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf</a>
INTRODUCTION TO INDUSTRIAL MOTORS	<a href="https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf">https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf</a>
TYPES OF MOTORS	<a href="https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf">https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf</a>
SPEED OF BLDC MOTOR	<a href="https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf">https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf</a>
BRUSHLESS DIRECT CURRENT (BLDC) MOTORS	<a href="https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf">https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf</a>
COMPONENTS OF BLDC MOTOR	<a href="https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf">https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf</a>
APPLICATIONS OF BLDC MOTORS	<a href="https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf">https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf</a>
INTRODUCTION ENERGY CONSERVATION	<a href="https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf">https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf</a>
ENERGY LOSS AND CONSERVATION	<a href="https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf">https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf</a>
COMPONENTS OF ENERGY SAVING SYSTEM- PART I	<a href="https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf">https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf</a>
COMPONENTS OF ENERGY SAVING SYSTEM- PART II	<a href="https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf">https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf</a>
COMPONENTS OF ENERGY SAVING SYSTEM- PART III	<a href="https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf">https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf</a>
FUTURE OF GLOBAL ENERGY CONSUMPTION	<a href="https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf">https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf</a>
INTRODUCTION TO ELECTRIC VEHICLE	<a href="https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf">https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf</a>
TYPES OF ELECTRIC VEHICLES	<a href="https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf">https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf</a>
AC AND DC MOTORS	<a href="https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf">https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf</a>

MOTORS IN ELECTRIC VEHICLES	<a href="https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf">https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf</a>
OVERVIEW OF MOTOR TYPES	<a href="https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf">https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf</a>
CONCEPT OF BLDC MOTOR	<a href="https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf">https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf</a>
ADVANTAGES AND DISADVANTAGES OF BRUSHLESS DC MOTOR	<a href="https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf">https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf</a>
INTRODUCTION TO ENERGY AND AGRI ENVIRONMENT	<a href="https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf">https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf</a>
NATURAL DISASTERS: THREAT TO SUSTAINABLE AGRICULTURE AND DEVELOPMENT	<a href="https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf">https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf</a>
IOT IN AGRICULTURE	<a href="https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf">https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf</a>
THE NEED OF AUTOMATED AGRICULTURE	<a href="https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf">https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf</a>
COMPONENTS FOR ALTERNATE ENERGY	<a href="https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf">https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf</a>
DISASTER RISK REDUCTION	<a href="https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf">https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf</a>
IOT IN CROP PROTECTION	<a href="https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf">https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf</a>
INTRODUCTION TO ELECTRICAL MOTORS	<a href="https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf">https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf</a>
DIFFERENT TYPES OF INDUCTION MOTORS	<a href="https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf">https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf</a>
SINGLE PHASE INDUCTION MOTOR	<a href="https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf">https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf</a>
INDUCTORS AND THEIR APPLICATIONS	<a href="https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf">https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf</a>
INSULATED GATE BIPOLAR TRANSISTOR	<a href="https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf">https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf</a>

TYPES OF SWITCHES	<a href="https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf">https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf</a>
DIGITAL SIGNAL PROCESSING (DSP)	<a href="https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf">https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf</a>
INTRODUCTION TO PREDICTIVE ANALYSIS	<a href="https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf">https://ciir.in/doc/publication/Agriculture,%20Environment%20and%20Energy%20Sustainability_978-81-962236-2-5.pdf</a>
PERFORMANCE ANALYSIS OF A VIENNA AND UTILITY MINING	<a href="https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf">https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf</a>
THEORY OF MACHINE LEARNING	<a href="https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf">https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf</a>
COMMON AND POPULAR MACHINE LEARNING ALGORITHMS	<a href="https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf">https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf</a>
INDUCTION MOTOR AND ITS COMPONENTS	<a href="https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf">https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf</a>
ENCODER AND DECODER	<a href="https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf">https://ciir.in/doc/publication/Electrical%20Devices%20&amp;%20Systems_978-81-962236-8-7.pdf</a>
CHALLENGES IN USING MACHINE LEARNING	<a href="https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf">https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf</a>
INTRODUCTION TO A SMART BANK LOCKER SYSTEM	<a href="https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81-962236-6-3.pdf">https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81-962236-6-3.pdf</a>
TYPES OF BLSS	<a href="https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81-962236-6-3.pdf">https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81-962236-6-3.pdf</a>
DESIGN OF BLSS (BANK LOCKER SECURITY SYSTEM)	<a href="https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81-962236-6-3.pdf">https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81-962236-6-3.pdf</a>
KEY PHASES OF THE BANK LOCKER SYSTEM	<a href="https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81-962236-6-3.pdf">https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81-962236-6-3.pdf</a>
EQUIPMENTS IN LOCKER SYSTEM DESIGN	<a href="https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81-962236-6-3.pdf">https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81-962236-6-3.pdf</a>
DESIGN SPECIFICATIONS FOR SOFTWARE	<a href="https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81-962236-6-3.pdf">https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81-962236-6-3.pdf</a>
INTRODUCTION TO UNDER GROUND CABLING	<a href="https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81-962236-6-3.pdf">https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81-962236-6-3.pdf</a>
Types of Underground Cables	<a href="https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81-962236-6-3.pdf">https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81-962236-6-3.pdf</a>

TYPES OF CABLING SYSTEMS	<a href="https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81962236-6-3.pdf">https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81962236-6-3.pdf</a>
PROPORTIONAL METHOD OF MATHEMATICAL MODEL	<a href="https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81962236-6-3.pdf">https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81962236-6-3.pdf</a>
ADVANTAGES AND DISADVANTAGES OF CABLE THUMPING	<a href="https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81962236-6-3.pdf">https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81962236-6-3.pdf</a>
LAYING MECHANISM OF UNDERGROUND CABLE	<a href="https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81962236-6-3.pdf">https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81962236-6-3.pdf</a>
GRADING OF UNDERGROUND CABLES	<a href="https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81962236-6-3.pdf">https://ciir.in/doc/publication/Electrical%20Engineering%20Concepts%20and%20Applications_978-81962236-6-3.pdf</a>
Introduction to Smart Transformer Using IoT	<a href="https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf">https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf</a>
Working of IoT	<a href="https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf">https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf</a>
Protection Provided In Transformer	<a href="https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf">https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf</a>
Internet of Things-based distribution transformer condition monitoring system (IoT)	<a href="https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf">https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf</a>
Demand Side Management Technique	<a href="https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf">https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf</a>
Transformer Parameter Monitoring System	<a href="https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf">https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf</a>
Design and Simulation of Centralized Automated Power System Network (CAPSN)	<a href="https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf">https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf</a>
INTRODUCTION TO SMART METERING SYSTEM	<a href="https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf">https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf</a>
DEVICES AND COMPONENTS FOR SMART ENERGY METERING	<a href="https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf">https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf</a>
ACUITY SENSOR	<a href="https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf">https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf</a>
FLUTTER IN SMART ENERGY METERING	<a href="https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf">https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf</a>
GCP Provides Several Services:	<a href="https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf">https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf</a>
CONCEPT OF FIREBASE	<a href="https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf">https://ciir.in/doc/publication/Intelligent%20Electrical%20Systems_978-81-962236-9-4.pdf</a>
INTRODUCTION TO SMART VENDING MACHINE	<a href="https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf">https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf</a>

Medication Dispensing Tray	<a href="https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf">https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf</a>
DESIGN OF ANY TIME MEDICINE VENDING MACHINE	<a href="https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf">https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf</a>
IMPLEMENTATION OF MEDICINE VENDING	<a href="https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf">https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf</a>
GPRS MODULE	<a href="https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf">https://ciir.in/doc/publication/Smart%20Vending%20Medicine%20and%20Energy%20Conservation_978-81-962237-0-0.pdf</a>
SERVO DRIVES	<a href="https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf">https://ciir.in/doc/publication/Electric%20Motors%20&amp;%20Drives_978-81-962236-7-0.pdf</a>
A Study about the Fifth Generation (5G) Networks	<a href="http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/">http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/</a>
Vertical-Specific Architecture Extensions	<a href="http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/">http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/</a>
A Study on Multicarrier Modulation	<a href="http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/">http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/</a>
A Breif Discussion on Forward Error Correction	<a href="http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/">http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/</a>
A Comperhesive study on General Core VNFs	<a href="http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/">http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/</a>
A Breif Discussion on PHY Layer	<a href="http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/">http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/</a>
Role of the Point to Multipoint in Networks	<a href="http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/">http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/</a>
A Study on Multi-access Edge Computing - Standards	<a href="http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/">http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/</a>
Abstractions and Their Violations in Networks	<a href="http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/">http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/</a>
Development time with Software Development Kits	<a href="http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/">http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/</a>
A Study on Emulation Framework	<a href="http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/">http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/</a>
Contributions Related to Radio and Edge Architectures	<a href="http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/">http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/</a>
A Breif Discussion on Information model	<a href="http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/">http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/</a>
A Study on Physical Infrastructure	<a href="http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/">http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/</a>
A Breif Discussion on Network Operators	<a href="http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/">http://alexispress.us/sdm_downloads/fifth-generation-5g-networks/</a>
An Overview on Structure of Power Quality	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems-quality/">http://alexispress.us/sdm_downloads/electrical-power-systems-quality/</a>

Power Quality Problems	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems-quality/">http://alexispress.us/sdm_downloads/electrical-power-systems-quality/</a>
A Brief Discussion on Power Frequency Variations	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems-quality/">http://alexispress.us/sdm_downloads/electrical-power-systems-quality/</a>
Transmission system sag performance evaluation	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems-quality/">http://alexispress.us/sdm_downloads/electrical-power-systems-quality/</a>
Estimating the costs for the voltage sag events	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems-quality/">http://alexispress.us/sdm_downloads/electrical-power-systems-quality/</a>
Impact of eliminating fuse saving	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems-quality/">http://alexispress.us/sdm_downloads/electrical-power-systems-quality/</a>
A Brief Discussion on Utility fault prevention	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems-quality/">http://alexispress.us/sdm_downloads/electrical-power-systems-quality/</a>
A Fundamental Study Transformer Ground	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems-quality/">http://alexispress.us/sdm_downloads/electrical-power-systems-quality/</a>
A Brief Discussion on Utility Surge Arresters	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems-quality/">http://alexispress.us/sdm_downloads/electrical-power-systems-quality/</a>
A Brief Discussion on Scout Arrester Scheme	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems-quality/">http://alexispress.us/sdm_downloads/electrical-power-systems-quality/</a>
An Overview on Coherence Theory	<a href="http://alexispress.us/sdm_downloads/indian-government-and-politics/">http://alexispress.us/sdm_downloads/indian-government-and-politics/</a>
Political Theory	<a href="http://alexispress.us/sdm_downloads/indian-government-and-politics/">http://alexispress.us/sdm_downloads/indian-government-and-politics/</a>
Constitutional Theory: Central Concepts	<a href="http://alexispress.us/sdm_downloads/indian-government-and-politics/">http://alexispress.us/sdm_downloads/indian-government-and-politics/</a>
A Brief Discussion on Conceptions of Power	<a href="http://alexispress.us/sdm_downloads/indian-government-and-politics/">http://alexispress.us/sdm_downloads/indian-government-and-politics/</a>
A Brief Discussion on Conceptions of Law	<a href="http://alexispress.us/sdm_downloads/indian-government-and-politics/">http://alexispress.us/sdm_downloads/indian-government-and-politics/</a>
A Brief Discussion on Conceptions of Justice	<a href="http://alexispress.us/sdm_downloads/indian-government-and-politics/">http://alexispress.us/sdm_downloads/indian-government-and-politics/</a>
A Brief Discussion on Conception of Rationality	<a href="http://alexispress.us/sdm_downloads/indian-government-and-politics/">http://alexispress.us/sdm_downloads/indian-government-and-politics/</a>
Conceptions of Human Nature	<a href="http://alexispress.us/sdm_downloads/indian-government-and-politics/">http://alexispress.us/sdm_downloads/indian-government-and-politics/</a>
A Brief Discussion on Skinnerian Behaviourism	<a href="http://alexispress.us/sdm_downloads/indian-government-and-politics/">http://alexispress.us/sdm_downloads/indian-government-and-politics/</a>
A Brief Discussion on Legitimacy and Effectiveness	<a href="http://alexispress.us/sdm_downloads/indian-government-and-politics/">http://alexispress.us/sdm_downloads/indian-government-and-politics/</a>
An overview of Conservatism	<a href="http://alexispress.us/sdm_downloads/indian-government-and-politics/">http://alexispress.us/sdm_downloads/indian-government-and-politics/</a>
Conservative Capitalism: Lines of Cleavage	<a href="http://alexispress.us/sdm_downloads/indian-government-and-politics/">http://alexispress.us/sdm_downloads/indian-government-and-politics/</a>
A Brief Discussion on Broadband Technology	<a href="http://alexispress.us/sdm_downloads/foundation-course-in-human-values/">http://alexispress.us/sdm_downloads/foundation-course-in-human-values/</a>
A Brief Discussion on Wireless Technology	<a href="http://alexispress.us/sdm_downloads/foundation-course-in-human-values/">http://alexispress.us/sdm_downloads/foundation-course-in-human-values/</a>
BPM Business Model	<a href="http://alexispress.us/sdm_downloads/foundation-course-in-human-values/">http://alexispress.us/sdm_downloads/foundation-course-in-human-values/</a>

A Brief Discussion on ARRL's Position on Interference	<a href="http://alexispress.us/sdm_downloads/foundation-course-in-human-values/">http://alexispress.us/sdm_downloads/foundation-course-in-human-values/</a>
Electrical Networks and Their Properties	<a href="http://alexispress.us/sdm_downloads/foundation-course-in-human-values/">http://alexispress.us/sdm_downloads/foundation-course-in-human-values/</a>
A Brief Discussion on Multi-conductor transmission line models	<a href="http://alexispress.us/sdm_downloads/foundation-course-in-human-values/">http://alexispress.us/sdm_downloads/foundation-course-in-human-values/</a>
A Brief Discussion on Adaptive Modulation	<a href="http://alexispress.us/sdm_downloads/foundation-course-in-human-values/">http://alexispress.us/sdm_downloads/foundation-course-in-human-values/</a>
Nonlinear Techniques for Impulsive Noise Reduction and fuzzy logic	<a href="http://alexispress.us/sdm_downloads/foundation-course-in-human-values/">http://alexispress.us/sdm_downloads/foundation-course-in-human-values/</a>
Performance of Bit-Interleaved Coded OFDM in PLC Systems	<a href="http://alexispress.us/sdm_downloads/foundation-course-in-human-values/">http://alexispress.us/sdm_downloads/foundation-course-in-human-values/</a>
A Brief Discussion on Narrowband and Broadband Power Line Communications	<a href="http://alexispress.us/sdm_downloads/foundation-course-in-human-values/">http://alexispress.us/sdm_downloads/foundation-course-in-human-values/</a>
Measuring and Modeling LV Power Line Channels	<a href="http://alexispress.us/sdm_downloads/foundation-course-in-human-values/">http://alexispress.us/sdm_downloads/foundation-course-in-human-values/</a>
Structure of a typical emulator-based PLC testbed	<a href="http://alexispress.us/sdm_downloads/foundation-course-in-human-values/">http://alexispress.us/sdm_downloads/foundation-course-in-human-values/</a>
A Brief Discussion on Digital Subscriber Line Variations	<a href="http://alexispress.us/sdm_downloads/foundation-course-in-human-values/">http://alexispress.us/sdm_downloads/foundation-course-in-human-values/</a>
A Brief Discussion on Satellite Internet Connectivity	<a href="http://alexispress.us/sdm_downloads/foundation-course-in-human-values/">http://alexispress.us/sdm_downloads/foundation-course-in-human-values/</a>
Geographical Coverage and Availability	<a href="http://alexispress.us/sdm_downloads/foundation-course-in-human-values/">http://alexispress.us/sdm_downloads/foundation-course-in-human-values/</a>
BONDING AND STEREOCHEMISTRY IN MAIN GROUP COMPOUNDS	<a href="http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/">http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/</a>
COMPOUNDS OF SULFINITROGEN AND PHOSPHORUS-NITROGEN	<a href="http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/">http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/</a>
ALKALINE EARTH METALS AND ALKALI ORGANOMETALLIC COMPOUNDS	<a href="http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/">http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/</a>
ENZYME USE IN THE FOOD AND DRINKS INDUSTRY BREWING AND MAKING CHEESE	<a href="http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/">http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/</a>
MOLECULAR -COMPLEXES	<a href="http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/">http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/</a>
THE ROLE OF METAL SCUFFS	<a href="http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/">http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/</a>
IN SOLUTION FOR METAL-LIGAND EQUILIBRIA	<a href="http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/">http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/</a>
STORAGE AND TRANSPORT OF METAL	<a href="http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/">http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/</a>

TRANSPORT OF METAL FOR STORAGE AND BIOMINERALISATION TRANSFERRIN, FERRITIN, AND SIDERROPHORES	<a href="http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/">http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/</a>
ROLE OF THE PHOTOSYNTHESIS IN BIO-ORGANIC	<a href="http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/">http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/</a>
ROLE OF METALLOENZYMES IN INORGANIC CHEMISTRY	<a href="http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/">http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/</a>
METAL-NUCLEIC ACID INTERACTIONS	<a href="http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/">http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/</a>
CLASSIFICATION OF ELEMENTS IN ACCORDANCE WITH THEIR ACTIVITIES IN THE BIOLOGICAL SYSTEM	<a href="http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/">http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/</a>
THE BIOORGANIC CHEMISTRY	<a href="http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/">http://alexispress.us/sdm_downloads/inorganic-chemistry-bio-organic-and-bio-physical-chemistry/</a>
A Study on the Feasibility Study	<a href="http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/</a>
Technical Nature of the Project	<a href="http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/</a>
A Study on Vendor Finance	<a href="http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/</a>
Report Consolidation and Distribution	<a href="http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/</a>
Rivalry Amongst the Existing Firms	<a href="http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/</a>
Technical Advice and Instruction in Finance	<a href="http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/</a>
A Study of Cash Flow Statement	<a href="http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/</a>
A Brief Discussion on Projections for Cash Flows	<a href="http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/</a>
A Study on the Sponsor Support Agreements	<a href="http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/</a>
An Overview on the Exchange Rate Risk in Finance	<a href="http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/</a>
Role of Political Risk in Finance	<a href="http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/</a>
Socio-Political Risk of the Country	<a href="http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/project-finance-in-theory-and-practice/</a>
Current India And Global Environment	<a href="http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/">http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/</a>
Environment in General and the External	<a href="http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/">http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/</a>
A Brief Discussion on Natural Environment	<a href="http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/">http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/</a>

Role of Business and Consumerism in Economic	<a href="http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/">http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/</a>
Modern Theories of Economic Growth and the Macroeconomic Environment	<a href="http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/">http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/</a>
A Study on Aggregate Supply and Demand	<a href="http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/">http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/</a>
An Overview on Inflation	<a href="http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/">http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/</a>
Control of Inflation and Its Impact	<a href="http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/">http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/</a>
Inflation Affects Economic Development	<a href="http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/">http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/</a>
Unemployment and Employment in India	<a href="http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/">http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/</a>
A Study on India's Economic Reforms	<a href="http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/">http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/</a>
New Economic Policy and Economic Planning in India	<a href="http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/">http://alexispress.us/sdm_downloads/macro-economic-concepts-and-macro-environment/</a>
Recent Information Technology Trends	<a href="http://alexispress.us/sdm_downloads/managing-information-technology-in-the-digital-world/">http://alexispress.us/sdm_downloads/managing-information-technology-in-the-digital-world/</a>
The Role of the Operating Manager in Information Systems	<a href="http://alexispress.us/sdm_downloads/managing-information-technology-in-the-digital-world/">http://alexispress.us/sdm_downloads/managing-information-technology-in-the-digital-world/</a>
A Brief Discussion on Computer Systems	<a href="http://alexispress.us/sdm_downloads/managing-information-technology-in-the-digital-world/">http://alexispress.us/sdm_downloads/managing-information-technology-in-the-digital-world/</a>
A Brief Study on Computer Files	<a href="http://alexispress.us/sdm_downloads/managing-information-technology-in-the-digital-world/">http://alexispress.us/sdm_downloads/managing-information-technology-in-the-digital-world/</a>
A Brief Discussion on Midrange Systems	<a href="http://alexispress.us/sdm_downloads/managing-information-technology-in-the-digital-world/">http://alexispress.us/sdm_downloads/managing-information-technology-in-the-digital-world/</a>

An overview on Terminal Facilities	<a href="http://alexispress.us/sdm_downloads/concept-of-sustainable-urban-mobility/">http://alexispress.us/sdm_downloads/concept-of-sustainable-urban-mobility/</a>
Mobility and Urban Form	<a href="http://alexispress.us/sdm_downloads/concept-of-sustainable-urban-mobility/">http://alexispress.us/sdm_downloads/concept-of-sustainable-urban-mobility/</a>
Urban Densities and Public Transport Thresholds	<a href="http://alexispress.us/sdm_downloads/concept-of-sustainable-urban-mobility/">http://alexispress.us/sdm_downloads/concept-of-sustainable-urban-mobility/</a>
Transit-oriented development (TOD)	<a href="http://alexispress.us/sdm_downloads/concept-of-sustainable-urban-mobility/">http://alexispress.us/sdm_downloads/concept-of-sustainable-urban-mobility/</a>
Impacts of Transportation Investments on Urban Form	<a href="http://alexispress.us/sdm_downloads/concept-of-sustainable-urban-mobility/">http://alexispress.us/sdm_downloads/concept-of-sustainable-urban-mobility/</a>
Challenges and Impacts of Urban Poverty	<a href="http://alexispress.us/sdm_downloads/concept-of-sustainable-urban-mobility/">http://alexispress.us/sdm_downloads/concept-of-sustainable-urban-mobility/</a>
Intellectual Forces and Sociological Theory's Ascent	<a href="http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/">http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/</a>
The Development of French Sociology	<a href="http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/">http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/</a>
A Study on Governmental Economic	<a href="http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/">http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/</a>
A Brief Discussion on Social Development	<a href="http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/">http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/</a>
Study About the Dialectical Philosophy	<a href="http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/">http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/</a>
Elements That Make Up Capitalist Society	<a href="http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/">http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/</a>
Capitalism as a Beneficial Force	<a href="http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/">http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/</a>
Evaluation of Communism	<a href="http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/">http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/</a>
Labor Relations in Society	<a href="http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/">http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/</a>
Organic and Mechanical Solidarity	<a href="http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/">http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/</a>
Social Reform and Suicide Rates	<a href="http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/">http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/</a>
Social Reform and Moral Instruction	<a href="http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/">http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/</a>
Substantive Criticisms of Sociology	<a href="http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/">http://alexispress.us/sdm_downloads/introduction-to-sociological-theory/</a>
Battery Management Systems and Applications	<a href="http://alexispress.us/sdm_downloads/battery-management-systems/">http://alexispress.us/sdm_downloads/battery-management-systems/</a>
Implications for the battery management system	<a href="http://alexispress.us/sdm_downloads/battery-management-systems/">http://alexispress.us/sdm_downloads/battery-management-systems/</a>
Characteristics of battery management system	<a href="http://alexispress.us/sdm_downloads/battery-management-systems/">http://alexispress.us/sdm_downloads/battery-management-systems/</a>

A common decision to be made for battery management system development is the degree of modularity desired	<a href="http://alexispress.us/sdm_downloads/battery-management-systems/">http://alexispress.us/sdm_downloads/battery-management-systems/</a>
Challenges in Cell Voltage Measurement	<a href="http://alexispress.us/sdm_downloads/battery-management-systems/">http://alexispress.us/sdm_downloads/battery-management-systems/</a>
Magnetostrictive Sensors	<a href="http://alexispress.us/sdm_downloads/battery-management-systems/">http://alexispress.us/sdm_downloads/battery-management-systems/</a>
Soft Start or Recharge Circuits	<a href="http://alexispress.us/sdm_downloads/battery-management-systems/">http://alexispress.us/sdm_downloads/battery-management-systems/</a>
Battery Management System Functionality	<a href="http://alexispress.us/sdm_downloads/battery-management-systems/">http://alexispress.us/sdm_downloads/battery-management-systems/</a>
ESD Suppression on Isolated Devices	<a href="http://alexispress.us/sdm_downloads/battery-management-systems/">http://alexispress.us/sdm_downloads/battery-management-systems/</a>
Battery Models	<a href="http://alexispress.us/sdm_downloads/battery-management-systems/">http://alexispress.us/sdm_downloads/battery-management-systems/</a>
Characterization of SOC	<a href="http://alexispress.us/sdm_downloads/battery-management-systems/">http://alexispress.us/sdm_downloads/battery-management-systems/</a>
Limit Violation Detection	<a href="http://alexispress.us/sdm_downloads/battery-management-systems/">http://alexispress.us/sdm_downloads/battery-management-systems/</a>
Concepts of Economics Development	<a href="http://alexispress.us/sdm_downloads/development-of-economics-and-planning/">http://alexispress.us/sdm_downloads/development-of-economics-and-planning/</a>
Analysis Of Development Economics	<a href="http://alexispress.us/sdm_downloads/development-of-economics-and-planning/">http://alexispress.us/sdm_downloads/development-of-economics-and-planning/</a>
Economic Growth and Income Distribution	<a href="http://alexispress.us/sdm_downloads/development-of-economics-and-planning/">http://alexispress.us/sdm_downloads/development-of-economics-and-planning/</a>
Analysis of Sustainable Growth	<a href="http://alexispress.us/sdm_downloads/development-of-economics-and-planning/">http://alexispress.us/sdm_downloads/development-of-economics-and-planning/</a>
Different Underdevelopment Criteria	<a href="http://alexispress.us/sdm_downloads/development-of-economics-and-planning/">http://alexispress.us/sdm_downloads/development-of-economics-and-planning/</a>
Unworking And Disguised Unworking	<a href="http://alexispress.us/sdm_downloads/development-of-economics-and-planning/">http://alexispress.us/sdm_downloads/development-of-economics-and-planning/</a>
Economic Development Barriers	<a href="http://alexispress.us/sdm_downloads/development-of-economics-and-planning/">http://alexispress.us/sdm_downloads/development-of-economics-and-planning/</a>
Economic Factors that Influence Economic Growth	<a href="http://alexispress.us/sdm_downloads/development-of-economics-and-planning/">http://alexispress.us/sdm_downloads/development-of-economics-and-planning/</a>
Evaluation of Non-Economic Elements	<a href="http://alexispress.us/sdm_downloads/development-of-economics-and-planning/">http://alexispress.us/sdm_downloads/development-of-economics-and-planning/</a>
Features of Contemporary Economic Growth	<a href="http://alexispress.us/sdm_downloads/development-of-economics-and-planning/">http://alexispress.us/sdm_downloads/development-of-economics-and-planning/</a>
Economic Growth and Capital Formation	<a href="http://alexispress.us/sdm_downloads/development-of-economics-and-planning/">http://alexispress.us/sdm_downloads/development-of-economics-and-planning/</a>
Agriculture and Industry's Contribution to Economic Development	<a href="http://alexispress.us/sdm_downloads/development-of-economics-and-planning/">http://alexispress.us/sdm_downloads/development-of-economics-and-planning/</a>
Overview of Capital Formation Sources	<a href="http://alexispress.us/sdm_downloads/development-of-economics-and-planning/">http://alexispress.us/sdm_downloads/development-of-economics-and-planning/</a>
Physics of Electricity	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems/">http://alexispress.us/sdm_downloads/electrical-power-systems/</a>

Circuit Fundamentals	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems/">http://alexispress.us/sdm_downloads/electrical-power-systems/</a>
Basic Circuit Analysis for Modeling Circuits	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems/">http://alexispress.us/sdm_downloads/electrical-power-systems/</a>
Alternating Current and Voltage	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems/">http://alexispress.us/sdm_downloads/electrical-power-systems/</a>
The Significance of Reactive Power	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems/">http://alexispress.us/sdm_downloads/electrical-power-systems/</a>
The Synchronous Generator	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems/">http://alexispress.us/sdm_downloads/electrical-power-systems/</a>
Multiple Generators Real Power	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems/">http://alexispress.us/sdm_downloads/electrical-power-systems/</a>
Classification of load and Inverters	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems/">http://alexispress.us/sdm_downloads/electrical-power-systems/</a>
An overview of Electronic Devices	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems/">http://alexispress.us/sdm_downloads/electrical-power-systems/</a>
Three phase transmission	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems/">http://alexispress.us/sdm_downloads/electrical-power-systems/</a>
Delta and Wye Connections	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems/">http://alexispress.us/sdm_downloads/electrical-power-systems/</a>
Towers, Insulators, and Other Components	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems/">http://alexispress.us/sdm_downloads/electrical-power-systems/</a>
Power Flow Analysis	<a href="http://alexispress.us/sdm_downloads/electrical-power-systems/">http://alexispress.us/sdm_downloads/electrical-power-systems/</a>
An Overview of the Role of Human Resources	<a href="http://alexispress.us/sdm_downloads/human-resource-management/">http://alexispress.us/sdm_downloads/human-resource-management/</a>
An Overview of the Skills Needed for HRM	<a href="http://alexispress.us/sdm_downloads/human-resource-management/">http://alexispress.us/sdm_downloads/human-resource-management/</a>
An Overview of the Developing and Implementing Strategic HRM Plans	<a href="http://alexispress.us/sdm_downloads/human-resource-management/">http://alexispress.us/sdm_downloads/human-resource-management/</a>
An Analysis of the Strategic Plan in Human Resource	<a href="http://alexispress.us/sdm_downloads/human-resource-management/">http://alexispress.us/sdm_downloads/human-resource-management/</a>
An Elaboration of the Human Resource Needs	<a href="http://alexispress.us/sdm_downloads/human-resource-management/">http://alexispress.us/sdm_downloads/human-resource-management/</a>
An Overview of Equal Employment Opportunity Commission Federal Legislation in HRM	<a href="http://alexispress.us/sdm_downloads/human-resource-management/">http://alexispress.us/sdm_downloads/human-resource-management/</a>
An Overview of the Diversity and Multiculturalism in HRM	<a href="http://alexispress.us/sdm_downloads/human-resource-management/">http://alexispress.us/sdm_downloads/human-resource-management/</a>
An Analysis of the Recruitment Process in Human Resource	<a href="http://alexispress.us/sdm_downloads/human-resource-management/">http://alexispress.us/sdm_downloads/human-resource-management/</a>
An Elaboration of the Recruitment Strategies in Organization	<a href="http://alexispress.us/sdm_downloads/human-resource-management/">http://alexispress.us/sdm_downloads/human-resource-management/</a>
An Overview of the Selection Procedure in Organization	<a href="http://alexispress.us/sdm_downloads/human-resource-management/">http://alexispress.us/sdm_downloads/human-resource-management/</a>
An Elaboration of the Different Interview Questions for Candidates	<a href="http://alexispress.us/sdm_downloads/human-resource-management/">http://alexispress.us/sdm_downloads/human-resource-management/</a>

An Overview of the Making the Offer Letter for Candidate	<a href="http://alexispress.us/sdm_downloads/human-resource-management/">http://alexispress.us/sdm_downloads/human-resource-management/</a>
Concept of Power Electronics	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf</a>
Power Semiconductor Diodes and Transistors	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf</a>
The Power Diode	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf</a>
Basic Structure and Operation of Power Bipolar Transistor	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf</a>
The Power MOSFET and Switching in Electronic Circuit	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf</a>
Basic Structure of Thyristors and its Operation	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf</a>
Diode Rectifiers and Single Phase Rectifier	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf</a>
Three-Phase Rectifier	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf</a>
DC–DC Converter	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf</a>
Voltage Source Inverter (VSI)	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf</a>
AC–AC Converters	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf</a>
Power Factor Correction Circuit	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf</a>
Gate Drive Circuitry	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf</a>
Capacitor Charging Applications	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Power-Electronics.pdf</a>
Elements of a Pro-Growth Government Structural Policy	<a href="http://alexispress.us/sdm_downloads/managing-investment-portfolios/">http://alexispress.us/sdm_downloads/managing-investment-portfolios/</a>
Economic Forecasting	<a href="http://alexispress.us/sdm_downloads/managing-investment-portfolios/">http://alexispress.us/sdm_downloads/managing-investment-portfolios/</a>

E-Waste Management: A Growing Concern for India's Environment and Health	<a href="https://ijsem.org/downloads/vol9-si-1s.pdf">https://ijsem.org/downloads/vol9-si-1s.pdf</a>
Circular Economy Concepts for Managing Electronic Trash Sustainably: Difficulties and Management	<a href="https://ijsem.org/downloads/vol9-si-1s.pdf">https://ijsem.org/downloads/vol9-si-1s.pdf</a>
Overview of Electronic Waste Recycling and Disposal	<a href="https://ijsem.org/downloads/vol9-si-1s.pdf">https://ijsem.org/downloads/vol9-si-1s.pdf</a>
E-waste Management as a Global Challenge	<a href="https://ijsem.org/downloads/vol9-si-1s.pdf">https://ijsem.org/downloads/vol9-si-1s.pdf</a>
E-Waste Management in Different Countries: Strategies, Impacts, and Determinants	<a href="https://ijsem.org/downloads/vol9-si-1s.pdf">https://ijsem.org/downloads/vol9-si-1s.pdf</a>
Policy Concerns for Developing Nations' Effective Handling of E-Waste	<a href="https://ijsem.org/downloads/vol9-si-1s.pdf">https://ijsem.org/downloads/vol9-si-1s.pdf</a>
A Theoretical Review of Organizational Capabilities and E-Waste Management	<a href="https://ijsem.org/downloads/vol9-si-1s.pdf">https://ijsem.org/downloads/vol9-si-1s.pdf</a>
An Overview of the Importance of Business Policy in Strategic Management	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Analysis of the Implementation and Governance of Business Policies	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Elaboration of the Different Perspectives on Strategy Formulation and Implementation	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Overview of the Understanding the Diverse Approaches to Strategic Management	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>

The Importance of Clear Vision and Mission Statement for Organizational Success	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
The Significance of Staging in Implementing a Firm's Strategy	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
The Importance of Controlled Scenario Building for Firm and Industry Strategy	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Overview of the Characteristics of the Environment	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Elaboration of the Political Environment	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Overview of Environmental Factors in Organization	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Overview of the Organizational Appraisal	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Analysis of Success Factors in Business Organization	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
Understanding Industry Analysis and its Importance in Strategic Management	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Overview of the Boston Consulting Group Matrix	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Analysis of the Market Penetration	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Overview of the Understanding Generic Strategies for Business Growth and Performance Improvement	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Overview of the Considerations for Conducting Divestitures	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Analysis of Generic Business Strategies	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Overview of the Power of Focus Strategy of Leveraging Niche Markets for Cost and Differentiation Advantage	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Overview of the Understanding the Characteristics and Importance of 'Stars' in Business Portfolio	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Overview of The Managerial Power Relationships	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Overview of Significance of Strategic Evaluation in Performance Target Setting and Benchmarking	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Understanding the Divisional Structure in Corporate Organizations for Unrelated Diversification	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>

The Interplay of Ethics, Strategy Implementation, and Corporate Politics in Organizations	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
An Overview of the Assessing Power in Organization's Indicators and Methods	<a href="https://ijsem.org/downloads/vol9-si-2s.pdf">https://ijsem.org/downloads/vol9-si-2s.pdf</a>
Enzyme Taxonomy and Nomenclature for Biocatalysts	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
Coenzymes and their Functions	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
Protein, Carbohydrate, Lipid, and Nucleic Acid Metabolic Pathways	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
Gluconeogenesis Glucose Biosynthesis	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
An Overview Essential and Non-Essential Amino Acids	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
An Overview of the Physiology of the Nervous System	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
Different Types of Central and Peripheral Reflexes in the Mammalian Nervous System	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
Physiology of the Receptor System	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
In the Retina, Functional Architecture and Sensory Processing	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
Olfactory Sensory Cell Anatomy	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
Regulation Of Breathing, Movement of Oxygen and Carbon Dioxide, And Mechanisms Underlying Respiration	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
An Overview of the Abiotic Stress and Environmental Stress	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
Immunity's Ontogeny, Phylogeny, and Innate and Acquired Components	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
The Growth and Production of Hematopoietic Stem Cells	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
Immune System Reactions, Superantigens and their Nature, Influences on Immunogenicity	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
Overview of Immunity Mediated by Cells	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
Damaging Effects of the Immune Response	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
Antigen-Antibody Interactions In Vivo And In Vitro, Antibody Structure, And the Complement System	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
Mouse Major Histocompatibility Complex and the human HLA system	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>

T-cell and B-cell Production, Activation and Differentiation; Ig-gene Organization and Expression; Cytokine	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
B-lymphocyte Production, Activation, and Differentiation	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
Tolerance, Hypersensitivity, and Infection-fighting Immunity	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
An Overview of the Type I Hypersensitivity's Mechanism	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
An Overview of the Effector Immune System Systems, both Innate and Adaptive	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
Antigen-antibody interaction-based methods Structure of Unit	<a href="https://ijsem.org/downloads/vol9-si-3s.pdf">https://ijsem.org/downloads/vol9-si-3s.pdf</a>
Introduction to Organic Agriculture	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
Factors to Consider Switching to Organic Agriculture	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
Transformation to Organic Agriculture	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
An Overview on Organic Agriculture Mulching	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
Water Management in Organic Agriculture	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
Crop Planning and Management in Organic Agriculture	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
The Management of Nutrients in Organic Agriculture	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
Pest and Disease Management in Organic Agriculture: Sustainable Approaches for Crop Protection	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
Weed Management in Organic Agriculture	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
Tillage and Soil Development in Organic Agriculture: Balancing Conservation and Productivity	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
Plant Propagation in Organic Agriculture	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
Animal Husbandry in Organic Agriculture	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
Organic Agriculture as a Solution to Climate Change: Mitigating Environmental Impacts and Promoting Sustainable Food Systems	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
Fundamentals of Organic Agriculture: Past and Present	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
Soil Health Management in Organic Farming	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
Environmental Impacts of Organic Farming: A Comprehensive Assessment	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>

Social Responsibility in Organic Agriculture: Fostering Learning, Collaboration, and Effective Regulation	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
Research to Support the Development of Organic Food and Farming: Advancing Sustainability and Innovation	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
Pest and Disease Control Strategies in Organic Fruit Production: Balancing Effectiveness and Sustainability	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
Biochar in Organic Farming: Enhancing Soil Health and Sustainable Crop Production	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>
Organic Farming in Protecting Water Quality: A Sustainable Approach for Environmental Conservation	<a href="https://ijsem.org/downloads/vol9-si-4s.pdf">https://ijsem.org/downloads/vol9-si-4s.pdf</a>

Ecological Succession and Climax	<a href="https://ijsem.org/downloads/vol9-si-7s.pdf">https://ijsem.org/downloads/vol9-si-7s.pdf</a>
Fundamentals of Adaptation in Ecology	<a href="https://ijsem.org/downloads/vol9-si-7s.pdf">https://ijsem.org/downloads/vol9-si-7s.pdf</a>
Environmental Issues, Energy Interactions, and Sustainable Solutions	<a href="https://ijsem.org/downloads/vol9-si-7s.pdf">https://ijsem.org/downloads/vol9-si-7s.pdf</a>
Concepts and Updates in Ecology	<a href="https://ijsem.org/downloads/vol9-si-7s.pdf">https://ijsem.org/downloads/vol9-si-7s.pdf</a>
An overview of Biogeography	<a href="https://ijsem.org/downloads/vol9-si-7s.pdf">https://ijsem.org/downloads/vol9-si-7s.pdf</a>
An Evaluation Study on Microbial Biogeography	<a href="https://ijsem.org/downloads/vol9-si-7s.pdf">https://ijsem.org/downloads/vol9-si-7s.pdf</a>
Ecological Succession in a Changing World	<a href="https://ijsem.org/downloads/vol9-si-7s.pdf">https://ijsem.org/downloads/vol9-si-7s.pdf</a>
Birds in Solar Parks and Ecological Succession Theory	<a href="https://ijsem.org/downloads/vol9-si-7s.pdf">https://ijsem.org/downloads/vol9-si-7s.pdf</a>
A Brief Introduction to Municipal Solid Waste	<a href="https://ijsem.org/downloads/vol9-si-7s.pdf">https://ijsem.org/downloads/vol9-si-7s.pdf</a>
Challenges and Opportunities in Waste Management	<a href="https://ijsem.org/downloads/vol9-si-7s.pdf">https://ijsem.org/downloads/vol9-si-7s.pdf</a>

An Investigation on Soil Physicochemical Properties Impacted by Municipal Solid Waste	<a href="https://ijsem.org/downloads/vol9-si-7s.pdf">https://ijsem.org/downloads/vol9-si-7s.pdf</a>
An Evaluation of Soil Pollution on Trailing Sites of Municipal Solid Waste Dumping Points	<a href="https://ijsem.org/downloads/vol9-si-7s.pdf">https://ijsem.org/downloads/vol9-si-7s.pdf</a>
An overview of Climate Change Mitigation, Sustainability Challenges, and Renewable Energy Resources	<a href="https://ijsem.org/downloads/vol9-si-7s.pdf">https://ijsem.org/downloads/vol9-si-7s.pdf</a>
Powering a Safer Future with Renewable Energy	<a href="https://ijsem.org/downloads/vol9-si-7s.pdf">https://ijsem.org/downloads/vol9-si-7s.pdf</a>
A Brief Introduction of Political Science	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
Historical Background of Political Science	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
Evolution of Political Science in World	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
An Overview of the Comparative Politics	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
Political Science: The Cold War Era	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
End of Bipolarity in the Political Science History	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
Alternative Centers of Power in the International Politics	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
An International Organization; History their Function and Expansion	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
A Brief Overview of the Security in Contemporary World	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
Importance of the Environment and Natural Resources	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
Globalization; The Process of Contact and Integration Among People, Businesses, and Governments	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
An Overview on Challenges of Nation Building	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
A Brief Overview on Era of One-Party Dominance	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
A Brief Overview on the Politics of Planned Development	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
A Brief Overview of India's External Relations	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
Challenges and Restoration of the Congress System	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
An Overview of the Crisis of Democratic Order	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
Characteristics of Popular Movements in Indian History	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>

A Brief Discussion of the Regional Aspirations in World	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
Recent Developments in Indian Politics	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
Majoritarianism Is a Political Theory	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
Democracy, Hypothesis, Characteristics and Role in the Politics	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
Economic Democracy; Their Characteristics and Role in the Political Science	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
Career Options in Political Science	<a href="https://ijsem.org/downloads/vol9-si-8s.pdf">https://ijsem.org/downloads/vol9-si-8s.pdf</a>
An Overview of Historical Trends and Patterns in Media Management	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Overview of the Media Management in the 21st Century	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Elaboration of the Historical Trends and Patterns in Media Economics	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Elaboration of the Theoretical Approaches in Media Management	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Overview of the Technology, Innovation, And Creativity in Media Management	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Overview of the Paradigms and Analytical Frameworks in Modern Economics and Media Economics	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Elaboration of the Post-Neoclassical Additions to the I/O Toolkit	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Analysis of Regulatory and Political Influences on Media Management and Economics	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Analysis of Policymakers' Views of Political Feasibility	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Analysis of Issues in Human Relations Management	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Overview of the Contemporary Media Management Environment	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Overview of the Issues in Financial Management	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Analysis of the Issues in Strategic Management	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Analysis of the Issues in Strategic Management	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Elaboration of Issues in Media Product Management	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>

An Overview of the Challenges of Assessing Quality and Price in Media Products	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Overview of the Issues in Transnational Media Management	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Overview of the Transnational Media and Global Competition	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Analysis of the Problems in Marketing and Branding	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Elaboration of The Psychology Versus Behavior Dilemma in Branding	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Analysis of Issues in Media Management and Technology	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Elaboration the Framework of New Media Adoption by Media Firms	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Analysis of the Concern between in Media Management and the Public Interest	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Overview of the Analyzing Key Management Issues in the Media Industry	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
An Overview of the Evolution of Media Industries Changing Market Structure and Firm Dynamics	<a href="https://ijereee.com/downloads/vol9-si-2s.pdf">https://ijereee.com/downloads/vol9-si-2s.pdf</a>
Introduction to Measuring Instrument	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Effect of Errors in Measurement	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Introduction to Permanent Magnet Moving Coil (PMMC)	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Introduction to Moving Iron Instrument	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Electrodynamic Instruments	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
A Study on Potentiometer in Industrial Instrumentation	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Introduction to D.C. Crompton's potentiometer	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Introduction to AC potentiometers	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
A Brief Discussion on Current Transformers	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
A Brief Discussion on Potential Transformers	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Classification of Thermometers	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Elaborate the Expansion thermometers	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Describe the Resistance Thermometer	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Thermocouple and Thermistor	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>

A Study on Pyrometers	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Measurement of Pressure	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Measurement of Flow	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Measurement of Level	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Measurement of Speed	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Measurement of Force	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Measurement of Acceleration	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Measurement of Density and Viscosity	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Measurement of Humidity	<a href="https://ijereee.com/downloads/vol9-si-1s.pdf">https://ijereee.com/downloads/vol9-si-1s.pdf</a>
Nature and Scope of Sociology	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
Sociology and Its Relation with Other Social Sciences	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
Basic Concepts of Applied Sociology	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
Association and Groups in Society	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
A Brief Discussion on Social Institutions	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
An Overview on Socialization	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
A Study on Social Stratification	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
Theories: Fundamental, Marxism and Weberian	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
An Overview on Social Change	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
Progress and Development	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
Factors of Social Change	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
A Brief Discussion on Theories of Social Change	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
Unraveling the Complexities: Understanding Social Problems and Pathways to Solutions	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
Governmental Efforts and Policies in the Treatment of Alcoholism	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
An Overview on Unemployment	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
A Study on Crime and Delinquency	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
Measures Pertaining to Violence against Women	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
Society in India: Unity in Diversity	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
An overview on Caste and Occupations	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
The Structure and Composition of Indian Society	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
Structure and Composition of Indian Society	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
Basic Institutions of Indian Society	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
Changing Nature of the Joint Family System and the Causes of Change	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
An overview on Religion	<a href="https://ijereee.com/downloads/vol9-si-3s.pdf">https://ijereee.com/downloads/vol9-si-3s.pdf</a>
An Overview of Rural Power Structure: Unveiling Dynamics and Implications	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
An Overview of Dominant Caste: Unraveling Influence, Privilege, and Social Dynamics	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>

Problems of Indian Society: Unveiling Challenges and Paths to Progress	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
The Sociology of Future lessness: Exploring the Social Dimensions of a Diminished Sense of the Future	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
A Fundamental Study on Gender Inequality	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
An Overview on Human Trafficking	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
Incidence of Communal Violence and Riots	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
Developmental Concerns: Development-Induced Displacement	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
Ecological Degradation and Climate Change: Understanding Interconnections and Urgent Imperatives	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
Solid Waste Management: Challenges, Strategies, and Sustainable Practices	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
Climate Change and Global Warming: Impacts, Causes, and Mitigation Strategies	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
Transformation of Indian Society: Dynamics, Challenges, and Opportunities	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
An Overview on Urbanization Trends under British Control	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
Modernization: Evolution, Implications and Societal Transformations	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
Understanding Social Research: Methods, Approaches and Significance	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
Qualitative and Quantitative Research: Approaches, Comparisons, and Complementary Perspectives	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
Hypothesis: Conceptualization and Formulation of Research Hypotheses	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
Scientific Study of Social Phenomena: Methods, Approaches, and Contributions	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
Types of Research: Exploring Basic, Applied, and Empirical Research	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
Descriptive Research: Exploring Phenomena, Patterns, and Characteristics	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
Exploring the Advantages and Disadvantages of Observation as a Research Method	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
The Sociology of the Future: Tracing Stories of Technology and Time	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
Education Sociology for a Sustainable Future: Understanding the Dynamics and Implications	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
The Future as a Social Fact: Analyzing Perceptions of the Future in Sociology	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>
The Importance of Sociological Engagement in Public Policy	<a href="https://ijereee.com/downloads/vol9-si-4s.pdf">https://ijereee.com/downloads/vol9-si-4s.pdf</a>

An Overview of Management Role	<a href="https://ijereee.com/downloads/vol9-si-5s.pdf">https://ijereee.com/downloads/vol9-si-5s.pdf</a>
A Study on Role of Manager	<a href="https://ijereee.com/downloads/vol9-si-5s.pdf">https://ijereee.com/downloads/vol9-si-5s.pdf</a>
Discussion on Management Environment	<a href="https://ijereee.com/downloads/vol9-si-5s.pdf">https://ijereee.com/downloads/vol9-si-5s.pdf</a>
Demand and Supply Conditions	<a href="https://ijereee.com/downloads/vol9-si-5s.pdf">https://ijereee.com/downloads/vol9-si-5s.pdf</a>

Introduction to Internal Combustion Engine	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Application and Working Operation of Two Stroke Engine	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Application, Advantage and Disadvantage of IC Engine	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Introduction of Fuel and Its Types	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Air-Standard Cycles and Their Analysis	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Working Principle and Historical Design of IC Engine	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Fuel–Air Cycles and Their Analysis	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Actual Cycles and Their Analysis	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Introduction about Conventional Fuels and Its Significance	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
A Basic Approach on Alternate Fuels	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Application, Advantages and Disadvantages of Liquid Fuel	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Biodiesel Properties, Advantages and Effect on Environment	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
An Introduction about Gaseous Fuel and its Significance	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Carburetion and Principle of Carburetion	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Working Operation of Simple Carburetor and Its Advantages	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Introduction to Compensation Technologies and Some Components	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Application and Working Operation of Economizer	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Application of Mechanical Injection Systems	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
An Introduction to Electronic Injection Systems in IC Engine	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
A Brief Introduction on Ignition System	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
An Overview on Spark Plug Used to Operate Engine	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Application and Advantages of Battery Ignition System	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Application of Magneto Ignition System	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>

Centrifugal and Vacuum Advance Mechanism	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
A Brief Overview about Homogeneous Mixture	<a href="https://ijermce.com/downloads/vol9-si-1s.pdf">https://ijermce.com/downloads/vol9-si-1s.pdf</a>
Features of Voltage, Current and Resistance	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Application of Ohm's Law, Energy, and Power	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
A Brief Introduction about Series Circuits and their Application	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Parallel Circuits Features and its Applications	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Direct Current and Transient Circuit Analysis	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
A Brief Discussion about Transistor Operation and Modeling	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Practical Application of the Laplace Transforms	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Frequency Response and Bode Diagrams	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Applications of the Semiconductor Diode	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Applications of Bipolar Junction Transistor	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
The Features of Field Effect Transistors	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Noise Analysis and Mitigation in Semiconductor Devices	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Basic Physical Phenomena Used in Sensors	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Application of the Microelectromechanical Systems Devices	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Applications of the MEMS Technologies	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
A Brief Overview about Transistors in Switching Circuits	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Utilizing Transistors for Amplification in Circuit Design	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
A Simplistic Approach to the Analysis of Transistor Amplifiers	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Impact of Analog and Digital VLSI Design	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Combinational Logic Design in Digital Circuitry	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Sequential Logic Design in Digital Circuitry	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Applications of the Signal Processing	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Applications of the Analog Filter Synthesis	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Practical Applications of the Electromagnetic Fields	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
Applications of the Quantities and Units	<a href="https://ijerece.com/downloads/vol9-si-1s.pdf">https://ijerece.com/downloads/vol9-si-1s.pdf</a>
A Brief Discussion on Introduction of Electronics	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
Principle of Electron Emission	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
Theory of Gas-Filled Tubes	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>

Study of Atomic Structure	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
Overview of Semiconductor Physics	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
Study of Special Purpose Diodes	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
Power Semiconductor Diodes and Transistors	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
Overview of Transistor Biasing	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
A Brief Introduction on Power Diode	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
Single Stage Transistor Amplifiers	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
Basic Structure and Operation of Power Bipolar Transistor	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
Power MOSFET and Switching in Electronic Circuit	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
Overview of Diode Rectifiers	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
A Brief Discussion on Three-Phase Rectifier	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
Voltage Source Inverter (VSI)	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
A Brief Discussion on Current Source Converter	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
A Brief Introduction on AC-AC Converters	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
A Study on Power Factor Correction Circuit	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
Theory of Modulation and Demodulation	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
Overview of Capacitor Charging Applications	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
A Study on Importance of Power Supplies	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
Study of Automotive Applications of Electronics	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
A Study on Flexible AC Transmission System	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
Study of Electronics for Renewable Energy Sources	<a href="https://ijerece.com/downloads/vol9-si-2s.pdf">https://ijerece.com/downloads/vol9-si-2s.pdf</a>
Nondestructive Evaluation of Metallic Dislocations using Eddy Currents	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Materials, Manufacturing Processes, and Defects	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Applications of Equipment for Magnetic Particle Inspection	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Practical Applications of Radiographic Testing in Industry	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Application of the Product Radiographs in Manufacturing	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Understanding the Visual Methods and its Applications	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Evaluating Test Results: Practical Applications and Analysis	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Application of the Eddy Current Testing	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Training, Qualification and Certification of Ndt Personnel	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>

Sources of Information in Non-destructive Testing (Ndt)	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Organization and Administration of Nondestructive Testing	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Application of the Squid Based Non-destructive Evaluation	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Current Technologies: NDT Applications in Dental Biomaterials	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Neutron Radiography: Fundamentals and Practical Applications	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Flaw Simulation in Product Radiographs	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Magnetic Adaptive Testing: Applications and Advantages	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Elastic Waves: Assessing Concrete Deterioration and Repair	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Applications of the Universal Testing Machine	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Unveiling the Technology Behind NDT Methods	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Exploring the Application of Ultrasonic Testing	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Non-Destructive Testing: Ensuring Quality Assurance and Reliability	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
A Brief Introduction about the Universal Testing Machine	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Application of the Human Factors Non-Distractive Testing	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Crucial Role: Codes and Standards in Nondestructive Testing	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Market's Current Use of Renewable Energy Technologies	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
History of Resource-Based Energy Flows	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
Application and Advantages of Solar Energy	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
An Introduction to Thermal Energy and Its Application	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
Principles Operation of Renewable Energy	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
A Basic Approach on Essentials of Fluid Dynamics	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
An Introduction to Heat Transfer and Its Significant	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
Introduction to Solar Radiation and Its Application	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
Application of Solar Radiation and Its Advantages	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
A Brief Overview on Solar Water Heater	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
Structures and Additional Solar Thermal Application	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>

Solar Ponds: Application, Advantages and Disadvantages	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
A Brief Introduction about Solar Photovoltaic	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
An Overview on Solar Panel System	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
Introduction about the Hydro Power System	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
Application and Advantages of Tidal Energy	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
Application, Advantages and Future Scope of the Mechanical Energy	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
Scientific Use, Units of Measure of Energy	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
Brief Introduction about Wind Power and Its Application	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
Introduction About Electricity Generation and Its Application	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
Overview about Photosynthesis and Its Analysis	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
Industrial Application of Biomass and Biofuels	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
Application of the Vegetable Oils and Biodiesel	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
Introduction of Wave Power and Its Application	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
A Brief Introduction about Ocean Thermal Energy Conversion	<a href="https://ijerece.com/downloads/vol9-si-4s.pdf">https://ijerece.com/downloads/vol9-si-4s.pdf</a>
Brief Introduction on Security Engineering	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
Understanding Usability and Psychology	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
A Brief Study on System Issues and CAPTCHAs	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
Brief Discussion on Protocols	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
A Brief Discussion on Evaluation of Access Control	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
Brief Analysis of Cryptography	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
Discussion on Distributed Systems	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
A Discussion on the Aspects of Economics	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
Concepts of Multilevel Security	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
Discussion on Multilateral Security	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
A Brief Discussion on Banking and Bookkeeping	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
Evaluation of Physical Protection	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
Brief Discussion on Monitoring and Metering	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
A Brief Discussion on Nuclear Demand and Control	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
Brief Discussion on Biometrics	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
Physical Tamper Resistance	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>

Application Programming Interface Security	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
A Study on Security Printing and Seals	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
Electronic and Information Warfare	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
Brief Discussion on Emission Security	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
Network Attack and Defence	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
A Brief Study on Telecom System Security	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
Managing the Development of Secure Systems	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
System Evaluation and Assurance	<a href="https://ijercse.com/downloads/vol9-si-3s.pdf">https://ijercse.com/downloads/vol9-si-3s.pdf</a>
An Overview of Cyber Threats Cape	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Overview of the Organizations Defend Cyber Security	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Analysis of Computer Controlled Infrastructure for Cyber Security	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Introduction to Cyber Doctrine	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Overview of the Doctrine and its Strategy from Around the World	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Overview of Some Key Military Principles that Must be Adapted to Cyber Warfare	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Elaboration of Tools and Techniques for Cyber Warfare	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Introduction of SCADA to Cyber Security	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Overview of the Physical Denial of Service Attack SCADA	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Analysis of Computer Network Exploitation and Procedures Information	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Introduction to Computer Network Attack	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Elaboration of Psychological Weapons	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Elaboration of the Military Approaches Social Engineering	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Elaboration of the Surveillance, Data Mining, and Pattern Matching in Cyber Security	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Analysis of Challenges in Cyber Security	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Overview of Identity Access Management in Cyber Security	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Overview of the Interrelationship of Cyber Security Issues	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Introduction to Cyber Warfare Headed in Cyber Security	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>

An Introduction to Action Threats and Challenges in Cyber Warfare	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Overview of the Strategic Problem and Strategic Solution in Cyber Warfare	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Elaboration of the Cyber Space	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Elaboration of the Cyber Crime	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Overview of the Cyber Security Techniques	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Elaboration of Some Recent Cyber Security Attacks	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
An Overview of Configuring Firewall on Mac Computer	<a href="https://ijercse.com/downloads/vol9-si-1s.pdf">https://ijercse.com/downloads/vol9-si-1s.pdf</a>
A Study on Web and Internet	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Static and Dynamic Web Sites	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Web Hosting, Issues and Accessibility	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Web Text Composing and Shaping	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Creating and Using Art on the Web	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Basics of Hyper Text Markup Language (HTML)	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Tags and Attributes in HTML	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
A Brief Discussion on Table Structure	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Introducing Concept and Content of Web Design	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Linking Websites and its Types	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Elements and Principles of Design	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Website Creation and Management Tools	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Internet Connectivity and Server Space	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Discussion on Browsers and Web Extras	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Building a Case for Planning to Design a Web Page	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Getting to Know Your Audience and Drawing the Blue Prints for Site	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Gathering Suppliers and Preparing to Build Website	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Intensive Web Designing with Word and XML	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
A Brief Overview on XML, MSXML, XSLT	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Planning Word Website and Creating Main Templates	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Adding Basic Content on Websites	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Brief Introduction on Working with XML data	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Discussion on Web Hosting Steps	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>
Overview of Website Updating and Web Archiving	<a href="https://ijercse.com/downloads/vol9-si-2s.pdf">https://ijercse.com/downloads/vol9-si-2s.pdf</a>

A Brief Discussion on Natural Language Processing	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
Overview of Basic Regular Expressions	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
Aspects and Uses of Text Normalization	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
Evaluating Language Models	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
Role of the Evaluating Language Models in Natural Language Processing	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
Discussing Aspects and Types of Smoothing	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
Naive Bayes Classifiers	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
A Brief Discussion on Statistical Testing	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
A Study on Logistic Regression	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
Importance of Vector Semantics	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
Lexical Semantics and Its Important Aspects	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
Analysis of Neural Networks	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
Linguistic Applications of Classification	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
Learning without Supervision	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
A Study on Semi-Supervised Learning	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
Other Approaches to Learning with Latent Variables	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
A Brief Discussion on Sequence Labeling	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
Discriminative Sequence Labeling with Features	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
Neural Sequence Labeling and its Types	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
A Brief Discussion on Unsupervised Sequence Labeling	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
Applications of Sequence Labeling	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
A Description of Regular Languages	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
A Discussion on Finite State Transducers	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
Role of the Machine Translation in Natural Language Processing	<a href="https://ijercse.com/downloads/vol9-si-4s.pdf">https://ijercse.com/downloads/vol9-si-4s.pdf</a>
Introduction of Amazon Web Services	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Features and Infrastructure of AWS	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Cloud Computing and their Importance	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Pay-As-You-Go (PAYG) Cloud Computing and their Functions	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Amazon Multi-Factor Authentication Function	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Basics Concept of Amazon S3	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Amazon Glacier and AWS Snowball	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Amazon Elastic Block Store (EBS)	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Amazon Elastic Compute Cloud (EC2)	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Basics Features of the Amazon Lambda	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Elastic Beanstalk and Amazon Light Sail	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
A Brief Overview of the Database Services	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
A Brief Introduction to Amazon Elastic Ache	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>

Basic Concepts of Amazon Redshift	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Networking and Content Delivery Services	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Amazon Web Services Cloud Front	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Amazon Cloud Watch Management Services	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Importance of the Amazon Cloud Formation	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Amazon Identity Access Management (IAM)	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
A Brief Discussion to Amazon Amplify	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Amazon Simple Queue Service and Simple Notification Service	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Development of the Amazon Cognition Service	<a href="https://ijercse.com/downloads/vol9-si-5s.pdf">https://ijercse.com/downloads/vol9-si-5s.pdf</a>
Characteristics of Indian Culture, Significance of Geography on Indian Culture	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
A Fundamental Study on Characteristics of Indian culture	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
Indian Culture: Religious Factors	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
Family and Marriage in India, Position of Women in Ancient India, Contemporary Period; Caste System and Communalism	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
An overview on Origin of Caste in India	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
An Overview on Purpose of Samskaras	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
Joint Family: Characteristics of a Joint Family	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
An Overview on the Marriage in India	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
Position of Women in Indian Society	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
An Overview on Communalism	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
Pre-Vedic and Vedic Religion, Buddhism Jainism, Indian Philosophy-Vedanta and Mimamsa School of Philosophy	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
Heterodox Religious Order in Ancient India	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
Buddhism: Gautama Buddha (566 to 486 BC): His life	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
An overview on Philosophy in Ancient India	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
Evolution of Script and Languages in India: Harappan Script and Brahmi Script	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
An overview on Origin of Brahmi script	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
Vedas Epics: Ramayana, Mahabharata & Puranas	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
A Study on Sruta-Sutras, Grhya-Sutras, and Dharma-Sutras	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
An Overview on the Mahabharata	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
History of Buddhist and Jain Literature: Pali, Prakrit and Sanskrit, Sangama Literature & Odia Literature	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>

Gandhara School, Mathura School of Art; Architecture: Hindu Temple Architecture, Medieval Architecture and Colonial Architecture	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
Indian Painting Tradition: Ancient, Medieval, Modern Indian Painting and Odishan Painting Tradition	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
An Overview on Divisions of Indian Classical Music	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
A fundamental study of Drama: Indian Theatre	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
Modes of Cultural Exchange: Through Traders, Teachers, Emissaries, Missionaries and Gypsies	<a href="https://ijercse.com/downloads/vol9-si-7s.pdf">https://ijercse.com/downloads/vol9-si-7s.pdf</a>
An Elaboration of the Foundations of Business	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Overview of the Relation of the Business and Economics	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Elaboration of the International Business	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Elaboration of the International Business Approaches	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Overview of the Theories of International Trade	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Analysis of the International Finance Facility	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Overview of the Cultural and Social Environment	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Overview of the Language and Culture in India's Foreign Policy	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Elaboration of Monopolistic Competition, Oligopoly and Monopoly	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Overview of the Technological Management	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Overview of the Political and Economic Environment	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Elaboration of the Factors affecting Global Business	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Overview of the Need for Government Intervention in Business	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Overview of the Ethics and Social Responsibility in International Business	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Overview of the Corporate Social Responsibility	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Overview of the Modes of Entering International Business	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Elaboration of the Strategic Alliances in International Business	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>

An Overview of the Foreign Direct Investment	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Overview of the International Financial Institutions	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
An Elaboration of the World Bank and Its Management	<a href="https://ijercse.com/downloads/vol9-si-8s.pdf">https://ijercse.com/downloads/vol9-si-8s.pdf</a>
A Brief Introduction on Communication	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Analysis of Nonverbal Interaction	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Analysis of Business Communication	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
A Study on Viewpoint of "Corporate Communication"	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Brief Introduction on Corporate Reputation and Communication	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
A Study on Identity and Identification Creation	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Describe the Measurement of Company Identity	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Sharing Information with The Corporate Brand Associations of Organizations	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Creating a Reputation Management Platform	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
A Brief Study on Displaying the Company	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Importance of Communicating with Shareholders	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Improving Customer Relationships: The Use of Experience Marketing	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Evaluation of Corporate Communication	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Analyzing Corporate Reputation	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Organizational Structures for Corporate Communication	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Overcoming Specialization and Fragmentation	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Using Language in the Digital Workplace	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Communication Technology, Social Media and Cross-Cultural Communication	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Making Plans for Business Messages	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Putting Together and Creating Business Messages	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Communications in the Workplace and Digital Media	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
A Brief Discussion on Blogging for Business	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Understanding Persuasion in the Digital Age	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
A Brief Discussion on Newsgathering in the Digital Age	<a href="https://ijerece.com/downloads/vol9-si-7s.pdf">https://ijerece.com/downloads/vol9-si-7s.pdf</a>
Business Risk in Banking	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>

A Brief study on Money Laundering Risk	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
Tasks in Establishing a Control Framework	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
Fundamentals of Risk Management	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
Risk Management Systems and Processes	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
A Discussion on Risk Mitigation Techniques	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
Lack of Due Diligence in Loan Processing	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
A Study on Identification of Credit Risk	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
A Study on Credit Risk from Derivatives	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
Deciding the Loan Exit Point	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
A Brief Discussion on Credit Risk Rating Issues	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
A Study on Determination of Rating Scale	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
A Types of Rating Models	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
A Brief Study on Past Dealings Risk	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
Risk Rating and Risk Measurement Models	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
Role of Credit Risk Measurement Models	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
Establishing Credit Risk Environment	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
A Brief Discussion on Credit Risk Limits	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
A Brief Study on Credit Enhancement Method	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
A Study on Portfolio Analysis Technique	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
A Study on Market Risk Framework	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
A Study on Liquidity Risk Management	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
A Study on Ratios Between Assets and Liabilities	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
Appropriateness of Tolerance Limits	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
A Brief Discussion on Management of the Duration Gap	<a href="https://ijerece.com/downloads/vol9-si-8s.pdf">https://ijerece.com/downloads/vol9-si-8s.pdf</a>
An Introduction to Employment Law	<a href="https://ijirem.org/DOC/1-an-introduction-to-employment-law.pdf">https://ijirem.org/DOC/1-an-introduction-to-employment-law.pdf</a>
A Study on Philosophy of Labour Laws	<a href="https://ijirem.org/DOC/2-a-study-on-philosophy-of-labour-laws.pdf">https://ijirem.org/DOC/2-a-study-on-philosophy-of-labour-laws.pdf</a>

Brief Overview about Commercial Selling	<a href="https://ijirem.org/DOC/22-brief-overview-about-commercial-selling.pdf">https://ijirem.org/DOC/22-brief-overview-about-commercial-selling.pdf</a>

A Brief Overview about the Sales Profession	<a href="https://ijirem.org/DOC/23-a-brief-overview-about-the-sales-profession.pdf">https://ijirem.org/DOC/23-a-brief-overview-about-the-sales-profession.pdf</a>
Challenges in Sales Management: Problem Identification	<a href="https://ijirem.org/DOC/24-challenges-in-sales-management-problem-identification.pdf">https://ijirem.org/DOC/24-challenges-in-sales-management-problem-identification.pdf</a>
Customer Loyalty, Empowerment and Satisfaction	<a href="https://ijirem.org/DOC/25-customer-loyalty-empowerment-and-satisfaction.pdf">https://ijirem.org/DOC/25-customer-loyalty-empowerment-and-satisfaction.pdf</a>
Early Computer and Internet Technology Development	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Fundamentals of Open Technology	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview about Transport and Internet Protocol	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Managing Transmission Control Protocol Connection	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Transportation Planning Concepts	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Conditions for Traffic Engineering Systems	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
QoS Architecture-Related Outstanding Problems	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview to Traffic Jams and Protocol Management	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Introduction about Scheduling Internet Traffic	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Multi-Protocol Label Switching: Enhancing Network	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>

RSVP and LDP: Protocols for Traffic Engineering	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Significance of IP-Based Network Planning	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Measuring Performance and Traffic Analysis	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
MPLS to Achieve Service Differentiation in a Differentiated Services Network	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview about MPLS Multi-Service Networks	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
IP Routing Technology: Technologies and Routing Protocol	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Exploring Constraint-Based Routing: Enhancing Network Efficiency	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Strategies for Routing in IP Networks	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Comprehensive Analysis: Static Routing Pattern Comparison	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
IP Multiplexing on Connections with Limited Capacity	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Traffic Engineering: Policy and Inter-domain Problems	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Promoting Collaboration Through Shared Standardized Interfaces	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>

Information Base for Differentiated Services Policies	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
TCS Traffic Level Determination and Its Impacts	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Recent Advances in Internet Traffic Engineering Techniques	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
SLAs and SLs: Interconnected Service Level Relationships	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>

A Study on Components of Lathe Machine	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Introduction on Types of Melting Furnaces	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Concepts of Metal Cutting	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Principle and Methods of Milling Process	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf</a>

A Brief Study on Mold and Core Making	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf</a>
A Study on Types of Non-Ferrous Materials	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf</a>
A Discussion on Pattern and Core Making	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Plant and Shop Layout	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Methods of Powder Metallurgy Processes	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Properties and Testing of Metals	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Introduction on Shaper, Planer and Slotter Techniques	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Explanation of Sheet Metal Work	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf</a>
A Study on Types of Welding Processes	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Explanation of Fitting Process	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JULY-2022-SPECIAL-ISSUE.pdf</a>
An Overview about Human Capital Concept	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Economics Aspect: Human Capital Measurement Journey	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Measuring Human Capital for Economic and Development	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Organisational Performance Model and their Application	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>

Human Capital Value Circle and its Significance	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Relation between in HCM and Talent Management	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
A Systematic Process of Performance Management	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Formulation a Strategy: Developing a Roadmap for Success	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
HR as assets : VRIO Framework for Competitive Advantages	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Barriers To Strategic Human Resource Management	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Strategic Human Resource Management and the Global Scenario	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Global Staffing: Optimizing Resources for International Success	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Logistics of International Assignments	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Corporate Social Responsibility for Organisation	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Strategic Talent Management: A Holistic Approach for Success	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Fundamental process of Setting out the strategy	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>

Measuring HRM Effectiveness: Balancing Scorecard Metrics for Success	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview on Predictive HR analytics	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
HR Adds Value to The Firm: Human Capital for Organizational Success	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Effective Repatriation: Maximizing Employee Transition and Success	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Different Levels of strategy for Organization	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Essential Traits: Strategic Leadership's Key Characteristics	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Competition Analysis for Strategic Decision:Making	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Concept of Corporate Level Strategy	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Importance of Strategy Evaluation: Enhancing Organizational Performance	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
An Overview to Evolution of Online Journalism	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Media Convergence In-Tendencies Group	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
A Brief Introduction on Convergence Process	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>

Challenging Values: The Good Journalist Online	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Constructing Objectivity Through Transparency	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Fundamental Aspect of Personal Communication	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Journalism's Path to Professionalization Growth	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Online Journalism and Civic Life Impact	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Public Journalism to Citizen Journalism: New Era	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
New Media and the Structural Practices of Journalism	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
An Overview to New Age of New Journalism	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Maintaining Order: A Tale of Two Rebellions	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Forms of Online Journalism and Politics	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Evolution of Video Journalism: Transition Digital World	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Bridging the Gap: Toward a Typology of Cross-media News Production Processes	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>

Transformation of News Work: Labor Conditions In Journalism Changing	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Journalism and Cross-media Publishing: The Case of Greece	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Economics of Online Journalism: Digital News Industry Challenges	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Business Opportunities for Online Journalism	<a href="https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/AJMR-SPECIAL-ISSUE/2022/AJMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>

A Study to Evaluating and Building Frameworks	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JULY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Introduction on Security and Reliability	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JULY-2022-SPECIAL-ISSUE.pdf</a>

A Study on Types of Testing Codes	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JULY-2022-SPECIAL-ISSUE.pdf</a>
Concept of Deploying Codes	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JULY-2022-SPECIAL-ISSUE.pdf</a>
Investigating Systems and Secure Debugging Access	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JULY-2022-SPECIAL-ISSUE.pdf</a>
Building a Culture of Security and Reliability	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JULY-2022-SPECIAL-ISSUE.pdf</a>
Introduction of the Internet of Things (IoT)	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Study on Embedded Devices or Systems in IoT	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Technology and Protocols in IoT	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Physical Layer in OSI Model	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Data Link Layer in OSI Model	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Network Layer in OSI Model	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Transport Layer in OSI Model	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Session Layer in OSI Model	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Study on Presentation Layer in OSI Model	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Study on Application Layer in OSI Model	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Network Access Layer in TCP/IP Model	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Internet Layer in TCP/IP Model	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>

Application Layer in TCP/IP Model	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Considerations and Challenges in IoT Networking	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on IoT Ecosystem	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on M2M Communication	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Study on Applications of IoT	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Study on IoT in Housing Sector	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
IoT for Monitoring Environment	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on IoT in Healthcare	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Role of IoT in Energy and Industrial Applications	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Discussion on IoT in Urban Areas	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Study on IoT in Agriculture Sector	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Discussion on IoT – Education Applications	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Vehicle Construction and Components	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Vehicle Construction and Components	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Introduction to Engines Internal Combustion Engine	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Introduction to Engines (Based on Design)	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>

Introduction to Engines (Number of Strokes)	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Introduction to Engines(Based on Fuel Used)	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Introduction to Engines (Based on Number of Cylinders)	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Introduction to Engines (Based on Arrangement of Cylinders)	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Transmission Unit	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Study on Transmission Unit (Manual Transmission)	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Study on Transmission Unit (Automatic Transmission)	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Transmission Unit (Gearsets)	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Tyres Based on Material and Construction	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Study on Tires Based on Tread Patterns	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Suspensions	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Steering Systems	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Introduction to Machine Design: Principle and Application	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Materials and Processes: Applications and Utilization	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Load Determination: Practical Application and Analysis	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Stress, Strain, and Deflection: Understanding Mechanical Distortion	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>

Static Failure Theories: Application and Utilization	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Fatigue Failure Theories: Application and Analysis	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Surface Failure: Features, Characteristic and Application	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview about Finite Element Analysis	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Design Case Studies: Objective, Strategies and Innovation	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Mechanical System Components: Shafts, Keys, and Couplings	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview about Machine Mechanism	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Bearings and Lubrication: Enhance Machine Durability	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Rolling-Element Bearings: Structure, Operation and Applications	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Spur Gears: Applications, Utilization and Innovation	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
A Brief Introduction about the Gear Trains	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Stresses in Spur Gears: Features, Application and Analysis	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
A Brief Introduction about Helical Gears	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Bevel Gears: A Powerful Machine Components	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Spring Design: Features, Applications and Utilization	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Screws and Fasteners: An Essential Components in Machine	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>

Applications of Fasteners Screw in Manufacturing	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Applications of Weldments in Machine Design	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Dynamic Loading Effects on Welds Joints	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Applications of Clutches and Brakes in Engineering	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Theories about Fatigue Failure Mechanisms	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
An Overview of Financial Assets	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Monetary Base and Monetary Base Multiplier	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Theory of Aggregate Demand in The Traditional Classical Approach and Say's Law	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Heritage of Monetary Economics: A Review Study	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Wicksell's Re-Orientation of The Quantity Theory to Modern Macroeconomics	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Friedman's Restatement of the Quantity Theory of Money	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Money Utility Function and the Production Function	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Portfolio Selection and he Speculative Demand for Money	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Various Monetary Assets: Monetary Aggregation	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Demand Function for Money	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
The Demand Function for Money Estimation	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>

Causes of Non-Stationarity Properties	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Money Supply and Interest Rates: A Review Study	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Demand for Currency by public: A Review Study	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Exploring Central Bank Goals, Targets and Instruments	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Monetary Policy of Bank Rate: An Analysis	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Administered Interest Rates and Economic Performance	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Time Consistency of Policies: A Review Study	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Time Consistency Debate: Modern Classical Versus Keynesian Approaches	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Monetary Policy and the Macroeconomy	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Exploring Monetary Target in Macroeconomic Model	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Labor Market: A Crucial Component of The Economy	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
The Relationship Between Money Supply and Price Level	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Real Business Cycle Theory and Monetary Policy	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Dimensional Analysis and Similarity: Principle and Application	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Application of the Viscous Flow in Ducts	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Application of Flow past Immersed Bodies	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>

Potential Flow and Computational Fluid Dynamics	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Features of Compressible Flow: Applications and Analysis	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Open-Channel Flow: Design and Applications	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Industrial Application of Turbomachinery Process	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview about Dimensional Analysis and Similitude	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
External Incompressible Viscous Flow: Characteristics and analysis	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview about Fluid Mechanics	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Understanding Fluids Continuum and Kinematics	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Applications of Fundamental Fluid Mechanics Concepts	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview about Fluid Statics and its Application	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Integral Relations: Analysis of Control Volume	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview about Hydrostatics and its Application	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Laminar Unidirectional Flows: Features and Applications	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Turbulent Flow: Fundamental characteristics, and Application	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Industrial Applications of Hydrodynamic Lubrication	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Stream Filament Theory: Understanding Fluid Concepts	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>

Application of Potential Flows in Machines	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Features of Supersonic Flow in Fluid Mechanics	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Creeping Flows: Concept of Low Reynolds Fluid	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Differential Relations for a Fluid Particle	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Boundary Layer Theory: Application and Utilization	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Basic Introduction to Properties of Materials	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Ferrous Materials and Its Importance	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Introduction about Non-Ferrous Metals and Alloys	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Modern Metal Casting: Application and Utilization	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Forging Process and its Advantages, Application	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Rolling Process: Applications, Advantages and Innovation	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Extrusion, Wire Drawing, Tube Drawing and Making Process	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Press Work and Die Punch Assembly	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Application and Advantages of Casting Process	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Lathe Machine and its Versatile Application	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Working Principles: Shapers and Planers	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>

Introduction about Drill Machine and its Application	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
The Milling Process: Features and Applications	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Requirement and Advantages of Grinding Wheel	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Introduction to Welding: Basics and Processes	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Gas Metal Arc Welding and Its Function	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Arc Welding Process and Power Supply	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Importance of Materials and Manufacturing Technique	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Introduction about Non-Metallic Materials	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview about the Manufacturing Process	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Understanding the Crystal Structure and Materials Nature	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Materials Properties and Testing Applications	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Rockwell Hardness Test: Procedure and Application	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
EXPLORING THE MANUFACTURING SCIENCE TECHNOLOGY	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Brinell Hardness Testing: Principles and Applications	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-MAY-2022-SPECIAL-ISSUE.pdf</a>
Consumer Behavior and Marketing Action	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Consumer Decision Making Process	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>

A Study on Black Box of Buyer Behavior	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
A Study on Subcultures and Consumer Behavior	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Consumer-Relevant Groups	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Structural Variables Affecting Families and Households	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Opinion Leadership and Diffusion of Innovations	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Role of Personal Influence in Consumer Behaviour	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Price/Quality Relationship for Perceived Quality	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Involvement Theory for Consumer Engagement	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
A Brief Discussion on Cognitive Dissonance Theory	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Visualizers versus Verbalizers	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Developing a Target Market Strategy	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Store Choice and Shopping Behavior	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Global Consumer Behavior and On-Line Buying Behavior	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Consumer Perceptions in Service Sector	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Measure the Attitude of the Customers in the Customer Intelligence System	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Concept of Ethical Purchasing	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>

A Study on Principles of Strategic Marketing	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
A Study on Create and Retain Customers Though Online Stores	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Consumer Research Structure	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
A Study on Structure Consumer Psychographic	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Consumer Attitude Structure for Marketer	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Measurement of Attitude	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
A Study on Characteristics of Social Class	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Renewable Energy: Applications and Features	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Scientific Principles of Renewable Energy	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Physical Properties: Essential of Fluid Dynamics	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Heat Transfer: Fundamentals, Mechanisms, and Applications	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Convection and Radiation: Mode of Heat Transfer	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Applications and Analysis Techniques of Heat Transfer	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Solar Radiation: Measurement, Modeling, and Applications	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Solar Water Heating: Application of Renewable Energy Technology	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Building and other Solar Thermal Applications	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>

Photovoltaic Generation:Traditional Energy Sources	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Hydro-Power: Principles, Technologies, and Environmental Impacts	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Hydroelectric System: Design, Operation, and Power Generation	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Wind Power : Renewable Energy from the Wind	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Photosynthetic Process: Source for Renewable Energy Production	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A brief introduction about Plant Biomass	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Biofuels: Production, Conversion, and Sustainability	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Anaerobic Digestion for Biogas:Source of Energy	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Wave Power:Energy Utilization from Ocean	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Tide Power Harvesting for Renewable Electricity Generation	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Geothermal Energy:Harvesting Energy From Earth	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Energy Systems, Storage and Transmission	<a href="https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/01/AJRSSH-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Institutional and Economic Factors of Renewable Energy	<a href="https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf</a>
A Brief Introduction of Electrical Machines	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Fundamentals of Magnetic Circuit Analysis: Key Concepts	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Principle of Electromagnetic: Understanding Induced Currents	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>

Transformer Theory: Principle and Operations	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Working Principle of Single-Phase Transformer	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Overview of Three Phase Transformer	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Basics Principles of Electromechanical Conversion	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Basic Concepts in Rotating Machines	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
AC Armature Windings: Design and Analysis Techniques	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
DC Machines: Theory, Construction, and Operation	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Overview of DC Generators and Its Functions	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Classification of Direct Current Motors	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Synchronous Machine: Theory, Modeling, and Applications	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Synchronous Generator and Alternator: A Brief Overview	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Synchronous Motor: Theory, Modeling, and Applications	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Specialization Induction Machine: Principles, Design, and Analysis	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Study of Induction Motors: Principle and Applications	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Starting and Speed Control of Three-Phase Induction Motor	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Generalized Theory of Electrical Machines	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>

Overview of Electrical Energy Generation	<a href="https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/02/AJRSSH-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Motor Control by Static Power Converter	<a href="https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Uninterruptible Power Supplies for Electrical Machines	<a href="https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Interphase Power Control of Electrical Machines	<a href="https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Transient Stability of Electrical Machines	<a href="https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Understanding and Evaluating Mass Communication Theory	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf</a>
Critical Theory: Cultural Structures of power and Oppression	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Evolution: Four Eras of Media Theory	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf</a>
Rise of Media Industries and Mass Society Theory	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf</a>
Media Criticism: Unlocking the Mass Society Debate	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf</a>
Understanding the Relationship Between Mass Communication and Society	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf</a>
Media Theory: Propaganda in Contemporary Times	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf</a>
Walter Lippmann: Shaping Public Opinion Theory	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf</a>
The Genesis of Normative Media Theories	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf</a>
The Social Responsibility Theory: Media's Ethical Obligations	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf</a>
Development of Limited-Effects Theory in Media Studies	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf</a>

Exploring Subtheories of Limited Effects in Media	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf</a>
Limitations of the Experimental Persuasion Research	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf</a>
Joseph Klapper's Phenomenistic Theory: Understanding Media Influence	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf</a>
Analyzing Communication: Systems Theory and Processes	<a href="https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/2022/ACADEMICIA-OCTOBER-2022-SPECIAL-ISSUE.pdf</a>
An overview on Television Violence Theories	<a href="https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Mass Communication: Understanding Critical and Cultural Theories	<a href="https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Textual Analysis and Literary Criticism: Media Interpretation	<a href="https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Political Economy Theory: Examining Media and Power	<a href="https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Audience Theories: Uses, Reception, and Effects	<a href="https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Media Functions and Uses: Exploring Communication Impact	<a href="https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Uses-and-Gratifications: Understanding Audience Media Consumption	<a href="https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Processing Television News: Understanding Media Information	<a href="https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf">https://aijsh.com/wp-content/uploads/2022/03/AJRSSH-MARCH-2022-SPECIAL-ISSUE.pdf</a>

Starting of DC Motors	<a href="http://alexispress.us/wp-content/uploads/2022/07/Magnetic-Circuits.pdf">http://alexispress.us/wp-content/uploads/2022/07/Magnetic-Circuits.pdf</a>

Electrical Braking of DC Motors	<a href="http://alexispress.us/wp-content/uploads/2022/07/Magnetic-Circuits.pdf">http://alexispress.us/wp-content/uploads/2022/07/Magnetic-Circuits.pdf</a>
Analysis the use of Static relays to protect the electricity system	<a href="http://alexispress.us/wp-content/uploads/2022/07/An-Archive-of-Switchgear-and-Relaying.pdf">http://alexispress.us/wp-content/uploads/2022/07/An-Archive-of-Switchgear-and-Relaying.pdf</a>
Review Paper on Protection of Feeder using Relay Methods	<a href="http://alexispress.us/wp-content/uploads/2022/07/An-Archive-of-Switchgear-and-Relaying.pdf">http://alexispress.us/wp-content/uploads/2022/07/An-Archive-of-Switchgear-and-Relaying.pdf</a>
Studying the Dynamic Properties of the Electromagnetic Relay	<a href="http://alexispress.us/wp-content/uploads/2022/07/An-Archive-of-Switchgear-and-Relaying.pdf">http://alexispress.us/wp-content/uploads/2022/07/An-Archive-of-Switchgear-and-Relaying.pdf</a>
A brief study of an Overcurrent Relay to Safeguard a Transmission Lines	<a href="http://alexispress.us/wp-content/uploads/2022/07/An-Archive-of-Switchgear-and-Relaying.pdf">http://alexispress.us/wp-content/uploads/2022/07/An-Archive-of-Switchgear-and-Relaying.pdf</a>
Protection of Transmission Lines using Distance Relay	<a href="http://alexispress.us/wp-content/uploads/2022/07/An-Archive-of-Switchgear-and-Relaying.pdf">http://alexispress.us/wp-content/uploads/2022/07/An-Archive-of-Switchgear-and-Relaying.pdf</a>
Electrical Design of Transmission line and Coefficients of Transmission line	<a href="http://alexispress.us/sdm_downloads/elements-of-power-system/">http://alexispress.us/sdm_downloads/elements-of-power-system/</a>
Classification and Performance of Overhead Transmission lines	<a href="http://alexispress.us/sdm_downloads/elements-of-power-system/">http://alexispress.us/sdm_downloads/elements-of-power-system/</a>
Transmission of Electric Power through Underground Cables and Construction of Underground Cables	<a href="http://alexispress.us/sdm_downloads/elements-of-power-system/">http://alexispress.us/sdm_downloads/elements-of-power-system/</a>
Overview on Classification of Distribution System	<a href="http://alexispress.us/sdm_downloads/elements-of-power-system/">http://alexispress.us/sdm_downloads/elements-of-power-system/</a>
A Comprehensive study on A.C. and D.C. Distribution	<a href="http://alexispress.us/sdm_downloads/elements-of-power-system/">http://alexispress.us/sdm_downloads/elements-of-power-system/</a>
Importance of Voltage Control and Location of Voltage Control Equipment	<a href="http://alexispress.us/sdm_downloads/elements-of-power-system/">http://alexispress.us/sdm_downloads/elements-of-power-system/</a>
An Overview of Renal Cell Cancer Symptoms, and their Treatment	<a href="http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf">http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf</a>
Hepatic Cancer Risk Factors, Symptoms, and Treatments	<a href="http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf">http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf</a>
Lung Cancer; Detection, Diagnosis, and Treatment	<a href="http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf">http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf</a>
New Methods for the Detection of the Multiple Cancer	<a href="http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf">http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf</a>
Ovarian Cancer; Threats for the Women	<a href="http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf">http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf</a>
An Overview of Cancer Related to the Pituitary Gland	<a href="http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf">http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf</a>
Prostate Cancer; Affected the Male Population Worldwide	<a href="http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf">http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf</a>
Reasons for Recurrent Cancer and their Treatment	<a href="http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf">http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf</a>

The Blood Malignancy; is a Curse for the Human	<a href="http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf">http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf</a>
Next Phase of Treatment and Prevention of Cancer	<a href="http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf">http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf</a>
Mouth Carcinoma; Alarming Signs, Types, and Treatment	<a href="http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf">http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf</a>
Thyroid Cancer; Risk Factors, Symptoms, and Treatment	<a href="http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf">http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf</a>
Different Types of Cancers Persisted in the Human Population	<a href="http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf">http://alexispress.us/wp-content/uploads/2022/07/Cancer-Biology.pdf</a>
Monitoring and Control of Welding and Joining Processes	<a href="http://alexispress.us/sdm_downloads/applications-of-welding-technology/">http://alexispress.us/sdm_downloads/applications-of-welding-technology/</a>
An Analysis of Residual Stress and Distortion	<a href="http://alexispress.us/sdm_downloads/applications-of-welding-technology/">http://alexispress.us/sdm_downloads/applications-of-welding-technology/</a>
Exploring the Application of Design Welding	<a href="http://alexispress.us/sdm_downloads/applications-of-welding-technology/">http://alexispress.us/sdm_downloads/applications-of-welding-technology/</a>
An Analysis of Design Considerations for Welding	<a href="http://alexispress.us/sdm_downloads/applications-of-welding-technology/">http://alexispress.us/sdm_downloads/applications-of-welding-technology/</a>
Advance Laser Beam Machining	<a href="http://alexispress.us/sdm_downloads/applications-of-welding-technology/">http://alexispress.us/sdm_downloads/applications-of-welding-technology/</a>
Advanced Gas Welding Technology	<a href="http://alexispress.us/sdm_downloads/applications-of-welding-technology/">http://alexispress.us/sdm_downloads/applications-of-welding-technology/</a>
Advanced Process Development Trends: A Study	<a href="http://alexispress.us/sdm_downloads/applications-of-welding-technology/">http://alexispress.us/sdm_downloads/applications-of-welding-technology/</a>
Monitoring and Control of Welding Processes	<a href="http://alexispress.us/sdm_downloads/applications-of-welding-technology/">http://alexispress.us/sdm_downloads/applications-of-welding-technology/</a>
Welding Automation and Robotics: A Comprehensive Review	<a href="http://alexispress.us/sdm_downloads/applications-of-welding-technology/">http://alexispress.us/sdm_downloads/applications-of-welding-technology/</a>
Exploring the Narrow-Gap Welding Techniques	<a href="http://alexispress.us/sdm_downloads/applications-of-welding-technology/">http://alexispress.us/sdm_downloads/applications-of-welding-technology/</a>
Gas Metal Arc Welding	<a href="http://alexispress.us/sdm_downloads/applications-of-welding-technology/">http://alexispress.us/sdm_downloads/applications-of-welding-technology/</a>
Gases For Advanced Welding Processes	<a href="http://alexispress.us/sdm_downloads/applications-of-welding-technology/">http://alexispress.us/sdm_downloads/applications-of-welding-technology/</a>
Exploring the Features of Plasma Arc Welding	<a href="http://alexispress.us/sdm_downloads/applications-of-welding-technology/">http://alexispress.us/sdm_downloads/applications-of-welding-technology/</a>
Welding Metalworking's Metallurgy: An Analysis	<a href="http://alexispress.us/sdm_downloads/applications-of-welding-technology/">http://alexispress.us/sdm_downloads/applications-of-welding-technology/</a>
Comprehensive Review of Safe Practices	<a href="http://alexispress.us/sdm_downloads/applications-of-welding-technology/">http://alexispress.us/sdm_downloads/applications-of-welding-technology/</a>
An Overview of the Business Research	<a href="http://alexispress.us/sdm_downloads/principles-of-business-management/">http://alexispress.us/sdm_downloads/principles-of-business-management/</a>
An Overview of the Need of Managers for Organization's Development	<a href="http://alexispress.us/sdm_downloads/principles-of-business-management/">http://alexispress.us/sdm_downloads/principles-of-business-management/</a>
An Elaboration of the Managerial Decision-Making	<a href="http://alexispress.us/sdm_downloads/principles-of-business-management/">http://alexispress.us/sdm_downloads/principles-of-business-management/</a>
An Analysis of the Improving the Quality of Decision Making	<a href="http://alexispress.us/sdm_downloads/principles-of-business-management/">http://alexispress.us/sdm_downloads/principles-of-business-management/</a>

An Elaboration of the Business Management	<a href="http://alexispress.us/sdm_downloads/principles-of-business-management/">http://alexispress.us/sdm_downloads/principles-of-business-management/</a>
An Analysis of the Administrative and Bureaucratic Management	<a href="http://alexispress.us/sdm_downloads/principles-of-business-management/">http://alexispress.us/sdm_downloads/principles-of-business-management/</a>
An Analysis of the External and Internal Organizational Environments and Corporate Culture	<a href="http://alexispress.us/sdm_downloads/principles-of-business-management/">http://alexispress.us/sdm_downloads/principles-of-business-management/</a>
An Analysis of the Shifting Paradigms in Organizational Design	<a href="http://alexispress.us/sdm_downloads/principles-of-business-management/">http://alexispress.us/sdm_downloads/principles-of-business-management/</a>
An Overview of Identify the Suitable between Organizational Cultures and the External Environment	<a href="http://alexispress.us/sdm_downloads/principles-of-business-management/">http://alexispress.us/sdm_downloads/principles-of-business-management/</a>
An Overview of the Importance of International Management	<a href="http://alexispress.us/sdm_downloads/principles-of-business-management/">http://alexispress.us/sdm_downloads/principles-of-business-management/</a>
An Overview of the Cultural Stereotyping and Social Institutions in Business	<a href="http://alexispress.us/sdm_downloads/principles-of-business-management/">http://alexispress.us/sdm_downloads/principles-of-business-management/</a>
An Elaboration of the Significance of Timing in Cross-Cultural Training for Expatriates	<a href="http://alexispress.us/sdm_downloads/principles-of-business-management/">http://alexispress.us/sdm_downloads/principles-of-business-management/</a>
An Analysis of the Challenges and Considerations in Foreign Direct Investment	<a href="http://alexispress.us/sdm_downloads/principles-of-business-management/">http://alexispress.us/sdm_downloads/principles-of-business-management/</a>
An Elaboration of Evolution of the Entrepreneurship in Business Industry	<a href="http://alexispress.us/sdm_downloads/principles-of-business-management/">http://alexispress.us/sdm_downloads/principles-of-business-management/</a>
An Overview of the Resurgence of Small Businesses	<a href="http://alexispress.us/sdm_downloads/principles-of-business-management/">http://alexispress.us/sdm_downloads/principles-of-business-management/</a>
Analysis of Business and Its Environment	<a href="http://alexispress.us/sdm_downloads/economic-environment-of-business/">http://alexispress.us/sdm_downloads/economic-environment-of-business/</a>
A Brief Introduction about Environment of Business	<a href="http://alexispress.us/sdm_downloads/economic-environment-of-business/">http://alexispress.us/sdm_downloads/economic-environment-of-business/</a>
The Concept of Business Environment	<a href="http://alexispress.us/sdm_downloads/economic-environment-of-business/">http://alexispress.us/sdm_downloads/economic-environment-of-business/</a>
Analysis of the Political Environment	<a href="http://alexispress.us/sdm_downloads/economic-environment-of-business/">http://alexispress.us/sdm_downloads/economic-environment-of-business/</a>
Analysis of the Natural Environment	<a href="http://alexispress.us/sdm_downloads/economic-environment-of-business/">http://alexispress.us/sdm_downloads/economic-environment-of-business/</a>
Environmental Analysis Techniques and Their Significance	<a href="http://alexispress.us/sdm_downloads/economic-environment-of-business/">http://alexispress.us/sdm_downloads/economic-environment-of-business/</a>
A Brief Introduction to Environmental Forecasting Techniques	<a href="http://alexispress.us/sdm_downloads/economic-environment-of-business/">http://alexispress.us/sdm_downloads/economic-environment-of-business/</a>
Social Responsibility of Business Organization	<a href="http://alexispress.us/sdm_downloads/economic-environment-of-business/">http://alexispress.us/sdm_downloads/economic-environment-of-business/</a>
Areas of Business Social Responsibility	<a href="http://alexispress.us/sdm_downloads/economic-environment-of-business/">http://alexispress.us/sdm_downloads/economic-environment-of-business/</a>
Importance of Social Auditing's Strategic	<a href="http://alexispress.us/sdm_downloads/economic-environment-of-business/">http://alexispress.us/sdm_downloads/economic-environment-of-business/</a>
A Brief Introduction about Social, Economic Environment	<a href="http://alexispress.us/sdm_downloads/economic-environment-of-business/">http://alexispress.us/sdm_downloads/economic-environment-of-business/</a>

Concept and Components of the Money Market	<a href="http://alexispress.us/sdm_downloads/economic-environment-of-business/">http://alexispress.us/sdm_downloads/economic-environment-of-business/</a>
Wide-Ranging Participants in the Indian Capital Markets	<a href="http://alexispress.us/sdm_downloads/economic-environment-of-business/">http://alexispress.us/sdm_downloads/economic-environment-of-business/</a>
Capital Market Regulatory Framework for India	<a href="http://alexispress.us/sdm_downloads/economic-environment-of-business/">http://alexispress.us/sdm_downloads/economic-environment-of-business/</a>
The Stock Exchange's Concept and Function	<a href="http://alexispress.us/sdm_downloads/economic-environment-of-business/">http://alexispress.us/sdm_downloads/economic-environment-of-business/</a>
Monetary Policy Implications for Inclusive Growth	<a href="http://alexispress.us/sdm_downloads/economic-environment-of-business/">http://alexispress.us/sdm_downloads/economic-environment-of-business/</a>
Autonomous Vehicle Visual Guidance: Potential and Challenges	<a href="http://alexispress.us/sdm_downloads/autonomous-mobile-robots/">http://alexispress.us/sdm_downloads/autonomous-mobile-robots/</a>
Interpretation of Millimetre Wave Radar Power-Range Spectra for Multiple Feature Detection	<a href="http://alexispress.us/sdm_downloads/autonomous-mobile-robots/">http://alexispress.us/sdm_downloads/autonomous-mobile-robots/</a>
GPS and INS Data Fusion Using the Kalman Filter	<a href="http://alexispress.us/sdm_downloads/autonomous-mobile-robots/">http://alexispress.us/sdm_downloads/autonomous-mobile-robots/</a>
Navigational Landmarks and Triangulation	<a href="http://alexispress.us/sdm_downloads/autonomous-mobile-robots/">http://alexispress.us/sdm_downloads/autonomous-mobile-robots/</a>
A Brief Overview to Mobile Robot Localization	<a href="http://alexispress.us/sdm_downloads/autonomous-mobile-robots/">http://alexispress.us/sdm_downloads/autonomous-mobile-robots/</a>
Locomotion of the Mobile Robotics and its Significance	<a href="http://alexispress.us/sdm_downloads/autonomous-mobile-robots/">http://alexispress.us/sdm_downloads/autonomous-mobile-robots/</a>
Nonholonomic Mobile Robots under Adaptive Neural-Fuzzy Control	<a href="http://alexispress.us/sdm_downloads/autonomous-mobile-robots/">http://alexispress.us/sdm_downloads/autonomous-mobile-robots/</a>
Adaptive Control of Mobile Robots Including Actuator Dynamics	<a href="http://alexispress.us/sdm_downloads/autonomous-mobile-robots/">http://alexispress.us/sdm_downloads/autonomous-mobile-robots/</a>
Unified Control Design for Autonomous Car-Like Vehicle Tracking Manoeuvres	<a href="http://alexispress.us/sdm_downloads/autonomous-mobile-robots/">http://alexispress.us/sdm_downloads/autonomous-mobile-robots/</a>
Map Building and SLAM Algorithms	<a href="http://alexispress.us/sdm_downloads/autonomous-mobile-robots/">http://alexispress.us/sdm_downloads/autonomous-mobile-robots/</a>
Motion Planning: Recent Developments	<a href="http://alexispress.us/sdm_downloads/autonomous-mobile-robots/">http://alexispress.us/sdm_downloads/autonomous-mobile-robots/</a>
A Brief Overview to Multi-Robot Cooperation	<a href="http://alexispress.us/sdm_downloads/autonomous-mobile-robots/">http://alexispress.us/sdm_downloads/autonomous-mobile-robots/</a>
Importance of Decision Making and Autonomy	<a href="http://alexispress.us/sdm_downloads/autonomous-mobile-robots/">http://alexispress.us/sdm_downloads/autonomous-mobile-robots/</a>
Knowledge Representation and Decision Making for Mobile Robots	<a href="http://alexispress.us/sdm_downloads/autonomous-mobile-robots/">http://alexispress.us/sdm_downloads/autonomous-mobile-robots/</a>
Algorithms for Planning in Prediction and Sensing With Uncertainty	<a href="http://alexispress.us/sdm_downloads/autonomous-mobile-robots/">http://alexispress.us/sdm_downloads/autonomous-mobile-robots/</a>
A Brief Introduction of the Agroforestry and Agro-ecology	<a href="http://alexispress.us/sdm_downloads/agroforestry-and-environment/">http://alexispress.us/sdm_downloads/agroforestry-and-environment/</a>
A Brief Discussion of the Forest Farming	<a href="http://alexispress.us/sdm_downloads/agroforestry-and-environment/">http://alexispress.us/sdm_downloads/agroforestry-and-environment/</a>
Role of the Forest Gardening in Agroforestry	<a href="http://alexispress.us/sdm_downloads/agroforestry-and-environment/">http://alexispress.us/sdm_downloads/agroforestry-and-environment/</a>

Significance of the Agricultural Biodiversity in Agroforestry	<a href="http://alexispress.us/sdm_downloads/agroforestry-and-environment/">http://alexispress.us/sdm_downloads/agroforestry-and-environment/</a>
A Brief Overview of the Biodiversity and Conservation Concept	<a href="http://alexispress.us/sdm_downloads/agroforestry-and-environment/">http://alexispress.us/sdm_downloads/agroforestry-and-environment/</a>
A Methods for the Agricultural Land Classification	<a href="http://alexispress.us/sdm_downloads/agroforestry-and-environment/">http://alexispress.us/sdm_downloads/agroforestry-and-environment/</a>
Agroforestry Applications in Conservation Biology and Landscape Ecology	<a href="http://alexispress.us/sdm_downloads/agroforestry-and-environment/">http://alexispress.us/sdm_downloads/agroforestry-and-environment/</a>
Ecological Implications of Tropics Habitat Fragmentation	<a href="http://alexispress.us/sdm_downloads/agroforestry-and-environment/">http://alexispress.us/sdm_downloads/agroforestry-and-environment/</a>
Environmental Services Provided by Agroforestry: Economic Evaluation	<a href="http://alexispress.us/sdm_downloads/agroforestry-and-environment/">http://alexispress.us/sdm_downloads/agroforestry-and-environment/</a>
Biological Corridors and Landscape Connectivity	<a href="http://alexispress.us/sdm_downloads/agroforestry-and-environment/">http://alexispress.us/sdm_downloads/agroforestry-and-environment/</a>
Role of the Agroforestry in the Reduction of the Deforestation	<a href="http://alexispress.us/sdm_downloads/agroforestry-and-environment/">http://alexispress.us/sdm_downloads/agroforestry-and-environment/</a>
Cocoa Growing their Significance in Tropical Deforestation and Forest Conservation	<a href="http://alexispress.us/sdm_downloads/agroforestry-and-environment/">http://alexispress.us/sdm_downloads/agroforestry-and-environment/</a>
Using Conservation Concessions to Supplement Agroforestry for Biodiversity Conservation	<a href="http://alexispress.us/sdm_downloads/agroforestry-and-environment/">http://alexispress.us/sdm_downloads/agroforestry-and-environment/</a>
Shifting Cultivation Landscapes' Biodiversity and Conservation Potential	<a href="http://alexispress.us/sdm_downloads/agroforestry-and-environment/">http://alexispress.us/sdm_downloads/agroforestry-and-environment/</a>
<b>Tropical Tri trophic Interactions: Horrible Hosts and Pervasive Cascades</b>	<a href="http://alexispress.us/sdm_downloads/agroforestry-and-environment/">http://alexispress.us/sdm_downloads/agroforestry-and-environment/</a>
Classification and Some Basic Details of Heat Engines	<a href="http://alexispress.us/sdm_downloads/principles-of-ic-engine/">http://alexispress.us/sdm_downloads/principles-of-ic-engine/</a>
Air-Standard Cycles and Their Analysis	<a href="http://alexispress.us/sdm_downloads/principles-of-ic-engine/">http://alexispress.us/sdm_downloads/principles-of-ic-engine/</a>
An Analysis of Fuel Air Cycles	<a href="http://alexispress.us/sdm_downloads/principles-of-ic-engine/">http://alexispress.us/sdm_downloads/principles-of-ic-engine/</a>
Actual Cycles of Internal Combustion (IC) Engines	<a href="http://alexispress.us/sdm_downloads/principles-of-ic-engine/">http://alexispress.us/sdm_downloads/principles-of-ic-engine/</a>
An Analysis of Different Conventional Fuels	<a href="http://alexispress.us/sdm_downloads/principles-of-ic-engine/">http://alexispress.us/sdm_downloads/principles-of-ic-engine/</a>
Exploring the Importance of Alternate Fuels	<a href="http://alexispress.us/sdm_downloads/principles-of-ic-engine/">http://alexispress.us/sdm_downloads/principles-of-ic-engine/</a>
Investigating the Carburation's Benefits and Limitations	<a href="http://alexispress.us/sdm_downloads/principles-of-ic-engine/">http://alexispress.us/sdm_downloads/principles-of-ic-engine/</a>
An Analysis of Mechanical Injection Systems	<a href="http://alexispress.us/sdm_downloads/principles-of-ic-engine/">http://alexispress.us/sdm_downloads/principles-of-ic-engine/</a>
A Review Study on Electronic Injection Systems	<a href="http://alexispress.us/sdm_downloads/principles-of-ic-engine/">http://alexispress.us/sdm_downloads/principles-of-ic-engine/</a>
Exploring the Ignition System in IC Engine	<a href="http://alexispress.us/sdm_downloads/principles-of-ic-engine/">http://alexispress.us/sdm_downloads/principles-of-ic-engine/</a>
Classification of Combustion and Combustion Chambers	<a href="http://alexispress.us/sdm_downloads/principles-of-ic-engine/">http://alexispress.us/sdm_downloads/principles-of-ic-engine/</a>

Impact of Engine Friction and Lubrication	<a href="http://alexispress.us/sdm_downloads/principles-of-ic-engine/">http://alexispress.us/sdm_downloads/principles-of-ic-engine/</a>
Heat Rejection and Cooling System	<a href="http://alexispress.us/sdm_downloads/principles-of-ic-engine/">http://alexispress.us/sdm_downloads/principles-of-ic-engine/</a>
Exploring the Engine Emissions and Their Control	<a href="http://alexispress.us/sdm_downloads/principles-of-ic-engine/">http://alexispress.us/sdm_downloads/principles-of-ic-engine/</a>
Measurements and Testing of IC Engine	<a href="http://alexispress.us/sdm_downloads/principles-of-ic-engine/">http://alexispress.us/sdm_downloads/principles-of-ic-engine/</a>
Determination of Radioactive Waste Management and its Exploration	<a href="http://alexispress.us/sdm_downloads/radioactive-waste-management/">http://alexispress.us/sdm_downloads/radioactive-waste-management/</a>
Exploration of Sources and Characteristics of Radioactive Wastes	<a href="http://alexispress.us/sdm_downloads/radioactive-waste-management/">http://alexispress.us/sdm_downloads/radioactive-waste-management/</a>
Radioactive Waste Management, Strategies and Quality Assurance	<a href="http://alexispress.us/sdm_downloads/radioactive-waste-management/">http://alexispress.us/sdm_downloads/radioactive-waste-management/</a>
Determination of Transportation in the Field of Radioactive Waste	<a href="http://alexispress.us/sdm_downloads/radioactive-waste-management/">http://alexispress.us/sdm_downloads/radioactive-waste-management/</a>
Radioactive Waste: Challenges, Safety Measures, and Regulatory Framework	<a href="http://alexispress.us/sdm_downloads/radioactive-waste-management/">http://alexispress.us/sdm_downloads/radioactive-waste-management/</a>
Analysis of Long-Term Assessment of Waste Disposal Systems	<a href="http://alexispress.us/sdm_downloads/radioactive-waste-management/">http://alexispress.us/sdm_downloads/radioactive-waste-management/</a>
National Infrastructure for Waste Management	<a href="http://alexispress.us/sdm_downloads/radioactive-waste-management/">http://alexispress.us/sdm_downloads/radioactive-waste-management/</a>
Waste Management: Fostering Collaboration for Global Sustainability	<a href="http://alexispress.us/sdm_downloads/radioactive-waste-management/">http://alexispress.us/sdm_downloads/radioactive-waste-management/</a>
A Brief Overview about Public Understanding and Acceptance	<a href="http://alexispress.us/sdm_downloads/radioactive-waste-management/">http://alexispress.us/sdm_downloads/radioactive-waste-management/</a>
Nuclear Industry: Analyses Role of Employees	<a href="http://alexispress.us/sdm_downloads/radioactive-waste-management/">http://alexispress.us/sdm_downloads/radioactive-waste-management/</a>
Responsibilities of International Organizations for Waste Management	<a href="http://alexispress.us/sdm_downloads/radioactive-waste-management/">http://alexispress.us/sdm_downloads/radioactive-waste-management/</a>
Classifying Waste Management System for Effective Sustainability	<a href="http://alexispress.us/sdm_downloads/radioactive-waste-management/">http://alexispress.us/sdm_downloads/radioactive-waste-management/</a>
Analysis of Recycling of Construction and Demolition Waste	<a href="http://alexispress.us/sdm_downloads/radioactive-waste-management/">http://alexispress.us/sdm_downloads/radioactive-waste-management/</a>
Determination of Integrated Solid Waste Management and their Process	<a href="http://alexispress.us/sdm_downloads/radioactive-waste-management/">http://alexispress.us/sdm_downloads/radioactive-waste-management/</a>
Exploring Characteristics of Radioisotopes and Its Utilization	<a href="http://alexispress.us/sdm_downloads/radioactive-waste-management/">http://alexispress.us/sdm_downloads/radioactive-waste-management/</a>
Production and Operations Management Overview	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Overview of Operations in Production and Operations Management	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Input-Output Models' Associated Costs and Income	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Overview of Strategy and Productivity	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Systemic Challenges Affecting Productivity	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>

History of P/OM Transformations' Advancements	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Overview of Workload Evaluation	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Planning for Aggregate Production and Capacity Management	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Overview of the Inventory Control	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Classification of Scheduling: A Comprehensive Review	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Analysis of Project Management	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
A Study on Evaluation of Quality Control	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Factors Affecting Non-Functional Quality Aesthetics and Timing	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Comparing Inspection of Variables and Attributes	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Evaluation of Supply Chain Management	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Demanding Bids Before Making a Purchase	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Supply Chain Forecasting and Inventory Decisions	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Long-term Planning in Systems for Managing Production and Operations	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Cost Factors for Building, Buying, and Renting	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
P/OM Innovation for Sustainable Development and New Product Development	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
New Innovation Growth Platforms	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Production and Operation Management: An Introduction	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
A Study on Plant Layout and Location	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Location-Specific Elements Affecting Manufacturing Organization	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Organization of Physical Facilities	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
An Overview of Project Finance	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
The Global Project Finance Market	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
An Overview of Inflation Risk	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>

Legal Opinions for Financing	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Validation of Mechanical Completion: An Analysis	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Types of Conventional and Financial Insurance Products Available for Project Finance Deals	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Valuing the Project and Project Cash Flow Analysis	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
An analysis of Equity of Investment	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
An Analysis of Debt Service Cover Ratio	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Investigating the Roles Advantages of Syndicated Loans for funds	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
A brief Discussion on Regional Development Banks	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
An overview on Export Credit Agencies	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Funding Option used by Businesses and Organizations	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Exploring the Role of Investors in Project Bonds	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
An Analysis of Confidentiality for Bank Loan	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Project Company and Groups of Companies: A Review Study	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
An Analysis of the Credit Facilities	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Investigating the Project Company's Covenants	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Assignment of the Credit Agreement: A Review Study	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Security on the Project Company's Bank Accounts	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Role of Operations and Maintenance Agreement	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
Multiple Characteristics of Transaction: A Review Study	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
The Value of Underlying Assets vs. Defaulted Project Cash Flows	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Jan'%20Special%20Issue.pdf</a>
An Analytical Study of Environmental Science	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
A Review of Institutions in Environment Science	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
A Brief Discussion on Climate Change	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>

Exploring the Causes of Reduction of Ozone Layer	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Investigating the Role of Wasteland Reclamation	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Social Issues of Environmental Science	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Environmental Ethics in Environmental Science	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Examination of Various Natural Resources	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Water Resources and its Need in Environmental Science	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
A Comprehensive Review of Energy Resources	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
An Analysis of Available Land Resources	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Key Needs and Findings of Biodiversity	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Pollution and Its Effects on Human Health	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Examining the Types of Waste in Environment	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Disaster Management and its Necessity	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Information Technology's Impact on Human Health and Environmental	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Exploring the Ecosystem and its Impact on Humans	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Biosafety and its Risk Assessment	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Human Population and its Environmental Effects	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Formation and Structure of the Earth in Environmental Science	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Fresh Water and the Hydrologic Cycle in Physical Resources	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Mining and Processing of Fuels and Minerals	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
The Basics of Solar Energy: An Introduction	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Exploring the Contemporary Environmental Science Methods	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
The Value of the Environmental Science	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Analysis of Advertisement and Management: Exploring the Impact of Advertising Strategies	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>

The Importance of Marketing Research in Effective Marketing Management	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
Determination of Basic Concepts of Promotion and Communication	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>
A Review Power of Integrated Marketing Communications	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Apr'%20Special%20Issue.pdf</a>

Role of Rebalancing Strategies in Managing Investment Portfolios	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Oct'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Oct'%20Special%20Issue.pdf</a>
Performance Measurement without Intra-Period External Cash Flows	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Oct'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Oct'%20Special%20Issue.pdf</a>
Custom Security-Based Benchmarks: An Overview of Their Role in Evaluating Investment Portfolio Performance	<a href="https://ijmir.org/doc/archive/special_issue/2022%20Oct'%20Special%20Issue.pdf">https://ijmir.org/doc/archive/special_issue/2022%20Oct'%20Special%20Issue.pdf</a>
A Study on Women Leadership And Empowerment	<a href="http://alexispress.us/sdm_downloads/development-of-effective-education-system/">http://alexispress.us/sdm_downloads/development-of-effective-education-system/</a>
Challenges Faced By Online Education in Delhi Due To COVID -19	<a href="http://alexispress.us/sdm_downloads/development-of-effective-education-system/">http://alexispress.us/sdm_downloads/development-of-effective-education-system/</a>
The Quality Revolution in Higher Education System	<a href="http://alexispress.us/sdm_downloads/development-of-effective-education-system/">http://alexispress.us/sdm_downloads/development-of-effective-education-system/</a>
The Condition of Education System in Rural and Urban Areas in India: A Survey	<a href="http://alexispress.us/sdm_downloads/development-of-effective-education-system/">http://alexispress.us/sdm_downloads/development-of-effective-education-system/</a>
Survey of People's Mental Health Influenced by Modern Technology and Its Impact on Daily Life	<a href="http://alexispress.us/sdm_downloads/development-of-effective-education-system/">http://alexispress.us/sdm_downloads/development-of-effective-education-system/</a>
Exploring the Significance and Development of New Technologies in Education Sectors	<a href="http://alexispress.us/sdm_downloads/development-of-effective-education-system/">http://alexispress.us/sdm_downloads/development-of-effective-education-system/</a>
A Comparative Analysis of Benefits and Performance Among Top Rated Health Insurance Policies	<a href="http://alexispress.us/sdm_downloads/development-of-effective-education-system/">http://alexispress.us/sdm_downloads/development-of-effective-education-system/</a>
Impact of COVID-19 on the Access and Inclusion of Higher Education in India	<a href="http://alexispress.us/sdm_downloads/development-of-effective-education-system/">http://alexispress.us/sdm_downloads/development-of-effective-education-system/</a>
Impact of Online Learning versus Classroom Learning for Betterment of Education	<a href="http://alexispress.us/sdm_downloads/development-of-effective-education-system/">http://alexispress.us/sdm_downloads/development-of-effective-education-system/</a>

Major Significance and Impact of Smart Class in Education	<a href="http://alexispress.us/sdm_downloads/development-of-effective-education-system/">http://alexispress.us/sdm_downloads/development-of-effective-education-system/</a>
Awareness of Road Safety and Traffic Rules among Four Major Cities of India: A Survey Report	<a href="http://alexispress.us/sdm_downloads/development-of-effective-education-system/">http://alexispress.us/sdm_downloads/development-of-effective-education-system/</a>
An Analysis Function of Discipline in Schooling Education and its Effects on the Learning Process	<a href="http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/">http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/</a>
A Study on Smart Education in Modern Era and its Factors Affecting Framework	<a href="http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/">http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/</a>
An Analysis of Classroom Management against Bullying, and Harassment	<a href="http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/">http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/</a>
An analysis on the Advancement of Technology in Education Sector and Modern	<a href="http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/">http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/</a>
Comprehensive Study on the Importance of Digital Literacy in Recent Time and Factors that Improves Digital Literacy among Children	<a href="http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/">http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/</a>
An analysis of India Education System and their Challenges	<a href="http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/">http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/</a>
An Analysis of Impotence of Sex Education on School and Colleges	<a href="http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/">http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/</a>
An Extensive Analysis of Cloud Computing In Education System	<a href="http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/">http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/</a>
A Ragging in Educational Institutions and their Impact on Students	<a href="http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/">http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/</a>
A Recall of Persistent Issues and Challenges faced by Higher education in India	<a href="http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/">http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/</a>
Exploring the Consequences and Importance of Video Game in learning	<a href="http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/">http://alexispress.us/sdm_downloads/education-system-design-issues-and-challenges/</a>
Bubbling Nature and Formation Other Properties of Crypto Currency	<a href="http://alexispress.us/sdm_downloads/the-indian-economy/">http://alexispress.us/sdm_downloads/the-indian-economy/</a>
Contribution of Small-Scale Industry in Gross Domestic Product of India	<a href="http://alexispress.us/sdm_downloads/the-indian-economy/">http://alexispress.us/sdm_downloads/the-indian-economy/</a>
Impact of Indian Government Budget on Economy	<a href="http://alexispress.us/sdm_downloads/the-indian-economy/">http://alexispress.us/sdm_downloads/the-indian-economy/</a>
The Indian Economy Rising to Global challenges and also study the factors behind the gross Domestic Product	<a href="http://alexispress.us/sdm_downloads/the-indian-economy/">http://alexispress.us/sdm_downloads/the-indian-economy/</a>
A study on Population affects the gross Domestic Product	<a href="http://alexispress.us/sdm_downloads/the-indian-economy/">http://alexispress.us/sdm_downloads/the-indian-economy/</a>
Analysis of Problems Faced Due to Corporate Tax Avoidance	<a href="http://alexispress.us/sdm_downloads/the-indian-economy/">http://alexispress.us/sdm_downloads/the-indian-economy/</a>
Role of Economics in Modern Psychology Factors	<a href="http://alexispress.us/sdm_downloads/the-indian-economy/">http://alexispress.us/sdm_downloads/the-indian-economy/</a>

Cultural Economics: The Importance of Preserving the Heritage of India	<a href="http://alexispress.us/sdm_downloads/the-indian-economy/">http://alexispress.us/sdm_downloads/the-indian-economy/</a>
A Significant Association between Labor Productivity and the Economic Development of a Country	<a href="http://alexispress.us/sdm_downloads/the-indian-economy/">http://alexispress.us/sdm_downloads/the-indian-economy/</a>
Factors behind Political Economy of Conflict for Country	<a href="http://alexispress.us/sdm_downloads/the-indian-economy/">http://alexispress.us/sdm_downloads/the-indian-economy/</a>
Analytical Study to Reduce the Poverty in Rural Areas of India	<a href="http://alexispress.us/sdm_downloads/the-indian-economy/">http://alexispress.us/sdm_downloads/the-indian-economy/</a>
Role of Non-Governmental Organization for the growth of Indian economy	<a href="http://alexispress.us/sdm_downloads/economic-growth-and-development/">http://alexispress.us/sdm_downloads/economic-growth-and-development/</a>
Comprehensive approach to Investigate Consumer Awareness about food quality and food safety	<a href="http://alexispress.us/sdm_downloads/economic-growth-and-development/">http://alexispress.us/sdm_downloads/economic-growth-and-development/</a>
An Assessment of Climate change Effects on Food production and Food Security	<a href="http://alexispress.us/sdm_downloads/economic-growth-and-development/">http://alexispress.us/sdm_downloads/economic-growth-and-development/</a>
A Comprehensive Study on Economics of Justice	<a href="http://alexispress.us/sdm_downloads/economic-growth-and-development/">http://alexispress.us/sdm_downloads/economic-growth-and-development/</a>
An Elaborative Study of Gross Domestic Product with Its Different Characteristics	<a href="http://alexispress.us/sdm_downloads/economic-growth-and-development/">http://alexispress.us/sdm_downloads/economic-growth-and-development/</a>
Division of Labor and Development of extreme Specialization	<a href="http://alexispress.us/sdm_downloads/economic-growth-and-development/">http://alexispress.us/sdm_downloads/economic-growth-and-development/</a>
An Analysis of Development of Economic with Different Experiments	<a href="http://alexispress.us/sdm_downloads/economic-growth-and-development/">http://alexispress.us/sdm_downloads/economic-growth-and-development/</a>
Cashless Economy: The Impact and Challenges of Demonetization on Small and Medium Businesses	<a href="http://alexispress.us/sdm_downloads/economic-growth-and-development/">http://alexispress.us/sdm_downloads/economic-growth-and-development/</a>
Privatization of Public Enterprises and its implications on Economic Policy and Development	<a href="http://alexispress.us/sdm_downloads/economic-growth-and-development/">http://alexispress.us/sdm_downloads/economic-growth-and-development/</a>
Impact of Government Expenditure on Economic Growth	<a href="http://alexispress.us/sdm_downloads/economic-growth-and-development/">http://alexispress.us/sdm_downloads/economic-growth-and-development/</a>
The Impact of Game Theory on Economic Development	<a href="http://alexispress.us/sdm_downloads/economic-growth-and-development/">http://alexispress.us/sdm_downloads/economic-growth-and-development/</a>
The Connection between Finance, Economics, and Accounting	<a href="http://alexispress.us/sdm_downloads/economic-growth-and-development/">http://alexispress.us/sdm_downloads/economic-growth-and-development/</a>
The Impact of Natural Disasters on Development in Emerging Economies	<a href="http://alexispress.us/sdm_downloads/economic-growth-and-development/">http://alexispress.us/sdm_downloads/economic-growth-and-development/</a>
Artificial Intelligence's Ability to Cause and Explain Events in Medicine the Future Generation is Artificial Intelligence	<a href="http://alexispress.us/sdm_downloads/introduction-to-artificial-intelligence/">http://alexispress.us/sdm_downloads/introduction-to-artificial-intelligence/</a>
An Examination of Artificial Intelligence with the Deployment of Software Testing Techniques	<a href="http://alexispress.us/sdm_downloads/introduction-to-artificial-intelligence/">http://alexispress.us/sdm_downloads/introduction-to-artificial-intelligence/</a>
An Air Pollution Monitoring and Control System for Subway Station Using Environmental Sensors and Artificial Intelligence	<a href="http://alexispress.us/sdm_downloads/introduction-to-artificial-intelligence/">http://alexispress.us/sdm_downloads/introduction-to-artificial-intelligence/</a>

Artificial Intelligence Applied to Software Testing Life Cycle	<a href="http://alexispress.us/sdm_downloads/introduction-to-artificial-intelligence/">http://alexispress.us/sdm_downloads/introduction-to-artificial-intelligence/</a>
Survey on Plant Disease Prediction Using Artificial Intelligence	<a href="http://alexispress.us/sdm_downloads/introduction-to-artificial-intelligence/">http://alexispress.us/sdm_downloads/introduction-to-artificial-intelligence/</a>
Air Traffic Management System Controls with the help of Artificial Intelligence	<a href="http://alexispress.us/sdm_downloads/introduction-to-artificial-intelligence/">http://alexispress.us/sdm_downloads/introduction-to-artificial-intelligence/</a>
A Comprehensive Study on Artificial Intelligence (AI) and Its Evaluation in the Medical Treatment	<a href="http://alexispress.us/sdm_downloads/introduction-to-artificial-intelligence/">http://alexispress.us/sdm_downloads/introduction-to-artificial-intelligence/</a>
A State of the art review on Role of Mobile Cloud Computing and Future Challenges	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/">http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/</a>
Security Issues and Solutions in Cloud Computing: A Comprehensive Review	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/">http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/</a>
Big Data in Cloud Computing: Major Challenges and Solutions	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/">http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/</a>
An Analysis of Transportation Management Systems Using Cloud Computing	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/">http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/</a>
Concerns with Cloud Computing's Security	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/">http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/</a>
Implementation of Service Orchestration in Routing and Cloud Computing	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/">http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/</a>
An Analysis of Security in Cloud Computing and Enhancing its Safety Features	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/">http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/</a>
Analysis of IoT Used in Private Cloud Computing Platforms	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/">http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/</a>
An Analysis of Cloud Computing and Its Deployment in Quality of Services	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/">http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/</a>
Implementation of IoT on Cloud Computing and Its Security Issues	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/">http://alexispress.us/sdm_downloads/fundamentals-of-cloud-computing/</a>
A Comprehensive study on Deep Learning as a Subset of Machine Learning	<a href="http://alexispress.us/sdm_downloads/machine-learning-and-deep-learning/">http://alexispress.us/sdm_downloads/machine-learning-and-deep-learning/</a>
Natural Language Processing: Machine Understanding the Human Language	<a href="http://alexispress.us/sdm_downloads/machine-learning-and-deep-learning/">http://alexispress.us/sdm_downloads/machine-learning-and-deep-learning/</a>
An Analysis on Early Disease Prediction of Crops for Better Productivity Using Deep Learning Approach	<a href="http://alexispress.us/sdm_downloads/machine-learning-and-deep-learning/">http://alexispress.us/sdm_downloads/machine-learning-and-deep-learning/</a>
Identification of Appropriate Crops for Specific land based on Different Parameters Using Machine Learning	<a href="http://alexispress.us/sdm_downloads/machine-learning-and-deep-learning/">http://alexispress.us/sdm_downloads/machine-learning-and-deep-learning/</a>
Early Weed Prediction in Crops for Improved Productivity Using Machine Learning: Major Challenges and Solutions	<a href="http://alexispress.us/sdm_downloads/machine-learning-and-deep-learning/">http://alexispress.us/sdm_downloads/machine-learning-and-deep-learning/</a>
Heart Disease Recognition in Initial Stage Using Machine Learning Approach: Major Challenges and Solutions	<a href="http://alexispress.us/sdm_downloads/machine-learning-and-deep-learning/">http://alexispress.us/sdm_downloads/machine-learning-and-deep-learning/</a>

An Analysis on Early Lung Cancer Prediction Using Deep Learning Approach	<a href="http://alexispress.us/sdm_downloads/machine-learning-and-deep-learning/">http://alexispress.us/sdm_downloads/machine-learning-and-deep-learning/</a>
A Comprehensive Study on Harmful Phishing Attack for Network Security and its Preventive Measure	<a href="http://alexispress.us/sdm_downloads/principle-of-computer-networks/">http://alexispress.us/sdm_downloads/principle-of-computer-networks/</a>
A Comprehensive Study on Fifth Generation (5G) Network Slicing and Analysis of Its Security Management	<a href="http://alexispress.us/sdm_downloads/principle-of-computer-networks/">http://alexispress.us/sdm_downloads/principle-of-computer-networks/</a>
The Study on Security and Privacy Stabilising for 5G Networks	<a href="http://alexispress.us/sdm_downloads/principle-of-computer-networks/">http://alexispress.us/sdm_downloads/principle-of-computer-networks/</a>
An Investigation of Various Cutting-Edge Face Recognition Systems Employing Neural Network Techniques	<a href="http://alexispress.us/sdm_downloads/principle-of-computer-networks/">http://alexispress.us/sdm_downloads/principle-of-computer-networks/</a>
An Analysis of Caching Strategies and Its Uses in Mobile Ad Hoc Network (MANET)	<a href="http://alexispress.us/sdm_downloads/principle-of-computer-networks/">http://alexispress.us/sdm_downloads/principle-of-computer-networks/</a>
Security Attacks in Wireless Sensor Networks and Challenges	<a href="http://alexispress.us/sdm_downloads/principle-of-computer-networks/">http://alexispress.us/sdm_downloads/principle-of-computer-networks/</a>
A Comprehensive Study on Named Data Networking (NDN) and Examination of Its Architecture	<a href="http://alexispress.us/sdm_downloads/principle-of-computer-networks/">http://alexispress.us/sdm_downloads/principle-of-computer-networks/</a>
The Major Impact of Information Technology in Different Private and Government Working Sectors	<a href="http://alexispress.us/sdm_downloads/data-centric-systems-and-applications/">http://alexispress.us/sdm_downloads/data-centric-systems-and-applications/</a>
A Comprehensive Review on Blockchain in Farming Sector: Current Challenges and Applications	<a href="http://alexispress.us/sdm_downloads/data-centric-systems-and-applications/">http://alexispress.us/sdm_downloads/data-centric-systems-and-applications/</a>
Traditional Software Development Technique and Its Implications in Application Development	<a href="http://alexispress.us/sdm_downloads/data-centric-systems-and-applications/">http://alexispress.us/sdm_downloads/data-centric-systems-and-applications/</a>
Selling and Buying Products on an E-commerce Website	<a href="http://alexispress.us/sdm_downloads/data-centric-systems-and-applications/">http://alexispress.us/sdm_downloads/data-centric-systems-and-applications/</a>
An Analysis and Introduction of E-commerce Business and its Major Impact on Global Business	<a href="http://alexispress.us/sdm_downloads/data-centric-systems-and-applications/">http://alexispress.us/sdm_downloads/data-centric-systems-and-applications/</a>
Control System Programmable Logic Controller Integration with Epics Inversion	<a href="http://alexispress.us/sdm_downloads/data-centric-systems-and-applications/">http://alexispress.us/sdm_downloads/data-centric-systems-and-applications/</a>
Google stock Price Prediction using Stack Encoder model	<a href="http://alexispress.us/sdm_downloads/data-centric-systems-and-applications/">http://alexispress.us/sdm_downloads/data-centric-systems-and-applications/</a>
An Analysis of the Wireless Power Transfer (WPT) System and Deployment of Its Technology	<a href="http://alexispress.us/sdm_downloads/computer-science-and-applications/">http://alexispress.us/sdm_downloads/computer-science-and-applications/</a>
Using the Sensor less Variable Speed of Brushed DC Motors and Vehicle Rollover Prevention Motor Speed Control Method	<a href="http://alexispress.us/sdm_downloads/computer-science-and-applications/">http://alexispress.us/sdm_downloads/computer-science-and-applications/</a>
The use of AI in Traffic control management	<a href="http://alexispress.us/sdm_downloads/computer-science-and-applications/">http://alexispress.us/sdm_downloads/computer-science-and-applications/</a>
Medical Robots and Current Systems for Remote Ultrasound Scans	<a href="http://alexispress.us/sdm_downloads/computer-science-and-applications/">http://alexispress.us/sdm_downloads/computer-science-and-applications/</a>

Analysis of Key Performance of Digital Marketing Components	<a href="http://alexispress.us/sdm_downloads/computer-science-and-applications/">http://alexispress.us/sdm_downloads/computer-science-and-applications/</a>
Survey on Impact of Virtual Reality Technology in Marketing and Product Promotion	<a href="http://alexispress.us/sdm_downloads/computer-science-and-applications/">http://alexispress.us/sdm_downloads/computer-science-and-applications/</a>
Impact of Augmented Reality in Food Industry	<a href="http://alexispress.us/sdm_downloads/computer-science-and-applications/">http://alexispress.us/sdm_downloads/computer-science-and-applications/</a>
Image Encryption Scheme Integrating Optimized Chaotic Systems with Identity-Based Transmit Encryption	<a href="http://alexispress.us/sdm_downloads/computer-science-and-applications/">http://alexispress.us/sdm_downloads/computer-science-and-applications/</a>
An Evolution of Malware behavior Analysis and Its Detection Techniques	<a href="http://alexispress.us/sdm_downloads/computer-system-security/">http://alexispress.us/sdm_downloads/computer-system-security/</a>
Security Issues with 5G Voice Communication: the Challenges in 5G Technology	<a href="http://alexispress.us/sdm_downloads/computer-system-security/">http://alexispress.us/sdm_downloads/computer-system-security/</a>
System for Biometric Recognition with Using Acoustic Images for Visual Cryptography and Biometric Systems	<a href="http://alexispress.us/sdm_downloads/computer-system-security/">http://alexispress.us/sdm_downloads/computer-system-security/</a>
An Evaluation on Cloud of Things: Major Security Challenges and Solutions	<a href="http://alexispress.us/sdm_downloads/computer-system-security/">http://alexispress.us/sdm_downloads/computer-system-security/</a>
A Network Based of Intrusion Detection System (IDS)	<a href="http://alexispress.us/sdm_downloads/computer-system-security/">http://alexispress.us/sdm_downloads/computer-system-security/</a>
An Elaborative Analysis for Adoptive Selection of Handwritten Signature Recognition	<a href="http://alexispress.us/sdm_downloads/computer-system-security/">http://alexispress.us/sdm_downloads/computer-system-security/</a>
Review paper on functions of Operating Systems and its types with benefits and drawbacks	<a href="http://alexispress.us/sdm_downloads/operating-system-concepts/">http://alexispress.us/sdm_downloads/operating-system-concepts/</a>
A Comparison between Procedural and Object-Oriented Programming based on different Functions	<a href="http://alexispress.us/sdm_downloads/operating-system-concepts/">http://alexispress.us/sdm_downloads/operating-system-concepts/</a>
An Examination of Operating System (OS) and Deployment of Its Infrastructure	<a href="http://alexispress.us/sdm_downloads/operating-system-concepts/">http://alexispress.us/sdm_downloads/operating-system-concepts/</a>
An Analysis for Initialization of Computer Architecture	<a href="http://alexispress.us/sdm_downloads/operating-system-concepts/">http://alexispress.us/sdm_downloads/operating-system-concepts/</a>
Improved Algorithms for creating Software Testing cases and the Use of Decision Graphs in Software Testing	<a href="http://alexispress.us/sdm_downloads/operating-system-concepts/">http://alexispress.us/sdm_downloads/operating-system-concepts/</a>
An Introduction of Dead Lock in Operating System and Illustrated its Causes and Preventions	<a href="http://alexispress.us/sdm_downloads/operating-system-concepts/">http://alexispress.us/sdm_downloads/operating-system-concepts/</a>
Data Placement Algorithm for Improving I/O Load Balance and High-Performance Scheduling Algorithms for Real-Time Multicore Systems	<a href="http://alexispress.us/sdm_downloads/operating-system-concepts/">http://alexispress.us/sdm_downloads/operating-system-concepts/</a>
Analyzing of Hybrid kernel and Microkernel Based Operating System	<a href="http://alexispress.us/sdm_downloads/operating-system-concepts/">http://alexispress.us/sdm_downloads/operating-system-concepts/</a>

An Analysis of Different Strategies for Software Development Life Cycle	<a href="http://alexispress.us/sdm_downloads/operating-system-concepts/">http://alexispress.us/sdm_downloads/operating-system-concepts/</a>
Software Testing Case Generation Algorithms and Parallel Software Testing Techniques	<a href="http://alexispress.us/sdm_downloads/operating-system-concepts/">http://alexispress.us/sdm_downloads/operating-system-concepts/</a>
An Analysis of Software Testing and its Importance	<a href="http://alexispress.us/sdm_downloads/operating-system-concepts/">http://alexispress.us/sdm_downloads/operating-system-concepts/</a>
An Assessment on Impact of IoT Technology in Agriculture Sector for Improving the Crops Productivity	<a href="http://alexispress.us/sdm_downloads/basics-of-internet-of-things/">http://alexispress.us/sdm_downloads/basics-of-internet-of-things/</a>
Advantages of IoT based Smart Agriculture System for Better Crops Monitoring and Productivity	<a href="http://alexispress.us/sdm_downloads/basics-of-internet-of-things/">http://alexispress.us/sdm_downloads/basics-of-internet-of-things/</a>
Exploration to Increase Productivity in Agriculture Sector by Using Internet of Things (IoT) Mesh Smart Network System	<a href="http://alexispress.us/sdm_downloads/basics-of-internet-of-things/">http://alexispress.us/sdm_downloads/basics-of-internet-of-things/</a>
An Analysis of Smart Farming with Applicability of Internet of Things (IoT) and Machine Learning (ML)	<a href="http://alexispress.us/sdm_downloads/basics-of-internet-of-things/">http://alexispress.us/sdm_downloads/basics-of-internet-of-things/</a>
Internet of Things (IoT) Enabled Healthcare: A Critical Analysis of Recent Frameworks With Current Challenges and Opportunities	<a href="http://alexispress.us/sdm_downloads/basics-of-internet-of-things/">http://alexispress.us/sdm_downloads/basics-of-internet-of-things/</a>
An Analysis of System Development for IoT-Based Motion Induction Motor	<a href="http://alexispress.us/sdm_downloads/basics-of-internet-of-things/">http://alexispress.us/sdm_downloads/basics-of-internet-of-things/</a>
An Analysis of Impact of Blockchain and IoT Technology Which is used in the Education Sector	<a href="http://alexispress.us/sdm_downloads/basics-of-internet-of-things/">http://alexispress.us/sdm_downloads/basics-of-internet-of-things/</a>
Environmental Pollution Monitoring System Using Intelligent Internet of Things (IoT) System	<a href="http://alexispress.us/sdm_downloads/basics-of-internet-of-things/">http://alexispress.us/sdm_downloads/basics-of-internet-of-things/</a>
Impact of IoT towards Home Automation and Security: Major Challenges and Solutions	<a href="http://alexispress.us/sdm_downloads/basics-of-internet-of-things/">http://alexispress.us/sdm_downloads/basics-of-internet-of-things/</a>
Applications for the Internet of Things and its smart applications	<a href="http://alexispress.us/sdm_downloads/basics-of-internet-of-things/">http://alexispress.us/sdm_downloads/basics-of-internet-of-things/</a>
Rural Healthcare Information System based on the Cloud Technology and Internet of Things (IOT)	<a href="http://alexispress.us/sdm_downloads/building-the-internet-of-things/">http://alexispress.us/sdm_downloads/building-the-internet-of-things/</a>
Patient Data Privacy and Security in Sensor-Cloud Infrastructure for a Smart Healthcare System Based on the Cloud-Internet of Things	<a href="http://alexispress.us/sdm_downloads/building-the-internet-of-things/">http://alexispress.us/sdm_downloads/building-the-internet-of-things/</a>
An Evaluation of Security Infrastructure with Blockchain in the Internet of Things (IoT)	<a href="http://alexispress.us/sdm_downloads/building-the-internet-of-things/">http://alexispress.us/sdm_downloads/building-the-internet-of-things/</a>

IoT Smart Monitor with Load Control and Secure IoT System Using Device Identity Management	<a href="http://alexispress.us/sdm_downloads/building-the-internet-of-things/">http://alexispress.us/sdm_downloads/building-the-internet-of-things/</a>
Traffic Management: Intelligent IoT-Based Traffic Light Management System and Multi-Scale Vehicle Detection in Varying Weather Conditions	<a href="http://alexispress.us/sdm_downloads/building-the-internet-of-things/">http://alexispress.us/sdm_downloads/building-the-internet-of-things/</a>
Emergency Security Optimization for IoT-Assisted Bank Liquidity Risk	<a href="http://alexispress.us/sdm_downloads/building-the-internet-of-things/">http://alexispress.us/sdm_downloads/building-the-internet-of-things/</a>
An Evaluation of Cyber-Infrastructure and Its Analysis Using the Internet of Things (IoT)	<a href="http://alexispress.us/sdm_downloads/building-the-internet-of-things/">http://alexispress.us/sdm_downloads/building-the-internet-of-things/</a>
An Analysis of Fog Cloud Technology and Its Deployment in the Internet of Things (IoT)	<a href="http://alexispress.us/sdm_downloads/building-the-internet-of-things/">http://alexispress.us/sdm_downloads/building-the-internet-of-things/</a>
An Analysis of the Internet of Things (IoT) and Its Deployment in the Agriculture	<a href="http://alexispress.us/sdm_downloads/building-the-internet-of-things/">http://alexispress.us/sdm_downloads/building-the-internet-of-things/</a>
A survey of Data Mining Techniques, Algorithms, and tools	<a href="http://alexispress.us/sdm_downloads/data-mining-and-big-data/">http://alexispress.us/sdm_downloads/data-mining-and-big-data/</a>
The Origination of Big Data and Its Different Kind of Uses	<a href="http://alexispress.us/sdm_downloads/data-mining-and-big-data/">http://alexispress.us/sdm_downloads/data-mining-and-big-data/</a>
An Evaluation of Big Data Hadoop with its Security Threats and Solution	<a href="http://alexispress.us/sdm_downloads/data-mining-and-big-data/">http://alexispress.us/sdm_downloads/data-mining-and-big-data/</a>
An Elaboration of Cost-effective Data Mining and Its Applications	<a href="http://alexispress.us/sdm_downloads/data-mining-and-big-data/">http://alexispress.us/sdm_downloads/data-mining-and-big-data/</a>
A Comprehensive Study on Big Data and Its Uses in Smart Grid Systems	<a href="http://alexispress.us/sdm_downloads/data-mining-and-big-data/">http://alexispress.us/sdm_downloads/data-mining-and-big-data/</a>
Data Mining in Experimental Bioinformatics and Text Mining Perspectives on Data Mining	<a href="http://alexispress.us/sdm_downloads/data-mining-and-big-data/">http://alexispress.us/sdm_downloads/data-mining-and-big-data/</a>
Medical and Analysis System Using Big Data Analytics	<a href="http://alexispress.us/sdm_downloads/data-mining-and-big-data/">http://alexispress.us/sdm_downloads/data-mining-and-big-data/</a>
An Evaluation of Data Science and Its Deployment in the Intelligent Transportation System (ITS)	<a href="http://alexispress.us/sdm_downloads/data-mining-and-big-data/">http://alexispress.us/sdm_downloads/data-mining-and-big-data/</a>
Fuzzy Computation and Integrated Data Center Load Reduction for English Documents	<a href="http://alexispress.us/sdm_downloads/data-mining-and-big-data/">http://alexispress.us/sdm_downloads/data-mining-and-big-data/</a>
An Analysis of Application of Data Mining with its Tools and Challenges	<a href="http://alexispress.us/sdm_downloads/data-mining-and-big-data/">http://alexispress.us/sdm_downloads/data-mining-and-big-data/</a>
Review of Healthcare using Big Data Analytics Framework and Data Communications	<a href="http://alexispress.us/sdm_downloads/data-mining-and-big-data/">http://alexispress.us/sdm_downloads/data-mining-and-big-data/</a>
The Evolution of Cyber Security Threats and Digital Safety in Modern Times	<a href="http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/">http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/</a>
Cyber Security and Its Various Applications in Assaults	<a href="http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/">http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/</a>

An Analysis of Testing Assistance Programs for Plagiarism Detection	<a href="http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/">http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/</a>
An Analysis of Ethical Hacking Methods and the Various Hacking Phases	<a href="http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/">http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/</a>
Detection of Covid-19 Using Different Single and Hybrid Feature Optimization Technique	<a href="http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/">http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/</a>
A Comparative hybrid model on Android Malware Detection	<a href="http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/">http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/</a>
An Improved Model for Android Malware Detection Using Enhanced KNN Classifier and LSTM	<a href="http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/">http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/</a>
An Analysis of Ethical Hacking and Its Threat and Its Solution	<a href="http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/">http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/</a>
A Comprehensive Study on Android Malware Detection Static and Dynamic Approaches	<a href="http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/">http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/</a>
Cyber Crime Challenges and its Emerging Trends of New Technologies	<a href="http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/">http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/</a>
An Enhanced Method of Cyber-Physical System for Transportation Management in Smart Cities and Traffic Signal Control Based on Cyber-Physical System	<a href="http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/">http://alexispress.us/sdm_downloads/cyber-security-and-ethical-hacking/</a>
WOMEN'S PARTICIPATION IN INDIAN POLITICS AND THE MEDIA'S ROLE	<a href="http://alexispress.us/sdm_downloads/culture-and-society/">http://alexispress.us/sdm_downloads/culture-and-society/</a>
The Impact of Child Labour on Society	<a href="http://alexispress.us/sdm_downloads/culture-and-society/">http://alexispress.us/sdm_downloads/culture-and-society/</a>
Child Labour In India	<a href="http://alexispress.us/sdm_downloads/culture-and-society/">http://alexispress.us/sdm_downloads/culture-and-society/</a>
Role of Social Media and Modern Human Interactions	<a href="http://alexispress.us/sdm_downloads/culture-and-society/">http://alexispress.us/sdm_downloads/culture-and-society/</a>
Sexual Identity, Aging, and Active Aging Economics	<a href="http://alexispress.us/sdm_downloads/culture-and-society/">http://alexispress.us/sdm_downloads/culture-and-society/</a>
An Outline of the Anti-Vaccination Movement's Web-based Strategies and Connotations	<a href="http://alexispress.us/sdm_downloads/culture-and-society/">http://alexispress.us/sdm_downloads/culture-and-society/</a>
A Comprehensive Review on: Dowry System in India	<a href="http://alexispress.us/sdm_downloads/culture-and-society/">http://alexispress.us/sdm_downloads/culture-and-society/</a>
The Humanities and Definition of Freedom	<a href="http://alexispress.us/sdm_downloads/culture-and-society/">http://alexispress.us/sdm_downloads/culture-and-society/</a>
Human Beings and Violence on Gender Basis	<a href="http://alexispress.us/sdm_downloads/culture-and-society/">http://alexispress.us/sdm_downloads/culture-and-society/</a>
An Human and Animal Sacrifice in Religion: A Review	<a href="http://alexispress.us/sdm_downloads/culture-and-society/">http://alexispress.us/sdm_downloads/culture-and-society/</a>
China's Urbanization Procedure and Ecological Natural Threats	<a href="http://alexispress.us/sdm_downloads/culture-and-society/">http://alexispress.us/sdm_downloads/culture-and-society/</a>
Analysing the Emerging Issues in Gender Studies	<a href="http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/">http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/</a>

A Study on Gender Based Violence	<a href="http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/">http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/</a>
A Review of Interests and Power Standards within the Politics of Networks	<a href="http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/">http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/</a>
The concern of child marriage in India	<a href="http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/">http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/</a>
A Comprehensive review on: Role of Education in Economic Growth	<a href="http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/">http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/</a>
A Review of Social Rituals, Cultural Pride, and Commemorative Conflicts Within Nationalism	<a href="http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/">http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/</a>
Freedom's Significance in the Development of Humanities	<a href="http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/">http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/</a>
Factor and Problem of Child Marriage in India	<a href="http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/">http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/</a>
Role of Effective Communication Skills for Business Development	<a href="http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/">http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/</a>
A Study on the Role of Religion and Spirituality in Mental Health	<a href="http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/">http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/</a>
Measuring and Analysing, Education and Gender Equality in the Schools	<a href="http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/">http://alexispress.us/sdm_downloads/civil-society-and-gender-justice/</a>
A Report on Animal Welfare Impacts on Animals Rights around the World	<a href="http://alexispress.us/sdm_downloads/modern-era-civil-society/">http://alexispress.us/sdm_downloads/modern-era-civil-society/</a>
Human Being's Over Dependence on Modern Day Technology: A Comprehensive Study	<a href="http://alexispress.us/sdm_downloads/modern-era-civil-society/">http://alexispress.us/sdm_downloads/modern-era-civil-society/</a>
A Study on Early Marriages in the Modern Era and Preservation of their Characteristics	<a href="http://alexispress.us/sdm_downloads/modern-era-civil-society/">http://alexispress.us/sdm_downloads/modern-era-civil-society/</a>
An Investigation of Positive and Negative Impacts of Mobile Technology on Human Relationships	<a href="http://alexispress.us/sdm_downloads/modern-era-civil-society/">http://alexispress.us/sdm_downloads/modern-era-civil-society/</a>
Investigation into the Specificity of Growing up in an LGBTQ Family	<a href="http://alexispress.us/sdm_downloads/modern-era-civil-society/">http://alexispress.us/sdm_downloads/modern-era-civil-society/</a>
Poverty Overview: A Social Issue that is Raised in the Dimensions of Countries	<a href="http://alexispress.us/sdm_downloads/modern-era-civil-society/">http://alexispress.us/sdm_downloads/modern-era-civil-society/</a>
Analysis of the Influence of E-commerce on Traveling and Tourism for Development of the Country	<a href="http://alexispress.us/sdm_downloads/modern-era-civil-society/">http://alexispress.us/sdm_downloads/modern-era-civil-society/</a>
Gender Inequality in the Educational System and Its Impacts on Mental Health of Students	<a href="http://alexispress.us/sdm_downloads/modern-era-civil-society/">http://alexispress.us/sdm_downloads/modern-era-civil-society/</a>
Suicide Fatalities in India: Gender Differences and State Variances	<a href="http://alexispress.us/sdm_downloads/modern-era-civil-society/">http://alexispress.us/sdm_downloads/modern-era-civil-society/</a>
A Study on Social Environment that makes People Migrate to Cities	<a href="http://alexispress.us/sdm_downloads/modern-era-civil-society/">http://alexispress.us/sdm_downloads/modern-era-civil-society/</a>

The Impact of Children's Labour on Civilization Leadership in the New Millennium	<a href="http://alexispress.us/sdm_downloads/modern-era-civil-society/">http://alexispress.us/sdm_downloads/modern-era-civil-society/</a>
A Comprehensive Study on the Importance of Cultural Arts in Education	<a href="http://alexispress.us/sdm_downloads/modern-era-civil-society/">http://alexispress.us/sdm_downloads/modern-era-civil-society/</a>
A Study on the Health Problem Arising due to Excessive Consumption of Alcohol and Prevention Strategies	<a href="http://alexispress.us/sdm_downloads/multivariate-humanities/">http://alexispress.us/sdm_downloads/multivariate-humanities/</a>
Facebook's Interactive Promotional Activities and Enhance Market Profitability	<a href="http://alexispress.us/sdm_downloads/multivariate-humanities/">http://alexispress.us/sdm_downloads/multivariate-humanities/</a>
A study about the major causes of alcohol drinking in the majority of the population	<a href="http://alexispress.us/sdm_downloads/multivariate-humanities/">http://alexispress.us/sdm_downloads/multivariate-humanities/</a>
A Study about the Impact and Prevention of Teen Pregnancy on Society	<a href="http://alexispress.us/sdm_downloads/multivariate-humanities/">http://alexispress.us/sdm_downloads/multivariate-humanities/</a>
A Language Problem Faced by People in Different Parts of India	<a href="http://alexispress.us/sdm_downloads/multivariate-humanities/">http://alexispress.us/sdm_downloads/multivariate-humanities/</a>
The Importance of World Trade Organization to market forces	<a href="http://alexispress.us/sdm_downloads/multivariate-humanities/">http://alexispress.us/sdm_downloads/multivariate-humanities/</a>
A study about the Impact and Benefits of Art Therapy in our Lives	<a href="http://alexispress.us/sdm_downloads/multivariate-humanities/">http://alexispress.us/sdm_downloads/multivariate-humanities/</a>
An Analysis of the Role of Social Media during Covid19 Pandemic	<a href="http://alexispress.us/sdm_downloads/multivariate-humanities/">http://alexispress.us/sdm_downloads/multivariate-humanities/</a>
Social Media Impact on the Society with the Political Decisions	<a href="http://alexispress.us/sdm_downloads/multivariate-humanities/">http://alexispress.us/sdm_downloads/multivariate-humanities/</a>
Impacts of Poverty in Rural Communities of the India	<a href="http://alexispress.us/sdm_downloads/multivariate-humanities/">http://alexispress.us/sdm_downloads/multivariate-humanities/</a>
A Role of Technology in Health Services for Better Development of Society	<a href="http://alexispress.us/sdm_downloads/multivariate-humanities/">http://alexispress.us/sdm_downloads/multivariate-humanities/</a>
The Relationship between Social Media and its Addiction with Prevention	<a href="http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/">http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/</a>
A Systematic Evaluation on Benefits of Teamwork Approach in Medical Education	<a href="http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/">http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/</a>
Exploring the Importance of Maori Culture in the New-Zealand and Their Communal War Dance Haka	<a href="http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/">http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/</a>
Application of Art Therapy for Mental and Social Development of Children	<a href="http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/">http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/</a>
The Role of Women's Leadership Positions in Various Fields	<a href="http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/">http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/</a>
A Comprehensive of Art Fairs Evolution within Ancient World	<a href="http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/">http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/</a>
Depiction on the History of Mayan Culture in the Arts	<a href="http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/">http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/</a>
Recognizing the Effects of Social Media Exposure for the Development of Today's Kids	<a href="http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/">http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/</a>

An Analysis of Emerging Issues Faced By Transgender Community and Their Possible Solution	<a href="http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/">http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/</a>
A Systematic Analysis of Mobile Phone Addiction on Youth and Its Causes	<a href="http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/">http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/</a>
MENTAL HEALTH: THE REASONS, AND DEALING WITH IT	<a href="http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/">http://alexispress.us/sdm_downloads/pedagogy-of-social-sciences/</a>
Studying Social Behavior for More Effective Advertising	<a href="http://alexispress.us/sdm_downloads/humanities-and-social-science/">http://alexispress.us/sdm_downloads/humanities-and-social-science/</a>
An Evaluation of the Developing Food System, Agriculture with Meeting its Challenge	<a href="http://alexispress.us/sdm_downloads/humanities-and-social-science/">http://alexispress.us/sdm_downloads/humanities-and-social-science/</a>
Women's Involvement and Empowerment in the Indian Community	<a href="http://alexispress.us/sdm_downloads/humanities-and-social-science/">http://alexispress.us/sdm_downloads/humanities-and-social-science/</a>
Effects of Becoming a Counseling Psychologist	<a href="http://alexispress.us/sdm_downloads/humanities-and-social-science/">http://alexispress.us/sdm_downloads/humanities-and-social-science/</a>
An Analysis of Junk Food and Its Consequences on Human Life	<a href="http://alexispress.us/sdm_downloads/humanities-and-social-science/">http://alexispress.us/sdm_downloads/humanities-and-social-science/</a>
An Analysis of the Factors Affecting Adolescence and the Deployment of Its Development	<a href="http://alexispress.us/sdm_downloads/humanities-and-social-science/">http://alexispress.us/sdm_downloads/humanities-and-social-science/</a>
A Systematic Research of Current Scenario of Unemployment in India and Its Impact on Nation and Solution	<a href="http://alexispress.us/sdm_downloads/humanities-and-social-science/">http://alexispress.us/sdm_downloads/humanities-and-social-science/</a>
An Exploratory Study on Race and Ethnicity	<a href="http://alexispress.us/sdm_downloads/humanities-and-social-science/">http://alexispress.us/sdm_downloads/humanities-and-social-science/</a>
An Analysis of the Social Media Addiction and Its Causes of Drawbacks	<a href="http://alexispress.us/sdm_downloads/humanities-and-social-science/">http://alexispress.us/sdm_downloads/humanities-and-social-science/</a>
An Elaboration of Blog and Vlog with its Social Impact	<a href="http://alexispress.us/sdm_downloads/humanities-and-social-science/">http://alexispress.us/sdm_downloads/humanities-and-social-science/</a>
Syncruitizing the impact if population explosion in india	<a href="http://alexispress.us/sdm_downloads/humanities-and-social-science/">http://alexispress.us/sdm_downloads/humanities-and-social-science/</a>
Role of Youth Nongovernmental Organization (NGOs) in National Politics	<a href="http://alexispress.us/sdm_downloads/humanities-and-social-science/">http://alexispress.us/sdm_downloads/humanities-and-social-science/</a>
The Influence of Academic Education for Preventing Child Labour in Indian Society	<a href="http://alexispress.us/sdm_downloads/business-management/">http://alexispress.us/sdm_downloads/business-management/</a>
A Study about Project Management and its Use in Business Tools	<a href="http://alexispress.us/sdm_downloads/business-management/">http://alexispress.us/sdm_downloads/business-management/</a>
An analysis of the Different Religions that have existed in the World since Ancient Times	<a href="http://alexispress.us/sdm_downloads/business-management/">http://alexispress.us/sdm_downloads/business-management/</a>
Analysis the Factors of Time Management and Operations Scheduling in organizations	<a href="http://alexispress.us/sdm_downloads/business-management/">http://alexispress.us/sdm_downloads/business-management/</a>
Function of Commonly Used Business Tactics Make Better Management Decisions	<a href="http://alexispress.us/sdm_downloads/business-management/">http://alexispress.us/sdm_downloads/business-management/</a>

Tools for Strategic Planning in Corporate for make better Organization	<a href="http://alexispress.us/sdm_downloads/business-management/">http://alexispress.us/sdm_downloads/business-management/</a>
Factor Influencing Make-or-Buy Decisions: A Dynamic study	<a href="http://alexispress.us/sdm_downloads/business-management/">http://alexispress.us/sdm_downloads/business-management/</a>
A Study on Concept and Requirement Enterprise Resource Planning and its Benefits	<a href="http://alexispress.us/sdm_downloads/business-management/">http://alexispress.us/sdm_downloads/business-management/</a>
Distribution Requirements Planning (DRP): An Emphasis on Process and its Dynamic Role	<a href="http://alexispress.us/sdm_downloads/business-management/">http://alexispress.us/sdm_downloads/business-management/</a>
An Analysis of Business Tools in Risk Management Strategy	<a href="http://alexispress.us/sdm_downloads/business-management/">http://alexispress.us/sdm_downloads/business-management/</a>
Improving the Process of New Product Development with the Lessons Learnt From SWOT Analysis	<a href="http://alexispress.us/sdm_downloads/business-management/">http://alexispress.us/sdm_downloads/business-management/</a>
A Comprehensive Study on Tourism's Contribution to Global Trade and Economic Growth in India	<a href="http://alexispress.us/sdm_downloads/operation-and-management/">http://alexispress.us/sdm_downloads/operation-and-management/</a>
Determinants of Consumer Perception towards Credit Card Use	<a href="http://alexispress.us/sdm_downloads/operation-and-management/">http://alexispress.us/sdm_downloads/operation-and-management/</a>
A Systematic Analysis of Ecommerce Technology and Its Trends in Networking	<a href="http://alexispress.us/sdm_downloads/operation-and-management/">http://alexispress.us/sdm_downloads/operation-and-management/</a>
A Recap of Inventory Management Methods and Factors Affecting Business	<a href="http://alexispress.us/sdm_downloads/operation-and-management/">http://alexispress.us/sdm_downloads/operation-and-management/</a>
An Analysis of the Issues and Challenges of the Mobile Banking in India	<a href="http://alexispress.us/sdm_downloads/operation-and-management/">http://alexispress.us/sdm_downloads/operation-and-management/</a>
An Analysis of the Workforce Effects on a Safety and Health Program	<a href="http://alexispress.us/sdm_downloads/operation-and-management/">http://alexispress.us/sdm_downloads/operation-and-management/</a>
A Comparison between economies of scale and economies of scope	<a href="http://alexispress.us/sdm_downloads/operation-and-management/">http://alexispress.us/sdm_downloads/operation-and-management/</a>
Planning the Capacity of Corporate Life and their Benefits in Businesses	<a href="http://alexispress.us/sdm_downloads/operation-and-management/">http://alexispress.us/sdm_downloads/operation-and-management/</a>
The Analysis of Team and Teamwork in An Organization	<a href="http://alexispress.us/sdm_downloads/operation-and-management/">http://alexispress.us/sdm_downloads/operation-and-management/</a>
An Examination of Strength, Weakness Opportunity and Threat (SWOT) Analysis	<a href="http://alexispress.us/sdm_downloads/operation-and-management/">http://alexispress.us/sdm_downloads/operation-and-management/</a>
The Environmental Forces Affect Business on a Large Scale	<a href="http://alexispress.us/sdm_downloads/operation-and-management/">http://alexispress.us/sdm_downloads/operation-and-management/</a>
The Role of Business Plans and Business Development in the Success of Organizations	<a href="http://alexispress.us/sdm_downloads/introduction-to-project-management/">http://alexispress.us/sdm_downloads/introduction-to-project-management/</a>
Explorative Study on the Effective Leadership in Health Care and Essential Skills for Healthcare Leadership	<a href="http://alexispress.us/sdm_downloads/introduction-to-project-management/">http://alexispress.us/sdm_downloads/introduction-to-project-management/</a>
An Analysis of Job Management System and Its Performance Evaluation	<a href="http://alexispress.us/sdm_downloads/introduction-to-project-management/">http://alexispress.us/sdm_downloads/introduction-to-project-management/</a>
A Comparison between the Angel Investors and Venture Capitalists	<a href="http://alexispress.us/sdm_downloads/introduction-to-project-management/">http://alexispress.us/sdm_downloads/introduction-to-project-management/</a>

The role of Strategic Alliances in promoting Global Supply Chain Management	<a href="http://alexispress.us/sdm_downloads/introduction-to-project-management/">http://alexispress.us/sdm_downloads/introduction-to-project-management/</a>
An Evaluation of Electronic Fund Transfer with its Security Threats and Solutions	<a href="http://alexispress.us/sdm_downloads/introduction-to-project-management/">http://alexispress.us/sdm_downloads/introduction-to-project-management/</a>
Exploring the Strategic thinking and Decision Making System in Corporate Culture	<a href="http://alexispress.us/sdm_downloads/introduction-to-project-management/">http://alexispress.us/sdm_downloads/introduction-to-project-management/</a>
An explorative study on the Architecture and Privacy of Digital Currency	<a href="http://alexispress.us/sdm_downloads/introduction-to-project-management/">http://alexispress.us/sdm_downloads/introduction-to-project-management/</a>
An Analysis of Strategy in the Global Environment	<a href="http://alexispress.us/sdm_downloads/introduction-to-project-management/">http://alexispress.us/sdm_downloads/introduction-to-project-management/</a>
An Explorative Study on Mass Media Communication and Its Social Impact	<a href="http://alexispress.us/sdm_downloads/introduction-to-project-management/">http://alexispress.us/sdm_downloads/introduction-to-project-management/</a>
An Analysis of Information System Risks and Risk Factors and User Participation in Risk Management	<a href="http://alexispress.us/sdm_downloads/introduction-to-project-management/">http://alexispress.us/sdm_downloads/introduction-to-project-management/</a>
An Exploration of Contingency Approach in Management	<a href="http://alexispress.us/sdm_downloads/organizational-development/">http://alexispress.us/sdm_downloads/organizational-development/</a>
A Comprehensive Study on the Impacts of Corporate Culture on Business and its Employee	<a href="http://alexispress.us/sdm_downloads/organizational-development/">http://alexispress.us/sdm_downloads/organizational-development/</a>
An Approach of Customer Relationship Management (CRM) in Businesses	<a href="http://alexispress.us/sdm_downloads/organizational-development/">http://alexispress.us/sdm_downloads/organizational-development/</a>
An Analytical Study on Role of Outsourcing in Organization: Business Strategy and Cost Saving Measures	<a href="http://alexispress.us/sdm_downloads/organizational-development/">http://alexispress.us/sdm_downloads/organizational-development/</a>
Sympathetic the Role and Methods of Meta-Analysis	<a href="http://alexispress.us/sdm_downloads/organizational-development/">http://alexispress.us/sdm_downloads/organizational-development/</a>
Role of Reinforcement Learning in Machine Learning: Methods to Maximize Reward in a Certain Circumstance	<a href="http://alexispress.us/sdm_downloads/organizational-development/">http://alexispress.us/sdm_downloads/organizational-development/</a>
The Implementation of Business Process Reengineering (BPR) for Businesses	<a href="http://alexispress.us/sdm_downloads/organizational-development/">http://alexispress.us/sdm_downloads/organizational-development/</a>
Analyze Human Communication and Behavior: A Study	<a href="http://alexispress.us/sdm_downloads/organizational-development/">http://alexispress.us/sdm_downloads/organizational-development/</a>
Analysis the Decisions Making Based On Multiple Criteria in Marketing	<a href="http://alexispress.us/sdm_downloads/organizational-development/">http://alexispress.us/sdm_downloads/organizational-development/</a>
Empirical Study on the Goal, and Process of Management Audit	<a href="http://alexispress.us/sdm_downloads/organizational-development/">http://alexispress.us/sdm_downloads/organizational-development/</a>
Role of education in future with modern technologies	<a href="http://alexispress.us/sdm_downloads/intelligent-electrical-systems/">http://alexispress.us/sdm_downloads/intelligent-electrical-systems/</a>
Renewable Energy harvesting using Piezoelectric install at Railway Platform with Artificial Intelligence	<a href="http://alexispress.us/sdm_downloads/intelligent-electrical-systems/">http://alexispress.us/sdm_downloads/intelligent-electrical-systems/</a>
SOLAR-WIND HYBRID POWER GENERATION SYSTEM WITH ARTIFICIAL INTELLIGENCE	<a href="http://alexispress.us/sdm_downloads/intelligent-electrical-systems/">http://alexispress.us/sdm_downloads/intelligent-electrical-systems/</a>

Protection System for Universal motor using Internet of Things	<a href="http://alexispress.us/sdm_downloads/intelligent-electrical-systems/">http://alexispress.us/sdm_downloads/intelligent-electrical-systems/</a>
Micro Hydropower generation and distribution using Artificial Intelligence	<a href="http://alexispress.us/sdm_downloads/intelligent-electrical-systems/">http://alexispress.us/sdm_downloads/intelligent-electrical-systems/</a>
Microcontroller based electrical Power Theft Monitoring System	<a href="http://alexispress.us/sdm_downloads/intelligent-electrical-systems/">http://alexispress.us/sdm_downloads/intelligent-electrical-systems/</a>
Substation Monitoring and Control Based on Microcontroller with Artificial Intelligence	<a href="http://alexispress.us/sdm_downloads/intelligent-electrical-systems/">http://alexispress.us/sdm_downloads/intelligent-electrical-systems/</a>
Design of an Automatic Irrigation System Using Soil Moisture Content and Arduino Uno Microcontroller	<a href="http://alexispress.us/sdm_downloads/intelligent-electrical-systems/">http://alexispress.us/sdm_downloads/intelligent-electrical-systems/</a>
Briefly Analysis of the Fire Alarm and Fire Detection Model Which Made With Multiple Logic and Sensors.	<a href="http://alexispress.us/sdm_downloads/intelligent-electrical-systems/">http://alexispress.us/sdm_downloads/intelligent-electrical-systems/</a>
A Smart Home Electric Energy Management system with help of the Internet of Things (IOTs)	<a href="http://alexispress.us/sdm_downloads/intelligent-electrical-systems/">http://alexispress.us/sdm_downloads/intelligent-electrical-systems/</a>
Impact of covid-19 on small business	<a href="http://alexispress.us/sdm_downloads/modern-electrical-engineering/">http://alexispress.us/sdm_downloads/modern-electrical-engineering/</a>
A Comprehensive Study On Electric Vehicle and Its Sensor	<a href="http://alexispress.us/sdm_downloads/modern-electrical-engineering/">http://alexispress.us/sdm_downloads/modern-electrical-engineering/</a>
A Review on Electrical Energy Management in Smart Homes	<a href="http://alexispress.us/sdm_downloads/modern-electrical-engineering/">http://alexispress.us/sdm_downloads/modern-electrical-engineering/</a>
A Current Scenario on Lithium-Ion Battery Flammable in Electric Vehicles	<a href="http://alexispress.us/sdm_downloads/modern-electrical-engineering/">http://alexispress.us/sdm_downloads/modern-electrical-engineering/</a>
Life Analysis of Lithium-ion Electric Vehicle Battery	<a href="http://alexispress.us/sdm_downloads/modern-electrical-engineering/">http://alexispress.us/sdm_downloads/modern-electrical-engineering/</a>
Study on Various Types of Insulator used in Electrical System.	<a href="http://alexispress.us/sdm_downloads/modern-electrical-engineering/">http://alexispress.us/sdm_downloads/modern-electrical-engineering/</a>
A Comprehensive Study on Various Circuit Breakers Along with Their Applications in Electrical System	<a href="http://alexispress.us/sdm_downloads/modern-electrical-engineering/">http://alexispress.us/sdm_downloads/modern-electrical-engineering/</a>
Impact and Benefits of Electric Vehicles on the Environment	<a href="http://alexispress.us/sdm_downloads/modern-electrical-engineering/">http://alexispress.us/sdm_downloads/modern-electrical-engineering/</a>
An Exploration of the Overhead Cable and Underground Cable in the Electrical System	<a href="http://alexispress.us/sdm_downloads/modern-electrical-engineering/">http://alexispress.us/sdm_downloads/modern-electrical-engineering/</a>
Brushless DC Motor Position and Speed Control Using Different Methods	<a href="http://alexispress.us/sdm_downloads/modern-electrical-engineering/">http://alexispress.us/sdm_downloads/modern-electrical-engineering/</a>
Rooftop Solar Power Generation for Education Institutions	<a href="http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/">http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/</a>
A Comprehensive Study on Supervisory Control and Data Acquisition (SCADA) and Its Various Applications in Power System	<a href="http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/">http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/</a>
Comparison and Efficiency of Different Types of Power Plants in India	<a href="http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/">http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/</a>

An Analysis on Energy Efficiency for the Advancement of Electric Vehicle and Hybrid Electric Vehicle Regenerative Energy	<a href="http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/">http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/</a>
A comparative study on Non- Renewable and Renewable Energy Resources	<a href="http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/">http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/</a>
Analyzing the Different Methods of Electricity Generation from Wind Energy	<a href="http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/">http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/</a>
Design and Construction of a Solar Energy Based Inverter for Domestic Applications	<a href="http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/">http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/</a>
Review on improving the efficiency of renewable energy using solar energy.	<a href="http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/">http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/</a>
Design and Construction of a New Architecture for Electric Vehicle Charging: Hybrid Charging Stations Powered with Solar Energy	<a href="http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/">http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/</a>
Development of Hybrid Electricity Generation System using Wind and Solar Energy	<a href="http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/">http://alexispress.us/sdm_downloads/electric-power-and-energy-systems/</a>
Recent Trends and Future Challenges to Design Wireless Sensor Networks	<a href="http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/">http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/</a>
Recent Trends and Future Challenges in the Field of Satellite Communication	<a href="http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/">http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/</a>
Recent Trends and Future Challenges in the Field of Wireless Communication	<a href="http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/">http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/</a>
Hybrid Model of Vehicle Security and Speed Control System	<a href="http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/">http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/</a>
Enhanced Irrigation Model Which Is Based On the PhotoVoltaic Cell and Drip Irrigation Concept	<a href="http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/">http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/</a>
A Comparison between Microprocessor and Microcontroller based Different Properties and its Application	<a href="http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/">http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/</a>
Embedded Systems Design Challenges and Solutions: A Comprehensive Review	<a href="http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/">http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/</a>
A Comprehensive Study on Ultrasonic Sensor and Distance Measurement from It	<a href="http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/">http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/</a>
A Comprehensive Study on Different Types of Antenna and Their Effective Use in Communication	<a href="http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/">http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/</a>
A Comprehensive Study of Optical Fiber and Its Advantages and Disadvantages in Different Aspects.	<a href="http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/">http://alexispress.us/sdm_downloads/principles-of-electronics-engineering/</a>
Analysis on the Benefits of Smart Irrigation System to Improve the Productivity of Crops	<a href="http://alexispress.us/sdm_downloads/smart-electronic-system-design/">http://alexispress.us/sdm_downloads/smart-electronic-system-design/</a>

Exploring the Applications of the Internet of Things (IoT) in Agriculture Techniques to Increase the Production	<a href="http://alexispress.us/sdm_downloads/smart-electronic-system-design/">http://alexispress.us/sdm_downloads/smart-electronic-system-design/</a>
Analysis of the Smart Home Automation System using Various Technologies	<a href="http://alexispress.us/sdm_downloads/smart-electronic-system-design/">http://alexispress.us/sdm_downloads/smart-electronic-system-design/</a>
Developing a System Using Soil Moisture Sensor with the Internet of Things to Control the Irrigation	<a href="http://alexispress.us/sdm_downloads/smart-electronic-system-design/">http://alexispress.us/sdm_downloads/smart-electronic-system-design/</a>
Review of an Application of Internet of Things under the Education Sectors for Enhancement in Education System	<a href="http://alexispress.us/sdm_downloads/smart-electronic-system-design/">http://alexispress.us/sdm_downloads/smart-electronic-system-design/</a>
Recent Trends and Future Challenges of IoT Deployment in Agriculture Sector for Farm Management	<a href="http://alexispress.us/sdm_downloads/smart-electronic-system-design/">http://alexispress.us/sdm_downloads/smart-electronic-system-design/</a>
Create a Smart Theft Detection System for Maintaining Security and Safety using Passive Infrared Sensors (PIR)	<a href="http://alexispress.us/sdm_downloads/smart-electronic-system-design/">http://alexispress.us/sdm_downloads/smart-electronic-system-design/</a>
Designing the Smart Home Security System by Implementing Smart Sensors with Arduino	<a href="http://alexispress.us/sdm_downloads/smart-electronic-system-design/">http://alexispress.us/sdm_downloads/smart-electronic-system-design/</a>
Propose a Hybrid Model with Implementation of Drip Concept and Smart Irrigation System Which Based On the Microcontroller	<a href="http://alexispress.us/sdm_downloads/smart-electronic-system-design/">http://alexispress.us/sdm_downloads/smart-electronic-system-design/</a>
Enhanced model of smart parking system using Radio Frequency Identification (RFID) and Wi-Fi module.	<a href="http://alexispress.us/sdm_downloads/smart-electronic-system-design/">http://alexispress.us/sdm_downloads/smart-electronic-system-design/</a>
Social Media Brings People Together or Separates Them from Each Other: An Extensive Report	<a href="http://alexispress.us/sdm_downloads/advanced-electronic-systems/">http://alexispress.us/sdm_downloads/advanced-electronic-systems/</a>
A Study on the Advancement of 5G Radio Infrastructure and Its Regulation in the New Millennium	<a href="http://alexispress.us/sdm_downloads/advanced-electronic-systems/">http://alexispress.us/sdm_downloads/advanced-electronic-systems/</a>
An Analysis of Healthcare Using Radio Frequency Identification (RFID) Technology	<a href="http://alexispress.us/sdm_downloads/advanced-electronic-systems/">http://alexispress.us/sdm_downloads/advanced-electronic-systems/</a>
An Exploration of the Rooftop Solar Energy Generation for Institutions	<a href="http://alexispress.us/sdm_downloads/advanced-electronic-systems/">http://alexispress.us/sdm_downloads/advanced-electronic-systems/</a>
A Comprehensive Study and Systematic Analysis of Radio Frequency Identification (RFID) In Logistic Management	<a href="http://alexispress.us/sdm_downloads/advanced-electronic-systems/">http://alexispress.us/sdm_downloads/advanced-electronic-systems/</a>
Understanding of Microcontroller and Its Application with Technical Devices	<a href="http://alexispress.us/sdm_downloads/advanced-electronic-systems/">http://alexispress.us/sdm_downloads/advanced-electronic-systems/</a>
An Analysis of Bluetooth Technology and Its Security Assaults	<a href="http://alexispress.us/sdm_downloads/advanced-electronic-systems/">http://alexispress.us/sdm_downloads/advanced-electronic-systems/</a>
An evolution of wireless technology in telecommunication sector from 1G to 5G	<a href="http://alexispress.us/sdm_downloads/advanced-electronic-systems/">http://alexispress.us/sdm_downloads/advanced-electronic-systems/</a>

An Analysis of Embedded System and Its Deployment Using Software Code	<a href="http://alexispress.us/sdm_downloads/advanced-electronic-systems/">http://alexispress.us/sdm_downloads/advanced-electronic-systems/</a>
A Comprehensive Study on the Various Routing Protocols in MANETs	<a href="http://alexispress.us/sdm_downloads/advanced-electronic-systems/">http://alexispress.us/sdm_downloads/advanced-electronic-systems/</a>
Growing up Under "Greenhouse Gases": How Climate Change Leaves Boys and Girls Vulnerable	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/">http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/</a>
An Analysis of The Renewable and Sustainable Energy Sources	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/">http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/</a>
Revisit to Climate Change Effects on Biodiversity with Special Emphasis on Adaptation and Mitigation Strategies	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/">http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/</a>
Effects of Climate Change on Aquaculture Production and Possible Mitigation and Adaptation Strategies	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/">http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/</a>
Product Design for the Environment: A Life Cycle Approach	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/">http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/</a>
An Analysis of the Hydrogen Production as Renewable Energy	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/">http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/</a>
Solid-waste management is the collection, handling, and disposal of solid waste that is thrown away after serving its purpose or to become unusable. The main objective of solid waste management is to By recovering energy and materials from solid waste, solid waste management seeks to limit the amount of waste that is dumped on land. Solid waste management is crucial for the proper disposal of wastes, for lowering environmental pollution, and for preventing any potential health risks. The future of waste management will see the conversion of garbage into energy, IoT-enabled practices, and breakthroughs in monitoring systems, data gathering, and many other technological developments. The trash are gathered from various sources and disposed of during the waste management process. The collection, transportation, treatment, analysis, and disposal of waste are all part of this process.	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/">http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/</a>
Green Marketing Roles and Responsibilities with the Hotel Industry	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/">http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/</a>
An Analysis of Carbon Foot Prints and Its Deployment in Nature	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/">http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/</a>

An Analysis of Zero Budget Natural Farming (ZBNF) and Its Deployment in the Nature	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/">http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/</a>
An Evaluation of Plastic Pollution and Its Harmful Effect in the Nature	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/">http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/</a>
STUDY AND INVESTING THE INFLUENCE OF RENEWABLE ENERGY	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/">http://alexispress.us/sdm_downloads/fundamentals-of-environment-science/</a>
An Analysis on Recognizing the Effects on Environment and Human Health Due to Pollution Releasing From the Vehicles	<a href="http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/">http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/</a>
Applications of Remote Sensing and Geographic Information Systems (GIS) in Several Fields	<a href="http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/">http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/</a>
A Cross-Sectional Survey on the Negative Effects of Deforestation on the Environment and Vegetation	<a href="http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/">http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/</a>
A Novel Approach and Perspective for Polymer and Plastics	<a href="http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/">http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/</a>
Effects of Noise Pollution on Human Health and the Environment	<a href="http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/">http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/</a>
Investigating the Association Between Air Pollution and the Development of Cardiovascular Diseases	<a href="http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/">http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/</a>
A radical analysis of Perovskite solar cell	<a href="http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/">http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/</a>
An Exploration of the Worries and Risks of Contaminating Aquatic Ecosystems	<a href="http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/">http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/</a>
An Exploratory Study in the Prevention and Treatment of Lead Poisoning	<a href="http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/">http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/</a>
Impact of virtual Reality on modern world	<a href="http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/">http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/</a>
Study of Environment Protection and their Management	<a href="http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/">http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/</a>
Impact of climatic change in the environment	<a href="http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/">http://alexispress.us/sdm_downloads/current-issues-of-environment-and-ecology/</a>
Role of Machine Designs in Manufacturing for the Industrial Development	<a href="http://alexispress.us/sdm_downloads/applied-mechanical-engineering/">http://alexispress.us/sdm_downloads/applied-mechanical-engineering/</a>
Importance of Fluid Mechanics in Developing Rotor Machines for Different Fluids	<a href="http://alexispress.us/sdm_downloads/applied-mechanical-engineering/">http://alexispress.us/sdm_downloads/applied-mechanical-engineering/</a>
Analysis on the Pseudoelasticity and Shape Memory for Metallic Nanowires	<a href="http://alexispress.us/sdm_downloads/applied-mechanical-engineering/">http://alexispress.us/sdm_downloads/applied-mechanical-engineering/</a>
Approaches To Improve Non-Destructive Examination Using Sensors for Simple Harmonic Motion	<a href="http://alexispress.us/sdm_downloads/applied-mechanical-engineering/">http://alexispress.us/sdm_downloads/applied-mechanical-engineering/</a>
Analysis on the Importance of 2-D Designs in the Different Product Designing In Assembly Line	<a href="http://alexispress.us/sdm_downloads/applied-mechanical-engineering/">http://alexispress.us/sdm_downloads/applied-mechanical-engineering/</a>

Approaches on the Applications of Solid Mechanics in Different Industrial Components	<a href="http://alexispress.us/sdm_downloads/applied-mechanical-engineering/">http://alexispress.us/sdm_downloads/applied-mechanical-engineering/</a>
evaluation and investigation on alkaline fuel cells	<a href="http://alexispress.us/sdm_downloads/applied-mechanical-engineering/">http://alexispress.us/sdm_downloads/applied-mechanical-engineering/</a>
REVIEW AND ANALYSIS OF ALTERNATIVE FUEL AND ITS FUTURE SCPE	<a href="http://alexispress.us/sdm_downloads/applied-mechanical-engineering/">http://alexispress.us/sdm_downloads/applied-mechanical-engineering/</a>
analysis of fuel injection dependbilty on improvement of emission reduction	<a href="http://alexispress.us/sdm_downloads/applied-mechanical-engineering/">http://alexispress.us/sdm_downloads/applied-mechanical-engineering/</a>
An Analysis on a New Gear Finishing Technique for Highly Loaded Gears	<a href="http://alexispress.us/sdm_downloads/mechanical-engineering-design/">http://alexispress.us/sdm_downloads/mechanical-engineering-design/</a>
Analyzing the Applications of Injection Molding In the Manufacturing of Various Components Using Different Materials	<a href="http://alexispress.us/sdm_downloads/mechanical-engineering-design/">http://alexispress.us/sdm_downloads/mechanical-engineering-design/</a>
Analysis of Vibrations Occurred In Various Machines Using Theory of Machines	<a href="http://alexispress.us/sdm_downloads/mechanical-engineering-design/">http://alexispress.us/sdm_downloads/mechanical-engineering-design/</a>
Design And Construction of a Hybrid Arc Welding Machine Using Inverters	<a href="http://alexispress.us/sdm_downloads/mechanical-engineering-design/">http://alexispress.us/sdm_downloads/mechanical-engineering-design/</a>
Design and Construction of a Double Hacksaw Machine with Automatic Cooling Power for Multiple Applications	<a href="http://alexispress.us/sdm_downloads/mechanical-engineering-design/">http://alexispress.us/sdm_downloads/mechanical-engineering-design/</a>
Prospective and Inspection of Electromagnetic Braking System	<a href="http://alexispress.us/sdm_downloads/mechanical-engineering-design/">http://alexispress.us/sdm_downloads/mechanical-engineering-design/</a>
Assortment and evaluation of solenoid engine with energy systems	<a href="http://alexispress.us/sdm_downloads/mechanical-engineering-design/">http://alexispress.us/sdm_downloads/mechanical-engineering-design/</a>
Possibility and investigation of Mechanical wire Arc Additive Manufacturing	<a href="http://alexispress.us/sdm_downloads/mechanical-engineering-design/">http://alexispress.us/sdm_downloads/mechanical-engineering-design/</a>
Assessment and Soundings of Ceramics Disc Brakes	<a href="http://alexispress.us/sdm_downloads/mechanical-engineering-design/">http://alexispress.us/sdm_downloads/mechanical-engineering-design/</a>
Application of Firefighter Assistance Robot for Different Fire Extinguishing Operations	<a href="http://alexispress.us/sdm_downloads/modern-mechanical-engineering/">http://alexispress.us/sdm_downloads/modern-mechanical-engineering/</a>
Structural Analysis of Hand Motion Controlled Robotic Arm	<a href="http://alexispress.us/sdm_downloads/modern-mechanical-engineering/">http://alexispress.us/sdm_downloads/modern-mechanical-engineering/</a>
Analysis on the Application of Fuzzy Logic in the Aircraft Stability in Various Conditions	<a href="http://alexispress.us/sdm_downloads/modern-mechanical-engineering/">http://alexispress.us/sdm_downloads/modern-mechanical-engineering/</a>
Discussing the development of the night vision technology system	<a href="http://alexispress.us/sdm_downloads/modern-mechanical-engineering/">http://alexispress.us/sdm_downloads/modern-mechanical-engineering/</a>
Visualizing the concept of engineering nanofiller materials in modern world	<a href="http://alexispress.us/sdm_downloads/modern-mechanical-engineering/">http://alexispress.us/sdm_downloads/modern-mechanical-engineering/</a>
An overview on Space Robotics in today's world	<a href="http://alexispress.us/sdm_downloads/modern-mechanical-engineering/">http://alexispress.us/sdm_downloads/modern-mechanical-engineering/</a>
The Role of the Robotics in Industrial Fields	<a href="http://alexispress.us/sdm_downloads/modern-mechanical-engineering/">http://alexispress.us/sdm_downloads/modern-mechanical-engineering/</a>
Assessment of Solar Powered Satellite in Modern World	<a href="http://alexispress.us/sdm_downloads/modern-mechanical-engineering/">http://alexispress.us/sdm_downloads/modern-mechanical-engineering/</a>

An Approach of Automated Collision Control Among vehicles by Using Magnetic and Infrared Sensor	<a href="http://alexispress.us/sdm_downloads/modern-mechanical-engineering/">http://alexispress.us/sdm_downloads/modern-mechanical-engineering/</a>
Teenager's Cybercrime Tendencies by the Overuse of Social Media	<a href="http://alexispress.us/sdm_downloads/mass-communication-and-social-media/">http://alexispress.us/sdm_downloads/mass-communication-and-social-media/</a>
Assessment of the Impact of Transition from Traditional Marketing to Digital Marketing	<a href="http://alexispress.us/sdm_downloads/mass-communication-and-social-media/">http://alexispress.us/sdm_downloads/mass-communication-and-social-media/</a>
Review of Social Media's Impact on Society and Students' Education, both Positively and Negatively	<a href="http://alexispress.us/sdm_downloads/mass-communication-and-social-media/">http://alexispress.us/sdm_downloads/mass-communication-and-social-media/</a>
A Comprehensive Study on the Role of Social Media for Start-ups and Businesses	<a href="http://alexispress.us/sdm_downloads/mass-communication-and-social-media/">http://alexispress.us/sdm_downloads/mass-communication-and-social-media/</a>
A Comprehensive Study on the Use of Social Media for Teaching and Learning Purposes	<a href="http://alexispress.us/sdm_downloads/mass-communication-and-social-media/">http://alexispress.us/sdm_downloads/mass-communication-and-social-media/</a>
Influence of Social Media Transformation in Journalism on News Reporting	<a href="http://alexispress.us/sdm_downloads/mass-communication-and-social-media/">http://alexispress.us/sdm_downloads/mass-communication-and-social-media/</a>
A Comprehensive Study on the Future Role and Interrelation between Advertisement and Marketing	<a href="http://alexispress.us/sdm_downloads/mass-communication-and-social-media/">http://alexispress.us/sdm_downloads/mass-communication-and-social-media/</a>
A Comprehensive Study on Electronic Commerce (E-Commerce) in India and Its Future Benefits for Business and Consumer	<a href="http://alexispress.us/sdm_downloads/mass-communication-and-social-media/">http://alexispress.us/sdm_downloads/mass-communication-and-social-media/</a>
Adoption and Important Roles of Social Media in the Future of Health Care Sectors	<a href="http://alexispress.us/sdm_downloads/mass-communication-and-social-media/">http://alexispress.us/sdm_downloads/mass-communication-and-social-media/</a>
Exploring the Role of Social Media Within the Workplace and Its Impact on Employees	<a href="http://alexispress.us/sdm_downloads/mass-communication-and-social-media/">http://alexispress.us/sdm_downloads/mass-communication-and-social-media/</a>
An Examination of Indian Entrepreneur's Management and Organizational Performance	<a href="http://alexispress.us/sdm_downloads/introduction-to-media-studies/">http://alexispress.us/sdm_downloads/introduction-to-media-studies/</a>
A Comprehensive Review on the Impact of Usage Level of Social Media on Society	<a href="http://alexispress.us/sdm_downloads/introduction-to-media-studies/">http://alexispress.us/sdm_downloads/introduction-to-media-studies/</a>
An Update on Privacy and Security Challenges in the Rising E-Commerce Era with Possible Solutions	<a href="http://alexispress.us/sdm_downloads/introduction-to-media-studies/">http://alexispress.us/sdm_downloads/introduction-to-media-studies/</a>
Factors behind the Social Media Plays Important Role in Higher Education Classes	<a href="http://alexispress.us/sdm_downloads/introduction-to-media-studies/">http://alexispress.us/sdm_downloads/introduction-to-media-studies/</a>
An Exploration of the functions of Search Engine Optimization in Social Media	<a href="http://alexispress.us/sdm_downloads/introduction-to-media-studies/">http://alexispress.us/sdm_downloads/introduction-to-media-studies/</a>
Comprehensive Survey on the Cyberbullying Using Various Social Media Platforms	<a href="http://alexispress.us/sdm_downloads/introduction-to-media-studies/">http://alexispress.us/sdm_downloads/introduction-to-media-studies/</a>

Role And Responsibility of Social Media in Child's Development: A Survey	<a href="http://alexispress.us/sdm_downloads/introduction-to-media-studies/">http://alexispress.us/sdm_downloads/introduction-to-media-studies/</a>
Strategies for Parental Monitoring of their Children's Social Media Activities	<a href="http://alexispress.us/sdm_downloads/introduction-to-media-studies/">http://alexispress.us/sdm_downloads/introduction-to-media-studies/</a>
A Comprehensive Study on Online Business through Social Media	<a href="http://alexispress.us/sdm_downloads/introduction-to-media-studies/">http://alexispress.us/sdm_downloads/introduction-to-media-studies/</a>
A Study on the Use of Social Media for Small Business Growth	<a href="http://alexispress.us/sdm_downloads/introduction-to-media-studies/">http://alexispress.us/sdm_downloads/introduction-to-media-studies/</a>
Analysis of Article 32&226 of the Constitution of India	<a href="http://alexispress.us/sdm_downloads/indian-legal-system/">http://alexispress.us/sdm_downloads/indian-legal-system/</a>
Analysis of Article 21 of the Constitution of India	<a href="http://alexispress.us/sdm_downloads/indian-legal-system/">http://alexispress.us/sdm_downloads/indian-legal-system/</a>
E- Contracts In India	<a href="http://alexispress.us/sdm_downloads/indian-legal-system/">http://alexispress.us/sdm_downloads/indian-legal-system/</a>
Rights of Second Wife - With reference to Bigamous Marriage in India	<a href="http://alexispress.us/sdm_downloads/indian-legal-system/">http://alexispress.us/sdm_downloads/indian-legal-system/</a>
Suicide: An Indian perspective	<a href="http://alexispress.us/sdm_downloads/indian-legal-system/">http://alexispress.us/sdm_downloads/indian-legal-system/</a>
Analysis on Right of Private Defense Under Indian Penal Code	<a href="http://alexispress.us/sdm_downloads/indian-legal-system/">http://alexispress.us/sdm_downloads/indian-legal-system/</a>
LAWS RELATED TO EXTRADITION IN INDIA	<a href="http://alexispress.us/sdm_downloads/indian-legal-system/">http://alexispress.us/sdm_downloads/indian-legal-system/</a>
THE NEED FOR REFUGEE LAW IN INDIA	<a href="http://alexispress.us/sdm_downloads/indian-legal-system/">http://alexispress.us/sdm_downloads/indian-legal-system/</a>
Administration of Justice in India	<a href="http://alexispress.us/sdm_downloads/indian-legal-system/">http://alexispress.us/sdm_downloads/indian-legal-system/</a>
Gun Regulations in India: Requirement of another Framework	<a href="http://alexispress.us/sdm_downloads/indian-legal-system/">http://alexispress.us/sdm_downloads/indian-legal-system/</a>
CHANGES IN LAW RERLATED TO CYCBER CRIMES	<a href="http://alexispress.us/sdm_downloads/cyber-laws-and-intellectual-property-rights/">http://alexispress.us/sdm_downloads/cyber-laws-and-intellectual-property-rights/</a>
Academic research and copyright issue.	<a href="http://alexispress.us/sdm_downloads/cyber-laws-and-intellectual-property-rights/">http://alexispress.us/sdm_downloads/cyber-laws-and-intellectual-property-rights/</a>
The Demand and the Rise of Legal Technology Startups in the Country	<a href="http://alexispress.us/sdm_downloads/cyber-laws-and-intellectual-property-rights/">http://alexispress.us/sdm_downloads/cyber-laws-and-intellectual-property-rights/</a>
Business Law and its Conflict with Trade Secrets	<a href="http://alexispress.us/sdm_downloads/cyber-laws-and-intellectual-property-rights/">http://alexispress.us/sdm_downloads/cyber-laws-and-intellectual-property-rights/</a>
Cybersecurity in Robotic Systems: Weaknesses, Threats, Responses and Suggestions	<a href="http://alexispress.us/sdm_downloads/cyber-laws-and-intellectual-property-rights/">http://alexispress.us/sdm_downloads/cyber-laws-and-intellectual-property-rights/</a>
An Analytical Survey of Cybercrime Cases in India's Most Vulnerable Cities States and States	<a href="http://alexispress.us/sdm_downloads/cyber-laws-and-intellectual-property-rights/">http://alexispress.us/sdm_downloads/cyber-laws-and-intellectual-property-rights/</a>
The Relevance of Islamic Law in Formulating Business Law	<a href="http://alexispress.us/sdm_downloads/cyber-laws-and-intellectual-property-rights/">http://alexispress.us/sdm_downloads/cyber-laws-and-intellectual-property-rights/</a>
An Analytical Study on Constitutionalism and its Impact on Democracy	<a href="http://alexispress.us/sdm_downloads/cyber-laws-and-intellectual-property-rights/">http://alexispress.us/sdm_downloads/cyber-laws-and-intellectual-property-rights/</a>
Role of the Indian legal system in protecting gender equality in India	<a href="http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/">http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/</a>

A Comprehensive Study on Abortion - legal regulations and morality	<a href="http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/">http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/</a>
Human Rights and Constitutional Provisions for Gender Equality and Equity: A Study	<a href="http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/">http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/</a>
A Detailed and Comparative Analysis on the Offences which are against Public Tranquillity	<a href="http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/">http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/</a>
Gender perspectives on the environment and repercussions of childhood sexual abuse	<a href="http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/">http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/</a>
Offences against Public Tranquility	<a href="http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/">http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/</a>
A Comprehensive study on the Factors of Hate Crime	<a href="http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/">http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/</a>
Drug usage among teenagers, substance abuse, and drug policy are all cultural issues.	<a href="http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/">http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/</a>
GENDER, STATE AND SOCIAL POWER IN CONTEMPORARY INDONESIA: DIVORCE AND MARRIAGE LAW	<a href="http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/">http://alexispress.us/sdm_downloads/social-laws-an-outline-of-sociology/</a>
Critical Analysis on Delegalized Cannabis: The Forgotten Recreational Plant	<a href="http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/">http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/</a>
Concept of Plea Bargaining	<a href="http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/">http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/</a>
WHETHER THE CITIZENSHIP AMENDMENT ACT, 2019 A BOON OR A BANE: CRITICAL ANALYSIS	<a href="http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/">http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/</a>
International Air law	<a href="http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/">http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/</a>
INSANITY DEFENSE: A LOOPHOLE FOR CRIMINALS	<a href="http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/">http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/</a>
Plea Bargaining	<a href="http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/">http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/</a>
RELIGIOUS LAW AND CRIME IN DEVELOPING/ DEVELOPED NATIONS	<a href="http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/">http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/</a>
POSSIBLE IMPACT OF COVID 19'S THIRD WAVE UPON SMALL ENTERPRISES	<a href="http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/">http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/</a>
CRIME PREVENTION: WHAT CAN THE GOVERNMENT DO TO LOWER CRIME RATE	<a href="http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/">http://alexispress.us/sdm_downloads/introduction-to-law-procedures-and-practices/</a>
Comparison of Various Types of Biometric Authentication Techniques	<a href="http://alexispress.us/sdm_downloads/science-technology-and-society-a-sociological-approach/">http://alexispress.us/sdm_downloads/science-technology-and-society-a-sociological-approach/</a>
Exploring the Beauty of Art and Sculpture in Greece's Culture	<a href="http://alexispress.us/sdm_downloads/science-technology-and-society-a-sociological-approach/">http://alexispress.us/sdm_downloads/science-technology-and-society-a-sociological-approach/</a>

Comparative Study between Structural and Cultural Aspects of Egyptian And Mesoamerican Pyramids	<a href="http://alexispress.us/sdm_downloads/science-technology-and-society-a-sociological-approach/">http://alexispress.us/sdm_downloads/science-technology-and-society-a-sociological-approach/</a>
Elaborating the History and Origin of Greek Theatres for the Entertainment of Greek Audiences	<a href="http://alexispress.us/sdm_downloads/science-technology-and-society-a-sociological-approach/">http://alexispress.us/sdm_downloads/science-technology-and-society-a-sociological-approach/</a>
Significance of Business Sustainability on Societal Structure	<a href="http://alexispress.us/sdm_downloads/science-technology-and-society-a-sociological-approach/">http://alexispress.us/sdm_downloads/science-technology-and-society-a-sociological-approach/</a>
Nutrition Civilizations of Diverse Indian States	<a href="http://alexispress.us/sdm_downloads/science-technology-and-society-a-sociological-approach/">http://alexispress.us/sdm_downloads/science-technology-and-society-a-sociological-approach/</a>
Analyzing the Importance of the Construction of Great Wall of China in the Defense and Tourism	<a href="http://alexispress.us/sdm_downloads/science-technology-and-society-a-sociological-approach/">http://alexispress.us/sdm_downloads/science-technology-and-society-a-sociological-approach/</a>
A Comprehensive Study on the Methods of Extraction Oils	<a href="http://alexispress.us/sdm_downloads/science-technology-and-society-a-sociological-approach/">http://alexispress.us/sdm_downloads/science-technology-and-society-a-sociological-approach/</a>
A Brief Introduction about Total Quality Management	<a href="http://alexispress.us/sdm_downloads/total-quality-management-2/">http://alexispress.us/sdm_downloads/total-quality-management-2/</a>
Role of Leadership in Total Quality Management	<a href="http://alexispress.us/sdm_downloads/total-quality-management-2/">http://alexispress.us/sdm_downloads/total-quality-management-2/</a>
Customer Satisfaction for Quality Management System	<a href="http://alexispress.us/sdm_downloads/total-quality-management-2/">http://alexispress.us/sdm_downloads/total-quality-management-2/</a>
Employee Involvement for Quality Management	<a href="http://alexispress.us/sdm_downloads/total-quality-management-2/">http://alexispress.us/sdm_downloads/total-quality-management-2/</a>
Continuous Process Improvement for Product Enhancement	<a href="http://alexispress.us/sdm_downloads/total-quality-management-2/">http://alexispress.us/sdm_downloads/total-quality-management-2/</a>
Performance Evaluation for Quality Management	<a href="http://alexispress.us/sdm_downloads/total-quality-management-2/">http://alexispress.us/sdm_downloads/total-quality-management-2/</a>
Benchmarking for Product and Company Improvement	<a href="http://alexispress.us/sdm_downloads/total-quality-management-2/">http://alexispress.us/sdm_downloads/total-quality-management-2/</a>
Quality Assurance Programme and its Implementation	<a href="http://alexispress.us/sdm_downloads/total-quality-management-2/">http://alexispress.us/sdm_downloads/total-quality-management-2/</a>
Environmental Management in Total Quality Management System	<a href="http://alexispress.us/sdm_downloads/total-quality-management-2/">http://alexispress.us/sdm_downloads/total-quality-management-2/</a>
Function Quality Deployment and Its Advantages	<a href="http://alexispress.us/sdm_downloads/total-quality-management-2/">http://alexispress.us/sdm_downloads/total-quality-management-2/</a>
Strategic Design: Enhancing Product Quality and Cost Efficiency	<a href="http://alexispress.us/sdm_downloads/total-quality-management-2/">http://alexispress.us/sdm_downloads/total-quality-management-2/</a>
Failure Mode and Effect Analysis	<a href="http://alexispress.us/sdm_downloads/total-quality-management-2/">http://alexispress.us/sdm_downloads/total-quality-management-2/</a>
Comprehensive Productive Maintenance in Quality Management	<a href="http://alexispress.us/sdm_downloads/tqm-the-new-management-model/">http://alexispress.us/sdm_downloads/tqm-the-new-management-model/</a>
Management Resources in Total Quality Management	<a href="http://alexispress.us/sdm_downloads/tqm-the-new-management-model/">http://alexispress.us/sdm_downloads/tqm-the-new-management-model/</a>
Statistical Process Control for Quality Enhancement	<a href="http://alexispress.us/sdm_downloads/tqm-the-new-management-model/">http://alexispress.us/sdm_downloads/tqm-the-new-management-model/</a>

Taguchi's Method for Product Quality	<a href="http://alexispress.us/sdm_downloads/tqm-the-new-management-model/">http://alexispress.us/sdm_downloads/tqm-the-new-management-model/</a>
Developing Human Resources for Quality Management	<a href="http://alexispress.us/sdm_downloads/tqm-the-new-management-model/">http://alexispress.us/sdm_downloads/tqm-the-new-management-model/</a>
Process Management for Product Improvement	<a href="http://alexispress.us/sdm_downloads/tqm-the-new-management-model/">http://alexispress.us/sdm_downloads/tqm-the-new-management-model/</a>
Total Quality Management Organization	<a href="http://alexispress.us/sdm_downloads/tqm-the-new-management-model/">http://alexispress.us/sdm_downloads/tqm-the-new-management-model/</a>
Quality and Productivity in Total Quality Management	<a href="http://alexispress.us/sdm_downloads/tqm-the-new-management-model/">http://alexispress.us/sdm_downloads/tqm-the-new-management-model/</a>
Seven Essential Tools for Product Management	<a href="http://alexispress.us/sdm_downloads/tqm-the-new-management-model/">http://alexispress.us/sdm_downloads/tqm-the-new-management-model/</a>
Exploring Total Quality Management System and Its Applications	<a href="http://alexispress.us/sdm_downloads/tqm-the-new-management-model/">http://alexispress.us/sdm_downloads/tqm-the-new-management-model/</a>
Self-Assessment for Ongoing Systematic Evaluation	<a href="http://alexispress.us/sdm_downloads/tqm-the-new-management-model/">http://alexispress.us/sdm_downloads/tqm-the-new-management-model/</a>
Total Productive Maintenance for Product Quality Improvement	<a href="http://alexispress.us/sdm_downloads/tqm-the-new-management-model/">http://alexispress.us/sdm_downloads/tqm-the-new-management-model/</a>
Fundamental Concept and Definition of Thermodynamics	<a href="http://alexispress.us/sdm_downloads/applied-thermodynamics/">http://alexispress.us/sdm_downloads/applied-thermodynamics/</a>
Understanding the Zeroth Law of Thermodynamics	<a href="http://alexispress.us/sdm_downloads/applied-thermodynamics/">http://alexispress.us/sdm_downloads/applied-thermodynamics/</a>
Entropy and Energy Flow: Second Law of Thermodynamics	<a href="http://alexispress.us/sdm_downloads/applied-thermodynamics/">http://alexispress.us/sdm_downloads/applied-thermodynamics/</a>
Entropy: Nature's Measure of Disorder and Information	<a href="http://alexispress.us/sdm_downloads/applied-thermodynamics/">http://alexispress.us/sdm_downloads/applied-thermodynamics/</a>
Thermodynamics Properties of Pure Substance	<a href="http://alexispress.us/sdm_downloads/applied-thermodynamics/">http://alexispress.us/sdm_downloads/applied-thermodynamics/</a>
Availability and General Thermodynamics Relations	<a href="http://alexispress.us/sdm_downloads/applied-thermodynamics/">http://alexispress.us/sdm_downloads/applied-thermodynamics/</a>
Vapor Power Cycles and Their Industrial Application	<a href="http://alexispress.us/sdm_downloads/applied-thermodynamics/">http://alexispress.us/sdm_downloads/applied-thermodynamics/</a>
Power Cycles for Vapour in Thermodynamics	<a href="http://alexispress.us/sdm_downloads/applied-thermodynamics/">http://alexispress.us/sdm_downloads/applied-thermodynamics/</a>
Fundamentals of Work and Heat Transfer	<a href="http://alexispress.us/sdm_downloads/applied-thermodynamics/">http://alexispress.us/sdm_downloads/applied-thermodynamics/</a>
Factor Affects the Thermodynamics Temperature	<a href="http://alexispress.us/sdm_downloads/applied-thermodynamics/">http://alexispress.us/sdm_downloads/applied-thermodynamics/</a>
Flow Processes: The First Law in Action	<a href="http://alexispress.us/sdm_downloads/applied-thermodynamics/">http://alexispress.us/sdm_downloads/applied-thermodynamics/</a>
Chemical Properties of Pure Substances	<a href="http://alexispress.us/sdm_downloads/applied-thermodynamics/">http://alexispress.us/sdm_downloads/applied-thermodynamics/</a>
Energy Transfer: Work and Heat in Closed System	<a href="http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/">http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/</a>
Thermodynamic Relations: Evaluating Energy and Efficiency	<a href="http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/">http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/</a>
Refrigeration Cycles: Cooling Systems for Efficient Heat Transfer	<a href="http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/">http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/</a>

Reactive Systems: Dynamics and Control of Chemical Reaction	<a href="http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/">http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/</a>
Compressible Fluid Flow: Dynamics of High-Speed Flows	<a href="http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/">http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/</a>
Heat Transfer: Exploring the Elements and Mechanisms	<a href="http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/">http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/</a>
Statistical Thermodynamics: Applications and Techniques	<a href="http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/">http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/</a>
Irreversible Thermodynamics: Processes and Dissipation	<a href="http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/">http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/</a>
Gaseous Kinetics: Molecular Velocities and Distribution Analysis	<a href="http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/">http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/</a>
Applied Gas Transport Process: Applications and Analysis	<a href="http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/">http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/</a>
Fuels and Combustion: Features, Application, and Utilization	<a href="http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/">http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/</a>
Dynamic Fluids: Exploring Compressible Flow	<a href="http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/">http://alexispress.us/sdm_downloads/modern-engineering-thermodynamics/</a>
Exploring the Role of Social Media Marketing	<a href="http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/">http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/</a>
Blogging in Social Media Marketing and its Necessity	<a href="http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/">http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/</a>
Exploring the Different Protocols Used in Blogging	<a href="http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/">http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/</a>
Hosted Vs. Self-Hosted Blogging: A Comparative Analysis of the Benefits and Drawbacks	<a href="http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/">http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/</a>
An Analysis of Microblogging and Twitter	<a href="http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/">http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/</a>
Exploring the Features Used in Microblogging Software: An Analysis of Twitter, Tumblr, and Mastodon	<a href="http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/">http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/</a>
Exploring the Roles of Social Networking	<a href="http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/">http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/</a>
An Analysis of Social Networking Websites	<a href="http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/">http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/</a>
Media Sharing in Social Media Marketing: An Assessment of the Challenges and Advantages	<a href="http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/">http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/</a>
Exploring the Different Media Sharing Platforms	<a href="http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/">http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/</a>
An Analysis of Social Media History	<a href="http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/">http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/</a>
Exploring Methodologies and Approaches in Social Media Research	<a href="http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/">http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/</a>
Ethical Issues in Social Media Marketing	<a href="http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/">http://alexispress.us/sdm_downloads/examination-of-social-media-marketing/</a>

Exploring Nexus between Social Media Marketing, Education, and Young People: A Review Study	<a href="http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/">http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/</a>
A Comprehensive Review on the Adoption, Usage, and Impact of Social Media in Work and Business Contexts	<a href="http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/">http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/</a>
A Brief Introduction of Entrepreneurship and Networking	<a href="http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/">http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/</a>
Online and Offline Relationships in Social Media	<a href="http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/">http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/</a>
Exploring the Visual Images in Social Media	<a href="http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/">http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/</a>
Identities and Networks Impact on Brand Perception and User Engagement	<a href="http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/">http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/</a>
Exploring the Roles of Social Bookmarking and News	<a href="http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/">http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/</a>
Essential Elements of Social Media Marketing Plans: Reviews and Ratings	<a href="http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/">http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/</a>
Investigating the Roles of Forums in Social Media Marketing	<a href="http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/">http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/</a>
Introduction of Virtual World in Relation to Social Media Marketing	<a href="http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/">http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/</a>
Plan, Execute, and Practice in Social Media Marketing	<a href="http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/">http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/</a>
Exploring the Importance of Social Media Marketing Measurement	<a href="http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/">http://alexispress.us/sdm_downloads/competitive-social-media-marketing-strategies/</a>
The Welfare State and Trust in Government	<a href="http://alexispress.us/sdm_downloads/public-finance-and-policy/">http://alexispress.us/sdm_downloads/public-finance-and-policy/</a>
The Theory of Public Finance: An Analysis	<a href="http://alexispress.us/sdm_downloads/public-finance-and-policy/">http://alexispress.us/sdm_downloads/public-finance-and-policy/</a>
Labor Demand: A Fundamental Concept in Economics	<a href="http://alexispress.us/sdm_downloads/public-finance-and-policy/">http://alexispress.us/sdm_downloads/public-finance-and-policy/</a>
An Analysis of Provision of Welfare State Services	<a href="http://alexispress.us/sdm_downloads/public-finance-and-policy/">http://alexispress.us/sdm_downloads/public-finance-and-policy/</a>
Exploring the Impact of Trust in Public Finance	<a href="http://alexispress.us/sdm_downloads/public-finance-and-policy/">http://alexispress.us/sdm_downloads/public-finance-and-policy/</a>
Relationship Among Trust, Government, and Prosperity	<a href="http://alexispress.us/sdm_downloads/public-finance-and-policy/">http://alexispress.us/sdm_downloads/public-finance-and-policy/</a>
An Analysis of Reforming Budgetary Language	<a href="http://alexispress.us/sdm_downloads/public-finance-and-policy/">http://alexispress.us/sdm_downloads/public-finance-and-policy/</a>
Distorting Commodity Taxes and Subsidies	<a href="http://alexispress.us/sdm_downloads/public-finance-and-policy/">http://alexispress.us/sdm_downloads/public-finance-and-policy/</a>
Exploring the Impact of Taxes and Privatization	<a href="http://alexispress.us/sdm_downloads/public-finance-and-policy/">http://alexispress.us/sdm_downloads/public-finance-and-policy/</a>
Welfare Effects of the Property Tax	<a href="http://alexispress.us/sdm_downloads/public-finance-and-policy/">http://alexispress.us/sdm_downloads/public-finance-and-policy/</a>
An Analysis of Retrospective Capital Gains Taxation	<a href="http://alexispress.us/sdm_downloads/public-finance-and-policy/">http://alexispress.us/sdm_downloads/public-finance-and-policy/</a>

Resolving the Crisis by Partial Capital Funding	<a href="http://alexispress.us/sdm_downloads/public-finance-and-policy/">http://alexispress.us/sdm_downloads/public-finance-and-policy/</a>
Exploring the Social Insurance and Redistribution	<a href="http://alexispress.us/sdm_downloads/public-finance-and-policy/">http://alexispress.us/sdm_downloads/public-finance-and-policy/</a>
Exploring Fiscal Federalism: A Systematic Review of Recent Trends and Policies	<a href="http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/</a>
Exploring the Rules of the Real Game	<a href="http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/</a>
An Overview of the Global Tax Forum	<a href="http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/</a>
Fiscal Federalism and Risk Sharing in Germany: The Role of Size Differences	<a href="http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/</a>
The dynamics of Political Economy: An Analysis	<a href="http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/</a>
Intergovernmental Transfers: Addressing Vertical and Horizontal Imbalances	<a href="http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/</a>
Exploring the Role of Public Finance and Planning	<a href="http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/</a>
Subnational Politics, Accountability and Revenue Generation: An Analysis	<a href="http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/</a>
A Comprehensive Review of Municipal Finance and Governance	<a href="http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/</a>
Investigating the Two-Tier Government Model	<a href="http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/</a>
Structuring Service Delivery in Small Urban Areas	<a href="http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/</a>
Exploring the Alternative Service Delivery Mechanisms	<a href="http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/">http://alexispress.us/sdm_downloads/public-finance-in-theory-and-practice/</a>
Introduction of Disaster Management	<a href="http://alexispress.us/sdm_downloads/introduction-to-disaster-management/">http://alexispress.us/sdm_downloads/introduction-to-disaster-management/</a>
Earth System Processes and Disaster Event Chains	<a href="http://alexispress.us/sdm_downloads/introduction-to-disaster-management/">http://alexispress.us/sdm_downloads/introduction-to-disaster-management/</a>
An Overview of Classification of Disasters	<a href="http://alexispress.us/sdm_downloads/introduction-to-disaster-management/">http://alexispress.us/sdm_downloads/introduction-to-disaster-management/</a>
Application of Geomatics Technology for Disaster Vulnerable Area Mapping, Mitigation, Damage Assessment, and Management	<a href="http://alexispress.us/sdm_downloads/introduction-to-disaster-management/">http://alexispress.us/sdm_downloads/introduction-to-disaster-management/</a>
An Overview of Disaster Information System	<a href="http://alexispress.us/sdm_downloads/introduction-to-disaster-management/">http://alexispress.us/sdm_downloads/introduction-to-disaster-management/</a>
A Fundamental Study of Understanding Natural Disasters	<a href="http://alexispress.us/sdm_downloads/introduction-to-disaster-management/">http://alexispress.us/sdm_downloads/introduction-to-disaster-management/</a>
Exploring the Causes of Man-Made Disasters and Pollution	<a href="http://alexispress.us/sdm_downloads/introduction-to-disaster-management/">http://alexispress.us/sdm_downloads/introduction-to-disaster-management/</a>
A Fundamental Study of Industrial Pollution	<a href="http://alexispress.us/sdm_downloads/introduction-to-disaster-management/">http://alexispress.us/sdm_downloads/introduction-to-disaster-management/</a>

Exploring the Difference Between a Catastrophe Scenario and Emergency Situation	<a href="http://alexispress.us/sdm_downloads/introduction-to-disaster-management/">http://alexispress.us/sdm_downloads/introduction-to-disaster-management/</a>
Exploring the Disaster Management Cycle Phase I: Mitigation Challenges and Solutions	<a href="http://alexispress.us/sdm_downloads/introduction-to-disaster-management/">http://alexispress.us/sdm_downloads/introduction-to-disaster-management/</a>
Exploring the Disaster Management Cycle Phase II: Preparedness	<a href="http://alexispress.us/sdm_downloads/introduction-to-disaster-management/">http://alexispress.us/sdm_downloads/introduction-to-disaster-management/</a>
Disaster Management Cycle: Response and Recovery	<a href="http://alexispress.us/sdm_downloads/introduction-to-disaster-management/">http://alexispress.us/sdm_downloads/introduction-to-disaster-management/</a>
Education and Public Awareness Part I: Community-Based Initiatives	<a href="http://alexispress.us/sdm_downloads/disaster-administration-and-management/">http://alexispress.us/sdm_downloads/disaster-administration-and-management/</a>
A Fundamental Study on Education and Public Awareness	<a href="http://alexispress.us/sdm_downloads/disaster-administration-and-management/">http://alexispress.us/sdm_downloads/disaster-administration-and-management/</a>
An Analysis of Public Awareness on Prevention of disaster Management	<a href="http://alexispress.us/sdm_downloads/disaster-administration-and-management/">http://alexispress.us/sdm_downloads/disaster-administration-and-management/</a>
Exploring the Role of Technology in Disaster Management	<a href="http://alexispress.us/sdm_downloads/disaster-administration-and-management/">http://alexispress.us/sdm_downloads/disaster-administration-and-management/</a>
Role of Media in Disaster Management and Control	<a href="http://alexispress.us/sdm_downloads/disaster-administration-and-management/">http://alexispress.us/sdm_downloads/disaster-administration-and-management/</a>
Disaster Associated Health Issues, Emergency Health Services and Communicable Diseases	<a href="http://alexispress.us/sdm_downloads/disaster-administration-and-management/">http://alexispress.us/sdm_downloads/disaster-administration-and-management/</a>
Exploring the Psychological Effects of Disaster on People	<a href="http://alexispress.us/sdm_downloads/disaster-administration-and-management/">http://alexispress.us/sdm_downloads/disaster-administration-and-management/</a>
Physical and Socioeconomic Effects of Disasters	<a href="http://alexispress.us/sdm_downloads/disaster-administration-and-management/">http://alexispress.us/sdm_downloads/disaster-administration-and-management/</a>
Investigating the Emotional Impacts of Disasters on Communities	<a href="http://alexispress.us/sdm_downloads/disaster-administration-and-management/">http://alexispress.us/sdm_downloads/disaster-administration-and-management/</a>
An Overview on Vulnerable Groups in Disasters	<a href="http://alexispress.us/sdm_downloads/disaster-administration-and-management/">http://alexispress.us/sdm_downloads/disaster-administration-and-management/</a>
The Evolution of Disasters Risk: A Comprehensive Review	<a href="http://alexispress.us/sdm_downloads/disaster-administration-and-management/">http://alexispress.us/sdm_downloads/disaster-administration-and-management/</a>
Fundamental of Budgeting for Operations	<a href="http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/">http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/</a>
Projecting Revenues in Financial Planning	<a href="http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/">http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/</a>
Investing in Long-Term Assets and Capital Budgeting	<a href="http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/">http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/</a>
Major Task in Capital Budgeting: Estimating Future Cash Flows	<a href="http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/">http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/</a>
Comparison of Capital Investment Projections to Actual Results	<a href="http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/">http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/</a>
An Analysis of Cash Flow Concerns	<a href="http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/">http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/</a>
Design and Implementation of Cash Flow System: A Review Study	<a href="http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/">http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/</a>

Schedule of Cash Disbursements: A Review Study	<a href="http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/">http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/</a>
Balances in Key Accounts	<a href="http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/">http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/</a>
Private Placement of Stock: An Analysis	<a href="http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/">http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/</a>
Restrictions on Loans and Regulation	<a href="http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/">http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/</a>
Exploring the Important Tools for Financial Analysis	<a href="http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/">http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/</a>
Strategic Management in the Balanced Scorecard	<a href="http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/">http://alexispress.us/sdm_downloads/finance-and-accounting-for-small-business/</a>
Financial Management of Tax Planning	<a href="http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/">http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/</a>
An Assessment of Risk management Report	<a href="http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/">http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/</a>
An Evaluation of Income Tax Return	<a href="http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/">http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/</a>
A Role of Equity Holders in Corporate	<a href="http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/">http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/</a>
A Business Plan for financial projection	<a href="http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/">http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/</a>
The Corporation form of Ownership	<a href="http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/">http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/</a>
Registration as Professional Corporations	<a href="http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/">http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/</a>
An Analysis of Business Partners Relationship	<a href="http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/">http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/</a>
An Assessment of Marketing Approaches: Artillery for Sales	<a href="http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/">http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/</a>
Marketing Tool for Company Brochures	<a href="http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/">http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/</a>
An Analysis of Incredible Website and E-Store	<a href="http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/">http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/</a>
Distribution of Channel Conflict: A Review Study	<a href="http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/">http://alexispress.us/sdm_downloads/accounting-for-small-business-owners/</a>
An Overview of Ecological Economics	<a href="http://alexispress.us/sdm_downloads/concept-of-ecological-economics/">http://alexispress.us/sdm_downloads/concept-of-ecological-economics/</a>
Sustainability, Markets, and Global change in Ecological Economics	<a href="http://alexispress.us/sdm_downloads/concept-of-ecological-economics/">http://alexispress.us/sdm_downloads/concept-of-ecological-economics/</a>
Economic Growth and Sustainable Development	<a href="http://alexispress.us/sdm_downloads/concept-of-ecological-economics/">http://alexispress.us/sdm_downloads/concept-of-ecological-economics/</a>
Historical Development of Ecological Economics	<a href="http://alexispress.us/sdm_downloads/concept-of-ecological-economics/">http://alexispress.us/sdm_downloads/concept-of-ecological-economics/</a>
Ecological Economics Themes and Focuses	<a href="http://alexispress.us/sdm_downloads/concept-of-ecological-economics/">http://alexispress.us/sdm_downloads/concept-of-ecological-economics/</a>
Ecological Economics' Impacts on Policy	<a href="http://alexispress.us/sdm_downloads/concept-of-ecological-economics/">http://alexispress.us/sdm_downloads/concept-of-ecological-economics/</a>

Future Directions and Ecological Economics' Challenges	<a href="http://alexispress.us/sdm_downloads/concept-of-ecological-economics/">http://alexispress.us/sdm_downloads/concept-of-ecological-economics/</a>
An Analysis of Present Humanity's Conflict	<a href="http://alexispress.us/sdm_downloads/concept-of-ecological-economics/">http://alexispress.us/sdm_downloads/concept-of-ecological-economics/</a>
Analysis of Population and Deprivation	<a href="http://alexispress.us/sdm_downloads/concept-of-ecological-economics/">http://alexispress.us/sdm_downloads/concept-of-ecological-economics/</a>
Ecological Economics Separate and Specialize	<a href="http://alexispress.us/sdm_downloads/concept-of-ecological-economics/">http://alexispress.us/sdm_downloads/concept-of-ecological-economics/</a>
Analysis of Systems and Energetics	<a href="http://alexispress.us/sdm_downloads/concept-of-ecological-economics/">http://alexispress.us/sdm_downloads/concept-of-ecological-economics/</a>
Ecological Economics Separate and Specialize	<a href="http://alexispress.us/sdm_downloads/concept-of-ecological-economics/">http://alexispress.us/sdm_downloads/concept-of-ecological-economics/</a>
Analysis of Systems and Energetics	<a href="http://alexispress.us/sdm_downloads/concept-of-ecological-economics/">http://alexispress.us/sdm_downloads/concept-of-ecological-economics/</a>

The Basics of Ecological Economics: An Analysis	<a href="http://alexispress.us/sdm_downloads/ecological-economics-and-sustainable-development/">http://alexispress.us/sdm_downloads/ecological-economics-and-sustainable-development/</a>
A Review Study of General Policy Design Principles	<a href="http://alexispress.us/sdm_downloads/ecological-economics-and-sustainable-development/">http://alexispress.us/sdm_downloads/ecological-economics-and-sustainable-development/</a>
Politics and Rights to Property: A Comprehensive Review	<a href="http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/">http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/</a>
Interest Rates and the Bond Market: A Comprehensive Overview	<a href="http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/">http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/</a>

An Analysis of Financial System Elements	<a href="http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/">http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/</a>
An Overview on Instruments of the Capital Market	<a href="http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/">http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/</a>
A Fundamental Study on Types on Financial Intermediary	<a href="http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/">http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/</a>
Meaning of Money in Financial Markets	<a href="http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/">http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/</a>
A Fundamental Study of E-Money in Financial Markets	<a href="http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/">http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/</a>
Different Credit Market Instrument: A Review Study	<a href="http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/">http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/</a>
Exploring the Resources for Asset Demand	<a href="http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/">http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/</a>
Market Equilibrium in Financial Markets: A Review Study	<a href="http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/">http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/</a>
Estimating the Cost of Common Stock: A Comprehensive Overview	<a href="http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/">http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/</a>
Hypothesis in Financial Economics: A Comprehensive Review	<a href="http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/">http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/</a>
An Overview on Lemon in the Bond and Stock Markets	<a href="http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/">http://alexispress.us/sdm_downloads/economics-research-on-money-banking-and-financial-market/</a>
The Principal Agent Problem: Moral Hazard in Equity Contracts	<a href="http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/">http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/</a>
Corruption of Interests in Financial Market	<a href="http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/">http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/</a>
Effects of Asset Markets on Balance Sheets in Financial Market	<a href="http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/">http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/</a>
Emerging Financial Innovations in the Mortgage Markets	<a href="http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/">http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/</a>
Financial Crises' Dynamics in Emerging Market Economies	<a href="http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/">http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/</a>
Economics of Financial Regulation: A Comprehensive Study	<a href="http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/">http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/</a>
An Overview on Evaluation of Risk Management	<a href="http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/">http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/</a>

Crisis at a Later Stage: Regulatory Forbearance	<a href="http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/">http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/</a>
The Canadian Banking System's Historic Development	<a href="http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/">http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/</a>
Avoidance of Current Regulations: A Review Study	<a href="http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/">http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/</a>
An Analysis of American Branching Restrictions	<a href="http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/">http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/</a>
A Brief Introduction of International Banking	<a href="http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/">http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/</a>
A Fundamental Study on Institutions of Nonbank Finance	<a href="http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/">http://alexispress.us/sdm_downloads/principles-of-money-banking-and-financial-markets/</a>
Determination of Environmental Studies: Exploring Interdisciplinary Approaches for Environmental Systems	<a href="http://alexispress.us/sdm_downloads/environment-studies-and-effects/">http://alexispress.us/sdm_downloads/environment-studies-and-effects/</a>
Ethics Evaluation in Environmental Science: Assessing Ethical Considerations for Sustainable Environmental Practices	<a href="http://alexispress.us/sdm_downloads/environment-studies-and-effects/">http://alexispress.us/sdm_downloads/environment-studies-and-effects/</a>
Analysis and Evolution of Environmental Assessment and their discrimination in Ecosystem	<a href="http://alexispress.us/sdm_downloads/environment-studies-and-effects/">http://alexispress.us/sdm_downloads/environment-studies-and-effects/</a>
Analysis of Determination of Increases in User Charges	<a href="http://alexispress.us/sdm_downloads/environment-studies-and-effects/">http://alexispress.us/sdm_downloads/environment-studies-and-effects/</a>
Analysis of Expression of Risk of ecological Impact	<a href="http://alexispress.us/sdm_downloads/environment-studies-and-effects/">http://alexispress.us/sdm_downloads/environment-studies-and-effects/</a>
Effect of Pollution on Streams of Environmental Strategies	<a href="http://alexispress.us/sdm_downloads/environment-studies-and-effects/">http://alexispress.us/sdm_downloads/environment-studies-and-effects/</a>
Measurement of Water Quality for Economical Significance	<a href="http://alexispress.us/sdm_downloads/environment-studies-and-effects/">http://alexispress.us/sdm_downloads/environment-studies-and-effects/</a>
Determination of Pathogens: Methods, Implications, and Strategies for Public Health	<a href="http://alexispress.us/sdm_downloads/environment-studies-and-effects/">http://alexispress.us/sdm_downloads/environment-studies-and-effects/</a>
Determination of Analysis of Surface Water Supplies	<a href="http://alexispress.us/sdm_downloads/environment-studies-and-effects/">http://alexispress.us/sdm_downloads/environment-studies-and-effects/</a>
Collection of Wastewater: Methods, Challenges, and Implications for Water Management	<a href="http://alexispress.us/sdm_downloads/environment-studies-and-effects/">http://alexispress.us/sdm_downloads/environment-studies-and-effects/</a>
Determination and Analysis of Sludge Treatment and Disposal	<a href="http://alexispress.us/sdm_downloads/environment-studies-and-effects/">http://alexispress.us/sdm_downloads/environment-studies-and-effects/</a>
A Comprehensive Study of Sludge Dewatering	<a href="http://alexispress.us/sdm_downloads/environment-studies-and-effects/">http://alexispress.us/sdm_downloads/environment-studies-and-effects/</a>
Prevention and Mitigation of Nonpoint Source Pollution	<a href="http://alexispress.us/sdm_downloads/environment-studies-and-effects/">http://alexispress.us/sdm_downloads/environment-studies-and-effects/</a>
Determination of Solid Waste Management and Its Effects	<a href="http://alexispress.us/sdm_downloads/environment-and-ecology-development/">http://alexispress.us/sdm_downloads/environment-and-ecology-development/</a>
Reuse, Recycling, and Resource Recovery: Analysis and Strategies for Sustainable Waste Management	<a href="http://alexispress.us/sdm_downloads/environment-and-ecology-development/">http://alexispress.us/sdm_downloads/environment-and-ecology-development/</a>

Analysis and Determination of Waste Processing and Handling	<a href="http://alexispress.us/sdm_downloads/environment-and-ecology-development/">http://alexispress.us/sdm_downloads/environment-and-ecology-development/</a>
Analysis And Evaluation of The Process of Incinerators	<a href="http://alexispress.us/sdm_downloads/environment-and-ecology-development/">http://alexispress.us/sdm_downloads/environment-and-ecology-development/</a>
Analysis of Radioactive Waste and Its Effect in Nature	<a href="http://alexispress.us/sdm_downloads/environment-and-ecology-development/">http://alexispress.us/sdm_downloads/environment-and-ecology-development/</a>
Analysis and Determination of the Nuclear Fuel Cycle	<a href="http://alexispress.us/sdm_downloads/environment-and-ecology-development/">http://alexispress.us/sdm_downloads/environment-and-ecology-development/</a>
Analysis of Determination of Radioactive Waste Management System	<a href="http://alexispress.us/sdm_downloads/environment-and-ecology-development/">http://alexispress.us/sdm_downloads/environment-and-ecology-development/</a>
Analysis of Hazardous Waste Management	<a href="http://alexispress.us/sdm_downloads/environment-and-ecology-development/">http://alexispress.us/sdm_downloads/environment-and-ecology-development/</a>
Determination of Measurement of Air Quality In Environmental System	<a href="http://alexispress.us/sdm_downloads/environment-and-ecology-development/">http://alexispress.us/sdm_downloads/environment-and-ecology-development/</a>
Institutions in the Environment: Promoting Sustainability and Addressing Environmental Challenges	<a href="http://alexispress.us/sdm_downloads/environment-and-ecology-development/">http://alexispress.us/sdm_downloads/environment-and-ecology-development/</a>
Human Communities and the Environment: Interactions, Impacts, and Sustainable Practices	<a href="http://alexispress.us/sdm_downloads/environment-and-ecology-development/">http://alexispress.us/sdm_downloads/environment-and-ecology-development/</a>
Environmental Weathering: Processes, Impacts and Significance in Earth Systems	<a href="http://alexispress.us/sdm_downloads/environment-and-ecology-development/">http://alexispress.us/sdm_downloads/environment-and-ecology-development/</a>
Analysis of Fault Detection in Power System	<a href="http://alexispress.us/sdm_downloads/overview-on-fault-analysis/">http://alexispress.us/sdm_downloads/overview-on-fault-analysis/</a>
Exploring the Role of Switchgear	<a href="http://alexispress.us/sdm_downloads/overview-on-fault-analysis/">http://alexispress.us/sdm_downloads/overview-on-fault-analysis/</a>
Investigating the Symmetrical Fault Calculation	<a href="http://alexispress.us/sdm_downloads/overview-on-fault-analysis/">http://alexispress.us/sdm_downloads/overview-on-fault-analysis/</a>
Exploring the Impact of Unsymmetrical Faults	<a href="http://alexispress.us/sdm_downloads/overview-on-fault-analysis/">http://alexispress.us/sdm_downloads/overview-on-fault-analysis/</a>
Investigating the Impact of Unsymmetrical Faults	<a href="http://alexispress.us/sdm_downloads/overview-on-fault-analysis/">http://alexispress.us/sdm_downloads/overview-on-fault-analysis/</a>
Exploring the Advantages of Circuit Breakers	<a href="http://alexispress.us/sdm_downloads/overview-on-fault-analysis/">http://alexispress.us/sdm_downloads/overview-on-fault-analysis/</a>
An Analysis of Oil Circuit Breakers	<a href="http://alexispress.us/sdm_downloads/overview-on-fault-analysis/">http://alexispress.us/sdm_downloads/overview-on-fault-analysis/</a>
Air Blast, SF6 and Vacuum Circuit Breaker	<a href="http://alexispress.us/sdm_downloads/overview-on-fault-analysis/">http://alexispress.us/sdm_downloads/overview-on-fault-analysis/</a>
Switchgear Components	<a href="http://alexispress.us/sdm_downloads/overview-on-fault-analysis/">http://alexispress.us/sdm_downloads/overview-on-fault-analysis/</a>
Exploring the Advantages of Fuses	<a href="http://alexispress.us/sdm_downloads/overview-on-fault-analysis/">http://alexispress.us/sdm_downloads/overview-on-fault-analysis/</a>
Fuse Classification based on Current and Voltage Rating	<a href="http://alexispress.us/sdm_downloads/overview-on-fault-analysis/">http://alexispress.us/sdm_downloads/overview-on-fault-analysis/</a>
An Analysis of Different Protective Relays	<a href="http://alexispress.us/sdm_downloads/overview-on-fault-analysis/">http://alexispress.us/sdm_downloads/overview-on-fault-analysis/</a>
Exploring the Electromagnetic Devices Utilized in Electrical Power Systems	<a href="http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/">http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/</a>

Investigating the Role of Functional Relay Types	<a href="http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/">http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/</a>
Differential Relay	<a href="http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/">http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/</a>
Exploring the Protection Methods of Alternators	<a href="http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/">http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/</a>
Role of Transformer in Efficient Transmission and Distribution	<a href="http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/">http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/</a>
Protection of Busbars and Lines: An Analysis	<a href="http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/">http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/</a>
Approaches and Strategies for Overvoltage Protection	<a href="http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/">http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/</a>
Examining Lightning Protection Strategies and Efficacy	<a href="http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/">http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/</a>
Essential Components of Electrical Power Distribution System	<a href="http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/">http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/</a>
Busbar Arrangement in Sub-Station	<a href="http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/">http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/</a>
An Analysis of Neutral Grounding in Electrical Power Systems	<a href="http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/">http://alexispress.us/sdm_downloads/power-systems-modelling-and-fault-analysis/</a>
Safeguarding Electrical Systems from Faults and Ensuring Reliable Power Distribution	<a href="http://alexispress.us/sdm_downloads/electrical-system-protection/">http://alexispress.us/sdm_downloads/electrical-system-protection/</a>
Back-Up Protection: Ensuring System Reliability and Fault Resilience	<a href="http://alexispress.us/sdm_downloads/electrical-system-protection/">http://alexispress.us/sdm_downloads/electrical-system-protection/</a>
Relay Operating Principles: Understanding the Foundation of Electrical Protection	<a href="http://alexispress.us/sdm_downloads/electrical-system-protection/">http://alexispress.us/sdm_downloads/electrical-system-protection/</a>
An Overview on Instrument Transformer	<a href="http://alexispress.us/sdm_downloads/electrical-system-protection/">http://alexispress.us/sdm_downloads/electrical-system-protection/</a>
Potential Transformer: Enabling Precise Voltage Measurement and Instrumentation in Electrical Systems	<a href="http://alexispress.us/sdm_downloads/electrical-system-protection/">http://alexispress.us/sdm_downloads/electrical-system-protection/</a>
An Overview on Electromagnetic Relay	<a href="http://alexispress.us/sdm_downloads/electrical-system-protection/">http://alexispress.us/sdm_downloads/electrical-system-protection/</a>
Induction Type Relays: Ensuring Reliable Fault Detection and Protection in Electrical Systems	<a href="http://alexispress.us/sdm_downloads/electrical-system-protection/">http://alexispress.us/sdm_downloads/electrical-system-protection/</a>
Safeguarding Electrical Networks with Precise Fault Detection and Selective Tripping	<a href="http://alexispress.us/sdm_downloads/electrical-system-protection/">http://alexispress.us/sdm_downloads/electrical-system-protection/</a>
Safeguarding Electrical Systems with Precise Fault Detection	<a href="http://alexispress.us/sdm_downloads/electrical-system-protection/">http://alexispress.us/sdm_downloads/electrical-system-protection/</a>
An Assessment of Busbar Protection	<a href="http://alexispress.us/sdm_downloads/electrical-system-protection/">http://alexispress.us/sdm_downloads/electrical-system-protection/</a>
An Overview on Distance Protection	<a href="http://alexispress.us/sdm_downloads/electrical-system-protection/">http://alexispress.us/sdm_downloads/electrical-system-protection/</a>
Classification of Distance Relay: A Review Study	<a href="http://alexispress.us/sdm_downloads/electrical-system-protection/">http://alexispress.us/sdm_downloads/electrical-system-protection/</a>

An Overview on Generator Protection	<a href="http://alexispress.us/sdm_downloads/electrical-system-protection/">http://alexispress.us/sdm_downloads/electrical-system-protection/</a>
Fault Protection of Generator	<a href="http://alexispress.us/sdm_downloads/practical-power-system-protection/">http://alexispress.us/sdm_downloads/practical-power-system-protection/</a>
An Overview on Transformer Protection	<a href="http://alexispress.us/sdm_downloads/practical-power-system-protection/">http://alexispress.us/sdm_downloads/practical-power-system-protection/</a>
An Overview on Induction Motor Protection	<a href="http://alexispress.us/sdm_downloads/practical-power-system-protection/">http://alexispress.us/sdm_downloads/practical-power-system-protection/</a>
Bus, Reactor and Capacitor Protection	<a href="http://alexispress.us/sdm_downloads/practical-power-system-protection/">http://alexispress.us/sdm_downloads/practical-power-system-protection/</a>
Carrier Aided Protection and Static Relays	<a href="http://alexispress.us/sdm_downloads/practical-power-system-protection/">http://alexispress.us/sdm_downloads/practical-power-system-protection/</a>
Exploring the Methods of Electrical System Safety and Reliability	<a href="http://alexispress.us/sdm_downloads/practical-power-system-protection/">http://alexispress.us/sdm_downloads/practical-power-system-protection/</a>
Integration of Circuit Breakers in Power Systems: A Review Study	<a href="http://alexispress.us/sdm_downloads/practical-power-system-protection/">http://alexispress.us/sdm_downloads/practical-power-system-protection/</a>
An Overview on Power System Earthing	<a href="http://alexispress.us/sdm_downloads/practical-power-system-protection/">http://alexispress.us/sdm_downloads/practical-power-system-protection/</a>
Investigating the Protection Methods Against Overvoltage	<a href="http://alexispress.us/sdm_downloads/practical-power-system-protection/">http://alexispress.us/sdm_downloads/practical-power-system-protection/</a>
Power System and Relaying Consideration: A Review Study	<a href="http://alexispress.us/sdm_downloads/practical-power-system-protection/">http://alexispress.us/sdm_downloads/practical-power-system-protection/</a>
Protecting the Components of the Power System: A Comprehensive Review	<a href="http://alexispress.us/sdm_downloads/practical-power-system-protection/">http://alexispress.us/sdm_downloads/practical-power-system-protection/</a>
An Overview on Switching Schemes and Procedures	<a href="http://alexispress.us/sdm_downloads/practical-power-system-protection/">http://alexispress.us/sdm_downloads/practical-power-system-protection/</a>
A Brief Introduction of Finance	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/">http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/</a>
Information and Technology: Crucial Drivers of Modern Advancement	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/">http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/</a>
Key Microeconomic and Macroeconomic Issues: Understanding Market Dynamics and Economic Performance	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/">http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/</a>
Corporate Governance and Structure: Building Effective Organizational Frameworks	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/">http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/</a>
Shareholders' and Company Management Relations	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/">http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/</a>
Solutions to Agency Issues: Nurturing Alignment and Accountability	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/">http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/</a>
Money and Rates: The Foundations of Economics	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/">http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/</a>
Finance Related Interest Rates: Exploring the Dynamics and Implications	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/">http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/</a>
Accrual Accounting: Unveiling the Process of Financial Recognition	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/">http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/</a>
Characteristics of a Fixed Asset: Understanding the Key Elements	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/">http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/</a>

Balance Sheet and Income Statement Relationship: Unraveling Financial Performance	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/">http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/</a>
Calendar Year vs Fiscal Year: Understanding Reporting Periods in Financial Statements	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/">http://alexispress.us/sdm_downloads/fundamentals-of-finance-theory/</a>
Applications of Time Value of Money (TVM) in Finance: Unlocking the Power of Financial Decision-Making	<a href="http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/">http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/</a>
Perpetuity in Finance: Analyzing the Endless Stream of Cash Flows	<a href="http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/">http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/</a>
Bond Valuation and Bonds: Unraveling the Pricing and Dynamics of Fixed-Income Securities	<a href="http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/">http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/</a>
Bond Laddering: Optimizing Returns and Managing Risk through Strategic Fixed-Income Investing	<a href="http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/">http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/</a>
Comparing DCF Model and DDMs: Unraveling Differences in Valuing Stocks	<a href="http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/">http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/</a>
Markets for Corporate Bonds: Understanding Dynamics and Investment Opportunities	<a href="http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/">http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/</a>
Behavior of Federal Government Bonds: A Comprehensive Analysis with Discussion, Graphs and Charts	<a href="http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/">http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/</a>
A Brief Analysis of Correlation: Understanding Relationships and Interdependencies	<a href="http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/">http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/</a>
Applications in Performance Measurement: Enhancing Evaluation and Decision-Making	<a href="http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/">http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/</a>
The Method of Internal Rate of Return (IRR): Unraveling the Power of Investment Evaluation	<a href="http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/">http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/</a>
Choosing Between Incompatible Initiatives: Decision-Making Strategies for Conflicting Projects	<a href="http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/">http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/</a>
Making Investment Decisions for the Company Using Excel	<a href="http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/">http://alexispress.us/sdm_downloads/theory-and-practice-of-finance-theory/</a>
The Features of Ecology: A Comprehensive Review	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-ecology/">http://alexispress.us/sdm_downloads/fundamentals-of-ecology/</a>
Science of the Environment and Sustainability	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-ecology/">http://alexispress.us/sdm_downloads/fundamentals-of-ecology/</a>
Application of the Importance of Ecology	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-ecology/">http://alexispress.us/sdm_downloads/fundamentals-of-ecology/</a>
Features of the Earth Environment	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-ecology/">http://alexispress.us/sdm_downloads/fundamentals-of-ecology/</a>

Features of Ecological Abiotic Factors	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-ecology/">http://alexispress.us/sdm_downloads/fundamentals-of-ecology/</a>
Biotic and Anthropogenic Factors: An Analysis	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-ecology/">http://alexispress.us/sdm_downloads/fundamentals-of-ecology/</a>
The Principles of Aquatic Chemistry	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-ecology/">http://alexispress.us/sdm_downloads/fundamentals-of-ecology/</a>
Features of the Ecological Ecosystem	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-ecology/">http://alexispress.us/sdm_downloads/fundamentals-of-ecology/</a>
Energy Flow in Ecosystem and Biochemical Cycle	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-ecology/">http://alexispress.us/sdm_downloads/fundamentals-of-ecology/</a>
Features of Population and Community Ecology	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-ecology/">http://alexispress.us/sdm_downloads/fundamentals-of-ecology/</a>
Impact of Land Degradation on Ecosystem	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-ecology/">http://alexispress.us/sdm_downloads/fundamentals-of-ecology/</a>
Exploring the Impact of Pollution Ecology	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-ecology/">http://alexispress.us/sdm_downloads/fundamentals-of-ecology/</a>
An Assessment of the Water Pollution	<a href="http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/">http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/</a>
Impact of Noise Pollution on Human	<a href="http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/">http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/</a>
Soil Pollution, Radioactive Pollution and Solid Waste Pollution	<a href="http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/">http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/</a>
Global Environmental Problems and Conservation Strategies	<a href="http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/">http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/</a>
A Comprehensive Review on Biodiversity Loss	<a href="http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/">http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/</a>
Management Ecosystems for Sustainable Living	<a href="http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/">http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/</a>
Advance Sustainable Urban Development: Ecological Urbanization	<a href="http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/">http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/</a>
Industrial Ecology for Waste Minimization, Utilization, and Treatment	<a href="http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/">http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/</a>
Chemical Analysis of Water and Wastewater	<a href="http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/">http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/</a>
Nature, Sources and Ecological Chemistry of Hazardous Wastes	<a href="http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/">http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/</a>
Applied Ecology and Remote Sensing	<a href="http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/">http://alexispress.us/sdm_downloads/emerging-patterns-and-social-ecological-systems/</a>

The Allocation Redeployment of Capital Invested Cash	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-management/">http://alexispress.us/sdm_downloads/product-strategy-and-management/</a>
An Overview of Competition and Product Strategy	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-management/">http://alexispress.us/sdm_downloads/product-strategy-and-management/</a>
Managing Competition: Role of Effective Product Strategy	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-management/">http://alexispress.us/sdm_downloads/product-strategy-and-management/</a>

A Comprehensive Review of the Process Innovation	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-management/">http://alexispress.us/sdm_downloads/product-strategy-and-management/</a>
Theoretical Foundations and Practical Considerations of Product Development	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-management/">http://alexispress.us/sdm_downloads/product-strategy-and-management/</a>
Objective Versus Subjective Selection Criteria of Product	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-management/">http://alexispress.us/sdm_downloads/product-strategy-and-management/</a>
Strategies of the Classifying New Products	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-management/">http://alexispress.us/sdm_downloads/product-strategy-and-management/</a>
Exploring the Buyer Behavior: A Review Study	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-management/">http://alexispress.us/sdm_downloads/product-strategy-and-management/</a>
Adoption and Diffusion of New Products	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-management/">http://alexispress.us/sdm_downloads/product-strategy-and-management/</a>
An Assessment of the Product Life Cycle Theory	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-management/">http://alexispress.us/sdm_downloads/product-strategy-and-management/</a>
PLC Concept and Its Relevance for Strategic Decision-Making	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-management/">http://alexispress.us/sdm_downloads/product-strategy-and-management/</a>
Practical Application of PLC Concept and Its Implications	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-management/">http://alexispress.us/sdm_downloads/product-strategy-and-management/</a>
Exploring the Importance of Effective Product Portfolio	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-management/">http://alexispress.us/sdm_downloads/product-strategy-and-management/</a>
A Review Study of Usefulness of the Process Models	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/">http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/</a>
Design and Analysis of Organizational Structure	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/">http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/</a>
An Analysis of People Management in New Product Development Process	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/">http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/</a>
The Components of New Product Strategy: Technologies and Markets	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/">http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/</a>
Role of Information Sources for New Product Ideas	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/">http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/</a>
Concept of Brainstorming and Its Variations	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/">http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/</a>
Techniques for Activating External Sources	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/">http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/</a>
Exploring the Benefits of Effective Screening	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/">http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/</a>
Relationship Between Needs and Products Development Process	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/">http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/</a>
Significance of A Product's Frame of Reference and Product Field	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/">http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/</a>
A Comprehensive Review of Business Analysis to Assess Consumer Needs	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/">http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/</a>
Exploring the Benefits of Sensitivity Analysis in Decision-Making	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/">http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/</a>
Impact of Approaches Used in Product Testing: A Review Study	<a href="http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/">http://alexispress.us/sdm_downloads/product-strategy-and-product-roadmap-practices/</a>

Determination of Production Planning and Control: Strategies, Techniques, and Performance Optimization	<a href="http://alexispress.us/sdm_downloads/production-planning-and-control/">http://alexispress.us/sdm_downloads/production-planning-and-control/</a>
Functions of Production Planning and Control: Enhancing Operational Efficiency	<a href="http://alexispress.us/sdm_downloads/production-planning-and-control/">http://alexispress.us/sdm_downloads/production-planning-and-control/</a>
Overview of Aggregate Planning: Concepts, Approaches, and Decision-making Strategies	<a href="http://alexispress.us/sdm_downloads/production-planning-and-control/">http://alexispress.us/sdm_downloads/production-planning-and-control/</a>
Process of Capacity Planning: A Review Study	<a href="http://alexispress.us/sdm_downloads/production-planning-and-control/">http://alexispress.us/sdm_downloads/production-planning-and-control/</a>
Blueprint of Production System: Design, Components, and Optimization	<a href="http://alexispress.us/sdm_downloads/production-planning-and-control/">http://alexispress.us/sdm_downloads/production-planning-and-control/</a>
Analysis of Material Requirements Planning: Strategies, Challenges, and Performance Optimization	<a href="http://alexispress.us/sdm_downloads/production-planning-and-control/">http://alexispress.us/sdm_downloads/production-planning-and-control/</a>
Analysis of Just-in-Time Manufacturing System: Principles, Implementation, and Performance Evaluation	<a href="http://alexispress.us/sdm_downloads/production-planning-and-control/">http://alexispress.us/sdm_downloads/production-planning-and-control/</a>
Forecasting for Inventory and Production Control: Techniques, Applications, and Performance Optimization	<a href="http://alexispress.us/sdm_downloads/production-planning-and-control/">http://alexispress.us/sdm_downloads/production-planning-and-control/</a>
Time Series Analysis: Methods, Applications, And Performance Evaluation	<a href="http://alexispress.us/sdm_downloads/production-planning-and-control/">http://alexispress.us/sdm_downloads/production-planning-and-control/</a>
Perpetual Inventory Control System: Design, Implementation, and Performance Evaluation	<a href="http://alexispress.us/sdm_downloads/production-planning-and-control/">http://alexispress.us/sdm_downloads/production-planning-and-control/</a>
Evolution of Aggregate Planning Methods and their Techniques	<a href="http://alexispress.us/sdm_downloads/production-planning-and-control/">http://alexispress.us/sdm_downloads/production-planning-and-control/</a>
Elements of Operations Control: Strategies, Practices, and Performance Optimization	<a href="http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/">http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/</a>
Determination of Continuous Improvement: Strategies and Implementation	<a href="http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/">http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/</a>
Determination of Continuous Improvement: Performance Outcomes	<a href="http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/">http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/</a>
Planning for High Volume Standardized Products: A Review Study	<a href="http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/">http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/</a>
Procedure and Documentation in Production Planning and Control (PPC)	<a href="http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/">http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/</a>
Inventory Management in Planning and Control: Strategies, Optimization, and Performance Implications	<a href="http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/">http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/</a>
Determination of Business Process Reengineering: Methodologies, Challenges, and Performance Impacts	<a href="http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/">http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/</a>
A Review Study of Production Environmental Choices	<a href="http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/">http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/</a>

Analysis of Appropriate Materials For Production: Enhancing Efficiency and Quality in Manufacturing	<a href="http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/">http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/</a>
Material Properties and Product Attributes: Enhancing Design and Performance	<a href="http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/">http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/</a>
Analysis and Evolution of Surface Engineering Process Selection	<a href="http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/">http://alexispress.us/sdm_downloads/manufacturing-planning-and-control-systems/</a>
Analysis and Evolution of Thermal Surfacing Processes	<a href="http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/">http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/</a>
Importance of Information Systems in Business	<a href="http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/">http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/</a>
Exploring the Development of New Product and Business Models	<a href="http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/">http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/</a>
Complementary Assets: Organizational Capital and the Right Business Model	<a href="http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/">http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/</a>
Business Processes and Information Systems	<a href="http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/">http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/</a>
Features of Systems for Linking the Enterprise	<a href="http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/">http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/</a>
Checklist for Managers: Evaluating and Selecting Collaboration and Social Software Tools	<a href="http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/">http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/</a>
Exploring the Information Systems and its Organizations	<a href="http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/">http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/</a>
Understanding Of Information Systems: An Analysis	<a href="http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/">http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/</a>
Application of the Business Value Chain Model	<a href="http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/">http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/</a>
Improving Decision Making to Clarify Business Strategy	<a href="http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/">http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/</a>
Exploring the Role of Internet in Management of Information	<a href="http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/">http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/</a>
Exploring the Intellectual Property Rights in New Innovations	<a href="http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/">http://alexispress.us/sdm_downloads/managing-the-digital-firm-using-management-information-system/</a>

An Analysis of Information Technology Infrastructure	<a href="http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/">http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/</a>
An Assessment of Mass Digital Storage	<a href="http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/">http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/</a>
Application of the Cloud Computing	<a href="http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/">http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/</a>
Exploring the Software Outsourcing and Cloud Services	<a href="http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/">http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/</a>
Features of the Database Approach to Data Management	<a href="http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/">http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/</a>
Application of the Business Intelligence Infrastructure	<a href="http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/">http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/</a>
A Review Study of Consumer Product Safety Database	<a href="http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/">http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/</a>
Roles of the Networks in Large Companies Operations	<a href="http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/">http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/</a>
An Assessment of Battle Over Net Neutrality	<a href="http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/">http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/</a>
A Comprehensive Review of Wireless Revolution	<a href="http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/">http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/</a>
An Analysis of Information Systems Security	<a href="http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/">http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/</a>
Global Threats: Cyberterrorism and Cyberwarfare	<a href="http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/">http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/</a>
Disaster Recovery Planning and Business Continuity Planning	<a href="http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/">http://alexispress.us/sdm_downloads/essentials-of-management-information-systems/</a>
Four Irresistible Forces to Increase Labor Mobility: A Comprehensive Analysis	<a href="http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/">http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/</a>
Analysis of Trends and patterns in Intra-ASEAN Migration	<a href="http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/">http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/</a>
Managing Labor Mobility: A Missing Pillar of Global Governance	<a href="http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/">http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/</a>
Analysis and Determination of Non-Binding Mechanisms	<a href="http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/">http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/</a>
The International Mobility of Students and Its Links with Labor Migration	<a href="http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/">http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/</a>
Assessing Labor Market Requirements for Foreign Workers	<a href="http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/">http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/</a>
Protection of Migrant Workers: Challenges, Policies, and Strategies	<a href="http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/">http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/</a>
Economic Contribution of Migrant Workers in Destination Countries	<a href="http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/">http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/</a>
Bilateral and Other Agreements for Managing Labor Migration	<a href="http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/">http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/</a>
Reducing Migration Costs Incurred by the Low-skilled	<a href="http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/">http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/</a>
Characteristics and Analysis of Asia-Pacific Labor Migration	<a href="http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/">http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/</a>

Investigation of Trends in Regional Remittance Flows	<a href="http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/">http://alexispress.us/sdm_downloads/labour-dignity-and-mobility/</a>
Analysis and Evolution of Labour Migration and Development	<a href="http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/">http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/</a>
Analysis of Recipient Country Labor Markets	<a href="http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/">http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/</a>
Migration in Bilateral Preferential Trade Agreements	<a href="http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/">http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/</a>
Regional and Bilateral Agreements on Labour Mobility	<a href="http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/">http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/</a>
Trade and Migration as Complements: Exploring Synergies for Economic Development	<a href="http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/">http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/</a>
Exploring the Impacts of Remittance Flows	<a href="http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/">http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/</a>
Managing Labour Mobility in the Asia-Pacific Area: An Overview	<a href="http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/">http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/</a>
Maximize the Development Impacts of Labour Mobility for the Sending Country	<a href="http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/">http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/</a>
Analysis of System of Institutionalized Costs and International Migration Patterns	<a href="http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/">http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/</a>
Empirical Mobility Functions: Modeling and Analysis of Human Mobility Patterns	<a href="http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/">http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/</a>
Evolution of Occupational Mobility of Labor	<a href="http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/">http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/</a>
Workers' Awareness about the Labour Laws	<a href="http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/">http://alexispress.us/sdm_downloads/human-dignity-and-social-autonomy/</a>
Introduction of Flexible AC Transmission System	<a href="http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/">http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/</a>
Introduction to FACT's Controller	<a href="http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/">http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/</a>
Application of the Power Semiconductor Devices	<a href="http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/">http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/</a>
Features of the Power Electronics Facts Controller	<a href="http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/">http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/</a>
Application of the Voltage Source Converter	<a href="http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/">http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/</a>
Self and Line-Commutated Current Source Converter	<a href="http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/">http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/</a>
AC Transmission Line and Reactive Power Compensation	<a href="http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/">http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/</a>
Features of the Static Shunt Compensators	<a href="http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/">http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/</a>
Application of The AC Transmission Stator	<a href="http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/">http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/</a>
Application of the Static Series Compensators	<a href="http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/">http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/</a>

Series Compensator: TCSC, TCSR, TSSR, SSSC	<a href="http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/">http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/</a>
Static Voltage and Phase Angle Regulators	<a href="http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/">http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/</a>
Thyristor controlled Voltage and Phase Angle Regulators	<a href="http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/">http://alexispress.us/sdm_downloads/flexible-ac-transmission-system/</a>
Application of the Static Phase Shifting Transformer	<a href="http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/">http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/</a>
Application of the Unified Power Flow Controller	<a href="http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/">http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/</a>
Features of the Interline Power Flow Controller (IPFC)	<a href="http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/">http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/</a>
Applications of Special Purpose FACTS Controller	<a href="http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/">http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/</a>
Application of the Interphase Power Controller	<a href="http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/">http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/</a>
Application of the Power Oscillation Damping	<a href="http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/">http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/</a>
An Analysis of Improvement of Transient Stability	<a href="http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/">http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/</a>
Exploring the Features of Power Quality	<a href="http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/">http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/</a>
Load Compensation and Distributed STATCOM	<a href="http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/">http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/</a>
A Review Study on Electronic Ballast Theory	<a href="http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/">http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/</a>
Features of the Power Supplies in Power System	<a href="http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/">http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/</a>
Exploring the Uninterruptible Power Supplies	<a href="http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/">http://alexispress.us/sdm_downloads/ac-transmission-systems-modelling-and-control/</a>
Essential Component of Setting the scene	<a href="http://alexispress.us/sdm_downloads/introduction-to-brand-management/">http://alexispress.us/sdm_downloads/introduction-to-brand-management/</a>
An Overview of Economic Approach	<a href="http://alexispress.us/sdm_downloads/introduction-to-brand-management/">http://alexispress.us/sdm_downloads/introduction-to-brand-management/</a>
Theoretical Building Blocks of the Economic Approach	<a href="http://alexispress.us/sdm_downloads/introduction-to-brand-management/">http://alexispress.us/sdm_downloads/introduction-to-brand-management/</a>

Markets Maximize Society's Total Surplus	<a href="http://alexispress.us/sdm_downloads/economics-of-producer-behaviours-and-supply/">http://alexispress.us/sdm_downloads/economics-of-producer-behaviours-and-supply/</a>
Income Elasticity of Demand	<a href="http://alexispress.us/sdm_downloads/economics-of-producer-behaviours-and-supply/">http://alexispress.us/sdm_downloads/economics-of-producer-behaviours-and-supply/</a>
An Introduction to PPI Methodology	<a href="http://alexispress.us/sdm_downloads/economics-of-producer-behaviours-and-supply/">http://alexispress.us/sdm_downloads/economics-of-producer-behaviours-and-supply/</a>
Random Sampling and Purposive Sampling	<a href="http://alexispress.us/sdm_downloads/economics-of-producer-behaviours-and-supply/">http://alexispress.us/sdm_downloads/economics-of-producer-behaviours-and-supply/</a>
Obstacles to Economic Development	<a href="http://alexispress.us/sdm_downloads/economics-of-producer-behaviours-and-supply/">http://alexispress.us/sdm_downloads/economics-of-producer-behaviours-and-supply/</a>
Social and Institutional Aspects of Development	<a href="http://alexispress.us/sdm_downloads/economics-of-producer-behaviours-and-supply/">http://alexispress.us/sdm_downloads/economics-of-producer-behaviours-and-supply/</a>

A Brief Study on Population and Development	<a href="http://alexispress.us/sdm_downloads/economics-of-producer-behaviours-and-supply/">http://alexispress.us/sdm_downloads/economics-of-producer-behaviours-and-supply/</a>
A Brief Study on Economic Development and Institutions	<a href="http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/">http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/</a>
A Study on Unlimited Supply of Labour	<a href="http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/">http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/</a>
Determination of Capital Accumulation	<a href="http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/">http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/</a>
A Brief Study on Indispensability of Labor Reallocation	<a href="http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/">http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/</a>
A Study on Balanced Growth and Unbalanced Growth	<a href="http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/">http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/</a>
Investigation of Unbalanced Growth	<a href="http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/">http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/</a>
Analysis of Critical Minimum Efforts	<a href="http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/">http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/</a>
Nature and Magnitude of the Minimum Effort	<a href="http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/">http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/</a>
A Study on Low - Level Equilibrium Trap	<a href="http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/">http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/</a>
Marxian Theory of Dependency Theory	<a href="http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/">http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/</a>
A Brief Study on Theories of Underdevelopment	<a href="http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/">http://alexispress.us/sdm_downloads/econometric-modeling-of-producer-behaviour/</a>
Determination of Economic Development	<a href="http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/">http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/</a>
Theory of Two Sector Models and Determination	<a href="http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/">http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/</a>
Determination of Intergenerational Transfers	<a href="http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/">http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/</a>
Extensions to Neoclassical Growth Theory	<a href="http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/">http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/</a>
A Brief Introduction on Fiscal Policy Reform	<a href="http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/">http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/</a>
Wage and Fertility Gaps in Dual Economies	<a href="http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/">http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/</a>
A Brief Discussion on Traditional Sector in Economics	<a href="http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/">http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/</a>
A Brief Study on Physical Capital in Dual Economies	<a href="http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/">http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/</a>
Reduced Incentives for Human Capital Investment	<a href="http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/">http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/</a>
Determination of Urbanization in Modern World	<a href="http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/">http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/</a>
Rural Industry Impact on Economic Growth	<a href="http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/">http://alexispress.us/sdm_downloads/introduction-to-economics-of-development/</a>
Urbanization Today: New Mechanisms and Consequences	<a href="http://alexispress.us/sdm_downloads/economics-and-development-studies/">http://alexispress.us/sdm_downloads/economics-and-development-studies/</a>

Introduction on Nature of Modern Growth	<a href="http://alexispress.us/sdm_downloads/economics-and-development-studies/">http://alexispress.us/sdm_downloads/economics-and-development-studies/</a>
Income Inequality in Developed and Developing Countries	<a href="http://alexispress.us/sdm_downloads/economics-and-development-studies/">http://alexispress.us/sdm_downloads/economics-and-development-studies/</a>
Rural Poverty and Agricultural Transformation	<a href="http://alexispress.us/sdm_downloads/economics-and-development-studies/">http://alexispress.us/sdm_downloads/economics-and-development-studies/</a>
Multinational Corporations and Contract Farming	<a href="http://alexispress.us/sdm_downloads/economics-and-development-studies/">http://alexispress.us/sdm_downloads/economics-and-development-studies/</a>
A Brief Introduction on Strategies for Reducing Fertility	<a href="http://alexispress.us/sdm_downloads/economics-and-development-studies/">http://alexispress.us/sdm_downloads/economics-and-development-studies/</a>
Dimensions of Unemployment and Underemployment	<a href="http://alexispress.us/sdm_downloads/economics-and-development-studies/">http://alexispress.us/sdm_downloads/economics-and-development-studies/</a>
A Study on Non-economic Benefits of Education	<a href="http://alexispress.us/sdm_downloads/economics-and-development-studies/">http://alexispress.us/sdm_downloads/economics-and-development-studies/</a>
A Study on Determination of Sourcing and Pricing	<a href="http://alexispress.us/sdm_downloads/economics-and-development-studies/">http://alexispress.us/sdm_downloads/economics-and-development-studies/</a>
Analysis of Procurement	<a href="http://alexispress.us/sdm_downloads/economics-and-development-studies/">http://alexispress.us/sdm_downloads/economics-and-development-studies/</a>
Analysis of Supply Chain Synchronization	<a href="http://alexispress.us/sdm_downloads/economics-and-development-studies/">http://alexispress.us/sdm_downloads/economics-and-development-studies/</a>
A Discussion on Production and Operation Management	<a href="http://alexispress.us/sdm_downloads/modern-production-and-operation-management/">http://alexispress.us/sdm_downloads/modern-production-and-operation-management/</a>
Industrial Engineering, Manufacturing Engineering and Operations Research	<a href="http://alexispress.us/sdm_downloads/modern-production-and-operation-management/">http://alexispress.us/sdm_downloads/modern-production-and-operation-management/</a>
Various Technologies of Automation	<a href="http://alexispress.us/sdm_downloads/modern-production-and-operation-management/">http://alexispress.us/sdm_downloads/modern-production-and-operation-management/</a>
Facility Planning: Location of Facilities	<a href="http://alexispress.us/sdm_downloads/modern-production-and-operation-management/">http://alexispress.us/sdm_downloads/modern-production-and-operation-management/</a>
A Study on Production Process Planning	<a href="http://alexispress.us/sdm_downloads/modern-production-and-operation-management/">http://alexispress.us/sdm_downloads/modern-production-and-operation-management/</a>
A Brief Discussion on Product-process matrix	<a href="http://alexispress.us/sdm_downloads/modern-production-and-operation-management/">http://alexispress.us/sdm_downloads/modern-production-and-operation-management/</a>
A Brief Introduction on Job Design and Rating	<a href="http://alexispress.us/sdm_downloads/modern-production-and-operation-management/">http://alexispress.us/sdm_downloads/modern-production-and-operation-management/</a>
Procedure of Layout Planning	<a href="http://alexispress.us/sdm_downloads/modern-production-and-operation-management/">http://alexispress.us/sdm_downloads/modern-production-and-operation-management/</a>
Benefits of Production Planning and Control	<a href="http://alexispress.us/sdm_downloads/modern-production-and-operation-management/">http://alexispress.us/sdm_downloads/modern-production-and-operation-management/</a>
A Brief Introduction about the Types of Forecasting	<a href="http://alexispress.us/sdm_downloads/modern-production-and-operation-management/">http://alexispress.us/sdm_downloads/modern-production-and-operation-management/</a>
Causal Relationships using Cause–Effect Models	<a href="http://alexispress.us/sdm_downloads/modern-production-and-operation-management/">http://alexispress.us/sdm_downloads/modern-production-and-operation-management/</a>
Just-in-time for Manufacturing and Inventory	<a href="http://alexispress.us/sdm_downloads/modern-production-and-operation-management/">http://alexispress.us/sdm_downloads/modern-production-and-operation-management/</a>
An Overview of Critical Path Method	<a href="http://alexispress.us/sdm_downloads/modern-production-and-operation-management/">http://alexispress.us/sdm_downloads/modern-production-and-operation-management/</a>
Implementation of Total Quality Control	<a href="http://alexispress.us/sdm_downloads/production-and-operations-management-systems/">http://alexispress.us/sdm_downloads/production-and-operations-management-systems/</a>

Brief Study on Lot Acceptance Sampling Plan	<a href="http://alexispress.us/sdm_downloads/production-and-operations-management-systems/">http://alexispress.us/sdm_downloads/production-and-operations-management-systems/</a>
A Discussion on Taguchi's Quality Loss Function	<a href="http://alexispress.us/sdm_downloads/production-and-operations-management-systems/">http://alexispress.us/sdm_downloads/production-and-operations-management-systems/</a>
New Management Tools for Businesses	<a href="http://alexispress.us/sdm_downloads/production-and-operations-management-systems/">http://alexispress.us/sdm_downloads/production-and-operations-management-systems/</a>
Implementation of JIT-manufacturing	<a href="http://alexispress.us/sdm_downloads/production-and-operations-management-systems/">http://alexispress.us/sdm_downloads/production-and-operations-management-systems/</a>
A Study on Importance of productivity	<a href="http://alexispress.us/sdm_downloads/production-and-operations-management-systems/">http://alexispress.us/sdm_downloads/production-and-operations-management-systems/</a>
Frame work for Managing Operations	<a href="http://alexispress.us/sdm_downloads/production-and-operations-management-systems/">http://alexispress.us/sdm_downloads/production-and-operations-management-systems/</a>
Brief Introduction on Forecasting in Business	<a href="http://alexispress.us/sdm_downloads/production-and-operations-management-systems/">http://alexispress.us/sdm_downloads/production-and-operations-management-systems/</a>
Role of Product and Process Design	<a href="http://alexispress.us/sdm_downloads/production-and-operations-management-systems/">http://alexispress.us/sdm_downloads/production-and-operations-management-systems/</a>
An Overview of Product Design Tools	<a href="http://alexispress.us/sdm_downloads/production-and-operations-management-systems/">http://alexispress.us/sdm_downloads/production-and-operations-management-systems/</a>
Capacity Design for Operation Management	<a href="http://alexispress.us/sdm_downloads/production-and-operations-management-systems/">http://alexispress.us/sdm_downloads/production-and-operations-management-systems/</a>
Economies and Diseconomies of Scale Learning Curve	<a href="http://alexispress.us/sdm_downloads/production-and-operations-management-systems/">http://alexispress.us/sdm_downloads/production-and-operations-management-systems/</a>
Operations Management for Supply Chain	<a href="http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/">http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/</a>
Forecasting in Operations Planning	<a href="http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/">http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/</a>
Factors Encouraging Excess and Insufficient Capacity	<a href="http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/">http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/</a>
Flow of Components in A Composite Layout	<a href="http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/">http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/</a>
Importance of Product Design	<a href="http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/">http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/</a>
Planning and Control of Production	<a href="http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/">http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/</a>
Fundamentals of Scheduling	<a href="http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/">http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/</a>
Operation Management uses Project Management	<a href="http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/">http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/</a>
Review on the Economics of Maintenance and Spares Management	<a href="http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/">http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/</a>
Organizational Structuring for The Implementation of a Strategy	<a href="http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/">http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/</a>
Introduction to Operations Management	<a href="http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/">http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/</a>
A Breif Study on Strategic Environment Management	<a href="http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/">http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/</a>
A Discussion on Organizational-Level Strategy	<a href="http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/">http://alexispress.us/sdm_downloads/basics-of-operations-management-and-strategies/</a>

Functional-Level Planning and Organization	<a href="http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/">http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/</a>
Organizational Effectiveness and Technology	<a href="http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/">http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/</a>
Complexity of the Technology and Organizational Structure	<a href="http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/">http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/</a>
Technology with Long Linkages and Sequential Interdependence	<a href="http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/">http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/</a>
Recognize the Connections Between Organizational Redesign, Change and Effectiveness	<a href="http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/">http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/</a>
Analysis of The Quality Management System in Organizational Management	<a href="http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/">http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/</a>
Assessment of the Organization Management	<a href="http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/">http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/</a>
Overview of Strategic Management	<a href="http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/">http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/</a>
Development of an Operations Strategy Taxonomy	<a href="http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/">http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/</a>
Essence of an Operations Strategy	<a href="http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/">http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/</a>
Implementing A Business Plan	<a href="http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/">http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/</a>
Operational Strategy is Shaped by Tactical Considerations	<a href="http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/">http://alexispress.us/sdm_downloads/essential-guide-to-strategic-operations-management/</a>
A Brief Overview about Environmental Science	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Natural Resources in the Environment: Utilizing Earth's Gifts	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>

Water Resources: Use and Over-Utilization of Surface and Ground Water	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Ecosystem: Exploring the Interconnected Web of Environment	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Ecological Pyramids and Decomposers: Nature's Hierarchy	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Ecological Succession and Its Types: Dynamics of Eco-system	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Biodiversity: The Network of Life and Conservation	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Conservation of Biodiversity: Preserving Earth's Ecology	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Pollution and Its Factors: Understanding Environmental Contamination	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Disaster Management: Preparedness, Response and Recovery	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Climate Change: Impacts, and Adaptation Strategies	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>

Environmental Acts: Protecting Nature and Promoting Sustainability	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Causes of Population Growth: Examining Factors and Trends	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Diseases and Its Prevention: Safeguarding Health and Well-being	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Understanding the Basics Features of Environmental Science: Field Trip	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Modern Methods in Environmental Science	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Forms of Discussion: Sharing and Communication	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Environmental Science: Exploring the Modern Library of Knowledge and Solutions	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Environmental Science: Modern and Effective Teacher	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Environmental Science and Natural Resources	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>

Water Conservation: Resource for Future	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
A Brief Overview to Green Environmental Issues	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Environmental Ethics, Environmental Impact Assessment and Role of NGOs	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=January&amp;issue=1&amp;vol=10&amp;year=2022&amp;key=Mw==</a>
Basic Introduction of Applied Ecology System	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Introduction to Conservation Management	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Understanding the Development of Habitats in Ecosystems	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Agro-Ecological System and Its Application	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
An Overview on Wetland Engineering and Its Significance	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Analysis of the Disease Transmission	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>

Rare Species Breeding and Reintroduction	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Understanding Environmental Valuation of Ecology	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Applications and Impact of Nature Tourism	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
An Overview on Endangered Resources and Its Application	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
A Brief Introduction on New Societies and Cultures	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Case Studies and Educating Through Case Studies	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Asian Rainforest Politics, Case Studies and Applied Ecology	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Introduction about British Limestone Grasslands	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Introduction to Case Studies of Ecosystem Services	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>

Evaluation of the Effects on Ecosystem Services in the Tamar Catchment	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Evaluation of the Effects on Ecosystem Services in Alkborough Flats	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
The Cornwall Rivers Project and Tamar 2000	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Sustainable Sugarcane Trash Management in Tropical Soil	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Heavy Metal Uptake in Cauliflower: Health Risks	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Enhancing Urban Green Space in Xuzhou Quanta District	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Introduction to Conservation Management and Application	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Basic Approach on Ecology System in Environment	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Application and Classification of Ecology	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>

Climate Change's Impact on Biodiversity in Forest Ecosystems	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=February&amp;issue=2&amp;vol=10&amp;year=2022&amp;key=NA==</a>
Principle Properties of Building Materials	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Structural Clay Products: Applications, Production and Benefits	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Manufacturing and Classification of Bricks	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Rocks: Properties, Classification and Used	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Importance of Stone in Building Construction	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Classification of Woods: Types and Applications	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Structure, Classification and Use of Timber	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Cement: Composition, Production and Applications	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>

Introduction and Characteristics of Aggregates	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Water in Concrete Mixture: Role, Proportioning and Effects	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Importance of Lime in Construction: Properties and Applications	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Pozzolana : Active Ingredient in Construction	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Study of Concrete Technology: Principles and Applications	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Study of Concrete Mix Design: Optimizing Strength and Durability	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Overview of Building Mortar: Composition, Types and Applications	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Structure of Ferrous Metals: Exploring Iron-Based Alloys	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Importance of Steel in Construction: Strength, Versatility and Sustainability	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>

Exploring the Versatility of Non-Ferrous Metals	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Overview of Ceramic Materials: Composition, Types and Applications	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Overview of Polymeric Materials: Properties, Applications and Advancements	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Paints and Varnishes: Enhancing Protection Efficiency	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Tar, Bitumen and Asphalt: Applications in Construction and Infrastructure	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Study of Gypsum: Properties, Applications and Benefits	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Special Cements and Cement Concrete: Innovations and Applications	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
Standard Cement Concrete: Composition, Properties and Applications	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=March&amp;issue=3&amp;vol=10&amp;year=2022&amp;key=NQ==</a>
A Brief Introduction about Welding Process	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>

Exploring Non-Metallic Materials: Properties and Applications	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
Features of Carpentry: Basic Building Construction Material	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
Applications of Press Work and Die-Punch Assembly	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
Casting Process: Characteristics, Applications and Significance	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
Influences Productivity: Location and Layout of Plants	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
Forging: Methods for Shaping the Metal	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
Material: Characteristics, Properties, and Application	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
Pattern of Core Making: Techniques for Casting Processes	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
Inspection and Quality Control: Characteristics and Applications	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>

A Brief Overview to Manufacture Tools: Shaper and Planners	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
A Brief Overview to Machine Operations and Tools	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
Cutting-Tool Technology:Advanced Manufacturing Methods	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
Economic and Product Design Considerations in Machining	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
Grinding Abrasive Processes: Characteristics and Applications	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
Heat Treatment of Metals: Change Metal Characteristics	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
Surface Processing Operations: Enhance Material's Surface Qualities	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
Vapor Deposition Processes: Protecting Metal Surface	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
Fundamentals Features of Welding: Manufacturing and Construction	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>

Welding Processes: Techniques, Characteristics and Applications	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
A Comprehensive Overview: Brazing, Soldering, and Adhesive Bonding	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
Fusion-Welded Joint: Process of Metal Junction Formation	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=April&amp;issue=4&amp;vol=10&amp;year=2022&amp;key=Ng==</a>
An Overview of Globalization of Markets	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
International Trade: Theories and Significance	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Role of Economic Institutions & WTO in International Marketing	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Scanning the International: Bringing Nations Together Through Efforts	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Understanding the Legal Environment: An In-Depth Examination	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Unveiling the World: Exploring International Secondary Data	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>

Challenges in International Primary Data Collection	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
An Analysis of International Market Segmentation	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Supply Chain Mapping: From Production to Distribution	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Factors Affecting the Selection of International Market Entry Mode	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Globalizing Success: Crafting a Winning Product Strategy	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Exploring Global: Mastering the Product Launch Abroad	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Navigating the Price: Overcoming International Pricing Challenges	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Approaches to International Pricing: Global Strategy	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Countertrade: Companies Diversify International Transactions	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>

Understanding Terms of Trade and Incoterms	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Simplifying Export and Import Procedure: Documentation Essentials	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Navigating Import License and Quota Procurement	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
A Brief Overview About Foreign Trade Policies of India	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Empowering Job Creation: Employment-Oriented Measures	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Tackling Emerging Issues in International Marketing	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Current Trends in International Trade: A Brief Overview	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
A Global Markets: International Marketing Environment	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Special Provisions: Enhancing Agreements for Specific Needs	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=M%20TI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>

An Overview International Finance Corporation and Its Significance	<a href="https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==">https://ijircst.org/conference_paper.php?title=YOU%20RESEARCHERS%E2%80%99%20CONFERENCE%20ON%20INDIAN%20LITERATURES&amp;confkey=MTI=&amp;month=May&amp;issue=5&amp;vol=10&amp;year=2022&amp;key=Nw==</a>
Basic Introduction to Microeconomics and It's Application	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
A Basic Introduction on Challenges of an Economy	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
Introduction to Consumer Behaviour in Economics	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
Basic Approach on Demand and Law of Demand for Economics	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
A Brief Overview about Price Elasticity of Demand	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
Application of Production Theory and Its Scope	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
Introduction to Supply and Its Determinants	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
A comprehensive Overview: Concepts of Cost and Its Functions	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
Introduction to Forms of Market and Price Determination	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
A Basic Approach on Factor Price Determination	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>

Factor Prices, Comparative Advantage and International Trade	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
A Brief Introduction to Macroeconomics and Its Application	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
A Brief Introduction on National Income and Related Aggregates	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
Value of Xappendixa: Documentation and Supporting Evidence	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
Measurement of National Income Value Added Method	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
Introduction to Measurement of National Income Method	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
Measurement of National Income Expenditure Method	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
Introduction to Aggregate Demand and Aggregate Supply	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
Introduction to Determination of Income and Employment Income	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
A Comprehensive Overview: Keynesian Theory of Income	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
A Comprehensive Overview: Excess Deficient Demand and Its Scope	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
An Approach on the Money Meaning and Functions	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>

Application and Classification of Banking	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
An Overview on Government Budget Meaning and Components	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=June&amp;issue=6&amp;vol=10&amp;year=2022&amp;key=OA==</a>
Academic-Practitioner Collaboration and Knowledge Sharing	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
A Brief Overview of Acculturation Theory	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
Describe an Achievement Motivation Theory	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
Explanation Action Learning	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
Knowledge of Action Research	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
Investigating The Actor-Network Theory	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
Analysing a Theory of Adaptive Structure	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
A Brief Study on Gaining Knowledge about Affect Theory	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
Explaining "Affective Events Theory"	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
A Brief Study on Evaluating Agency Theory	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>

Analytic Hierarchy Process Model	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
A Brief Study on Appreciative Inquiry Model	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
Understanding Architectural Innovation	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
Analysing Attraction-Selection Attrition Model	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
Attribution Model of Leadership	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
Describe the Bad Theories in Management	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
A Study on Analysing Balanced Scorecard	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
A Brief Overview of BCG Growth-Share Matrix	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
Behavioural Perspective of Strategic Human Resource Management	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
Behavioural Theory of the Firm	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
Describe about Big Five Personality Dimensions	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
Bounded Rationality and Satisficing (Behavioural Decision-Making Model)	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>

An Overview of the Bureaucratic Theory	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
Business Policy and Corporate Strategy	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
A Study on Business Process Reengineering	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=July&amp;issue=7&amp;vol=10&amp;year=2022&amp;key=OQ==</a>
A Brief Overview of Schemas Theory	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
Describe about Scientific Management	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
Self-Concept and the Theory of Self	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
Analysing Self-Determination Theory	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
Self-Fulfilling Prophecy Analysis	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
A Brief Discussion on Recognising a Sense Making	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
A Study on Putting Servant Leadership to Use	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
A Brief Discussion on Understanding a Seven-S Framework	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
A Brief Discussion on Situational Theory of Leadership	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>

A Study on Classification a Six Sigma	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
A Brief Study on Social Cognitive Theory	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
Define a Social Construction Theory	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
Analysing Social Entrepreneurship	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
Describe Social Exchange Theory	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
A Brief Study on Social Facilitation Management	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
Understanding a Social Identity Theory	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
Social Impact Theory and Social Loafing	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
A Brief Study on Social Information Processing Model	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
Understanding a Social Movement	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
Classification Social Network Theory	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
A Brief Study on Remembering, Social Power, Bases	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>

Define a Sociotechnical Theory	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
Understating a Stages of Creativity	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
Describe Strategy and Structure	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
A Study on Applying Stages of Innovation	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
A Study on Analysing Stakeholder Theory	<a href="https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=">https://ijircst.org/conference_paper.php?title=Innovative%20Projects%202022&amp;confkey=MTM=&amp;month=August&amp;issue=8&amp;vol=10&amp;year=2022&amp;key=MTA=</a>
Application of the Health and Safety in Welding	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Monitoring Control of Welding and Joining Processes Applications	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Design Considerations for Welding: A Review Study	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Application of the Advanced Gas Welding Technology	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
A Review of Advanced Process Development Trends	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Welding Automation and Robotics: A Review	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Application of the Narrow-Gap Welding Techniques	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Application of the Gas Metal Arc Welding	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Application of the Plasma Arc Welding Process	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Application of the Welding Metalworking's Metallurgy	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Applications of Basics Features of the Safe Practices	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Impact of Personal Development Towards Work Progress in Engineering Fabrication and Welding Work	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Application of the Welding Metallurgy and Nonferrous Alloys	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>

Applications of Welding Metallurgy of Carbon Steels	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Exploring the Role of the Solid-State Welding Processes	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
The Features of Welding Metallurgy and Stainless Steels	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Application of the Filler Materials for Arc Welding	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
A Review of Test Methods for Evaluating Welded Joints	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Exploring the Mechanized, Automated, Robotic Welding	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Overview of the Electric Welding Processes	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Analysis of the Welding Power Source Technology	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
The Features of Engineering Materials and Heat Treatment	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Review of Structural Steelwork and Pipework	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Applications of the Joining Processes and Mechanical Connections	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Joining Processes: Soldering, Brazing, and Braze-Welding	<a href="https://ijermce.com/downloads/vol9-si-2s.pdf">https://ijermce.com/downloads/vol9-si-2s.pdf</a>
Basics Features of Voltage, Current, and Resistance	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Electrical System: Ohm's Law, Energy, and Power	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Series Circuits: Understanding Electrical Connections and Properties	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Direct and Transient Circuit: Analysis and Applications	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Laplace Transforms: Analyzing Signals and Systems	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
A Comprehensive Overview: Frequency Response and Bode Diagrams	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Semiconductor Diode: Properties, Characteristics, and Applications	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Bipolar Junction Transistor: Theory, Operation, and Applications	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Noise Semiconductor Devices: Analysis and Mitigation Strategies	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Exploring the World of MEMS Technology	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
The Application Of Transistors Switching Circuits	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Transistors Amplifier Circuits: Principle and Applications	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>

Transistor Amplifiers: Unleashing the Power of Active Devices	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Analog and Digital VLSI Design: Integrating the Best of Both Worlds	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
A Comprehensive Overview: Digital Design Combinational Logic	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Signal Processing: Unraveling the Secrets of Information Manipulation	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Analog Filter Synthesis: Designing a World of Signal Precision	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Electromagnetic Fields: Exploring the Fundamental Forces of Nature	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Quantities And Units: Building a Foundation for Precise Measurements	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Phenomena Sensors: Understanding the Measurement World	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Analyzing Circuits: Mesh and Nodal Techniques	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Alternating and Series Circuits: Exploring the Power of Alternating Current	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Magnetic Circuits: Exploring the Pathways of Magnetic Fields	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Three-Phase Circuits: Balancing Power in Polyphase Systems	<a href="https://ijerece.com/downloads/vol9-si-5s.pdf">https://ijerece.com/downloads/vol9-si-5s.pdf</a>
Importance of Non-Destructive Testing and Its Application	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Some NDT Testing Methods and Applications	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Application and Advantages of Visual Inspection	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Defects and Basic Metallurgical Processes in NDT	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
State-of-the-Art Nondestructive Inspection Reliability	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Introduction to Nondestructive Squid Based Evaluation	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Modern Technologies: Dental Biomaterials Nondestructive Testing	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
A Basic Approach On Welding Technology	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Ultrasonic Testing: Non-Destructive Evaluation for Quality Assurance	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Scope of Non Distractive Testing for Manufacturing	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Application of Non-Destructive Testing: Ensuring Quality and Safety	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Introduction to Impact of NDT in Disaster Prevention	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>

Introduction To Basic Metallurgical Processes And Defects	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Introduction to Physical and Mechanical Properties of Metallic Materials	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
An Approach On Materials In Service For Non-Destructive Testing	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Non Metallic Metals Used in NDT and Non-Metallic Materials	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Introduction to Technology of NDT Methods	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Magnetic Adaptive: Testing in Non Distractive Testing	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Introduction to Concrete Non-Destructive Testing Methods	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Introduction to Magnetic Pchapter Inspection and Its Advantages	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Application of Eddy Current Testing and Its Advantages	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Thermo Graphic Testing: Advantage and Application	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
A Brief Introduction on Acoustic Emission Testing	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Basic Approach On Non Distractive Testing and Other Application	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Introduction to Theory behind Acoustic Emission Sources	<a href="https://ijerece.com/downloads/vol9-si-3s.pdf">https://ijerece.com/downloads/vol9-si-3s.pdf</a>
Application of The Transportation Planning Process	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
A Brief Overview about Highway and Transport Planning	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
A Brief Overview to Forecasting Future Traffic Flows	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
Features of Scheme Appraisal: Highway Projects	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
Features of Economic Indicators: Assess Basic Economic Viability	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
Highway Traffic Analysis: Application of Basic Elements	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
Assessing Transportation Quality: The Level of Service Approach	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
Urban Road Management: UK's Key Features	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
A Comprehensive Overview: Design Principles of Highway Intersections	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
Optimisation and Delays: Applications of Basics Traffic Signal Control	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>

A Comprehensive Overview: Geometric Alignment and Design	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
Highway Pavement Materials and Design: A Comprehensive Overview	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
Traffic Loading: Assessing Highway Capacity and Stress	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
Application of Surface Dressing and Modified Binders	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
A Comprehensive Overview: Concrete Slab and Joint	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
Structural Design of Pavement Thickness: A Comprehensive Overview	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
Pavement Maintenance: Ensuring Longevity and Performance	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
A Comprehensive Overview: Overlay Design for Bituminous Roads	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
Concrete Overlays: Enhancing Pavement Durability and Functionality	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
Highway Tunnel Engineering: Design, Construction, and Maintenance	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
A Comprehensive Overview: Engineering Case Studies for Highways	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
A Comprehensive Overview: Basics Traffic Signal Control	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
Geometric Alignment: Optimal Road Design for Safety	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
Concrete Slab: Strength, Durability, and Applications	<a href="https://ijermce.com/downloads/vol9-si-4s.pdf">https://ijermce.com/downloads/vol9-si-4s.pdf</a>
Features of the Force Method of Analysis	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
General Introduction of the Structural Analysis	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
Application of the Kinematic Indeterminacy Structural Analysis	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
Principle of the Superposition, Strain Energy	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
Application of the Strain Energy Due to Transverse Shear	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
Application of the Castiglioni's Theorems	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
Application of the Theorem of Least Work	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
A Study on Features of the Virtual Work	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
Engesser's Theorem and Truss Deflections by Virtual Work Principles	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
A Brief Study on Force Method of Analysis: An Introduction	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
A Brief Discussion on Force Method of Analysis: Beams	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
A Study on Force Method of Analysis: Beams (Continued)	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>

A Study on Force Method of Analysis: Frames	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
Application of the Three-Moment Equations-I	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
A Study on Slope-Deflection Method: An Introduction	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
Application of the Slope-Deflection Method: Frames with Sideway	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
Features of the Moment Distribution Method: Introduction	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
Application of the Multistore Frames with Sideway	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
Application of the Direct Stiffness Method: Truss Analysis	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
A Study on Strain Energy Due to Transverse Shear	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
Features of the Direct Stiffness Method: An Introduction	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
A Study on Slope-Deflection Method: Frames with Sideway	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
A Brief Discussion on Direct Stiffness Method: Truss Analysis (Continued)	<a href="https://ijermce.com/downloads/vol9-si-5s.pdf">https://ijermce.com/downloads/vol9-si-5s.pdf</a>
Markets, Partnerships and Sustainable Development in Solid Waste Management	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Introduction of Arrangement in Solid Waste Management	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Evolving Partnerships in the Collection of Urban Solid Waste in the Developing World	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Decentralisation and Its Limits	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Collection, Transportation and Disposal of Urban Solid Waste in Hyderabad	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Sustainable Development in the Basic State Warehousing Corporation (SWC) System	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Collection, Transportation and Disposal of Urban Solid Waste in Nairobi	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Assessing Sustainable Development in Solid Waste Collection in Nairobi	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Trial and Error in Privatisation; The Case of Hyderabad's Solid Waste Management	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Assessment of the Privatisation of Solid Waste Collection	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Modalities, Commodity Chains and Sustainable Development	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Reuse, Recovery and Recycling Of Urban Inorganic Solid Waste	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>

Reuse, Recovery and Recycling of Urban Inorganic Solid Waste in Hyderabad	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Street and Dump Site Waste Pickers in Hyderabad	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Reuse, Recovery and Recycling of Urban Inorganic Solid Waste in Nairobi	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Discussion on the Contributions to Sustainable Development	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Reuse Practices and Issues for Solid Waste Management in Developing Countries	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Health Issues in Organic Waste Reuse	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Urban Organic Solid Waste: Practices in Hyderabad	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
An Overview on the Reuse of Dump Solid Waste by Farmers in Hyderabad	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Demand for Compost from Urban Organic Solid Wastes in Hyderabad	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Urban Organic Solid Waste: Practices in Nairobi	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
A brief introduction of Urban Agriculture	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Market and Community in Urban Solid Waste Management	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
Determine the Effect of Reuse and Diversion of Organic Waste	<a href="https://ijermce.com/downloads/vol9-si-6s.pdf">https://ijermce.com/downloads/vol9-si-6s.pdf</a>
A Brief Overview to Soil Mechanics and Foundation	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Classification of the Soil Mechanics and Foundation	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Chapters, Water, and Air: Understanding Fluid Mechanics	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Stresses in Soils: Analyzing Load Distribution and Settlement	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Features of Stresses in a Layer: Understanding Soil Mechanics	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Darcy's Law: Modeling Flow in Porous Media	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Permeability: Assessing Fluid Flow in Porous Materials	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Groundwater Flow: Dynamics and Hydrological Processes	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Floatation: Principles and Applications in Fluid Mechanics	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Flow Net Analysis: Visualizing Groundwater Flow Patterns	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Flow towards Wells: Understanding Groundwater Extraction and Recharge	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>

Stress Strain Relations: Characterizing Material Behavior under Load	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Tangent-Moduli: Understanding Material Deformation and Stiffness	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
One-Dimensional Compression: Consolidation Behavior of Soils	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Numerical Solution Methods: Solving Complex Engineering Problems	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Consolidation Coefficient: Assessing Soil Consolidation Characteristics	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Secular Effect: Long-Term Trends and Impacts on Engineering Systems	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Stress Relations: Interactions and Dependencies in Engineering Analysis	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Shear Strength: Assessing Stability and Failure in Engineering	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Pore Pressures: Understanding their Effects on Soil Behavior	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
A Brief Overview: Numerical Solution Soil Mechanics	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Undrained Behaviour of Soils: Unveiling Fluid-Induced Responses	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Stress Paths: Tracing the Deformation Trajectories in Soils	<a href="https://ijermce.com/downloads/vol9-si-7s.pdf">https://ijermce.com/downloads/vol9-si-7s.pdf</a>
Concrete as A Structural Material: Strength and Versatility	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Concrete Technology: Exploring Properties and Applications	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Cement: Manufacturing, Properties, and Applications	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Aggregates: Understanding Key Characteristics and Uses	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Water in Concrete Mixture: Vital Role and Importance	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Concrete Admixtures: Properties, Types, and Applications	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Concrete Mix Design: Optimal Proportions and Performance	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Fresh Concrete: Properties and Handling Considerations	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Structure of Concrete: Composition and Microstructure	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Hardened Concrete: Strength, Durability, and Testing	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Advanced Cementitious Composite: Innovations and Applications	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Strength Properties Analysis of Concrete: Testing and Evaluation	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>

Concrete Fracture Mechanics: Understanding Failure Behavior	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Nondestructive Testing in Concrete Engineering: Assessment and Applications	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Special Purpose Concrete: Applications and Advantages	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Standard Cement Concrete: Composition and Uses	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Development Trends of Concrete: Innovations and Future Prospects	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Properties of Construction Materials: Key Characteristics and Applications	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Temperature Problems in Concreting: Challenges and Mitigation	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Steel in Construction: Advantages, and Applications	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Elasticity and Shrinkage of Concrete: Behavior and Control	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Permeability and Durability of Concrete: Ensuring Longevity	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Light Weight Concrete: Properties, Applications, and Benefits	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Testing of Concrete: Assessing Quality and Performance	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
Tar, Bitumen, and Asphalt in Concrete Technology: Roles and Significance	<a href="https://ijermce.com/downloads/vol9-si-8s.pdf">https://ijermce.com/downloads/vol9-si-8s.pdf</a>
An Overview of the Lithium-Ion Batteries	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
An Overview of the Methods of Fabricating Thin Films for Energy Materials and Devices	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
An Overview of the Liquid Phase Processes	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
An Overview of the Cathode for Thin-Film Lithium-Ion Batteries	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
Cathode Electronic Structure Impact on Lithium and Sodium Batteries Parameters	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
An Overview of the Polyanion-based Cathode	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
Flexible Carbon Nanotube Film for Lithium-ion Batteries with Active Materials	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
Synthesis of TiO <sub>2</sub> Nanopapers via Sol-Gel Technique for Implementing as Anode Material in Lithium-Ion Batteries	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
Surface Chemical Analysis of Germanium Thin Film's Interphase Layer and Vinylene Carbonate Electrolyte Additive Effect	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
An Overview of the Energy Storage Technologies	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>

An Overview of the Business Models for Energy Storage Services	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
An Overview of the Grid Applications of Battery Energy Storage Systems	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
Value of Batteries Change with Renewable Energy Deployment and Increased VRE Penetration	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
An Overview of the General Grid Applications of Bess	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
Challenges and Risks in Battery Energy Storage System	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
An Exploration of the Concerns about Lithium Extraction	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
An Overview of the Lithium-ion Battery Market Growing Demand	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
An Overview of the Conversion of the Lithium Spodumene to Battery Packs	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
An Overview of the Case for Lithium-Ion Battery Production in Australia	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
An Overview of the Pall Filtration and Separation Technologies for EV Battery Production	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
An Overview of the Global Lithium Supply and Australia's Role	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
An Elaboration of the Manufacturing of Lithium-ion Batteries now and in the Future	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
India Needs Technology Transfers to Mine its New Lithium Reserves	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
An Overview of the Opportunities in Recycling Lithium-ion Batteries	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
An Overview of the Effects of used Lithium-ion batteries on the environment and Sources of Pollution	<a href="https://ijerece.com/downloads/vol9-si-6s.pdf">https://ijerece.com/downloads/vol9-si-6s.pdf</a>
A Brief Overview to Construction Management	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Project Management: Planning, Executing, and Delivering Success	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Project Life Cycle: Phases and Key Milestones	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Economic Risk Analysis: Assessing Vulnerabilities and Mitigating Uncertainties	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Pay-out Method: Determining Distribution and Compensation	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
A Brief Overview to Distribution for Uncertainty Parameters	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>

Monte-Carlo Simulation Technique: Analyzing Uncertainty and Probabilistic Outcomes	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Time Planning: Efficient Resource Allocation and Task Scheduling	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Expected Activity Time Period: Estimating Durations for Project Activities	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Resource Management: Optimizing Allocation and Utilization	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Basics Features of Selecting the Best Organization	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Quality Control in the Design Phase: Ensuring Excellence from the Start	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Cost Management: Controlling Expenses and Maximizing Value	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Team Member Selection: Building the Right Project Team	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Steel Structure Cost Estimate: Assessing the Financial Investment	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
A Brief Overview about Bidding, Tenders, and Contracts	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Owner-Consultancy Contracts: Roles, Responsibilities, and Collaboration	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Arbitration and the Arbitrator: Resolving Disputes Outside the Courtroom	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Tender Technical Evaluation: Assessing Proposals for Project Suitability	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Quality: Bridging the Gap from Theory to Reality	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Equipment Compliance Tests: Ensuring Quality and Safety Standards	<a href="https://ijermce.com/downloads/vol9-si-9s.pdf">https://ijermce.com/downloads/vol9-si-9s.pdf</a>
Determination of Nuclear Waste Management: Challenges, Strategies and Implications for Sustainable Solutions	<a href="http://alexispress.us/sdm_downloads/nuclear-waste-management/">http://alexispress.us/sdm_downloads/nuclear-waste-management/</a>
Analysis of Spent Nuclear Fuel: Characteristics, Management, and Implications	<a href="http://alexispress.us/sdm_downloads/nuclear-waste-management/">http://alexispress.us/sdm_downloads/nuclear-waste-management/</a>
Nuclear Waste Management and Fuel Cycle	<a href="http://alexispress.us/sdm_downloads/nuclear-waste-management/">http://alexispress.us/sdm_downloads/nuclear-waste-management/</a>
High-Level Waste: Analysis, Characteristics, and Management Strategies	<a href="http://alexispress.us/sdm_downloads/nuclear-waste-management/">http://alexispress.us/sdm_downloads/nuclear-waste-management/</a>
Nuclear Waste: Challenges in Management and Disposal	<a href="http://alexispress.us/sdm_downloads/nuclear-waste-management/">http://alexispress.us/sdm_downloads/nuclear-waste-management/</a>
Spent Fuel Storage: Challenges, Strategies, and Safety Considerations	<a href="http://alexispress.us/sdm_downloads/nuclear-waste-management/">http://alexispress.us/sdm_downloads/nuclear-waste-management/</a>
Evolution of Routine Emissions from Nuclear Power Plants	<a href="http://alexispress.us/sdm_downloads/nuclear-waste-management/">http://alexispress.us/sdm_downloads/nuclear-waste-management/</a>

Exploration of Treatment of High-Level Nuclear Waste	<a href="http://alexispress.us/sdm_downloads/nuclear-waste-management/">http://alexispress.us/sdm_downloads/nuclear-waste-management/</a>
Permanent Disposal of High-Level Nuclear Waste	<a href="http://alexispress.us/sdm_downloads/nuclear-waste-management/">http://alexispress.us/sdm_downloads/nuclear-waste-management/</a>
Developing a Responsible Radioactive Waste Management Program	<a href="http://alexispress.us/sdm_downloads/nuclear-waste-management/">http://alexispress.us/sdm_downloads/nuclear-waste-management/</a>
Chemicals and Hazardous Waste: Management, Risks, and Sustainable Solutions	<a href="http://alexispress.us/sdm_downloads/nuclear-waste-management/">http://alexispress.us/sdm_downloads/nuclear-waste-management/</a>
Globally Harmonized System: Chemicals Classification and Labelling	<a href="http://alexispress.us/sdm_downloads/nuclear-waste-management/">http://alexispress.us/sdm_downloads/nuclear-waste-management/</a>
Global Environment Facility: Addressing Global Environmental Challenges	<a href="http://alexispress.us/sdm_downloads/nuclear-waste-management/">http://alexispress.us/sdm_downloads/nuclear-waste-management/</a>
Organizations Working: Chemicals and Hazardous Waste Management	<a href="http://alexispress.us/sdm_downloads/nuclear-waste-management/">http://alexispress.us/sdm_downloads/nuclear-waste-management/</a>
Organic Pollutants: Analysis of Stockholm Convention	<a href="http://alexispress.us/sdm_downloads/nuclear-waste-management/">http://alexispress.us/sdm_downloads/nuclear-waste-management/</a>
Determination of Monetary Economics: Exploring Factors Shaping Money Supply	<a href="http://alexispress.us/sdm_downloads/policy-of-monetary-economics/">http://alexispress.us/sdm_downloads/policy-of-monetary-economics/</a>
The Evolution of Money and Near-Monies since 1945: A Comprehensive Analysis	<a href="http://alexispress.us/sdm_downloads/policy-of-monetary-economics/">http://alexispress.us/sdm_downloads/policy-of-monetary-economics/</a>
Multiple Creation of Financial Assets: Exploring the Complex Dynamics and Implications	<a href="http://alexispress.us/sdm_downloads/policy-of-monetary-economics/">http://alexispress.us/sdm_downloads/policy-of-monetary-economics/</a>
A Comparative Analysis of the Neoclassical Model and Modern Classical Model	<a href="http://alexispress.us/sdm_downloads/policy-of-monetary-economics/">http://alexispress.us/sdm_downloads/policy-of-monetary-economics/</a>
Exploring the Roles of Monetary Policy	<a href="http://alexispress.us/sdm_downloads/policy-of-monetary-economics/">http://alexispress.us/sdm_downloads/policy-of-monetary-economics/</a>
Investigation of Wicksell's Pure Credit Economy	<a href="http://alexispress.us/sdm_downloads/policy-of-monetary-economics/">http://alexispress.us/sdm_downloads/policy-of-monetary-economics/</a>
Refoundation of Friedman's Contributions in Monetary Economics	<a href="http://alexispress.us/sdm_downloads/policy-of-monetary-economics/">http://alexispress.us/sdm_downloads/policy-of-monetary-economics/</a>
Investigation of Available Money in The Economy	<a href="http://alexispress.us/sdm_downloads/policy-of-monetary-economics/">http://alexispress.us/sdm_downloads/policy-of-monetary-economics/</a>
Neutrality and Super-Neutrality of Money	<a href="http://alexispress.us/sdm_downloads/policy-of-monetary-economics/">http://alexispress.us/sdm_downloads/policy-of-monetary-economics/</a>
Impact of Efficient Funds Management by Firm	<a href="http://alexispress.us/sdm_downloads/policy-of-monetary-economics/">http://alexispress.us/sdm_downloads/policy-of-monetary-economics/</a>
Precautionary and Buffer Stock Demand for money	<a href="http://alexispress.us/sdm_downloads/policy-of-monetary-economics/">http://alexispress.us/sdm_downloads/policy-of-monetary-economics/</a>
Index Number Theory and Divisia Aggregates: Analysis of Economic Variables	<a href="http://alexispress.us/sdm_downloads/policy-of-monetary-economics/">http://alexispress.us/sdm_downloads/policy-of-monetary-economics/</a>
Investigating the Goals of Central Banks: A Comprehensive Analysis	<a href="http://alexispress.us/sdm_downloads/policy-of-monetary-economics/">http://alexispress.us/sdm_downloads/policy-of-monetary-economics/</a>
A Comprehensive Review of Money Supply	<a href="http://alexispress.us/sdm_downloads/policy-of-monetary-economics/">http://alexispress.us/sdm_downloads/policy-of-monetary-economics/</a>

Monetary Policy and Central Banking: Interplay, Strategies and Implications for Macroeconomic Stability	<a href="http://alexispress.us/sdm_downloads/policy-of-monetary-economics/">http://alexispress.us/sdm_downloads/policy-of-monetary-economics/</a>
Exploring the Nature of Managerial Economics	<a href="http://alexispress.us/sdm_downloads/basics-of-managerial-economics/">http://alexispress.us/sdm_downloads/basics-of-managerial-economics/</a>
Moral Hazard: A Concept in Economics and Finance	<a href="http://alexispress.us/sdm_downloads/basics-of-managerial-economics/">http://alexispress.us/sdm_downloads/basics-of-managerial-economics/</a>
Law of Demand: A Fundamental Principle in Economics	<a href="http://alexispress.us/sdm_downloads/basics-of-managerial-economics/">http://alexispress.us/sdm_downloads/basics-of-managerial-economics/</a>
An Analysis of Demand Forecasting	<a href="http://alexispress.us/sdm_downloads/basics-of-managerial-economics/">http://alexispress.us/sdm_downloads/basics-of-managerial-economics/</a>
Fundamental Aspect of Managerial Economics: Cost and Production Analysis	<a href="http://alexispress.us/sdm_downloads/basics-of-managerial-economics/">http://alexispress.us/sdm_downloads/basics-of-managerial-economics/</a>
Managerial Decision Analysis Structure: A Systematic Framework	<a href="http://alexispress.us/sdm_downloads/basics-of-managerial-economics/">http://alexispress.us/sdm_downloads/basics-of-managerial-economics/</a>
Managerial Economics: A Positive or Normative Science Structure	<a href="http://alexispress.us/sdm_downloads/basics-of-managerial-economics/">http://alexispress.us/sdm_downloads/basics-of-managerial-economics/</a>
Approaches To Managerial Decisions Structure	<a href="http://alexispress.us/sdm_downloads/basics-of-managerial-economics/">http://alexispress.us/sdm_downloads/basics-of-managerial-economics/</a>
An Economic Demand Analysis	<a href="http://alexispress.us/sdm_downloads/basics-of-managerial-economics/">http://alexispress.us/sdm_downloads/basics-of-managerial-economics/</a>
An overview on Market Demand Schedule	<a href="http://alexispress.us/sdm_downloads/basics-of-managerial-economics/">http://alexispress.us/sdm_downloads/basics-of-managerial-economics/</a>
Impact of Economic Slowdown: A Comprehensive Review	<a href="http://alexispress.us/sdm_downloads/basics-of-managerial-economics/">http://alexispress.us/sdm_downloads/basics-of-managerial-economics/</a>
Techniques of Pricing Methods for Business Strategy	<a href="http://alexispress.us/sdm_downloads/basics-of-managerial-economics/">http://alexispress.us/sdm_downloads/basics-of-managerial-economics/</a>
Pricing over the Life Cycle of a Product	<a href="http://alexispress.us/sdm_downloads/basics-of-managerial-economics/">http://alexispress.us/sdm_downloads/basics-of-managerial-economics/</a>
Factors Determining Distributor's Discounts: An Analysis	<a href="http://alexispress.us/sdm_downloads/basics-of-managerial-economics/">http://alexispress.us/sdm_downloads/basics-of-managerial-economics/</a>
An Overview of Lesson Profit Policy	<a href="http://alexispress.us/sdm_downloads/basics-of-managerial-economics/">http://alexispress.us/sdm_downloads/basics-of-managerial-economics/</a>
Analysis of Money and Banking: Exploring the Interplay Between Monetary Systems and Financial Institutions	<a href="http://alexispress.us/sdm_downloads/economics-of-money-and-banking/">http://alexispress.us/sdm_downloads/economics-of-money-and-banking/</a>
Analyzing the Dynamics of Money and Banking: Exploring the Intersection of Monetary Systems and Financial Institutions	<a href="http://alexispress.us/sdm_downloads/economics-of-money-and-banking/">http://alexispress.us/sdm_downloads/economics-of-money-and-banking/</a>
Analyzing the Interplay Between Aggregate Output, Income, the Price Level, and the Inflation Rate: A Comprehensive Study	<a href="http://alexispress.us/sdm_downloads/economics-of-money-and-banking/">http://alexispress.us/sdm_downloads/economics-of-money-and-banking/</a>
Instruments: Examining Factors Influencing the Pricing, Structure and Functionality of Financial Instruments	<a href="http://alexispress.us/sdm_downloads/economics-of-money-and-banking/">http://alexispress.us/sdm_downloads/economics-of-money-and-banking/</a>

The Evolution of the Payments System: Tracing the Transformative Journey from Traditional Cash Transactions to Digital Payment Innovations	<a href="http://alexispress.us/sdm_downloads/economics-of-money-and-banking/">http://alexispress.us/sdm_downloads/economics-of-money-and-banking/</a>
Structure of Financial Markets: Analyzing Market Segments, Participants, and Regulatory Frameworks	<a href="http://alexispress.us/sdm_downloads/economics-of-money-and-banking/">http://alexispress.us/sdm_downloads/economics-of-money-and-banking/</a>
Establishment of the Capital Asset Pricing Model	<a href="http://alexispress.us/sdm_downloads/economics-of-money-and-banking/">http://alexispress.us/sdm_downloads/economics-of-money-and-banking/</a>
Determination of the Reserve Requirements and Currency Regulation	<a href="http://alexispress.us/sdm_downloads/economics-of-money-and-banking/">http://alexispress.us/sdm_downloads/economics-of-money-and-banking/</a>
Exploring the Evolution of Money: From Barter to Digital Currencies	<a href="http://alexispress.us/sdm_downloads/economics-of-money-and-banking/">http://alexispress.us/sdm_downloads/economics-of-money-and-banking/</a>
Unveiling the Functions of Money: Exploring its Role as a Medium of Exchange	<a href="http://alexispress.us/sdm_downloads/economics-of-money-and-banking/">http://alexispress.us/sdm_downloads/economics-of-money-and-banking/</a>
Monetary Standards: Examining Historical Perspectives and Contemporary Practices	<a href="http://alexispress.us/sdm_downloads/economics-of-money-and-banking/">http://alexispress.us/sdm_downloads/economics-of-money-and-banking/</a>
The Role of Money: Examining its Significance in Economic Transactions	<a href="http://alexispress.us/sdm_downloads/economics-of-money-and-banking/">http://alexispress.us/sdm_downloads/economics-of-money-and-banking/</a>
Assessing Limitations and Alternative Approaches in Understanding the Quantity Theory of Money	<a href="http://alexispress.us/sdm_downloads/economics-of-money-and-banking/">http://alexispress.us/sdm_downloads/economics-of-money-and-banking/</a>
The Neutrality of Money: Exploring its Validity, Empirical Evidence and Implications for Macroeconomic Analysis	<a href="http://alexispress.us/sdm_downloads/economics-of-money-and-banking/">http://alexispress.us/sdm_downloads/economics-of-money-and-banking/</a>
Unveiling The Essential Characteristics of Money	<a href="http://alexispress.us/sdm_downloads/economics-of-money-and-banking/">http://alexispress.us/sdm_downloads/economics-of-money-and-banking/</a>
An Overview Communication as Skilled Performance	<a href="http://alexispress.us/sdm_downloads/perspective-of-communication-skill/">http://alexispress.us/sdm_downloads/perspective-of-communication-skill/</a>
An Elaboration of the Interrelated Behavior	<a href="http://alexispress.us/sdm_downloads/perspective-of-communication-skill/">http://alexispress.us/sdm_downloads/perspective-of-communication-skill/</a>
An Elaboration of the Cognitive Control in Communication Skill	<a href="http://alexispress.us/sdm_downloads/perspective-of-communication-skill/">http://alexispress.us/sdm_downloads/perspective-of-communication-skill/</a>
An Overview of the Operational Model of Communicative Performance	<a href="http://alexispress.us/sdm_downloads/perspective-of-communication-skill/">http://alexispress.us/sdm_downloads/perspective-of-communication-skill/</a>
An Elaboration of Mediating Factors in Communication	<a href="http://alexispress.us/sdm_downloads/perspective-of-communication-skill/">http://alexispress.us/sdm_downloads/perspective-of-communication-skill/</a>
An Analysis of the Person as Situation Context Communication Skill	<a href="http://alexispress.us/sdm_downloads/perspective-of-communication-skill/">http://alexispress.us/sdm_downloads/perspective-of-communication-skill/</a>
An Overview of the Nonverbal Behavior as Communication and its Approaches, Issues	<a href="http://alexispress.us/sdm_downloads/perspective-of-communication-skill/">http://alexispress.us/sdm_downloads/perspective-of-communication-skill/</a>
An Elaboration of the Role Influences on Nonverbal Behavior	<a href="http://alexispress.us/sdm_downloads/perspective-of-communication-skill/">http://alexispress.us/sdm_downloads/perspective-of-communication-skill/</a>
An Elaboration of the Nonverbal Communication in Context	<a href="http://alexispress.us/sdm_downloads/perspective-of-communication-skill/">http://alexispress.us/sdm_downloads/perspective-of-communication-skill/</a>
An Overview of the Nonverbal Behavior in Professional Settings	<a href="http://alexispress.us/sdm_downloads/perspective-of-communication-skill/">http://alexispress.us/sdm_downloads/perspective-of-communication-skill/</a>

An Overview of the Interrogatives, Knowledge and Interaction	<a href="http://alexispress.us/sdm_downloads/perspective-of-communication-skill/">http://alexispress.us/sdm_downloads/perspective-of-communication-skill/</a>
An Overview of the Professional Contexts of Questioning in Education and Medicine	<a href="http://alexispress.us/sdm_downloads/perspective-of-communication-skill/">http://alexispress.us/sdm_downloads/perspective-of-communication-skill/</a>
An Overview of the Reinforcement and its Impact in Communication Skill	<a href="http://alexispress.us/sdm_downloads/perspective-of-communication-skill/">http://alexispress.us/sdm_downloads/perspective-of-communication-skill/</a>
An Elaboration of Reinforcement in Educational Communication and Learning	<a href="http://alexispress.us/sdm_downloads/perspective-of-communication-skill/">http://alexispress.us/sdm_downloads/perspective-of-communication-skill/</a>
An Overview of Strategic Revelation of Information in Personal and Professional Relationships	<a href="http://alexispress.us/sdm_downloads/perspective-of-communication-skill/">http://alexispress.us/sdm_downloads/perspective-of-communication-skill/</a>
The Fundamentals of Renewable Energy	<a href="http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/">http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/</a>
Sustainable Development: Future Trends in Renewable Energy	<a href="http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/">http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/</a>
Sound Finance Policies for Energy Efficiency and Renewable Energy	<a href="http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/">http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/</a>
State and Federal Policies for Renewable Energy	<a href="http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/">http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/</a>
Energy Conservation and Renewable Energy Policies in China	<a href="http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/">http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/</a>
Renewable Energy and Energy Efficiency in India	<a href="http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/">http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/</a>
Renewable Energy Policies in Brazil: Bioenergy, Photovoltaic Generation and Transportation	<a href="http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/">http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/</a>
Energy in Israel: A Case for Renewables	<a href="http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/">http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/</a>
A Brief Overview about Renewable Energy in Australia	<a href="http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/">http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/</a>
Japan's Post-Fukushima Energy Policy	<a href="http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/">http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/</a>
Policies for Distributed Energy Generation	<a href="http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/">http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/</a>
Significance of Distributed Generation Technologies	<a href="http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/">http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/</a>

Integration of Distributed Generation and Smart Grids	<a href="http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/">http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/</a>
A Brief Overview About Demand-Side Management	<a href="http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/">http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/</a>
Targeted End-Use Sectors and Building Types	<a href="http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/">http://alexispress.us/sdm_downloads/renewable-energy-resource-challenges-and-application/</a>
Prevention through Design: A Concept Note for Preventing Accidents	<a href="http://alexispress.us/sdm_downloads/industrial-safety-and-management/">http://alexispress.us/sdm_downloads/industrial-safety-and-management/</a>
EOT Crane Virtual Prototype Based Simulator	<a href="http://alexispress.us/sdm_downloads/industrial-safety-and-management/">http://alexispress.us/sdm_downloads/industrial-safety-and-management/</a>
Water Mist System for Reducing Coal Dust Exposure	<a href="http://alexispress.us/sdm_downloads/industrial-safety-and-management/">http://alexispress.us/sdm_downloads/industrial-safety-and-management/</a>
Antilock Braking System's Efficiency on Rough Roads	<a href="http://alexispress.us/sdm_downloads/industrial-safety-and-management/">http://alexispress.us/sdm_downloads/industrial-safety-and-management/</a>
Occupational Safety Performance: Data-Driven Mapping	<a href="http://alexispress.us/sdm_downloads/industrial-safety-and-management/">http://alexispress.us/sdm_downloads/industrial-safety-and-management/</a>
Data Mining: Prediction of Occupational Incidents	<a href="http://alexispress.us/sdm_downloads/industrial-safety-and-management/">http://alexispress.us/sdm_downloads/industrial-safety-and-management/</a>
Log linear Model: Determinants of Hard Rock Mine Risk Indices	<a href="http://alexispress.us/sdm_downloads/industrial-safety-and-management/">http://alexispress.us/sdm_downloads/industrial-safety-and-management/</a>
An Overview to Vehicle Distracted Driving in Kerala	<a href="http://alexispress.us/sdm_downloads/industrial-safety-and-management/">http://alexispress.us/sdm_downloads/industrial-safety-and-management/</a>
Pump Manufacturing Industry: Evaluation of Safety Life Cycle Management	<a href="http://alexispress.us/sdm_downloads/industrial-safety-and-management/">http://alexispress.us/sdm_downloads/industrial-safety-and-management/</a>
Understanding the Behavior of Electrical and Power Systems	<a href="http://alexispress.us/sdm_downloads/industrial-safety-and-management/">http://alexispress.us/sdm_downloads/industrial-safety-and-management/</a>
ILO Response: Occupational Risks and Hazards	<a href="http://alexispress.us/sdm_downloads/industrial-safety-and-management/">http://alexispress.us/sdm_downloads/industrial-safety-and-management/</a>
Essential Principles of Workplace Safety and Health	<a href="http://alexispress.us/sdm_downloads/industrial-safety-and-management/">http://alexispress.us/sdm_downloads/industrial-safety-and-management/</a>
General Framework: Safety and Health of Workplaces	<a href="http://alexispress.us/sdm_downloads/industrial-safety-and-management/">http://alexispress.us/sdm_downloads/industrial-safety-and-management/</a>
National Policy on Occupational Safety and Health	<a href="http://alexispress.us/sdm_downloads/industrial-safety-and-management/">http://alexispress.us/sdm_downloads/industrial-safety-and-management/</a>
Control of Chemical and Biological Health Risks	<a href="http://alexispress.us/sdm_downloads/industrial-safety-and-management/">http://alexispress.us/sdm_downloads/industrial-safety-and-management/</a>
A Brief Introduction about Environment and Sustainability Science	<a href="http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/">http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/</a>
Environmental Chemistry and Green Chemistry: Anthrosphere	<a href="http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/">http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/</a>
Exploring Aquatic Chemistry: Fundamentals and Applications	<a href="http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/">http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/</a>
Sustainable Materials: Resources and Conservation	<a href="http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/">http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/</a>

Green Chemistry and Industrial Ecology: Synergizing Sustainability	<a href="http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/">http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/</a>
Soil and Agricultural Environmental Chemistry	<a href="http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/">http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/</a>
Geosphere and Geochemistry: Exploring Earth's Elemental Secrets	<a href="http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/">http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/</a>
A Brief Overview about Endangered Global Atmosphere	<a href="http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/">http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/</a>
Effects of Photochemical Smog and Management Strategies	<a href="http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/">http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/</a>
Toxicological Chemistry: Harmful Substance and Their Impact	<a href="http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/">http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/</a>
Industrial Ecology: Waste Minimization, Utilization, and Treatment	<a href="http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/">http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/</a>
A Brief Overview about Organic Air Pollutants	<a href="http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/">http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/</a>
Application of Sustainable Energy: Key to Everything	<a href="http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/">http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/</a>
Chemical Analysis of Water and Wastewater	<a href="http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/">http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/</a>
Gaseous Inorganic Air Pollutants: Sources, Effects, and Treatment	<a href="http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/">http://alexispress.us/sdm_downloads/engineering-environmental-chemistry/</a>
Organizations and Organizational Effectiveness	<a href="http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/">http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/</a>
Designing Organizations and Change	<a href="http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/">http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/</a>
Determine the Different Stakeholder Groups, Interests, and their Claims Against an Organization	<a href="http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/">http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/</a>
Top Executives and Organizational Power	<a href="http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/">http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/</a>
Leading Executives and Organizational Ethics	<a href="http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/">http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/</a>
Organizing in a Changing Global Environment	<a href="http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/">http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/</a>
Strategies for Managing Resource Dependencies among Organizations	<a href="http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/">http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/</a>
Techniques for Managing the Interdependence of Competitive Resources	<a href="http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/">http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/</a>
Basic Challenges of Organizational Design	<a href="http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/">http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/</a>
Integration versus Differentiation in Organizational Design	<a href="http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/">http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/</a>
Management of Organizational Culture	<a href="http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/">http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/</a>
Organic vs Mechanistic Organizational Structures	<a href="http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/">http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/</a>

Authority in Organizational Structure Design	<a href="http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/">http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/</a>
Fundamentals of Bureaucracy in Designing Organizational Structure	<a href="http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/">http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/</a>
Organizational Change & Development	<a href="http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/">http://alexispress.us/sdm_downloads/organization-change-and-effectiveness/</a>
An Analysis of Globalization of Financial Markets	<a href="http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/">http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/</a>
Exploring the Effectiveness of Governmental Intervention	<a href="http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/">http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/</a>
The Late Bretton Woods System	<a href="http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/">http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/</a>
Exploring the European Monetary System	<a href="http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/">http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/</a>
An Analysis of Exchange Rate Risk	<a href="http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/">http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/</a>
A Comprehensive Review on Trade Negotiations	<a href="http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/">http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/</a>
Composition of the Euro: Currency Markets	<a href="http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/">http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/</a>
Exploring the Euro Dollar Markets: An Analysis	<a href="http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/">http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/</a>
The Size and Structure of European Markets	<a href="http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/">http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/</a>
Regulatory Systems of Foreign Exchange	<a href="http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/">http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/</a>
Returns on Money Market Instruments: An Assessment	<a href="http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/">http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/</a>
A Comprehensive Review of Secondary Market Operation	<a href="http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/">http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/</a>
Impact of Structural Change in Funding Sources	<a href="http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/">http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/</a>
An Analysis of Diverse Selling Group	<a href="http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/">http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/</a>
An Assessment of Bond Issue Structures	<a href="http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/">http://alexispress.us/sdm_downloads/global-financial-markets-and-instrument/</a>
Origins and Scope of Environmental Economics	<a href="http://alexispress.us/sdm_downloads/environmental-economics-principles/">http://alexispress.us/sdm_downloads/environmental-economics-principles/</a>
Overview of Environmental and Resource Economics as a Sub discipline in Economics	<a href="http://alexispress.us/sdm_downloads/environmental-economics-principles/">http://alexispress.us/sdm_downloads/environmental-economics-principles/</a>
Concept of Resources and Resource Scarcity: An Economic Perspective	<a href="http://alexispress.us/sdm_downloads/environmental-economics-principles/">http://alexispress.us/sdm_downloads/environmental-economics-principles/</a>
Resource Scarcity, Economic Efficiency and Markets	<a href="http://alexispress.us/sdm_downloads/environmental-economics-principles/">http://alexispress.us/sdm_downloads/environmental-economics-principles/</a>
Concept of Natural Resources: An Ecological Perspective	<a href="http://alexispress.us/sdm_downloads/environmental-economics-principles/">http://alexispress.us/sdm_downloads/environmental-economics-principles/</a>

Natural Environment and the Human Economy	<a href="http://alexispress.us/sdm_downloads/environmental-economics-principles/">http://alexispress.us/sdm_downloads/environmental-economics-principles/</a>
Changes in Production Technology and Its Implications for Resource Conservation	<a href="http://alexispress.us/sdm_downloads/environmental-economics-principles/">http://alexispress.us/sdm_downloads/environmental-economics-principles/</a>
Natural Environment and the Human Economy: An Ecological Perspective	<a href="http://alexispress.us/sdm_downloads/environmental-economics-principles/">http://alexispress.us/sdm_downloads/environmental-economics-principles/</a>
Fundamentals of the Economics of Environmental Resources	<a href="http://alexispress.us/sdm_downloads/environmental-economics-principles/">http://alexispress.us/sdm_downloads/environmental-economics-principles/</a>
Economic Theory of Pollution Control: The Optimal Level of Pollution	<a href="http://alexispress.us/sdm_downloads/environmental-economics-principles/">http://alexispress.us/sdm_downloads/environmental-economics-principles/</a>
Economics of Environmental Regulations: Regulating the Environment through Judicial Procedures	<a href="http://alexispress.us/sdm_downloads/environmental-economics-principles/">http://alexispress.us/sdm_downloads/environmental-economics-principles/</a>
Global Environmental Pollution: Acid Rain, Ozone Depletion and Global Warming	<a href="http://alexispress.us/sdm_downloads/environmental-economics-principles/">http://alexispress.us/sdm_downloads/environmental-economics-principles/</a>
Economic Valuation of Environmental Services	<a href="http://alexispress.us/sdm_downloads/environmental-economics-principles/">http://alexispress.us/sdm_downloads/environmental-economics-principles/</a>
Biophysical Limits to Economic Growth	<a href="http://alexispress.us/sdm_downloads/environmental-economics-principles/">http://alexispress.us/sdm_downloads/environmental-economics-principles/</a>
Economics of Environmental Regulations	<a href="http://alexispress.us/sdm_downloads/environmental-economics-principles/">http://alexispress.us/sdm_downloads/environmental-economics-principles/</a>
Analysis of DDoS Attack and Countermeasures	<a href="http://alexispress.us/sdm_downloads/networks-and-cyber-security/">http://alexispress.us/sdm_downloads/networks-and-cyber-security/</a>
Analysis of Distributed System and Security Monitoring	<a href="http://alexispress.us/sdm_downloads/networks-and-cyber-security/">http://alexispress.us/sdm_downloads/networks-and-cyber-security/</a>
An Analysis of Different Cyberattacks in Real-Time	<a href="http://alexispress.us/sdm_downloads/networks-and-cyber-security/">http://alexispress.us/sdm_downloads/networks-and-cyber-security/</a>
Biometric Fingerprint Secure Communication Setup Protocol	<a href="http://alexispress.us/sdm_downloads/networks-and-cyber-security/">http://alexispress.us/sdm_downloads/networks-and-cyber-security/</a>
Cloud Computing Security Frameworks for Mobile Devices	<a href="http://alexispress.us/sdm_downloads/networks-and-cyber-security/">http://alexispress.us/sdm_downloads/networks-and-cyber-security/</a>
Role of Cloud Platforms in Data Management	<a href="http://alexispress.us/sdm_downloads/networks-and-cyber-security/">http://alexispress.us/sdm_downloads/networks-and-cyber-security/</a>
Security Challenges in Cognitive Radio Ad-Hoc Networks	<a href="http://alexispress.us/sdm_downloads/networks-and-cyber-security/">http://alexispress.us/sdm_downloads/networks-and-cyber-security/</a>
Coordinated Defenses Against Distributed Denial of Service (DDoS) Attacks	<a href="http://alexispress.us/sdm_downloads/networks-and-cyber-security/">http://alexispress.us/sdm_downloads/networks-and-cyber-security/</a>
DDoS Attack-Induced Bot Expansion in the E-Commerce Network	<a href="http://alexispress.us/sdm_downloads/networks-and-cyber-security/">http://alexispress.us/sdm_downloads/networks-and-cyber-security/</a>
Defending WBANs Against Security and Privacy Threats	<a href="http://alexispress.us/sdm_downloads/networks-and-cyber-security/">http://alexispress.us/sdm_downloads/networks-and-cyber-security/</a>
Fog Computing Environment: Distributed Denial of Service (DDoS) Attacks	<a href="http://alexispress.us/sdm_downloads/networks-and-cyber-security/">http://alexispress.us/sdm_downloads/networks-and-cyber-security/</a>
Information System Models for Cybersecurity Risk Analysis	<a href="http://alexispress.us/sdm_downloads/networks-and-cyber-security/">http://alexispress.us/sdm_downloads/networks-and-cyber-security/</a>
Internet of Things (IoT) Security Using Physical Unclonable Function	<a href="http://alexispress.us/sdm_downloads/networks-and-cyber-security/">http://alexispress.us/sdm_downloads/networks-and-cyber-security/</a>

Malware Classification Using Feature Selection and Machine Learning	<a href="http://alexispress.us/sdm_downloads/networks-and-cyber-security/">http://alexispress.us/sdm_downloads/networks-and-cyber-security/</a>
Security Analysis of Software-Defined Networks (SDN)	<a href="http://alexispress.us/sdm_downloads/networks-and-cyber-security/">http://alexispress.us/sdm_downloads/networks-and-cyber-security/</a>
Introduction of Technical Communication: An Assessment	<a href="http://alexispress.us/sdm_downloads/developments-of-technical-communication/">http://alexispress.us/sdm_downloads/developments-of-technical-communication/</a>
An Investigation on Basics of Technical Communication	<a href="http://alexispress.us/sdm_downloads/developments-of-technical-communication/">http://alexispress.us/sdm_downloads/developments-of-technical-communication/</a>
Exploring the Key Barriers to Communication	<a href="http://alexispress.us/sdm_downloads/developments-of-technical-communication/">http://alexispress.us/sdm_downloads/developments-of-technical-communication/</a>
An Analysis of Different Communication Skills	<a href="http://alexispress.us/sdm_downloads/developments-of-technical-communication/">http://alexispress.us/sdm_downloads/developments-of-technical-communication/</a>
A Comprehensive Review on Levels of Communication	<a href="http://alexispress.us/sdm_downloads/developments-of-technical-communication/">http://alexispress.us/sdm_downloads/developments-of-technical-communication/</a>
Role of the Interpersonal Communication	<a href="http://alexispress.us/sdm_downloads/developments-of-technical-communication/">http://alexispress.us/sdm_downloads/developments-of-technical-communication/</a>
An Analysis of Verbal Communication	<a href="http://alexispress.us/sdm_downloads/developments-of-technical-communication/">http://alexispress.us/sdm_downloads/developments-of-technical-communication/</a>
An Assessment of Non-Verbal Communication	<a href="http://alexispress.us/sdm_downloads/developments-of-technical-communication/">http://alexispress.us/sdm_downloads/developments-of-technical-communication/</a>
Exploring the Importance of Written Communication	<a href="http://alexispress.us/sdm_downloads/developments-of-technical-communication/">http://alexispress.us/sdm_downloads/developments-of-technical-communication/</a>
An Assessment of Oral Communication	<a href="http://alexispress.us/sdm_downloads/developments-of-technical-communication/">http://alexispress.us/sdm_downloads/developments-of-technical-communication/</a>
An Evaluation of Group Communication Benefits	<a href="http://alexispress.us/sdm_downloads/developments-of-technical-communication/">http://alexispress.us/sdm_downloads/developments-of-technical-communication/</a>
A Comprehensive Review of Organizational Communication	<a href="http://alexispress.us/sdm_downloads/developments-of-technical-communication/">http://alexispress.us/sdm_downloads/developments-of-technical-communication/</a>
Exploring Major Deliverables for Technical Communication	<a href="http://alexispress.us/sdm_downloads/developments-of-technical-communication/">http://alexispress.us/sdm_downloads/developments-of-technical-communication/</a>
Investigating the Technical Presentation: Strategies and Techniques	<a href="http://alexispress.us/sdm_downloads/developments-of-technical-communication/">http://alexispress.us/sdm_downloads/developments-of-technical-communication/</a>
Effective Presentation Strategies: An Analysis	<a href="http://alexispress.us/sdm_downloads/developments-of-technical-communication/">http://alexispress.us/sdm_downloads/developments-of-technical-communication/</a>
DETERMINATION OF TOTAL QUALITY MANAGEMENT	<a href="http://alexispress.us/sdm_downloads/total-quality-management/">http://alexispress.us/sdm_downloads/total-quality-management/</a>
ANALYSIS OF STRATEGIC QUALITY MANAGEMENT	<a href="http://alexispress.us/sdm_downloads/total-quality-management/">http://alexispress.us/sdm_downloads/total-quality-management/</a>
GOAL AND ANALYSIS OF EFFECTIVE LEADERSHIP	<a href="http://alexispress.us/sdm_downloads/total-quality-management/">http://alexispress.us/sdm_downloads/total-quality-management/</a>
THE TOTAL QUALITY MANAGEMENT MODEL	<a href="http://alexispress.us/sdm_downloads/total-quality-management/">http://alexispress.us/sdm_downloads/total-quality-management/</a>
DETERMINATION OF LEADERSHIP CONCEPTS	<a href="http://alexispress.us/sdm_downloads/total-quality-management/">http://alexispress.us/sdm_downloads/total-quality-management/</a>
EXPLORING THE CORE VALUES, CONCEPTS AND FRAMEWORK	<a href="http://alexispress.us/sdm_downloads/total-quality-management/">http://alexispress.us/sdm_downloads/total-quality-management/</a>

EXPLORING THE IMPACT OF DETERMINATION OF CUSTOMER SATISFACTION	<a href="http://alexispress.us/sdm_downloads/total-quality-management/">http://alexispress.us/sdm_downloads/total-quality-management/</a>
DETERMINATION OF MASS CUSTOMIZATION: AN ANALYSIS	<a href="http://alexispress.us/sdm_downloads/total-quality-management/">http://alexispress.us/sdm_downloads/total-quality-management/</a>
EXPLORING THE DETERMINATION OF EMPLOYEE INVOLVEMENT	<a href="http://alexispress.us/sdm_downloads/total-quality-management/">http://alexispress.us/sdm_downloads/total-quality-management/</a>
ANALYSIS OF CONTINUOUS PROCESS IMPROVEMENT	<a href="http://alexispress.us/sdm_downloads/total-quality-management/">http://alexispress.us/sdm_downloads/total-quality-management/</a>
A COMPREHENSIVE REVIEW OF COST OF QUALITY	<a href="http://alexispress.us/sdm_downloads/total-quality-management/">http://alexispress.us/sdm_downloads/total-quality-management/</a>
ANALYSIS OF BENCHMARKING	<a href="http://alexispress.us/sdm_downloads/total-quality-management/">http://alexispress.us/sdm_downloads/total-quality-management/</a>
AN ANALYSIS OF QUALITY MANAGEMENT SYSTEMS	<a href="http://alexispress.us/sdm_downloads/total-quality-management/">http://alexispress.us/sdm_downloads/total-quality-management/</a>
AN ANALYSIS OF ENVIRONMENTAL MANAGEMENT SYSTEM	<a href="http://alexispress.us/sdm_downloads/total-quality-management/">http://alexispress.us/sdm_downloads/total-quality-management/</a>
ANALYSIS OF QUALITY BY DESIGN	<a href="http://alexispress.us/sdm_downloads/total-quality-management/">http://alexispress.us/sdm_downloads/total-quality-management/</a>
An Elaboration of the Entrepreneurship	<a href="http://alexispress.us/sdm_downloads/entrepreneurship-development/">http://alexispress.us/sdm_downloads/entrepreneurship-development/</a>
An Overview of the Social Factors in Entrepreneurship Development	<a href="http://alexispress.us/sdm_downloads/entrepreneurship-development/">http://alexispress.us/sdm_downloads/entrepreneurship-development/</a>
An Overview of the Key Traits of a Successful Entrepreneur	<a href="http://alexispress.us/sdm_downloads/entrepreneurship-development/">http://alexispress.us/sdm_downloads/entrepreneurship-development/</a>
An Overview of the Exploring Entrepreneurship	<a href="http://alexispress.us/sdm_downloads/entrepreneurship-development/">http://alexispress.us/sdm_downloads/entrepreneurship-development/</a>
An Overview of the Holistic Approach of Successful Entrepreneurs	<a href="http://alexispress.us/sdm_downloads/entrepreneurship-development/">http://alexispress.us/sdm_downloads/entrepreneurship-development/</a>
An Elaboration of the Social Entrepreneurship	<a href="http://alexispress.us/sdm_downloads/entrepreneurship-development/">http://alexispress.us/sdm_downloads/entrepreneurship-development/</a>
An Analysis of the Determinants of Entrepreneurial Growth and Exploring the Economic and Non-Economic Factors	<a href="http://alexispress.us/sdm_downloads/entrepreneurship-development/">http://alexispress.us/sdm_downloads/entrepreneurship-development/</a>
An Overview of the Managerial Issue in a New Venture	<a href="http://alexispress.us/sdm_downloads/entrepreneurship-development/">http://alexispress.us/sdm_downloads/entrepreneurship-development/</a>
An Overview of Evolution of Entrepreneurship Thoughts and Theories	<a href="http://alexispress.us/sdm_downloads/entrepreneurship-development/">http://alexispress.us/sdm_downloads/entrepreneurship-development/</a>
An overview of the Exploring Intrapreneurship and Global Entrepreneurship	<a href="http://alexispress.us/sdm_downloads/entrepreneurship-development/">http://alexispress.us/sdm_downloads/entrepreneurship-development/</a>
An Overview of the Legal Compliance in India for Entrepreneurs	<a href="http://alexispress.us/sdm_downloads/entrepreneurship-development/">http://alexispress.us/sdm_downloads/entrepreneurship-development/</a>
An Elaboration Measures Taken for MSME Growth	<a href="http://alexispress.us/sdm_downloads/entrepreneurship-development/">http://alexispress.us/sdm_downloads/entrepreneurship-development/</a>
An Overview of the Importance and Perspectives of Planning in Various Contexts	<a href="http://alexispress.us/sdm_downloads/entrepreneurship-development/">http://alexispress.us/sdm_downloads/entrepreneurship-development/</a>

An Overview of the Understanding Enterprise Resource Planning (ERP) Systems	<a href="http://alexispress.us/sdm_downloads/entrepreneurship-development/">http://alexispress.us/sdm_downloads/entrepreneurship-development/</a>
An Elaboration of the Strategic Planning in Family Businesses	<a href="http://alexispress.us/sdm_downloads/entrepreneurship-development/">http://alexispress.us/sdm_downloads/entrepreneurship-development/</a>
An Overview of the Management and its Concept and Meaning	<a href="http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/">http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/</a>
An Overview of Criticism of Scientific Management or Opposition to Scientific Management	<a href="http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/">http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/</a>
An Elaboration of the Merits of Systems Approach	<a href="http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/">http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/</a>
An Overview of Evolution from Classical to Neo-Classical Theory in Organizational Management	<a href="http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/">http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/</a>
The Social Systems Approach for Understanding Human Behavior and Organizational Harmony	<a href="http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/">http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/</a>
An Overview of Drucker's Contributions and Its Management Science Approach	<a href="http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/">http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/</a>
An Elaboration of Management as an Open System with Integrated Approach	<a href="http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/">http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/</a>
An Overview of the Characteristics of Modern Management Thought	<a href="http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/">http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/</a>
An Overview of Driving Efficiency, Profits and Innovation	<a href="http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/">http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/</a>
An Overview of the Evolving Role of Managers in the Modern Business Landscape	<a href="http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/">http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/</a>
An Overview of the Responsibility towards the Employees	<a href="http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/">http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/</a>
An Overview of the Importance and Benefits of Planning in Business Management	<a href="http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/">http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/</a>
An Overview of the Management Empowering Performance and Collaboration	<a href="http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/">http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/</a>
Principles and Functions of Organizational Structure for Effective Management	<a href="http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/">http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/</a>

An Elaboration of the Formal and Informal Organizational Structures	<a href="http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/">http://alexispress.us/sdm_downloads/evolution-of-the-process-of-management-and-its-present-status/</a>
Occupational Hazards and Their Risks	<a href="http://alexispress.us/sdm_downloads/occupational-health-and-risk/">http://alexispress.us/sdm_downloads/occupational-health-and-risk/</a>
Key Principles of Occupational Safety and Health	<a href="http://alexispress.us/sdm_downloads/occupational-health-and-risk/">http://alexispress.us/sdm_downloads/occupational-health-and-risk/</a>
Role and Obligations of Competent Authorities	<a href="http://alexispress.us/sdm_downloads/occupational-health-and-risk/">http://alexispress.us/sdm_downloads/occupational-health-and-risk/</a>
Employers Responsibilities in Health Care System	<a href="http://alexispress.us/sdm_downloads/occupational-health-and-risk/">http://alexispress.us/sdm_downloads/occupational-health-and-risk/</a>
Significance of Occupational Health Surveillance	<a href="http://alexispress.us/sdm_downloads/occupational-health-and-risk/">http://alexispress.us/sdm_downloads/occupational-health-and-risk/</a>
Reporting of Occupational Accidents, Injuries And Diseases	<a href="http://alexispress.us/sdm_downloads/occupational-health-and-risk/">http://alexispress.us/sdm_downloads/occupational-health-and-risk/</a>
HIV/AIDS: Impact on the World of Work	<a href="http://alexispress.us/sdm_downloads/occupational-health-and-risk/">http://alexispress.us/sdm_downloads/occupational-health-and-risk/</a>
Preventive and Protective Measures in Work Environment	<a href="http://alexispress.us/sdm_downloads/occupational-health-and-risk/">http://alexispress.us/sdm_downloads/occupational-health-and-risk/</a>
International Chemical Hazard Communication Tools	<a href="http://alexispress.us/sdm_downloads/occupational-health-and-risk/">http://alexispress.us/sdm_downloads/occupational-health-and-risk/</a>
Application of Occupational Health and Safety	<a href="http://alexispress.us/sdm_downloads/occupational-health-and-risk/">http://alexispress.us/sdm_downloads/occupational-health-and-risk/</a>
Recognition of Occupational Health and Safety Hazards	<a href="http://alexispress.us/sdm_downloads/occupational-health-and-risk/">http://alexispress.us/sdm_downloads/occupational-health-and-risk/</a>
Understanding the General Class of Noise Exposure	<a href="http://alexispress.us/sdm_downloads/occupational-health-and-risk/">http://alexispress.us/sdm_downloads/occupational-health-and-risk/</a>
Understanding Occupational Anatomy and Physiology	<a href="http://alexispress.us/sdm_downloads/occupational-health-and-risk/">http://alexispress.us/sdm_downloads/occupational-health-and-risk/</a>
Factors Influencing Age and Work Aptitude	<a href="http://alexispress.us/sdm_downloads/occupational-health-and-risk/">http://alexispress.us/sdm_downloads/occupational-health-and-risk/</a>
Systemic Toxic Effects on Human Health	<a href="http://alexispress.us/sdm_downloads/occupational-health-and-risk/">http://alexispress.us/sdm_downloads/occupational-health-and-risk/</a>
Joining, Cutting, and Allied Processes	<a href="http://alexispress.us/sdm_downloads/basics-of-welding-process/">http://alexispress.us/sdm_downloads/basics-of-welding-process/</a>
Essential Elements of Electric Arc	<a href="http://alexispress.us/sdm_downloads/basics-of-welding-process/">http://alexispress.us/sdm_downloads/basics-of-welding-process/</a>
Filler Metals and Electrodes: Types, Methods and Applications	<a href="http://alexispress.us/sdm_downloads/basics-of-welding-process/">http://alexispress.us/sdm_downloads/basics-of-welding-process/</a>
Common Arc Welding Defects and Discontinuities	<a href="http://alexispress.us/sdm_downloads/basics-of-welding-process/">http://alexispress.us/sdm_downloads/basics-of-welding-process/</a>
Analysis of Duty Cycle in Welding Processes	<a href="http://alexispress.us/sdm_downloads/basics-of-welding-process/">http://alexispress.us/sdm_downloads/basics-of-welding-process/</a>
Analysis of Plasma Arc Welding: Process, Methods and Applications	<a href="http://alexispress.us/sdm_downloads/basics-of-welding-process/">http://alexispress.us/sdm_downloads/basics-of-welding-process/</a>
A Brief Introduction about Flux Cored Arc Welding	<a href="http://alexispress.us/sdm_downloads/basics-of-welding-process/">http://alexispress.us/sdm_downloads/basics-of-welding-process/</a>

Importance of Resistance Welding Processes	<a href="http://alexispress.us/sdm_downloads/basics-of-welding-process/">http://alexispress.us/sdm_downloads/basics-of-welding-process/</a>
Solid-State Welding Processes and Its Significance	<a href="http://alexispress.us/sdm_downloads/basics-of-welding-process/">http://alexispress.us/sdm_downloads/basics-of-welding-process/</a>
High Energy Density Welding Processes	<a href="http://alexispress.us/sdm_downloads/basics-of-welding-process/">http://alexispress.us/sdm_downloads/basics-of-welding-process/</a>
Understanding the Determination of Adhesive Bonding	<a href="http://alexispress.us/sdm_downloads/basics-of-welding-process/">http://alexispress.us/sdm_downloads/basics-of-welding-process/</a>
Analysis of Weld Joint Nomenclature	<a href="http://alexispress.us/sdm_downloads/basics-of-welding-process/">http://alexispress.us/sdm_downloads/basics-of-welding-process/</a>
Determination of Welding Metallurgy in Welding Process	<a href="http://alexispress.us/sdm_downloads/basics-of-welding-process/">http://alexispress.us/sdm_downloads/basics-of-welding-process/</a>
Welding Metallurgy of Carbon Steels	<a href="http://alexispress.us/sdm_downloads/basics-of-welding-process/">http://alexispress.us/sdm_downloads/basics-of-welding-process/</a>
Welding Metallurgy of Stainless Steels	<a href="http://alexispress.us/sdm_downloads/basics-of-welding-process/">http://alexispress.us/sdm_downloads/basics-of-welding-process/</a>
A Brief Overview on the History of Management	<a href="http://alexispress.us/sdm_downloads/introduction-of-management-technology/">http://alexispress.us/sdm_downloads/introduction-of-management-technology/</a>
A Brief Introduction to the Management	<a href="http://alexispress.us/sdm_downloads/introduction-of-management-technology/">http://alexispress.us/sdm_downloads/introduction-of-management-technology/</a>
Concept of Management Principle and Their Importance	<a href="http://alexispress.us/sdm_downloads/introduction-of-management-technology/">http://alexispress.us/sdm_downloads/introduction-of-management-technology/</a>
Nature and Functions of Management	<a href="http://alexispress.us/sdm_downloads/introduction-of-management-technology/">http://alexispress.us/sdm_downloads/introduction-of-management-technology/</a>
A Brief Overview on Evolution of Management Thought	<a href="http://alexispress.us/sdm_downloads/introduction-of-management-technology/">http://alexispress.us/sdm_downloads/introduction-of-management-technology/</a>
Corporate Sustainability and Corporate Environment Responsibility	<a href="http://alexispress.us/sdm_downloads/introduction-of-management-technology/">http://alexispress.us/sdm_downloads/introduction-of-management-technology/</a>
Socially Responsible Business and Their Importance	<a href="http://alexispress.us/sdm_downloads/introduction-of-management-technology/">http://alexispress.us/sdm_downloads/introduction-of-management-technology/</a>
A Brief Overview of the International Business	<a href="http://alexispress.us/sdm_downloads/introduction-of-management-technology/">http://alexispress.us/sdm_downloads/introduction-of-management-technology/</a>
Brief Overview of Entrepreneurship and Their Responsibilities	<a href="http://alexispress.us/sdm_downloads/introduction-of-management-technology/">http://alexispress.us/sdm_downloads/introduction-of-management-technology/</a>
Social Entrepreneurship; Definition, Types, and their Responsibility	<a href="http://alexispress.us/sdm_downloads/introduction-of-management-technology/">http://alexispress.us/sdm_downloads/introduction-of-management-technology/</a>
Strategic Management Process; Achieving and Sustaining Competitive Advantages	<a href="http://alexispress.us/sdm_downloads/introduction-of-management-technology/">http://alexispress.us/sdm_downloads/introduction-of-management-technology/</a>
Strategic Planning and Decision-Making Methods in Management	<a href="http://alexispress.us/sdm_downloads/introduction-of-management-technology/">http://alexispress.us/sdm_downloads/introduction-of-management-technology/</a>
A Brief Overview of the Human Resource Management	<a href="http://alexispress.us/sdm_downloads/introduction-of-management-technology/">http://alexispress.us/sdm_downloads/introduction-of-management-technology/</a>
Organizing and Organisation Structure of the Management	<a href="http://alexispress.us/sdm_downloads/introduction-of-management-technology/">http://alexispress.us/sdm_downloads/introduction-of-management-technology/</a>
A Brief Overview of Diversity in Business	<a href="http://alexispress.us/sdm_downloads/introduction-of-management-technology/">http://alexispress.us/sdm_downloads/introduction-of-management-technology/</a>
Science and Human Behavior	<a href="http://alexispress.us/sdm_downloads/science-and-human-behavior/">http://alexispress.us/sdm_downloads/science-and-human-behavior/</a>

A Fundamental Study of Behavioral Science	<a href="http://alexispress.us/sdm_downloads/science-and-human-behavior/">http://alexispress.us/sdm_downloads/science-and-human-behavior/</a>
An Overview of Popular Causes of Organisms Behavior	<a href="http://alexispress.us/sdm_downloads/science-and-human-behavior/">http://alexispress.us/sdm_downloads/science-and-human-behavior/</a>
The Analysis of Behavior: Reflexes and Conditioned Reflexes	<a href="http://alexispress.us/sdm_downloads/science-and-human-behavior/">http://alexispress.us/sdm_downloads/science-and-human-behavior/</a>
A Fundamental Study of Operant Behavior	<a href="http://alexispress.us/sdm_downloads/science-and-human-behavior/">http://alexispress.us/sdm_downloads/science-and-human-behavior/</a>
The Continuity of Behavior: Shaping and Maintaining Operant Behavior	<a href="http://alexispress.us/sdm_downloads/science-and-human-behavior/">http://alexispress.us/sdm_downloads/science-and-human-behavior/</a>
A Fundamental Study of Stimulus Discrimination in Psychology	<a href="http://alexispress.us/sdm_downloads/science-and-human-behavior/">http://alexispress.us/sdm_downloads/science-and-human-behavior/</a>
Environment's Importance in Controlling Behavior	<a href="http://alexispress.us/sdm_downloads/science-and-human-behavior/">http://alexispress.us/sdm_downloads/science-and-human-behavior/</a>
An Overview of Deprivation and Satiation	<a href="http://alexispress.us/sdm_downloads/science-and-human-behavior/">http://alexispress.us/sdm_downloads/science-and-human-behavior/</a>
An Overview of Human Emotion	<a href="http://alexispress.us/sdm_downloads/science-and-human-behavior/">http://alexispress.us/sdm_downloads/science-and-human-behavior/</a>
An Analysis of Aversive Behavior, Avoidance, and Anxiety	<a href="http://alexispress.us/sdm_downloads/science-and-human-behavior/">http://alexispress.us/sdm_downloads/science-and-human-behavior/</a>
A Fundamental Study on Punishment	<a href="http://alexispress.us/sdm_downloads/science-and-human-behavior/">http://alexispress.us/sdm_downloads/science-and-human-behavior/</a>
An Overview of Function Versus Aspect of Human Behavior	<a href="http://alexispress.us/sdm_downloads/science-and-human-behavior/">http://alexispress.us/sdm_downloads/science-and-human-behavior/</a>
The Analysis of Complex Cases over Simplification	<a href="http://alexispress.us/sdm_downloads/science-and-human-behavior/">http://alexispress.us/sdm_downloads/science-and-human-behavior/</a>
Exploring the Impact of Self-Control	<a href="http://alexispress.us/sdm_downloads/science-and-human-behavior/">http://alexispress.us/sdm_downloads/science-and-human-behavior/</a>
Specification of the Advance Welding Technology	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/">http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/</a>
Importance Of Oxy-Acetylene Gas Cutting	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/">http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/</a>
A Brief Overview About The Tig Welding	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/">http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/</a>
Unlocking The Power Of Efficient Mig Welding	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/">http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/</a>
Identifying and Preventing Common Welding Defects	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/">http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/</a>
Understanding the Under Water Welding Technology	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/">http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/</a>
Welding Safety For Joining To Metallic Pieces	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/">http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/</a>
A Brief Overview about Pipe Welding Technology	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/">http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/</a>
An Overview about Plasma Arc Welding Process	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/">http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/</a>
Filler Rods For Gas Welding and Its Significance	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/">http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/</a>

Basic Introduction of Friction Welding	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/">http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/</a>
Welding Machine and Welding Power Sources	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/">http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/</a>
Application of the Welding Metallurgy	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/">http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/</a>
Introduction of The Oxy-Acetylene Flames	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/">http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/</a>
Welding of Low Carbon Steel and Medium Carbon Steel	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/">http://alexispress.us/sdm_downloads/recent-advances-in-welding-technology/</a>
An Evaluation of Media and Culture in Modern World	<a href="http://alexispress.us/sdm_downloads/media-and-mass-communication/">http://alexispress.us/sdm_downloads/media-and-mass-communication/</a>
Exploring Social Values and Communication Function	<a href="http://alexispress.us/sdm_downloads/media-and-mass-communication/">http://alexispress.us/sdm_downloads/media-and-mass-communication/</a>
The Media and Popular Culture	<a href="http://alexispress.us/sdm_downloads/media-and-mass-communication/">http://alexispress.us/sdm_downloads/media-and-mass-communication/</a>
An Assessment on Messages of Mass Media	<a href="http://alexispress.us/sdm_downloads/media-and-mass-communication/">http://alexispress.us/sdm_downloads/media-and-mass-communication/</a>
Exploring Roles of Technology in Media Sector	<a href="http://alexispress.us/sdm_downloads/media-and-mass-communication/">http://alexispress.us/sdm_downloads/media-and-mass-communication/</a>
The Role of Books in Mass Communication	<a href="http://alexispress.us/sdm_downloads/media-and-mass-communication/">http://alexispress.us/sdm_downloads/media-and-mass-communication/</a>
Impact of Modern Technology on Society	<a href="http://alexispress.us/sdm_downloads/media-and-mass-communication/">http://alexispress.us/sdm_downloads/media-and-mass-communication/</a>
Role of Newspapers in Media and Mass Communication	<a href="http://alexispress.us/sdm_downloads/media-and-mass-communication/">http://alexispress.us/sdm_downloads/media-and-mass-communication/</a>
Importance of Magazines in Mass Communication	<a href="http://alexispress.us/sdm_downloads/media-and-mass-communication/">http://alexispress.us/sdm_downloads/media-and-mass-communication/</a>
Exploring Important Magazine Industry Publications	<a href="http://alexispress.us/sdm_downloads/media-and-mass-communication/">http://alexispress.us/sdm_downloads/media-and-mass-communication/</a>
Impact of Magazines on Public Information Access	<a href="http://alexispress.us/sdm_downloads/media-and-mass-communication/">http://alexispress.us/sdm_downloads/media-and-mass-communication/</a>
Investigating Internet and Social Media Sites	<a href="http://alexispress.us/sdm_downloads/media-and-mass-communication/">http://alexispress.us/sdm_downloads/media-and-mass-communication/</a>
An Analysis of Social Media and Web 2.0	<a href="http://alexispress.us/sdm_downloads/media-and-mass-communication/">http://alexispress.us/sdm_downloads/media-and-mass-communication/</a>
Popular Culture and Interpersonal Communication Impacted by Internet and Globalization	<a href="http://alexispress.us/sdm_downloads/media-and-mass-communication/">http://alexispress.us/sdm_downloads/media-and-mass-communication/</a>
Advertisement Impact on Media and Mass Communication	<a href="http://alexispress.us/sdm_downloads/media-and-mass-communication/">http://alexispress.us/sdm_downloads/media-and-mass-communication/</a>
Introduction about Micro Technology and Its Applications	<a href="http://alexispress.us/sdm_downloads/waste-water-engineering/">http://alexispress.us/sdm_downloads/waste-water-engineering/</a>
Polymers Determination: Analysis and Characterization Methods	<a href="http://alexispress.us/sdm_downloads/waste-water-engineering/">http://alexispress.us/sdm_downloads/waste-water-engineering/</a>
Determination of Near-Surface Micromachining	<a href="http://alexispress.us/sdm_downloads/waste-water-engineering/">http://alexispress.us/sdm_downloads/waste-water-engineering/</a>

Analyzing Polysilicon Layers: Characterization and Evaluation	<a href="http://alexispress.us/sdm_downloads/waste-water-engineering/">http://alexispress.us/sdm_downloads/waste-water-engineering/</a>
Determination Sputtering: Techniques, Analysis, and Applications	<a href="http://alexispress.us/sdm_downloads/waste-water-engineering/">http://alexispress.us/sdm_downloads/waste-water-engineering/</a>
Analysis of Bonding Techniques: Methods, Evaluation, and Applications	<a href="http://alexispress.us/sdm_downloads/waste-water-engineering/">http://alexispress.us/sdm_downloads/waste-water-engineering/</a>
Determination of Micro Injection Molding	<a href="http://alexispress.us/sdm_downloads/waste-water-engineering/">http://alexispress.us/sdm_downloads/waste-water-engineering/</a>
Determination of Encapsulation and Packaging in Micro technology	<a href="http://alexispress.us/sdm_downloads/waste-water-engineering/">http://alexispress.us/sdm_downloads/waste-water-engineering/</a>
Exploring the Applications of Fluidic Interfaces	<a href="http://alexispress.us/sdm_downloads/waste-water-engineering/">http://alexispress.us/sdm_downloads/waste-water-engineering/</a>
Determination of Piezoelectric Transducers	<a href="http://alexispress.us/sdm_downloads/waste-water-engineering/">http://alexispress.us/sdm_downloads/waste-water-engineering/</a>
Understanding the Design Tools and Methods	<a href="http://alexispress.us/sdm_downloads/waste-water-engineering/">http://alexispress.us/sdm_downloads/waste-water-engineering/</a>
Transient Analysis of Electromechanical Systems	<a href="http://alexispress.us/sdm_downloads/waste-water-engineering/">http://alexispress.us/sdm_downloads/waste-water-engineering/</a>
Determination of Micro-optical Applications	<a href="http://alexispress.us/sdm_downloads/waste-water-engineering/">http://alexispress.us/sdm_downloads/waste-water-engineering/</a>
Analysis of Microfluidic Systems: Design and Application	<a href="http://alexispress.us/sdm_downloads/waste-water-engineering/">http://alexispress.us/sdm_downloads/waste-water-engineering/</a>
A Brief Introduction about Microstructure Technology	<a href="http://alexispress.us/sdm_downloads/waste-water-engineering/">http://alexispress.us/sdm_downloads/waste-water-engineering/</a>
Introduction about Database Management System	<a href="http://alexispress.us/sdm_downloads/database-management-system-dbms/">http://alexispress.us/sdm_downloads/database-management-system-dbms/</a>
Purpose and Applications of Database System	<a href="http://alexispress.us/sdm_downloads/database-management-system-dbms/">http://alexispress.us/sdm_downloads/database-management-system-dbms/</a>
Relational Database Management System	<a href="http://alexispress.us/sdm_downloads/database-management-system-dbms/">http://alexispress.us/sdm_downloads/database-management-system-dbms/</a>
Architecture and Model OF DBMS	<a href="http://alexispress.us/sdm_downloads/database-management-system-dbms/">http://alexispress.us/sdm_downloads/database-management-system-dbms/</a>
A Brief Overview about DBMS Language and Models	<a href="http://alexispress.us/sdm_downloads/database-management-system-dbms/">http://alexispress.us/sdm_downloads/database-management-system-dbms/</a>
DBMS Data Modelling: Efficient Information Structuring	<a href="http://alexispress.us/sdm_downloads/database-management-system-dbms/">http://alexispress.us/sdm_downloads/database-management-system-dbms/</a>
DBMS Keys: Understanding Data Integrity and Relationships	<a href="http://alexispress.us/sdm_downloads/database-management-system-dbms/">http://alexispress.us/sdm_downloads/database-management-system-dbms/</a>
Exploring Relational Data Model of DBMS	<a href="http://alexispress.us/sdm_downloads/database-management-system-dbms/">http://alexispress.us/sdm_downloads/database-management-system-dbms/</a>
Join Operations and Integrity Constraints in DBMS	<a href="http://alexispress.us/sdm_downloads/database-management-system-dbms/">http://alexispress.us/sdm_downloads/database-management-system-dbms/</a>
DBMS Multivalued Dependency: Concept and Applications	<a href="http://alexispress.us/sdm_downloads/database-management-system-dbms/">http://alexispress.us/sdm_downloads/database-management-system-dbms/</a>
Transaction Processing in DBMS: Principles and Techniques	<a href="http://alexispress.us/sdm_downloads/database-management-system-dbms/">http://alexispress.us/sdm_downloads/database-management-system-dbms/</a>
A Brief Overview about Concurrency Control in DBMS	<a href="http://alexispress.us/sdm_downloads/database-management-system-dbms/">http://alexispress.us/sdm_downloads/database-management-system-dbms/</a>

Data Storage: Disks and Files in DBMS	<a href="http://alexispress.us/sdm_downloads/database-management-system-dbms/">http://alexispress.us/sdm_downloads/database-management-system-dbms/</a>
File Organization and Indexes in DBMS	<a href="http://alexispress.us/sdm_downloads/database-management-system-dbms/">http://alexispress.us/sdm_downloads/database-management-system-dbms/</a>
Physical Database Design and Tuning	<a href="http://alexispress.us/sdm_downloads/database-management-system-dbms/">http://alexispress.us/sdm_downloads/database-management-system-dbms/</a>
Material Properties: Understanding Manufacturing Science's Potential	<a href="http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/">http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/</a>
Steel and Iron: Ferrous Materials Applications	<a href="http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/">http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/</a>
A Brief Overview about Non-Ferrous Metals	<a href="http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/">http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/</a>
Metal Forming: Essential Processes and Practical Applications	<a href="http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/">http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/</a>
Exploring Forging Techniques in Metal Shaping	<a href="http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/">http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/</a>
Understanding the Diverse Application of Rolling Technique	<a href="http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/">http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/</a>
Extrusion, Wire Drawing, Tube, Making and their Significance	<a href="http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/">http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/</a>
Understanding Press Work and Die-Punch Assembly	<a href="http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/">http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/</a>
Casting: From Molten Metal to Solid Form	<a href="http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/">http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/</a>
Understanding the Versatile Lathe Machine	<a href="http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/">http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/</a>
Applications of the Shaper and Planners	<a href="http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/">http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/</a>
Analysis of the Drilling Machines	<a href="http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/">http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/</a>
Milling Process and Its Application	<a href="http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/">http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/</a>
A Brief Overview about Grinding Process	<a href="http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/">http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/</a>
Welding Process and Its Significance	<a href="http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/">http://alexispress.us/sdm_downloads/theory-of-manufacturing-science/</a>

A Discussion on Sag and Corona	<a href="http://alexispress.us/sdm_downloads/power-system-analysis/">http://alexispress.us/sdm_downloads/power-system-analysis/</a>
Electrical Design of Overhead Transmission Line	<a href="http://alexispress.us/sdm_downloads/power-system-analysis/">http://alexispress.us/sdm_downloads/power-system-analysis/</a>
Evolution of Economic Thought: A Comprehensive Overview	<a href="http://alexispress.us/sdm_downloads/concept-of-economic-thought/">http://alexispress.us/sdm_downloads/concept-of-economic-thought/</a>

Aristotle's Ideal State: Contrast and Compare Plato's	<a href="http://alexispress.us/sdm_downloads/concept-of-economic-thought/">http://alexispress.us/sdm_downloads/concept-of-economic-thought/</a>
Origin of Mercantilism: Exploring Its Underlying Causes	<a href="http://alexispress.us/sdm_downloads/concept-of-economic-thought/">http://alexispress.us/sdm_downloads/concept-of-economic-thought/</a>
Economic Theories: Diverse Perspectives on Economic Systems	<a href="http://alexispress.us/sdm_downloads/concept-of-economic-thought/">http://alexispress.us/sdm_downloads/concept-of-economic-thought/</a>
Causes of the Rise of the Physiocracy	<a href="http://alexispress.us/sdm_downloads/concept-of-economic-thought/">http://alexispress.us/sdm_downloads/concept-of-economic-thought/</a>
A Brief Overview about Naturalism and Optimism	<a href="http://alexispress.us/sdm_downloads/concept-of-economic-thought/">http://alexispress.us/sdm_downloads/concept-of-economic-thought/</a>
Economic Contribution: Significance and Multi Dimensions Overview	<a href="http://alexispress.us/sdm_downloads/concept-of-economic-thought/">http://alexispress.us/sdm_downloads/concept-of-economic-thought/</a>
Contribution and Utilitarianism: Enhancing Social Welfare	<a href="http://alexispress.us/sdm_downloads/concept-of-economic-thought/">http://alexispress.us/sdm_downloads/concept-of-economic-thought/</a>
Analysis of Socialists and Its Impact	<a href="http://alexispress.us/sdm_downloads/concept-of-economic-thought/">http://alexispress.us/sdm_downloads/concept-of-economic-thought/</a>
Exploring the Analysis of Political Economy	<a href="http://alexispress.us/sdm_downloads/concept-of-economic-thought/">http://alexispress.us/sdm_downloads/concept-of-economic-thought/</a>
Capitalist Crisis Hypothesis in Marxian Political Economy	<a href="http://alexispress.us/sdm_downloads/concept-of-economic-thought/">http://alexispress.us/sdm_downloads/concept-of-economic-thought/</a>
Understanding the Economic Theory and Its Significance	<a href="http://alexispress.us/sdm_downloads/concept-of-economic-thought/">http://alexispress.us/sdm_downloads/concept-of-economic-thought/</a>
Importance of Economic Thought's History	<a href="http://alexispress.us/sdm_downloads/concept-of-economic-thought/">http://alexispress.us/sdm_downloads/concept-of-economic-thought/</a>
Analysis of Mercantilism: Understanding Economic Power and Policies	<a href="http://alexispress.us/sdm_downloads/concept-of-economic-thought/">http://alexispress.us/sdm_downloads/concept-of-economic-thought/</a>
Characteristics of Mercantilist Economic Ideology	<a href="http://alexispress.us/sdm_downloads/concept-of-economic-thought/">http://alexispress.us/sdm_downloads/concept-of-economic-thought/</a>
Introduction about Entrepreneurial Finance Challenges	<a href="http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/">http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/</a>
A Brief Introduction to Evaluating Venture Opportunities	<a href="http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/">http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/</a>
Market Timing: Understanding Entrepreneurial Challenges	<a href="http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/">http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/</a>
Significance of Production Strategy in Company	<a href="http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/">http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/</a>
Understanding the Business Plan of an Entrepreneur	<a href="http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/">http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/</a>
Strategic Financial Planning for Entrepreneurs	<a href="http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/">http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/</a>
The Bottom-Up Approach: Understanding Entrepreneurial Potential	<a href="http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/">http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/</a>
Formulating the Financial Plan: Unlocking Business Success	<a href="http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/">http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/</a>
Determinants of Valuation and Returns	<a href="http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/">http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/</a>
Venture Capital Method: Unlocking Funding Opportunities	<a href="http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/">http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/</a>

Exit Comparable Method: A Valuation Approach	<a href="http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/">http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/</a>
A Financial Instrument: Convertible Preferred Stock	<a href="http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/">http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/</a>
Governance and Leadership: The Board of Directors	<a href="http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/">http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/</a>
Deal Structuring: Maximizing Opportunities for Success	<a href="http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/">http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/</a>
Understanding Syndication and Investment Performance	<a href="http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/">http://alexispress.us/sdm_downloads/principle-of-entrepreneurial-finance/</a>
A Brief Introduction of Chemistry	<a href="http://alexispress.us/sdm_downloads/introduction-to-chemistry/">http://alexispress.us/sdm_downloads/introduction-to-chemistry/</a>
A Brief History of the Chemistry	<a href="http://alexispress.us/sdm_downloads/introduction-to-chemistry/">http://alexispress.us/sdm_downloads/introduction-to-chemistry/</a>
Basics Nature of the Matter	<a href="http://alexispress.us/sdm_downloads/introduction-to-chemistry/">http://alexispress.us/sdm_downloads/introduction-to-chemistry/</a>
Atom; Nucleus of Protons and Neutrons Surrounded by an Electron Cloud	<a href="http://alexispress.us/sdm_downloads/introduction-to-chemistry/">http://alexispress.us/sdm_downloads/introduction-to-chemistry/</a>
Structure and Function of the Chemical Compound	<a href="http://alexispress.us/sdm_downloads/introduction-to-chemistry/">http://alexispress.us/sdm_downloads/introduction-to-chemistry/</a>
A Brief Discussion of the Molecule	<a href="http://alexispress.us/sdm_downloads/introduction-to-chemistry/">http://alexispress.us/sdm_downloads/introduction-to-chemistry/</a>
Mole Used as a Measuring Unit	<a href="http://alexispress.us/sdm_downloads/introduction-to-chemistry/">http://alexispress.us/sdm_downloads/introduction-to-chemistry/</a>
Chemical Element; A Chemical Compound that Cannot Be Broken Down into Other Compounds	<a href="http://alexispress.us/sdm_downloads/introduction-to-chemistry/">http://alexispress.us/sdm_downloads/introduction-to-chemistry/</a>
Phase, Types, Equilibrium and Stages	<a href="http://alexispress.us/sdm_downloads/introduction-to-chemistry/">http://alexispress.us/sdm_downloads/introduction-to-chemistry/</a>
Energy and their Types in the Biological System	<a href="http://alexispress.us/sdm_downloads/introduction-to-chemistry/">http://alexispress.us/sdm_downloads/introduction-to-chemistry/</a>
Chemical Bond and their Function in the Chemical Reaction	<a href="http://alexispress.us/sdm_downloads/introduction-to-chemistry/">http://alexispress.us/sdm_downloads/introduction-to-chemistry/</a>
Chemical Reaction and Their Types	<a href="http://alexispress.us/sdm_downloads/introduction-to-chemistry/">http://alexispress.us/sdm_downloads/introduction-to-chemistry/</a>
A Brief Overview of the Ion and their Characteristics	<a href="http://alexispress.us/sdm_downloads/introduction-to-chemistry/">http://alexispress.us/sdm_downloads/introduction-to-chemistry/</a>
Basic Concept and Mechanism of the Redox Reactions	<a href="http://alexispress.us/sdm_downloads/introduction-to-chemistry/">http://alexispress.us/sdm_downloads/introduction-to-chemistry/</a>
Analytical Chemistry; Used for the Separation, Identification and Quantification of Matter	<a href="http://alexispress.us/sdm_downloads/introduction-to-chemistry/">http://alexispress.us/sdm_downloads/introduction-to-chemistry/</a>
A Brief Introduction about Material Requirements Planning	<a href="http://alexispress.us/sdm_downloads/material-requirements-planning/">http://alexispress.us/sdm_downloads/material-requirements-planning/</a>
Managing Stock Inventory in Production Environment	<a href="http://alexispress.us/sdm_downloads/material-requirements-planning/">http://alexispress.us/sdm_downloads/material-requirements-planning/</a>
Fundamental of Materials Requirements Planning	<a href="http://alexispress.us/sdm_downloads/material-requirements-planning/">http://alexispress.us/sdm_downloads/material-requirements-planning/</a>

Understanding the BOMS Software Significance	<a href="http://alexispress.us/sdm_downloads/material-requirements-planning/">http://alexispress.us/sdm_downloads/material-requirements-planning/</a>
Efficient Production: Unveiling the Material Requirements System	<a href="http://alexispress.us/sdm_downloads/material-requirements-planning/">http://alexispress.us/sdm_downloads/material-requirements-planning/</a>
Analyzing Logic in Material Requirement Planning	<a href="http://alexispress.us/sdm_downloads/material-requirements-planning/">http://alexispress.us/sdm_downloads/material-requirements-planning/</a>
Optimal Quantities: Mastering Lot Sizing Techniques	<a href="http://alexispress.us/sdm_downloads/material-requirements-planning/">http://alexispress.us/sdm_downloads/material-requirements-planning/</a>
A Brief Introduction about System Files and Records	<a href="http://alexispress.us/sdm_downloads/material-requirements-planning/">http://alexispress.us/sdm_downloads/material-requirements-planning/</a>
A New Way of Looking at Things	<a href="http://alexispress.us/sdm_downloads/material-requirements-planning/">http://alexispress.us/sdm_downloads/material-requirements-planning/</a>
A Brief Overview about Product in Material Requirement Product	<a href="http://alexispress.us/sdm_downloads/material-requirements-planning/">http://alexispress.us/sdm_downloads/material-requirements-planning/</a>
A Brief Introduction about Master Production Schedule	<a href="http://alexispress.us/sdm_downloads/material-requirements-planning/">http://alexispress.us/sdm_downloads/material-requirements-planning/</a>
Plan and Reality Master Production Schedule	<a href="http://alexispress.us/sdm_downloads/material-requirements-planning/">http://alexispress.us/sdm_downloads/material-requirements-planning/</a>
Elevating Efficiency: Enhancing Inventory Control Systems	<a href="http://alexispress.us/sdm_downloads/material-requirements-planning/">http://alexispress.us/sdm_downloads/material-requirements-planning/</a>
Effectiveness of a System: A Function of Design and Use	<a href="http://alexispress.us/sdm_downloads/material-requirements-planning/">http://alexispress.us/sdm_downloads/material-requirements-planning/</a>
Material Requirements Planning Impact on Industry	<a href="http://alexispress.us/sdm_downloads/material-requirements-planning/">http://alexispress.us/sdm_downloads/material-requirements-planning/</a>
Applications of the Diffusion in Solids	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-material-science/">http://alexispress.us/sdm_downloads/fundamentals-of-material-science/</a>
Classification and Selection of Materials	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-material-science/">http://alexispress.us/sdm_downloads/fundamentals-of-material-science/</a>
A Brief Classification of Materials Selection	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-material-science/">http://alexispress.us/sdm_downloads/fundamentals-of-material-science/</a>
Innovative Cement Blocks for Advanced Atomic Industry Applications	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-material-science/">http://alexispress.us/sdm_downloads/fundamentals-of-material-science/</a>
Atomic Structure and Electronic Configuration	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-material-science/">http://alexispress.us/sdm_downloads/fundamentals-of-material-science/</a>
A Brief Overview about Crystal Geometry, Structure and Defect	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-material-science/">http://alexispress.us/sdm_downloads/fundamentals-of-material-science/</a>
Crystal Defects: Exploring Imperfections in Crystalline Structures	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-material-science/">http://alexispress.us/sdm_downloads/fundamentals-of-material-science/</a>
Importance of Bonds in Solid Molecules	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-material-science/">http://alexispress.us/sdm_downloads/fundamentals-of-material-science/</a>
Electron Theory and Its Application in Metals Materials	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-material-science/">http://alexispress.us/sdm_downloads/fundamentals-of-material-science/</a>
Application of the Photoelectric Effect	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-material-science/">http://alexispress.us/sdm_downloads/fundamentals-of-material-science/</a>
Mechanical Properties of Materials and Mechanical Tests	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-material-science/">http://alexispress.us/sdm_downloads/fundamentals-of-material-science/</a>
Alloy System Phase and Phase Transformation	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-material-science/">http://alexispress.us/sdm_downloads/fundamentals-of-material-science/</a>

Application of the Heat Treatment in Material Science	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-material-science/">http://alexispress.us/sdm_downloads/fundamentals-of-material-science/</a>
Understanding the Deformation Behavior of Materials	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-material-science/">http://alexispress.us/sdm_downloads/fundamentals-of-material-science/</a>
Collagen-Silicate Biomaterials: Regenerating Bone Tissue Naturally	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-material-science/">http://alexispress.us/sdm_downloads/fundamentals-of-material-science/</a>
Different Viewpoints on Consumer Behaviour	<a href="http://alexispress.us/sdm_downloads/promotion-and-advertising/">http://alexispress.us/sdm_downloads/promotion-and-advertising/</a>
Understanding Consumer Interpretations and Their Effect on Communication Strategies	<a href="http://alexispress.us/sdm_downloads/promotion-and-advertising/">http://alexispress.us/sdm_downloads/promotion-and-advertising/</a>
Consumer Decision-Making Variations	<a href="http://alexispress.us/sdm_downloads/promotion-and-advertising/">http://alexispress.us/sdm_downloads/promotion-and-advertising/</a>
Exploring The Process of Communication	<a href="http://alexispress.us/sdm_downloads/promotion-and-advertising/">http://alexispress.us/sdm_downloads/promotion-and-advertising/</a>
Role of Response Hierarchy Models in Consumer Behaviour Understanding	<a href="http://alexispress.us/sdm_downloads/promotion-and-advertising/">http://alexispress.us/sdm_downloads/promotion-and-advertising/</a>
Investigating the Communication Process in Brain	<a href="http://alexispress.us/sdm_downloads/promotion-and-advertising/">http://alexispress.us/sdm_downloads/promotion-and-advertising/</a>
Planning Promotions Using the Persuasion Matrix	<a href="http://alexispress.us/sdm_downloads/promotion-and-advertising/">http://alexispress.us/sdm_downloads/promotion-and-advertising/</a>
Exploring the Role of Source Message in Persuasive Communication	<a href="http://alexispress.us/sdm_downloads/promotion-and-advertising/">http://alexispress.us/sdm_downloads/promotion-and-advertising/</a>
Comparing Personal and Non-Personal Communication Channels	<a href="http://alexispress.us/sdm_downloads/promotion-and-advertising/">http://alexispress.us/sdm_downloads/promotion-and-advertising/</a>
Setting Goals and Setting a Budget for the Promotional Program	<a href="http://alexispress.us/sdm_downloads/promotion-and-advertising/">http://alexispress.us/sdm_downloads/promotion-and-advertising/</a>
Exploring the Role of Communication Goals in Organizations	<a href="http://alexispress.us/sdm_downloads/promotion-and-advertising/">http://alexispress.us/sdm_downloads/promotion-and-advertising/</a>
Budgeting for Promotions: Setting and Budget Allocation	<a href="http://alexispress.us/sdm_downloads/promotion-and-advertising/">http://alexispress.us/sdm_downloads/promotion-and-advertising/</a>
Overview of Top-Down Budgeting Techniques	<a href="http://alexispress.us/sdm_downloads/promotion-and-advertising/">http://alexispress.us/sdm_downloads/promotion-and-advertising/</a>
Creative Strategy: Development and Planning	<a href="http://alexispress.us/sdm_downloads/promotion-and-advertising/">http://alexispress.us/sdm_downloads/promotion-and-advertising/</a>
Importance of New Strategies Development	<a href="http://alexispress.us/sdm_downloads/promotion-and-advertising/">http://alexispress.us/sdm_downloads/promotion-and-advertising/</a>
Basic Approach on Power Plant Engineering	<a href="http://alexispress.us/sdm_downloads/power-plant-engineering/">http://alexispress.us/sdm_downloads/power-plant-engineering/</a>
Non-Conventional Energy Resource and Utilisation	<a href="http://alexispress.us/sdm_downloads/power-plant-engineering/">http://alexispress.us/sdm_downloads/power-plant-engineering/</a>
An Introduction about Fuel Technology and Its Types	<a href="http://alexispress.us/sdm_downloads/power-plant-engineering/">http://alexispress.us/sdm_downloads/power-plant-engineering/</a>
Analysis of Energy Exploited, Demand and Planning	<a href="http://alexispress.us/sdm_downloads/power-plant-engineering/">http://alexispress.us/sdm_downloads/power-plant-engineering/</a>
An Overview on Bio Gas and Raw Materials	<a href="http://alexispress.us/sdm_downloads/power-plant-engineering/">http://alexispress.us/sdm_downloads/power-plant-engineering/</a>

An Introduction about Fuels and Combustion	<a href="http://alexispress.us/sdm_downloads/power-plant-engineering/">http://alexispress.us/sdm_downloads/power-plant-engineering/</a>
An Analysis of Wind Energy and Its Features	<a href="http://alexispress.us/sdm_downloads/power-plant-engineering/">http://alexispress.us/sdm_downloads/power-plant-engineering/</a>
From Sunlight to Solutions: Examining Solar Energy's Benefits	<a href="http://alexispress.us/sdm_downloads/power-plant-engineering/">http://alexispress.us/sdm_downloads/power-plant-engineering/</a>
Power Plant Fuel Technology: Exploring Applications and Advancements	<a href="http://alexispress.us/sdm_downloads/power-plant-engineering/">http://alexispress.us/sdm_downloads/power-plant-engineering/</a>
Biofuel: Objectives and Types in Liquid, Gas, and Solid Forms	<a href="http://alexispress.us/sdm_downloads/power-plant-engineering/">http://alexispress.us/sdm_downloads/power-plant-engineering/</a>
Power Plant Economics and Variable Load Problem	<a href="http://alexispress.us/sdm_downloads/power-plant-engineering/">http://alexispress.us/sdm_downloads/power-plant-engineering/</a>
Economic Plant Selection: Optimizing Applications for Cost Efficiency	<a href="http://alexispress.us/sdm_downloads/power-plant-engineering/">http://alexispress.us/sdm_downloads/power-plant-engineering/</a>
A Brief Introduction about Steam Power Plant	<a href="http://alexispress.us/sdm_downloads/power-plant-engineering/">http://alexispress.us/sdm_downloads/power-plant-engineering/</a>
Methods for Furnace Fuel Firing in Steam Power Plants	<a href="http://alexispress.us/sdm_downloads/power-plant-engineering/">http://alexispress.us/sdm_downloads/power-plant-engineering/</a>
Introduction to Boilers: Characteristics and Key Features	<a href="http://alexispress.us/sdm_downloads/power-plant-engineering/">http://alexispress.us/sdm_downloads/power-plant-engineering/</a>
Introduction of Intellectual Property Rights (IPR)	<a href="http://alexispress.us/sdm_downloads/concept-of-intellectual-property/">http://alexispress.us/sdm_downloads/concept-of-intellectual-property/</a>
Exploring the Types of Intellectual Property	<a href="http://alexispress.us/sdm_downloads/concept-of-intellectual-property/">http://alexispress.us/sdm_downloads/concept-of-intellectual-property/</a>
Biodiversity and Protection of Intellectual Property Rights	<a href="http://alexispress.us/sdm_downloads/concept-of-intellectual-property/">http://alexispress.us/sdm_downloads/concept-of-intellectual-property/</a>
An Evaluation of Berne and Paris Convention	<a href="http://alexispress.us/sdm_downloads/concept-of-intellectual-property/">http://alexispress.us/sdm_downloads/concept-of-intellectual-property/</a>
Rules of Patent Cooperation Treaty (PCT)	<a href="http://alexispress.us/sdm_downloads/concept-of-intellectual-property/">http://alexispress.us/sdm_downloads/concept-of-intellectual-property/</a>
Trade-Related Aspects of Intellectual Property Rights (TRIPS) Agreement	<a href="http://alexispress.us/sdm_downloads/concept-of-intellectual-property/">http://alexispress.us/sdm_downloads/concept-of-intellectual-property/</a>
Describing the Concept of Patents	<a href="http://alexispress.us/sdm_downloads/concept-of-intellectual-property/">http://alexispress.us/sdm_downloads/concept-of-intellectual-property/</a>
Patentable and Non-Patentable Subject Matter	<a href="http://alexispress.us/sdm_downloads/concept-of-intellectual-property/">http://alexispress.us/sdm_downloads/concept-of-intellectual-property/</a>
An Analysis of Patent Specification Types	<a href="http://alexispress.us/sdm_downloads/concept-of-intellectual-property/">http://alexispress.us/sdm_downloads/concept-of-intellectual-property/</a>
An Assessment of Patent Application Preparation	<a href="http://alexispress.us/sdm_downloads/concept-of-intellectual-property/">http://alexispress.us/sdm_downloads/concept-of-intellectual-property/</a>
Determining the Typical Parts of Patent Application	<a href="http://alexispress.us/sdm_downloads/concept-of-intellectual-property/">http://alexispress.us/sdm_downloads/concept-of-intellectual-property/</a>
Surrender and Revocation of Patents	<a href="http://alexispress.us/sdm_downloads/concept-of-intellectual-property/">http://alexispress.us/sdm_downloads/concept-of-intellectual-property/</a>
Powers of Controller in Granting Compulsory Licenses	<a href="http://alexispress.us/sdm_downloads/concept-of-intellectual-property/">http://alexispress.us/sdm_downloads/concept-of-intellectual-property/</a>
Role of Patent Agents in Grant of Inventions	<a href="http://alexispress.us/sdm_downloads/concept-of-intellectual-property/">http://alexispress.us/sdm_downloads/concept-of-intellectual-property/</a>

A Comprehensive Overview of Patent Information	<a href="http://alexispress.us/sdm_downloads/concept-of-intellectual-property/">http://alexispress.us/sdm_downloads/concept-of-intellectual-property/</a>
Basics Features of the Nano metrology	<a href="http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/">http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/</a>
Basic Principles of Engineering Metrology	<a href="http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/">http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/</a>
A Comprehensive Introduction to Measurement Standards	<a href="http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/">http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/</a>
Limits, Fits and Tolerances in Industrial Application	<a href="http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/">http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/</a>
Applications of the Linear Measurement	<a href="http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/">http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/</a>
Applications of Angular Measurement	<a href="http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/">http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/</a>
Unveiling the Diverse Applications of Comparators	<a href="http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/">http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/</a>
Optical Measurement and Interferometry	<a href="http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/">http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/</a>
Metrology of Gears and Screw Threads	<a href="http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/">http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/</a>
Exploring the Diverse Applications of Surface Finish Metrology	<a href="http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/">http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/</a>
Discovering the Diverse Application of Miscellaneous Metrology	<a href="http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/">http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/</a>
Applications of Inspection and Quality Control Methods	<a href="http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/">http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/</a>
Unveiling the Versatile Applications of Measurement Systems	<a href="http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/">http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/</a>
Exploring the Analysis of Transducers	<a href="http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/">http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/</a>
Measurement of Force, Torque, and Strain	<a href="http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/">http://alexispress.us/sdm_downloads/theory-of-measurement-metrology/</a>
Examining the evaluation of industrial refrigeration	<a href="http://alexispress.us/sdm_downloads/an-archive-of-refrigeration-technology/">http://alexispress.us/sdm_downloads/an-archive-of-refrigeration-technology/</a>
Investigate the Superheat in the Evaporator	<a href="http://alexispress.us/sdm_downloads/an-archive-of-refrigeration-technology/">http://alexispress.us/sdm_downloads/an-archive-of-refrigeration-technology/</a>
Analyzing the concept of Single-Stage Refrigeration Cycle	<a href="http://alexispress.us/sdm_downloads/an-archive-of-refrigeration-technology/">http://alexispress.us/sdm_downloads/an-archive-of-refrigeration-technology/</a>
Examining the evaluation of Thermal Expansion Valve	<a href="http://alexispress.us/sdm_downloads/an-archive-of-refrigeration-technology/">http://alexispress.us/sdm_downloads/an-archive-of-refrigeration-technology/</a>
Examining the CO2 refrigeration and air conditioning technologies	<a href="http://alexispress.us/sdm_downloads/an-archive-of-refrigeration-technology/">http://alexispress.us/sdm_downloads/an-archive-of-refrigeration-technology/</a>
A Comprehensive Study on the Turbo machinery	<a href="http://alexispress.us/sdm_downloads/an-archive-of-refrigeration-technology/">http://alexispress.us/sdm_downloads/an-archive-of-refrigeration-technology/</a>
Overview on Properties of moist air	<a href="http://alexispress.us/sdm_downloads/an-archive-of-refrigeration-technology/">http://alexispress.us/sdm_downloads/an-archive-of-refrigeration-technology/</a>

An Elaboration of the Architecture of the Internet of Things	<a href="http://alexispress.us/sdm_downloads/advances-of-iot/">http://alexispress.us/sdm_downloads/advances-of-iot/</a>
Modern Approaches of IoT for Cyber Security	<a href="http://alexispress.us/sdm_downloads/advances-of-iot/">http://alexispress.us/sdm_downloads/advances-of-iot/</a>
An Evolution of Internet of Things Security for Cyber-Entities	<a href="http://alexispress.us/sdm_downloads/advances-of-iot/">http://alexispress.us/sdm_downloads/advances-of-iot/</a>
An Analysis of Privacy and Cybersecurity Concerns with the Industrial Internet of Things	<a href="http://alexispress.us/sdm_downloads/advances-of-iot/">http://alexispress.us/sdm_downloads/advances-of-iot/</a>
An Introduction to Cyber Security with Internet of Things	<a href="http://alexispress.us/sdm_downloads/advances-of-iot/">http://alexispress.us/sdm_downloads/advances-of-iot/</a>
A Development of Privacy, Security properties in Internet of Things	<a href="http://alexispress.us/sdm_downloads/advances-of-iot/">http://alexispress.us/sdm_downloads/advances-of-iot/</a>
An Evolution of Security Layers in IoT against Cyber Security	<a href="http://alexispress.us/sdm_downloads/advances-of-iot/">http://alexispress.us/sdm_downloads/advances-of-iot/</a>
An Evolution of Data Aggregation for the Internet of Things in Smart Cities	<a href="http://alexispress.us/sdm_downloads/advances-of-iot/">http://alexispress.us/sdm_downloads/advances-of-iot/</a>
An Evolution of Internet of Things Protocols in Cyber Security	<a href="http://alexispress.us/sdm_downloads/advances-of-iot/">http://alexispress.us/sdm_downloads/advances-of-iot/</a>
An Elaboration of Internet of Things Architecture for Cyber Security	<a href="http://alexispress.us/sdm_downloads/advances-of-iot/">http://alexispress.us/sdm_downloads/advances-of-iot/</a>
Customer Service Strategy in Supply Chain Management	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/">http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/</a>
Designing the Supply Chain Management Network	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/">http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/</a>
Network Model in Supply Chain Management	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/">http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/</a>
Role of IT in Supply Chain Management	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/">http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/</a>
Block chain's roles in Supply Chain Management	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/">http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/</a>
Logistics in Food Supply Chains in a Circular Economy	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/">http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/</a>
Dynamic Pricing in Supply Chain Management	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/">http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/</a>
IoT on Supply Chain Management	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/">http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/</a>
Agile Supply Chains in Supply Chain Coordination	<a href="http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/">http://alexispress.us/sdm_downloads/recent-advances-in-supply-chain-management/</a>
Role of the Stress in Organization	<a href="http://alexispress.us/sdm_downloads/organizational-behaviour/">http://alexispress.us/sdm_downloads/organizational-behaviour/</a>
Role of the Group and Team in Organization with Organizational Behaviour	<a href="http://alexispress.us/sdm_downloads/organizational-behaviour/">http://alexispress.us/sdm_downloads/organizational-behaviour/</a>
Role of Leadership in Organizations	<a href="http://alexispress.us/sdm_downloads/organizational-behaviour/">http://alexispress.us/sdm_downloads/organizational-behaviour/</a>
Organization Structure and Design with Organizational Behaviour	<a href="http://alexispress.us/sdm_downloads/organizational-behaviour/">http://alexispress.us/sdm_downloads/organizational-behaviour/</a>

Foundations of Individual Behaviour in Any Organization	<a href="http://alexispress.us/sdm_downloads/organization-al-behaviour/">http://alexispress.us/sdm_downloads/organization-al-behaviour/</a>
Role of the Conflict Management with Organizational Behaviors	<a href="http://alexispress.us/sdm_downloads/organization-al-behaviour/">http://alexispress.us/sdm_downloads/organization-al-behaviour/</a>
Work Related Attitudes, Values and Perception in Organization	<a href="http://alexispress.us/sdm_downloads/organization-al-behaviour/">http://alexispress.us/sdm_downloads/organization-al-behaviour/</a>
Role of the Power and Politics in Organization	<a href="http://alexispress.us/sdm_downloads/organization-al-behaviour/">http://alexispress.us/sdm_downloads/organization-al-behaviour/</a>
Introduction to VLSI Technology	<a href="http://alexispress.us/sdm_downloads/archives-of-vlsi-technology/">http://alexispress.us/sdm_downloads/archives-of-vlsi-technology/</a>
Hardware Development of VLSI	<a href="http://alexispress.us/sdm_downloads/archives-of-vlsi-technology/">http://alexispress.us/sdm_downloads/archives-of-vlsi-technology/</a>
Advancements in Physics-Based EM Modeling: Techniques and Applications for Characterizing Electromagnetic Phenomena	<a href="http://alexispress.us/sdm_downloads/archives-of-vlsi-technology/">http://alexispress.us/sdm_downloads/archives-of-vlsi-technology/</a>
MEMS-Based IMU for Pose Estimation	<a href="http://alexispress.us/sdm_downloads/archives-of-vlsi-technology/">http://alexispress.us/sdm_downloads/archives-of-vlsi-technology/</a>
Data Flow Verification in SOC Using Formal Techniques	<a href="http://alexispress.us/sdm_downloads/archives-of-vlsi-technology/">http://alexispress.us/sdm_downloads/archives-of-vlsi-technology/</a>
Mitigating Cyber security Risks with Intrusion Prevention Systems and Intellectual Property Protection	<a href="http://alexispress.us/sdm_downloads/archives-of-vlsi-technology/">http://alexispress.us/sdm_downloads/archives-of-vlsi-technology/</a>
Very Large-Scale Integration VLSI System	<a href="http://alexispress.us/sdm_downloads/archives-of-vlsi-technology/">http://alexispress.us/sdm_downloads/archives-of-vlsi-technology/</a>
Metal–Oxide–Semiconductor Field-Effect Transistor with a Vacuum Channel	<a href="http://alexispress.us/sdm_downloads/archives-of-vlsi-technology/">http://alexispress.us/sdm_downloads/archives-of-vlsi-technology/</a>
Microneedles Platforms	<a href="http://alexispress.us/sdm_downloads/bio-sensor-technology/">http://alexispress.us/sdm_downloads/bio-sensor-technology/</a>
Features and Application of Wearable Biosensors	<a href="http://alexispress.us/sdm_downloads/bio-sensor-technology/">http://alexispress.us/sdm_downloads/bio-sensor-technology/</a>
Wearable Trend and Monitoring Disease	<a href="http://alexispress.us/sdm_downloads/bio-sensor-technology/">http://alexispress.us/sdm_downloads/bio-sensor-technology/</a>
Wearables in Clinical Trials	<a href="http://alexispress.us/sdm_downloads/bio-sensor-technology/">http://alexispress.us/sdm_downloads/bio-sensor-technology/</a>
Use of Bio Sensor in Health Care System	<a href="http://alexispress.us/sdm_downloads/bio-sensor-technology/">http://alexispress.us/sdm_downloads/bio-sensor-technology/</a>
Field-Effect Transistor Technology Improvements in Recent Years for Infectious Diseases	<a href="http://alexispress.us/sdm_downloads/bio-sensor-technology/">http://alexispress.us/sdm_downloads/bio-sensor-technology/</a>
Modern and Innovative Bio sensing Methods	<a href="http://alexispress.us/sdm_downloads/bio-sensor-technology/">http://alexispress.us/sdm_downloads/bio-sensor-technology/</a>
Future Predictions for Bio-Information Engineering	<a href="http://alexispress.us/sdm_downloads/bio-sensor-technology/">http://alexispress.us/sdm_downloads/bio-sensor-technology/</a>
Role of Genomic Crop in the Climate Change	<a href="http://alexispress.us/sdm_downloads/plant-biotechnology/">http://alexispress.us/sdm_downloads/plant-biotechnology/</a>
Various Techniques used in Plant Biotechnology	<a href="http://alexispress.us/sdm_downloads/plant-biotechnology/">http://alexispress.us/sdm_downloads/plant-biotechnology/</a>

Post-Harvest Physiology's Contribution to Transgenic Crop Evolution	<a href="http://alexispress.us/sdm_downloads/plant-biotechnology/">http://alexispress.us/sdm_downloads/plant-biotechnology/</a>
Conservation Plant Biodiversity and Plant Biotechnology	<a href="http://alexispress.us/sdm_downloads/plant-biotechnology/">http://alexispress.us/sdm_downloads/plant-biotechnology/</a>
Plant Tissue culture	<a href="http://alexispress.us/sdm_downloads/plant-biotechnology/">http://alexispress.us/sdm_downloads/plant-biotechnology/</a>
Future Scope of Plant Biotechnology	<a href="http://alexispress.us/sdm_downloads/plant-biotechnology/">http://alexispress.us/sdm_downloads/plant-biotechnology/</a>
Agriculture Biotechnology Advances	<a href="http://alexispress.us/sdm_downloads/plant-biotechnology/">http://alexispress.us/sdm_downloads/plant-biotechnology/</a>
Challenges Faced By Plant Biotechnology in Current Scenario	<a href="http://alexispress.us/sdm_downloads/plant-biotechnology/">http://alexispress.us/sdm_downloads/plant-biotechnology/</a>

Career Progression: Promotion and Transfer Strategies	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Nurturing Talent: The Importance of Training and Development	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview about Training Methods and Its Significance	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Organizational Dynamics: Structure, Culture, and Effectiveness	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Directing Function of Management and Its Outcome	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Visualizing Structure: Unveiling Organizational Charts	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Optimizing Efficiency: Understanding Span of Control	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Transforming Traditions Cultural: Shaping the Future Together	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>

Lean Principles and Continuous Improvement: Two Pillars of the TPS	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Breaking Boundaries: Revolutionary Concepts in the TPS	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Critical and Comparative Analysis of Various Philosophies	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Lean Applicability: Continuous Process Industries	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Unleashing Efficiency: Exploring Different Kanban Types	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Mastering Quantity Control: Tactics and Essential Skills	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Unlocking Efficiency: The Significance of Lead Time	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Nurturing a Lean Culture: Fostering Continuous Improvement	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Building a Lean Culture: Cultural Aspects of Implementation	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Harmonizing Production Tools: Achieving Synchronization for Efficiency	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Leadership: The Key to Successful Implementation	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Planning and Goals: Roadway for Lean Manufacturing	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Implement Just in Time Corrective Actions	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Unveiling the Power: The Ultimate Purpose of Transparency	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Minimizing Raw Materials Variation: Strategies for Improvement	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Fostering Healthy Cultures: Fueling Business Success	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>

Unlocking Potential: The Art of Constraint Management	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Customer-Centric Supply: Synchronizing for Success	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Story of the Bravo Line: Memorable Characters	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview of Higher Inventory Level	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Exploring Lean Manufacturing Tools and Techniques	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Application of Lean in Discrete Industry: Efficiency and Development	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Overview of the Steelmaking Process and Its Significance	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Major Causes of Machine Breakdowns and Its Impact	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Study on Main Features of the Preamble	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Foundations of India's Democratic Governance System	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Causes for Indian Constitutions Extensiveness	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Fundamental Duties: Responsibilities of Citizens for Nation's Well-Being	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Difference between Fundamental Rights and Directive Principles	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview about President's Power and Position	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Presidential Authority in Times of National Emergency	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Vice-President of India: Role and Responsibilities	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>

The Role and Significance of the Rajya Sabha	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Speaker of the Lok Sabha: Responsibility and Duties	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
A Brief Introduction to Committees of Union Parliament	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Distinctive Aspects of the Political Landscape	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Political Economy of India as a Nation-State	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Governance and the Fifth Pay Commission	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Communal Identity and the Historical Context	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Indian Democracy Liberalism in its Reinvented Form	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Political Overview : Plebiscitary Democracy and Political Outcome	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
An Overview of Changing Political Parties	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Combination of Parliamentary System and Federalism	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Role of Rajya Sabha: A Think Tank and The States Voice	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Parliamentary Federalism and the Basic Structure of the Constitution	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Examines the Dynamics and Implications of Coalition Formation	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Left Front and the Assembly Elections in West Bengal Marxism Reinvented	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview to Election Machinery in Kolkata	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>

A Brief Introduction on Syndrome in Indian Politics	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Essential Concepts Shaping the Retail Industry	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Strategies for Impactful Marketing Communication Campaigns	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Theoretical Framework for Effective Retail Management	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Classification on the Basis of Products Offered	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Strategic Planning in Retailing and Its Impact	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Understanding the Strategic Framework for Retailing	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Concepts of Store Location: Key Considerations in Decisions	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
The Importance of Location to Retail Companies	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Principles, Types and Practices of Efficient Material Handling	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Principles and Fundamental Concepts of Sound Organisation	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Business Strategy: Concepts, Types and Approaches	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Store Based and Non-Store Based Retail Organization	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Exploring the World of Non-Store Retail Channels	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Store Management: Key for Successful Retail Businesses	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Operational Systems and Procedures in Retail Stores	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>

Security Issues in Retailing: Operations, Strategie and Surveillance System	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Problems Faced by Retailers in Relation to Security	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview to FDI- Trends of Retailing	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Trends of Foreign Direct Investment in India: Significance and Out come	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
World of Retailing: Recent Years Transformations	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Understanding Consumer Demands : Reference and Membership Groups	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Retailing Strategy for Setting Up Retail Organisation and Planning	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Introduction to Regional Shopping Centre Malls	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Utilizing Visual Elements for Effective Merchandising	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Advertising in Retail Sector: Promoting Products and Attracting Customers	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Human Capital Formation in India	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Comparison between Liberalism, Privatization, and Globalization	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Comparative Developmental Experiences of India and Its Neighbors	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Employment: Trends, Informational Needs and Other Concerns	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Comprehend the Significance of Infrastructure to Economic Growth	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Understanding Poverty: Exploring Different Characteristics and Dimensions	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>

Importance of Rural Development for India's Overall Growth	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
On the Evening of Independence: The Indian Economy	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Economic Evolution: Analysis of Indian Economy 1950–1990	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Sustainable Future: Balancing Development and the Environment	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Economic System: Analysis and Insights	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Exploring India's Natural Environment Resources: Renewable Energy	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview about Corrective Actions for Population Growth	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Trends in Agriculture Production and Productivity	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
India's Green Revolution: Transforming Agriculture for Growth	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Industries' Contribution to Economic Development	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Evaluation of the New Industrial Policy and Its Goal	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
An Overview and Analysis of the Indian Economy at the Time of Independence	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Analysis of New Economic Reforms: Evaluating Challenges and Impact	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Overview to Structure and Growth of the Indian Economy	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Economic Growth and Economic: New Economic Era	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Evaluation of Economic Planning: Assessing Strategic and Outcomes	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>

India's New Industrial Policy: Towards Shaping the Future	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Importance, Factors and Policy Implications of Foreign Exchange Reserves	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
World Trade Organization and its Multilateral Accords: A Review and Analysis	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Managerial Economics Structure: An Overview of Key Elements and Principles	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Managerial Economics and the Theory of Decision Making: Exploring Rationality and Optimization	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Managerial Decision Analysis Structure: A Framework for Effective Decision Making	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Managerial Economics: A Blending of Positive and Normative Science	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Approaches to Managerial Decisions Structure: Exploring Analytical and Behavioral Perspectives	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Demand Analysis Structure: Unveiling Consumer Behavior and Market Dynamics	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Market Demand Analysis Structure: Unraveling Consumer Behavior and Market Dynamics	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Market Demand Schedule Structure: Analyzing Consumer Preferences and Quantity Demanded	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Economic Slowdown Structure: Analyzing Causes and Implications	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Pricing Policy: Strategies for Profit Optimization and Market Success	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Profit Policy: Strategies for Maximizing Profitability and Sustainable Growth	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Profit Planning and Control Structure: Strategies for Financial Performance Management	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Product Development: Strategies for Innovation and Market Success	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>

Pricing Methods: Strategies for Optimal Pricing Decisions	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Pricing Throughout a Product's Life Cycle: Strategies for Market Success	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Possibilities for Market Segmentation: Enhancing Targeted Marketing Strategies	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Growth of the Knowledge Economy Structure: Nurturing Innovation and Economic Advancement	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Development Pathways and Policy Objectives: Navigating Towards Sustainable Economic Growth	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Upcoming Difficulties for a Knowledge-Based Economy: Navigating Challenges in the Digital Era	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Knowledge-Based Economy Structure: Unleashing the Power of Knowledge for Economic Transformation	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Measuring National Income Structure: Understanding the Components of a Knowledge-Based Economy	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Difficulties and Problems in Measuring National Income: Overcoming Challenges in Economic Assessment	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Skill Development: Empowering Individuals for Economic Growth and Social Progress	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Project Management: A Platform for Innovation	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Project Leadership: People before Process	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Foundation Principles of Project Management	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Agile and Waterfall: Choose a Development Process	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>

Project Initiation: Turn a Problem or Opportunity into a Business Case	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Benefits of Project Selection and Prioritization	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Engage Your Stakeholders and Win Their Cooperation	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Write the Rules: Manage Expectations and Define Success	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Planning Process	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Work Breakdown Structure Makes a Project Manageable	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Realistic Scheduling	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Manage Agile Development with Scrum	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Art and Science of Accurate Estimating	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Balance the Trade-Off among Cost, Schedule and Scope	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Managing Creative Projects: Insights from Media and Entertainment	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Build a High-Performance Project Team	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>

Build Team Relationships Based on Understanding Strengths and Diversity	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Communicate with Project Stakeholders	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Change Management: Engage Your Stakeholders to Maximize Value	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Study on Control Scope to Deliver Value	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Measure Progress	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Solve Common Project Problems	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Enterprise Project Management: Align Projects with Strategy	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Requirements: Describe the Solution Target	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Use the Quality Discipline to Hit the Target	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Introduction to Event Marketing	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Evolution of Conventions and Conferences: The Role of Associations	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Event Promotion, Advertising and Public Relations	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Electronic Event Marketing Strategies	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>

Funding the Event Marketing Program	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Marketing Association Meetings, Conferences, Events and Expositions	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Marketing Corporate Meetings, Products, Services and Events	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Marketing Festivals, Fairs, and Other Special Events	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Trends in Event Marketing	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Marketing Strategies in Event Management: Driving Success through Effective Promotion and Engagement	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Demand and Operational Planning: Optimizing Efficiency and Meeting Customer Needs	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Use of Event Marketing Management Strategies	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
An Overview on Laws of Utility: Exploring Consumer Preferences and Decision-Making	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Introduction to Strategic Marketing: Unleashing the Power of Effective Marketing Strategies	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
An Overview of the Marketing Plan: A Roadmap for Business Success	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Marketing Environment Analysis: Understanding the Factors Influencing Marketing Strategies	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Industry Attractiveness and Marketing Research: Unveiling Opportunities for Strategic Decision-Making	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Connecting with Customers: Building Strong Relationships for Business Success	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Customer Satisfaction: Nurturing Loyalty and Business Growth	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Dealing with Competition: Strategies for Thriving in a Competitive Marketplace	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>

Brands and Branding: Building Strong Identities for Business Success	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Product Strategies and Consumer Adoption Process: Navigating the Path to Successful Market Entry	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
New Product Development: Nurturing Innovation for Market Success	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
A Study on Build a Universe: Lost in The Cosmos	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Description of Astronomers of These Days	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Study on Size of the Earth: Measure of Things	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Stone-Breaker's theory of the Earth	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Introduction of Science Red Claw	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Introduction of Elemental Matters	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A New Age Dawns: Einstein's Universe	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Discovery of The Powerful Atom	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Initial Study of Cloud Formations	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>

Description of the Earth's movement	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Discussion on the Dangerous Planet	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Disaster Happens Due to The Fire	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Describe the Perilous Beauty	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Reality of Life on a Lonely Planet	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Introduction of The Troposphere	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Living in a World	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Introduction on Rise of Life	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Study on Life Will Goes On	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Basic Perspective on the End of Life	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Discussion on Natural History Museum in London	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Introduction About Cells	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>

Explanation on Darwin's Singular Notion	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Overview of Things in Life	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Study on Mysterious Biped	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Discussion on Restless Ape	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Explain the Concepts of Supply Chains	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Introduction of Value Chain	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Definition and Concept of Logistics	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Overview on Logistical Operations	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
A Brief introduction of Customer Service	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Describe a Model of Customer Satisfaction	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Demand Planning and Forecasting	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Introduction of Procurement and Sourcing Strategies	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Define the Concept of Manufacturing Strategy	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Information Functionality: The Supply Chain	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>

A description on Communication Technology	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Design of Enterprise Resource Planning (ERP) System	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Description on the Planning Inventory	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Inventory Management Policies	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Introduction of Transportation Infrastructure	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Regulations in Transportation	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Introduction of Strategic Warehousing	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Description on the Warehouse Decisions	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Packaging and Material Handling	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Introduction of Supply Chain Design	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Overview on Enterprise Facility Network	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Formulation of Logistical Strategy	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Introduction of Planning Methodology	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Supply Chain Analysis Methods and Techniques	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
A Brief Study on Supply Chain Logistics Administration	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>

  
 DIRECTOR  
 REGIONAL COLLEGE OF MANAGEMENT BANGALORE  
 Devanahalli, Bangalore

An Introduction to Basic Design Considerations of Embedded Systems	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Planning Guide for The Supply and Distribution System	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Power System Modernization and Evaluation Studies Programs	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Voltage Considerations	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Voltage Control in Electric Power Systems	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
An Investigation of Effective Voltage Selection	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Voltage Ratings for Low-Voltage Utilization Equipment	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Voltage Drop Considerations in Locating the Low-Voltage/High	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Preparing the Cost Estimation	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Estimation of Equipment and Material Cost Power	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Different Entities of the Power System	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
An Assessment of Different Light Sources	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>

An Introduction of Wiring Switching and Control Unit	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Interior lighting	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
An Evaluation of Exterior Lighting	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Utility Service for Large Building Office	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Different Types of Load Protection	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Analysis of Selection of Wire or Cable Size	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Prepare the Layout of Different Types of Light	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Cable Type and the Construction Feature	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Discussion on Site Installation Conditions	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Cable Selection Based on Current Rating	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Analysis on Feeder Load Details	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
An Assessment of Motor Load Detail	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>

Investigating Voltage Drop of The Cable	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Evolution of Electric Drives	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Classification of Electrical Drives	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Electro-Mechanical Energy Conversion	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Fixed Speed and Variable Speed Drives with DC motors	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Fixed-speed and variable-speed drives with Asynchronous Motors	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Classification of Electric Drives with Factor	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Classes of Motor Duty	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Selection of Power Rating of Motors	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
An Overview of the Electrical Machines	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
An Overview of the DC Generators	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
An Overview of the Types of DC generator	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>

An Elaboration of the DC Motors	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
An Elaboration of the Types of DC Motors	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
An Overview of the Characteristics of Series, Shunt and Compound DC Motors	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
An Overview of the Electric Braking of DC Motors	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Effect of Braking on Shunt, Series and Compound DC Motors	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
An Elaboration of the Transformers	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
An Elaboration of the Induction Motors	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
An Elaboration of the Starting of DC Motors	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
An Overview of the Synchronous Motors	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Design and Analysis of Switchyard Implementation	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Exploring Electric Clearance of the Sub-Station	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Insulation Coordinate Calculation of Equipment	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>

Design and Analysis of Outdoor Substation Layout	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Types of Bus-Bar Substation	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Role of Substation Main Equipment in Power System	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Size of Transformer Used in Power System	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Reactive Compensation Equipment	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Role of Shunt Capacitor in Power System	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Working Operation of Static Var System	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Effective Dimensions of Voltage Transformer for Switchyard	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Investigating the Dimensions of Current Transformer	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Methods of Earth's Resistance Measurement	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Investigation of Optimal Placement of Power Source in Power Systems	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Methods of Measuring Earth Loop Impedance	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>

Maintenance and Reaction Solutions for Transmission Lines	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
The Overhead Lighting for Transmission Lines	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
An analysis of Circuit Breaker Selection and Sizing	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Investigating the Roles of Control and Relay Panel	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Standard Protection Scheme for Sub-Station and Transmission Line	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Analysis of Transmission Line with a 220 KV Rating	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
An Evaluation on Choice of Cable Transmission Line	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Selection of Cable Through Current Rating	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Exploring Design Approach of the Substation Automation	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
The Cable's Capacity to Handle High Conductor Temperatures	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-MAY-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Hydroelectric Power Plant	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
An Assessment of Thermal Power Plant	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>

An Introduction of Wind Energy and its Usages	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Introduction to Nuclear Power Plant and its Advantages	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Contribution of Solar Power Plant in Electricity Generation	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
An Introduction to the Geothermal Energy	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
An Evaluation of Gas Power Plant	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Diesel Power Plant	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
An Exploration of Tidal Energy Generation and Usage	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
An Evaluation of Bio Mass-Energy Production	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
An Introduction to Diverse Renewable Energy Sources	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Classification and Key Benefits of Battery	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
An Introduction to Non-Renewable Energy	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Classifications of Different Turbines and their Applications	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JUNE-2022-SPECIAL-ISSUE.pdf</a>

An Introduction to Electric Power Distribution	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Design and Operation of the Distribution System	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Exploration of Working Operation of Transformer	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Investigating the Design of the Distributed Line	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Evaluation of Key Vulnerabilities in Power system fault	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Methods for Open Circuit Fault Identification	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Line-To-Line Fault Identification Approaches	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Analysis of Unsymmetrical Fault Identification Approaches	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
An Introduction on Relay Used in Power Systems	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Utilization of different Types of the Diode in Power Systems	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Exploration on Different Types of Relay Classifications	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
An Introduction to Importance of Load Characteristics	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>

Investigating the Key Application of the Distribution Transformer	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Design Considerations of Primary Power Distribution Systems	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Management of Voltage Drop and the Power Loss	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Investigation of Corona loss in High Voltage Transmission Line	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Role of Skin effect in Power Transmission	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Impact of Proximity effect in Power Transmission Line	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Ferranti Effect in Transmission Line	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Analysis of Variable Load on the Power System	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
An Evaluation of Electric Power Quality	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Analysis of Electricity Rates or Tariff	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
An Introduction to Switchgear and its Applications	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Classification of Diodes and their Applications	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>

An Evaluation of Transistor and its Usages	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-JULY-2022-SPECIAL-ISSUE.pdf</a>
Analysis of Accurate Circuit Load Calculation	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Investigating the methods for Cable Impedance Calculation	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Investigation of Maximum Permissible Voltage Drops	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Key Reasons of Short Circuit Temperature Rise	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Conductor Temperature Withstands Capability of the Cable	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Importance of Appropriate Selection of Housing Wire	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Electric Equipment Wiring System	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Earthing Arrangement: Major Challenges	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Polyethylene Insulated PVC Sheeted Cable	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Solar Power Installation and Maintenance	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Selection of the Low Voltage Switchgear	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>

Methods of the Lighting Protection	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Evaluating the Need for the Protection of Electrical Appliances	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
An Analysis Lighting Protection Device	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Earthed and Unearthed System	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Voltage Gradient Around Earth Electrode	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Connection of the Earth Electrode	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Earthing Arrangement for Combine Protective	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Electrical Drive Applications	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Dynamics of Electric Drive, Four Quadrant Operation, Equivalent Drive Parameters	<a href="https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf">https://tarj.in/wp-content/uploads/paper/TAJMMR-SPECIAL-ISSUE/2022/TAJMMR-AUGUST-2022-SPECIAL-ISSUE.pdf</a>
Selection and Sizing of Lighting Protection	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Earthing Configuration for Protection System	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Evaluating the Need for the Equipment's Protection	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Selection of the Bus Support Insulator	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>

Selection and the Sizing of Strain Insulator	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Role of Power Line Carrier Equipment	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Role of Earthing of the Switchyard	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Analysis and Computation for Earthing Transmission Lines	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Investigating Site Conditions of Electrical Equipment Installation	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Measuring the Earth Resistance	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Effective Methods for Switchyard Cabling	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Fire Protection Facility in Power Substation	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Role of Cable Resistance in Power System	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Distribution System's Architecture and Functioning	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Design and Analysis of Various types of Switchgear	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of DC Auxiliary Supply	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Analysis of Drop in Voltage in Power Cables	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Categories of Bus-Bar Substations	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Exploring Selection of Transmission Line Load	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Electricity Transmission Network: Design Challenges and Solutions	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>

An Assessment of External Substation Arrangement	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Analysis of Switchgear for Low Voltage	<a href="https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sajmmr/2022/SAJMMR-JANUARY-2022-SPECIAL-ISSUE.pdf</a>
Design of Solar Power Plant	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
An Assessment of Grid Connected Solar Power Plant	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Analysis of Grid Interactive Power Plant	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Investigating Net Metering Solar Power Plant	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Design and Analysis of Hybrid Solar Power Plant	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Exploring Various Government Schemes for Solar Power Panels	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Classification of Solar Radiation	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Importance of Solar Altitude in Solar Panels Installation	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Key Advantages of Tilting the Solar Module	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Investigating the Crystalline Technology for Solar Panels	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Analysis of Thin film Technology Used in Solar Panels	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
An Assessment of Bi-Facial Solar Technology	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Classification and Analysis of Crystalline Module Cell	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Exploring the PV Cell Manufacturing Process	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>

Exploring Various Section of PV Cells	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Selection of the Front and Rear Sheet of Photovoltaic (PV) Module	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Various Characteristic Solar Cell Dimensions	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Analysis of Power Characteristic of Solar Cell	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
An Assessment of Solar Inverter Classification	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Approaches to Select Diverse Inverter Classes	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Selection of Power Conditioning Unit	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Selection and Sizing of String Inverter	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Selection and Sizing of Central Inverter	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Calculation of of AC/DC Overloading Losses	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-FEBRUARY-2022-SPECIAL-ISSUE.pdf</a>
Investigating Protection Requirement of Solar Inverter	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Exploring Passive and Active Protection of Solar System	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Anti-Islanding Protection for Solar Panels	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Mounting Arrangement of String Inverter	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Grid Connected Inverter Vs Standalone Inverter	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Substation Firefighting Equipment for Power Grid	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>

Combining Series and Parallel Circuits in Solar Systems	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Role of Earthing Arrangement in PV Module	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Installation Process of Rooftop Solar Panel	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Preparation of Net Metering Solar Panel	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Preparation of Utility Scale Solar Power Plant	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Exploring Rooftop Solar Power Plant Layout	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Investigation of Single Line Diagram in Solar Systems	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
AC/DC Cabling Layout for Solar Power Plants	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Analysis of DC Block Size Layout	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Exploring Site Setup Electrical Conditions for Solar System	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Role of Cable Transmission Line in Solar System	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Investigating Methods of Overhead Transmission Line Clearance	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Solar Array Plant Layout	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MARCH-2022-SPECIAL-ISSUE.pdf</a>
Selection and Sizing of SCB/SMB for Solar Power Plant Design	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Selection of Isolator and Fuse for Solar System Design	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Classification of Energy Meter and Selection Process	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>

Selection and Sizing of Inverter Duty Transformer	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Selection and sizing of HT Switchgear for Solar Power Plant	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Methods of Selection and Sizing of Main Switchboard	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Exploring Selection and Sizing of Auxiliary Transformer for Solar Power System	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Inverter Duty Transformer, No Load and Load Loss	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Sizing of Solar Cable/DC Cable	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Derating Factor of Different Cable Used in Solar Systems	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Importance of Earthing Used in Solar Power Plant	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Design and Analysis of SLD for Solar Based Systems	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Development Challenges and Solutions of Solar Power Substation	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Designs of Different Power Transformers	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Investigating Sag and Tension Calculation Approaches	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Analysis of Construction Pole Lattice Tower	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Insulator and Fitting for Transmission Lines	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Cable Resistance in Solar Power System	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
Design and Analysis of Outdoor Substation	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>

Choice of Cable Based on Current Rating	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-APRIL-2022-SPECIAL-ISSUE.pdf</a>
An Assessment of EV Charging Station	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Classification of Electric Vehicle Components	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
EV Classification and their Electrification Level	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Electrical Vehicle Technology and Charging Equipment	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Chargers Used for Electric Vehicles	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Difference Between Slow Charging and Fast Charging	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Exploring Various On-Board Charger Specification	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Off Board Charger Specification	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Communication Between AC Charger and EV	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Dimension Selection of Charger Connector Cable	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Load Analysis of Distributed Transformer	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
An Evaluation of Voltage Drop in Cable	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Exploring Selection and Sizing of HT Equipment	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Selections and sizing of HT Cable and LT Cable	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Role of Compact Substation in Power System	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>

Preparation of EV Charger Single Line Diagram	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Design Challenges of EV Charger	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Role of PV Module Technology	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Crystalline Technology for Industrial Usages	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
An Evaluation of Thin Film Solar Panel	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-MAY-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Transformer Key Fundamentals	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Role of Transformer in Power System	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Open Circuit and Short Circuit Test of Transformer	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
An Evaluation of Transformer Voltage Regulation	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Investigating the Parallel Operation of Transformer	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Hysteresis and Eddy Loss in Transformer	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
An Analysis of Inrush Current	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Construction of Transformer Core and Winding	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Measures of Stray Loss Control in Transformer	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Analysis of Short Circuit Current in Power System	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Exploring Transmission Lines Overhead Light	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>

Analysis of Radial Forces Impact on Transformer	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Investigating the Short Circuit Test Transformer	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Selection and Sizing of LT/HT Circuit Breaker	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Analysis of Substation Automation Plan	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Short Circuit Analysis Based on Temperature Rise	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Measurement of Earth Loop Impedance	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Exploring the Role of Low voltage Switchgear	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Analysis of Maximum Permissive Voltage Drop	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Investigating the Necessities for Power System Protection	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Role of Voltage Controller in Electrical Power Systems	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Investigating Different Types of Load Protection Equipment	<a href="https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf">https://saarj.com/wp-content/uploads/special-issue/sjbir/2022/SJBIR-JUNE-2022-SPECIAL-ISSUE.pdf</a>
Components of Gears system	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-gear-system/">http://alexispress.us/sdm_downloads/fundamentals-of-gear-system/</a>
The History and Timeline of Gears	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-gear-system/">http://alexispress.us/sdm_downloads/fundamentals-of-gear-system/</a>
Analyzing the Gearbox and their Function in the Gear System	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-gear-system/">http://alexispress.us/sdm_downloads/fundamentals-of-gear-system/</a>
A Deep Analysis on the Classification of Gear Train	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-gear-system/">http://alexispress.us/sdm_downloads/fundamentals-of-gear-system/</a>
Explanation on the Gear Terminology	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-gear-system/">http://alexispress.us/sdm_downloads/fundamentals-of-gear-system/</a>
A Comprehensive Study on Gear Reducers	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-gear-system/">http://alexispress.us/sdm_downloads/fundamentals-of-gear-system/</a>
Analysis on the Gear Design for the gearbox system	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-gear-system/">http://alexispress.us/sdm_downloads/fundamentals-of-gear-system/</a>

Overview on the Importance of Worm Gear	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-gear-system/">http://alexispress.us/sdm_downloads/fundamentals-of-gear-system/</a>
Automotive Industry and Electrification	<a href="http://alexispress.us/sdm_downloads/electric-motor-drive/">http://alexispress.us/sdm_downloads/electric-motor-drive/</a>
Electrical Grid Systems	<a href="http://alexispress.us/sdm_downloads/electric-motor-drive/">http://alexispress.us/sdm_downloads/electric-motor-drive/</a>
Combustion in Si Engines	<a href="http://alexispress.us/sdm_downloads/electric-motor-drive/">http://alexispress.us/sdm_downloads/electric-motor-drive/</a>
The Resurgent Electric Powertrain	<a href="http://alexispress.us/sdm_downloads/electric-motor-drive/">http://alexispress.us/sdm_downloads/electric-motor-drive/</a>
Torque Production	<a href="http://alexispress.us/sdm_downloads/electric-motor-drive/">http://alexispress.us/sdm_downloads/electric-motor-drive/</a>
Primitive motor	<a href="http://alexispress.us/sdm_downloads/electric-motor-drive/">http://alexispress.us/sdm_downloads/electric-motor-drive/</a>
Forced and natural commutation	<a href="http://alexispress.us/sdm_downloads/electric-motor-drive/">http://alexispress.us/sdm_downloads/electric-motor-drive/</a>
Equivalent circuit	<a href="http://alexispress.us/sdm_downloads/electric-motor-drive/">http://alexispress.us/sdm_downloads/electric-motor-drive/</a>
Motional E.M.F	<a href="http://alexispress.us/sdm_downloads/electric-motor-drive/">http://alexispress.us/sdm_downloads/electric-motor-drive/</a>
D.C Motor drives	<a href="http://alexispress.us/sdm_downloads/electric-motor-drive/">http://alexispress.us/sdm_downloads/electric-motor-drive/</a>
Heating and Cooling Curves of Electrical Drives	<a href="http://alexispress.us/sdm_downloads/electric-motor-drive/">http://alexispress.us/sdm_downloads/electric-motor-drive/</a>
Introduction to Chopper	<a href="http://alexispress.us/sdm_downloads/electric-motor-drive/">http://alexispress.us/sdm_downloads/electric-motor-drive/</a>
Magnetic circuits in motors	<a href="http://alexispress.us/sdm_downloads/electric-motor-drive/">http://alexispress.us/sdm_downloads/electric-motor-drive/</a>
Power relationships conductor	<a href="http://alexispress.us/sdm_downloads/electric-motor-drive/">http://alexispress.us/sdm_downloads/electric-motor-drive/</a>
Power electronic converters for motor drives	<a href="http://alexispress.us/sdm_downloads/electric-motor-drive/">http://alexispress.us/sdm_downloads/electric-motor-drive/</a>
An Introduction to Microprocessor and Microcomputer Architecture	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/">http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/</a>
An Overview of the Addressing Modes in Instructions	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/">http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/</a>
An Elaboration of the 8085 INTERRUPTS	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/">http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/</a>
Interfacing Memory and I/O Devices With 8085	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/">http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/</a>
An Overview of INTEL 8255 Programmable Peripheral Interface	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/">http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/</a>
An Introduction of 8085 Microcontroller	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/">http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/</a>
An Overview of the Architecture of Intel 8085 Microprocessor	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/">http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/</a>
An Elaboration between Intel 8085 and Intel 8086	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/">http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/</a>

An Overview of Access Controller in Microcontroller 8257	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/">http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/</a>
An Overview of Random Access Memory in Microprocessor	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/">http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/</a>
An Analysis of Parallel Microprocessor System	<a href="http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/">http://alexispress.us/sdm_downloads/fundamentals-of-microcontroller/</a>
INTRODUCTION OF THE DISTRIBUTED SYSTEM	<a href="http://alexispress.us/sdm_downloads/distributed-system/">http://alexispress.us/sdm_downloads/distributed-system/</a>
SUPPORTING RESOURCE SHARING	<a href="http://alexispress.us/sdm_downloads/distributed-system/">http://alexispress.us/sdm_downloads/distributed-system/</a>
DEGREE OF DISTRIBUTION TRANSPARENCY	<a href="http://alexispress.us/sdm_downloads/distributed-system/">http://alexispress.us/sdm_downloads/distributed-system/</a>
SCALING TECHNIQUES	<a href="http://alexispress.us/sdm_downloads/distributed-system/">http://alexispress.us/sdm_downloads/distributed-system/</a>
AN ELABORATION OF THE CLOUD COMPUTING	<a href="http://alexispress.us/sdm_downloads/distributed-system/">http://alexispress.us/sdm_downloads/distributed-system/</a>
DISTRIBUTED TRANSACTION PROCESSING	<a href="http://alexispress.us/sdm_downloads/distributed-system/">http://alexispress.us/sdm_downloads/distributed-system/</a>
CONTEXT AWARENESS	<a href="http://alexispress.us/sdm_downloads/distributed-system/">http://alexispress.us/sdm_downloads/distributed-system/</a>
ARCHITECTURE OF DISTRIBUTED SYSTEM	<a href="http://alexispress.us/sdm_downloads/distributed-system/">http://alexispress.us/sdm_downloads/distributed-system/</a>
RESOURCE BASED ARCHITECTURES	<a href="http://alexispress.us/sdm_downloads/distributed-system/">http://alexispress.us/sdm_downloads/distributed-system/</a>
SYSTEM ARCHITECTURE	<a href="http://alexispress.us/sdm_downloads/distributed-system/">http://alexispress.us/sdm_downloads/distributed-system/</a>
THE NETWORK FILE SYSTEM	<a href="http://alexispress.us/sdm_downloads/distributed-system/">http://alexispress.us/sdm_downloads/distributed-system/</a>
AN ELABORATION OF THE PROCESS OF DISTRIBUTED SYSTEM	<a href="http://alexispress.us/sdm_downloads/distributed-system/">http://alexispress.us/sdm_downloads/distributed-system/</a>
A Comprehensive Study on Computer Graphics	<a href="http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/">http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/</a>
Overview on the Classification of Computer Graphics	<a href="http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/">http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/</a>
Analysis on the Interactive and Passive Graphics	<a href="http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/">http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/</a>
Overview on the Application of Computer Graphics	<a href="http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/">http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/</a>
An Explorative Study on the Display Processor	<a href="http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/">http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/</a>
An Overview on the Cathode Ray Tube (CRT)	<a href="http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/">http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/</a>
Analysis on the Random Scan and Raster Scan Display	<a href="http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/">http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/</a>
A Comprehensive Study on Three Dimensional Computer Graphics	<a href="http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/">http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/</a>
A Comprehensive Study on Digital Transformations	<a href="http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/">http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/</a>

Role of Input Devices in Computer System	<a href="http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/">http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/</a>
Application of Output Devices in Computer System	<a href="http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/">http://alexispress.us/sdm_downloads/recent-development-in-computer-graphics/</a>
An Introduction to Human Values and Ethics	<a href="http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/">http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/</a>
An Overview of the Significance of Virtues and Civic Virtues in Ethical Citizenship	<a href="http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/">http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/</a>
An Elaboration of the Challenges in the Work Place	<a href="http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/">http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/</a>
An Elaboration of the Engineering Ethics	<a href="http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/">http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/</a>
An Overview of the Different Characteristics Engineering Moral	<a href="http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/">http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/</a>
An Overview of the Different Theories About Right Action	<a href="http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/">http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/</a>
An Elaboration of the Engineering as Social Experimentation	<a href="http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/">http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/</a>
An Overview of the Risk Analysis in Professional Ethics	<a href="http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/">http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/</a>
An Overview of the Variety of Moral Issues	<a href="http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/">http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/</a>
An Overview of the Power of Empathy, Enhancing Relationships and Driving Success	<a href="http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/">http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/</a>
An Overview of the Work Ethics for Development Professionals	<a href="http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/">http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/</a>
An Overview of the Understanding and Maintaining Ethical Values	<a href="http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/">http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/</a>
An Analysis of the Meaning of Professionalism and Work Ethic	<a href="http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/">http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/</a>
An Elaboration of the Concepts and Concerns for Human Values	<a href="http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/">http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/</a>
An Elaboration of the Aims of the Value Education in Moral Education	<a href="http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/">http://alexispress.us/sdm_downloads/human-values-and-professional-ethics/</a>
A Brief Introduction to the Library Science	<a href="http://alexispress.us/sdm_downloads/introduction-to-library-science/">http://alexispress.us/sdm_downloads/introduction-to-library-science/</a>
Different Sections of the Library's Functions	<a href="http://alexispress.us/sdm_downloads/introduction-to-library-science/">http://alexispress.us/sdm_downloads/introduction-to-library-science/</a>
Concepts of Library Classification and Their Significance	<a href="http://alexispress.us/sdm_downloads/introduction-to-library-science/">http://alexispress.us/sdm_downloads/introduction-to-library-science/</a>
Cataloguing at the Library to Organize Books	<a href="http://alexispress.us/sdm_downloads/introduction-to-library-science/">http://alexispress.us/sdm_downloads/introduction-to-library-science/</a>
Document Processing and Record Management	<a href="http://alexispress.us/sdm_downloads/introduction-to-library-science/">http://alexispress.us/sdm_downloads/introduction-to-library-science/</a>
A Brief History of Document Categorization	<a href="http://alexispress.us/sdm_downloads/introduction-to-library-science/">http://alexispress.us/sdm_downloads/introduction-to-library-science/</a>

Characteristics of the Traditional Libraries	<a href="http://alexispress.us/sdm_downloads/introduction-to-library-science/">http://alexispress.us/sdm_downloads/introduction-to-library-science/</a>
Modern Library and Their Significance	<a href="http://alexispress.us/sdm_downloads/introduction-to-library-science/">http://alexispress.us/sdm_downloads/introduction-to-library-science/</a>
Importance of the Collection in Library	<a href="http://alexispress.us/sdm_downloads/introduction-to-library-science/">http://alexispress.us/sdm_downloads/introduction-to-library-science/</a>
Advantage of the Digital Library	<a href="http://alexispress.us/sdm_downloads/introduction-to-library-science/">http://alexispress.us/sdm_downloads/introduction-to-library-science/</a>
A Brief Overview of the Search Engine	<a href="http://alexispress.us/sdm_downloads/introduction-to-library-science/">http://alexispress.us/sdm_downloads/introduction-to-library-science/</a>
Types of the Library Materials	<a href="http://alexispress.us/sdm_downloads/introduction-to-library-science/">http://alexispress.us/sdm_downloads/introduction-to-library-science/</a>
Development of the Library's Structure	<a href="http://alexispress.us/sdm_downloads/introduction-to-library-science/">http://alexispress.us/sdm_downloads/introduction-to-library-science/</a>
Role of the Human Resource in Library Management	<a href="http://alexispress.us/sdm_downloads/introduction-to-library-science/">http://alexispress.us/sdm_downloads/introduction-to-library-science/</a>
Development of the Book Stack Method in Library	<a href="http://alexispress.us/sdm_downloads/introduction-to-library-science/">http://alexispress.us/sdm_downloads/introduction-to-library-science/</a>
A Brief Introduction to the Mass Communication	<a href="http://alexispress.us/sdm_downloads/introduction-to-mass-communication/">http://alexispress.us/sdm_downloads/introduction-to-mass-communication/</a>
An Overview of the Importance of the Communication for Society	<a href="http://alexispress.us/sdm_downloads/introduction-to-mass-communication/">http://alexispress.us/sdm_downloads/introduction-to-mass-communication/</a>
A Brief Overview of the Media Theories	<a href="http://alexispress.us/sdm_downloads/introduction-to-mass-communication/">http://alexispress.us/sdm_downloads/introduction-to-mass-communication/</a>
Influence of Media on Culture	<a href="http://alexispress.us/sdm_downloads/introduction-to-mass-communication/">http://alexispress.us/sdm_downloads/introduction-to-mass-communication/</a>
An Overview of the Convergence, Concepts, Theory and Consequence	<a href="http://alexispress.us/sdm_downloads/introduction-to-mass-communication/">http://alexispress.us/sdm_downloads/introduction-to-mass-communication/</a>
Cultural, Communication Periods and the Importance of Social Values	<a href="http://alexispress.us/sdm_downloads/introduction-to-mass-communication/">http://alexispress.us/sdm_downloads/introduction-to-mass-communication/</a>
A Quick Discussion of Media Literacy	<a href="http://alexispress.us/sdm_downloads/introduction-to-mass-communication/">http://alexispress.us/sdm_downloads/introduction-to-mass-communication/</a>
Impact of the Media on the Human Community	<a href="http://alexispress.us/sdm_downloads/introduction-to-mass-communication/">http://alexispress.us/sdm_downloads/introduction-to-mass-communication/</a>
An Elaboration Theories of Media Effects	<a href="http://alexispress.us/sdm_downloads/introduction-to-mass-communication/">http://alexispress.us/sdm_downloads/introduction-to-mass-communication/</a>
An Overview of the Methods for Investigating Media Effects	<a href="http://alexispress.us/sdm_downloads/introduction-to-mass-communication/">http://alexispress.us/sdm_downloads/introduction-to-mass-communication/</a>
An Overview of the Controversies in Mass Media Studies	<a href="http://alexispress.us/sdm_downloads/introduction-to-mass-communication/">http://alexispress.us/sdm_downloads/introduction-to-mass-communication/</a>
A Brief History of the Mass Communication	<a href="http://alexispress.us/sdm_downloads/introduction-to-mass-communication/">http://alexispress.us/sdm_downloads/introduction-to-mass-communication/</a>
Growth of the U.S. Culture in Public Eye	<a href="http://alexispress.us/sdm_downloads/introduction-to-mass-communication/">http://alexispress.us/sdm_downloads/introduction-to-mass-communication/</a>
A Brief History of Newspapers	<a href="http://alexispress.us/sdm_downloads/introduction-to-mass-communication/">http://alexispress.us/sdm_downloads/introduction-to-mass-communication/</a>
Impact of New Technology on Book Publishing	<a href="http://alexispress.us/sdm_downloads/introduction-to-mass-communication/">http://alexispress.us/sdm_downloads/introduction-to-mass-communication/</a>

Introduction to Petroleum Geology	<a href="http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/">http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/</a>
Introduction to Sedimentology	<a href="http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/">http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/</a>
A Study on Sedimentary Geochemistry	<a href="http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/">http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/</a>
Sandstones and Sandstone Reservoirs	<a href="http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/">http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/</a>
A Breif Discussion on Carbonate Sediments	<a href="http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/">http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/</a>
Shales, Silica Deposits and Evaporites	<a href="http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/">http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/</a>
A Study on Stratigraphy	<a href="http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/">http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/</a>
Sequence Stratigraphy, Seismic Stratigraphy and Basin Analysis	<a href="http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/">http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/</a>
Heat Transport in Sedimentary Basins	<a href="http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/">http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/</a>
Subsurface Water and Fluid Flow in Sedimentary Basins	<a href="http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/">http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/</a>
Introduction to Geomechanics: Stress and Strain in Sedimentary Basins	<a href="http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/">http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/</a>
Structure and Hydrocarbon Traps of Sedimentary Basins	<a href="http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/">http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/</a>
Compaction of Sedimentary Rocks Including Shales, Sandstones and Carbonates	<a href="http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/">http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/</a>
Source Rocks and Petroleum Geochemistry	<a href="http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/">http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/</a>
A Breif Discussion on Petroleum Migration	<a href="http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/">http://alexispress.us/sdm_downloads/theory-and-practices-of-petroleum-geoscience/</a>
Introduction of Managing and Performing	<a href="http://alexispress.us/sdm_downloads/basics-of-management-science/">http://alexispress.us/sdm_downloads/basics-of-management-science/</a>
An Overview of the Managerial Decision-Making	<a href="http://alexispress.us/sdm_downloads/basics-of-management-science/">http://alexispress.us/sdm_downloads/basics-of-management-science/</a>
Barriers to Effective Decision-Making	<a href="http://alexispress.us/sdm_downloads/basics-of-management-science/">http://alexispress.us/sdm_downloads/basics-of-management-science/</a>
A Brief Introduction on History of Management	<a href="http://alexispress.us/sdm_downloads/basics-of-management-science/">http://alexispress.us/sdm_downloads/basics-of-management-science/</a>
Administrative and Bureaucratic Management	<a href="http://alexispress.us/sdm_downloads/basics-of-management-science/">http://alexispress.us/sdm_downloads/basics-of-management-science/</a>
External and Internal Organizational Environments	<a href="http://alexispress.us/sdm_downloads/basics-of-management-science/">http://alexispress.us/sdm_downloads/basics-of-management-science/</a>
Ethics, Corporate Responsibility and Sustainability	<a href="http://alexispress.us/sdm_downloads/basics-of-management-science/">http://alexispress.us/sdm_downloads/basics-of-management-science/</a>

An Overview of the International Management	<a href="http://alexispress.us/sdm_downloads/basics-of-management-science/">http://alexispress.us/sdm_downloads/basics-of-management-science/</a>
A Brief Study on Necessity of Global Markets	<a href="http://alexispress.us/sdm_downloads/basics-of-management-science/">http://alexispress.us/sdm_downloads/basics-of-management-science/</a>
A Brief Study on Introduction of Entrepreneurship	<a href="http://alexispress.us/sdm_downloads/basics-of-management-science/">http://alexispress.us/sdm_downloads/basics-of-management-science/</a>
Strategic Analysis: Understanding a Firm's Competitive Environment	<a href="http://alexispress.us/sdm_downloads/basics-of-management-science/">http://alexispress.us/sdm_downloads/basics-of-management-science/</a>
Strategic Management Process: Achieving and Sustaining Competitive Advantage	<a href="http://alexispress.us/sdm_downloads/basics-of-management-science/">http://alexispress.us/sdm_downloads/basics-of-management-science/</a>
Organizational Structure and Change	<a href="http://alexispress.us/sdm_downloads/basics-of-management-science/">http://alexispress.us/sdm_downloads/basics-of-management-science/</a>
A Study on Human Resource Management	<a href="http://alexispress.us/sdm_downloads/basics-of-management-science/">http://alexispress.us/sdm_downloads/basics-of-management-science/</a>
An Overview of the Induction Motors	<a href="http://alexispress.us/sdm_downloads/basics-of-management-science/">http://alexispress.us/sdm_downloads/basics-of-management-science/</a>
An Overview on Operations Management	<a href="http://alexispress.us/sdm_downloads/fundamental-of-operations-management/">http://alexispress.us/sdm_downloads/fundamental-of-operations-management/</a>
Operations' Role: Driving Efficiency, Quality, and Innovation	<a href="http://alexispress.us/sdm_downloads/fundamental-of-operations-management/">http://alexispress.us/sdm_downloads/fundamental-of-operations-management/</a>
Evaluation of Operations Strategy: Assessing Performance and Alignment	<a href="http://alexispress.us/sdm_downloads/fundamental-of-operations-management/">http://alexispress.us/sdm_downloads/fundamental-of-operations-management/</a>
Optimizing Operations: Process and Product Service Design	<a href="http://alexispress.us/sdm_downloads/fundamental-of-operations-management/">http://alexispress.us/sdm_downloads/fundamental-of-operations-management/</a>
Design of Products and Services: From Concept to Customer Experience	<a href="http://alexispress.us/sdm_downloads/fundamental-of-operations-management/">http://alexispress.us/sdm_downloads/fundamental-of-operations-management/</a>
Design Evaluation and Improvement: Enhancing Functionality	<a href="http://alexispress.us/sdm_downloads/fundamental-of-operations-management/">http://alexispress.us/sdm_downloads/fundamental-of-operations-management/</a>
Efficiency and Excellence: Operations in Manufacturing and Services	<a href="http://alexispress.us/sdm_downloads/fundamental-of-operations-management/">http://alexispress.us/sdm_downloads/fundamental-of-operations-management/</a>
Strategic Decisions: Process and Product Design	<a href="http://alexispress.us/sdm_downloads/fundamental-of-operations-management/">http://alexispress.us/sdm_downloads/fundamental-of-operations-management/</a>
Unveiling Efficiency: Analysis of Supply Chain Management	<a href="http://alexispress.us/sdm_downloads/fundamental-of-operations-management/">http://alexispress.us/sdm_downloads/fundamental-of-operations-management/</a>
Balancing Resources: Capacity Planning and Inventory Management	<a href="http://alexispress.us/sdm_downloads/fundamental-of-operations-management/">http://alexispress.us/sdm_downloads/fundamental-of-operations-management/</a>
Location and Layout of the Building: Improving Efficiency	<a href="http://alexispress.us/sdm_downloads/fundamental-of-operations-management/">http://alexispress.us/sdm_downloads/fundamental-of-operations-management/</a>
Effective Facility Location and Layout: Ergonomics and Efficiency	<a href="http://alexispress.us/sdm_downloads/fundamental-of-operations-management/">http://alexispress.us/sdm_downloads/fundamental-of-operations-management/</a>
Streamlining Operations: Supply Chain Planning and Control	<a href="http://alexispress.us/sdm_downloads/fundamental-of-operations-management/">http://alexispress.us/sdm_downloads/fundamental-of-operations-management/</a>
Nurturing Connections: Consumer and Business Relationships	<a href="http://alexispress.us/sdm_downloads/fundamental-of-operations-management/">http://alexispress.us/sdm_downloads/fundamental-of-operations-management/</a>
Integrating Efficiency: Enterprise Resource Planning	<a href="http://alexispress.us/sdm_downloads/fundamental-of-operations-management/">http://alexispress.us/sdm_downloads/fundamental-of-operations-management/</a>

Loss of Revenues of State	<a href="http://alexispress.us/sdm_downloads/an-overview-of-company-law/">http://alexispress.us/sdm_downloads/an-overview-of-company-law/</a>
Prospectus of Private Company: A Comprehensive Review	<a href="http://alexispress.us/sdm_downloads/an-overview-of-company-law/">http://alexispress.us/sdm_downloads/an-overview-of-company-law/</a>
An Overview of Shelf Prospectus and Information Memorandum	<a href="http://alexispress.us/sdm_downloads/an-overview-of-company-law/">http://alexispress.us/sdm_downloads/an-overview-of-company-law/</a>
Building the Responsive Six Sigma Organization	<a href="http://alexispress.us/sdm_downloads/understanding-six-sigma/">http://alexispress.us/sdm_downloads/understanding-six-sigma/</a>
Implementing Six Sigma to Improve Processes	<a href="http://alexispress.us/sdm_downloads/understanding-six-sigma/">http://alexispress.us/sdm_downloads/understanding-six-sigma/</a>
Understanding Recognizing Opportunity and Its Significance	<a href="http://alexispress.us/sdm_downloads/understanding-six-sigma/">http://alexispress.us/sdm_downloads/understanding-six-sigma/</a>
A Brief Overview to Six Sigma Process Enterprise	<a href="http://alexispress.us/sdm_downloads/understanding-six-sigma/">http://alexispress.us/sdm_downloads/understanding-six-sigma/</a>
Data-Driven Management: Improving Productivity and Performance	<a href="http://alexispress.us/sdm_downloads/understanding-six-sigma/">http://alexispress.us/sdm_downloads/understanding-six-sigma/</a>
Benchmarking: Using Comparative Analysis to Drive Excellence	<a href="http://alexispress.us/sdm_downloads/understanding-six-sigma/">http://alexispress.us/sdm_downloads/understanding-six-sigma/</a>
Maximizing Resources: Efficient Allocation for Best Results	<a href="http://alexispress.us/sdm_downloads/understanding-six-sigma/">http://alexispress.us/sdm_downloads/understanding-six-sigma/</a>
Ongoing Management Support: Sustaining Success Through Guidance	<a href="http://alexispress.us/sdm_downloads/understanding-six-sigma/">http://alexispress.us/sdm_downloads/understanding-six-sigma/</a>

Project Management Using DMAIC and DMADV	<a href="http://alexispress.us/sdm_downloads/understanding-six-sigma/">http://alexispress.us/sdm_downloads/understanding-six-sigma/</a>
Understanding Six Sigma Teams: Excellence through Collaboration	<a href="http://alexispress.us/sdm_downloads/understanding-six-sigma/">http://alexispress.us/sdm_downloads/understanding-six-sigma/</a>
The Define Phase: Creating a Framework for Six Sigma	<a href="http://alexispress.us/sdm_downloads/understanding-six-sigma/">http://alexispress.us/sdm_downloads/understanding-six-sigma/</a>
Measure Phase: Performance Quantification and Analysis	<a href="http://alexispress.us/sdm_downloads/understanding-six-sigma/">http://alexispress.us/sdm_downloads/understanding-six-sigma/</a>
Process Baseline Estimates: Setting Targets for Success	<a href="http://alexispress.us/sdm_downloads/understanding-six-sigma/">http://alexispress.us/sdm_downloads/understanding-six-sigma/</a>
Central Limit Theorem: The Basis of Statistical Inference	<a href="http://alexispress.us/sdm_downloads/understanding-six-sigma/">http://alexispress.us/sdm_downloads/understanding-six-sigma/</a>
Process Behaviour Charts: Understanding Quality Trends Effectively	<a href="http://alexispress.us/sdm_downloads/understanding-six-sigma/">http://alexispress.us/sdm_downloads/understanding-six-sigma/</a>
Introduction to Transport Engineering	<a href="http://alexispress.us/sdm_downloads/transport-engineering/">http://alexispress.us/sdm_downloads/transport-engineering/</a>
A Brief Study on Highway Engineering	<a href="http://alexispress.us/sdm_downloads/transport-engineering/">http://alexispress.us/sdm_downloads/transport-engineering/</a>
A Brief Discussion on Road Geometrics	<a href="http://alexispress.us/sdm_downloads/transport-engineering/">http://alexispress.us/sdm_downloads/transport-engineering/</a>
A Brief Introduction on Highway Surveys and Plans	<a href="http://alexispress.us/sdm_downloads/transport-engineering/">http://alexispress.us/sdm_downloads/transport-engineering/</a>
A Brief Introduction on Road Pavements	<a href="http://alexispress.us/sdm_downloads/transport-engineering/">http://alexispress.us/sdm_downloads/transport-engineering/</a>
A Brief Introduction on Hill Roads	<a href="http://alexispress.us/sdm_downloads/transport-engineering/">http://alexispress.us/sdm_downloads/transport-engineering/</a>
A Brief Study on Road Drainage	<a href="http://alexispress.us/sdm_downloads/transport-engineering/">http://alexispress.us/sdm_downloads/transport-engineering/</a>
A Brief Discussion on Road Maintenance	<a href="http://alexispress.us/sdm_downloads/transport-engineering/">http://alexispress.us/sdm_downloads/transport-engineering/</a>
A Brief Discussion on Traffic Engineering	<a href="http://alexispress.us/sdm_downloads/transport-engineering/">http://alexispress.us/sdm_downloads/transport-engineering/</a>
A Brief Introduction on Construction Equipment	<a href="http://alexispress.us/sdm_downloads/transport-engineering/">http://alexispress.us/sdm_downloads/transport-engineering/</a>
A Brief Study on Roadside Arboriculture	<a href="http://alexispress.us/sdm_downloads/transport-engineering/">http://alexispress.us/sdm_downloads/transport-engineering/</a>
A Brief Study on Traffic Streams Models	<a href="http://alexispress.us/sdm_downloads/transport-engineering/">http://alexispress.us/sdm_downloads/transport-engineering/</a>
Introduction to Railway Transportation	<a href="http://alexispress.us/sdm_downloads/transport-engineering/">http://alexispress.us/sdm_downloads/transport-engineering/</a>
Alignment and Survey of Railway Track	<a href="http://alexispress.us/sdm_downloads/transport-engineering/">http://alexispress.us/sdm_downloads/transport-engineering/</a>
A Brief Study on Permanent Way of Railways	<a href="http://alexispress.us/sdm_downloads/transport-engineering/">http://alexispress.us/sdm_downloads/transport-engineering/</a>
Concept of Culture in a Business Context: Unveiling the Key to Organizational Success	<a href="http://alexispress.us/sdm_downloads/cross-cultural-business-management/">http://alexispress.us/sdm_downloads/cross-cultural-business-management/</a>

Upholding Ethical Business Practices: Fostering Trust, Sustainability, and Long-Term Success	<a href="http://alexispress.us/sdm_downloads/cross-cultural-business-management/">http://alexispress.us/sdm_downloads/cross-cultural-business-management/</a>
Exploring the Social & Cultural Environment: Unveiling its Influence on Business and Society	<a href="http://alexispress.us/sdm_downloads/cross-cultural-business-management/">http://alexispress.us/sdm_downloads/cross-cultural-business-management/</a>
Analytical Approaches to Cultural Factors: Unraveling Insights for Business Success	<a href="http://alexispress.us/sdm_downloads/cross-cultural-business-management/">http://alexispress.us/sdm_downloads/cross-cultural-business-management/</a>
Navigating the Processes of Communication Across Cultures: Building Bridges for Global Collaboration	<a href="http://alexispress.us/sdm_downloads/cross-cultural-business-management/">http://alexispress.us/sdm_downloads/cross-cultural-business-management/</a>
Building High-Performance Winning Teams Across Cultures: Unleashing the Power of Diversity and Collaboration	<a href="http://alexispress.us/sdm_downloads/cross-cultural-business-management/">http://alexispress.us/sdm_downloads/cross-cultural-business-management/</a>
Cross-Culture Negotiation: Navigating Cultural Differences for Successful Agreements	<a href="http://alexispress.us/sdm_downloads/cross-cultural-business-management/">http://alexispress.us/sdm_downloads/cross-cultural-business-management/</a>
Negotiation Process: Strategies and Techniques for Effective Decision-Making	<a href="http://alexispress.us/sdm_downloads/cross-cultural-business-management/">http://alexispress.us/sdm_downloads/cross-cultural-business-management/</a>
Mastering Negotiation Techniques: Strategies for Effective Communication and Successful Outcomes	<a href="http://alexispress.us/sdm_downloads/cross-cultural-business-management/">http://alexispress.us/sdm_downloads/cross-cultural-business-management/</a>
Decision-Making Process: Strategies for Effective Choices and Outcomes	<a href="http://alexispress.us/sdm_downloads/cross-cultural-business-management/">http://alexispress.us/sdm_downloads/cross-cultural-business-management/</a>
Strategy Formulation and Implementation: Driving Organizational Success in a Dynamic Business Landscape	<a href="http://alexispress.us/sdm_downloads/cross-cultural-business-management/">http://alexispress.us/sdm_downloads/cross-cultural-business-management/</a>
Structure & Culture in an Organizational Context: Unleashing the Power of Alignment and Collaboration	<a href="http://alexispress.us/sdm_downloads/cross-cultural-business-management/">http://alexispress.us/sdm_downloads/cross-cultural-business-management/</a>
Global Human Resource Management: Navigating the Challenges and Harnessing Opportunities	<a href="http://alexispress.us/sdm_downloads/cross-cultural-business-management/">http://alexispress.us/sdm_downloads/cross-cultural-business-management/</a>
Strategic International Human Resource Management: Maximizing Global Potential for Organizational Success	<a href="http://alexispress.us/sdm_downloads/cross-cultural-business-management/">http://alexispress.us/sdm_downloads/cross-cultural-business-management/</a>
Increasing the Competence of Current Workers: Strategies for Skill Enhancement and Professional Development	<a href="http://alexispress.us/sdm_downloads/cross-cultural-business-management/">http://alexispress.us/sdm_downloads/cross-cultural-business-management/</a>
Overview of Product Management and its Strategies	<a href="http://alexispress.us/sdm_downloads/product-and-brand-management/">http://alexispress.us/sdm_downloads/product-and-brand-management/</a>
Exploring the Scope of Product Management	<a href="http://alexispress.us/sdm_downloads/product-and-brand-management/">http://alexispress.us/sdm_downloads/product-and-brand-management/</a>
Investigating the Major Components of Marketing Planning: A Review Study	<a href="http://alexispress.us/sdm_downloads/product-and-brand-management/">http://alexispress.us/sdm_downloads/product-and-brand-management/</a>
Exploring the Primary Components and Restrictions of Competitor Analysis	<a href="http://alexispress.us/sdm_downloads/product-and-brand-management/">http://alexispress.us/sdm_downloads/product-and-brand-management/</a>

Goals of the Customer Analysis: A Comprehensive Review	<a href="http://alexispress.us/sdm_downloads/product-and-brand-management/">http://alexispress.us/sdm_downloads/product-and-brand-management/</a>
A Study of Market Potential and Sales Forecasting	<a href="http://alexispress.us/sdm_downloads/product-and-brand-management/">http://alexispress.us/sdm_downloads/product-and-brand-management/</a>
Exploring the Market Potential Analysis for Effective Market Research	<a href="http://alexispress.us/sdm_downloads/product-and-brand-management/">http://alexispress.us/sdm_downloads/product-and-brand-management/</a>
Elements of Product Strategies Development: A Review Study	<a href="http://alexispress.us/sdm_downloads/product-and-brand-management/">http://alexispress.us/sdm_downloads/product-and-brand-management/</a>
Process of New Product Development: An Overview	<a href="http://alexispress.us/sdm_downloads/product-and-brand-management/">http://alexispress.us/sdm_downloads/product-and-brand-management/</a>
Exploring the Concept of Line Extensions	<a href="http://alexispress.us/sdm_downloads/product-and-brand-management/">http://alexispress.us/sdm_downloads/product-and-brand-management/</a>
Exploring the World of Brand Extensions: A Review Study	<a href="http://alexispress.us/sdm_downloads/product-and-brand-management/">http://alexispress.us/sdm_downloads/product-and-brand-management/</a>
Cultivating Success: Key Strategies for Growing a Brand	<a href="http://alexispress.us/sdm_downloads/product-and-brand-management/">http://alexispress.us/sdm_downloads/product-and-brand-management/</a>
Unveiling the Power of Brand and Effective Brand Management	<a href="http://alexispress.us/sdm_downloads/product-and-brand-management/">http://alexispress.us/sdm_downloads/product-and-brand-management/</a>
Understanding Brand Equity: Definition, Importance, and Strategies	<a href="http://alexispress.us/sdm_downloads/product-and-brand-management/">http://alexispress.us/sdm_downloads/product-and-brand-management/</a>
The Power of Brand Recognition: Definition, Importance, and Strategies	<a href="http://alexispress.us/sdm_downloads/product-and-brand-management/">http://alexispress.us/sdm_downloads/product-and-brand-management/</a>
An Introduction to Construction Estimating and Application	<a href="http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/">http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/</a>
Basic Introduction to Estimates, Labour Sources and Cost of Labour	<a href="http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/">http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/</a>
Basic Approach on Construction Planning and Scheduling	<a href="http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/">http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/</a>
Maximizing Efficiency: Boosting Equipment Productivity	<a href="http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/">http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/</a>
Managing Contracts: Handling Claims Effectively	<a href="http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/">http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/</a>
Understanding Contracts: Site Conditions and Interpretation	<a href="http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/">http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/</a>
Automating Construction: Enhancing Efficiency and Application	<a href="http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/">http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/</a>
Unlocking Value: Effective Improvement Methods	<a href="http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/">http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/</a>

Water and Wastewater Planning: Sustainable Resource Management	<a href="http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/">http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/</a>
Chemical Treatment for Water and Wastewater	<a href="http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/">http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/</a>
A Brief Overview to Biological Wastewater Treatment Processes	<a href="http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/">http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/</a>
Air Pollution: Understanding its Adverse Impacts	<a href="http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/">http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/</a>
Basic Introduction of Concrete and Its Application	<a href="http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/">http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/</a>
Curing and Diverse Concrete Types: Properties Explored	<a href="http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/">http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/</a>
Civil Engineering: Building the World's Infrastructure	<a href="http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/">http://alexispress.us/sdm_downloads/an-archive-of-estimating-and-costing-in-civil-engineering/</a>
Historical and Philosophical Bases of the Cognitive Behavioral Therapies	<a href="http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/">http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/</a>
Introduction to Cognitive Behavior Therapy	<a href="http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/">http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/</a>
A Brief Study on Treatment	<a href="http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/">http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/</a>
A Brief Discussion on Cognitive Conceptualization	<a href="http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/">http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/</a>
A Brief Discussion on Evaluation Session	<a href="http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/">http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/</a>
A Study on Structure of the First Therapy Session	<a href="http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/">http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/</a>
A Brief Discussion on Behavioral Activation	<a href="http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/">http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/</a>
A Study on Session 2 and Beyond: Structure and Format	<a href="http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/">http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/</a>
A Brief Study on Recognizing Problematic Thinking Patterns	<a href="http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/">http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/</a>
A Brief Study on Identifying Automatic Thoughts and Emotions	<a href="http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/">http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/</a>
A Brief Discussion on Evaluating and Responding to Automatic Thoughts	<a href="http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/">http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/</a>
Identifying and Modifying Intermediate and Core Beliefs	<a href="http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/">http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/</a>
A Brief Study on Additional Cognitive and Behavioral Techniques	<a href="http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/">http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/</a>

A Brief Study on Termination and Relapse Prevention	<a href="http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/">http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/</a>
A Brief Discussion on Treatment Planning	<a href="http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/">http://alexispress.us/sdm_downloads/cognitive-behavior-therapy/</a>
Introduction to Human Rights: Understanding the Fundamentals	<a href="http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/">http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/</a>
Universality of Human Rights: Embracing the Global Framework	<a href="http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/">http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/</a>
Decisions of Supervisory Organs: Understanding their Impact and Implications	<a href="http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/">http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/</a>
Human Rights Treaties: Enhancing International Protection and Promotion	<a href="http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/">http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/</a>
Determination of Effectiveness in Human Rights	<a href="http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/">http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/</a>
United Nations Specialized Agencies and Human Rights	<a href="http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/">http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/</a>
A Brief Study on European Committee for The Prevention of Torture	<a href="http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/">http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/</a>
Importance of Substantive Human Rights	<a href="http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/">http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/</a>
A Study on Rights to freedom of Expression and Religion	<a href="http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/">http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/</a>
A Brief Discussion on Rights to Integrity	<a href="http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/">http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/</a>
Positive Obligations Arising from the Right to Life	<a href="http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/">http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/</a>
A Brief Discussion on Rights to Liberty	<a href="http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/">http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/</a>
A Brief Explanation on Rights to Privacy and Family Life	<a href="http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/">http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/</a>
A Brief Discussion on Labour Related Rights	<a href="http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/">http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/</a>
A Brief Discussion on Right to Health	<a href="http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/">http://alexispress.us/sdm_downloads/human-rights-in-a-global-age/</a>
A Comprehensive Exploration of Cyber Security: Safeguarding Digital Systems and Data	<a href="http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf">http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf</a>
Securing Digital Landscapes: Navigating Cybersecurity Risk Management and Governance	<a href="http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf">http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf</a>
Guarding the Digital Realm: Exploring Cybersecurity Defenses and Offenses	<a href="http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf">http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf</a>
Fortifying the Digital Infrastructure: Ensuring Robust System Security	<a href="http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf">http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf</a>

Shielding Software Platforms: Safeguarding the Integrity of Digital Systems	<a href="http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf">http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf</a>
Protecting the Digital Foundation: Safeguarding Infrastructure Security in Cybersecurity	<a href="http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf">http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf</a>
Unveiling the Framework: Exploring the Fundamentals of Law and Legal Research Principles	<a href="http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf">http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf</a>
Navigating Cybersecurity Borders: Exploring Jurisdictional Challenges in the Digital Realm	<a href="http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf">http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf</a>
Preserving Privacy in the Digital Age: Unravelling General Privacy Rules and Electronic Interpretation in Cybersecurity	<a href="http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf">http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf</a>
Decoding Malicious Software: Exploring the Taxonomy of Malware Variants	<a href="http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf">http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf</a>
Safeguarding Against Digital Threats: Exploring the Intersection of Cybersecurity and Computer Crime	<a href="http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf">http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf</a>
Preserving Innovation and Creativity: Safeguarding Intellectual Property in the Digital Landscape	<a href="http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf">http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf</a>
Unravelling Digital Threats: Exploring the Field of Malware Analysis for Enhanced Cybersecurity	<a href="http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf">http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf</a>
Conducting a Comprehensive Investigation for Malware Detection	<a href="http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf">http://alexispress.us/wp-content/uploads/2022/07/Exploring-the-Context-of-Cyber-Security.pdf</a>
Introduction to Artificial Intelligence: Fundamentals and Applications	<a href="http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf">http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf</a>
History of Artificial Intelligence: An Overview	<a href="http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf">http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf</a>
Autonomous Intelligent Agents: Exploring the Intersection of Autonomy and AI	<a href="http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf">http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf</a>
Exploring Problem-Solving Search Algorithms in AI	<a href="http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf">http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf</a>
Exploring the Artificial Intelligence: Tools and Technology	<a href="http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf">http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf</a>
Artificial Intelligence: Logic and Planning Towards Problem Solving	<a href="http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf">http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf</a>

Knowledge and Reasoning Without Certainty: An Analysis	<a href="http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf">http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf</a>
Understanding of Artificial Intelligence Learning	<a href="http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf">http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf</a>
An Overview of Natural Language Processing	<a href="http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf">http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf</a>
Exploring The Future of Artificial Intelligence	<a href="http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf">http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf</a>
A Comprehensive Review of Reinforcement Learning	<a href="http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf">http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf</a>
Optimization of Beyond Classical Search: A Review Study	<a href="http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf">http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf</a>
Adversarial Search: A Comprehensive Overview of Strategies and Techniques for Competitive Decision-Making	<a href="http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf">http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf</a>
Constraints Satisfaction Problem (CSP): Understanding the Fundamentals and Solving Techniques for Efficient Constraint-Based Decision Making	<a href="http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf">http://alexispress.us/wp-content/uploads/2022/07/Aligning-Trends-of-Artificial-Intelligence.pdf</a>
Analysing the Financial Statements: A Review Study	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf</a>
An Overview of Accounts and Balances	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf</a>
Asset, Liability and Stockholders' Equity Accounts	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf</a>
Accounting Cycle for the Service Business Accrual Basis	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf</a>
Accounting Cycle for a Merchandising Business	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf</a>
Understanding Assets Roles in Accounting: A Review Study	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf</a>
Accounting Concepts, Principles and Conventions	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf</a>

An Overview of Accounting Terminology Glossary	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf</a>
Capital, Revenue Expenditures and Receipts: An Overview	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf</a>
Contingent Assets and Contingent Liabilities: A Review Study	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf</a>
Accounting as a Measurement Discipline: Exploring Valuation Principles and Accounting Estimates	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf</a>
A Comprehensive Review of Indian Accounting Standards	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf</a>
Exploring the Basic Accounting Procedures: Journal Entries	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf</a>
Importance of Understanding a Cash Book	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf</a>
An Analysis of Bank Reconciliation Statement	<a href="http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf">http://alexispress.us/wp-content/uploads/2022/07/Principles-of-Financial-Accounting.pdf</a>
Fortifying the Digital Bastion: An Overview of Computer System Security	<a href="http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf">http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf</a>
Shielding Secrets: Exploring Cryptographic Tools for Secure Communication and Data Protection	<a href="http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf">http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf</a>
Exploring User Authentication for Secure System Authorization	<a href="http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf">http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf</a>
Access Control for Secure System Authorization	<a href="http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf">http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf</a>
Exploring Database and Cloud Security	<a href="http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf">http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf</a>
Combatting Digital Threats: Understanding Malicious Software	<a href="http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf">http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf</a>
Understanding Denial-of-Service Attacks	<a href="http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf">http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf</a>
A Brief Discussion on Diving into Intrusion Detection	<a href="http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf">http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf</a>

Exploring Firewalls and Intrusion Prevention Systems	<a href="http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf">http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf</a>
A Brief Study on Buffer Overflow	<a href="http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf">http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf</a>
Securing the Digital Frontier: Exploring Software Security	<a href="http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf">http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf</a>
Overview of Operating System Security	<a href="http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf">http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf</a>
Trusted Computing and Multilevel Security	<a href="http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf">http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf</a>
A Brief Study on Security Management and Risk Assessment	<a href="http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf">http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf</a>
A Study on IT Security Controls, Plans and Procedures	<a href="http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf">http://alexispress.us/wp-content/uploads/2022/07/Computer-System-Security-Principles-and-Practice.pdf</a>
An Introduction to Microeconomics and Economy Problem	<a href="http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/">http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/</a>
Analysis of Consumer Behavior and Law of Demand	<a href="http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/">http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/</a>
Determination of Elasticity of Demand in the Field of Economics	<a href="http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/">http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/</a>
Theory of Production and Concept of Costs Maximization	<a href="http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/">http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/</a>
An Overview of The Concepts of Revenue Structure	<a href="http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/">http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/</a>
An Overview of the Forms of Market and Price Determination	<a href="http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/">http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/</a>
Concept of Factor Price Determination: An Analysis	<a href="http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/">http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/</a>
Factor Prices, Comparative Advantages and International Trade	<a href="http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/">http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/</a>
Investigating to Role of Macroeconomics: A Comparative Study	<a href="http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/">http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/</a>
Measurement of National Income: An Overview	<a href="http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/">http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/</a>
Aggregate Demand, Supply and Determination of Income and Employment	<a href="http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/">http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/</a>
An Overview of the Concept of Multiplier and Specifications	<a href="http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/">http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/</a>
An Overview of the Money-Meaning and Function	<a href="http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/">http://alexispress.us/sdm_downloads/concept-of-economics-and-finance/</a>

An Exploration of the Banking and their System	<a href="http://alexispress.us/sdm_downloads/rethinking-of-economics/">http://alexispress.us/sdm_downloads/rethinking-of-economics/</a>
Government Budget Meaning and Its Components	<a href="http://alexispress.us/sdm_downloads/rethinking-of-economics/">http://alexispress.us/sdm_downloads/rethinking-of-economics/</a>
Foreign Exchange Rate Foreign Exchange Rate Meaning and Determination	<a href="http://alexispress.us/sdm_downloads/rethinking-of-economics/">http://alexispress.us/sdm_downloads/rethinking-of-economics/</a>
Balance Of Payments Account Meaning and Components	<a href="http://alexispress.us/sdm_downloads/rethinking-of-economics/">http://alexispress.us/sdm_downloads/rethinking-of-economics/</a>
An Overview of the National Income and Its Specification	<a href="http://alexispress.us/sdm_downloads/rethinking-of-economics/">http://alexispress.us/sdm_downloads/rethinking-of-economics/</a>
An Overview of the Money and their use in Indian Economy	<a href="http://alexispress.us/sdm_downloads/rethinking-of-economics/">http://alexispress.us/sdm_downloads/rethinking-of-economics/</a>
An Overview of The Indian Economy and its Roles	<a href="http://alexispress.us/sdm_downloads/rethinking-of-economics/">http://alexispress.us/sdm_downloads/rethinking-of-economics/</a>
Important Characteristics of Indian Economy	<a href="http://alexispress.us/sdm_downloads/rethinking-of-economics/">http://alexispress.us/sdm_downloads/rethinking-of-economics/</a>
Evolution of Management Theory and Its Progress	<a href="http://alexispress.us/sdm_downloads/rethinking-of-economics/">http://alexispress.us/sdm_downloads/rethinking-of-economics/</a>
An Overview of the Management Process and Managerial Issues in Economics	<a href="http://alexispress.us/sdm_downloads/rethinking-of-economics/">http://alexispress.us/sdm_downloads/rethinking-of-economics/</a>
An Expiration of the Leadership and Motivation	<a href="http://alexispress.us/sdm_downloads/rethinking-of-economics/">http://alexispress.us/sdm_downloads/rethinking-of-economics/</a>
An Elaboration of the Group Dynamics Behaviours	<a href="http://alexispress.us/sdm_downloads/rethinking-of-economics/">http://alexispress.us/sdm_downloads/rethinking-of-economics/</a>
Problems And Need for Waste Recycling	<a href="http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf">http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf</a>
Feasibility and Social Acceptance of Waste Recycling	<a href="http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf">http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf</a>
Pollution Caused by Human Wastes and Other Wastewaters	<a href="http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf">http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf</a>
Objectives, Benefits and Limitations of Composting	<a href="http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf">http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf</a>
A Comprehensive Overview: Analysis of Composting Maturity	<a href="http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf">http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf</a>
A Comprehensive Overview: Fertilizer and Soil Conditioner	<a href="http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf">http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf</a>
Environmental Requirements For Anaerobic Digestion	<a href="http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf">http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf</a>

A Comprehensive Overview: Organic Waste Recovery in Urban Areas	<a href="http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf">http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf</a>
Objectives, Benefits and Limitations: Ethanol Production	<a href="http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf">http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf</a>
Understanding the Importance of Planning and Organization	<a href="http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf">http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf</a>
A Comprehensive Overview: Particle Size and Structural Support	<a href="http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf">http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf</a>
Maximizing the Utilization of Composted Products: From Waste to Resource	<a href="http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf">http://alexispress.us/wp-content/uploads/2022/07/Organic-Waste-Recycling.pdf</a>
Biogas Digesters: Modes and Types Explained	<a href="http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf">http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf</a>
Unlocking the Potential: End Uses of Biogas and Digested Slurry	<a href="http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf">http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf</a>
Enhancing Workforce Skills: The Micros Training Program	<a href="http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf">http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf</a>
A Brief Overview about Composting Process	<a href="http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf">http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf</a>
Benefits of Diverting Organic Waste from Landfills	<a href="http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf">http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf</a>
Biodegradable Waste: A Global Concern and Sustainable Solutions	<a href="http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf">http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf</a>
Food Waste Segregation: A Key Step towards Sustainable Resource	<a href="http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf">http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf</a>
Sustainable Waste Management Systems: Quantities and Characteristics	<a href="http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf">http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf</a>
Objectives of Regional Solid Waste Management Plans	<a href="http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf">http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf</a>
Technological Society: Waste Generation and Management	<a href="http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf">http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf</a>
Organic Waste Management: Sustainable Strategies for Effective Utilization	<a href="http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf">http://alexispress.us/wp-content/uploads/2022/07/Advanced-Waste-Management-Sustainable-Practices.pdf</a>

Classification and Selection of Materials	<a href="http://alexispress.us/sdm_downloads/an-overview-on-material-science/">http://alexispress.us/sdm_downloads/an-overview-on-material-science/</a>
Atomic Structure and Electronic Configuration	<a href="http://alexispress.us/sdm_downloads/an-overview-on-material-science/">http://alexispress.us/sdm_downloads/an-overview-on-material-science/</a>
Applications of Crystal Geometry, Structure and Defects	<a href="http://alexispress.us/sdm_downloads/an-overview-on-material-science/">http://alexispress.us/sdm_downloads/an-overview-on-material-science/</a>
Exploring the of Defects or Imperfections in Crystals	<a href="http://alexispress.us/sdm_downloads/an-overview-on-material-science/">http://alexispress.us/sdm_downloads/an-overview-on-material-science/</a>
Features of An Overview of the Bonds in Solids	<a href="http://alexispress.us/sdm_downloads/an-overview-on-material-science/">http://alexispress.us/sdm_downloads/an-overview-on-material-science/</a>
An Elaboration of Electron Theory of Metals	<a href="http://alexispress.us/sdm_downloads/an-overview-on-material-science/">http://alexispress.us/sdm_downloads/an-overview-on-material-science/</a>
An Elaboration of the Photoelectric Effect	<a href="http://alexispress.us/sdm_downloads/an-overview-on-material-science/">http://alexispress.us/sdm_downloads/an-overview-on-material-science/</a>
An Exploration of the Diffusion in Solids	<a href="http://alexispress.us/sdm_downloads/an-overview-on-material-science/">http://alexispress.us/sdm_downloads/an-overview-on-material-science/</a>
Mechanical Properties of Materials and Mechanical Tests	<a href="http://alexispress.us/sdm_downloads/an-overview-on-material-science/">http://alexispress.us/sdm_downloads/an-overview-on-material-science/</a>
Alloy Systems, Phase Diagrams and Phase Transformations	<a href="http://alexispress.us/sdm_downloads/an-overview-on-material-science/">http://alexispress.us/sdm_downloads/an-overview-on-material-science/</a>
An Overview of the Heat Treatment	<a href="http://alexispress.us/sdm_downloads/an-overview-on-material-science/">http://alexispress.us/sdm_downloads/an-overview-on-material-science/</a>
Application of the Deformation of Materials	<a href="http://alexispress.us/sdm_downloads/materials-science-and-engineering/">http://alexispress.us/sdm_downloads/materials-science-and-engineering/</a>
An Analysis of the Oxidation and Corrosion	<a href="http://alexispress.us/sdm_downloads/materials-science-and-engineering/">http://alexispress.us/sdm_downloads/materials-science-and-engineering/</a>
Features of Thermal and Optical Properties of Materials	<a href="http://alexispress.us/sdm_downloads/materials-science-and-engineering/">http://alexispress.us/sdm_downloads/materials-science-and-engineering/</a>
Electrical and Magnetic Properties of Materials	<a href="http://alexispress.us/sdm_downloads/materials-science-and-engineering/">http://alexispress.us/sdm_downloads/materials-science-and-engineering/</a>
Applications of An Overview of the Semi-Conductors	<a href="http://alexispress.us/sdm_downloads/materials-science-and-engineering/">http://alexispress.us/sdm_downloads/materials-science-and-engineering/</a>
Applications of Superconductivity and Superconducting Materials	<a href="http://alexispress.us/sdm_downloads/materials-science-and-engineering/">http://alexispress.us/sdm_downloads/materials-science-and-engineering/</a>
Exploring the Organic Materials: Polymers and Elastomers	<a href="http://alexispress.us/sdm_downloads/materials-science-and-engineering/">http://alexispress.us/sdm_downloads/materials-science-and-engineering/</a>
Exploring the Features of Composites: A Comprehensive Review	<a href="http://alexispress.us/sdm_downloads/materials-science-and-engineering/">http://alexispress.us/sdm_downloads/materials-science-and-engineering/</a>
Applications of an Overview of the Nanostructured Materials	<a href="http://alexispress.us/sdm_downloads/materials-science-and-engineering/">http://alexispress.us/sdm_downloads/materials-science-and-engineering/</a>
Applications of an Elaboration of Mechanical Properties of Metals	<a href="http://alexispress.us/sdm_downloads/materials-science-and-engineering/">http://alexispress.us/sdm_downloads/materials-science-and-engineering/</a>
Exploration of the Failure Analysis in Material Science	<a href="http://alexispress.us/sdm_downloads/materials-science-and-engineering/">http://alexispress.us/sdm_downloads/materials-science-and-engineering/</a>
A Brief Study on Nature of Management	<a href="http://alexispress.us/sdm_downloads/principles-of-management/">http://alexispress.us/sdm_downloads/principles-of-management/</a>
Management the Process: Planning, Organizing, and Directing	<a href="http://alexispress.us/sdm_downloads/principles-of-management/">http://alexispress.us/sdm_downloads/principles-of-management/</a>

Evolution of Management: Theories and Techniques	<a href="http://alexispress.us/sdm_downloads/principles-of-management/">http://alexispress.us/sdm_downloads/principles-of-management/</a>
A Comprehensive Overview: Functions of Management Planning	<a href="http://alexispress.us/sdm_downloads/principles-of-management/">http://alexispress.us/sdm_downloads/principles-of-management/</a>
Forecasting Importance in Operational Management	<a href="http://alexispress.us/sdm_downloads/principles-of-management/">http://alexispress.us/sdm_downloads/principles-of-management/</a>
Difference Between Management and Administration	<a href="http://alexispress.us/sdm_downloads/principles-of-management/">http://alexispress.us/sdm_downloads/principles-of-management/</a>
Organizing: Management of Marketing, Finance, and Human Resources	<a href="http://alexispress.us/sdm_downloads/principles-of-management/">http://alexispress.us/sdm_downloads/principles-of-management/</a>
Categories of Departmentation and their Responsibilities	<a href="http://alexispress.us/sdm_downloads/principles-of-management/">http://alexispress.us/sdm_downloads/principles-of-management/</a>
Development of Management Thoughts: Organization System	<a href="http://alexispress.us/sdm_downloads/principles-of-management/">http://alexispress.us/sdm_downloads/principles-of-management/</a>
Environmental Management: Social Responsibility and Business Ethics	<a href="http://alexispress.us/sdm_downloads/principles-of-management/">http://alexispress.us/sdm_downloads/principles-of-management/</a>
Management: Objectives, Planning and Controlling Methods	<a href="http://alexispress.us/sdm_downloads/principles-of-management/">http://alexispress.us/sdm_downloads/principles-of-management/</a>
A Brief Overview about Organization and Its Frame Work	<a href="http://alexispress.us/sdm_downloads/principles-of-management/">http://alexispress.us/sdm_downloads/principles-of-management/</a>
Exploring the Organizational Structure and Its Components	<a href="http://alexispress.us/sdm_downloads/functions-of-management-technology/">http://alexispress.us/sdm_downloads/functions-of-management-technology/</a>
Delegation of Authority: Principle, Types and Order	<a href="http://alexispress.us/sdm_downloads/functions-of-management-technology/">http://alexispress.us/sdm_downloads/functions-of-management-technology/</a>
A Brief History of Span Management	<a href="http://alexispress.us/sdm_downloads/functions-of-management-technology/">http://alexispress.us/sdm_downloads/functions-of-management-technology/</a>
Management Control: Principles, Categories, and Approaches	<a href="http://alexispress.us/sdm_downloads/functions-of-management-technology/">http://alexispress.us/sdm_downloads/functions-of-management-technology/</a>
Coordination Management: Nature and Significance	<a href="http://alexispress.us/sdm_downloads/functions-of-management-technology/">http://alexispress.us/sdm_downloads/functions-of-management-technology/</a>
Total Quality Management and Quality Circles	<a href="http://alexispress.us/sdm_downloads/functions-of-management-technology/">http://alexispress.us/sdm_downloads/functions-of-management-technology/</a>
Ethics, Corporate Responsibility and Sustainability	<a href="http://alexispress.us/sdm_downloads/functions-of-management-technology/">http://alexispress.us/sdm_downloads/functions-of-management-technology/</a>
A Brief Overview about International Management	<a href="http://alexispress.us/sdm_downloads/functions-of-management-technology/">http://alexispress.us/sdm_downloads/functions-of-management-technology/</a>
A Holistic Overview of Entrepreneurship and Its Management	<a href="http://alexispress.us/sdm_downloads/functions-of-management-technology/">http://alexispress.us/sdm_downloads/functions-of-management-technology/</a>
Strategic Analysis: Understanding a Firm's Competitive Environment	<a href="http://alexispress.us/sdm_downloads/functions-of-management-technology/">http://alexispress.us/sdm_downloads/functions-of-management-technology/</a>
Strategic Management Process: Achieving and Sustaining Competitive Advantage	<a href="http://alexispress.us/sdm_downloads/functions-of-management-technology/">http://alexispress.us/sdm_downloads/functions-of-management-technology/</a>
Educational Quality Management: A Comprehensive Framework for Effective Implementation	<a href="http://alexispress.us/sdm_downloads/educational-quality-management/">http://alexispress.us/sdm_downloads/educational-quality-management/</a>
Evolution of Quality in Education: Advancements and Challenges	<a href="http://alexispress.us/sdm_downloads/educational-quality-management/">http://alexispress.us/sdm_downloads/educational-quality-management/</a>

Total Quality Management in Education: Implementation and Impact	<a href="http://alexispress.us/sdm_downloads/educational-quality-management/">http://alexispress.us/sdm_downloads/educational-quality-management/</a>
Writers' Philosophy: Exploring Educational Quality Management	<a href="http://alexispress.us/sdm_downloads/educational-quality-management/">http://alexispress.us/sdm_downloads/educational-quality-management/</a>
A Comprehensive Overview: Organization Management in Education System	<a href="http://alexispress.us/sdm_downloads/educational-quality-management/">http://alexispress.us/sdm_downloads/educational-quality-management/</a>
Power of Teamwork in Education: Fostering Collaboration for Success	<a href="http://alexispress.us/sdm_downloads/educational-quality-management/">http://alexispress.us/sdm_downloads/educational-quality-management/</a>
Integrity Tools for Effective Educational Management	<a href="http://alexispress.us/sdm_downloads/educational-quality-management/">http://alexispress.us/sdm_downloads/educational-quality-management/</a>
A Comprehensive Overview: Measurement of Educational Quality	<a href="http://alexispress.us/sdm_downloads/educational-quality-management/">http://alexispress.us/sdm_downloads/educational-quality-management/</a>
Costs of Prevention and Failure: Impact on Quality in Education	<a href="http://alexispress.us/sdm_downloads/educational-quality-management/">http://alexispress.us/sdm_downloads/educational-quality-management/</a>
Evolution and Analysis of Components: Quality Framework	<a href="http://alexispress.us/sdm_downloads/educational-quality-management/">http://alexispress.us/sdm_downloads/educational-quality-management/</a>
Impact of Educational Management: Significance and Influence in Education	<a href="http://alexispress.us/sdm_downloads/total-quality-management-in-education/">http://alexispress.us/sdm_downloads/total-quality-management-in-education/</a>
Analysis of Management at Different Levels- Elementary	<a href="http://alexispress.us/sdm_downloads/total-quality-management-in-education/">http://alexispress.us/sdm_downloads/total-quality-management-in-education/</a>
SWOT Analysis: Concept and Process	<a href="http://alexispress.us/sdm_downloads/total-quality-management-in-education/">http://alexispress.us/sdm_downloads/total-quality-management-in-education/</a>
Analysis of Education Administration: Roles, Functions, and Impact	<a href="http://alexispress.us/sdm_downloads/total-quality-management-in-education/">http://alexispress.us/sdm_downloads/total-quality-management-in-education/</a>
Analysis and Evolution of Organizational Competence	<a href="http://alexispress.us/sdm_downloads/total-quality-management-in-education/">http://alexispress.us/sdm_downloads/total-quality-management-in-education/</a>
Educational Leadership: Meaning, Scope, Importance and Styles	<a href="http://alexispress.us/sdm_downloads/total-quality-management-in-education/">http://alexispress.us/sdm_downloads/total-quality-management-in-education/</a>
Theories of Motivation: Understanding the Drivers of Human Behavior	<a href="http://alexispress.us/sdm_downloads/total-quality-management-in-education/">http://alexispress.us/sdm_downloads/total-quality-management-in-education/</a>
Impact of Motivation on Educational Management: Motivating the Employees	<a href="http://alexispress.us/sdm_downloads/total-quality-management-in-education/">http://alexispress.us/sdm_downloads/total-quality-management-in-education/</a>
A Comprehensive Overview: Key Aspects of Educational Management	<a href="http://alexispress.us/sdm_downloads/total-quality-management-in-education/">http://alexispress.us/sdm_downloads/total-quality-management-in-education/</a>
A Comprehensive Overview: Trainable Leadership Skills	<a href="http://alexispress.us/sdm_downloads/total-quality-management-in-education/">http://alexispress.us/sdm_downloads/total-quality-management-in-education/</a>
A Brief Overview of Institutionalization and Professionalization in Health Care Management	<a href="http://alexispress.us/sdm_downloads/health-care-management/">http://alexispress.us/sdm_downloads/health-care-management/</a>
A New Lens on Organizational Innovations in Health Care	<a href="http://alexispress.us/sdm_downloads/health-care-management/">http://alexispress.us/sdm_downloads/health-care-management/</a>
Describe Narratives of Health Policy	<a href="http://alexispress.us/sdm_downloads/health-care-management/">http://alexispress.us/sdm_downloads/health-care-management/</a>

A Comprehensive Overview about Measurement Theme	<a href="http://alexispress.us/sdm_downloads/health-care-management/">http://alexispress.us/sdm_downloads/health-care-management/</a>
Importance of Culture in Health Care Organizations	<a href="http://alexispress.us/sdm_downloads/health-care-management/">http://alexispress.us/sdm_downloads/health-care-management/</a>
A Comprehensive Overview: Critical Health Care Management Domain	<a href="http://alexispress.us/sdm_downloads/health-care-management/">http://alexispress.us/sdm_downloads/health-care-management/</a>
Critical Management Studies: Building Critical Health Management System	<a href="http://alexispress.us/sdm_downloads/health-care-management/">http://alexispress.us/sdm_downloads/health-care-management/</a>
A Comprehensive Overview: Re-humanizing Health Care	<a href="http://alexispress.us/sdm_downloads/health-care-management/">http://alexispress.us/sdm_downloads/health-care-management/</a>
Patient-Cantered Care from the Patient Perspective	<a href="http://alexispress.us/sdm_downloads/health-care-management/">http://alexispress.us/sdm_downloads/health-care-management/</a>
Clinical Ethics Support in Contemporary Health Care	<a href="http://alexispress.us/sdm_downloads/health-care-management/">http://alexispress.us/sdm_downloads/health-care-management/</a>
Professional Boundaries: Inter Professional Interactions and Their Impact	<a href="http://alexispress.us/sdm_downloads/health-care-management/">http://alexispress.us/sdm_downloads/health-care-management/</a>
A Comprehensive Overview: Leadership in Health Care Organizations	<a href="http://alexispress.us/sdm_downloads/health-care-management/">http://alexispress.us/sdm_downloads/health-care-management/</a>
A Comprehensive Overview: Team Responsibility in Health Care	<a href="http://alexispress.us/sdm_downloads/health-care-management/">http://alexispress.us/sdm_downloads/health-care-management/</a>
Communities of Practice and Situated Learning in Health Care	<a href="http://alexispress.us/sdm_downloads/health-care-system-and-management/">http://alexispress.us/sdm_downloads/health-care-system-and-management/</a>
A Comprehensive Overview: Mobilizing Knowledge in Health Care	<a href="http://alexispress.us/sdm_downloads/health-care-system-and-management/">http://alexispress.us/sdm_downloads/health-care-system-and-management/</a>
A Discursive Approach to Organizational Health Communication	<a href="http://alexispress.us/sdm_downloads/health-care-system-and-management/">http://alexispress.us/sdm_downloads/health-care-system-and-management/</a>
A Comprehensive Overview: Patient Safety and Quality	<a href="http://alexispress.us/sdm_downloads/health-care-system-and-management/">http://alexispress.us/sdm_downloads/health-care-system-and-management/</a>
Digital Technology: Analysing Implementing E-Health	<a href="http://alexispress.us/sdm_downloads/health-care-system-and-management/">http://alexispress.us/sdm_downloads/health-care-system-and-management/</a>
Paradox of Health Care Performance Measurement and Management	<a href="http://alexispress.us/sdm_downloads/health-care-system-and-management/">http://alexispress.us/sdm_downloads/health-care-system-and-management/</a>
Health Care Transparency in Organizational Perspective	<a href="http://alexispress.us/sdm_downloads/health-care-system-and-management/">http://alexispress.us/sdm_downloads/health-care-system-and-management/</a>
A Comprehensive Overview: Replacing Care for Patient	<a href="http://alexispress.us/sdm_downloads/health-care-system-and-management/">http://alexispress.us/sdm_downloads/health-care-system-and-management/</a>
Inter Organizational Networks in Health Care	<a href="http://alexispress.us/sdm_downloads/health-care-system-and-management/">http://alexispress.us/sdm_downloads/health-care-system-and-management/</a>
A Comprehensive Overview: Public–Private Partnerships in Health Care	<a href="http://alexispress.us/sdm_downloads/health-care-system-and-management/">http://alexispress.us/sdm_downloads/health-care-system-and-management/</a>
A Comprehensive Overview: Accountability in Health Care	<a href="http://alexispress.us/sdm_downloads/health-care-system-and-management/">http://alexispress.us/sdm_downloads/health-care-system-and-management/</a>
Pharmaceuticals, Money, and the Health Care Organizational Field	<a href="http://alexispress.us/sdm_downloads/health-care-system-and-management/">http://alexispress.us/sdm_downloads/health-care-system-and-management/</a>
Business, Primary and Secondary Market and Analysis	<a href="http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/</a>
An Overview of Board of Directors	<a href="http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/</a>

Role of Stock Exchanges in Financial Market	<a href="http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/</a>
An Overview of the Secondary Market	<a href="http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/</a>
Fundamental Analysis of Business Model	<a href="http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/</a>
Fundamental Analysis for Traders	<a href="http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/</a>
Technical Analysis of Rule-Based Trading	<a href="http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/</a>
Business and Economics for Mutual Fund	<a href="http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/</a>
A Brief Study on Net Asset Value of Money Market	<a href="http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/</a>
An Overview of Risk Management Process	<a href="http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/</a>
A Brief Study on Credit Risk and Liquidity Risk	<a href="http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/</a>
A Brief Study on Basic Trades of Traded Stock Options	<a href="http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/</a>
Inflation Derivatives for Managing and Hedging Inflation-Related Risks	<a href="http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/security-analysis-and-portfolio-management/</a>
A Brief Discussion on Hedge Fund Risk	<a href="http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/</a>
Relationship Between Companies and Financial Analysts	<a href="http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/</a>
A Study on Trading Strategy for Day Trading	<a href="http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/</a>
A Brief Discussion on Bid Price and Financial Bidding	<a href="http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/</a>
A Brief Discussion on Process of Investment Management	<a href="http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/</a>
A Brief Discussion on Long-Term Debt Financing	<a href="http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/</a>
A Brief Discussion on Investment in Government Securities	<a href="http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/</a>
A Brief Discussion on Measurement of Risk and Return	<a href="http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/</a>

An Overview on Risk-return relationship	<a href="http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/</a>
Fundamental Aspect of Equity Shares Valuation	<a href="http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/</a>
Fundamental Analysis and Efficient Market	<a href="http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/</a>
A Brief Discussion on Importance of Industry Analysis	<a href="http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/">http://alexispress.us/sdm_downloads/holistic-approach-to-security-analysis-and-portfolio-management/</a>
Application of Communication Skill and Its Function	<a href="http://alexispress.us/sdm_downloads/advanced-technical-communication/">http://alexispress.us/sdm_downloads/advanced-technical-communication/</a>
An Overview on Level of Technical Communication	<a href="http://alexispress.us/sdm_downloads/advanced-technical-communication/">http://alexispress.us/sdm_downloads/advanced-technical-communication/</a>
Introduction to Problems of Communication	<a href="http://alexispress.us/sdm_downloads/advanced-technical-communication/">http://alexispress.us/sdm_downloads/advanced-technical-communication/</a>
Application of Verbal and Nonverbal Communication	<a href="http://alexispress.us/sdm_downloads/advanced-technical-communication/">http://alexispress.us/sdm_downloads/advanced-technical-communication/</a>
A Brief Introduction to Cultural and Linguistic Barriers, And Verbal Communication	<a href="http://alexispress.us/sdm_downloads/advanced-technical-communication/">http://alexispress.us/sdm_downloads/advanced-technical-communication/</a>
Importance and Application of Listening Skill	<a href="http://alexispress.us/sdm_downloads/advanced-technical-communication/">http://alexispress.us/sdm_downloads/advanced-technical-communication/</a>
Importance and Types of Interviews of Technical Communication	<a href="http://alexispress.us/sdm_downloads/advanced-technical-communication/">http://alexispress.us/sdm_downloads/advanced-technical-communication/</a>
Categories of Interview Questions and Basic of Interview	<a href="http://alexispress.us/sdm_downloads/advanced-technical-communication/">http://alexispress.us/sdm_downloads/advanced-technical-communication/</a>
Interdiction and Importance of Group Discussion	<a href="http://alexispress.us/sdm_downloads/advanced-technical-communication/">http://alexispress.us/sdm_downloads/advanced-technical-communication/</a>
Application and Advantages of Effective Reading Skills	<a href="http://alexispress.us/sdm_downloads/advanced-technical-communication/">http://alexispress.us/sdm_downloads/advanced-technical-communication/</a>
Application of Grammar and Vocabulary and Its Advantages	<a href="http://alexispress.us/sdm_downloads/advanced-technical-communication/">http://alexispress.us/sdm_downloads/advanced-technical-communication/</a>
Application of Written Communication and Its Future Requirement	<a href="http://alexispress.us/sdm_downloads/advanced-technical-communication/">http://alexispress.us/sdm_downloads/advanced-technical-communication/</a>
An Overview on Effective Presentation Strategies	<a href="http://alexispress.us/sdm_downloads/advanced-technical-communication/">http://alexispress.us/sdm_downloads/advanced-technical-communication/</a>
Introduction to Effective Presentation Strategies	<a href="http://alexispress.us/sdm_downloads/technical-communication-principles-and-practice/">http://alexispress.us/sdm_downloads/technical-communication-principles-and-practice/</a>
Future Scope, Application and Advantages of Letter Writing	<a href="http://alexispress.us/sdm_downloads/technical-communication-principles-and-practice/">http://alexispress.us/sdm_downloads/technical-communication-principles-and-practice/</a>
Application of Job and Its Features for Job Description	<a href="http://alexispress.us/sdm_downloads/technical-communication-principles-and-practice/">http://alexispress.us/sdm_downloads/technical-communication-principles-and-practice/</a>
Application of Technical Proposals and Its Advantages	<a href="http://alexispress.us/sdm_downloads/technical-communication-principles-and-practice/">http://alexispress.us/sdm_downloads/technical-communication-principles-and-practice/</a>

Application of Language Education and Scope	<a href="http://alexispress.us/sdm_downloads/technical-communication-principles-and-practice/">http://alexispress.us/sdm_downloads/technical-communication-principles-and-practice/</a>
Technical Communication Overview and Fundamental Aspect	<a href="http://alexispress.us/sdm_downloads/technical-communication-principles-and-practice/">http://alexispress.us/sdm_downloads/technical-communication-principles-and-practice/</a>
Introduction to Technical Listening and Speaking	<a href="http://alexispress.us/sdm_downloads/technical-communication-principles-and-practice/">http://alexispress.us/sdm_downloads/technical-communication-principles-and-practice/</a>

Strategies for Analyzing the Business Environment: Insights for Informed Decision-making	<a href="http://alexispress.us/sdm_downloads/organisation-s-and-the-business-environment/">http://alexispress.us/sdm_downloads/organisation-s-and-the-business-environment/</a>
A Brief Introduction to Supply Chain Management System	<a href="http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/">http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/</a>
The Global Impact: Applications and Responsibilities	<a href="http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/">http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/</a>
Components of the Supply Chain Management	<a href="http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/">http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/</a>
Objective and Importance of Supply Chain Management	<a href="http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/">http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/</a>
Supply Chain Performance: Achieving Strategic Fit and Scope	<a href="http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/">http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/</a>
Introduction to Supply Chain Drivers and Metrics	<a href="http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/">http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/</a>
Designing Distribution Networks and Applications to Online Sales	<a href="http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/">http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/</a>
Manufacturer Storage: Direct Shipping and In-Transit Merge	<a href="http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/">http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/</a>
Application of Network Design in Supply Chain Management	<a href="http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/">http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/</a>
An Introduction to Designing Global Supply Chain Networks	<a href="http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/">http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/</a>
A Brief Overview: Risk Management in Global Supply Chain	<a href="http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/">http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/</a>
Demand Forecasting in the Supply Chain: Anticipating Market Needs	<a href="http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/">http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/</a>
Aggregate Planning in a Supply Chain: Balancing Capacity and Demand	<a href="http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/">http://alexispress.us/sdm_downloads/principle-of-supply-chain-management/</a>

Sales and Operations Planning: Demand in a Supply Chain	<a href="http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/">http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/</a>
A Brief Introduction to Coordination in a Supply Chain	<a href="http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/">http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/</a>
Managing Economies of Scale in a Supply Chain: Cycle Inventory	<a href="http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/">http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/</a>
Managing Uncertainty in a Supply Chain: Safety Inventory	<a href="http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/">http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/</a>
Meeting Consumer Demands: Organizational Strategies in Supply Chain	<a href="http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/">http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/</a>
A Brief Overview: Optimal Level of Product Availability	<a href="http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/">http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/</a>
A Brief Overview: Transportation in Supply Chain Management	<a href="http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/">http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/</a>
Risk Management in Transportation: Efficient Supply Chain Operations	<a href="http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/">http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/</a>
An Introduction to Sourcing Decisions in a Supply Chain	<a href="http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/">http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/</a>
Basic Introduction to Pricing and Revenue Management in a Supply Chain	<a href="http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/">http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/</a>
Introduction to Information Technology and Its Application	<a href="http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/">http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/</a>
Sustainability and Supply Chain: Balancing Environmental	<a href="http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/">http://alexispress.us/sdm_downloads/inventory-and-production-management-in-supply-chains/</a>
An Overview of Enterprise Resource Planning (ERP)	<a href="http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/">http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/</a>
A Brief Study on ERP and Related Technology	<a href="http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/">http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/</a>
A Brief Study on Business Process Re-Engineering	<a href="http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/">http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/</a>
Manufacturing Perspective of ERP	<a href="http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/">http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/</a>
Analysis of ERP Modules	<a href="http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/">http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/</a>
Evaluation of Enterprise Resource Planning (ERP) Benefits	<a href="http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/">http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/</a>

An Overview of Enterprise Resource Planning (ERP) Market	<a href="http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/">http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/</a>
A Study on Enterprise Resource Planning (ERP) Implementation Lifecycle	<a href="http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/">http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/</a>
A Brief Study on Enterprise Resource Planning (ERP) Vendors, Consultants and Users	<a href="http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/">http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/</a>
A Brief Discussion on Enterprise Resource Planning (ERP) Future Directions	<a href="http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/">http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/</a>
A Brief Introduction on ERP-II	<a href="http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/">http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/</a>
A Brief Study on Building and Deploying an Information System	<a href="http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/">http://alexispress.us/sdm_downloads/erp-and-integrated-business-processes/</a>
A Study on Case Study – ERP SAP Implementation	<a href="http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/">http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/</a>
A Study on Case Study – ERP Application on Supply Chain	<a href="http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/">http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/</a>
Introduction About the Business Processes	<a href="http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/">http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/</a>
Introduction about the Enterprise Systems	<a href="http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/">http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/</a>
A Brief Discussion on Accounting	<a href="http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/">http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/</a>
Accounts in the GL00 Chart of Accounts	<a href="http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/">http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/</a>
Master Data and Key Concepts of Procurement	<a href="http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/">http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/</a>
A Brief Discussion on Fulfillment Process	<a href="http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/">http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/</a>
A Brief Study on Production Process	<a href="http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/">http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/</a>
Inventory and Warehouse Management Processes	<a href="http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/">http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/</a>
A Brief Discussion on Material Planning Process	<a href="http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/">http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/</a>
A Study on Understanding Process Integration	<a href="http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/">http://alexispress.us/sdm_downloads/integrated-business-processes-with-erp-systems/</a>
Introduction to Consumer Behavior	<a href="http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/">http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/</a>
Psychographic or Lifestyle Segmentation and Environmental Influences	<a href="http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/">http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/</a>
Concept of Culture and Subculture	<a href="http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/">http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/</a>
Cultural Variations in Non-Verbal Communications	<a href="http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/">http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/</a>
A Brief Study on Social Class in Consumer Behavior	<a href="http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/">http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/</a>

Analysis of Social Group in Consumer Behavior	<a href="http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/">http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/</a>
Family Buying Influences, Family Life Cycle and Buying Roles	<a href="http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/">http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/</a>
Analysis of Diffusion of Innovation	<a href="http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/">http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/</a>
Role of Motivation and Involvement in Consumer Behavior	<a href="http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/">http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/</a>
Individual Determinants and Personality and Self Concept	<a href="http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/">http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/</a>
Information Processing Learning and Memory	<a href="http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/">http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/</a>
Purchasing Process and Outlet Selection	<a href="http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/">http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/</a>
Purchase Behavior and Post-Purchase Behavior	<a href="http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/">http://alexispress.us/sdm_downloads/consumer-behavior-and-advertising-management/</a>
Overview of Organizational Buying Behavior	<a href="http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/">http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/</a>
Strategies for Advertising and Advertising Campaign Planning	<a href="http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/">http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/</a>
Message Creation and Copywriting in Advertising Management	<a href="http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/">http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/</a>
Understanding the Models of Consumer Behavior	<a href="http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/">http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/</a>
Analysis the Consumerism in consumer behavior	<a href="http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/">http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/</a>
Role of E-Consumer Behavior in Customer Delight	<a href="http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/">http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/</a>
Decision-Making Process in Consumer Behavior	<a href="http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/">http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/</a>
Analysis of Consumer Research	<a href="http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/">http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/</a>
A Study on Changing Consumer Behavior	<a href="http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/">http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/</a>
Overview of Advertising Management	<a href="http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/">http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/</a>
Analysis the Process of Advertising	<a href="http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/">http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/</a>
A Study on Management of Advertising Agency	<a href="http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/">http://alexispress.us/sdm_downloads/contemporary-marketing-and-consumer-behavior/</a>
Organizational Behaviour: Fundamental Concepts and Principles	<a href="http://alexispress.us/sdm_downloads/organizational-behaviour-and-human-resources-dynamics/">http://alexispress.us/sdm_downloads/organizational-behaviour-and-human-resources-dynamics/</a>
Selection of Stimuli: Influencing Perception and Response	<a href="http://alexispress.us/sdm_downloads/organizational-behaviour-and-human-resources-dynamics/">http://alexispress.us/sdm_downloads/organizational-behaviour-and-human-resources-dynamics/</a>

Cognitive Learning Theory: Understanding Mental Processes in Learning	<a href="http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/">http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/</a>
Explores the Importance of Charismatic Leadership Theory	<a href="http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/">http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/</a>
Different Stages of Group Development: Forming to Performing	<a href="http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/">http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/</a>
Organizational Behaviour & Foundations of Individual Behaviour	<a href="http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/">http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/</a>
Job Satisfaction: Understanding Employee Contentment at Work	<a href="http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/">http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/</a>
Explores the Three Ego states: Communication and Behavior	<a href="http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/">http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/</a>
Affective Events Theory: Emotions and Their Impact on Work	<a href="http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/">http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/</a>
Group Dynamics & Team Development: Building Effective Collaborations	<a href="http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/">http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/</a>
Aspect of Organizational Success: Group Performance	<a href="http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/">http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/</a>
Strategic Conflict Management: Navigating Disputes for Positive Outcomes	<a href="http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/">http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/</a>
Human Resource Management and Planning: Aligning Talent with Goals	<a href="http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/">http://alexispress.us/sdm_downloads/organization-al-behaviour-and-human-resources-dynamics/</a>
Conservative Attitude of Top Management: Balancing Stability and Innovation	<a href="http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/">http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/</a>
Fundamental Processes of Recruitment & Selection	<a href="http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/">http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/</a>
Methods of Recruitment for Organization: Attracting and Selecting Talent	<a href="http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/">http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/</a>
Aspect of Human Resource Management: Importance of Talent Retention	<a href="http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/">http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/</a>
Training and Development: Nurturing Employee Growth and Skills	<a href="http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/">http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/</a>
People Capability Maturity Model: Enhancing Organizational Capabilities	<a href="http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/">http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/</a>
Structured Approach: Performance Management System	<a href="http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/">http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/</a>

Explores Different Methods of Performance Appraisal	<a href="http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/">http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/</a>
Exploring key Components of Compensation Management	<a href="http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/">http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/</a>
Managing Industrial Relations: Strategies for Harmony and Productivity	<a href="http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/">http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/</a>
Reason Behind different Approaches to Industrial Relations	<a href="http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/">http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/</a>
Industrial Disputes: Causes and Types Explored	<a href="http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/">http://alexispress.us/sdm_downloads/understanding-the-basic-dynamics-of-organizing/</a>
Women's Empowerment in India: Towards Equality and Progress	<a href="http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/">http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/</a>
Gender Discrimination in India: Breaking the Shackles of Inequality	<a href="http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/">http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/</a>
Advancing Women's Rights: Striving for Equality and Empowerment	<a href="http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/">http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/</a>
Women's Movements in India: A Journey towards Equality and Empowerment	<a href="http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/">http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/</a>
Breaking the Chains: The Movement against Dowry in India	<a href="http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/">http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/</a>
Balancing Health and Work: Health Conditions and Work-Related Issues of Indian	<a href="http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/">http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/</a>
Family Planning and Welfare: Promoting Reproductive Health and Sustainable Development	<a href="http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/">http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/</a>
Breaking the Barriers: Addressing Work-Related Issues - Prejudices, Sex-Related Violence, and Gender Discrimination	<a href="http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/">http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/</a>
Political, Social and Economic Conditions of Women	<a href="http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/">http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/</a>
Trailblazers of Independence: Women in India's Freedom Struggle	<a href="http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/">http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/</a>
Economic Conditions: Prostitution and the Struggle for Dignity and Empowerment	<a href="http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/">http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/</a>
Nurturing Equality: Exploring the Social and Economic Conditions of Women	<a href="http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/">http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/</a>
Breaking the Cycle: Combating Domestic Violence against Women	<a href="http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/">http://alexispress.us/sdm_downloads/women-empowerment-and-gender-parity/</a>
Empowering Minds: Women's Education in India	<a href="http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/">http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/</a>
Striving for Fairness: Equality of Opportunities and Equity	<a href="http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/">http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/</a>
Nurturing Excellence: An Overview on Quality in Education	<a href="http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/">http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/</a>
Advancing Together: Women and Development	<a href="http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/">http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/</a>

Breaking Barriers: An Overview on Women in Decision Making	<a href="http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/">http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/</a>
Driving Progress: Women in National Development	<a href="http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/">http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/</a>
Creating Pathways for Success: Quality Learning Environments	<a href="http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/">http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/</a>
Empowering Vulnerable Groups: Socioeconomic and Cultural Interventions for Inclusive Development	<a href="http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/">http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/</a>
Unleashing Potential: Women Education and Empowerment in India	<a href="http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/">http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/</a>
Breaking Barriers: Women Empowerment through Sports	<a href="http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/">http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/</a>
Bridging the Gap: The Need for Women Empowerment in R&D Wings of Science and Technology	<a href="http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/">http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/</a>
Educators for Empowerment: Women as Educationists	<a href="http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/">http://alexispress.us/sdm_downloads/women-empowerment-challenges-and-strategies/</a>
Introduction of the Water Resources and Its Benefits	<a href="http://alexispress.us/sdm_downloads/integrated-approach-water-resources/">http://alexispress.us/sdm_downloads/integrated-approach-water-resources/</a>
Water Resources Sustainability: Ensuring Responsible Management	<a href="http://alexispress.us/sdm_downloads/integrated-approach-water-resources/">http://alexispress.us/sdm_downloads/integrated-approach-water-resources/</a>
Challenges to Water Resources Sustainability: Preserving a Vital Resource	<a href="http://alexispress.us/sdm_downloads/integrated-approach-water-resources/">http://alexispress.us/sdm_downloads/integrated-approach-water-resources/</a>
Water Budgets: Managing the Balance of Water Resources	<a href="http://alexispress.us/sdm_downloads/integrated-approach-water-resources/">http://alexispress.us/sdm_downloads/integrated-approach-water-resources/</a>
Hydraulic Processes: Understanding Flow and Hydrostatic Forces	<a href="http://alexispress.us/sdm_downloads/integrated-approach-water-resources/">http://alexispress.us/sdm_downloads/integrated-approach-water-resources/</a>
Control Volume Approach in Hydro Systems: Analysis and Applications	<a href="http://alexispress.us/sdm_downloads/integrated-approach-water-resources/">http://alexispress.us/sdm_downloads/integrated-approach-water-resources/</a>
Features of Hydraulic Processes: Pressurized Pipe Flow	<a href="http://alexispress.us/sdm_downloads/integrated-approach-water-resources/">http://alexispress.us/sdm_downloads/integrated-approach-water-resources/</a>
Hydraulic Processes: Open-Channel Flow Analysis and Characteristics	<a href="http://alexispress.us/sdm_downloads/integrated-approach-water-resources/">http://alexispress.us/sdm_downloads/integrated-approach-water-resources/</a>
Application of the Specific Energy, Momentum, and Specific Force	<a href="http://alexispress.us/sdm_downloads/integrated-approach-water-resources/">http://alexispress.us/sdm_downloads/integrated-approach-water-resources/</a>
Hydraulic Processes: Groundwater Flow and Aquifer Dynamics	<a href="http://alexispress.us/sdm_downloads/integrated-approach-water-resources/">http://alexispress.us/sdm_downloads/integrated-approach-water-resources/</a>
Saturated Flow: Understanding Fluid Movement in Porous Media	<a href="http://alexispress.us/sdm_downloads/integrated-approach-water-resources/">http://alexispress.us/sdm_downloads/integrated-approach-water-resources/</a>
Steady-State Well Hydraulics: Analysis of Aquifer Behavior and Well Performance	<a href="http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/">http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/</a>
Transient Well Hydraulics in Unconfined Aquifers: Time-dependent Behavior	<a href="http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/">http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/</a>

Groundwater Resources: Exploration, Assessment, and Management	<a href="http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/">http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/</a>
Hydrologic Processes: Understanding the Movement and Distribution of Water	<a href="http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/">http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/</a>
Atmospheric and Ocean Circulation: Drivers of Climate and Weather Patterns	<a href="http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/">http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/</a>
Estimated Limiting Storms: Understanding Extreme Weather Events	<a href="http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/">http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/</a>
Surface Runoff: Hydrological Process and Its Impacts	<a href="http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/">http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/</a>
Synthetic Unit Hydrographs: Estimating Rainfall-Runoff Relationships	<a href="http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/">http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/</a>
Reservoir and Stream Flow Routing: Modelling Water Movement in Systems	<a href="http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/">http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/</a>
Features of Kinematic Wave Model for Channels	<a href="http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/">http://alexispress.us/sdm_downloads/water-resource-systems-planning-and-management/</a>

  
 DIRECTOR  
 REGIONAL COLLEGE OF MANAGEMENT BANGALORE  
 Devanahalli, Bangalore
